PROCEEDINGS AND DEBATES OF THE 102^d CONGRESS, SECOND SESSION

SENATE—*Wednesday, October 7, 1992*

(Legislative day of Wednesday, September 30, 1992)

The Senate met at 12 noon, on the expiration of the recess, and was called to order by the Honorable CHARLES S. ROBB, a Senator from the State of Virginia.

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray:

Behold, how good and how pleasant it is for brethren to dwell together in unity!—Psalm 133:1.

Eternal God, gracious Father in heaven, thank You for the wisdom and patience of leadership in resolving a frustrating and potentially explosive situation in the Senate. Guide and direct in these closing hours that all that ought to be done will be and that the Senate will adjourn, satisfied that it has accomplished all it could in the 102d Congress. May these final hours be ones of blessing and a sense of achievement.

To the glory of God and the welfare of the Nation. Amen.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business not to extend beyond the hour of 2 p.m. with Senators permitted to speak therein for not to exceed 5 minutes each.

THE JOURNAL

The ACTING PRESIDENT pro tempore. The Chair recognizes the majority leader, Senator MITCHELL.

Mr. MITCHELL. Mr. President, am I correct in my understanding that the Journal of proceedings has been approved to date?

The ACTING PRESIDENT pro tempore. The Senator is correct.

SCHEDULE

Mr. MITCHELL. Mr. President and Members of the Senate, as just stated by the Chair, there will now be a period for morning business not to extend beyond the hour of 2 p.m., and during this period for morning business I anticipate that under the leadership of Senators FORD and SIMPSON, the Senate will be acting on a number of measures which have been cleared on both sides of the aisle.

At 2 p.m., pursuant to an agreement reached late last evening, the Senate will proceed to debate the pending Reclamation Act under an agreement which provides that 4 hours will be under the control of Senator SEYMOUR and 2 hours under the control of Senator BRADLEY.

As I announced last night and I repeat today for the information of Senators, the agreement which was reached last evening is printed on pages 2 and 3 of the calendar, and as Senators will note there will be rollcall votes tomorrow beginning at 11 a.m. on the energy conference report, followed by votes with intervening debate as set forth in the order on the reclamation bill conference report and finally on the tax bill conference report.

It is my hope and my intention that the Senate will complete its business tomorrow following the disposition of those measures and other matters which we hope to clear prior to the time of adjournment tomorrow.

I thank my colleagues for their cooperation.

Mr. President, I thank the distinguished whips, Senator FORD and Senator SIMPSON, for their cooperation and participation in the discussions which led to this agreement yesterday, and I now yield the floor.

The ACTING PRESIDENT pro tempore. The Chair recognizes the Senator from Wyoming [Mr. SIMPSON].

Mr. SIMPSON. Mr. President, I want to commend Senator MITCHELL and Senator DOLE for their extraordinary work yesterday in getting us through a very troublesome situation. It was done with great comity and cooperation, and I am very pleased we have reached that result. I want to pay my respects to both of them and to the staff on both sides of the aisle.

It is a remarkable staff, professional staff. The reason it functions well for all of us is because there is a great element of trust between the two staffs. Yes, we have our partisan agendas. We do our partisan work. But when it comes down to giving one's word, I do not think I have ever seen a more positive relationship between the Democratic staff and the Republican staff on the professional level in this Chamber. And thanks to the Senate staff who must be approaching fatigue, there will be a long golden October waiting for you in a very few hours.

And so with that, the former Governor of Kentucky and I are left with 1 metric yard of material to churn through, and we will do it with great skill and grace, I am sure.

Mr. FORD. Mr. President, let me join with my colleague and friend from Wyoming, the assistant Republican leader, in saying how good it is to work together. I was brought up, as he was, that our word is our bond, and I feel that once that word is given here between the leadership, it is the goal and the path we follow.

Let me reiterate a point or two that he made about the staff. No group of men and women could work any harder, any better, and with more patience. That is on both sides of the aisle. I personally am grateful for not only their hard work but their friendship and their willingness to stay long hours and to work diligently to accomplish the goals of the Senators that they work for and in the best interests of our constituents.

JOHN HEINZ CONGRESSIONAL FELLOWSHIP PROGRAM

Mr. FORD. So, Mr. President, I ask unanimous consent the Senate proceed

• This "bullet" symbol identifies statements or insertions which are not spoken by a member of the Senate on the floor.

to the immediate consideration of Senate Resolution 356, the John Heinz Senate Fellowship Program, a resolution submitted earlier today by Senators WOFFORD, SPECTER, and WIRTH.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

A resolution (S. Res. 356) to establish a John Heinz Congressional Fellowship Program.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the resolution?

There being no objection, the Senate proceeded to consider the resolution.

Mr. WOFFORD. Mr. President, I came to the Senate 18 months ago under tragic circumstances, the death of John Heinz. At that time I vowed to do my best to carry on the strong legacy of the man who had served Pennsylvania with such grace and distinction.

Today, as the 102d Congress ends, I join with Senator Heinz' colleague, Senator SPECTER and his close friend, Senator WIRTH to submit legislation to create a congressional fellowship for children's issues to honor the life and continue the legacy of Senator John Heinz.

From his earliest days in Congress, John Heinz was a strong voice for children. John Heinz fought to decrease infant mortality by improving access to prenatal care. He led the effort to expand Medicaid eligibility for poor children, and to improve access to drug treatment, especially for pregnant women. And he was a crusader for a better American educational system—fighting for early intervention programs, for our public schools and for building opportunities for more children to attend college. It is up to each one of us to continue work on John Heinz' children's agenda.

The resolution I submit today creates the John Heinz Congressional Fellowship. These fellows will bring their firsthand experience in children's issues to the work of Congress. Teachers will spend a year to help us to learn about the effects of Federal policies on our schools. Social workers will help us find better ways to protect our Nation's children from abuse and neglect. And child health care providers will help us to build a health care system where no child falls through the cracks.

The fellowship will also enable us to identify and train new leaders in child protection, children's health, and education policy. The fellows will return to their work and their communities with new understanding about how to work with Government to build better lives for children.

The Heinz Family Foundation—which has a long history of work on behalf of children—is ideally suited to help administer and oversee the John Heinz Congressional Fellowship Program. Teresa Heinz is the chairman and CEO of the Heinz Family Foundation, and will be involved in the program. Recipients will be placed on the staff of a committee which works on children's issues—or on the personal staff of a member whose focus is children's issues.

John Heinz was dedicated to building a safer, more caring world for our children. John Heinz congressional fellows will help the Senate continue that commitment to our Nation's children.

Mr. President, in closing, I am reminded of words used to describe the life of Martin Luther King: "His life informed us, his dreams sustain us yet."

Mr. President, I yield the floor.

Mr. SPECTER. Mr. President, this resolution to establish a John Heinz Congressional Fellowship Program is a fitting tribute to my late colleague and dear friend.

During his 20 years in the Congress, John Heinz compiled an enviable record of accomplishments. While he was successful in many areas, he built a national reputation for his strong commitment to the welfare and education of our Nation's children. As John traveled throughout Pennsylvania, he saw first hand the concern for the infant mortality rate, the lack of adequate health care for children and families, and poor nutritional diets of infants and children.

These concerns led Senator Heinz to lead the effort to improve Medicaid coverage for pregnant women and children, improve access to vital nutrition programs for pregnant women, infants, and children, and provide drug treatment and prenatal care for pregnant women in an effort to improve the health of infants.

Mr. President, the resolution we are introducing today will help continue the efforts of Senator Heinz to give our Nation's children a healthy start. The fellowship will be offered to two individuals who have demonstrated achievement in the areas of child abuse, drug prevention, day care, and child support.

As I have traveled through Pennsylvania since the loss of Senator Heinz, I have heard frequent comments about how much the people of the Commonwealth miss his service. I think this resolution to recognize the efforts of a great American is truly worthwhile. I urge the Senate's consideration and prompt enactment.

Mr. WIRTH. Mr. President, I rise in support of the resolution authorizing the creation of a congressional fellowship in honor of our late friend and colleague Senator John Heinz. This legislation would appropriately recognize Senator Heinz' contribution and commitment to children, by allowing those with experience in children's issues to learn about and contribute to our public policy efforts here in the Senate.

It is widely known that senior citizens had no greater friend than John Heinz. His work, however, was dedicated not only to the last leg of life's journey, but also to the dawning of it. Throughout his career, John Heinz dedicated himself to enhancing opportunities for America's children.

He believed Government should look after children, particularly children of the poor. He was devoted to ending the horror of child abuse, and outraged at the emergence of crack-addicted babies. He joined with Senator MOYNIHAN to introduce the Healthy Mothers, Healthy Babies Act to provide basic care for pregnant women in the throes of drug dependency. This commonsense approach was based on the premise that by treating one life, we might save many more.

John Heinz was also disturbed by the tragedy of infant mortality and the neglect of our disadvantaged children. "Literally millions of children enter life with less than a fair chance at a dream," he wrote. And he did something about it. He authored legislation to provide Medicaid benefits to poor children.

He created a Government endowment to produce educational children's television programming and wrote a bill to establish special nutrition projects at food banks. He wrote the Excellence in Education Act. He fought to eliminate discrimination with regard to coverage for treatment of mental illness under Medicare.

I have highlighted only a small part of the extraordinary legacy Senator John Heinz has left to our children and their grandchildren. It would be most fitting if, through this legislation, we in this body could further his commitment to our kids. This legislation would utilize Senate contingency funding to bring teachers, social and health care workers—anyone engaged in the often thankless task of aiding our children—to the Senate to further their experience and contribution.

By establishing such a program to help train a new generation of leaders—in child protection, health, welfare, and education policy—we can help ensure that public policy in the future is characterized by the same attention and care to issues of our children as they were by Senator Heinz in the past.

The ACTING PRESIDENT pro tempore. Is there further debate? If not, the question is on agreeing to the resolution.

The resolution (S. Res. 356) was agreed to, as follows:

S. RES. 356

Resolved,

SECTION 1. SHORT TITLE.

This resolution may be cited as the "John Heinz Senate Fellowship Program Resolution".

SEC. 2. FINDINGS.

The Senate finds that—

(1) Senator John Heinz believed that congress has a special responsibility to serve as the guardian for those who cannot protect themselves;

(2) Senator Heinz dedicated much of this congressional career to improving the lives of children; and

(3) it is especially appropriate to honor the memory of Senator Heinz through the creation of a Senate fellowship program to encourage the identification and training of new leadership in child protection, health, welfare and education policy and to bring experts with firsthand experience of children's issues to the assistance of the Congress in order to advance the development of public policy in issues that affect children.

SEC. 3. FELLOWSHIP PROGRAM.

(a) IN GENERAL.—In order to encourage the identification and training of new leadership in issues affecting children and to advance the development of public policy with respect thereto, there is established a John Heinz Senate Fellowship Program.

(b) SENATE FELLOWSHIPS.—The Heinz Family Foundation, in consultation with the Secretary of the Senate, is authorized to select Senate fellowship participants.

(c) SELECTION PROCESS.—The Heinz Family Foundation shall—

(1) publicize the availability of the fellowship program;

(2) develop and administer an application process for Senate fellowships; and

(3) conduct a screening of applicants for the fellowship program.

SEC. 4. COMPENSATION; NUMBER OF FELLOWSHIPS; PLACEMENT.

(a) COMPENSATION.—The Secretary of the Senate is authorized, from funds made available under section 5, to appoint and fix the compensation of each eligible participant selected under this resolution for a period determined by the Secretary.

(b) NUMBER OF FELLOWSHIPS.—No more than 2 fellowship participants shall be so employed. Any individual appointed pursuant to this resolution shall be subject to all laws, regulations and rules in the same manner and to the same extent as any other employee of the Senate.

(c) PLACEMENT.—The Secretary of the Senate, after consultation with the Majority Leader and Minority Leader of the Senate, shall place eligible participants in positions in the Senate that are, within practical considerations, supportive of the fellowship participants' areas of expertise.

SEC. 5. FUNDS.

The funds necessary to compensate eligible participants under this resolution for fiscal year 1993 shall be paid from the contingent fund of the Senate. Such funds shall not exceed, for fiscal year 1993, $71,000. There are authorized to be appropriated $71,000 for each of the fiscal years 1994 through 1997 to carry out the provisions of this resolution.

Mr. FORD. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ENVIRONMENTAL PROGRAMS ASSISTANCE ACT OF 1984 AMENDMENTS

Mr. FORD. Mr. President, I ask unanimous consent that the Environment and Public Works Committee be discharged from further consideration of S. 814, the Environmental Programs Assistance Act of 1984 amendments of 1991, and the Senate then proceed to its immediate consideration.

The ACTING PRESIDENT pro tempore. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (S. 814) to amend the Environmental Programs Assistance Act of 1984.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 3409

Mr. SIMPSON. Mr. President, I send an amendment to the desk on behalf of Senators CHAFEE, MOYNIHAN, and GRASSLEY, for immediate consideration.

The ACTING PRESIDENT pro tempore. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Wyoming [Mr. SIMPSON] for Mr. CHAFEE, (for himself, Mr. MOYNIHAN, and Mr. GRASSLEY), proposes an amendment numbered 3409.

Mr. SIMPSON. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

On page 1, line 5, strike "1991" and insert "1992".

Beginning on page 2, strike line 1 and all that follows through the end of the bill, and insert the following:

SEC. 2. AMENDMENTS TO THE ENVIRONMENTAL PROGRAMS ASSISTANCE ACT.

(a) IN GENERAL.—Section 2 of the Environmental Program Assistance Act of 1984 (42 U.S.C. 4368a) is amended by adding at the end the following new subsection:

"(d) Notwithstanding any other provision of law, any individual whose talents are authorized by section (a) to be used in connection with the programs administered by the Administrator of the Environmental Protection Agency shall have the same access as Federal employees have to, and shall be subject to the same penalties as Federal employees ares subject to for unauthorized disclosure of, trade secrets and confidential business information—

"(1) submitted in connection with—

"(A) the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.);

"(B) the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.);

"(C) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.);

"(D) the Clean Air Act (42 U.S.C. 7401 et seq.);

"(E) the Public Health Service Act (42 U.S.C. 201 et seq.), including section 1445(d) of such Act (42 U.S.C. 300j-4(d));

"(F) the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.);

"(G) the Toxic Substances Control Act (15 U.S.C. 2601 et seq.);

"(H) the Noise Control Act of 1972 (42 U.S.C. 4901 et seq.), including section 13(b) of such Act (42 U.S.C. 4912(b));

"(I) section 408(f) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(f)); or

"(J) the Emergency Planning and Community Right-To-Know Act of 1986 (42 U.S.C. 1101 et seq.);

"(2) submitted pursuant to any contract or other agreement with the United States; or

"(3) otherwise obtained by an officer or employee of the Environmental Protection Agency under any authority.

(b) APPLIABILITY OF ETHICS AND CONFLICT OF INTEREST PROVISIONS UNDER TITLE 18, UNITED STATES CODE.—Section 2 of such Act (42 U.S.C. 4368a), as amended by subsection (a), is further amended by adding at the end the following new subsection:

"(e) Any individual whose talents and authorized by subsection (a) to be used in connection with the programs administration by the Administrator of the Environmental Protection Agency shall be subject to the requirements of sections 201 through 209 of title 18, United States Code (relating to ethics and conflict of interest).".

(c) TRADE SECRETS AND CONFIDENTIAL BUSINESS INFORMATION DEFINED.—Section 2 of such Act (42 U.S.C. 4368a), as amended by subsection (b), is further amended by adding at the end the following new subsection:

"(f) For purposes of this section, the term 'trade secrets and confidential business information' includes all information prohibited from disclosure by section 1905 of title 18, United States Code (relating to trade secrets), or by any other law referred to in this section.".

SEC. 3. SUNSET PROVISION.

The amendment made by section 2(a) shall be effective during the 2-year period beginning on the date of enactment of this Act.

The ACTING PRESIDENT pro tempore. Without objection, the amendment (No. 3409) is agreed to.

Mr. MOYNIHAN. Mr. President, I am pleased to support the passage of S. 814, a bill by Senator GRASSLEY to amend to the Environmental Programs Assistance Act of 1984. Senator CHAFEE, Senator GRASSLEY and I are offering amendments to the bill.

The Senior Environmental Employment Program, established by the Environmental Programs Assistance Act, has greatly strengthened the Environmental Protection Agency. Currently, SEE employees comprise 11 percent of EPA's work force, performing a variety of critical functions that range from the opening of mail to staffing hot lines and the compilation of data.

EPA's Office of General Counsel recently issued an opinion that SEE employees are largely prohibited from viewing confidential business information. EPA responded immediately and responsibly by prohibiting SEE employees from viewing such information. Legislation is now needed to provide the authority for SEE employees to review confidential data. Unless we provide such statutory authority, environmental protection will suffer, and meaningful employment will be denied to a dedicated and talented group of senior citizens.

The SEE Program has bipartisan support, and it is strongly supported by the administration. Mr. President, I urge my colleagues to support the passage of this bill.

Mr. CHAFEE. Mr. President, I want to express my strong support for passage of S. 814, a bill authored by Senator GRASSLEY, which will allow members of the Senior Environmental Employment Program at the Environmental Protection Agency to better perform their jobs. In short, this bill will provide SEE enrollees the same access to confidential business information as Federal employees.

You may ask why SEE enrollees need this access. The mission of the agency involves receipt of a large amount of confidential business information. The affected SEE enrollee staff perform functions such as opening mail, filing, answering phones, staffing hot lines, providing support to agency enforcement activities, and compiling data, etc. In order for SEE enrollees to continue performing these functions of support, EPA has informed us that it must have the authority to provide SEE enrollees access to confidential business information.

However, SEE enrollees, under this bill, as amended, will be subject to the same penalties as Federal employees for unauthorized disclosure of confidential business information. These penalties include criminal prosecution under the Trade Secrets Act and the Toxic Substances Control Act.

Most importantly, Mr. President, this legislation will allow SEE employees to more effectively perform their jobs. Legislation creating the SEE Program was developed in 1982, and supported by a number of Senators, including Senators GRASSLEY, MITCHELL, BAUCUS, STAFFORD, and myself. Since this program was signed into law in 1984, SEE enrollees have demonstrated beyond a doubt that they are a valuable asset to EPA in accomplishing its mission.

The SEE Program draws upon the vast pool of talent, experience and skills possessed by retired and older workers who wish to supplement retirement income. The purposes of the SEE Program are:

To give Americans age 55 and older an opportunity to use their skills in creative and meaningful jobs.

To demonstrate to the public and private sectors the tremendous productive wealth and talent of older Americans.

To supplement EPA staff in critical skill areas.

It is clear that the work being performed by SEE enrollees provides critical support in accomplishing the goals and objectives of EPA in protecting the environment. I hope my colleagues will join with me in supporting this bill.

Mr. GRASSLEY. Mr. President, I rise today to support passage by the Senate of legislation which would provide Senior Environmental Employment [SEE] Program enrollees at the Environmental Protection Agency with the same access to information needed to do their jobs that regular EPA employees presently have. I want to stress to my colleagues that it is very important to pass this legislation before the Senate adjourns this year, for reasons I will make clear shortly.

The Senior Environmental Employment Program began some years ago as a demonstration project jointly supported by the Administration on Aging in the then Department of Health, Education and Welfare, and the Environmental Protection Agency. The primary purpose of the project was to demonstrate ways in which older Americans could be effectively employed in jobs relating to the prevention, abatement and control of environmental pollution.

Over several years, considerable experience was accumulated with older workers in environmental protection activities. Older workers surveyed waste dumps, conducted surveys of hazardous waste products produced by industries, studied the extent to which migrant workers were exposed to pesticides, among other activities.

Then, in 1984, Senators Stafford, Heinz, SPECTER, PELL and myself introduced legislation to make the program permanent. The Environment and Public Works Committee agreed unanimously to report the legislation, and it was passed by the Senate on March 26, 1984, and signed by the President on June 12, 1984.

The SEE Program has been supported consistently by the leadership of EPA. The legislation which made the program permanent was strongly supported by the then EPA Administrator, William Ruckelshaus. The program has also caused no problems for other, career, EPA employees, since the managers of the program and the agency personnel office must insure that employment of SEE workers does not displace currently employed individuals, interfere with the employment of any Federal employee in layoff status, or affect existing contracts for services.

Older workers are hired by the SEE Program through contracts or cooperative agreements that EPA concludes with several of the national aging organizations. Prominently, involved have been the American Association of retired persons, the National Council of Aging, and the National Caucus and Center on the Black Aged.

Mr. President, this is a program which has conclusively demonstrated that older workers constitute a valuable resource whose talents we should make every effort to continue to use. In this program, the SEE workers are knowledgeable, often former EPA employees, or professionals who have worked in related fields.

It is important to pass this legislation today because the general counsel at the Environmental Protection Agency has ruled that the workers in question do not have the legal authority to review, in the course of their work, materials considered to contain proprietary information.

Many of the SEE Program enrollees perform functions such as opening mail, filing documents, clerical support, answering telephones, staffing hot lines, providing support to agency enforcement activities and compiling data. The general counsel's ruling will make it impossible for these enrollees to perform these functions. As a consequence, many, if not most of them, face the loss of their jobs. Furthermore, given that SEE enrollees constitute some 10 percent of the EPA's total employment, the agency will lose the considerable useful work now done by these enrollees.

The legislation now under consideration would make it clear that these enrollees are empowered to review such materials.

It is important to stress that these workers are under the close supervision of EPA officials. Furthermore, they are mature individuals with long histories of work comparable to work they would be performing for EPA. In other words, I believe they would be able to handle such information in a responsible way.

Mr. President, I urge my colleagues to support this legislation.

The ACTING PRESIDENT pro tempore. Are there further amendments. If not, the question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 814

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Environmental Programs Assistance Act of 1984 Amendments of 1992".

SEC. 2. AMENDMENTS TO THE ENVIRONMENTAL PROGRAMS ASSISTANCE ACT.

(a) IN GENERAL.—Section 2 of the Environmental Program Assistance Act of 1984 (42 U.S.C. 4368a) is amended by adding at the end the following new subsection:

"(d) Notwithstanding any other provision of law, any individual whose talents are authorized by subsection (a) to be used in connection with the programs administered by the Administrator of the Environmental Protection Agency shall have the same access as Federal employees have to, and shall be subject to the same penalties as Federal employees are subject to for unauthorized disclosure of, trade secrets and confidential business information—

"(1) submitted in connection with—

"(A) the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.);

"(B) the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.);

"(C) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.);

"(D) the Clean Air Act (42 U.S.C. 7401 et seq.);

"(E) the Public Health Service Act (42 U.S.C. 201 et seq.), including section 1445(d) of such Act (42 U.S.C. 300j-4(d));

"(F) the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.);

"(G) the Toxic Substances Control Act (15 U.S.C. 2601 et seq.);

"(H) the Noise Control Act of 1972 (42 U.S.C. 4901 et seq.), including section 13(b) of such Act (42 U.S.C. 4912(b));

"(I) section 408(f) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(f)); or

"(J) the Emergency Planning and Community Right-To-Know Act of 1986 (42 U.S.C. 11001 et seq.);

"(2) submitted pursuant to any contract or other agreement with the United States; or

"(3) otherwise obtained by an officer or employee of the Environmental Protection Agency under any authority.

(b) APPLICABILITY OF ETHICS AND CONFLICT OF INTEREST PROVISIONS UNDER TITLE 18, UNITED STATES CODE.—Section 2 of such Act (42 U.S.C. 4368a), as amended by subsection (a), is further amended by adding at the end the following new subsection:

"(e) Any individual whose talents are authorized by subsection (a) to be used in connection with the programs administered by the Administrator of the Environmental Protection Agency shall be subject to the requirements of sections 201 through 209 of title 18, United States Code (relating to ethics and conflict of interest).".

(c) TRADE SECRETS AND CONFIDENTIAL BUSINESS INFORMATION DEFINED.—Section 2 of such Act (42 U.S.C. 4368a), as amended by subsection (b), is further amended by adding at the end the following new subsection:

"(f) For purposes of this section, the term 'trade secrets and confidential business information' includes all information prohibited from disclosure by section 1905 of title 18, United States Code (relating to trade secrets), or by any other law referred to in this section.".

SEC. 3. SUNSET PROVISION.

The amendment made by section 2(a) shall be effective during the 2-year period beginning on the date of enactment of this Act.

Mr. FORD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AUDIO HOME RECORDING ACT OF 1992

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives in S. 1623.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1623) entitled "An Act to amend title 17, United States Code, to implement a royalty payment system and a serial copy management system for digital audio recording, to prohibit certain copyright infringement actions, and for other purposes", do pass with the following amendment:

Strike out all after the enacting clause, and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Audio Home Recording Act of 1992".

SEC. 2. IMPORTATION, MANUFACTURE, AND DISTRIBUTION OF DIGITAL AUDIO RECORDING DEVICES AND MEDIA.

Title 17, United States Code, is amended by adding at the end the following:

"CHAPTER 10—DIGITAL AUDIO RECORDING DEVICES AND MEDIA

"SUBCHAPTER A—DEFINITIONS

"Sec.
"1001. Definitions.

"SUBCHAPTER B—COPYING CONTROLS

"1002. Incorporation of copying controls.

"SUBCHAPTER C—ROYALTY PAYMENTS

"1003. Obligation to make royalty payments.
"1004. Royalty payments.
"1005. Deposit of royalty payments and deduction of expenses.
"1006. Entitlement to royalty payments.
"1007. Procedures for distributing royalty payments.

"SUBCHAPTER D—PROHIBITION ON CERTAIN INFRINGEMENT ACTIONS, REMEDIES, AND ARBITRATION

"1008. Prohibition on certain infringement actions.
"1009. Civil remedies.
"1010. Arbitration of certain disputes.

"SUBCHAPTER A—DEFINITIONS

"§1001. Definitions

"As used in this chapter, the following terms have the following meanings:

"(1) A 'digital audio copied recording' is a reproduction in a digital recording format of a digital musical recording, whether that reproduction is made directly from another digital musical recording or indirectly from a transmission.

"(2) A 'digital audio interface device' is any machine or device that is designed specifically to communicate digital audio information and related interface data to a digital audio recording device through a nonprofessional interface.

"(3) A 'digital audio recording device' is any machine or device of a type commonly distributed to individuals for use by individuals, whether or not included with or as part of some other machine or device, the digital recording function of which is designed or marketed for the primary purpose of, and that is capable of, making a digital audio copied recording for private use, except for—

"(A) professional model products, and

"(B) dictation machines, answering machines, and other audio recording equipment that is designed and marketed primarily for the creation of sound recordings resulting from the fixation of nonmusical sounds.

"(4)(A) A 'digital audio recording medium' is any material object in a form commonly distributed for use by individuals, that is primarily marketed or most commonly used by consumers for the purpose of making digital audio copied recordings by use of a digital audio recording device.

"(B) Such term does not include any material object—

"(i) that embodies a sound recording at the time it is first distributed by the importer or manufacturer; or

"(ii) that is primarily marketed and most commonly used by consumers either for the purpose of making copies of motion pictures or other audiovisual works or for the purpose of making copies of nonmusical literary works, including computer programs or data bases.

"(5)(A) A 'digital musical recording' is a material object—

"(i) in which are fixed, in a digital recording format, only sounds, and material, statements, or instructions incidental to those fixed sounds, if any, and

"(ii) from which the sounds and material can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device.

"(B) A 'digital musical recording' does not include a material object—

"(i) in which the fixed sounds consist entirely of spoken word recordings, or

"(ii) in which one or more computer programs are fixed, except that a digital musical recording may contain statements or instructions constituting the fixed sounds and incidental material, and statements or instructions to be used directly or indirectly in order to bring about the perception, reproduction, or communication of the fixed sounds and incidental material.

"(C) For purposes of this paragraph—

"(i) a 'spoken word recording' is a sound recording in which are fixed only a series of spoken words, except that the spoken words may be accompanied by incidental musical or other sounds, and

"(ii) the term 'incidental' means related to and relatively minor by comparison.

"(6) 'Distribute' means to sell, lease, or assign a product to consumers in the United States, or to sell, lease, or assign a product in the United States for ultimate transfer to consumers in the United States.

"(7) An 'interested copyright party' is—

"(A) the owner of the exclusive right under section 106(1) of this title to reproduce a sound recording of a musical work that has been embodied in a digital musical recording or analog musical recording lawfully made under this title that has been distributed;

"(B) the legal or beneficial owner of, or the person that controls, the right to reproduce in a digital musical recording or analog musical recording a musical work that has been embodied in a digital musical recording or analog musical recording lawfully made under this title that has been distributed;

"(C) a featured recording artist who performs on a sound recording that has been distributed; or

"(D) any association or other organization—

"(i) representing persons specified in subparagraph (A), (B), or (C), or

"(ii) engaged in licensing rights in musical works to music users on behalf of writers and publishers.

"(8) To 'manufacture' means to produce or assemble a product in the United States. A 'manufacturer' is a person who manufactures.

"(9) A 'music publisher' is a person that is authorized to license the reproduction of a particular musical work in a sound recording.

"(10) A 'professional model product' is an audio recording device that is designed, manufactured, marketed, and intended for use by recording professionals in the ordinary course of a lawful business, in accordance with such requirements as the Secretary of Commerce shall establish by regulation.

"(11) The term 'serial copying' means the duplication in a digital format of a copyrighted musical work or sound recording from a digital reproduction of a digital musical recording. The term 'digital reproduction of a digital musical recording' does not include a digital musical recording as distributed, by authority of the copyright owner, for ultimate sale to consumers.

"(12) The 'transfer price' of a digital audio recording device or a digital audio recording medium—

"(A) is, subject to subparagraph (B)—

"(i) in the case of an imported product, the actual entered value at United States Customs (exclusive of any freight, insurance, and applicable duty), and

"(ii) in the case of a domestic product, the manufacturer's transfer price (FOB the manufacturer, and exclusive of any direct sales taxes or excise taxes incurred in connection with the sale); and

"(B) shall, in a case in which the transferor and transferee are related entities or within a single entity, not be less than a reasonable arms-length price under the principles of the

regulations adopted pursuant to section 482 of the Internal Revenue Code of 1986, or any successor provision to such section.

"(13) A 'writer' is the composer or lyricist of a particular musical work.

"SUBCHAPTER B—COPYING CONTROLS

"§1002. Incorporation of copying controls

"(a) PROHIBITION ON IMPORTATION, MANUFACTURE, AND DISTRIBUTION.—No person shall import, manufacture, or distribute any digital audio recording device or digital audio interface device that does not conform to—

"(1) the Serial Copy Management System;

"(2) a system that has the same functional characteristics as the Serial Copy Management System and requires that copyright and generation status information be accurately sent, received, and acted upon between devices using the system's method of serial copying regulation and devices using the Serial Copy Management System; or

"(3) any other system certified by the Secretary of Commerce as prohibiting unauthorized serial copying.

"(b) DEVELOPMENT OF VERIFICATION PROCEDURE.—The Secretary of Commerce shall establish a procedure to verify, upon the petition of an interested party, that a system meets the standards set forth in subsection (a)(2).

"(c) PROHIBITION ON CIRCUMVENTION OF THE SYSTEM.—No person shall import, manufacture, or distribute any device, or offer or perform any service, the primary purpose or effect of which is to avoid, bypass, remove, deactivate, or otherwise circumvent any program or circuit which implements, in whole or in part, a system described in subsection (a).

"(d) ENCODING OF INFORMATION ON DIGITAL MUSICAL RECORDINGS.—

"(1) PROHIBITION ON ENCODING INACCURATE INFORMATION.—No person shall encode a digital musical recording of a sound recording with inaccurate information relating to the category code, copyright status, or generation status of the source material for the recording.

"(2) ENCODING OF COPYRIGHT STATUS NOT REQUIRED.—Nothing in this chapter requires any person engaged in the importation or manufacture of digital musical recordings to encode any such digital musical recording with respect to its copyright status.

"(e) INFORMATION ACCOMPANYING TRANSMISSIONS IN DIGITAL FORMAT.—Any person who transmits or otherwise communicates to the public any sound recording in digital format is not required under this chapter to transmit or otherwise communicate the information relating to the copyright status of the sound recording. Any such person who does transmit or otherwise communicate such copyright status information shall transmit or communicate such information accurately.

"SUBCHAPTER C—ROYALTY PAYMENTS

"§1003. Obligation to make royalty payments

"(a) PROHIBITION ON IMPORTATION AND MANUFACTURE.—No person shall import into and distribute, or manufacture and distribute, any digital audio recording device or digital audio recording medium unless such person records the notice specified by this section and subsequently deposits the statements of account and applicable royalty payments for such device or medium specified in section 1004.

"(b) FILING OF NOTICE.—The importer or manufacturer of any digital audio recording device or digital audio recording medium, within a product category or utilizing a technology with respect to which such manufacturer or importer has not previously filed a notice under this subsection, shall file with the Register of Copyrights a notice with respect to such device or medium, in such form and content as the Register shall prescribe by regulation.

"(c) FILING OF QUARTERLY AND ANNUAL STATEMENTS OF ACCOUNT.—

"(1) GENERALLY.—Any importer or manufacturer that distributes any digital audio recording device or digital audio recording medium that it manufactured or imported shall file with the Register of Copyrights, in such form and content as the Register shall prescribe by regulation, such quarterly and annual statements of account with respect to such distribution as the Register shall prescribe by regulation.

"(2) CERTIFICATION, VERIFICATION, AND CONFIDENTIALITY.—Each such statement shall be certified as accurate by an authorized officer or principal of the importer or manufacturer. The Register shall issue regulations to provide for the verification and audit of such statements and to protect the confidentiality of the information contained in such statements. Such regulations shall provide for the disclosure, in confidence, of such statements to interested copyright parties.

"(3) ROYALTY PAYMENTS.—Each such statement shall be accompanied by the royalty payments specified in section 1004.

"§1004. Royalty payments

"(a) DIGITAL AUDIO RECORDING DEVICES.—

"(1) AMOUNT OF PAYMENT.—The royalty payment due under section 1003 for each digital audio recording device imported into and distributed in the United States, or manufactured and distributed in the United States, shall be 2 percent of the transfer price. Only the first person to manufacture and distribute or import and distribute such device shall be required to pay the royalty with respect to such device.

"(2) CALCULATION FOR DEVICES DISTRIBUTED WITH OTHER DEVICES.—With respect to a digital audio recording device first distributed in combination with one or more devices, either as a physically integrated unit or as separate components, the royalty payment shall be calculated as follows:

"(A) If the digital audio recording device and such other devices are part of a physically integrated unit, the royalty payment shall be based on the transfer price of the unit, but shall be reduced by any royalty payment made on any digital audio recording device included within the unit that was not first distributed in combination with the unit.

"(B) If the digital audio recording device is not part of a physically integrated unit and substantially similar devices have been distributed separately at any time during the preceding 4 calendar quarters, the royalty payment shall be based on the average transfer price of such devices during those 4 quarters.

"(C) If the digital audio recording device is not part of a physically integrated unit and substantially similar devices have not been distributed separately at any time during the preceding 4 calendar quarters, the royalty payment shall be based on a constructed price reflecting the proportional value of such device to the combination as a whole.

"(3) LIMITS ON ROYALTIES.—Notwithstanding paragraph (1) or (2), the amount of the royalty payment for each digital audio recording device shall not be less than $1 nor more than the royalty maximum. The royalty maximum shall be $8 per device, except that in the case of a physically integrated unit containing more than 1 digital audio recording device, the royalty maximum for such unit shall be $12. During the 6th year after the effective date of this chapter, and not more than once each year thereafter, any interested copyright party may petition the Copyright Royalty Tribunal to increase the royalty maximum and, if more than 20 percent of the royalty payments are at the relevant royalty maximum, the Tribunal shall prospectively increase such royalty maximum with the goal of having no more than 10 percent of such payments at the new royalty maximum; however the amount of any such increase as a percentage of the royalty maximum shall in no event exceed the percentage increase in the Consumer Price Index during the period under review.

"(b) DIGITAL AUDIO RECORDING MEDIA.—The royalty payment due under section 1003 for each digital audio recording medium imported into and distributed in the United States, or manufactured and distributed in the United States, shall be 3 percent of the transfer price. Only the first person to manufacture and distribute or import and distribute such medium shall be required to pay the royalty with respect to such medium.

"§1005. Deposit of royalty payments and deduction of expenses

"The Register of Copyrights shall receive all royalty payments deposited under this chapter and, after deducting the reasonable costs incurred by the Copyright Office under this chapter, shall deposit the balance in the Treasury of the United States as offsetting receipts, in such manner as the Secretary of the Treasury directs. All funds held by the Secretary of the Treasury shall be invested in interest-bearing United States securities for later distribution with interest under section 1007. The Register may, in the Register's discretion, 4 years after the close of any calendar year, close out the royalty payments account for that calendar year, and may treat any funds remaining in such account and any subsequent deposits that would otherwise be attributable to that calendar year as attributable to the succeeding calendar year. The Register shall submit to the Copyright Royalty Tribunal, on a monthly basis, a financial statement reporting the amount of royalties under this chapter that are available for distribution.

"§1006. Entitlement to royalty payments

"(a) INTERESTED COPYRIGHT PARTIES.—The royalty payments deposited pursuant to section 1005 shall, in accordance with the procedures specified in section 1007, be distributed to any interested copyright party—

"(1) whose musical work or sound recording has been—

"(A) embodied in a digital musical recording or an analog musical recording lawfully made under this title that has been distributed, and

"(B) distributed in the form of digital musical recordings or analog musical recordings or disseminated to the public in transmissions, during the period to which such payments pertain; and

"(2) who has filed a claim under section 1007.

"(b) ALLOCATION OF ROYALTY PAYMENTS TO GROUPS.—The royalty payments shall be divided into 2 funds as follows:

"(1) THE SOUND RECORDINGS FUND.—66⅔ percent of the royalty payments shall be allocated to the Sound Recordings Fund. 2⅝ percent of the royalty payments allocated to the Sound Recordings Fund shall be placed in an escrow account managed by an independent administrator jointly appointed by the interested copyright parties described in section 1001(7)(A) and the American Federation of Musicians (or any successor entity) to be distributed to nonfeatured musicians (whether or not members of the American Federation of Musicians or any successor entity) who have performed on sound recordings distributed in the United States. 1⅜ percent of the royalty payments allocated to the Sound Recordings Fund shall be placed in an escrow account managed by an independent administrator jointly appointed by the interested copyright parties described in section 1001(7)(A) and the American Federation of Television and Radio Artists (or any successor entity) to be distributed to nonfeatured vocalists (whether or not members of the American Federation Television and Radio Artists or any successor entity) who have performed on sound recordings dis-

tributed in the United States. 40 percent of the remaining royalty payments in the Sound Recordings Fund shall be distributed to the interested copyright parties described in section 1001(7)(C), and 60 percent of such remaining royalty payments shall be distributed to the interested copyright parties described in section 1001(7)(A).

"(2) The Musical Works Fund.—

"(A) 33⅓ percent of the royalty payments shall be allocated to the Musical Works Fund for distribution to interested copyright parties described in section 1001(7)(B).

"(B)(i) Music publishers shall be entitled to 50 percent of the royalty payments allocated to the Musical Works Fund.

"(ii) Writers shall be entitled to the other 50 percent of the royalty payments allocated to the Musical Works Fund.

"(c) Allocation of Royalty Payments Within Groups.—If all interested copyright parties within a group specified in subsection (b) do not agree on a voluntary proposal for the distribution of the royalty payments within each group, the Copyright Royalty Tribunal shall, pursuant to the procedures specified under section 1007(c), allocate royalty payments under this section based on the extent to which, during the relevant period—

"(1) for the Sound Recordings Fund, each sound recording was distributed in the form of digital musical recordings or analog musical recordings; and

"(2) for the Musical Works Fund, each musical work was distributed in the form of digital musical recordings or analog musical recordings or disseminated to the public in transmissions.

"§1007. Procedures for distributing royalty payments

"(a) Filing of Claims and Negotiations.—

"(1) Filing of claims.—During the first 2 months of each calendar year after the calendar year in which this chapter takes effect, every interested copyright party seeking to receive royalty payments to which such party is entitled under section 1006 shall file with the Copyright Royalty Tribunal a claim for payments collected during the preceding year in such form and manner as the Tribunal shall prescribe by regulation.

"(2) Negotiations.—Notwithstanding any provision of the antitrust laws, for purposes of this section interested copyright parties within each group specified in section 1006(b) may agree among themselves to the proportionate division of royalty payments, may lump their claims together and file them jointly or as a single claim, or may designate a common agent, including any organization described in section 1001(7)(D), to negotiate or receive payment on their behalf; except that no agreement under this subsection may modify the allocation of royalties specified in section 1006(b).

"(b) Distribution of Payments in the Absence of a Dispute.—Within 30 days after the period established for the filing of claims under subsection (a), in each year after the year in which this section takes effect, the Copyright Royalty Tribunal shall determine whether there exists a controversy concerning the distribution of royalty payments under section 1006(c). If the Tribunal determines that no such controversy exists, the Tribunal shall, within 30 days after such determination, authorize the distribution of the royalty payments as set forth in the agreements regarding the distribution of royalty payments entered into pursuant to subsection (a), after deducting its reasonable administrative costs under this section.

"(c) Resolution of Disputes.—If the Tribunal finds the existence of a controversy, it shall, pursuant to chapter 8 of this title, conduct a proceeding to determine the distribution of royalty payments. During the pendency of such a proceeding, the Tribunal shall withhold from distribution an amount sufficient to satisfy all claims with respect to which a controversy exists, but shall, to the extent feasible, authorize the distribution of any amounts that are not in controversy. The Tribunal shall, before authorizing the distribution of such royalty payments, deduct its reasonable administrative costs under this section.

"SUBCHAPTER D—PROHIBITION ON CERTAIN INFRINGEMENT ACTIONS, REMEDIES, AND ARBITRATION

"§1008. Prohibition on certain infringement actions

"No action may be brought under this title alleging infringement of copyright based on the manufacture, importation, or distribution of a digital audio recording device, a digital audio recording medium, an analog recording device, or an analog recording medium, or based on the noncommercial use by a consumer of such a device or medium for making digital musical recordings or analog musical recordings.

"§1009. Civil remedies

"(a) Civil Actions.—Any interested copyright party injured by a violation of section 1002 or 1003 may bring a civil action in an appropriate United States district court against any person for such violation.

"(b) Other Civil Actions.—Any person injured by a violation of this chapter may bring a civil action in an appropriate United States district court for actual damages incurred as a result of such violation.

"(c) Powers of the Court.—In an action brought under subsection (a), the court—

"(1) may grant temporary and permanent injunctions on such terms as it deems reasonable to prevent or restrain such violation;

"(2) in the case of a violation of section 1002, or in the case of an injury resulting from a failure to make royalty payments required by section 1003, shall award damages under subsection (d);

"(3) in its discretion may allow the recovery of costs by or against any party other than the United States or an officer thereof; and

"(4) in its discretion may award a reasonable attorney's fee to the prevailing party.

"(d) Award of Damages.—

"(1) Damages for section 1002 or 1003 violations.—

"(A) Actual damages.—(i) In an action brought under subsection (a), if the court finds that a violation of section 1002 or 1003 has occurred, the court shall award to the complaining party its actual damages if the complaining party elects such damages at any time before final judgment is entered.

"(ii) In the case of section 1003, actual damages shall constitute the royalty payments that should have been paid under section 1004 and deposited under section 1005. In such a case, the court, in its discretion, may award an additional amount of not to exceed 50 percent of the actual damages.

"(B) Statutory damages for section 1002 violations.—

"(i) Device.—A complaining party may recover an award of statutory damages for each violation of section 1002 (a) or (c) in the sum of not more than $2,500 per device involved in such violation or per device on which a service prohibited by section 1002(c) has been performed, as the court considers just.

"(ii) Digital musical recording.—A complaining party may recover an award of statutory damages for each violation of section 1002(d) in the sum of not more than $25 per digital musical recording involved in such violation, as the court considers just.

"(iii) Transmission.—A complaining party may recover an award of damages for each transmission or communication that violates section 1002(e) in the sum of not more than $10,000, as the court considers just.

"(2) Repeated violations.—In any case in which the court finds that a person has violated section 1002 or 1003 within 3 years after a final judgment against that person for another such violation was entered, the court may increase the award of damages to not more than double the amounts that would otherwise be awarded under paragraph (1), as the court considers just.

"(3) Innocent violations of section 1002.—The court in its discretion may reduce the total award of damages against a person violating section 1002 to a sum of not less than $250 in any case in which the court finds that the violator was not aware and had no reason to believe that its acts constituted a violation of section 1002.

"(e) Payment of Damages.—Any award of damages under subsection (d) shall be deposited with the Register pursuant to section 1005 for distribution to interested copyright parties as though such funds were royalty payments made pursuant to section 1003.

"(f) Impounding of Articles.—At any time while an action under subsection (a) is pending, the court may order the impounding, on such terms as it deems reasonable, of any digital audio recording device, digital musical recording, or device specified in section 1002(c) that is in the custody or control of the alleged violator and that the court has reasonable cause to believe does not comply with, or was involved in a violation of, section 1002.

"(g) Remedial Modification and Destruction of Articles.—In an action brought under subsection (a), the court may, as part of a final judgment or decree finding a violation of section 1002, order the remedial modification or the destruction of any digital audio recording device, digital musical recording, or device specified in section 1002(c) that—

"(1) does not comply with, or was involved in a violation of, section 1002, and

"(2) is in the custody or control of the violator or has been impounded under subsection (f).

"§1010. Arbitration of certain disputes

"(a) Scope of Arbitration.—Before the date of first distribution in the United States of a digital audio recording device or a digital audio interface device, any party manufacturing, importing, or distributing such device, and any interested copyright party may mutually agree to binding arbitration for the purpose of determining whether such device is subject to section 1002, or the basis on which royalty payments for such device are to be made under section 1003.

"(b) Initiation of Arbitration Proceedings.—Parties agreeing to such arbitration shall file a petition with the Copyright Royalty Tribunal requesting the commencement of an arbitration proceeding. The petition may include the names and qualifications of potential arbitrators. Within 2 weeks after receiving such a petition, the Tribunal shall cause notice to be published in the Federal Register of the initiation of an arbitration proceeding. Such notice shall include the names and qualifications of 3 arbitrators chosen by the Tribunal from a list of available arbitrators obtained from the American Arbitration Association or such similar organization as the Tribunal shall select, and from potential arbitrators listed in the parties' petition. The arbitrators selected under this subsection shall constitute an Arbitration Panel.

"(c) Stay of Judicial Proceedings.—Any civil action brought under section 1009 against a party to arbitration under this section shall, on application of one of the parties to the arbitration, be stayed until completion of the arbitration proceeding.

"(d) Arbitration Proceeding.—The Arbitration Panel shall conduct an arbitration proceed-

ing with respect to the matter concerned, in accordance with such procedures as it may adopt. The Panel shall act on the basis of a fully documented written record. Any party to the arbitration may submit relevant information and proposals to the Panel. The parties to the proceeding shall bear the entire cost thereof in such manner and proportion as the Panel shall direct.

"(e) REPORT TO COPYRIGHT ROYALTY TRIBUNAL.—Not later than 60 days after publication of the notice under subsection (b) of the initiation of an arbitration proceeding, the Arbitration Panel shall report to the Copyright Royalty Tribunal its determination concerning whether the device concerned is subject to section 1002, or the basis on which royalty payments for the device are to be made under section 1003. Such report shall be accompanied by the written record, and shall set forth the facts that the Panel found relevant to its determination.

"(f) ACTION BY THE COPYRIGHT ROYALTY TRIBUNAL.—Within 60 days after receiving the report of the Arbitration Panel under subsection (e), the Copyright Royalty Tribunal shall adopt or reject the determination of the Panel. The Tribunal shall adopt the determination of the Panel unless the Tribunal finds that the determination is clearly erroneous. If the Tribunal rejects the determination of the Panel, the Tribunal shall, before the end of that 60-day period, and after full examination of the record created in the arbitration proceeding, issue an order setting forth its decision and the reasons therefor. The Tribunal shall cause to be published in the Federal Register the determination of the Panel and the decision of the Tribunal under this subsection with respect to the determination (including any order issued under the preceding sentence).

"(g) JUDICIAL REVIEW.—Any decision of the Copyright Royalty Tribunal under subsection (f) with respect to a determination of the Arbitration Panel may be appealed, by a party to the arbitration, to the United States Court of Appeals for the District of Columbia Circuit, within 30 days after the publication of the decision in the Federal Register. The pendency of an appeal under this subsection shall not stay the Tribunal's decision. The court shall have jurisdiction to modify or vacate a decision of the Tribunal only if it finds, on the basis of the record before the Tribunal, that the Arbitration Panel or the Tribunal acted in an arbitrary manner. If the court modifies the decision of the Tribunal, the court shall have jurisdiction to enter its own decision in accordance with its final judgment. The court may further vacate the decision of the Tribunal and remand the case for arbitration proceedings as provided in this section.".

SEC. 3. TECHNICAL AMENDMENTS.

(a) FUNCTIONS OF REGISTER.—Chapter 8 of title 17, United States Code is amended—

(1) in section 801(b)—

(A) by striking "and" at the end of paragraph (2);

(B) by striking the period at the end of paragraph (3) and inserting "; and"; and

(C) by adding the following new paragraph at the end:

"(4) to distribute royalty payments deposited with the Register of Copyrights under section 1003, to determine the distribution of such payments, and to carry out its other responsibilities under chapter 10"; and

(2) in section 804(d)—

(A) by inserting "or (4)" after "801(b)(3)"; and

(B) by striking "or 119" and inserting "119, or 1007".

(b) DEFINITIONS.—Section 101 of title 17, United States Code, is amended by striking "As used" and inserting "Except as otherwise provided in this title, as used".

(c) MASK WORKS.—Section 912 of title 17, United States Code, is amended—

(1) in subsection (a) by inserting "or 10" after "8"; and

(2) in subsection (b) by inserting "or 10" after "8".

(d) CONFORMING AMENDMENT TO SECTION 337 OF THE TARIFF ACT OF 1930.—The second sentence of section 337(b)(3) of the Tariff Act of 1930 (19 U.S.C. 1337(b)(3)) is amended to read as follows: "If the Commission has reason to believe that the matter before it (A) is based solely on alleged acts and effects which are within the purview of section 303, 671, or 673, or (B) relates to an alleged copyright infringement with respect to which action is prohibited by section 1008 of title 17, United States Code, the Commission shall terminate, or not institute, any investigation into the matter.".

SEC. 4. EFFECTIVE DATE.

This Act and the amendments made by this Act shall take effect on the date of the enactment of this Act.

Mr. FORD. Mr. President, I move that the Senate concur in the amendment of the House.

The ACTING PRESIDENT pro tempore. The question is on agreeing to the motion.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

CONCERNING UNITED STATES PARTICIPATION IN A CASCADIA CORRIDOR COMMISSION

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 6077, a bill concerning U.S. participation in the Corridor Commission.

The legislative clerk read as follows:

A bill (H.R. 6077) concerning United States participation in a Cascadia Corridor Commission.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 3410

(Purpose: To Express the sense of the Congress with respect to the Cascadia Corridor Commission)

Mr. FORD. Mr. President, I send a substitute amendment to the desk, and ask for its immediate consideration.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. ADAMS (for himself and Mr. GORTON), proposes an amendment numbered 3410.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

Strike all after the enacting clause and insert in lieu thereof the following:

SECTION 1. It is the sense of the Congress that—

(A) CASCADIA CORRIDOR COMMISSION.—The United States should continue negotiations with the Government of Canada and State, provincial, and local governments in the urbanized Cascadia corridor along Interstate 5/Highway 99 from Vancouver, British Columbia (including Vancouver Island), to Eugene, Oregon, in order to establish a commission to—

(1) act as a forum to coordinate consideration of regional issues in the Cascadia area by representatives from the private sector, nonprofit organizations, and local, State, provincial, regional, and national governments;

(2) develop a strategy for environmentally sound economic development in the Cascadia region which includes consideration of environmental issues, urban development, transportation, communications, and education; and

(3) submit a plan, developed by the commission and incorporating such strategy, to the Congress, the Canadian Parliament, the legislature of British Columbia, and the State legislatures of Oregon and Washington.

(B) ADVISORY COMMISSION.—The commission should be authorized to function only in an advisory capacity and should have no authority concerning any local, State, or Federal agency or government.

(C) COMPOSITION OF UNITED STATES DELEGATION.—If the United States and Canada conclude an agreement to establish such a commission concerning the Cascadia region, the United States delegation to the commission should include—

(1) 1 member appointed by the President, who should be a nonvoting member;

(2) a Washington State delegation; and

(3) an Oregon delegation.

(D) COST-SHARING AMONG U.S. DELEGATION.—Upon appointment of a United States delegation to such a commission, the United States delegation should decide the cost-sharing arrangements among the Federal, State, and local participants of the delegation. Federal Government contributions of the United States should not exceed one-fourth of the total budget of the commission for any fiscal year. If a Cascadia commission is established, it is the sense of the Congress that of funds appropriated for "International Commissions" for the Department of State $200,000 for fiscal year 1993 and $200,000 for fiscal year 1994 should be available for the commission.

The ACTING PRESIDENT pro tempore. Is there further debate?

If there is no further debate, the question is on agreeing to the amendment of the Senator from Washington.

The amendment (No. 3410) was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The ACTING PRESIDENT pro tempore. The question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read a third time.

The ACTING PRESIDENT pro tempore. The bill having been read the third time, the question is, Shall the bill pass?

So the bill (H.R. 6077), as amended, was passed.

Mr. FORD. Mr. President, I move to reconsider the vote by which the bill, as amended, was passed.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

CONCERNING UNITED STATES PARTICIPATION IN A CASCADIA CORRIDOR COMMISSION

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of House Concurrent Resolution 383, a concurrent resolution concerning the Corridor Commission; that the concurrent resolution be agreed to; the motion to reconsider be laid upon the table; and statements thereon appear in the RECORD at the appropriate place as though read.

The ACTING PRESIDENT pro tempore. Without objection it is so ordered.

So the concurrent resolution (S. Con. Res. 383) was agreed to.

JOHN PAUL HAMMERSCHMIDT FEDERAL BUILDING AND UNITED STATES COURTHOUSE

Mr. FORD. Mr. President, I ask unanimous consent that the Environment and Public Works Committee be discharged en bloc from consideration of the following bills: H.R. 3118, H.R. 3673, H.R. 3818, H.R. 4281, H.R. 5222, H.R. 5431, H.R. 5432, and H.R. 5831; and that the Senate then proceed en bloc to their immediate consideration; that the bills be deemed read three times, passed; and the motion to reconsider be laid upon the table en bloc; further, that any statements relative to the passage of these bills be placed in the RECORD at the appropriate place; and, the consideration of these items appear individually in the RECORD.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 3118) to designate Federal Office Building No. 9 located at 1900 E Street, NW., in the District of Columbia, as the "Theodore Roosevelt Federal Building" was deemed read three times and passed.

So the bill (H.R. 3673) to authorize a research program through the National Science Foundation on the treatment of contaminated water through membrane processes was deemed read three times and passed.

So the bill (H.R. 3818) to designate the building located at 80 North Hughey Avenue in Orlando, FL, as the "George C. Young United States Courthouse and Federal Building" was deemed read three times and passed.

So the bill (H.R. 4281) to designate the U.S. Federal Building and courthouse to be constructed at 5th and Ross Streets in Santa Ana, CA, as the "Ronald Reagan Federal Building and Courthouse" was deemed read three times and passed.

So the bill (H.R. 5431) to designate the Federal building located at 200 Federal Plaza in Paterson, NJ, as the "Robert A. Roe Federal Building" was deemed read three times and passed.

So the bill (H.R. 5222) to designate the Federal building and U.S. courthouse located at 204 South Main Street in South Bend, IN, as the "Robert A. Grant Federal Building and United States Courthouse" was deemed read three times and passed.

So the bill (H.R. 5831) to designate the Federal building located at Main and Church Streets in Victoria, TX, as the "Martin Luther King, Jr. Federal Building" was deemed read three times and passed.

So the bill (H.R. 5432) to designate the Federal building and U.S. courthouse located at the corner of College Avenue and Mountain Street in Fayetteville, AR, as the "John Paul Hammerschmidt Federal Building and United States Courthouse" was deemed read three times and passed.

ROBERT A. ROE BUILDING

• Mr. LAUTENBERG. Mr. President, I am pleased to support legislation to name the new Federal building in Paterson, NJ, for my retiring colleague and friend from New Jersey, Congressman BOB ROE.

This bill is a fitting tribute to the accomplishments of a man who has spent his adult life working for the people of New Jersey, and who has left such a mark on the infrastructure of this country.

Mr. President, I have known BOB ROE for more than 25 years. I am proud to have been able to call him my Congressman. I first knew him when I was a citizen and businessman actively involved in community affairs in New Jersey. Over the last 9 years, I have had the pleasure of working with him as a partner in the Congress in efforts to help our State and advance the cause of increasing American productivity and quality of life through investment in infrastructure across this country.

In 1967, in his capacity as Commissioner of the New Jersey Department of Conservation and Economic Development, BOB ROE attended the ground breaking of the Clifton, NJ, headquarters of my former company, ADP. Along with Joseph and Henry Taub, I founded ADP, and worked to build it into an industry leader that now employs more than 20,000 people worldwide. That ground breaking was an important event in my life and the lives of the people of ADP, and I was proud to have BOB ROE join us there.

BOB ROE was elected to Congress in 1969 to represent New Jersey's Eighth District. He rose through the ranks in the House, becoming chairman of the Science, Space, and Technology Committee in 1987, and then chairman of the Public Works and Transportation Committee in 1990. In that role, and as chairman of the Subcommittee on Water Resources for many years, BOB ROE established himself as a leader and an expert on infrastructure issues.

Last year, I worked closely with BOB ROE to help enact the landmark Intermodal Surface Transportation Efficiency Act of 1991, or ISTEA. This bill represented the largest shift in Federal transportation policy in 35 years. And, it was BOB ROE who led the efforts to get a bill through the House, and who chaired the conference committee that eventually worked out the details of ISTEA. As a member of the conference committee, I can assure my colleagues that managing that conference was no easy task. Significant policy positions were at stake, as was the question of transportation funding for every congressional district, and every State.

Mr. President, as a son of Paterson, I speak for all the residents of that city in saying that we will be proud to have the new Federal building named for BOB ROE. It is a building that he worked hard to have authorized and built. With enactment of this legislation, this building will serve as a lasting reminder of the efforts and accomplishments of BOB ROE.•

TELEPHONE DISCLOSURE AND DISPUTE RESOLUTION ACT

Mr. FORD. Mr. President. I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1579.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1579) entitled "An Act to provide for regulation and oversight of the development and application of the telephone technology known as pay-per-call, and for other purposes", do pass with the following amendments:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE, FINDINGS.

(a) SHORT TITLE.—This Act may be cited as the "Telephone Disclosure and Dispute Resolution Act".

(b) FINDINGS.—The Congress finds the following:

(1) The use of pay-per-call services, most commonly through the use of 900 numbers, has grown exponentially in the past few years. This payment mechanism is convenient to consumers, cost-effective to vendors, and profitable to communications common carriers.

(2) The interstate nature of the pay-per-call industry means that its activities are beyond the reach of individual States and therefore requires Federal regulatory treatment to protect the public interest.

(3) The lack of nationally uniform regulatory guidelines has led to confusion for consumers, industry, and regulatory agencies as to the rights of callers and the oversight responsibilities of regulatory authorities, and has allowed some pay-per-call businesses to engage in practices which abuse the rights of callers.

(4) Because the consumer most often incurs a financial obligation as soon as a pay-per-call transaction is initiated, the accuracy and descriptiveness of vendor advertisements become crucial in avoiding consumer abuse. The obligation for accuracy should include price-per-call and duration-of-call information, odds disclosure for lotteries, games, and sweepstakes, and obligations for obtaining parental consent from callers under 18.

(5) The continued growth of the legitimate pay-per-call industry is dependent upon consumer confidence that unfair and deceptive behavior will be effectively curtailed and that consumers will have adequate rights of redress.

(6) Vendors of telephone-billed goods and services must also feel confident in their rights and obligations for resolving billing disputes if they are to use this new marketplace for the sale of products of more than nominal value.

(7) Many applications employing audiotext technology such as lotteries, games, and sweepstakes, sometimes erroneously have informed consumers that they must utilize audiotext services to claim or win a prize, or have not adequately informed consumers of the right to participate in the same applications through other forms of entry.

(8) Some interstate audiotext services have offered programs aimed at children, inducing them to call such services without their parents' permission.

(9) Consequently, Congress should enact legislation that will offer consumers and vendors necessary protections and help facilitate the growth of a robust and competitive pay-per-call marketplace.

TITLE I—AUDIOTEXT INDUSTRY OBLIGATIONS AND CONSUMER RIGHTS

SEC. 101. AMENDMENT TO COMMUNICATIONS ACT OF 1934

Title II of the Communications Act of 1934 is amended by adding at the end thereof the following new section:

"SEC. 228. REGULATION OF AUDIOTEXT SERVICES.

"(a) PURPOSE.—It is the purpose of this section—

"(1) to put into effect a system of national regulation and review that will oversee the audiotext business;

"(2) to give the Commission authority to prescribe regulations and enforcement procedures and conduct oversight to afford reasonable protection to consumers and to assure that violations of this Act do not occur.

"(b) AUTHORITY FOR REGULATIONS.—

"(1) IN GENERAL.—The Commission shall, within 270 days after the date of enactment of this section, complete a rulemaking proceeding to establish a system for oversight and regulation of audiotext services in order to provide for the protection of consumers and providers in accordance with this Act and other applicable Federal statutes and regulations. The Commission's final rules shall—

"(A) include measures that provide a consumer of audiotext services with adequate and clear descriptions of the rights of the caller;

"(B) define the obligations of common carriers with respect to the provision of the audiotext services;

"(C) include requirements on such carriers to protect against abusive practices by providers of audiotext services;

"(D) prohibit customers from being disconnected from local exchange services for refusal to pay for audiotext services; and

"(E) identify procedures by which common carriers and providers of audiotext services may take affirmative steps to protect against nonpayment of legitimate charges.

"(2) MINIMUM STANDARDS FOR PROVIDERS OF AUDIOTEXT SERVICES.—The regulations required by paragraph (1) shall prohibit any common carrier from offering audiotext services of any provider of such services who fails—

"(A) to include in each audiotext message an introductory disclosure message that (i) describes the service being provided, (ii) specifies clearly and at a reasonably understandable volume the total cost or the cost per minute and any other fees for that service, and for any other audiotext service to which the caller may be transferred, (iii) informs the caller of the option to hang up at the end of the introductory message without incurring any charge, and (iv) informs the caller that parental consent is required for calls made by children;

"(B) to disable any bypass mechanism which allows frequent callers to avoid listening to the disclosure message described in subparagraph (A) after the institution of any price increase and for a period of time sufficient to give such frequent callers adequate and sufficient notice of the price change;

"(C) to stop the assessment of time-based charges immediately upon disconnection by the caller;

"(D) to include an appropriate and clear signal, at intervals determined by the Commission, where technically feasible, during live interactive group programs, to alert callers to the passage of time, and explain this signal in the disclosure required by subparagraph (A) for such programs, except that the requirements of this subparagraph do not apply to programs for which the caller is required to preregister or presubscribe; and

"(E) to comply with such additional standards as the Commission may prescribe to prevent abusive practices.

"(3) COMMON CARRIER OBLIGATIONS.—The regulations required by paragraph (1) shall require that any common carriers offering audiotext services shall—

"(A) require, pursuant to contract or tariff, that a provider of audiotext services comply with the regulations issued pursuant to paragraph (2), and terminate, in accordance with procedures specified in such regulations, the offering of an audiotext service of a provider if such service is not provided in compliance with such regulations;

"(B) ensure that a caller is not billed—

"(i) with respect to audiotext services provided in violation of the regulations issued pursuant to paragraph (2); or

"(ii) under such other circumstances as the Commission determines necessary in order to protect callers from abusive practices;

"(C) establish a local or a toll-free telephone number to answer questions and provide information on callers' rights and obligations with regard to their use of audiotext services and to provide to callers the name and mailing address of any provider of audiotext services offered by the common carrier;

"(D) within 60 days after the issuance of final regulations pursuant to paragraph (1), provide, either directly or through contract with any local exchange carrier that provides billing or collection services to the common carrier, to all of such common carrier's telephone subscribers, to all new subscribers, and to all subscribers requesting service at a new location, a disclosure statement that—

"(i) sets forth in clear, standard English, or other languages as specified by regulation, all rights and obligations held by the subscriber and the carrier with respect to the use and payment for audiotext services;

"(ii) describes any nonpayment option prescribed by the Commission under subparagraph (B) and the applicable blocking option; and

"(iii) provides an explanation of live interactive programming;

"(E) ensures that charges for audiotext services are stated separately on the bill from the sections relating to local and long distance telephone charges and that such statement includes the toll-free telephone number specified in subparagraph (C);

"(F) notify in writing the State regulatory commission of any State within which the carrier intends to offer audiotext services of such intention, which notification shall include a description of the service to be provided to telephone users within that State as well as a list of the carrier's policies and procedures;

"(G) subsequently make available to the State regulatory commission, upon request, a list of audiotext telephone numbers accessible by callers within that State through such carrier, which list shall include the name, business address, and business telephone number of the audiotext provider; and

"(H) obtain from any provider of audiotext services that solicits charitable contributions proof of the tax exempt status of any person or organization for which contributions are solicited.

"(4) BLOCKING REQUIREMENTS.—The regulations required by paragraph (1) shall require that any local exchange carrier carrying audiotext services shall offer callers the option of blocking access to all audiotext services from their telephone, whenever technologically feasible. Such regulation may permit the costs of such blocking to be recovered by contract or tariff, but such costs may not be recovered from local or long distance ratepayers. Such option shall be offered at no charge to the caller for a reasonable and appropriate period (established by the Commission in such regulations) after (A) the effective date of such regulation, (B) an ini-

tial connection, or (C) subscription for any new telephone line.

"(5) EXEMPTIONS FROM INTRODUCTORY MESSAGE REQUIREMENTS.—The regulations prescribed by the Commission pursuant to paragraph (2)(A) may exempt from the requirements of such paragraph—

"(A) calls from frequent callers or regular subscribers using a bypass mechanism to avoid listening to the disclosure message required by such regulations; or

"(B) audiotext services provided at nominal charges, as defined by the Commission in such regulations.

"(6) CONSUMER REFUND REQUIREMENTS.—The regulations required by paragraph (1) shall establish procedures, consistent with the provisions of titles II and III of the Telephone Disclosure and Dispute Resolution Act, to ensure that carriers offering audiotext services and other parties provide appropriate refunds to callers who have been billed for audiotext services pursuant to programs that have been found to have violated this subsection or such regulations or any other Federal, State, or local consumer protection law.

"(7) RECOMMENDATIONS ON DATA PAY-PER-CALL.—The Commission, within one year after the date of enactment of this section, shall submit to the Congress the Commission's recommendations with respect to the extension of regulations under this section to services that provide, for a per call charge, data services that are not audiotext services.

"(c) EFFECT ON OTHER LAW.—

"(1) NO PREEMPTION OF ELECTION LAW.—Nothing in this section shall relieve any information provider, common carrier, local exchange carrier, or any other person from the obligation to comply with Federal, State, and local election laws and regulations.

"(2) CONSUMER PROTECTION LAWS.—Nothing in this section shall relieve any provider of audiotext services, common carrier, local exchange carrier, or any other person from the obligation to comply with Federal, State, or local laws relating to consumer protection or unfair trade.

"(3) GAMBLING LAWS.—Nothing in this section shall preclude any State from enforcing its statutes and regulations with regard to lotteries, wagering, betting, and other gambling activities.

"(4) STATE AUTHORITY.—Nothing in this section shall preclude any State from enacting and enforcing additional and complementary oversight and regulatory systems or procedures, or both, so long as such systems and procedures do not significantly impede the enforcement of this section or other Federal statutes.

"(5) LIABILITY.—No cause of action may be brought in any court or administrative agency against any common carrier or any of its affiliates on account of any act of the carrier or affiliate, and which the carrier or affiliate shows to be in good faith, to terminate any audiotext service in order to comply with the regulations prescribed under subsection (b).

"(d) DEFINITIONS.—For purposes of this section—

"(1) The term 'audiotext services' means any service—

"(A) in which any person provides, through interstate telecommunications—

"(i) audio information or audio entertainment produced or packaged by such person; or

"(ii) access to simultaneous voice conversation services;

"(B) for which the caller pays a per-call or per-time-interval charge that is greater than, or in addition to, the charge for transmission of the call; and

"(C) the charge for which is billed and collected by a common carrier or local exchange carrier.

Such term does not include directory services provided by a common carrier or its affiliate or by a local exchange carrier or its affiliate or any service the charge for which is tariffed.

"(2) A common carrier 'offers audiotext services' by transmitting an audiotext service through interstate communications. A local exchange carrier shall not be considered to 'offer audiotext services' if the local exchange carrier only provides exchange access services or billing services, or both, to a common carrier in connection with the common carrier's offering of audiotext services.".

SEC. 102. TECHNICAL AMENDMENT.

Section 3(c) of the Telephone Consumer Protection Act of 1991 is amended by striking "section 228" and inserting "section 227".

TITLE II—USE OF THE 900 TELEPHONE NUMBER

SEC. 201. REGULATIONS.

(a) IN GENERAL.—

(1) The Federal Trade Commission shall prescribe rules, as described in this subsection, for any advertisement for services or products procured through the use of a telephone number with a 900 service access code or any other access code under which liability for the service or product provided attaches to the telephone bill of the individual calling such number. Such rules shall require that the person offering such services or products—

(A) clearly and conspicuously disclose in any advertising the cost of the use of such telephone number, including the rate per minute and, if applicable, for the duration of the call,

(B) in the case of an advertisement which offers a prize or award or a service or product at no cost or for a reduced cost, clearly and conspicuously disclose the odds of being able to receive such prize, award, service, or product at no cost or reduced cost, or, if such odds are not calculable in advance, disclose the factors determining such odds,

(C) in the case of individuals under the age of 18 using such telephone number, clearly and conspicuously state, where appropriate, in any advertising that such individual must have the consent of such individual's parent or legal guardian for the use of such telephone number, and

(D) be prohibited from using advertisements that emit electronic tones which can automatically dial a pay-per-call telephone number.

(2) The Commission shall by rule require a common carrier that provides telephone services to a vendor who uses the telephone number described in paragraph (1) to make available to the Commission any records and financial information maintained by such carrier relating to the arrangements (other than for the provision of local exchange service) between such carrier and vendor.

(3) A rule issued under paragraph (1) or (2) shall be treated as a rule issued under section 18(a)(1)(B) of the Federal Trade Commission Act (15 U.S.C. 57a(a)(1)(B)).

(b) RULEMAKING.—The Commission shall prescribe the rules under subsection (a) within 270 days after the date of enactment of this Act. Such rules shall be prescribed in accordance with section 553 of title 5, United States Code.

(c) ENFORCEMENT.—Any violation of any rule prescribed under subsection (a) shall be treated as a violation of a rule under section 5 of the Federal Trade Commission Act (15 U.S.C. 45) regarding unfair or deceptive acts or practices. Notwithstanding section 5(a)(2) of such Act (15 U.S.C. 45(a)(2)), communications common carriers shall be subject to the jurisdiction of the Commission for purposes of this Act.

SEC. 202. ACTIONS BY STATES.

(a) IN GENERAL.—Whenever an attorney general of any State has reason to believe that the interests of the residents of that State have been or are being threatened or adversely affected because any person has engaged or is engaging in a pattern or practice of telemarketing which violates any rule of the Commission under section 201(a)(1), the State may bring a civil action on behalf of its residents in an appropriate district court of the United States to enjoin such telemarketing, to enforce compliance with such rule of the Commission, to obtain damages on behalf of their residents, or to obtain such further and other relief as the court may deem appropriate.

(b) NOTICE.—The State shall serve prior written notice of any civil action under subsection (a) upon the Commission and provide the Commission with a copy of its complaint, except that if it is not feasible for the State to provide such prior notice, the State shall serve such notice immediately upon instituting such action. Upon receiving a notice respecting a civil action, the Commission shall have the right (1) to intervene in such action, (2) upon so intervening, to be heard on all matters arising therein, and (3) to file petitions for appeal.

(c) CONSTRUCTION.—For purposes of bringing any civil action under subsection (a), nothing in this Act shall prevent an attorney general from exercising the powers conferred on the attorney general by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel the attendance of witnesses or the production of documentary and other evidence.

(d) ACTIONS BY THE COMMISSION.—Whenever the Commission has instituted a civil action for violation of any rule prescribed under section 201, no State may, during the pendency of such action instituted by the Commission, institute a civil action under subsection (a) against any defendant named in the Commission's complaint for acts or omissions alleged in the complaint for violation of any rule as alleged in the Commission's complaint.

(e) ACTIONS BY OTHER STATE OFFICIALS.—

(1) Nothing contained in this section shall prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal statute of such State.

(2) In addition to actions brought by an attorney general of a State under subsection (a), such an action may be brought by officers of such State who are authorized by the State to bring actions in such State for protection of consumers and who are designated by the Commission to bring an action under subsection (a) against persons that the Commission has determined have or are engaged in a pattern or practice of telemarketing which violates a rule of the Commission under section 201.

SEC. 203. ADMINISTRATION AND APPLICABILITY OF TITLE.

(a) IN GENERAL.—Except as otherwise provided in section 202, this title shall be enforced by the Commission under the Federal Trade Commission Act (15 U.S.C. 41 et seq.). Consequently, no activity which is outside the jurisdiction of that Act shall be affected by this Act, except for purposes of this title.

(b) ACTIONS BY THE COMMISSION.—The Commission shall prevent any person from violating a rule of the Commission under section 201 in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this title. Any person who violates such rule shall be subject to the penalties and entitled to the privileges and immunities provided in the Federal Trade Commission Act in the same manner, by the same means, and with the same jurisdiction, power, and duties as though all applicable terms and provisions of the Federal

Trade Commission Act were incorporated into and made a part of this title.

SEC. 204. DEFINITIONS.

For purposes of this title:

(1) The term "attorney general" means the chief legal officer of a State.

(2) The term "State" means any State of the United States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, and any territory or possession of the United States.

(3) The term "Commission" means the Federal Trade Commission.

TITLE III—TELEPHONE SERVICES BILLING AND COLLECTION

SEC. 301. CORRECTION OF BILLING ERRORS.

(a) INITIATION OF BILLING REVIEW.—A customer may initiate a billing review under this section with respect to a telephone-billed purchase by sending, within 30 days after receipt of a billing statement from a billing carrier that contains a charge for such telephone-billed purchase, a written notice to that billing carrier in which the customer—

(1) sets forth or otherwise enables the billing carrier to identify the name of the customer and the phone number to which the charge was billed;

(2) indicates the customer's belief that the statement contains a billing error that relates to a telephone-billed purchase and the amount of such billing error; and

(3) sets forth the reasons for the customer's belief (to the extent applicable) that the statement contains a billing error.

(b) RESPONSE TO CUSTOMER NOTICE.—

(1) RESPONSE BY BILLING CARRIER.—A billing carrier that receives a notice from any customer under subsection (a) shall—

(A) if the billing error is described in section 308(6) (D), (E), or (F) or otherwise relates to the calculation of amounts due, be deemed to be a providing carrier for purposes of paragraph (2) of this subsection; or

(B) transmit such notice within 15 days to the providing carrier for the telephone-billed purchase to which the alleged billing error relates.

(2) RESPONSE BY PROVIDING CARRIER.—A providing carrier that receives from any customer a notice that meets the requirements of subsection (a) shall, unless the customer has, after giving such written notice and before the expiration of the time limits herein specified, agreed that the statement was correct—

(A) not later than 30 days after the receipt of the notice, unless the action required in subparagraph (B) is taken within such 30-day period, send a written acknowledgement thereof to the customer, which acknowledgement shall include the name, mailing address, and business telephone number of the vendor that is the subject of the notice, and

(B) not later than two complete billing cycles of the billing carrier (in no event later than 90 days) after the receipt of the notice and prior to taking any action to collect the amount, or any part thereof, indicated by the customer under subsection (a)(2) either—

(i) make appropriate corrections in the account of the customer, including the crediting of any related charges on amounts erroneously billed, and transmit to billing carrier and the customer a notification of such corrections and the providing carrier's explanation of any change in the amount indicated by the customer under subsection (a)(2) and, if any such change is made and the customer so requests, copies of documentary evidence of the customer's indebtedness; or

(ii) send a written explanation or clarification to the customer, after having conducted an investigation (including, where appropriate, contact with the vendor), setting forth to the extent applicable the reasons why the providing carrier believes the account of the customer was correctly shown in the statement and, upon request of the customer, provide copies of documentary evidence of the customer's indebtedness.

(3) INVESTIGATIONS CONCERNING DELIVERY OF TELEPHONE-BILLED PURCHASES.—In the case of a billing error where the customer alleges that the billing statement reflects goods or services not delivered to the customer in accordance with the stated terms of the transaction, a providing carrier may not construe such amount to be correctly shown unless the providing carrier investigates, with reasonable diligence, whether such goods or services were actually delivered or otherwise sent to the customer and provides the customer with a written statement of the results of such investigation.

(4) TERMINATION OF PROVIDING CARRIER RESPONSIBILITY.—After complying with the provisions of this subsection with respect to an alleged billing error, a providing carrier has no further responsibility under this section if the customer continues to make substantially the same allegation with respect to such error.

(5) PERMITTED ACTIONS BY BILLING CARRIERS.—Nothing in this title shall prohibit a billing carrier from removing a charge from a customer's billing statement upon receipt of a billing inquiry from the customer if the billing carrier—

(A) informs the appropriate providing carrier that the charge has been removed;

(B) informs the customer that removal of the charge does not limit customer liability for that charge if the vendor or providing carrier or its agent elects to pursue collection of the charge; and

(C) informs the customer that, to assure the protection of the customer's rights under this title, the customer must send a written notice in accordance with subsection (a).

(c) COLLECTION ACTIONS.—

(1) DEFINITION.—For the purposes of subsection (b)(2)(B) of this section, "action to collect the amount, or any part thereof, indicated by the customer under subsection (a)(2)" does not include the sending of statements of account, which may include late charges on amounts in dispute, to the customer following written notice from the customer as specified under subsection (a), if—

(A) the customer's account is not restricted or closed because of the failure of the customer to pay the amount indicated under subsection (a)(2), and

(B) the billing carrier indicates to the customer that the payment of such amount is not required pending the providing carrier's compliance with this section.

(2) NO EFFECT ON AMOUNTS NOT SUBJECT TO REVIEW.—Nothing in this section shall be construed to prohibit any action by a vendor, providing carrier, or billing carrier to collect any amount which has not been indicated by the customer under subsection (a)(2) to contain a billing error.

(d) FORFEITURE OF RIGHTS.—Any billing carrier or providing carrier who fails to comply with the requirements of this section or section 302 forfeits any right to collect from the customer the amount indicated by the customer under subsection (a)(2) of this section, and any late charges thereon.

SEC. 302. REGULATION OF REPORTS.

(a) ADVERSE REPORTS PROHIBITED.—After receiving a notice from a customer as provided in section 301, a vendor, billing carrier, providing carrier, or its agent may not directly or indirectly threaten to report to any person adversely on the customer's credit rating or credit standing because of the customer's failure to pay the amount indicated by the customer under section 301(a)(2), and such amount may not be reported as delinquent to any third party until the billing carrier or providing carrier has met the requirements of section 301 and has allowed the customer 20 days thereafter to make payment.

(b) REPORTS DURING CONTINUATION OF DISPUTE.—If a billing carrier or providing carrier receives a further written notice from a customer that an amount is still in dispute within the time allowed for payment under subsection (a) of this section, a vendor, billing carrier, or providing carrier or its agent may not report to any third party that the account of the customer is in arrears because the customer has failed to pay an amount indicated under section 301(a)(2), unless the vendor, billing carrier, providing carrier, or its agent also reports that the amount is in dispute and, at the same time, notifies the customer of the name and address of each party to whom the vendor, billing carrier, providing carrier, or its agent is reporting information concerning the arrearage.

(c) REPORTS OF RESOLUTIONS.—A vendor, billing carrier, providing carrier, or its agent shall report any subsequent resolution of any matter reported pursuant to subsection (b) to the parties to whom such matter was initially reported.

SEC. 303. PROMPT NOTIFICATION OF CREDIT.

With respect to any telephone-billed purchase where the vendor is a person other than the billing carrier, and where the vendor accepts or allows a forgiveness of a debit for the telephone-billed purchase, the vendor shall promptly transmit to the billing carrier a credit statement with respect thereto and the billing carrier shall credit the account of the customer for the amount of the purchase.

SEC. 304. RIGHTS OF CUSTOMERS.

A billing carrier or providing carrier who seeks to collect charges for a telephone-billed purchase from a customer for a vendor shall be subject to all claims (other than tort claims) and defenses arising out of any telephone-billed purchase in which the customer's telephone billing account is used as a method for collection, if the customer has made a good faith attempt to obtain satisfactory resolution of a disagreement or problem relative to the purchase from the vendor or providing carrier. In no event shall the billing carrier be liable for any amount greater than the amount billed to the customer for the purchase.

SEC. 305. RELATION TO STATE LAWS.

(a) STATE LAW APPLICABLE UNLESS INCONSISTENT.—This title does not annul, alter, or affect, or exempt any person subject to the provisions of this title from complying with, the laws of any State with respect to telephone billing practices, except to the extent that those laws are inconsistent with any provision of this title, and then only to the extent of the inconsistency. The Commission is authorized to determine whether such inconsistencies exist. The Commission may not determine that any State law is inconsistent with any provision of this chapter if the Commission determines that such law gives greater protection to the consumer.

(b) REGULATORY EXEMPTIONS.—The Commission shall by regulation exempt from the requirements of this title any class of telephone-billed purchase transactions within any State if it determines that under the law of that State that class of transactions is subject to requirements substantially similar to those imposed under this chapter or that such law gives greater protection to the consumer, and that there is adequate provision for enforcement.

SEC. 306. ENFORCEMENT.

The Commission shall enforce the requirements of this title. For the purpose of the exercise by the Commission of its functions and powers under the Federal Trade Commission Act, a violation of any requirement imposed under this title shall be deemed a violation of a requirement imposed under that Act. All the functions and powers of the Federal Trade Commission *under that Act are available to the Commission to enforce compliance by any person with the requirements imposed under this title, irrespective of whether that person is engaged in commerce or meets any other jurisdictional tests in that Act. The Commission may prescribe such regulations as are necessary or appropriate to implement the provisions of this title.*

SEC. 307. STUDY OF NEED FOR ADDITIONAL REMEDIES.

(a) STUDY REQUIRED.—The Commission shall conduct an ongoing study of the need to develop and implement additional provisions to prevent evasions of the requirements of this title, through the use of alternative billing or other procedures, that undermine the rights provided to customers under this title. In examining such additional provisions, the Commission shall consider the extent to which such additional provisions may be implemented under the Commission's rulemaking authority pursuant to section 306.

(b) REPORTS REQUIRED.—The Commission shall submit to the Congress, not later than 18 months after the date of enactment of this Act, a report on the results (as of the end of such period) of the study required by subsection (a), and shall submit such additional reports to the Congress as are merited by later findings of such study. Such reports shall include such recommendations for legislation as the Commission considers necessary to carry out the purposes of this title.

SEC. 308. DEFINITIONS.

As used in this title—

(1) The term "providing carrier" means a local exchange or interexchange common carrier providing telephone services (other than local exchange services) to a vendor for a telephone-billed purchase that is the subject of a billing error complaint.

(2) The term "billing carrier" means a local exchange or interexchange common carrier that transmits to a customer a statement of charges for a telephone-billed purchase.

(3) The term "vendor" means any person who, through the use of the telephone, offers goods or services for a telephone-billed purchase.

(4) The term "customer" means any person who acquires or attempts to acquire goods or services in a telephone-billed purchase.

(5) The term "telephone-billed purchase" means any goods or services (including information services) acquired through the use of the telephone, any part of the charges for which are compiled and transmitted through the use of billing services provided by a local exchange or interexchange common carrier, except that such term does not include—

(A) local exchange telephone services or interexchange telephone services or any service that the Federal Communications Commission determines, by rule—

(i) is closely related to the provision of local exchange telephone services or interexchange telephone services; and

(ii) is subject to billing dispute resolution procedures required by Federal or State statute or regulation; or

(B) the purchase of goods or services which is otherwise subject to billing dispute resolution procedures required by Federal statute or regulation.

(6) A "billing error" consists of any of the following:

(A) A reflection on a billing statement from a billing carrier of a telephone-billed purchase which was not made by the customer or, if made, was not in the amount reflected on such statement.

(B) A reflection on a billing statement of a telephone-billed purchase for which the customer requests additional clarification, including documentary evidence thereof.

(C) A reflection on a billing statement of a telephone-billed purchase that was not accepted by the customer or not provided to the customer in accordance with the stated terms of the transaction.

(D) The billing carrier's failure to reflect properly on a billing statement a payment made by the customer or a credit issued to the customer with respect to a telephone-billed purchase.

(E) A computation error or similar error of an accounting nature of the billing carrier on a statement.

(F) Failure to transmit the billing statement to the last address of the customer which has been disclosed to the billing carrier, unless that address was furnished less than twenty days before the end of the billing cycle for which the statement is required.

(G) Any other error described in regulations prescribed by the Commission pursuant to section 553 of title 5, United States Code.

(7) The term "Commission" means the Federal Trade Commission.

Amend the title so as to read: "An Act to protect the public interest and the future development of interstate pay-per-call technology by providing for the regulation and oversight of the applications and growth of the pay-per-call industry, and for other purposes.".

Mr. FORD. I move that the Senate concur in the House amendments, with the substitute amendment, which I now send to the desk on behalf of Senators INOUYE, MCCAIN, and HOLLINGS.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. INOUYE, Mr. MCCAIN, and Mr. HOLLINGS, proposes an amendment numbered 3411.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

In lieu of the matter proposed to be inserted by the House amendment to the bill, insert the following:

SECTION 1. SHORT TITLE, FINDINGS.

(a) SHORT TITLE.—This Act may be cited as the "Telephone Disclosure and Dispute Resolution Act".

(b) FINDINGS.—The Congress finds the following:

(1) The use of pay-per-call services, most commonly through the use of 900 telephone numbers, has grown exponentially in the past few years into a national, billion-dollar industry as a result of recent technological innovations. Such services are convenient to consumers, cost-effective to vendors, and profitable to communications common carriers.

(2) Many pay-per-call businesses provide valuable information, increase consumer choices, and stimulate innovative and responsive services that benefit the public.

(3) The interstate nature of the pay-per-call industry means that its activities are beyond the reach of individual States and therefore requires Federal regulatory treatment to protect the public interest.

(4) The lack of nationally uniform regulatory guidelines has led to confusion for callers, subscribers, industry participants, and regulatory agencies as to the rights of callers and the oversight responsibilities of regulatory authorities, and has allowed some pay-per-call businesses to engage in practices that abuse the rights of consumers.

(5) Some interstate pay-per-call businesses have engaged in practices which are misleading to the consumer, harmful to the public interest, or contrary to accepted standards of business practices and thus cause harm to the many reputable businesses that are serving the public.

(6) Because the consumer most often incurs a financial obligation as soon as a pay-per-call transaction is completed, the accuracy and descriptiveness of vendor advertisements become crucial in avoiding consumer abuse. The obligation for accuracy should include price-per-call and duration-of-call information, odds disclosure for lotteries, games, and sweepstakes, and obligations for obtaining parental consent from callers under 18.

(7) The continued growth of the legitimate pay-per-call industry is dependent upon consumer confidence that unfair and deceptive behavior will be effectively curtailed and that consumers will have adequate rights of redress.

(8) Vendors of telephone-billed goods and services must also feel confident in their rights and obligations for resolving billing disputes if they are to use this new marketplace for the sale of products of more than nominal value.

TITLE I—CARRIER OBLIGATIONS AND CONSUMER RIGHTS CONCERNING PAY-PER-CALL TRANSACTIONS

SEC. 101. AMENDMENT TO COMMUNICATIONS ACT OF 1934.

Title II of the Communications Act of 1934 is amended by adding at the end thereof the following new section:

"SEC. 228. REGULATION OF CARRIER OFFERING OF PAY-PER-CALL SERVICES.

"(a) PURPOSE.—It is the purpose of this section—

"(1) to put into effect a system of national regulation and review that will oversee interstate pay-per-call services;

"(2) to recognize the Commission's authority to prescribe regulations and enforcement procedures and conduct oversight to afford reasonable protection to consumers of pay-per-call services and to assure that violations of Federal law do not occur.

"(b) GENERAL AUTHORITY FOR REGULATIONS.—The Commission by regulation shall, within 270 days after the date of enactment of this section, establish a system for oversight and regulation of pay-per-call services in order to provide for the protection of consumers in accordance with this Act and other applicable Federal statutes and regulations. The Commission's final rules shall—

"(1) include measures that provide a consumer of pay-per-call services with adequate and clear descriptions of the rights of the caller;

"(2) define the obligations of common carriers with respect to the provision of pay-per-call services;

"(3) include requirements on such carriers to protect against abusive practices by providers of pay-per-call services;

"(4) identify procedures by which common carriers and providers of pay-per-call services may take affirmative steps to protect against nonpayment of legitimate charges; and

"(5) require that any service described in subparagraphs (A) and (B) of subsection (i)(1) be offered only through the use of certain telephone number prefixes and area codes.

"(c) COMMON CARRIER OBLIGATIONS.—Within 270 days after the date of enactment of this section, the Commission shall, by regulation, establish the following requirements for common carriers:

"(1) CONTRACTUAL OBLIGATIONS TO COMPLY.—Any common carrier assigning to a provider of pay-per-call services a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) shall require by contract or tariff that such provider comply with the provisions of titles II and III of the Telephone Disclosure and Dispute Resolution Act and the regulations prescribed by the Federal Trade Commission pursuant to those titles.

"(2) INFORMATION AVAILABILITY.—A common carrier that by tariff or contract assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of a pay-per-call service shall make readily available on request to Federal and State agencies and other interested persons—

"(A) a list of the telephone numbers for each of the pay-per-call services it carries;

"(B) a short description of each such service;

"(C) a statement of the total cost or the cost per minute and any other fees for each such service;

"(D) a statement of the pay-per-call service's name, business address, and business telephone; and

"(E) such other information as the Commission considers necessary for the enforcement of this section and other applicable Federal statutes and regulations.

"(2) COMPLIANCE PROCEDURES.—A common carrier that by contract or tariff assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of pay-per-call services shall terminate, in accordance with procedures specified in such regulations, the offering of a pay-per-call service of a provider if the carrier knows or reasonably should know that such service is not provided in compliance with title II or III of the Telephone Disclosure and Dispute Resolution Act or the regulations prescribed by the Federal Trade Commission pursuant to such titles.

"(3) SUBSCRIBER DISCONNECTION PROHIBITED.—A common carrier shall not disconnect or interrupt a subscriber's local exchange telephone service or long distance telephone service because of nonpayment of charges for any pay-per-call service.

"(4) BLOCKING AND PRESUBSCRIPTION.—A common carrier that provides local exchange service shall—

"(A) offer telephone subscribers (where technically feasible) the option of blocking access from their telephone number to all, or to certain specific, prefixes or area codes used by pay-per-call services, which option—

"(i) shall be offered at no charge (I) to all subscribers for a period of 60 days after the issuance of the regulations under subsection (b), and (II) to any subscriber who subscribes to a new telephone number until 60 days after the time the new telephone number is effective; and

"(ii) shall otherwise be offered at a reasonable fee; and

"(B) offer telephone subscribers (where the Commission determines it is technically and economically feasible), in combination with the blocking option described under subparagraph (A), the option of presubscribing to or blocking only specific pay-per-call services for a reasonable one-time charge. The regulations prescribed under subparagraph (A)(i) of this paragraph may permit the costs of such blocking to be recovered by contract or tariff, but such costs may not be recovered from local or long-distance ratepayers. Nothing in this subsection precludes a common carrier from filing its rates and regulations regarding blocking and presubscription in its interstate tariffs.

"(5) VERIFICATION OF CHARITABLE STATUS.—A common carrier that assigns by contract or tariff a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of pay-per-call services that the carrier knows or reasonably should know is engaged in soliciting charitable contributions shall obtain from such provider proof of the tax exempt status of any person or organization for which contributions are solicited.

"(6) BILLING FOR 800 CALLS.—A common carrier shall prohibit by tariff or contract the use of any 800 telephone number, or other telephone number advertised or widely understood to be toll free, in a manner that would result in—

"(A) the calling party being assessed, by virtue of completing the call, a charge for the call;

"(B) the calling party being connected to a pay-per-call service;

"(C) the calling party being charged for information conveyed during the call unless the calling party has a preexisting agreement to be charged for the information or discloses a credit or charge card number during the call; or

"(D) the calling party being called back collect for the provision of audio information services or simultaneous voice conservation services.

"(d) BILLING AND COLLECTION PRACTICES.—The regulations required by this section shall require that any common carrier that by tariff or contract assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of a pay-per-call service and that offers billing and collection services to such provider—

"(1) ensure that a subscriber is not billed—

"(A) for pay-per-call services that such carrier knows or reasonably should know was provided in violation of the regulations issued pursuant to title II of the Telephone Disclosure and Dispute Resolution Act; or

"(B) under such other circumstances as the Commission determines necessary in order to protect subscribers from abusive practices;

"(2) establish a local or a toll-free telephone number to answer questions and provide information on subscribers' rights and obligations with regard to their use of pay-per-call services and to provide to callers the name and mailing address of any provider of pay-per-call services offered by the common carrier;

"(3) within 60 days after the issuance of final regulations pursuant to subsection (b), provide, either directly or through contract with any local exchange carrier that provides billing or collection services to the common carrier, to all of such common carrier's telephone subscribers, to all new subscribers, and to all subscribers requesting service at a new location, a disclosure statement that sets forth all rights and obligations of the subscriber and the carrier with respect to the use and payment for pay-per-call services, including the right of a subscriber not to be billed and the applicable blocking option; and

"(4) in any billing to telephone subscribers that includes charges for any pay-per-call service—

"(A) display any charges for pay-per-call services in a part of the subscriber's bill that is identified as not being related to local and long distance telephone charges;

"(B) for each charge so displayed, specify, at a minimum, the type of service, the amount of the charge, and the date, time, and duration of the call; and

"(C) identify the toll-free number established pursuant to paragraph (2).

"(e) LIABILITY.—

"(1) COMMON CARRIERS NOT LIABLE FOR TRANSMISSION OR BILLING.—No common carrier shall be liable for a criminal or civil sanction or penalty solely because the carrier provided transmission or billing and collection for a pay-per-call service unless the carrier knew or reasonably should have known that such service was provided in violation of a provision of, or regulation prescribed pursuant to, title II or III of the Telephone Disclosure and Dispute Resolution Act or any other Federal law. This paragraph shall not prevent the Commission from imposing a sanction or penalty on a common carrier for a violation by that carrier of a regulation prescribed under this section.

"(2) CIVIL LIABILITY.—No cause of action may be brought in any court or administrative agency against any common carrier or any of its affiliates on account of any act of the carrier or affiliate to terminate any pay-per-call service in order to comply with the regulations prescribed under this section, title II or III of the Telephone Disclosure and Dispute Resolution Act, or any other Federal law unless the complainant demonstrates that the carrier or affiliate did not act in good faith.

"(f) SPECIAL PROVISIONS.—

"(1) CONSUMER REFUND REQUIREMENTS.—The regulations required by subsection (d) shall establish procedures, consistent with the provisions of titles II and III of the Telephone Disclosure and Dispute Resolution Act, to ensure that carriers and other parties providing billing and collection services with respect to pay-per-call services provide appropriate refunds to subscribers who have been billed for pay-per-call services pursuant to programs that have been found to have violated this section or such regulations, any provision of, or regulations prescribed pursuant to, title II or III of the Telephone Disclosure and Dispute Resolution Act, or any other Federal law.

"(2) RECOVERY OF COSTS.—The regulations prescribed by the Commission under this section shall permit a common carrier to recover its cost of complying with such regulations from providers of pay-per-call services, but shall not permit such costs to be recovered from local or long distance ratepayers.

"(3) RECOMMENDATIONS ON DATA PAY-PER-CALL.—The Commission, within one year after the date of enactment of this section, shall submit to the Congress the Commission's recommendations with respect to the extension of regulations under this section to persons that provide, for a per-call charge, data services that are not pay-per-call services.

"(g) EFFECT ON OTHER LAW.—

"(1) NO PREEMPTION OF ELECTION LAW.—Nothing in this section shall relieve any provider of pay-per-call services, common carrier, local exchange carrier, or any other person from the obligation to comply with Federal, State, and local election statutes and regulations.

"(2) CONSUMER PROTECTION LAWS.—Nothing in this section shall relieve any provider of pay-per-call services, common carrier, local exchange carrier, or any other person from the obligation to comply with any Federal, State, or local statute or regulation relating to consumer protection or unfair trade.

"(3) GAMBLING LAWS.—Nothing in this section shall preclude any State from enforcing its statutes and regulations with regard to lotteries, wagering, betting, and other gambling activities.

"(4) STATE AUTHORITY.—Nothing in this section shall preclude any State from enacting and enforcing additional and complementary oversight and regulatory systems or procedures, or both, so long as such systems and procedures govern intrastate services and do not significantly impede the enforcement of this section or other Federal statutes.

"(5) ENFORCEMENT OF EXISTING REGULATIONS.—Nothing in this section shall be construed to prohibit the Commission from enforcing regulations prescribed prior to the date of enactment of this section in fulfilling the requirements of this section to the extent that such regulations are consistent with the provisions of this section.

"(h) EFFECT ON DIAL-A-PORN PROHIBITIONS.—Nothing in this section shall affect the provisions of section 223 of this Act.

"(i) DEFINITION OF PAY-PER-CALL SERVICES.—For purposes of this section—

"(1) The term 'pay-per-call services' means any service—

"(A) in which any person provides or purports to provide—

"(i) audio information or audio entertainment produced or packaged by such person;

"(ii) access to simultaneous voice conversation services; or

"(iii) any service, including the provision of a product, the charges for which are assessed on the basis of the completion of the call;

"(B) for which the caller pays a per-call or per-time-interval charge that is greater than, or in addition to, the charge for transmission of the call; and

"(C) which is accessed through use of a 900 telephone number or other prefix or area code designated by the Commission in accordance with subsection (b)(5).

"(2) Such term does not include directory services provided by a common carrier or its affiliate or by a local exchange carrier or its affiliate, or any service the charge for which is tariffed, or any service for which users are assessed charges only after entering into a presubscription or comparable arrangement with the provider of such service.".

SEC. 102. TECHNICAL AMENDMENT.

Section 3(c) of the Telephone Consumer Protection Act of 1991 is amended by striking "section 228" and inserting "section 227".

TITLE II—REGULATION OF UNFAIR AND DECEPTIVE ACTS AND PRACTICES IN CONNECTION WITH PAY-PER-CALL SERVICES

SEC. 201. FEDERAL TRADE COMMISSION REGULATIONS.

(a) IN GENERAL.—

(1) ADVERTISING REGULATIONS.—The Commission shall prescribe rules in accordance with this subsection to prohibit unfair and deceptive acts and practices in any advertisement for pay-per-call services. Such rules shall require that the person offering such pay-per-call services—

(A) clearly and conspicuously disclose in any advertising the cost of the use of such telephone number, including the total cost or the cost per minute and any other fees for that service and for any other pay-per-call service to which the caller may be transferred;

(B) in the case of an advertisement which offers a prize or award or a service or product at no cost or for a reduced cost, clearly and conspicuously disclose the odds of being able to receive such prize, award, service, or product at no cost or reduced cost, or, if such odds are not calculable in advance, disclose the factors determining such odds;

(C) in the case of an advertisement that promotes a service that is not operated or expressly authorized by a Federal agency but that provides information on a Federal program, include at the beginning of such advertisement a clear disclosure that the service is not authorized, endorsed, or approved by any Federal agency;

(D) shall not direct such advertisement at children under the age of 12, unless such service is a bona fide educational service;

(E) in the case of advertising directed primarily to individuals under the age of 18, clearly and conspicuously state in such advertising that such individual must have the consent of such individual's parent or legal guardian for the use of such services;

(F) be prohibited from using advertisements that emit electronic tones which can automatically dial a pay-per-call telephone number;

(G) ensure that, whenever the number to be called is shown in television and print media advertisements, the charges for the call are clear and conspicuous and (when shown in television advertisements) displayed for the same duration as that number is displayed;

(H) in delivering any telephone message soliciting calls to a pay-per-call service, specify clearly, and at no less than the audible volume of the solicitation, the total cost and the cost per minute and any other fees for that service and for any other pay-per-call service to which the caller may be transferred; and

(I) not advertise an 800 telephone number, or any other telephone number advertised or widely understood to be toll free, from which callers are connected to an access number for a pay-per-call service.

(2) PAY-PER-CALL SERVICE STANDARDS.—The Commission shall prescribe rules to require that each provider of pay-per-call services—

(A) include in each pay-per-call message an introductory disclosure message that—

(i) describes the service being provided;

(ii) specifies clearly and at a reasonably understandable volume the total cost or the cost per minute and any other fees for that service and for any other pay-per-call service to which the caller may be transferred;

(iii) informs the caller that charges for the call begin at the end of the introductory message;

(iv) informs the caller that parental consent is required for calls made by children; and

(v) in the case of a pay-per-call service that is not operated or expressly authorized by a Federal agency but that provides information on any Federal program, a statement that clearly states that the service is not authorized, endorsed, or approved by any Federal agency;

(B) enable the caller to hang up at or before the end of the introductory message without incurring any charge whatsoever;

(C) not direct such services at children under the age of 12, unless such service is a bona fide educational service;

(D) stop the assessment of time-based charges immediately upon disconnection by the caller;

(E) disable any bypass mechanism which allows frequent callers to avoid listening to the disclosure message described in subparagraph (A) after the institution of any price increase and for a period of time sufficient to give such frequent callers adequate and sufficient notice of the price change;

(F) be prohibited from providing pay-per-call services through an 800 number or other telephone number advertised or widely understood to be toll free;

(G) be prohibited from billing consumers in excess of the amounts described in the introductory message and from billing for services provided in violation of the rules prescribed by the Commission pursuant to this section;

(H) ensure that any billing statement for such provider's charges shall—

(i) display any charges for pay-per-call services in a part of the consumer's bill that is identified as not being related to local and long distance telephone charges; and

(ii) for each charge so displayed, specify, at a minimum, the type of service, the amount of the charge, and the date, time, and duration of the call;

(I) be liable for refunds to consumers who have been billed for pay-per-call services pursuant to programs that have been found to have violated the regulations prescribed pursuant to this section or title III of this Act or any other Federal law; and

(J) comply with such additional standards as the Commission may prescribe to prevent abusive practices.

(3) ACCESS TO INFORMATION.—The Commission shall by rule require a common carrier that provides telephone services to a provider of pay-per-call services to make available to the Commission any records and financial information maintained by such carrier relating to the arrangements (other than for the provision of local exchange service) between such carrier and any provider of pay-per-call services.

(4) EVASIONS.—The rules issued by the Commission under this section shall include provisions to prohibit unfair or deceptive acts or practices that evade such rules or undermine the rights provided to customers under this title, including through the use of alternative billing or other procedures.

(5) EXEMPTIONS.—The regulations prescribed by the Commission pursuant to paragraph (2)(A) may exempt from the requirements of such paragraph—

(A) calls from frequent callers or regular subscribers using a bypass mechanism to avoid listening to the disclosure message required by such regulations, subject to the requirements of paragraph (2)(E); or

(B) pay-per-call services provided at nominal charges, as defined by the Commission in such regulations.

(6) CONSIDERATION OF OTHER RULES REQUIRED.—In conducting a proceeding under this section, the Commission shall consider requiring, by rule or regulation, that providers of pay-per-call services—

(A) automatically disconnect a call after one full cycle of the program; and

(B) include a beep tone or other appropriate and clear signal during a live interactive group program so that callers will be alerted to the passage of time.

(7) SPECIAL RULE FOR INFREQUENT PUBLICATIONS.—The rules prescribed by the Commission under subparagraphs (A) and (G) of paragraph (1) may permit, in the case of publications that are widely distributed, that are printed annually or less frequently, and that have an established policy of not publishing specific prices, advertising that in

lieu of the cost disclosures required by such subparagraphs, clearly and conspicuously disclose that use of the telephone number may result in a substantial charge.

(8) TREATMENT OF RULES.—A rule issued under this subsection shall be treated as a rule issued under section 18(a)(1)(B) of the Federal Trade Commission Act (15 U.S.C. 57a(a)(1)(B)).

(b) RULEMAKING.—The Commission shall prescribe the rules under subsection (a) within 270 days after the date of enactment of this Act. Such rules shall be prescribed in accordance with section 553 of title 5, United States Code.

(c) ENFORCEMENT.—Any violation of any rule prescribed under subsection (a) shall be treated as a violation of a rule respecting unfair or deceptive acts or practices under section 5 of the Federal Trade Commission Act (15 U.S.C. 45). Notwithstanding section 5(a)(2) of such Act (15 U.S.C. 45(a)(2)), communications common carriers shall be subject to the jurisdiction of the Commission for purposes of this title.

SEC. 202. ACTIONS BY STATES.

(a) IN GENERAL.—Whenever an attorney general of any State has reason to believe that the interests of the residents of that State have been or are being threatened or adversely affected because any person has engaged or is engaging in a pattern or practice which violates any rule of the Commission under section 201(a), the State may bring a civil action on behalf of its residents in an appropriate district court of the United States to enjoin such pattern or practice, to enforce compliance with such rule of the Commission, to obtain damages on behalf of their residents, or to obtain such further and other relief as the court may deem appropriate.

(b) NOTICE.—The State shall serve prior written notice of any civil action under subsection (a) upon the Commission and provide the Commission with a copy of its complaint, except that if it is not feasible for the State to provide such prior notice, the State shall serve such notice immediately upon instituting such action. Upon receiving a notice respecting a civil action, the Commission shall have the right (1) to intervene in such action, (2) upon so intervening, to be heard on all matters arising therein, and (3) to file petitions for appeal.

(c) VENUE.—Any civil action brought under this section in a district court of the United States may be brought in the district wherein the defendant is found or is an inhabitant or transacts business or wherein the violation occurred or is occurring, and process in such cases may be served in any district in which the defendant is an inhabitant or wherever the defendant may be found.

(d) INVESTIGATORY POWERS.—For purposes of bringing any civil action under this section, nothing in this Act shall prevent the attorney general from exercising the powers conferred on the attorney general by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel the attendance of witnesses or the production of documentary and other evidence.

(e) EFFECT ON STATE COURT PROCEEDINGS.—Nothing contained in this section shall prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal antifraud statute of such State.

(f) LIMITATION.—Whenever the Commission has instituted a civil action for violation of any rule or regulation under this Act, no State may, during the pendency of such action instituted by the Commission, subsequently institute a civil action against any defendant named in the Commission's complaint for violation of any rule as alleged in the Commission's complaint.

(g) ACTIONS BY OTHER STATE OFFICIALS.—

(1) Nothing contained in this section shall prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal statute of such State.

(2) In addition to actions brought by an attorney general of a State under subsection (a), such an action may be brought by officers of such State who are authorized by the State to bring actions in such State for protection of consumers and who are designated by the Commission to bring an action under subsection (a) against persons that the Commission has determined have or are engaged in a pattern or practice which violates a rule of the Commission under section 201(a).

SEC. 203. ADMINISTRATION AND APPLICABILITY OF TITLE.

(a) IN GENERAL.—Except as otherwise provided in section 202, this title shall be enforced by the Commission under the Federal Trade Commission Act (15 U.S.C. 41 et seq.). Consequently, no activity which is outside the jurisdiction of that Act shall be affected by this Act, except for purposes of this title.

(b) ACTIONS BY THE COMMISSION.—The Commission shall prevent any person from violating a rule of the Commission under section 201 in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this title. Any person who violates such rule shall be subject to the penalties and entitled to the privileges and immunities provided in the Federal Trade Commission Act in the same manner, by the same means, and with the same jurisdiction, power, and duties as though all applicable terms and provisions of the Federal Trade Commission Act were incorporated into and made a part of this title.

SEC. 204. DEFINITIONS.

For purposes of this title:

(1) The term "pay-per-call services" has the meaning provided in section 228 of the Communications Act of 1934.

(2) The term "attorney general" means the chief legal officer of a State.

(3) The term "State" means any State of the United States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, and any territory or possession of the United States.

(4) The term "Commission" means the Federal Trade Commission.

TITLE III—BILLING AND COLLECTION

SEC. 301. REGULATIONS.

(a) IN GENERAL.—

(1) RULES REQUIRED.—The Commission shall, in accordance with the requirements of this section, prescribe rules establishing procedures for the correction of billing errors with respect to telephone-billed purchases. The rules prescribed by the Commission shall also include provisions to prohibit unfair or deceptive acts or practices that evade such rules or undermine the rights provided to customers under this title.

(2) SUBSTANTIAL SIMILARITY TO CREDIT BILLING.—The Commission shall promulgate rules under this section that impose requirements that are substantially similar to the requirements imposed, with respect to the resolution of credit disputes, under the Truth in Lending and Fair Credit Billing Acts (15 U.S.C. 1601 et seq.).

(3) TREATMENT OF RULE.—A rule issued under paragraph (1) shall be treated as a rule issued under section 18(a)(1)(B) of the Federal Trade Commission Act (15 U.S.C. 57(a)(1)(B)).

(b) RULEMAKING SCHEDULE AND PROCEDURE.—The Commission shall prescribe the rules under subsection (a) within 270 days after the date of enactment of this Act. Such rules shall be prescribed in accordance with section 553 of title 5, United States Code.

(c) ENFORCEMENT.—Any violation of any rule prescribed under subsection (a) shall be treated as a violation of a rule under section 5 of the Federal Trade Commission Act (15 U.S.C. 45) regarding unfair or deceptive acts or practices. Notwithstanding section 5(a)(2) of such Act (15 U.S.C. 45(a)(2)), communications common carriers shall be subject to the jurisdiction of the Commission for purposes of this title.

(d) CORRECTION OF BILLING ERRORS AND CORRECTION OF CREDIT REPORTS.—In prescribing rules under this section, the Commission shall consider, with respect to telephone-billed purchases, the following:

(1) The initiation of a billing review by a customer.

(2) Responses by billing entities and providing carriers to the initiation of a billing review.

(3) Investigations concerning delivery of telephone-billed purchases.

(4) Limitations upon providing carrier responsibilities, including limitations on a carrier's responsibility to verify delivery of audio information or entertainment.

(5) Requirements on actions by billing entities to set aside charges from a customer's billing statement.

(6) Limitations on collection actions by billing entities and vendors.

(7) The regulation of credit reports on billing disputes.

(8) The prompt notification of credit to an account.

(9) Rights of customers and telephone common carriers regarding claims and defenses.

(10) The extent to which the regulations should diverge from requirements under the Truth in Lending and Fair Credit Billing Acts in order to protect customers, and in order to be cost effective to billing entities.

SEC. 302. RELATION TO STATE LAWS.

(a) STATE LAW APPLICABLE UNLESS INCONSISTENT.—This title does not annul, alter, or affect, or exempt any person subject to the provisions of this title from complying with, the laws of any State with respect to telephone billing practices, except to the extent that those laws are inconsistent with any provision of this title, and then only to the extent of the inconsistency. The Commission is authorized to determine whether such inconsistencies exist. The Commission may not determine that any State law is inconsistent with any provision of this chapter if the Commission determines that such law gives greater protection to the consumer.

(b) REGULATORY EXEMPTIONS.—The Commission shall by regulation exempt from the requirements of this title any class of telephone-billed purchase transactions within any State if it determines that under the law of that State that class of transactions is subject to requirements substantially similar to those imposed under this chapter or that such law gives greater protection to the consumer, and that there is adequate provision for enforcement.

SEC. 303. ENFORCEMENT.

The Commission shall enforce the requirements of this title. For the purpose of the exercise by the Commission of its functions and powers under the Federal Trade Commission Act, a violation of any requirement imposed under this title shall be deemed a violation of a requirement imposed under that Act. All the functions and powers of the Commission under that Act are available to the Commission to enforce compliance by any person with the requirements imposed under this title, irrespective of whether that person is engaged in commerce or meets any other jurisdictional tests in that Act. The Commission may prescribe such regulations as are necessary or appropriate to implement the provisions of this title.

SEC. 304. DEFINITIONS.

As used in this title—

(1) The term "telephone-billed purchase" means any purchase that is completed solely as a consequence of the completion of the call or a subsequent dialing, touch tone entry, or comparable action of the caller. Such term does not include—

"(A) a purchase by a caller pursuant to a preexisting agreement with the vendor;

(B) local exchange telephone services or interexchange telephone services or any service that the Federal Communications Commission determines, by rule—

(i) is closely related to the provision of local exchange telephone services or interexchange telephone services; and

(ii) is subject to billing dispute resolution procedures required by Federal or State statute or regulation; or

(C) the purchase of goods or services which is otherwise subject to billing dispute resolution procedures required by Federal statute or regulation.

(2) A "billing error" consists of any of the following:

(A) A reflection on a billing statement for a telephone-billed purchase which was not made by the customer or, if made, was not in the amount reflected on such statement.

(B) A reflection on a billing statement of a telephone-billed purchase for which the customer requests additional clarification, including documentary evidence thereof.

(C) A reflection on a billing statement of a telephone-billed purchase that was not accepted by the customer or not provided to the customer in accordance with the stated terms of the transaction.

(D) A reflection on a billing statement of a telephone-billed purchase for a call made to an 800 or other toll free telephone number.

(E) The failure to reflect properly on a billing statement a payment made by the customer or a credit issued to the customer with respect to a telephone-billed purchase.

(F) A computation error or similar error of an accounting nature on a statement.

(G) Failure to transmit the billing statement to the last known address of the customer, unless that address was furnished less than twenty days before the end of the billing cycle for which the statement is required.

(H) Any other error described in regulations prescribed by the Commission pursuant to section 553 of title 5, United States Code.

(3) The term "Commission" means the Federal Trade Commission.

(4) The term "providing carrier" means a local exchange or interexchange common carrier providing telephone services (other than local exchange services) to a vendor for a telephone-billed purchase that is the subject of a billing error complaint.

(5) The term "vendor" means any person who, through the use of the telephone, offers goods or services for a telephone-billed purchase.

(6) The term "customer" means any person who acquires or attempts to acquire goods or services in a telephone-billed purchase.

Mr. INOUYE. Mr. President, I rise to offer a substitute amendment to S. 1579. The substitute amendment, like S. 1579 as passed by the Senate, is designed to address problems that have arisen due to the use of pay-per-call services, better known as 900 numbers. The substitute before us today resolves the differences between the measures approved by the House and Senate. I am especially grateful to the coauthor of this measure, Senator McCAIN, for his efforts on this bill. I wish to thank the members of the House Commerce Committee and the Senate Commerce Committee for their work on this legislation. I also want to thank the Federal Communications Commission, the Federal Trade Commission, the telephone companies, and the 900 services industry, all of whom have worked with us to reach this compromise.

Let me take a few minutes to describe the industry and the problems that this substitute is intended to address. Pay-per-call services give callers access to a variety of information services through the telephone network. Customers can obtain access to this information by calling a 10 digit number whose prefix is typically 900 or 700. When consumers call one of these numbers, they are then assessed a charge in addition to the regular long distance charge. Generally, callers are charged either a flat fee per call, or by the minute. The charge appears on the caller's telephone bill and can be as high as $25 per call or $10 per minute.

These numbers are used to: provide information like stock quotes, and sports data; conduct polls, call one number for yes and another number for no; provide legal and other advice; provide mass announcements which play prerecorded messages; promote sweepstakes; sell goods; raise funds for charitable and political organizations; provide dating services and group access bridging, gab lines or party lines.

Most 900 service providers enter into a contract with a telephone company, most often long distance companies. The telephone company makes telephone lines available to the information service provider and also handles the billing and collection. The 900 service provider offers the information, such as stock quotes. The service provider then advertises the service and the 900 number. When a consumer calls the stock quote 900 number, he or she is then billed directly on his or her telephone bill. The telephone company collects the charge for the consumer, takes out its share to cover the cost of providing the lines and the billing service, and passes the remainder of the charge to the service provider. It is important to note that the telephone company does not provide the information; the telephone company provides the telephone lines and billing but generally does not provide the information content.

The 900 pay-per-call business, which began in the early 1980's, has developed into a $759 million industry and is projected to grow into a $1.6 billion industry this year. Testimony presented at a Communications Subcommittee hearing on this issue estimated that there are over 14,000 different pay-per-call programs available.

In recent years, the increased usage of 900 numbers has resulted in many consumer complaints. The most frequent complaints concern false or deceptive disclosure of rates and products. Advertisements often fail to disclose the cost of calls to 900 numbers, or the cost of the call is printed in small, illegible mice print. Some ads only state the cost of the call once, or in slurred, last minute voice-overs, but repeat the 900 numbers frequently throughout the advertisement.

Some of these services target children who do not appreciate the costs of dialing these numbers. Given the fact that children, particularly children under the age of 12, are impressionable and unable to understand and make fully informed decisions, we believed that it was important to adopt provisions to protect children. Especially dangerous are those that run TV and radio advertisements telling children to hold the phone up to the TV or radio. The tones associated with each telephone number are then broadcast over the TV or radio so that the call is dialed automatically. As a result, children do not even have to know how to dial to be connected to one of these services.

Finally, this problem is exacerbated by the fact that these charges are collected through the monthly telephone bill. This not only lends legitimacy to the charge, because it looks like the telephone company is responsible for the charge, but the consumer believes that he or she must pay the charge or the telephone company will disconnect his or her service.

These problems have not gone unnoticed. Some telephone companies have voluntarily begun to institute measures to provide some protections to consumers. For example, GTE Hawaiian Telephone Co. has made call blocking of 900 and 700 numbers available to all of its customers. The blocking service is free the first time it is requested by a customer. If the customer cancels the service and then reinstates it, there will be a charge. However, this only addresses part of the problem and this service is not universally available.

To address these problems the substitute expands the jurisdiction of the Federal Communications Commission and the Federal Trade Commission to address the problems raised by the explosive growth of the pay-per-call industry. The major provisions of this substitute are essentially the same as in the bill approved by the Senate. This bill will: Require that 900 services provide a preamble stating the cost of the call and all per-call charges, describing the information, product or service to be provided, and giving the caller the option to hang up after the preamble without being charged. Ban 900 services aimed at children under the age of 12; Require the phone companies to give their subscribers the option to block all calls to 900 numbers from their phone; prohibit local telephone companies from disconnecting subscribers for failure to pay interstate 900 number charges; prohibit advertisements that emit tones that automatically dial a telephone number when the phone is held up to the radio or television; require full and clear disclosure of the rates of these calls in all advertisements; require the telephone company who contracts with 900 service providers to make available on request the information concerning the 900 service providers it contracts with, including the name and address of the 900 service provider, the costs of the service and any other information the FCC deems appropriate; give the FCC, FTC, and the States the authority to enforce the provisions of this legislation.

The two most significant differences between the Senate bill as originally passed and the substitute before us today are: That the provision concerning the use of 800 numbers has been revised to clarify that consumers that call 800 numbers—or toll free numbers—cannot be charged for calls to such numbers; and that the FTC must establish dispute resolution procedures similar to those used for credit card customers for anyone who bills and collects for 900 service providers.

The provision involving 800 numbers was revised because it has come to our attention that some pay-per-call services urge people to call an 800 number, which most people assume to be free calls, when in fact the caller is subsequently charged for the call. This provision was revised to ensure that this practice is stopped. This provision does not affect the ability of catalog companies to give consumers an 800 number to call if the consumers are paying with a credit card or similar arrangement.

Title III, the dispute resolution provision, was in the House measure. However, the House bill specified the rules that had to be adopted by the FTC in great detail. Because of the concerns raised by the telephone industry and the 900 service providers, we amended this title to provide that the FTC must conduct a rulemaking to adopt rules substantially similar to, but not identical, to those contained in the Truth in Lending and Fair Credit Billings Acts which provide protections for consumers who dispute credit card bills.

Title III contains a number of issues that the FTC must consider in this rulemaking: it no longer specifies in detail what the content of those rules should be. In fact, it requires the FTC to consider if any of the provisions of the Truth in Lending and Fair Bills Act should not be applied to pay-per-call service transactions. In other words, the FTC is not expected to simply modify all the provisions of the Truth in Lending and Fair Credit Billings Acts to have all of those provisions apply to the 900 services industry and carriers and others who bill for those services.

On the contrary, I expect that the FTC will use the Truth in Lending and Fair Credit Billings Acts as models recognizing that while some provisions or concepts addressed in those acts may well be applicable or needed in the pay-per-call area, there may also be provisions or concerns that are not appropriate for pay-per-call transactions. It is also our intention that the FTC weigh the costs and burdens on the subscribers as well as the entities doing the billing as part of its rulemaking. For example, the FTC could determine, after notice and comment, that there is no need for any rules to apply to disputes over nominal charges, as such rules may cost the billing entities and the consumer more than the cost of the call in dispute to comply with the provisions of this title. While the FTC is given some flexibility in implementing these provisions, I want to reiterate that consumers should be given protection against billing errors. That is the purpose of this provision.

For the record, there are a few issues that I want to clarify. The provisions of this substitute are not intended to prevent telephone companies or 900 service providers from taking steps they deem appropriate to protect themselves against consumers who abuse the provisions of this Act. For example, should a consumer make 900 calls over a period of many months and repeatedly refuse to pay the charges for the calls and also fail to take advantage of the option to block calls from that number, then the telephone company or the 900 service provider should be able to block that consumer's ability to call 900 services or take such other legal action as may be appropriate.

In addition, as set out in the committee report accompanying S. 1579, the provisions of this bill do not apply to services where consumers pay for products, services or information with a credit card or charge card. There is no need to apply the provisions of this bill to credit card purchases made over the telephone because the consumer who chooses to pay with a credit card is not automatically billed merely by placing or completing the call. Similarly, the substitute is not intended to cover services offered by telephone companies such as conference calling. The substitute also does not cover data services. The FCC is required to conduct a study on this issue and make recommendations to Congress concerning whether any data services, including facsimile services, should be subject to regulation.

The provision of this legislation that concerns State authority—section 228(g)(4)—does not preclude any State from enacting complementary oversight and regulatory procedures with regard to 900 services. However, such regulatory procedures as the States may devise cannot thwart or impede other Federal policy objectives of the FCC, the enforcement of this section, or any other Federal statutes.

I need to make one other point clear: I do not intend that telephone companies should at any time monitor 900 service providers' calls to ensure compliance with this provision. Telephone companies should remain common carriers and should not invade the privacy of callers by monitoring calls, whether they provide transmission or billing and collection services. The substitute provides that common carriers shall not assign telephone lines to 900 service providers unless they agree to comply with the terms of this act. In addition, common carriers are required to terminate service to 900 providers only when the common carrier knows, or reasonably believes, that the 900 service provider is not in compliance with or has violated this act.

I also want to note that nothing in titles II and III of the substitute are intended to give the FTC the authority to adopt rules and regulations on the basis that the activities are unfair. In addition, in promulgating its rules concerning advertisements that offer a prize or award, the FTC's rules must require that the advertisement state the odds of receiving the prize or award. The requirement to disclose odds is not intended to apply to discounts that are intended to be received by every caller during a specified period.

In closing, I believe that this legislation is very important, and I urge all of my colleagues to support this effort. This substitute has virtually no opposition. It ensures that consumers are protected against abuses by pay-per-call service providers while permitting legitimate service providers to expand their business opportunities.

The ACTING PRESIDENT pro tempore. Are there additional amendments?

AMENDMENT NOS. 3412 THROUGH 3415

Mr. FORD. I now ask unanimous consent it be now in order to send to the desk en bloc four amendments to the substitute, and I ask unanimous consent the amendments be agreed to en bloc; that the motion to reconsider be laid upon the table; that the substitute amendment, as amended, then be agreed to; and the motion to reconsider the adoption of this amendment and previous motion be laid upon the table.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. FORD. Mr. President, I send these amendments in behalf of Senator BRYAN, Senator PRESSLER, Senator LEAHY, and Senator GORTON; I further ask unanimous consent that various statements appear in the RECORD at the appropriate place.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendments (Nos. 3412 through 3415) considered and agreed to en bloc, are as follows:

(Purpose: To provide an exemption for chapter 61 of title 18, United States Code, to permit certain radio and television advertising)

AMENDMENT NO. 3412

At the end of the proposed amendment in the nature of a substitute, add the following new title:

TITLE IV—MISCELLANEOUS

SEC. 401. EXEMPTION FROM CHAPTER 61 OF TITLE 18, UNITED STATES CODE.

Section 1307(a)(2) of title 18, United States Code, is amended by striking "that is authorized" and all that follows and inserting "that is conducted in a State in which it is authorized by statute to be conducted throughout the State.".

Mr. BRYAN. Mr. President, I am amending S. 1579, the 900 Service Consumer Protection Act of 1991 to permit gaming advertising in Nevada.

In 1934, Congress enacted legislation prohibiting the broadcasting of lottery information. Since that time, the prohibition has been lifted for Governments, Indian tribes, nonprofit organizations, and certain for-profit businesses including horse and dog tracks. It is time to remove this archaic provision for for-profit casino advertising.

This amendment takes the first step in fixing this inequity by permitting casinos to advertise in States where gaming is authorized statewide by statute. Nevada has such a statute, and the television and radio stations in Nevada should be permitted to carry casino advertising upon the enactment of this legislation.

I believe former Federal Communications Commission Chairman Dennis Patrick stated it best when he said that the current prohibition "unnecessarily restricts the free flow of information concerning legal activities." Afterall, 48 States allow some form of legal gaming.

I believe this is a good first step toward totally lifting this outdated, inequitable restriction. I appreciate the support of my colleagues.

AMENDMENT NO. 3413

(Purpose: To provide for the protection of cellular telecommunications)

SEC. . INTERCEPTION OF CELLULAR TELECOMMUNICATIONS.

(a) AMENDMENT.—Section 302 of the Communications Act of 1934 (47 U.S.C. 302) is amended by adding the following new subsection:

"(d)(1) INTERCEPTION OF CELLULAR TELECOMMUNICATIONS. Within 180 days after the date of enactment of the Telephone Disclosure and Dispute Resolution Act, the Commission shall prescribe and make effective regulations denying equipment authorization (under part 15 of title 47, Code of Federal Regulations, or any other part of that title) for any scanning receiver that is capable of—

"(A) receiving transmissions in the frequencies allocated to the domestic cellular radio telecommunications service,

"(B) readily being altered by the user to receive transmissions in such frequencies, or

"(C) being equipped with decoders that convert digital cellular transmissions to analog voice audio.

"(2) MANUFACTURE OR IMPORT OF NONCOMPLYING EQUIPMENT.—Beginning one year after the effective date of the regulations adopted pursuant to subsection (a), no receiver having the capabilities described in subparagraph (A), (B), or (C) of paragraph (1), as such capabilities are defined in such regulations, shall be manufactured in the United States or imported for use in the United States."

(b) REPORT TO CONGRESS.—The Commission shall report to Congress no later than June 1, 1993, on available security features for both analog and digital radio signals. This report shall include a study of security technologies currently available as well as those in development. The study shall assess the capabilities of such technologies, level of security afforded, and cost, with widespread deployment of such technologies.

(c) EFFECT ON OTHERS LAWS.—This section shall not effect Section 2512 (2) of title 18, United States Code."

(d) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the date of enactment of the Telephone Disclosure and Dispute Resolution Act.

AMENDMENT TO TELEPHONE DISCLOSURE AND DISPUTE RESOLUTION ACT

Mr. PRESSLER. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

Mr. President, the amendment I am introducing today will stop the manufacturing of radio scanners designed to monitor cellular calls. The amendment makes it illegal to manufacture or import radio scanners that intercept cellular frequencies by denying FCC part 15 equipment authorization to scanners that do not comply with the law. Currently, equipment approval is required for all radio scanners before they are sold in the United States; however, part 15 rules do not cover the interception of cellular frequencies.

My amendment requires that the Federal Communications Commission will, within 180 days after enactment of the underlying legislation, develop rules to deny part 15 equipment authorization for any radio scanner that is capable of receiving cellular frequencies, can be easily altered to receive cellular frequencies, or can be equipped with decoders that can convert digital cellular transmissions to analog voice audio. One year after these rules are established it will be illegal to manufacture or import any radio scanner that has those capabilities.

Mr. President, my amendment is similar to section 9 of the FCC reauthorization bill (H.R. 1674) that passed the House of Representatives last year. This amendment is not intended to ban scanners that are not capable of receiving cellular transmissions. The Commission should take this into account when considering its rules to carry out this amendment.

This bill is not intended to deny equipment authorization to or ban the manufacture of all scanners. The purpose of the amendment is to require manufacturers of scanners to design their equipment so that the equipment does not allow users to listen to cellular calls. I expect the FCC, in adopting regulations to enforce this provision, to be conscious of the fact that some uses of scanners are perfectly legal. My intention in offering this amendment is simply to increase the privacy protections of cellular telephone users without causing harm to legitimate users of scanners.

Mr. President, I urge the adoption of my amendment and ask unanimous consent to insert the legislative history accompanying the House passed provision, which sets forth the intent of my amendment.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SECTION 9. INTERCEPTION OF CELLULAR TELECOMMUNICATIONS

The Committee finds that scanning receivers continue to be manufactured with the capability of monitoring the frequencies allocated to cellular telephone service. Such equipment enables users to violate the provisions of the 1986 Electronic Communications Privacy Act (ECPA), which extends Federal privacy protections to cellular telephone users. Equally disturbing, even equipment that blocks out cellular calls can often be easily modified to receive cellular transmissions, often by cutting a single wire. Moreover, the Committee has received numerous examples of "how-to" manuals for modifying scanners so that they can be used to eavesdrop on cellular calls. The Committee has obtained copies of advertisements for scanners that do not block out the cellular frequencies or that pitch easy restoration of such frequencies. This amendment is intended to address these ongoing problems, and bring the Commission's certification process in line with ECPA.

Section 8 of the bill amends the Communications Act of 1934 by adding a new subsection (d) to section 302. Subsection 302(d) requires the Commission to promulgate regulations denying equipment authorization under Part 15 (or any other part) of the Commission's rules for any scanning receiver that can (1) receive transmissions in the cellular frequencies; (2) readily be altered to receive such transmissions; or (3) be equipped with a decoder that can convert cellular transmissions to analog voice audio. The bar on scanners equipped with digital-to-analog converters that work in the cellular bands is intended to ensure that the additional privacy protection afforded by the conversion of cellular systems from analog to digital transmission is not undermined. Any question of whether such a receiver complies with the regulations shall be determined by the Commission.

Subsection 302(d)(2) prohibits the manufacture or importation of scanning receivers with the prohibited capabilities beginning one year after the effective date of the regulations required under subsection 302(d)(1). Subsection 302(d)(2) does not bar the sale or use of non-complying scanning receivers, since the Committee expects that the stock of new non-complying scanners available for sale or use will diminish rapidly once the regulations are adopted. The Committee takes note that this subsection contrasts with subsection 302(a) and (b), which do bar the sale or use of certain radio frequency devices. As such, the section 510 enforcement powers, which apply to violations of section 302, would not be applicable to scanners other than those manufactured or imported subsequent to adoption of regulations required by this section. Subsection 302(b) applies to scanning receivers only to the extent that they fail to comply with the Commission's rules governing their interference potential.

For a number of years, several manufacturers have blocked voluntarily the reception of cellular frequencies in their scanning receivers. Additionally, some have refused to repair modified equipment that is returned for service, or have restored such equipment to its original configuration. However, methods of converting equipment have been devised and distributed by third parties. The Committee believes that as long as the equipment complies with the Commission's regulations adopted pursuant to subsection 302(d)(1), there shall be no liability under this section for manufacturers due to the actions of third parties.

COMPUTER ABUSE AMENDMENTS

Mr. LEAHY. Mr. President, I am also pleased to join with Senators BROWN and KOHL in offering the Computer Abuse Amendments Act of 1992 as an amendment to S. 1579.

It is important to update our laws to stay abreast of rapid changes in computer technology and computer abuse techniques. In the 101st Congress, the Senate responded to the threat posed by new forms of computer abuse—destructive viruses, worms, and Trojan horses—by unanimously passing S. 2476. That bill was not considered by the House of Representatives in the last Congress, so I joined with Senators BROWN and KOHL in reintroducing the bill, S. 1322, in this Congress. S. 1322 passed the Senate as an amendment to S. 1241, the Violent Crime Control Act. The provision was altered slightly in the crime conference with the House in November 1991. It passed the House in this modified form as part of the conference report to H.R. 3371, the Violent Crime Control Act.

The Computer Abuse Amendments Act of 1992 is the product of over 2 years of work by the Subcommittee on Technology and the Law. In the 101st Congress, I chaired two hearings on computer abuse. This proposal has been drafted and revised on the basis of careful review of issues raised in the subcommittee's hearings, and with the benefit of consultation with computer experts. The bill has been broadly supported by the computer industry and by computer users. At the subcommittee's hearing on July 31, 1990, Deputy Assistant Attorney General Mark Richard testified that this bill "* * * provides a useful improvement over and clarification of, the scope of existing law."

The free flow of information is vital to our competitiveness as a nation. Innovations in computer technology create new opportunities for improving the flow of information and advancing America's economic future, but they also create new opportunities for abuse by those who seek to undermine our computer systems. The maintenance of the security and integrity of computer systems has become increasingly critical to interstate and foreign commerce, communications, education, technology, and national security.

The National Research Council [NRC] published a major study, "Computers at Risk: Safe Computing in the Information Age." The study finds that we risk computer breaches that could cause economic disaster and even threaten human life. According to the NRC study, "Tomorrow's terrorist may be able to do more damage with a keyboard than with a bomb." The NRC study underscores the need for immediate action to protect our computer systems.

This legislation deals with new technologies and newly discovered forms of computer abuse. An alarming number of new techniques—computer viruses, worms, and Trojan horses—can be used to enter computers secretly. Their simple names belie their insidious nature. Thousands of virus attacks have been reported and hundreds of different viruses have been identified. Computer breaches can cause economic disaster and even threaten human life.

Hidden programs can destroy or alter data. For example, a Michigan hospital reported that its patient information had been scrambled or altered by a virus that came with a vendor's image display system. Hidden programs can also hopelessly clog computer networks, as we saw with the Internet worm of November 1988.

Other computer incidents, using the same kinds of programs, have been inadvertent. For example, in December 1989, the Vermont State computer network froze. It was impossible to sign on to the system. Rather than a virus or sabotage, it turned out to be a security device in the form of a time bomb, built into the system's hardware to deter outside access. The manufacturer of the software had failed to inform the State that a special code would be triggered after a given date, locking out access through normal channels. It was a nuisance to be sure, but certainly not criminal.

The subcommittee held a hearing on May 15, 1989, to explore the threat to computers and the information stored in them posed by new forms of computer abuse. We heard testimony from FBI Director William Sessions, who stressed the seriousness of the threat posed by computer viruses and other techniques.

The subcommittee also heard testimony from Dr. Clifford Stoll, an astrophysicist at the Harvard-Smithsonian Center for Astrophysics. He testified that many researchers throughout the United States were prevented from using their computers for 2 days as a result of a worm that was introduced onto the Internet computer network in November 1988. While managing the computer system at the Lawrence Berkeley Laboratory, Dr. Stoll caught a West German spy using computer networks to try to gain access to military information.

As a prosecutor for more than 8 years in Vermont, I learned that the best deterrent to crime was the threat of swift apprehension, conviction, and punishment. Whether the offense is murder, drunk driving, or computer crime, we need clear laws to bring offenders to justice. Trespassing, breaking and entering, vandalism, and stealing are against the law. They have always been against the law because they are contrary to the values and principles that society holds dear. That has not changed and will not change.

In crafting this legislation we have been mindful of the need to balance clear punishment for destructive conduct with the need to encourage legitimate experimentation and the free flow of information. As several witnesses testified in the subcommittee's hearings, the open exchange of information is crucial to scientific development and the growth of new industries. We cannot unduly inhibit that inquisitive 13-year-old who, if left to experiment today, may tomorrow develop the telecommunications or computer technology to lead the United States into the 21st century. He or she represents our future and our best hope to remain a technologically competitive nation.

Mr. President, this amendment clarifies the intent standards, the actions prohibited, and the jurisdiction of the current Computer Fraud and Abuse Act [CFAA], section 1030 of title 18, United States Code. Under the current statute, prosecution of computer abuse crimes must be predicated upon the violator's gaining "unauthorized access" to the affected "Federal interest computers." However, computer abusers have developed an arsenal of new techniques which result in the replication and transmission of destructive programs or codes that inflict damage upon remote computers to which the violator never gained access in the commonly understood sense of that term. The new subsection of the CFAA created by this bill places the focus on harmful intent and resultant harm, rather than on the technical concept of computer access.

The amendment makes it a felony intentionally to cause harm to a computer or the information stored in it by transmitting a computer program or code—including destructive computer viruses—without the knowledge and authorization of the person responsible for the computer attacked. This is broader than existing law, which prohibits "intentionally access[ing] a Federal interest computer without authorization," if that causes damage.

This legislation recognizes that some computer incidents are not malicious—or even intentional—and they are treated differently. The amendment creates a parallel misdemeanor for knowingly transmitting a computer program with reckless disregard of a substantial and unjustifiable risk that the transmission will cause harm. The standard for recklessness is taken from the Model Penal Code. This provision will give prosecutors and juries greater flexibility to get convictions for destructive conduct.

The amendment creates a new, civil remedy for those harmed by violations of the CFAA. This would boost the deterrence of the statute by allowing aggrieved individuals to obtain relief.

The legislation expands the jurisdiction of the CFAA. It would cover all computers involved in interstate commerce, not just Federal interest computers, as the current law does. This is appropriate because of the interstate nature of computer networks. American society is increasingly dependent on computer networks that span State and national boundaries. The potential for abuse of computer networks knows no boundaries. The act addresses this threat by expanding the jurisdiction of the CFAA to the full extent of the powers of Congress under the commerce clause of the U.S. Constitution, article I, section 8.

I want to thank Senators BROWN and KOHL for joining me in offering this amendment. I urge my colleagues to join us in supporting this measure. Enactment of this sound and balanced legislation would help ensure that our laws keep pace with new forms of computer abuse.

Mr. President, I ask unanimous consent that a section-by-section analysis be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SECTION-BY-SECTION ANALYSIS

SECTION (a)

This title, when enacted, may be cited as the "Computer Abuse Amendments Act of 1992."

SECTION (b)

Subsection (b)(1) would amend subsection (a)(5) of the Computer Fraud and Abuse Act of 1986, 18 U.S.C. 1030. It clarifies the intent standards, the actions prohibited and the jurisdiction of the statute. The amendments would cover all computers involved in interstate commerce, not just "Federal interest computers," as the current law does. This is appropriate because of the interstate nature of computer networks and the ease with which computer abuse, such as destructive computer viruses or worms, can spread across State lines. The legislation retains the jurisdictional threshold of $1,000 worth of damage, except for tampering with medical records, where no dollar amount is required.

The new statutory subsection (a)(5)(A)(i) would prohibit knowingly transmitting or causing to be transmitted a program or computer code, if the perpetrator intends that the program will damage or prevent the use of the affected computer. The new subsection focuses on criminal intent, making it clear that the perpetrator must intend to transmit the code and intend to cause damage. This clarifies the existing felony provision, which prohibits "intentionally access[ing] a Federal interest computer without authorization." 18 U.S.C. 1030(a)(5). The act adopts the Justice Department's formulation of the actions that should be prohibited in 18 U.S.C. 1030(a)(5) as a more precise formulation than the original language in the computer abuse bill in the 101st Congress.

The new subsection (a)(5)(A)(ii), requires that, in order to be criminal, actions would have to be taken without the authorization of the person responsible for the computer system receiving the program. This would prevent criminal liability for honest mistakes and legitimate experimentation under the guidance of a system manager.

The legislation also would create a misdemeanor, in the new subsection (a)(5)(B), for knowingly transmitting a computer program with reckless disregard of a substantial and unjustifiable risk that the transmission will cause harm. The standard for recklessness used in the bill is taken from the Model Penal Code. The misdemeanor parallels the felony created above in new subsection (a)(5)(A).

Subsection (b)(2) creates penalties for violations of the new felony and misdemeanor, modifying 18 U.S.C. 1030(c). This provision tracks current law for the felony penalty: Up to 5 years in prison and/or a fine of up to $250,000. It creates an appropriate penalty for the misdemeanor: Up to 1 year in prison and/or a fine of up to $5,000.

Subsection (b)(3) would create a civil cause of action for those who suffer violations of the Computer Fraud and Abuse Act. Plaintiffs would still have to meet the $1,000 threshold, except for medical records violations. This remedy would authorize private suits in an area that law enforcement has sometimes been reluctant to investigate or prosecute. Deterrence is another goal. The act narrows the damages available and adds a 2-year statute of limitations from earlier versions of the bill. Damages are limited to economic damages, except for violations of the medical records section, when pain and suffering damages would be permitted.

Subsection (b)(4) requires the Attorney General and the Secretary of the Treasury to report to Congress annually for the first 3 years after this legislation is enacted, about prosecutions under the new subsections (a)(5)(A) and (B). This provision will both enable Congress to evaluate the effectiveness of the new law in an area of continually changing technology and provide oversight on the prosecution brought. The reporting requirement is patterned after the original reporting requirement in the Computer Fraud and Abuse Act of 1984, Public Law 98-473.

Finally, Subsection (b)(5) clarifies that a violation of 18 U.S.C. 1030(a)(3), regarding gaining unauthorized access to Federal Government computers, occurs only if the unauthorized access adversely affects the Government's use of the computer. Merely signing on to a Government computer can "affect" the Government's use of the computer, without causing harm.

AMENDMENT NO. 3414

(Purpose: To provide for a study of security features for analog and digital radio signals, and for other purposes)

At the appropriate place, insert the following:

SEC. . FCC STUDY OF SECURITY FEATURES FOR ANALOG AND DIGITAL RADIO SIGNALS

(c) The Commission shall report to Congress, no later than June 1, 1993, on available security features for both analog and digital radio signals. This report shall include a study of security technologies currently available as well as those in development. The study shall assess the technological capabilities, level of security afforded, and cost, with widespread deployment, of any given system.

SEC. . FBI ACCESS TO TELEPHONE SUBSCRIBER INFORMATION.

(a) REQUIRED CERTIFICATION.—Section 2709(b) of title 18, United States Code, is amended to read as follows:

"(b) REQUIRED CERTIFICATION.—The Director of the Federal Bureau of Investigation, or his designee in a position not lower than Deputy Assistant Director, may—

"(1) request the name, address, length of service, and toll billing records of a person or entity if the Director (or his designee in a position not lower than Deputy Assistant Director) certifies in writing to the wire or electronic communication service provider to which the request is made that—

"(A) the name, address, length of service, and toll billing records sought are relevant to an authorized foreign counterintelligence investigation; and

"(B) there are specific and articulable facts giving reason to believe that the person or entity to whom the information sought pertains is a foreign power or an agent of a foreign power as defined in section 101 of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801); and

"(2) request the name, address, and length of service of a person or entity if the Director (or his designee in a position not lower than Deputy Assistant Director) certifies in writing to the wire or electronic communication service provider to which the request is made that—

"(A) the information sought is relevant to an authorized foreign counterintelligence investigation; and

"(B) there are specific and articulable facts giving reason to believe that communication facilities registered in the name of the person or entity have been used, through the services of such provider, in communication with—

"(i) an individual who is engaging or has engaged in international terrorism as defined in section 101(c) of the Foreign Intelligence Surveillance Act or clandestine intelligence activities that involve or may involve a violation of the criminal statutes of the United States; or

"(ii) a foreign power or an agent of a foreign power under circumstances giving reason to believe that the communication concerned international terrorism as defined in section 101(c) of the Foreign Intelligence Surveillance Act or clandestine intelligence activities that involve or may involve a violation of the criminal statutes of the United States.".

(b) REPORT TO JUDICIARY COMMITTEES.—Section 2709(e) of title 18, United States Code, is amended by inserting after "Senate" the following: "and the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate,".

SEC. . COMPUTER ABUSE AMENDMENTS ACT OF 1992.

(a) SHORT TITLE.—This section may be cited as the "Computer Abuse Amendments Act of 1992".

(b) AMENDMENTS TO THE COMPUTER FRAUD AND ABUSE ACT.—

(1) PROHIBITION.—Section 1030(a)(5) of title 18, United States Code, is amended to read as follows:

"(5)(A) through means of a computer used in interstate commerce or communications, knowingly causes the transmission of a program, information, code, or command to a computer or computer system if—

"(i) the person causing the transmission intends that such transmission will—

"(I) damage, or cause damage to a computer, computer system network information date or program; or

"(II) withhold or deny, or cause the withholding or denial of the use of a computer, computer services, system or network, information, data or program; and

"(ii) the transmission of the harmful component of the program information code or command—

"(I) occurred without the knowledge and authorization of the persons or entities who own or are responsible for the computer system receiving the program, information, code, or command; and

"(II)(aa) causes loss or damage to one or more other persons of value aggregating $1,000 or more during any 1-year period; or

"(bb) modifies or impairs, or potentially modifies or impairs, the medical examination, medical diagnosis, medical treatment, or medical care of one or more individuals; or

"(B) through means of a computer used in interstate commerce or communication, knowingly causes the transmission of a program, information, code, or command to a computer or computer system—

"(i) with reckless disregard of a substantial and unjustifiable risk that the transmission will—

"(I) damage, or cause damage to, a computer, computer system, network, information, data or program; or

"(II) withhold or deny or cause the withholding or denial of the use of a computer, computer services, system, network, information, data or program; and

"(ii) if the transmission of the harmful component of the program, information, code, or command—

"(I) occurred without the knowledge and authorization of the persons or entities who own or are responsible for the computer system receiving the program, information, code, or command; and

"(II)(aa) causes loss or damage to one or more other persons of a value aggregating $1,000 or more during any 1-year period; or

"(bb) modifies or impairs, or potentially modifies or impairs, the medical examination, medical diagnosis, medical treatment, or medical care of one or more individuals;"

(2) PENALTY.—Section 1030(c) of title 18, United States Code, is amended—

(A) in paragraph (2)(B) by striking "and" after the semicolon;

(B) in paragraph (3)(A) by inserting "(A)" after "(a)(5)";

(C) in paragraph (3)(B) by striking the period at the end thereof and inserting ", and"; and

(D) by adding at the end thereof the following:

"(4) a fine under this title or imprisonment for not more than 1 year, or both, in the case of an offense under subsection (a)(5)(B).".

(3) CIVIL ACTION.—Section 1030 of title 18, United States Code, is amended by adding at the end thereof the following new subsection:

"(g) Any person who suffers damage or loss by reason of a violation of the section, other than a violation of subsection (a)(5)(B), may maintain a civil action against the violator to obtain compensatory damages and injunctive relief or other equitable relief. Damages for violations of any subsection other than subsection (a)(5)(A)(ii)(II)(bb) or (a)(5)(B)(ii)(II)(bb) are limited to economic damages. No action may be brought under this subsection unless such action is begun within 2 years of the date of the act complained of or the date of the discovery of the damage.".

(4) REPORTING REQUIREMENTS.—Section 1030 of title 18, United States Code, is amended by adding at the end thereof the following new subsection:

"(h) The Attorney General and the Secretary of the Treasury shall report to the Congress annually, during the first 3 years following the date of the enactment of this subsection, concerning investigations and prosecutions under section 1030(a)(5) of title 18, United States Code.".

(5) PROHIBITION.—Section 1030(a)(3) of title 18, United States Code, is amended by inserting "adversely" before "affects the use of the Government's operation of such computer".

Mr. LEAHY. Mr. President, the purpose of the amendment is to enable the FBI to identify the subscribers to telephones that are used to communicate with foreign powers or foreign agents who engage in clandestine intelligence activities or international terrorism. This section amends section 2709 of the Electronic Communication Privacy Act [ECPA], 18 U.S.C. 2709, to require that a wire or electronic communication service provider give the FBI access, without a court order or subpoena, to information identifying certain telephone subscribers for use in foreign counterintelligence and international terrorism investigations.

The administration initially proposed an earlier version of this amendment in September 1989 and again in successive intelligence authorization acts. Indeed, I am advised that FBI Director William S. Sessions testified in favor of the amendment at a closed Intelligence Committee hearing on May 10, 1990, and that the amendment was publicly endorsed by a special counterintelligence panel established by the Intelligence Committee on May 23, 1990. The amendment, as it was originally introduced, however, was not acted upon, largely because of civil liberties concerns raised with respect to the original wording.

In 1991, however, new wording was worked out by the House and Senate Judiciary Committee, responding to these concerns, and this provision was included in the 1991 crime bill.

BACKGROUND

In adopting ECPA in 1986, Congress established certain privacy protections for subscriber records and other information held by telephone companies and other electronic communication service providers. Congress provided that the Government could obtain a subscriber's transactional records or other information from a telephone company without the subscriber's permission only pursuant to a subpoena, search warrant or court order where there is reason to believe that the information is relevant to a legitimate law enforcement inquiry. 18 U.S.C. 2703.

Congress created a limited exception to this rule for use in counterintelligence and international terrorism cases. In 18 U.S.C. 2709, Congress gave the FBI authority to compel production of identifying information and toll records with a so-called "national security letter," signed by an FBI official without judicial review and without a relevance to a criminal investigation, where the subscriber is believed to be a foreign power or agent of a foreign power, as defined in the Foreign Intelligence Surveillance Act. "Foreign power" includes international terrorist groups.

The FBI has concluded that the authority in section 2709 is, in one specific respect, too narrow. To illustrate the problem, the Bureau cites the case of a former employee of the U.S. Government who called a foreign embassy and offered to provide sensitive U.S. Government information. The conversation was monitored, but the former employee did not identify himself. The former employee subsequently met with representatives of the foreign nation and compromised highly sensitive information about U.S. intelligence capabilities. The FBI argues that if it had been able to trace the number from which the first call offering information was placed, it might have been able to identify the former employee sooner or prevent the loss of information.

However, under sections 2703 and 2709 as they were adopted in 1986, the FBI could not, without a subpoena or court order, obtain the identity of a subscriber, unless there was a reason to believe that the subscriber was a foreign power or agent of a foreign power. In the case described above, the FBI did not have reason to believe that the caller was a foreign agent. Instead, the caller appeared to be a possible volunteer to be an agent, and therefore did not meet the section 2709 standard.

In response to this limitation, the FBI asked Congress to expand the reach of section 2709, to allow the FBI certification to require phone companies to identify not only suspected agents of foreign powers but also persons who have been in contact with foreign powers or suspected agents of foreign powers. As originally proposed by the FBI, the amendment would have applied to any caller to a foreign diplomatic establishment and any caller to official foreign visitors such as scholars from government universities abroad. This was deemed by the Judiciary Committee to be too broad.

Exempt from the judicial scrutiny normally required for compulsory process, the national security letter is an extraordinary device. New applications are disfavored. However, after careful study, the committee concluded that a narrow change in section 2709 to meet the FBI's focused and demonstrated needs was justified. The provision reported by the committee is a modification of the language originally proposed by the FBI. It allows access where: First, there is a contact with a suspected intelligence officer or a suspected terrorist; or second, the circumstances of the conversation indicate, as they did in the case described above, that it may involve spying or an offer of information.

In addition to covering a future case like the one described above, this new authority would allow the FBI to identify subscribers in the following types of cases, cited by the FBI in justifying its need for this amendment:

First, persons whose phone numbers were listed in an address book seized from a suspected terrorist;

Second, all persons who call an embassy and ask to speak with a suspected intelligence officer; and

Third, all callers to the home of a suspected intelligence officer or the apartment of a suspected terrorist.

Section 2709 as enacted in 1986 used the phrase "subscriber information and toll billing records information" to describe the information that the FBI could obtain. Instead of "subscriber information," the amendment here uses more specific terms: "names, address, length of service." As used in this section, toll billing records consist of information maintained by a wire or electronic communication service provider identifying the telephone numbers called from a particular phone or attributable to a particular account for which a communication service provider might charge a service fee. The Committee intends, and the FBI agrees, that the authority to obtain subscriber information and toll billing records under section 2709 does not require communications service providers to create records which they do not maintain in the ordinary course of business.

This amendment strengthens congressional oversight of the exercise of this authority by amending section 2709(e) to add a requirement that the FBI report on its use of the authority to both House and Senate Judiciary Committees as well as both Intelligence Committees. It is the Committee's intent regarding this section that the FBI should, without identifying the subjects of pending investigations, inform the committees, as part of this report, of the facts and circumstances that are the basis for obtaining information concerning any domestic political organization or groups under section 2709.

Under section 2703(e), wire or electronic communication service providers who provide information in response to a "court order, warrant, subpoena or certification under this chapter" are protected from liability for such disclosure. The certification signed by the Director or the Director's designee under the section 2709(b) is a certification for purposes of section 2703(e).

I ask unanimous consent that a section-by-section analysis be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SECTION-BY-SECTION ANALYSIS

Section amends 18 U.S.C. section 2709 by striking subsection (b) and inserting in lieu thereof a new subsection containing two paragraphs.

Paragraph (1) of the new section 2709(b) reenacts the existing authority for FBI access to the names, address, length of service and toll billing records of a person or entity when the Director or the Director's designee certifies in writing to the wire or electronic communication service provider to which the request is made—(A) the information sought is relevant to an authorized foreign counterintelligence investigation; and (B) there are specific and articulable facts giving reason to believe that the person or entity to whom the information sought pertains is a foreign power or an agent of a foreign power as defined in the Foreign Intelligence Surveillance Act.

Paragraph (2) of the new section 2709(b) authorizes the FBI Director or the Director's designee to obtain the name, address and length of service of a person or entity if the Director or the director's designee certifies in writing to the wire or electronic communications service provider to which the request is made that—(A) the information sought is relevant to an authorized foreign counterintelligence investigation; and (B) there is reason to believe that communications facilities registered in the name of the person or entity have been used, through the services of such provider, in communication with (i) an individual who is engaging or has engaged in international terrorism or clandestine intelligence activities that involve or may involve a violation of the criminal statutes of the United States or (ii) a foreign power or an agent of a foreign power under circumstances giving reason to believe that the communication concerned international terrorism or clandestine intelligence activities.

Section adds the House and Senate Judiciary Committees to the oversight provision in section 2709(e).

AMENDMENT NO. 3415

Purpose: To require a proposal for demonstrating the potential of innovative communications equipment and services

At the appropriate place, insert the following new section:

SEC. . PROPOSAL FOR DEMONSTRATING THE POTENTIAL OF INNOVATIVE COMMUNICATIONS EQUIPMENT AND SERVICES.

(a) DEMONSTRATION PROPOSAL.—Within 180 days after the date of enactment of this Act, the Assistant Secretary of Energy for Conservation and Renewable Energy, in consultation with the Assistant Secretary of Commerce for Communications and Information, shall submit to Congress a proposal for demonstrating the ability of new and innovative communications equipment and services to further the national goals of conserving energy and protecting public health and safety.

(b) FACTORS TO BE ADDRESSED.—The demonstration proposal required by subsection (a) shall address—

(1) the feasibility of using communications technologies to read meters from remote locations;

(2) the feasibility of managing the consumption of electrical power and natural gas by residences and businesses, thereby reducing the demand for new and additional sources of energy, and controlling the cost of providing improved utility services; and

(3) the public safety implications of monitoring utility services outages during earthquakes, hurricanes, typhoons, tornados, volcanos, and other natural disasters.

(c) PROJECT TO DEMONSTRATE ENERGY CONSERVATION POTENTIAL.—Upon submission of the demonstration proposal to the Congress, the Secretary of Energy shall consider requesting from the Assistant Secretary of Commerce for Communications and Information the authority to use radio frequencies, pursuant to section 305 of the Communications Act of 1934 (47 U.S.C. 305), to carry out demonstration projects consistent with the proposal that are designed to demonstrate the energy conservation potential of communications technologies and which are administered by the Secretary of Energy.

SEC. . TECHNICAL AMENDMENTS.

Section 227(h)(2) of the Communications Act of 1934 (47 U.S.C. 227(b)(2)) is amended—

(1) by striking "and" at the end of subparagraph (A);

(2) by striking the period at the end of subparagraph (B) and inserting "; and"; and

(3) by inserting after subparagraph (B) the following new subparagraph:

"(C) may, by rule or order, exempt from the requirements of paragraph (1)(A)(iii) of this subsection calls to a telephone number assigned to a cellular telephone service that are not charged to the called party, subject to such conditions as the Commission may prescribe as necessary in the interest of the privacy rights this section is intended to protect.".

Mr. GORTON. Mr. President, the legislation before the Senate today includes an important provision to promote energy conservation. I would like to thank Senators MCCAIN, INOUYE, DANFORTH, and HOLLINGS for working with me and with Speaker FOLEY to include this provision.

Washington Water Power Co. is a major participant in a separate corporation known as ITRON which was organized to develop advanced technologies that benefit utilities and their customers by promoting the most efficient use of energy. ITRON, together with AMRplus Partners which was formed by other domestic and international utilities, have developed an automatic meter reading unit and two way communications system that will improve customer service, reduce power outage durations, and lower overall utility system maintenance costs. This technology will allow local utilities to better manage their energy consumption between peak and offpeak times by offering rate inducements to their customers for using energy at certain times of the day or week. This technology is wireless and utilizes the radio frequency spectrum.

The provision which I have asked to be included in the legislation today directs an office in the Department of Energy to work with the National Telecommunications and Information Administration [NTIA] to put forward a proposal within 180 days that demonstrates the feasibility, among other requirements, of using communications technologies to read meters from remote locations and for managing the consumption of electrical power and natural gas. Upon submission of this proposal, the Secretary of Energy is then directed to consider requesting spectrum managed by the NTIA for the purpose of carrying out demonstration projects that are consistent with the proposal. It is my hope that the Secretary will recognize the need for advancing innovative energy conserving devices such as that which has been developed by ITRON and AMRplus Partners.

Mr. HOLLINGS. Mr. President, today the Senate considers S. 1579, the Telephone Disclosure and Dispute Resolution Act. I commend Senator INOUYE, the Communications Subcommittee chairman, for all of his work on this measure. The bill before us today represents a compromise with the House of Representatives, and it has taken much hard work to get to this point.

Mr. President, consumers are under attack. Everywhere they turn they are bombarded with advertisements for pay-per-call services—so-called 900 services. A recent advertisement in a Washington area paper reads: "if you want to be sure you are going to heaven call 1-900-535-4900." 900 services are used to promote anything and everything. Unfortunately, these advertisements often deceive customers as to the cost of these calls. The charges can be as high as $50 per call or $10 per minute. Further, when a consumer calls, the provider often fails to give the consumer what was advertised.

The South Carolina Department of Consumer Affairs has received more complaints about 900 services than any other issue except computerized phone calls. The 900 pay-per-call business is close to a billion-dollar-a-year industry which is expected to double within 2 years. The complaints seem to be growing faster than the industry.

These services prey upon people's hopes and dreams and add to their despair. At hearings in Greenville and Columbia, SC, I heard from my constituents, and there is no doubt in my mind that this legislation is needed. One woman received a call on a night while she was trying to figure out which bills she could afford to pay that month. The call promised that she would receive a VISA card if she called a 900 number. She was charged $50 for the call and got nothing, not even an application to complete.

Another constituent had charges for 900 calls on his phone bill one month. When he called his local phone company to complain, he was told to call the long distance carrier. While he was waiting for a response from the long distance company, his phone was disconnected for failing to pay these charges. This went on for several months, each time because of the same charges that appeared on one bill. He finally gave up and decided to do without a phone. Then he lost his job, and now has no home phone to use in his job search.

S. 1579 will address these problems. The bill before us continues to provide the same protections to consumers as were provided in the bill passed by the Senate. It will prohibit telephone companies from disconnecting basic phone service for failure to pay charges for 900 calls; it will require that callers be informed about the charges they will incur, and the service or product to be provided; and, most importantly, it will impose penalties on information service providers and telephone companies for failure to comply with the requirements of this legislation.

The bill, like the Senate's earlier version, will prohibit the use of 900 services aimed at children under 12. In addition, a new provision has been added to this bill to require the Federal Trade Commission [FTC] to adopt procedures to protect consumers from unscrupulous billing and collection practices by 900 service providers. I note that none of the provisions requiring the FTC to adopt rules is intended to vest in the FTC the authority to promulgate rules on the grounds that activities are unfair. This authority has been restricted since 1980, and this legislation does not restore any authority that has been limited.

As with most industries, many 900 service providers are operated by responsible individuals who do not take advantage of consumers. However, there are clearly those who abuse consumers. We need this legislation to provide consumers with information and additional protection against fraud and abuses perpetrated by certain unprincipled 900 service providers. Even the 900 service providers realize that this is an issue Congress needs to address and have worked with the committee on this legislation.

I believe that we cannot assume a hands-off attitude while consumers are being harmed. We must act to prevent further abuses from 900 services, and I urge my colleagues to support this legislation.

Mr. McCAIN. Mr. President, the passage of the Telephone Disclosure and Dispute Resolution Act by this Congress is an important event for consumers in this country.

The growth of fraudulent practices by pay-per-call service providers has led to increasing concern among consumers. I introduced S. 471, the 900 Services Consumer Protection Act of 1991 on February 21, 1991 because of the flagrant abuses against consumers perpetrated by some information services providers, more commonly referred to as 900 service providers or pay-per-call services. Senator INOUYE later introduced S. 1166, the Telephone Consumer Assistance Act, on April 25, 1991. S. 1166 also sought to address the issue of consumer fraud in the 900 services industry.

S. 471 and S. 1166 were merged following a hearing on the two bills on July 16, 1991. S. 1579, the 900 Services Consumer Protection Act of 1991, was the result of this collaboration. This legislation was passed by the Senate on October 29, 1991. The House of Representatives passed companion legislation on February 25, 1992.

Pay-per-call fraud is committed in a variety of ways. Of the many methods commonly used to defraud consumers, nondisclosure and misinformation stand as the most prevalent. Many of the services offered through the pay-per-call industry have shown this to be true time and time again.

For example, advertisements of services may not disclose the full price of the call, or may fail to state the price in a manner which is clear to the consumer. Thus, consumers are not always aware of the cost of the call, and are confused when they receive the charge on their phone bill.

In addition to nondisclosure concerns, there have been complaints to both the Federal Communications Commission [FCC] and the Federal Trade Commission [FTC] about 800 telephone number calls. The newest scams involving 800 numbers, which are commonly perceived to be toll free, include the use of 800 numbers used to charge unsuspecting callers without their knowledge. Another abuse of 800 numbers occurs where a consumer places a toll-free call, then is called back collect, or charges reversed, for the provision of services the caller was led to believe would be toll free.

There is also great concern about the fact that the identity of the information provider is not available on the phone bill where the charge appears. The charge is attributed to the long-distance carrier. Therefore, the consumer cannot verify whether they did indeed call that service. This creates a burden for both the consumer and the long-distance carrier, and leads to increased confusion in the dispute resolution process.

Abuses by pay-per-call service providers have become increasingly problematic for parents of young children.

Children are the most common victims of consumer fraud in this industry. Minors are not in a position where they can make an informed decision about whether or not they should incur the cost of pay-per-call services. This has been recognized by Federal policymakers in the area of communications since the 1960's. For this reason, the FCC has placed restrictions on certain kinds of television advertisements aimed at children. Because of their youth and inexperience, children cannot distinguish between actual programming and the purpose of advertisements. This necessitates the consideration of children as a protected consumer class.

So-called latchkey kids are particularly susceptible to the temptation of placing a toll call as a result of watching a commercial, since they cannot ask their parents for permission or guidance because their parents are away at work.

Some of these services do not even deliver what they promise. One notorious example of this is the Santa Claus line which promised a conversation with Santa. This is particularly enticing to young children during the Christmas holiday season. In this particular case, upon calling one particular Santa line, the child was informed that Santa was in the restroom, and that the child should call back in 10 minutes. The result is a disappointed child and an angry, frustrated parent. Regardless of whether or not the call was authorized by an adult, the child did not receive the service he or she was promised. If the child is still interested enough in contacting Santa Claus, he will continue to call in the hopes of speaking to him and rack up the charges in the process.

Another case involves a different Santa Claus advertisement which directed children to put the phone up to the television set and delivered a series of tones which automatically dialed the phone number for the service. Clearly, the advertisement was aimed at very young children who may have difficulty dialing the telephone. If a child is too young to dial a telephone, then that child is obviously too young to make an informed consumer decision.

In the case of unmonitored pay-per-call services usage, this unmonitored time often results in costly phone bills, up into the hundreds of dollars per month, because children were enticed to place a call by advertisement aimed directly at them, the innocent consumer.

These abuses led the National Association of Attorneys General to issue a report in March 1991 on the state of the pay-per-call industry. The report concluded that consumer abuses required Federal regulation of the industry. It particularly stressed the importance of protecting children, and recommended a ban on services aimed at children.

I believe that all consumers have a right to all of the information they need to make an informed decision about the service for which they will be chaired. This legislation facilitates the exercise of that right by:

First, requiring that pay-per-call services provide a preamble, free of charge, that describes the service being provided, specifies clearly and at a reasonable understandable volume the total cost or the cost per minute, informs the caller that charges for the call begin at the end of the introductory message, informs the caller that parental consent is required for calls made by children, and, in the case of a pay-per-call service providing information on any Federal program, a statement that clearly states that the service is not authorized, endorsed, or approved by any Federal agency;

Second, prohibiting services directed at children under the age of 12, unless such service is a bona fide educational service;

Third, requiring the local phone companies to give each subscriber the option of blocking access from their telephone number to all, or to certain specific, prefixes or area codes used by pay-per-call services;

Fourth, requiring that common carriers contracting with pay-per-call services providers terminate the contract if that service provider does not comply with the requirements set forth in this act;

Fifth, prohibiting common carriers from disconnecting a subscriber's telephone service for failure to pay interstate 900 number charges;

Sixth, prohibiting the use of electric tones in advertisements which can automatically dial a pay-per-call telephone number;

Seventh, requiring that any common carrier engaged in billing and collection for a pay-per-call service display in bills sent to subscribers the charges for pay-per-call services in a part of the subscriber's bill that is identified as not being related to local and long distance telephone charges, and, for each charge displayed, specify the type of service, the amount of the charge, and the date, time, and duration of the call, and identify the toll-free number established to provide further information about the pay-per-call service provider;

Eighth, requiring full and clear disclosure of the rates for these calls in all advertisements;

Ninth, prohibiting use of 800 numbers, or toll-free calls, that automatically connect a consumer to pay-per-call telephone numbers for which the caller is ultimately charged;

Tenth, prohibiting the use of any 800 telephone number, or other telephone number advertised or widely understood to be toll free, in a manner that would result in a charge for the call for merely completing the call, the calling party being charged for information conveyed during the call, or the calling party being called back collect for the provision of the service;

Eleventh, requiring common carriers that contract with pay-per-call service providers to make available on request the name, business address, and phone number of pay-per-call service providers contracting with that provider, a short description of the service provided, the access number for the service, and the maximum charges for the service;

Twelfth, giving the FCC, the FTC, and the States the authority to enforce the provisions of this legislation;

Thirteenth, requiring the establishment of dispute resolution procedures over billing errors following telephone-billed purchases, including the establishment of rules to prohibit unfair or deceptive acts or practices that evade such rules or undermine the rights provided to customers.

Mr. President, this is only a partial list of the benefits to consumers prescribed in this bill. It is my hope that with all of the provisions in the bill, consumers will be able to use pay-per-call service without concern that they will become victims of fraud. This industry has afforded consumers a broad array of choices, giving them the convenience of receiving services and entertainment through an interactive system. Consumers have benefited from the growth of this industry, which is largely comprised of honest, legitimate pay-per-call service providers.

The passage of this legislation represents a joint cooperation between the telecommunications industry, the pay-per-call service providers, consumers, the FCC, the FTC, and Congress. I look forward to this continued cooperation in an effort to ultimately strengthen the industry and foster consumer confidence.

I would like to thank Senator INOUYE for his commitment to bringing consumer protection to the forefront in this area. His support, as always, has been unwavering and I am pleased to have had this opportunity to work with him in this effort.

Mr. FORD. Mr. President, I ask unanimous consent the title be appropriately amended.

The title was amended so as to read: "An Act to protect the public interest and the future development of pay-per-call technology by providing for the regulation and oversight of the applications and growth of the pay-per-call industry, and for other purposes."

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

INDIAN EMPLOYMENT TRAINING AND RELATED SERVICES DEMONSTRATION ACT

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1530.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives.

Resolved, That the bill from the Senate (S. 1530) entitled "An Act to authorize the integration of employment, training, and related services provided by Indian tribal governments," do pass with the following amendment:

Strike out all after the enacting clause, and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Indian Employment, Training and Related Services Demonstration Act of 1992".

SEC. 2. STATEMENT OF PURPOSE.

The purposes of this Act are to demonstrate how Indian tribal governments can integrate the employment, training and related services they provide in order to improve the effectiveness of those services, reduce joblessness in Indian communities and serve tribally-determined goals consistent with the policy of self-determination.

SEC. 3. DEFINITIONS.

For the purposes of this Act, the following definitions apply:

(1) Indian tribe.—The terms "Indian tribe" and "tribe" shall have the meaning given the term "Indian tribe" in section 4(e) of the Indian Self-Determination and Education Assistance Act.

(2) Indian.—The term "Indian" shall have the meaning given such term in section 4(d) of the Indian Self-Determination and Education Assistance Act.

(3) Secretary.—Except where otherwise provided, the term "Secretary" means the Secretary of the Interior.

SEC. 4. INTEGRATION OF SERVICES AUTHORIZED.

The Secretary of the Interior, in cooperation with the appropriate Secretary of Labor, Secretary of Health and Human Services, or Secretary of Education, shall, upon the receipt of a plan acceptable to the Secretary of the Interior submitted by an Indian tribal government, authorize the tribal government to coordinate, in accordance with such plan, its federally funded employment, training, and related services programs in a manner that integrates the program services involved into a single, coordinated, comprehensive program and reduces administrative costs by consolidating administrative functions.

SEC. 5. PROGRAMS AFFECTED.

The programs that may be integrated in a demonstration project under any such plan referred to in section 4 shall include any program under which an Indian tribe is eligible for receipt of funds under a statutory or administrative formula for the purposes of job training, tribal work experience, employment opportunities, or skill development, or any program designed for the enhancement of job opportunities or employment training.

SEC. 6. PLAN REQUIREMENTS.

For a plan to be acceptable pursuant to section 4, it shall—

(1) identify the programs to be integrated;

(2) be consistent with the purposes of this Act authorizing the services to be integrated in a demonstration project;

(3) describe a comprehensive strategy which identifies the full range of potential employment opportunities on and near the tribal government's service area, and the education, training and related services to be provided to assist Indian workers to access those employment opportunities;

(4) describe the way in which services are to be integrated and delivered and the results expected from the plan;

(5) identify the projected expenditures under the plan in a single budget;

(6) identify the agency or agencies of the tribal government to be involved in the delivery of the services integrated under the plan;

(7) identify any statutory provisions, regulations, policies, or procedures that the tribal government believes need to be waived in order to implement its plan; and

(8) be approved by the governing body of the affected tribe.

SEC. 7. PLAN REVIEW.

Upon receipt of the plan from a tribal government, the Secretary of the Interior shall consult with the Secretary of each Federal department providing funds to be used to implement the plan, and with the tribal government submitting the plan. The parties so consulting shall identify any waivers of statutory requirements or of Federal departmental regulations, policies, or procedures necessary to enable the tribal government to implement its plan. Notwithstanding any other provision of law, the Secretary of the affected department shall have the authority to waive any regulation, policy, or procedure promulgated by that department that has been so identified by such tribal government or department, unless the Secretary of the affected department determines that such a waiver is inconsistent with the purposes of this Act or those provisions of the statute from which the program involved derives its authority which are specifically applicable to Indian programs.

SEC. 8. PLAN APPROVAL.

Within 90 days after the receipt of a tribal government's plan by the Secretary, the Secretary shall inform the tribal government, in writing, of the Secretary's approval or disapproval of the plan. If the plan is disapproved, the tribal government shall be informed, in writing, of the reasons for the disapproval and shall be given an opportunity to amend its plan or to petition the Secretary to reconsider such disapproval.

SEC. 9. JOB CREATION ACTIVITIES AUTHORIZED.

The plan submitted by a tribal government may involve the expenditure of funds for the creation of employment opportunities and for the development of the economic resources of the tribal government or of individual Indian people if such expenditures are consistent with an overall regional economic activity which has a reasonable likelihood of success and consistent with the purposes specifically applicable to Indian programs in the statute under which the funds are authorized.

SEC. 10. PRIVATE SECTOR TRAINING PLACEMENTS.

A tribal government participating in a demonstration program under this Act is authorized to utilize funds available under such plan to place participants in training positions with private employers and pay such participants a training allowance or wage for a period not to exceed 12 months, if the tribal government obtains a written agreement from the private employer to provide on-the-job training to such participants and, upon satisfactory completion of the training period, to guarantee permanent employment to such participants for a minimum of 12 months.

SEC. 11. FEDERAL RESPONSIBILITIES.

(a) Responsibilities of the Department of the Interior.—Within 180 days following the date of enactment of this Act, the Secretary of the Interior, the Secretary of Labor, the Secretary of Health and Human Services and the Secretary of Education shall enter into an interdepartmental memorandum of agreement providing for the implementation of the demonstration projects authorized under this Act. The lead agency for a demonstration program under this Act shall be the Bureau of Indian Affairs, Department of the Interior. The responsibilities of the lead agency shall include—

(1) the use of a single report format related to the plan for the individual project which shall be used by a tribal government to report on the activities undertaken under the project;

(2) the use of a single report format related to the projected expenditures for the individual project which shall be used by a tribal government to report on all project expenditures;

(3) the development of a single system of Federal oversight for the project, which shall be implemented by the lead agency; and

(4) the provision of technical assistance to a tribal government appropriate to the project, except that a tribal government shall have the authority to accept or reject the plan for providing such technical assistance and the technical assistance provider.

(b) Report Requirements.—The single report format shall be developed by the Secretary, consistent with the requirements of this Act. Such report format, together with records maintained on the consoldiated program at the tribal level shall contain such information as will allow a determination that the tribe has complied with the requirements incorporated in its approved plan and will provide assurances to each Secretary that the tribe has complied with all directly applicable statutory requirements and with those directly applicable regulatory requirements which have not been waived.

SEC. 12. NO REDUCTION IN AMOUNTS.

In no case shall the amount of Federal funds available to a tribal government involved in any demonstration project be reduced as a result of the enactment of this Act.

SEC. 13. INTERAGENCY FUND TRANSFERS AUTHORIZED.

The Secretary of the Interior, Secretary of Labor, Secretary of Health and Human Services, or the Secretary of Education, as appropriate, is authorized to take such action as may be necessary to provide for an interagency transfer of funds otherwise available to a tribal government in order to further the purposes of this Act.

SEC. 14. ADMINISTRATION OF FUNDS AND OVERAGE.

(a) Administration of Funds.—

(1) In general.—Program funds shall be administered in such a manner as to allow for a determination that funds from specific programs (or an amount equal to the amount attracted from each program) are spent on allowable activities authorized under such program.

(2) Separate records not required.—Nothing in this section shall be construed as requiring the tribe to maintain separate records tracing any services or activities conducted under its approved plan to the individual programs under which funds were authorized, nor shall the tribe be required to allocate expenditures among such individual programs.

(b) Overage.—All administrative costs may be commingled and participating Indian tribes shall be entitled to the full amount of such costs (under each program or department's regulations), and no overage shall be counted for Federal audit purposes, provided that the overage is used for the purposes provided for under this Act.

SEC. 15. FISCAL ACCOUNTABILITY.

Nothing in this Act shall be construed so as to interfere with the ability of the Secretary or the lead agency to fulfill the responsibilities for the safeguarding of Federal funds pursuant to the Single Audit Act of 1984.

SEC. 16. REPORT ON STATUTORY OBSTACLES TO PROGRAM INTEGRATION.

(a) PRELIMINARY REPORT.—Not later than two years after the date of the enactment of this Act, the Secretary shall submit a preliminary report to the Select Committee on Indian Affairs of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives on the status of the implementation of the demonstration program authorized under this Act.

(b) FINAL REPORT.—Not later than five years after the date of the enactment of this Act, the Secretary shall submit a report to the Select Committee on Indian Affairs of the Senate and the Committee on Interior and Insular Affairs and the Committee on Education and Labor of the House of Representatives on the results of the implementation of the demonstration program authorized under this Act. Such report shall identify statutory barriers to the ability of tribal governments to integrate more effectively their employment, training, and related services in a manner consistent with the purposes of this Act.

SEC. 17. LABOR MARKET INFORMATION ON THE INDIAN WORK FORCE.

(a) REPORT.—The Secretary, in consultation with the Secretary of Labor, shall, in a consistent and reliable manner, develop, maintain and publish, not less than biennially, a report on the population, by gender, eligible for the services which the Secretary provides to Indian people. The report shall include, but is not limited to, information at the national level by State, Bureau of Indian Affairs Service area, and tribal level for the—

(1) total service population;

(2) the service population under age 16 and over 64;

(3) the population available for work, including those not considered to be actively seeking work;

(4) the employed population, including those employed with annual earnings below the poverty line; and

(5) the numbers employed in private sector positions and in public sector positions.

(b) INDIAN DEMOGRAPHIC INFORMATION.—The Secretary, in consultation with the Bureau of the Census of the Department of Commerce, and the National Center for Native American Studies and Policy Development authorized by Public Law 101-301, shall prepare a report on the need for comprehensive, accurate and periodically updated information on the size and characteristics of the Indian and Alaska Native population throughout the entire United States. This report shall include the need for information, together with the cost of acquiring such information, on the characteristics and need for education, health, housing, job training, and other basic needs of such population, and shall take into consideration the need for this information by Indian tribes and organizations serving Indians in nonreservation areas. The report shall be submitted to the Select Committee on Indian Affairs of the Senate and the Committee on Interior and Insular Affairs and the Committee on Education and Labor of the House of Representatives not later than 12 months after the date of enactment of this Act.

SEC. 18. ASSIGNMENT OF FEDERAL PERSONNEL TO STATE INDIAN ECONOMIC DEVELOPMENT PROGRAMS.

Any State with an economic development program targeted to Indian tribes shall be eligible to receive, at no cost to the State, such Federal personnel assignments as the Secretary, in accordance with the applicable provisions of the Intergovernmental Personnel Act of 1970, may deem appropriate to help ensure the success of such program.

Mr. FORD. Mr. President, I move that the Senate concur in the House amendment.

The ACTING PRESIDENT pro tempore. The question is on agreeing to the moiton.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ROBERT C. BYRD LOCKS AND DAM

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. 3345, a bill to designate the Gallipolis Locks and Dams, Ohio River, Ohio and West Virginia, as the "Robert C. Byrd locks and dam," introduced earlier today by Senators ROCKEFELLER and MOYNIHAN; that the bill be deemed read three times, passed; and the motion to reconsider laid upon the table; that a statement by Senator ROCKEFELLER appear in the RECORD at the appropriate place.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The bill (S. 3345) was deemed read three times and passed.

RENAMING GALLIPOLIS LOCKS AND DAM FOR SENATOR ROBERT C. BYRD

Mr. ROCKEFELLER. Mr. President, I am exceedingly proud to report the passage of legislation that will rename the Gallipolis locks and dam for the senior Senator from West Virginia, ROBERT C. BYRD. It has been my privilege to sponsor this amendment legislation, honoring this great servant of the people of the State of West Virginia and the Nation. His lifetime has been devoted to public service. Senator BYRD has held more legislative elective offices than any other individual in the history of West Virginia, and he has the distinct honor of having held more Senate leadership positions than any other Senator in Senate history.

I am privileged every day to serve at his side. I have watched him lead, and I have watched him fight. He has been my mentor and he is my friend. He is the epitome of a West Virginia Mountaineer. He is proud, tough, and independent, and he cares about the people he serves. He is more than deserving of this tribute that we pay him today.

Senator BYRD has been the driving force behind this project, which has taken many years to plan and construct. As Governor, I worked along with Senator BYRD in pushing for improvements to this facility—a project that is not only vital to West Virginia commerce, but to all of the States that use the Ohio River for shipment of their goods.

The replacement locks and dam that we are renaming in honor of Senator BYRD were originally constructed in the mid-1930's. As soon as construction was completed, the lock chambers were operating at capacity. Delays of up to 10 hours to get through the locks are not infrequent. The inadequate size of the lock chambers and the dangerous approach are responsible for massive congestion. This project, that will be dedicated next week, will alleviate both the danger and the delays that have been associated with Gallipolis for over 55 years.

Each year, 42 million tons are locked through this facility to move coal, steel, chemicals, and other products to ports for export. The Ohio River is a vital link in the transportation system of this Nation. Without the efforts of Senator ROBERT C. BYRD, one of the worst bottlenecks to naviagation commerce in the Nation would not have been eliminated. Because of his efforts, we will spur more jobs, more opportunity, and more hope for the people we serve.

I would like to take a moment to thank the floor staff for their assistance in helping to get this legislation to the floor, especially Lula Davis who has gone above and beyond what is required to make this happen in a very short amont of time.

CHILD SUPPORT RECOVERY ACT OF 1992

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1002.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1002) entitled "An Act to impose a criminal penalty for flight to avoid payment of arrearages in child support", do pass with the following amendment:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Child Support Recovery Act of 1992".

SEC. 2. FAILURE TO PAY LEGAL CHILD SUPPORT OBLIGATIONS.

(a) IN GENERAL.—Title 18, United States Code, is amended by inserting after chapter 11 the following new chapter:

"CHAPTER 11A—CHILD SUPPORT

"Sec.

"228. Failure to pay legal child support obligations.

“§228. Failure to pay legal child support obligations

“(a) OFFENSE.—Whoever willfully fails to pay a past due support obligation with respect to a child who resides in another State shall be punished as provided in subsection (b).

“(b) PUNISHMENT.—The punishment for an offense under this section is—

“(1) in the case of a first offense under this section, a fine under this title, imprisonment for not more than 6 months, or both; and

“(2) in any other case, a fine under this title, imprisonment for not more than 2 years, or both.

“(c) RESTITUTION.—Upon a conviction under this section, the court shall order restitution under section 3663 in an amount equal to the past due support obligation as it exists at the time of sentencing.

“(d) DEFINITIONS.—As used in this section—

“(1) the term ‘past due support obligation’ means any amount—

“(A) determined under a court order or an order of an administrative process pursuant to the law of a State to be due from a person for the support and maintenance of a child or of a child and the parent with whom the child is living; and

“(B) that has remained unpaid for a period longer than one year, or is greater than $5,000; and

“(2) the term ‘State’ includes the District of Columbia, and any other possession or territory of the United States.”.

(b) TECHNICAL AMENDMENT.—The part analysis for part I of title 18, United States Code, is amended by inserting after the item relating to chapter 11 the following new item:

“11A. Child support .... 228”.

SEC. 3. DISCRETIONARY CONDITION OF PROBATION.

Section 3563(b) of title 18, United States Code, is amended—

(1) by striking “or” at the end of paragraph (20);

(2) by redesignating paragraph (21) as paragraph (22); and

(3) by inserting after paragraph (20) the following new paragraph:

“(21) comply with the terms of any court order or order of an administrative process pursuant to the law of a State, the District of Columbia, or any other possession or territory of the United States, requiring payments by the defendant for the support and maintenance of a child or of a child and the parent with whom the child is living; or”.

SEC. 4. CRIMINAL CHILD SUPPORT ENFORCEMENT.

(a) AMENDMENT OF THE OMNIBUS CRIME CONTROL AND SAFE STREETS ACT OF 1968.—Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3711 et seq.) is amended—

(1) by redesignating part P as part Q;

(2) by redesignating section 1601 as section 1701; and

(3) by inserting after part O the following new part:

“PART P—CRIMINAL CHILD SUPPORT ENFORCEMENT

“SEC. 1601. GRANT AUTHORIZATION.

“(a) IN GENERAL.—The Director of the Bureau of Justice Assistance may make grants under this part to States, for the use by States, and local entities in the States to develop, implement, and enforce criminal interstate child support legislation and coordinate criminal interstate child support enforcement efforts.

“(b) USES OF FUNDS.—Funds distributed under this part shall be used to—

“(1) develop a comprehensive assessment of existing criminal interstate child support enforcement efforts, including the identification of gaps in, and barriers to, the enforcement of such efforts;

“(2) plan and implement comprehensive long-range strategies for criminal interstate child support enforcement;

“(3) reach an agreement within the State regarding the priorities of such State in the enforcement of criminal interstate child support legislation;

“(4) develop a plan to implement such priorities; and

“(5) coordinate criminal interstate child support enforcement efforts.

“SEC. 1602. STATE APPLICATIONS.

“(a) IN GENERAL.—(1) To request a grant under this part, the chief executive of a State shall submit an application to the Director in such form and containing such information as the Director may reasonably require.

“(2) An application under paragraph (1) shall include assurances that Federal funds received under this part shall be used to supplement, not supplant, non-Federal funds that would otherwise be available for activities funded under this part.

“(b) STATE OFFICE.—The office designated under section 507 of title I—

“(1) shall prepare the application required under section 1602; and

“(2) shall administer grant funds received under this part, including review of spending, processing, progress, financial reporting, technical assistance, grant adjustments, accounting, auditing, and fund disbursement.

“SEC. 1603. REVIEW OF STATE APPLICATIONS.

“(a) IN GENERAL.—The Bureau shall make a grant under section 1601(a) to carry out the projects described in the application submitted by an applicant under section 1602 upon determining that—

“(1) the application is consistent with the requirements of this part; and

“(2) before the approval of the application, the Bureau has made an affirmative finding in writing that the proposed project has been reviewed in accordance with this part.

“(b) APPROVAL.—Each application submitted under section 1602 shall be considered approved, in whole or in part, by the Bureau not later than 45 days after first received unless the Bureau informs the applicant of specific reasons for disapproval.

“(c) DISAPPROVAL NOTICE AND RECONSIDERATION.—The Bureau shall not disapprove any application without first affording the applicant reasonable notice and an opportunity for reconsideration.

“SEC. 1604. LOCAL APPLICATIONS.

“(a) IN GENERAL.—(1) To request funds under this part from a State, the chief executive of a local entity shall submit an application to the office designated under section 1602(b).

“(2) An application under paragraph (1) shall be considered approved, in whole or in part, by the State not later than 45 days after such application is first received unless the State informs the applicant in writing of specific reasons for disapproval.

“(3) The State shall not disapprove any application submitted to the State without first affording the applicant reasonable notice and an opportunity for reconsideration.

“(4) If an application under paragraph (1) is approved, the local entity is eligible to receive funds under this part.

“(b) DISTRIBUTION TO LOCAL ENTITIES.—A State that receives funds under section 1601 in a fiscal year shall make such funds available to a local entity with an approved application within 45 days after the Bureau has approved the application submitted by the State and has made funds available to the State. The Director may waive the 45-day requirement in this section upon a finding that the State is unable to satisfy the requirement of the preceding sentence under State statutes.

“SEC. 1605. DISTRIBUTION OF FUNDS.

“The Federal share of a grant made under this part may not exceed 75 percent of the total costs of the project described in the application submitted under section 1602(a) for the fiscal year for which the project receives assistance under this part.

“SEC. 1606. EVALUATION.

“(a) IN GENERAL.—(1) Each State and local entity that receives a grant under this part shall submit to the Director an evaluation not later than March 1 of each year in accordance with guidelines issued by the Director and in consultation with the Director of the National Institute of Justice.

“(2) The Director may waive the requirement specified in subsection (a) if the Director determines that such evaluation is not warranted in the case of the State or local entity involved.

“(b) DISTRIBUTION.—The Director shall make available to the public on a timely basis evaluations received under subsection (a).

“(c) ADMINISTRATIVE COSTS.—A State or local entity may use not more than 5 percent of the funds it receives under this part to develop an evaluation program under this section.

“SEC. 1607. DEFINITIONS.

“For purposes of this part, the term ‘local entity’ means a child support enforcement agency, law enforcement agency, prosecuting attorney, or unit of local government.”.

(b) TECHNICAL AMENDMENT.—The table of contents of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3711 et seq.) is amended by striking the matter relating to part P and inserting the following:

“PART P—CRIMINAL CHILD SUPPORT ENFORCEMENT

“Sec. 1601. Grant authorization.
“Sec. 1602. State applications.
“Sec. 1603. Review of State applications.
“Sec. 1604. Local applications.
“Sec. 1605. Distribution of funds.
“Sec. 1606. Evaluation.
“Sec. 1607. Definitions.

“PART Q—TRANSITION—EFFECTIVE DATE—REPEALER

“Sec. 1701. Continuation of rules, authorities, and proceedings.”.

(c) AUTHORIZATION OF APPROPRIATIONS.—Section 1001(a) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3793(a)) is amended—

(1) by redesignating the last three paragraphs sequentially as paragraphs (7), (8), and (9); and

(2) by adding at the end the following new paragraph:

“(10) There are authorized to be appropriated $10,000,000 for each of the fiscal years 1994, 1995, and 1996 to carry out projects under part P.”.

SEC. 5. COMMISSION ON CHILD AND FAMILY WELFARE.

(a) ESTABLISHMENT.—There is established a commission to be known as the Commission on Child and Family Welfare (referred to in this section as the “Commission”).

(b) MEMBERSHIP.—

(1) COMPOSITION.—The Commission shall be composed of 15 members of whom—

(A) 3 shall be appointed by the President, in consultation with the Attorney General and the Secretary of Health and Human Services;

(B) 4 shall be appointed by the President pro tempore of the Senate;

(C) 2 shall be appointed by the minority leader of the Senate;

(D) 4 shall be appointed by the Speaker of the House of Representatives; and

(E) 2 shall be appointed by the minority leader of the House of Representatives.

(2) QUALIFICATIONS.—Members of the Commission shall be—

(A) persons who have expertise in family law, children's issues, mental health, and related policies;

(B) persons who have expertise, through research and practice, in laws and policies related to child and family welfare;

(C) persons who represent organizations that seek to protect the civil rights of children;

(D) persons who represent advocacy groups that work for the interests of children;

(E) persons who represent advocacy groups that work for the interests of both custodial and noncustodial parents; and

(F) persons who have conducted extensive research on, or delivered services to, children adversely affected by divorce.

(3) DATE.—The appointments of the members of the Commission shall be made no later than June 1, 1993.

(c) PERIOD OF APPOINTMENT; VACANCIES.—Members shall be appointed for the life of the Commission. Any vacancy in the Commission shall not affect its powers, but shall be filled in the same manner as the original appointment.

(d) INITIAL MEETING.—No later than 30 days after the date on which all members of the Commission have been appointed, the Commission shall hold its first meeting.

(e) MEETINGS.—The Commission shall meet at the call of the Chairman.

(f) QUORUM.—A majority of the members of the Commission shall constitute a quorum, but a lesser number of members may hold hearings.

(g) CHAIRMAN AND VICE CHAIRMAN.—The Commission shall select a Chairman and Vice Chairman from among its members.

(h) DUTIES.—The Commission shall—

(1) compile information and data on the issues that affect the best interests of children, including domestic issues such as abuse, family relations, services and agencies for children and families, family courts and juvenile courts;

(2) compile a report that lists the strengths and weaknesses of the child welfare system as it relates to placement (including child custody and visitation), summarizes State laws and regulations relating to visitation, and makes recommendations for changing the system or developing a Federal role in strengthening the system;

(3) study the strengths and weaknesses of the juvenile and family courts as they relate to visitation, custody, and child support enforcement and suggest any recommendations for changing these systems; and

(4) study domestic issues that relate to the treatment and placement of children (such as child and spousal abuse) and suggest recommendations for any needed changes, including models for mediation and other programs.

(i) REPORT.—Not later than January 1, 1994, the Commission shall submit to the President and the Congress an interim report, and not later than January 1, 1995, a final report, which shall contain a detailed statement of the findings and conclusions of the Commission, together with its recommendations for such legislation and administrative actions as it considers to be appropriate.

(j) HEARINGS.—

(1) IN GENERAL.—Subject to paragraph (2), the Commission may hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence as the Commission considers advisable to carry out the purposes of this section.

(2) BROAD PUBLIC PARTICIPATION.—The Commission shall conduct hearings in various areas of the country, including inner cities, suburbs, and rural areas, to gather a broad spectrum of information on the issues to be addressed. Parents, children, experts, religious leaders, and public and private agency officials shall be afforded the opportunity to give testimony at such hearings.

(k) INFORMATION FROM FEDERAL AGENCIES.—The Commission may secure directly from any Federal department or agency such information as the Commission considers necessary to carry out the provisions of this Act. Upon request of the Chairman of the Commission, the head of such department or agency shall furnish such information to the Commission to the extent permitted by law.

(l) POSTAL SERVICES.—The Commission may use the United States mails in the same manner and under the same conditions as other departments and agencies of the Federal Government.

(m) COMPENSATION OF MEMBERS.—Each member of the Commission who is not an officer or employee of the Federal Government shall be compensated at a rate equal to the daily equivalent of the annual rate of basic pay prescribed for level IV of the Executive Schedule under section 5315 of title 5, United States Code, for each day (including travel time) during which such member is engaged in the performance of the duties of the Commission. All members of the Commission who are officers or employees of the United States shall serve without compensation in addition to that received for their services as officers or employees of the United States.

(n) TRAVEL EXPENSES.—The members of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Commission.

(o) STAFF.—

(1) IN GENERAL.—The Chairman of the Commission may, without regard to the civil service laws and regulations, appoint and terminate an executive director and such other additional personnel as may be necessary to enable the Commission to perform its duties. The employment of an executive director shall be subject to confirmation by the Commission.

(2) COMPENSATION.—The Chairman of the Commission may fix the compensation of the executive director and other personnel without regard to the provisions of chapter 51 and subchapter III of chapter 53 of title 5, United States Code, relating to classification of positions and General Schedule pay rates, except that the rate of pay for the executive director and other personnel may not exceed the rate payable for level V of the Executive Schedule under section 5316 of that title.

(p) DETAIL OF GOVERNMENT EMPLOYEES.—Any Federal Government employee may be detailed to the Commission without reimbursement, and such detail shall be without interruption or loss of civil service status or privilege.

(q) PROCUREMENT OF TEMPORARY AND INTERMITTENT SERVICES.—The Chairman of the Commission may procure temporary and intermittent services under section 3109(b) of title 5, United States Code, at rates for individuals which do not exceed the daily equivalent of the annual rate of basic pay prescribed for level V of the Executive Schedule under section 5316 of that title.

(r) TERMINATION OF THE COMMISSION.—(1) The Commission shall terminate 90 days after the date on which the Commission submits its final report under subsection (i).

(2) Any funds held by the Commission on the date of termination of the Commission shall be deposited in the general fund of the Treasury of the United States and credited as miscellaneous receipts. Any property (other than funds) held by the Commission on that date shall be disposed of as excess or surplus property.

(s) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to the Commission $2,000,000 for fiscal years 1993 and 1994 to carry out this section.

(2) AVAILABILITY.—Any sums appropriated under the authorization contained in this subsection shall remain available, without fiscal year limitation, until expended.

Mr. KOHL. Mr. President, I am pleased that the Senate will pass the amended version of S. 1002, the so-called deadbeat parents bill. This measure—authored by myself, Senator SHELBY, and Congressmen HYDE and SCHUMER—makes it a Federal offense for noncustodial parents who live in another State to evade their child support obligations.

All too often around here, partisan politics and gridlock undermine even the most substantive proposals. In fact, that could be the epitaph of the 102d Congress. So, I am especially grateful that this legislation represents a triumph of bipartisan spirit over a legislative traffic jam.

Today, we're sending the message that the best interests of the child are held paramount by all of us.

And here's more good news: This bipartisan concern for children who suffer without needed child support has reached even our Presidential candidates.

Both Bill Clinton and President Bush have vowed to make deadbeat parents face their financial responsibility to their children and pay up. Both candidates have developed several child support reform proposals of their own. And, both Bush and Clinton have a particular interest in deadbeat parents who are involved in interstate child support cases and are not paying up. All of us are speaking with the same voice when we say it's time to stop letting noncustodial parents who deliberately ignore their children's financial needs get away with neglect.

Mr. President, back in July I chaired a Juvenile Justice Subcommittee hearing on S. 1002. The subcommittee heard from custodial and noncustodial parents' groups, the legal community, and the recently concluded U.S. Commission on Interstate Child Support.

This bill is a step in the right direction, and Senator SHELBY is to be commended for his efforts.

But some improvements have been made in S. 1002 since that hearing. As originally drafted, the bill seemed to create a presumption that any nonpayment was intentional. We changed the language so the Government will now have to prove willful failure to pay child support

This change makes sense for two reasons: First, because it protects noncustodial parents who are not able to pay child support; second, because it tells real deadbeats, pay up or go to jail.

Another change calls for the creation of a Commission on Child and Family Welfare. The commission is not an attempt to link child support and child access; in fact, I do not believe that linkage is legitimate. But I do believe that some noncustodial parents, many of whom faithfully pay their child support, have legitimate concerns. They want to contribute to the emotional, as well as the financial, well-being of their children. We should look at this issue just as we studied interstate nonpayment, and that is what this provision charges the commission to do.

A third improvement is a provision that authorizes funds to States so they can develop, implement, and enforce interstate child support criminal laws.

Mr. President, in sum, I am confident that when this measure reaches President Bush's desk, he will sign it into law. And I am convinced that our collective, bipartisan efforts will help improve the financial and emotional welfare of millions of children.

Mr. FORD. Mr. President, I move that the Senate concur in the amendment of the House.

The ACTING PRESIDENT pro tempore. The question is on agreeing to the motion.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

LAND REMOTE SENSING POLICY ACT OF 1992

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 760, the Land Remote Sensing act of 1992.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 2297) to enable the United States to maintain its leadership in land remote sensing by providing data continuity for the Landsat program, by establishing a new national land remote sensing policy, and for other purposes.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Commerce, Science, and Transportation, with an amendment to strike all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Land Remote Sensing Policy Act of 1992".

SEC. 2. FINDINGS.

The Congress finds and declares the following:

(1) The continuous collection and utilization of land remote sensing data from space are of major benefit in studying and understanding human impacts on the global environment, in managing the Earth's natural resources, in carrying out national security functions, and in planning and conducting many other activities of scientific, economic, and social importance.

(2) The Federal Government's experimental Landsat system established the United States as the world leader in land remote sensing technology.

(3) The national interest of the United States lies in maintaining international leadership in satellite land remote sensing and in broadly promoting the beneficial use of remote sensing data.

(4) The cost of unenhanced Landsat data has impeded the use of such data for scientific purposes, such as for global environmental change research, as well as for other public sector applications.

(5) Given the importance of the Landsat program to the urgent actions of the United States, including expedited procurement procedures, must be followed in order to provide data continuity.

(6) Full commercialization of the Landsat program cannot be achieved within the foreseeable future, and thus should not serve as the near-term goal of national policy on land remote sensing.

(7) Despite the success and importance of the Landsat system, funding and organizational uncertainties over the past several years have placed its future in doubt and have jeopardized United States leadership in land remote sensing.

(8) Recognizing the importance of the Landsat program in helping to meet national and commercial objectives, the President approved, on February 11, 1992, a National Space Policy Directive which was developed by the National Space Council and commits the United States to ensuring the continuity of Landsat coverage into the 21st century.

(9) Because unenhanced Landsat data is particularly important for global environmental change and national security purposes, management responsibilities for the program should be transferred from the Department of Commerce to an integrated program management involving the National Aeronautics and Space Administration and the Department of Defense.

(10) Regardless of management responsibilities for the Landsat program, the Nation's broad civilian, national security, commercial, and foreign policy interests in remote sensing will best be served by ensuring that Landsat remains an unclassified program that operates according to the principles of open skies and nondiscriminatory access.

(11) Technological advances aimed at reducing the size and weight of satellite systems hold the potential for dramatic reductions in the cost, and substantial improvements in the capabilities, of future land remote sensing systems, but such technological advances have not been demonstrated for land remote sensing and therefore cannot be relied upon as the sole means of achieving data continuity for the Landsat program.

(12) A technology demonstration program involving advanced remote sensing technologies could serve a vital role in determining the design of a follow-on spacecraft to Landsat 7, while also helping to determine whether such a spacecraft should be funded by the United States Government, by the private sector, or by an international consortium.

(13) To maximize the value of the Landsat program to the American public, unenhanced Landsat 1 through 6 data should be made available, at a minimum, to Federal agencies, to global environmental change researchers, and to other researchers who are financially supported by the United States Government, at the cost of fulfilling user requests, and unenhanced Landsat 7 data should be made available to all users at the cost of fulfilling user requests.

(14) Development of the remote sensing market and the provision of commercial value-added services based on remote sensing data should remain exclusively the function of the private sector.

(15) It is in the best interest of the United States to maintain a permanent, comprehensive Government archive of global Landsat and other land remote sensing data for long-term monitoring and study of the changing global environment.

SEC. 3. DEFINITIONS.

In this Act, the following definitions apply:

(1) The term "Administrator" means the Administrator of the National Aeronautics and Space Administration.

(2) The term "data continuity" means the continued acquisition and availability of unenhanced data which are, from the point of view of the user—

(A) sufficiently consistent (in terms of acquisition geometry, coverage characteristics, and spectral characteristics) with previous Landsat data to allow comparisons for global and regional change detection and characterization; and

(B) compatible with such data and with methods used to receive and process such data.

(3) The term "data preprocessing" includes—

(A) rectification of system and sensor distortions in land remote sensing data as it is received directly from the satellite in preparation for delivery to a user; and

(B) calibration of spectral response with respect to such data, but does not include conclusions, manipulations, or calculations derived from such data or a combination of such data with other data.

(4) The term "land remote sensing" means the collection of data which can be processed into imagery of surface features of the Earth from an unclassified satellite or satellites, other than an operational United States Government weather satellite.

(5) The term "Landsat Program Management" means the integrated program management structure—

(A) established by, and responsible to, the Administrator and the Secretary of Defense pursuant to section 101(a); and

(B) consisting of appropriate officers and employees of the National Aeronautics and Space Administration, the Department of Defense, and any other Federal agencies the President designates as responsible for the Landsat program.

(6) The term "Landsat system" means Landsats 1, 2, 3, 4, 5, and 6, and any follow-on land remote sensing system operated and owned by the United States Government, along with any related United States Government-owned ground equipment, systems, and facilities.

(7) The term "Landsat 6 contractor" means the private sector entity which was awarded the contract for spacecraft construction and data marketing rights for the Landsat 6 spacecraft.

(8) The term "Landsat 7" means the follow-on satellite to Landsat 6.

(9) The term "noncommercial purposes"—

(A) except as provided in subparagraph (B), refers to those activities undertaken by individuals or entities on the condition, upon receipt of unenhanced data, that—

(i) such data shall not be used in connection with any bid for a commercial contract or any other activity that is expected, or has the potential, to be profitmaking, except in any case where a Government agency contracts with the private sector for services; and

(ii) the results of such activities are disclosed in a timely and complete fashion in the open technical literature or other method of public release; and

(B) includes those activities undertaken by individuals and entities to provide services to a Federal agency pursuant to a contract entered into with the agency.

(10) The term "Secretary" means the Secretary of Commerce.

(11) The term "unenhanced data" means land remote sensing signals or imagery products that

are unprocessed or subject only to data preprocessing.

(12) The term "United States Government and its affiliated users" means—

(A) Federal agencies;

(B) researchers involved with the United States Global Change Research Program and its international counterpart programs; and

(C) other researchers and international entities that have signed with the United States Government a cooperative agreement involving the use of Landsat data for noncommercial purposes.

(13) The term "cost of fulfilling user requests" means the costs associated with the product generation, reproduction, and distribution of data in response to a user request, and does not include capital acquisition, administrative, fixed operational, or other costs which are not directly associated with the task of fulfilling a user request.

(14) The term "National Satellite Land Remote Sensing Data Archive" means the archive, established by the Secretary of the Interior pursuant to the archival responsibilities defined in section 502, that is located at the EROS Data Center of the United States Geological Survey, Sioux Falls, South Dakota.

SEC. 4. REPEAL OF LAND REMOTE-SENSING COMMERCIALIZATION ACT OF 1984.

The Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4201 et seq.) is repealed.

TITLE I—LANDSAT

SEC. 101. LANDSAT PROGRAM MANAGEMENT.

(a) ESTABLISHMENT.—The Administrator and the Secretary of Defense shall be responsible for management of the Landsat program. Such responsibility shall be carried out by establishing an integrated program management structure for the Landsat system.

(b) MANAGEMENT PLAN.—The Administrator, the Secretary of Defense, and any other Federal official the President designates as responsible for part of the Landsat program shall establish, through a management plan, the roles, responsibilities, and funding expectations for the Landsat Program of the appropriate Federal agencies. The management plan shall—

(1) specify that the fundamental goal of the Landsat Program Management is the continuity of unenhanced Landsat data through the acquisition and operation of a Landsat 7 satellite as quickly as practicable which is, at a minimum, functionally equivalent to the Landsat 6 satellite, with the addition of a tracking and data relay satellite communications capability;

(2) include a baseline funding profile that—

(A) is mutually acceptable to the National Aeronautics and Space Administration and the Department of Defense for the period covering the development and operation of Landsat 7; and

(B) provides for total funding responsibility of the National Aeronautics and Space Administration and the Department of Defense, respectively, to be approximately equal to the funding responsibility of the other as spread across the development and operational life of Landsat 7;

(3) specify that any improvements over the Landsat 6 functional equivalent capability for Landsat 7 will be funded by a specific sponsoring agency, if the required funding exceeds the baseline funding profile required by paragraph (2), and that additional improvements will be sought only if the improvements will not jeopardize data continuity; and

(4) provide for a technology demonstration program whose objective shall be the demonstration of advanced land remote sensing technologies that may potentially yield a system which is less expensive to build and operate, and more responsive to data users, than is the current Landsat system.

(c) RESPONSIBILITIES.—The Landsat Program Management shall be responsible for—

(1) Landsat 7 procurement, launch, and operations;

(2) ensuring that the operation of the Landsat system is responsive to the broad interests of the civilian, national security, commercial, and foreign users of the Landsat system;

(3) ensuring that all unenhanced Landsat data remains unclassified and that, except as provided in section 506 (a) and (b), no restrictions are placed on the availability of unenhanced data;

(4) ensuring that land remote sensing data of high priority locations will be acquired by the Landsat 7 system as required to meet the needs of the United States Global Change Research Program, as established in the Global Change Research Act of 1990, and to meet the needs of national security users;

(5) Landsat data responsibilities pursuant to this Act;

(6) oversight of Landsat contracts entered into under sections 102 and 103;

(7) coordination of a technology demonstration program, pursuant to section 303; and

(8) ensuring that copies of all data acquired by the Landsat system are provided to the National Satellite Land Remote Sensing Data Archive.

(d) AUTHORITY TO CONTRACT.—The Landsat Program Management may, subject to appropriations and only under the existing contract authority of the Federal agencies that compose the Landsat Program Management, enter into contracts with the private sector for services such as satellite operations and data preprocessing.

(e) LANDSAT ADVISORY PROCESS.—

(1) ESTABLISHMENT.—The Landsat Program Management shall seek impartial advice and comments regarding the status, effectiveness, procurement, and operation of the Landsat system, using existing advisory committees and other appropriate mechanisms. Such advice shall be sought from individuals who represent—

(A) a broad range of perspectives on basic and applied science and operational needs with respect to land remote sensing data;

(B) the full spectrum of users of Landsat data, including representatives from Federal agencies, State and local government agencies, academic and research institutions, nonprofit organizations, value-added companies, the agricultural and mineral extraction industries, and the public; and

(C) a broad diversity of age groups, sexes, and races.

(2) REPORTS.—Within 1 year after the date of the enactment of this Act and biennially thereafter, the Landsat Program Management shall prepare and submit to the Congress a report that summarizes the findings and conclusions of the advice provided under this section and any recommendations for policy or programmatic changes to improve the utility and operation of the Landsat system.

SEC. 102. PROCUREMENT OF LANDSAT 7.

(a) CONTRACT NEGOTIATIONS.—The Landsat Program Management shall, subject to appropriations and only under the existing contract authority of the Federal agencies that compose the Landsat Program Management, expeditiously contract with a United States private sector entity for the development and delivery of Landsat 7.

(b) DEVELOPMENT AND DELIVERY CONSIDERATIONS.—In negotiating a contract under this section for the development and delivery of Landsat 7, the Landsat Program Management shall—

(1) seek, as a fundamental objective, to have Landsat 7 operational by the expected end of the design life of Landsat 6;

(2) seek to ensure data continuity by the development and delivery of a satellite which is, at a minimum, functionally equivalent to the Landsat 6 satellite; and

(3) seek to incorporate in Landsat 7 any performance improvements required to meet United States Government needs that would not jeopardize data continuity.

(c) NOTIFICATION OF COST AND SCHEDULE CHANGES.—The Landsat Program Management shall promptly notify the Congress of any significant deviations from the expected cost, delivery date, and launch date of Landsat 7 that are specified by the Landsat Program Management upon award of the contract under this section.

(d) UNITED STATES PRIVATE SECTOR ENTITIES.—The Landsat Program Management shall, for purposes of this Act, define the term "United States private sector entities", taking into account operations, the location of assets, employment, and other such factors.

SEC. 103. DATA POLICY FOR LANDSATS 1 THROUGH 6.

(a) CONTRACT NEGOTIATIONS.—Within 30 days after the date of enactment of this Act, the Landsat Program Management shall enter into negotiations, with the Landsat 6 contractor, with respect to pricing, distribution, acquisition, archiving, and access of unenhanced data gathered by Landsats 1 through 6.

(b) CONSIDERATIONS.—In carrying out negotiations under this section, the Landsat Program Management shall—

(1) seek to ensure that such unenhanced data shall be provided, at a minimum, to the United States Government and its affiliated users at the cost of fulfilling user requests, on the condition that such unenhanced data is used solely for noncommercial purposes;

(2) seek to ensure that instructional data sets, selected from the Landsat data archives, will be made available to educational institutions exclusively for noncommercial, educational purposes at the cost of fulfilling user requests;

(3) seek to ensure that Landsat data users are able to acquire unenhanced data contained in the collective archives of foreign ground stations as easily and affordably as practicable;

(4) seek to ensure that adequate data to meet the needs of global environmental change researchers and national security users is acquired;

(5) seek to ensure that the United States Government and its affiliated users shall not be prohibited from reproduction or dissemination of unenhanced data to other agencies of the United States Government and other affiliated users, as long as the unenhanced data will be used solely for noncommercial purposes;

(6) seek to ensure the provision of vouchers and data grants, for providing unenhanced data to nonprofit, public interest entities, at the cost of fulfilling user requests as long as the unenhanced data will be used solely for noncommercial purposes;

(7) seek to ensure a viable role for the private sector in the promotion and development of the commercial market for value added and other services using unenhanced data from the Landsat system;

(8) seek to ensure that the data policy for data gathered by Landsats 1 through 6 is consistent with the data policy for Landsat 7 data upon the date of initial operations of Landsat 7; and

(9) seek to ensure that a copy of all unenhanced Landsat data is provided to the National Satellite Land Remote Sensing Data Archive at no more than the cost of fulfilling the user request.

(c) FAILURE TO REACH AGREEMENT.—If negotiations under subsection (a) have not, within 120 days after the date of enactment of this Act, resulted in an agreement that the Landsat Program Management determines generally achieves the goals stated in subsection (b)(1) through (9), the Administrator and the Sec-

retary of Defense shall, within 30 days after the date of such determination, jointly certify and report such determination to the Congress. The report shall include a review of options and projected costs for achieving such goals, and shall include recommendations for achieving such goals. The options reviewed shall include—

(1) retaining the existing or modified contract with the Landsat 6 contractor;

(2) terminating existing contracts for the exclusive marketing rights of Landsat unenhanced data; and

(3) establishing an alternative private sector mechanism for the marketing and commercial distribution of such data.

SEC. 104. TRANSFER OF LANDSAT 6 PROGRAM RESPONSIBILITIES.

The responsibilities of the Secretary with respect to Landsat 6 shall be transferred to the Landsat Program Management, as agreed to between the Secretary, the Secretary of Defense, and the Administrator pursuant to section 101.

SEC. 105. DATA POLICY FOR LANDSAT 7.

(a) LANDSAT 7 DATA POLICY PLANS.—The Landsat Program Management, in consultation with the Secretary and appropriate officers of other appropriate Federal agencies, shall develop and implement a data policy for Landsat 7 which shall—

(1) provide data to all users at the cost of fulfilling user requests;

(2) ensure timely and dependable delivery of unenhanced data to the full spectrum of civilian, national security, commercial, and foreign users and the National Satellite Land Remote Sensing Data Archive;

(3) ensure that the United States retains ownership of all unenhanced data generated by Landsat 7;

(4) not extend exclusive marketing rights for Landsat 7 data to any contractor;

(5) ensure that the proposed data distribution system contributes to the commercialization goal for land remote sensing; and

(6) to the extent possible, ensure that the data distribution system for Landsat 7 is compatible with the Earth Observing System Data Information System.

TITLE II—LICENSING OF PRIVATE REMOTE SENSING SPACE SYSTEMS

SEC. 201. GENERAL LICENSING AUTHORITY.

(a) LICENSING AUTHORITY OF SECRETARY.—(1) In consultation with other appropriate Federal agencies, the Secretary is authorized to license private sector parties to operate private remote sensing space systems for such period as the Secretary may specify and in accordance with this title.

(2) In the case of a private space system that is used for remote sensing and other purposes, the authority of the Secretary under this title shall be limited only to the remote sensing operations of such space system.

(b) COMPLIANCE WITH LAW, REGULATIONS, INTERNATIONAL OBLIGATIONS, AND NATIONAL SECURITY.—No license shall be granted by the Secretary unless the Secretary determines in writing that the applicant will comply with the requirements of this Act, any regulations issued pursuant to this Act, and any applicable international obligations and national security concerns of the United States.

(c) DEADLINE FOR ACTION ON APPLICATION.—The Secretary shall review any application and make a determination thereon within 120 days of the receipt of such application. If final action has not occurred within such time, the Secretary shall inform the applicant of any pending issues and of actions required to resolve them.

(d) IMPROPER BASIS FOR DENIAL.—The Secretary shall not deny such license in order to protect any existing licensee from competition.

(e) REQUIREMENT TO PROVIDE UNENHANCED DATA.—(1) The Secretary, in consultation with other appropriate Federal agencies and pursuant to paragraph (2), shall designate in a license issued pursuant to this title any unenhanced data required to be provided by the licensee under section 202(b)(3).

(2) The Secretary shall make a designation under paragraph (1) after determining that—

(A) such data is generated by a system whose development, fabrication, launch, or operations costs have been or will be paid for in part by the United States Government; or

(B) it is in the interest of the United States to require such data to be provided by the licensee consistent with section 202(b)(3), after considering the impact on the licensee and the importance of promoting widespread access to remote sensing data from United States and foreign systems.

(3) A designation made by the Secretary under paragraph (1) shall not be inconsistent with any contract or other arrangement entered into between a Federal agency and the licensee.

SEC. 202. CONDITIONS FOR OPERATION.

(a) LICENSE REQUIRED FOR OPERATION.—No person who is subject to the jurisdiction or control of the United States may, directly or through any subsidiary or affiliate, operate any private remote sensing space system without a license pursuant to section 201.

(b) LICENSE REQUIREMENTS.—Any license issued pursuant to this title shall specify that the licensee shall comply with all of the requirements of this Act and shall—

(1) operate the system in such manner as to preserve the national security of the United States and to observe the international obligations of the United States in accordance with section 507;

(2) make available to the government of any country (including the United States) unenhanced data collected by the system concerning the territory under the jurisdiction of such government as soon as such data is available and on reasonable terms and conditions;

(3) make unenhanced data designated by the Secretary in the license pursuant to section 201(e) available to all users without preference, bias, or any other special arrangement regarding delivery, format, pricing, or technical considerations which would favor one customer or class of customers over another;

(4) upon termination of operations under the license, make disposition of any satellites in space in a manner satisfactory to the President;

(5) promptly make available all unenhanced data which the Secretary may request pursuant to section 502;

(6) furnish the Secretary with complete orbit and data collection characteristics of the system, and inform the Secretary immediately of any unintended deviation; and

(7) notify the Secretary of any agreement the licensee intends to enter with a foreign nation, entity, or consortium involving foreign nations or entities.

SEC. 203. ADMINISTRATIVE AUTHORITY OF THE SECRETARY.

(a) FUNCTIONS.—In order to carry out the responsibilities specified in this title, the Secretary may—

(1) grant, condition, or transfer licenses under this Act;

(2) seek an order of injunction or similar judicial determination from a United States District Court with personal jurisdiction over the licensee to terminate, modify, or suspend licenses under this title and to terminate licensed operations on an immediate basis, if the Secretary determines that the licensee has substantially failed to comply with any provision of this Act, with any terms, conditions, or restrictions of such license, or with any international obligations or national security concerns of the United States;

(3) provide penalties for noncompliance with the requirements of licenses or regulations issued under this title, including civil penalties not to exceed $10,000 (each day of operation in violation of such licenses or regulations constituting a separate violation);

(4) compromise, modify, or remit any such civil penalty;

(5) issue subpoenas for any materials, documents, or records, or for the attendance and testimony of witnesses for the purpose of conducting a hearing under this section;

(6) seize any object, record, or report pursuant to a warrant from a magistrate based on a showing of probable cause to believe that such object, record, or report was used, is being used, or is likely to be used in violation of this Act or the requirements of a license or regulation issued thereunder; and

(7) make investigations and inquiries and administer to or take from any person an oath, affirmation, or affidavit concerning any matter relating to the enforcement of this Act.

(b) REVIEW OF AGENCY ACTION.—Any applicant or licensee who makes a timely request for review of an adverse action pursuant to subsection (a)(1), (a)(3), or (a)(6) shall be entitled to adjudication by the Secretary on the record after an opportunity for an agency hearing with respect to such adverse action. Any final action by the Secretary under this subsection shall be subject to judicial review under chapter 7 of title 5, United States Code.

SEC. 204. REGULATORY AUTHORITY OF THE SECRETARY.

The Secretary may issue regulations to carry out this title. Such regulations shall be promulgated only after public notice and comment in accordance with the provisions of section 553 of title 5, United States Code.

SEC. 205. AGENCY ACTIVITIES.

(a) LICENSE APPLICATION AND ISSUANCE.—A private sector party may apply for a license to operate a private remote sensing space system which utilizes, on a space-available basis, a civilian United States Government satellite or vehicle as a platform for such system. The Secretary, pursuant to this title, may license such system if it meets all conditions of this title and—

(1) the system operator agrees to reimburse the Government immediately for all related costs incurred with respect to such utilization, including a reasonable and proportionate share of fixed, platform, data transmission, and launch costs; and

(2) such utilization would not interfere with or otherwise compromise intended civilian Government missions, as determined by the agency responsible for such civilian platform.

(b) ASSISTANCE.—The Secretary may offer assistance to private sector parties in finding appropriate opportunities for such utilization.

(c) AGREEMENTS.—To the extent provided in advance by appropriation Acts, any Federal agency may enter into agreements for such utilization if such agreements are consistent with such agency's mission and statutory authority, and if such remote sensing space system is licensed by the Secretary before commencing operation.

(d) APPLICABILITY.—This section does not apply to activities carried out under title III.

(e) EFFECT IN FCC AUTHORITY.—Nothing in this title shall affect the authority of the Federal Communications Commission pursuant to the Communications Act of 1934 (47 U.S.C. 151 et seq.).

TITLE III—RESEARCH, DEVELOPMENT, AND DEMONSTRATION

SEC. 301. CONTINUED FEDERAL RESEARCH AND DEVELOPMENT.

(a) ROLES OF NASA AND DEPARTMENT OF DEFENSE.—(1) The Administrator and the Secretary

of Defense are directed to continue and to enhance programs of remote sensing research and development.

(2) The Landsat Program Management is authorized and encouraged to—

(A) conduct experimental space remote sensing programs (including applications demonstration programs and basic research at universities);

(B) develop remote sensing technologies and techniques, including those needed for monitoring the Earth and its environment; and

(C) conduct such research and development in cooperation with other Federal agencies and with public and private research entities (including private industry, universities, State and local governments, foreign governments, and international organizations) and to enter into arrangements (including joint ventures) which will foster such cooperation.

(b) Roles of Department of Agriculture and Department of the Interior.—(1) In order to enhance the United States ability to manage and utilize its renewable and nonrenewable resources, the Secretary of Agriculture and the Secretary of the Interior are authorized and encouraged to conduct programs of research and development in the applications of remote sensing, using funds appropriated for such purposes.

(2) Such programs may include basic research at universities, demonstrations of applications, and cooperative activities involving other Government agencies, private sector parties, and foreign and international organizations.

(c) Role of Other Federal Agencies.—Other Federal agencies are authorized and encouraged to conduct research and development on the use of remote sensing in fulfillment of their authorized missions, using funds appropriated for such purposes.

SEC. 302. AVAILABILITY OF FEDERALLY GATHERED UNENHANCED DATA.

(a) General Rule.—All unenhanced land remote sensing data gathered and owned by the United States Government, including unenhanced data gathered under the technology demonstration program carried out pursuant to section 303, shall be made available to users in a timely fashion.

(b) Protection for Commercial Data Distributor.—The President shall seek to ensure that unenhanced data gathered under the technology demonstration program carried out pursuant to section 303 shall, to the extent practicable, be made available on terms that would not adversely affect the commercial market for unenhanced data gathered by the Landsat 6 spacecraft.

SEC. 303. TECHNOLOGY DEMONSTRATION PROGRAM.

(a) Establishment.—As a fundamental component of a national land remote sensing strategy, the President shall establish, through appropriate Federal agencies, a technology demonstration program. The goals of such program shall be to—

(1) seek to launch advanced land remote sensing system components within the period beginning 5 years after the date of enactment of this Act;

(2) demonstrate within such 5-year period advanced sensor capabilities suitable for use in the anticipated land remote sensing program; and

(3) demonstrate within such 5-year period an advanced land remote sensing system design that could be less expensive to procure and operate than the Landsat system in effect on the date of enactment of this Act, and that therefore holds greater potential for private sector investment and control.

(b) Execution of Program.—In executing the technology demonstration program, the President shall seek to apply United States National Technical Means of intelligence gathering, to the extent that such technologies are appropriate for the technology demonstration and can be declassified for such purposes without causing adverse harm to United States national security interests.

(c) Broad Application.—To the greatest extent practicable, the technology demonstration program established under subsection (a) shall be designed to be responsive to broad civilian, national security, commercial, and foreign policy interests in land remote sensing.

(d) Private Sector Funding.—The technology demonstration program under this section may be carried out in part with private sector funding.

(e) Landsat Program Management Coordination.—The Landsat Program Management shall have a coordinating role in the technology demonstration program carried out under this section.

(f) Report to Congress.—The President shall assess the progress of the technology demonstration program under this section and, within 2 years after the date of enactment of this Act, submit a report to the Congress on such progress.

TITLE IV—ASSESSING OPTIONS FOR SUCCESSOR LAND REMOTE SENSING SYSTEM

SEC. 401. ASSESSING OPTIONS FOR SUCCESSOR LAND REMOTE SENSING SYSTEM.

(a) Assessment.—Within 5 years after the date of enactment of this Act, the Landsat Program Management, in consultation with representatives of appropriate Federal agencies, shall assess and report to the Congress on the options for a successor land remote sensing system to Landsat 7. The report shall include a full assessment of the advantages and disadvantages of—

(1) private sector funding and management of a successor land remote sensing system;

(2) establishing an international consortium for the funding and management of a successor land remote sensing system;

(3) funding and management of a successor land remote sensing system by the United States Government; and

(4) a cooperative effort between the United States Government and the private sector for the funding and management of a successor land remote sensing system.

(b) Goals.—In carrying out subsection (a), Landsat Program Management shall consider the ability of each of the options to—

(1) encourage the development, launch, and operation of a land remote sensing system that adequately serves the civilian, national security, commercial, and foreign policy interests of the United States;

(2) encourage the development, launch, and operation of a land remote sensing system that maintains data continuity with the Landsat system; and

(3) incorporate system enhancements, including any such enhancements developed under the technology demonstration program under section 303, which may potentially yield a system that is less expensive to build and operate, and more responsive to data users, than is the Landsat system in effect on the date of enactment of this Act.

TITLE V—GENERAL PROVISIONS

SEC. 501. ARCHIVING OF DATA.

(a) Public Interest.—It is in the public interest for the United States Government to—

(1) maintain an archive of land remote sensing data for historical, scientific, and technical purposes, including long-term global environmental monitoring;

(2) control the content and scope of the archive; and

(3) assure the quality, integrity, and continuity of the archive.

(b) Archiving Practices.—The Secretary of the Interior, in consultation with the Landsat Program Management, shall provide for long-term storage, maintenance, and upgrading of a basic, global, land remote sensing data set (hereinafter referred to as the "basic data set") and shall follow reasonable archival practices to assure proper storage and preservation of the basic data set and timely access for parties requesting data.

(c) Determination of Content of Basic Data Set.—In determining the initial content of, or in upgrading, the basic data set, the Secretary of the Interior shall—

(1) use as a baseline the data archived on the date of enactment of this Act;

(2) take into account future technical and scientific developments and needs, paying particular attention to the anticipated data requirements of global environmental change research;

(3) consult with and seek the advice of users and producers of remote sensing data and data products;

(4) consider the need for data which may be duplicative in terms of geographical coverage but which differ in terms of season, spectral bands, resolution, or other relevant factors;

(5) include, as the Secretary of the Interior considers appropriate, unenhanced data generated either by the Landsat system, pursuant to title I, or by licensees under title II;

(6) include, as the Secretary of the Interior considers appropriate, data collected by foreign ground stations or by foreign remote sensing space systems; and

(7) ensure that the content of the archive is developed in accordance with section 507.

(d) Rights of Licensees.—Any licensee under title II shall have the exclusive right to sell all data that the licensee provides to the United States remote sensing data archive for a period to be determined by the Secretary of the Interior but not to exceed 10 years from the date the data are sensed. A licensee under title II may relinquish the exclusive right and consent to distribution from the archive before the period of exclusive right has expired by terminating the offer to sell particular data.

(e) Public Domain.—After the expiration of any exclusive right to sell, or after relinquishment of such right, the data provided to the United States remote sensing data archive shall be in the public domain and shall be made available to requesting parties by the Secretary at the cost of fulfilling the user request.

SEC. 502. NONREPRODUCTION.

Unenhanced data distributed by any land remote sensing system operator under this Act may be sold on the condition that such data will not be reproduced or disseminated by the purchaser except as provided in section 103(b)(5).

SEC. 503. REIMBURSEMENT FOR ASSISTANCE.

The Administrator, the Secretary of Defense, and the heads of other Federal agencies may provide assistance to land remote sensing system operators under the provisions of this Act. Substantial assistance shall be reimbursed by the operator, except as otherwise provided by law.

SEC. 504. ACQUISITION OF EQUIPMENT.

The Secretary may, by means of a competitive process, allow a licensee under title II or any other private party to buy, lease, or otherwise acquire the use of equipment from the Landsat system, when such equipment is no longer needed for the operation of such system or for the sale of data from such system. Officials of other Federal civilian agencies are authorized and encouraged to cooperate with the Secretary in carrying out this section.

SEC. 505. RADIO FREQUENCY ALLOCATION.

(a) Application to Federal Communications Commission.—To the extent required by the Communications Act of 1934 (47 U.S.C. 151 et

seq.), an application shall be filed with the Federal Communications Commission for any radio facilities involved with the commercial remote sensing space system.

(b) DEADLINER FOR FCC ACTION.—It is the intent of Congress that the Federal Communications Commission complete the radio licensing process under the Communications Act of 1934 (47 U.S.C. 151 et seq.) upon the application of any private sector party or consortium operator of any commercial land remote sensing space system subject to this Act, within 120 days after the receipt of an application for such licensing. If final action has not occurred within 120 days after the receipt of such an application, the Federal Communications Commission shall inform the applicant of any pending issues and of actions required to resolve them.

(c) DEVELOPMENT AND CONSTRUCTION OF UNITED STATES SYSTEM.—Authority shall not be required from the Federal Communications Commission for the development and construction of any United States land remote sensing space system (or component thereof, other than radio transmitting facilities or components), while any licensing determination is being made.

(d) CONSISTENCY WITH INTERNATIONAL OBLIGATIONS AND PUBLIC INTEREST.—Frequency allocations made pursuant to this section by the Federal Communications Commission shall be consistent with international obligations and with the public interest.

SEC. 506. CONSULTATION.

(a) CONSULTATION WITH SECRETARY OF DEFENSE.—The Landsat Program Management shall consult with the Secretary of Defense on all matters under this Act affecting national security. The Secretary of Defense shall be responsible for determining those conditions, consistent with this Act, necessary to meet national security concerns of the United States and for notifying the Secretary and the Landsat Program Management promptly of such conditions.

(b) CONSULTATION WITH SECRETARY OF STATE.—(1) The Landsat Program Management shall consult with the Secretary of State on all matters under this Act affecting international obligations. The Secretary of State shall be responsible for determining those conditions, consistent with this Act, necessary to meet international obligations and policies of the United States and for notifying promptly the Secretary and the Landsat Program Management of such conditions.

(2) Appropriate Federal agencies are authorized and encouraged to provide remote sensing data, technology, and training to developing nations as a component of programs of international aid.

(3) The Secretary of State shall promptly report to the Secretary and Landsat Program Management any instances outside the United States of discriminatory distribution of Landsat data.

(c) STATUS REPORT.—The Landsat Program Management shall, as often as necessary, provide to the Congress complete and updated information about the status of ongoing operations of the Landsat system, including timely notification of decisions made with respect to the Landsat system in order to meet national security concerns and international obligations and policies of the United States Government.

(d) REIMBURSEMENTS.—If, as a result of technical modifications imposed on a land remote sensing system operator on the basis of national security concerns, the Secretary, in consultation with the Secretary of Defense or with other Federal agencies, determines that additional costs will be incurred by the land remote sensing system operator, or that past development costs (including the cost of capital) will not be recovered by the land remote sensing system operator, the Secretary may require the agency or agencies requesting such technical modifications to reimburse the land remote sensing system operator for such additional or development costs, but not for anticipated profits. Reimbursements may cover costs associated with required changes in system performance, but not costs ordinarily associated with doing business abroad.

SEC. 507. ENFORCEMENT.

(a) IN GENERAL.—In order to ensure that unenhanced data received solely for noncommercial purposes is not used for any commercial purpose, the Secretary (in collaboration with private sector entities responsible for the marketing and distribution of unenhanced data generated by land remote sensing systems of the United States Government) shall develop and implement a system for enforcing the pricing structure for such unenhanced data, in the event that unenhanced data is made available for noncommercial applications at a different price than the price at which it is made available for commercial applications.

(b) AUTHORITY OF SECRETARY.—Subject to subsection (d), the Secretary may impose any of the enforcement mechanisms described in subsection (c) against a person who—

(1) receives unenhanced data under this Act solely for noncommercial purposes (and at a different price than the price at which such data is made available for commercial applications); and

(2) uses such data for commercial purposes.

(c) ENFORCEMENT MECHANISMS.—Enforcement mechanisms referred to in subsection (b) may include civil penalties of not more than $10,000 per day per violation, denial of further unenhanced data purchasing privileges, and any other penalties or restrictions the Secretary considers necessary to ensure, to the greatest extent practicable, that unenhanced data acquired for noncommercial purposes is not used to unfairly compete in the commercial market against private sector entities not eligible for data at the cost of fulfilling user requests.

(d) PROCEDURES AND REGULATIONS.—The Secretary shall issue any regulations necessary to carry out this section and shall establish standards and procedures governing the imposition of enforcement mechanisms under subsection (b). The standards and procedures shall include a procedure for potentially aggrieved parties to file formal protests with the Secretary alleging instances where such unenhanced data has been, or is being, used for commercial purposes in violation of the terms of receipt of such data. The Secretary shall promptly act to investigate any such protest, and shall report annually to the Congress on instances of such violations.

TITLE VI—PROHIBITION OF COMMERCIALIZATION OF WEATHER SATELLITES

SEC. 601. PROHIBITION.

Neither the President nor any other official of the United States Government shall make any effort to lease, sell, or transfer to the private sector, or commercialize, any portion of the weather satellite systems operated by the Department of Commerce or any successor agency.

SEC. 602. FUTURE CONSIDERATIONS.

Regardless of any change in circumstances subsequent to the date of enactment of this Act, even if such change makes it appear to be in the national interest to commercialize weather satellites, neither the President nor any official shall take any action prohibited by section 601 unless this title has first been repealed.

AMENDMENT NO. 3416

(Purpose: To make an amendment in the nature of a substitute)

Mr. SIMPSON. Mr. President, in behalf of Mr. PRESSLER, I send an amendment to the desk in the nature of a substitute, and ask for its immediate consideration.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Wyoming [Mr. SIMPSON], for Mr. PRESSLER, proposes an amendment numbered 3416.

Mr. SIMPSON. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection it is so ordered.

The amendment is as follows:

In lieu of the matter proposed to be inserted by the Committee amendment in the nature of a substitute, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Land Remote Sensing Act of 1992".

SEC. 2. FINDINGS.

The Congress finds and declares the following:

(1) The continuous collection and utilization of land remote sensing data from space are of major benefit in studying and understanding human impacts on the global environment, in managing the Earth's natural resources, in carrying out national security functions, and in planning and conducting many other activities of scientific, economic, and social importance.

(2) The Federal Government's Landsat system established the United States as the world leader in land remote sensing technology.

(3) The national interest of the United States lies in maintaining international leadership in satellite land remote sensing and in broadly promoting the beneficial use of remote sensing data.

(4) The cost of Landsat data has impeded the use of such data for scientific purposes, such as for global environmental change research, as well as for other public sector applications.

(5) Given the importance of the Landsat program to the United States, urgent actions, including expedited procurement procedures, are required to ensure data continuity.

(6) Full commercialization of the Landsat program cannot be achieved within the foreseeable future, and thus should not serve as the near-term goal of national policy on land remote sensing; however, commercialization of land remote sensing should remain a long-term goal of United States policy.

(7) Despite the success and importance of the Landsat system, funding and organizational uncertainties over the past several years have placed its future in doubt and have jeopardized United States leadership in land remote sensing.

(8) Recognizing the importance of the Landsat program in helping to meet national and commercial objectives, the President approved, on February 11, 1992, a National Space Policy Directive which was developed by the National Space Council and commits the United States to ensuring the continuity of Landsat coverage into the 21st century.

(9) Because Landsat data are particularly important for national security purposes and global environmental change research, management responsibilities for the program should be transferred from the Department of Commerce to an integrated program management involving the Department of Defense and the National Aeronautics and Space Administration.

(10) Regardless of management responsibilities for the Landsat program, the Nation's

broad civilian, national security, commercial, and foreign policy interests in remote sensing will best be served by ensuring that Landsat remains an unclassified program that operates according to the principles of open skies and nondiscriminatory access.

(11) Technological advances aimed at reducing the size and weight of satellite systems hold the potential for dramatic reductions in the cost, and substantial improvements in the capabilities, of future land remote sensing systems, but such technological advances have not been demonstrated for land remote sensing and therefore cannot be relied upon as the sole means of achieving data continuity for the Landsat program.

(12) A technology demonstration program involving advanced remote sensing technologies could serve a vital role in determining the design of a follow-on spacecraft to Landsat 7, while also helping to determine whether such a spacecraft should be funded by the United States Government, by the private sector, or by an international consortium.

(13) To maximize the value of the Landsat program to the American public, unenhanced Landsat 4 through 6 data should be made available, at a minimum, to United States Government agencies, to global environmental change researchers, and to other researchers who are financially supported by the United States Government, at the cost of fulfilling user requests, and unenhanced Landsat 7 data should be made available to all users at the cost of fulfilling user requests.

(14) To stimulate development of the commercial market for unenhanced data and value-added services, the United States Government should adopt a data policy for Landsat 7 which allows "competition within the private sector for distribution of unenhanced data and value-added services.

(15) Development of the remote sensing market and the provision of commercial value-added services based on remote sensing data should remain exclusively the function of the private sector.

(16) It is the best interest of the United States to maintain a permanent, comprehensive Government archive of global Landsat and other land remote sensing data for long-term monitoring and study of the changing global environment.

SEC. 3. DEFINITIONS.

In this Act, the following definitions apply:

(1) The Term "Administrator" means the Administrator of the National Aeronautics and Space Administration.

(2) The term "cost of fulfilling user requests" means the incremental costs associated with providing product generation, reproduction, and distribution of unenhanced data in response to user requests and shall not include any acquisition, amortization, or depreciation of capital assets originally paid for by the United States Government or other costs not specifically attributable to fulfilling user requests.

(3) The term "data continuity" means the continued acquisition and availability of unenhanced data which are, from the point of view of the user—

(A) sufficiently consistent (in terms of acquisition geometry, coverage characteristics, and spectral characteristics) with previous Landsat data to allow comparisons for global and regional change detection and characterization; and

(B) compatible with such data and with methods used to receive and process such data.

(4) The term "data preprocessing" may include—

(A) rectification of system and sensor distortions in land remote sensing data as it is received directly from the satellite in preparation for delivery to a user;

(B) registration of such data with respect to features of the Earth; and

(C) calibration of spectral response with respect to such data, but does not include conclusions, manipulations, or calculations derived from such data, or a combination of such data with other data.

(5) The term "land remote sensing" means the collection of data which can be processed into imagery of surface features of the Earth from an unclassified satellite or satellites, other than an operational United States Government weather satellite.

(6) The term "Landsat Program Management" means the integrated program management structure—

(A) established by, and responsible to, the Administrator and the Secretary of Defense pursuant to section 101(a); and

(B) consisting of appropriate officers and employees of the National Aeronautics and Space Administration, the Department of Defense, and any other United States Government agencies the President designates as responsible for the Landsat program.

(7) The term "Landsat system" means Landsats 1, 2, 3, 4, 5, and 6, and any follow-on land remote sensing system operated and owned by the United States Government, along with any related ground equipment, systems, and facilities owned by the United States Government.

(8) The term "Landsat 6 contractor" means the private sector entity which was awarded the contract for spacecraft construction, operations, and data marketing rights for the Landsat 6 spacecraft.

(9) The term "Landsat 7" means the follow-on satellite to Landsat 6.

(10) The term "National Satellite Land Remote Sensing Data Archive" means the archive established by the Secretary of the Interior pursuant to the archival responsibilities defined in section 502.

(11) The term "noncommercial purposes" refers to those activities undertaken by individuals or entities on the condition, upon receipt of unenhanced data, that—

(A) such data shall not be used in connection with any bid for a commercial contract, development of a commercial product, or any other non-United States Government activity that is expected, or has the potential, to be profitmaking;

(B) the results of such activities are disclosed in a timely and complete fashion in the open technical literature or other method of public release, except when such disclosure by the United States Government or its contractors would adversely affect the national security or foreign policy of the United States or violate a provision of law or regulation; and

(C) such data shall not be distributed in competition with unenhanced data provided by the Landsat 6 contractor.

(12) The term "Secretary" means the Secretary of Commerce.

(13) The term "unenhanced data" means land remote sensing signals or imagery products that are unprocessed or subject only to data preprocessing.

(14) The term "United States Government and its affiliated users" means—

(A) United States Government agencies;

(B) researchers involved with the United States Global Change Research Program and its international counterpart programs; and

(C) other researchers and international entities that have signed with the United States Government a cooperative agreement involving the use of Landsat data for noncommercial purposes.

SEC. 4. REPEAL OF LAND REMOTE-SENSING COMMERCIALIZATION ACT OF 1984.

The Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4201 et seq.) is repealed.

TITLE I—LANDSAT

SEC. 101. LANDSAT PROGRAM MANAGEMENT.

(a) ESTABLISHMENT.—The Administrator and the Secretary of Defense shall be responsible for management of the Landsat program. Such responsibility shall be carried out by establishing an integrated program management structure for the Landsat system.

(b) MANAGEMENT PLAN.—The Administrator, the Secretary of Defense, and any other United States Government official the President designates as responsible for part of the Landsat program, shall establish, through a management plan, the roles, responsibilities, and funding expectations for the Landsat Program of the appropriate United States Government agencies. The management plan shall—

(1) specify that the fundamental goal of the Landsat Program Management is the continuity of unenhanced Landsat data through the acquisition and operation of a Landsat 7 satellite as quickly as practicable which is, at a minimum, functionally equivalent to the Landsat 6 satellite, with the addition of a tracking and data relay satellite communications capability;

(2) include a baseline funding profile that—

(A) is mutually acceptable to the National Aeronautics and Space Administration and the Department of Defense for the period covering the development and operation of Landsat 7; and

(B) provides for total funding responsibility of the National Aeronautics and Space Administration and the Department of Defense, respectively, to be approximately equal to the funding responsibility of the other as spread across the development and operational life of Landsat 7;

(3) specify that any improvements over the Landsat 6 functional equivalent capability for Landsat 7 will be funded by a specific sponsoring agency or agencies, in a manner agreed to by the Landsat Program Management, if the required funding exceeds the baseline funding profile required by paragraph (2), and that additional improvements will be sought only if the improvements will not jeopardize data continuity; and

(4) provide for a technology demonstration program whose objective shall be the demonstration of advanced land remote sensing technologies that may potentially yield a system which is less expensive to build and operate, and more responsive to data users, than is the current Landsat system.

(c) RESPONSIBILITIES.—The Landsat Program Management shall be responsible for—

(1) Landsat 7 procurement, launch, and operations;

(2) ensuring that the operation of the Landsat system is responsive to the broad interests of the civilian, national security, commercial, and foreign users of the Landsat system;

(3) ensuring that all unenhanced Landsat data remain unclassified and that, except as provided in section 506 (a) and (b), no restrictions are placed on the availability of unenhanced data;

(4) ensuring that land remote sensing data of high priority locations will be acquired by the Landsat 7 system as required to meet the

needs of the United States Global Change Research Program, as established in the Global Change Research Act of 1990, and to meet the needs of national security users;

(5) Landsat data responsibilities pursuant to this Act;

(6) oversight of Landsat contracts entered into under section 102 and 103;

(7) coordination of a technology demonstration program, pursuant to section 303; and

(8) ensuring that copies of data acquired by the Landsat system are provided to the National Satellite Land Remote Sensing Data Archive.

(d) AUTHORITY TO CONTRACT.—The Landsat Program Management may, subject to appropriations and only under the existing contract authority of the United States Government agencies that compose the Landsat Program Management, enter into contracts with the private sector for services such as, but not limited to, satellite operations and data preprocessing.

(e) LANDSAT ADVISORY PROCESS.—

(1) ESTABLISHMENT.—The Landsat Program Management shall seek impartial advice and comments regarding the status, effectiveness, and operation of the Landsat system, using existing advisory committees and other appropriate mechanisms. Such advice shall be sought from individuals who represent—

(A) a broad range of perspectives on basic and applied science and operational needs with respect to land remote sensing data;

(B) the full spectrum of users of Landsat data, including representatives from United States Government agencies, State and local government agencies, academic institutions, nonprofit organizations, value-added companies, the agricultural, mineral extraction, and other user industries, and the public; and

(C) a broad diversity of age groups, sexes, and races.

(2) REPORTS.—Within 1 year after the date of the enactment of this Act and biennially thereafter, the Landsat Program Management shall prepare and submit a report to the Congress which—

(A) reports the public comments received pursuant to paragraph (1); and

(B) includes—

(i) a response to the public comments received pursuant to paragraph (1);

(ii) information on the volume of use, by category, of data from the Landsat system; and

(iii) any recommendations for policy or programmatic changes to improve the utility and operation of the Landsat system.

SEC. 102. PROCUREMENT OF LANDSAT 7.

(a) CONTRACT NEGOTIATIONS.—The Landsat Program Management shall, subject to appropriations and only under the existing contract authority of the United States Government agencies that compose the Landsat Program Management, expeditiously contract with a United States private sector entity for the development and delivery of Landsat 7.

(b) DEVELOPMENT AND DELIVERY CONSIDERATIONS.—In negotiating a contract under this section for the development and delivery of Landsat 7, the Landsat Program Management shall—

(1) seek, as a fundamental objective, to have Landsat 7 operational by the expected end of the design life of Landsat 6;

(2) seek to ensure data continuity by the development and delivery of a satellite which is, at a minimum, functionally equivalent to the Landsat 6 satellite; and

(3) seek to incorporate in Landsat 7 any performance improvements required to meet United States Government needs that would not jeopardize data continuity.

(c) NOTIFICATION OF COST AND SCHEDULE CHANGES.—The Landsat Program Management shall promptly notify the Congress of any significant deviations from the expected cost, delivery date, and launch date of Landsat 7, that are specified by the Landsat Program Management upon award of the contract under this section.

(d) UNITED STATES PRIVATE SECTOR ENTITIES.—The Landsat Program Management shall, for purposes of this Act, define the term "United States private sector entities", taking into account the location of operations, assets, personnel, and other such factors.

SEC. 103. DATA POLICY FOR LANDSAT 4 THROUGH 6.

(A) CONTRACT NEGOTIATIONS.—Within 30 days after the date of enactment of this Act, the Landsat Program Management shall enter into negotiations with the Landsat 6 contractor to formalize an arrangement with respect to pricing, distribution, acquisition, archiving, and availability of unenhanced data for which the Landsat 6 contractor has responsibility under its contract. Such arrangement shall provide for a phased transition to a data policy consistent with the Landsat 7 data policy (developed pursuant to section 105) by the date of initial operation of Landsat 7. Conditions of the phased arrangement should require that the Landsat 6 contractor adopt provisions so that by the final phase of the transition period—

(1) such unenhanced data shall be provided, at a minimum, to the United States Government and its affiliated users at the cost of fulfilling user requests, on the condition that such unenhanced data are used solely for noncommercial purposes;

(2) instructional data sets, selected from the Landsat data archives, will be made available to educational institutions exclusively for noncommercial, educational purposes at the cost of fulfilling user requests;

(3) Landsat data users are able to acquire unenhanced data contained in the collective archives of foreign ground stations as easily and affordable as practicable;

(4) adequate data necessary to meet the needs of global environmental change researchers and national security users are acquired;

(5) the United States Government and its affiliated users shall not be prohibited from reproduction, or dissemination of unenhanced data to other agencies of the United States Government and other affiliated users, on the condition that such unenhanced data are used solely for noncommercial purposes;

(6) non-profit, public interest entities receive vouchers, data grants, or other such means of providing them with unenhanced data at the cost of fulfilling user requests, on the condition that such unenhanced data are used solely for noncommercial purposes.

(7) a viable role for the private sector in the promotion and development of the commercial market for value added and other services using unenhanced data from the Landsat system is preserved; and

(8) unenhanced data from the Landsat system are provided to the National Satellite Land Remote Sensing Data Archive at no more than the cost of fulfilling user requests.

(b) FAILURE TO REACH AGREEMENT.—If negotiations under subsection (a) have not, by September 30, 1993, resulted in an agreement that the Landsat Program Management determines generally achieves the goals stated in subsection (b)(1) through (8), the Administrator and the Secretary of Defense shall, within 30 days after the date of such determination, jointly certify and report such determination to the Congress. The report shall include a review of options and projected costs for achieving such goals, and shall include recommendations for achieving such goals. The options reviewed shall include—

(1) retaining the existing or modified contract with the Landsat 6 contractor;

(2) the termination of existing contracts for the exclusive right to market unenhanced Landsat data; and

(3) the establishment of an alternative private sector mechanism for the marketing and commercial distribution of such data.

SEC. 104. TRANSFER OF LANDSAT 6 PROGRAM RESPONSIBILITIES.

The responsibility of the Secretary with respect to Landsat 6 shall be transferred to the Landsat Program Management, as agreed to between the Secretary and the Landsat Program Management, pursuant to section 101.

SEC. 105. DATA POLICY FOR LANDSAT 7.

(a) LANDSAT 7 DATA POLICY.—The Landsat Program Management, in consultation with other appropriate United States Government agencies, shall develop a data policy for Landsat 7 which should—

(1) ensure that unenhanced data are available to all users at the cost of fulfilling user requests;

(2) ensure timely and dependable delivery of unenhanced data to the full spectrum of civilian, national security, commercial, and foreign users and the National Satellite Land Remote Sensing Data Archive;

(3) ensure that the United States retains ownership of all unenhanced data generated by Landsat 7;

(4) support the development of the commercial market for remote sensing data;

(5) ensure that the provision of commercial value-added services based on remote sensing data remains exclusively the function of the private sector; and

(6) to the extent possible, ensure that the data distribution system for Landsat 7 is compatible with the Earth Observing System Data and Information System.

(b) In addition, the data policy for Landsat 7 may provide for—

(1) United States private sector entities to operate ground receiving stations in the United States for Landsat 7 data;

(2) other means for direct access by private sector entities to unenhanced data from Landsat 7; and

(3) the United States Government to charge a per image fee, license fee, or other such fee to entities operating ground receiving stations or distributing Landsat 7 data.

(c) LANDSAT 7 DATA POLICY PLAN.—Not later than July 15, 1994, the Landsat Program Management shall develop and submit to Congress a report that contains a Landsat 7 Data Policy Plan. This plan shall define the roles and responsibilities of the various public and private sector entities that would be involved in the acquisition, processing, distribution, and archiving of Landsat 7 data and in operations of the Landsat 7 spacecraft.

(d) REPORTS.—Not later than 12 months after submission of the Landsat 7 Data Policy Plan, required by subsection (c), and annually thereafter until the launch of Landsat 7, the Landsat Program Management, in consultation with representatives of appropriate United States Government agencies, shall prepare and submit a report to the Congress which—

(1) provides justification for the Landsat 7 data policy in terms of the civilian, national security, commercial, and foreign policy needs of the United States; and

(2) provides justification for any elements of the Landsat 7 data policy which are not consistent with the provisions of subsection (a).

TITLE II—LICENSING OF PRIVATE REMOTE SENSING SPACE SYSTEMS

SEC. 201. GENERAL LICENSING AUTHORITY.

(a) LICENSING AUTHORITY OF SECRETARY.—(1) In consultation with other appropriate United States Government agencies, the Secretary is authorized to license private sector parties to operate private remote sensing space systems for such period as the Secretary may specify and in accordance with the provisions of this title.

(2) In the case of a private space system that is used for remote sensing and other purposes, the authority of the Secretary under this title shall be limited only to the remote sensing operations of such space system.

(b) COMPLIANCE WITH THE LAW, REGULATIONS, INTERNATIONAL OBLIGATIONS, AND NATIONAL SECURITY.—No license shall be granted by the Secretary unless the Secretary determines in writing that the applicant will comply with the requirements of this Act, any regulations issued pursuant to this Act, and any applicable international obligations and national security concerns of the United States.

(c) DEADLINE FOR ACTION ON APPLICATION.—The Secretary shall review any application and make a determination thereon within 120 days of the receipt of such application. If final action has not occurred within such time, the Secretary shall inform the applicant of any pending issues and of actions required to resolve them.

(d) IMPROPER BASIS FOR DENIAL.—The Secretary shall not deny such license in order to protect any existing licensee from competition.

(e) REQUIREMENT TO PROVIDE UNENHANCED DATA.—(1) The Secretary, in consultation with other appropriate United States Government agencies and pursuant to paragraph (2), shall designate in a licensee issued pursuant to this title any unenhanced data required to be provided by the licensee under section 202(b)(3).

(2) The Secretary shall make a designation under paragraph (1) after determining that—

(A) such data are generated by a system for which all or a substantial part of the development, fabrication, launch, or operations costs have been or will be directly funded by the United States Government; or

(B) it is in the interest of the United States to require such data to be provided by the licensee consistent with section 202(b)(3), after considering the impact on the licensee and the importance of promoting widespread access to remote sensing data from United States and foreign systems.

(3) A designation made by the Secretary under paragraph (1) shall not be inconsistent with any contract or other arrangement entered into between a United States Government agency and the licensee.

SEC. 202. CONDITIONS FOR OPERATION

(a) LICENSE REQUIRED FOR OPERATION.—No person who is subject to the jurisdiction or control of the United States may, directly or through any subsidiary or affiliate, operate any private remote sensing space system without a license pursuant to section 201.

(b) LICENSING REQUIREMENTS.—Any license issued pursuant to this title shall specify that the licensee shall comply with all of the requirements of this Act and shall—

(1) operate the system in such manner as to preserve the national security of the United States and to observe the international obligations of the United States in accordance with section 506;

(2) make available to the government of any country (including the United States) unenhanced data collected by the system concerning the territory under the jurisdiction of such government as soon as such data are available and on reasonable terms and conditions;

(3) make unenhanced data designated by the Secretary in the license pursuant to section 201(e) available in accordance with section 501;

(4) upon termination of operations under the license, make disposition of any satellites in space in a manner satisfactory to the President;

(5) furnish the Secretary with complete orbit and data collection characteristics of the system, and inform the Secretary immediately of any deviation; and

(6) notify the Secretary of any agreement the licensee intends to enter with a foreign nation, entity, or consortium involving foreign nations or entities.

(c) ADDITIONAL LICENSING REQUIREMENTS FOR LANDSAT 6 CONTRACTOR.—In addition to the requirements of paragraph (b), any license issued pursuant to this title to the Landsat 6 contractor shall specify that the Landsat 6 contractor shall—

(1) notify the Secretary of any value added activities (as defined by the Secretary by regulation) that will be conducted by the Landsat 6 contractor or by a subsidiary or affiliate; and

(2) if such activities are to be conducted, provide the Secretary with a plan for compliance with section 501 of this Act.

SEC. 203. ADMINISTRATIVE AUTHORITY OF THE SECRETARY

(a) FUNCTIONS.—In order to carry out the responsibilities specified in this title, the Secretary may—

(1) grant, condition, or transfer licenses under this Act;

(2) seek an order of injunction or similar judicial determination from a United States District Court with personal jurisdiction over the licensee to terminate, modify, or suspend licenses under this title and to terminate licensed operations on an immediate basis, if the Secretary determines that the licensee has substantially failed to comply with any provisions of this Act, with any terms, conditions, or restrictions of such license, or with any international obligations or national security concerns of the United States;

(3) provide penalties for noncompliance with the requirements of licenses or regulations issued under this title, including civil penalties not to exceed $10,000 (each day of operation in violation of such licenses or regulations constituting a separate violation);

(4) compromise, modify, or remit any such civil penalty;

(5) issue subpoenas for any materials, documents, or records, or for the attendance and testimony of witnesses for the purpose of conducting a hearing under this section;

(6) seize any object, record, or report pursuant to a warrant from a magistrate based on a showing of probable cause to believe that such object, record, or report was used, is being used, or is likely to be used in violation of this Act or the requirements of a license or regulation issued thereunder; and

(7) make investigations and inquiries and administer to or take from any person an oath, affirmation, or affidavit concerning any matter relating to the enforcement of this Act.

(b) REVIEW OF AGENCY ACTION.—Any applicant or licensee who makes a timely request for review of an adverse action pursuant to subsection (a)(1), (a)(3), (a)(5), or (a)(6) shall be entitled to adjudication by the Secretary on the record after an opportunity for an agency hearing with respect to such adverse action. Any final action by the Secretary under this subsection shall be subject to judicial review under chapter 7 of title 5, United States Code.

SEC. 204. REGULATORY AUTHORITY OF THE SECRETARY

The Secretary may issue regulations to carry out this title. Such regulations shall be promulgated only after public notice and comment in accordance with the provisions of section 553 of title 5, United States Code.

SEC. 205. AGENCY ACTIVITIES

(a) LICENSE APPLICATION AND ISSUANCE.—A private sector party may apply for a license to operate a private remote sensing space system which utilizes, on a space-available basis, a civilian United States Government satellite or vehicle as a platform for such system. The Secretary, pursuant to this title, may license such system if it meets all conditions of this title and—

(1) the system operator agrees to reimburse the Government in a timely manner for all related costs incurred with respect to such utilization, including a reasonable and proportionate share of fixed, platform, data transmission, and launch costs; and

(2) such utilization would not interfere with or otherwise compromise intended civilian Government missions, as determined by the agency responsible for such civilian platform.

(b) ASSISTANCE.—The Secretary may offer assistance to private sector parties in finding appropriate opportunities for such utilization.

(c) AGREEMENTS.—To the extent provided in advance by appropriation Acts, any United States Government agency may enter into agreements for such utilization if such agreements are consistent with such agency's mission and statutory authority, and if such remote sensing space system is licensed by the Secretary before commencing operation.

(d) APPLICABILITY.—This section does not apply to activities carried out under title III.

(e) EFFECT ON FCC AUTHORITY.—Nothing in this title shall affect the authority of the Federal Communications Commission pursuant to the Communications Act of 1934 (47 U.S.C. 151 et seq.).

TITLE III—RESEARCH, DEVELOPMENT, AND DEMONSTRATION

SEC. 301. CONTINUED FEDERAL RESEARCH AND DEVELOPMENT.

(a) ROLES OF NASA AND DEPARTMENT OF DEFENSE.—(1) The Administrator and the Secretary of Defense are directed to continue and to enhance programs of remote sensing research and development.

(2) The Administrator is authorized and encouraged to—

(A) conduct experimental space remote sensing programs (including applications demonstration programs and basic research at universities);

(B) develop remote sensing technologies and techniques, including those needed for monitoring the Earth and its environment; and

(C) conduct such research and development in cooperation with other United States Government agencies and with public and private research entities (including private industry, universities, non-profit organizations, State and local governments, foreign governments, and international organizations) and to enter into arrangements (including joint ventures) which will foster such cooperation.

"(b) Roles of Department of Agriculture and Department of Interior.—

(1) In order to enhance the ability of the United States to manage and utilize its renewable and nonrenewable resources, the Secretary of Agriculture and the Secretary of the Interior are authorized and encouraged to conduct programs of research and development in the applications of remote sensing using funds appropriated for such purposes.

(2) Such programs may include basic research at universities, demonstrations of applications, and cooperative activities involving other Government agencies, private sector parties, and foreign and international organizations.

(c) Role of Other Federal Agencies.—Other United States Government agencies are authorized and encouraged to conduct research and development on the use of remote sensing in the fulfillment of their authorized missions, using funds appropriated for such purposes.

SEC. 302. AVAILABILITY OF FEDERALLY GATHERED UNENHANCED DATA.

(a) General Rule.—All unenhanced land remote sensing data gathered and owned by the United States Government, including unenhanced data gathered under the technology demonstration program carried out pursuant to section 303, shall be made available to users in a timely fashion.

(b) Protection for Commercial Data Distributor.—The President shall seek to ensure that unenhanced data gathered under the technology demonstration program carried out pursuant to section 303 shall, to the extent practicable, be made available on terms that would not adversely affect the commercial market for unenhanced data gathered by the Landsat 6 spacecraft.

SEC. 303. TECHNOLOGY DEMONSTRATION PROGRAM.

(a) Establishment.—As a fundamental component of a national land remote sensing strategy, the President shall establish, through appropriate United States Government agencies, a technology demonstration program. The goals of such program shall be to—

(1) seek to launch advanced land remote sensing system components within 5 years after the date of the enactment of this Act.

(2) demonstrate within such 5-year period advanced sensor capabilities suitable for use in the "anticipated land remote sensing program; and

(3) demonstrate within such 5-year period an advanced land remote sensing system design that could be less expensive to procure and operate than the Landsat system projected to be in operation through the year 2000, and that therefore holds greater potential for private sector investment and control.

(b) Execution of Program.—In executing the technology demonstration program, the President shall seek to apply technologies associated with United States National Technical Means of intelligence gathering, to the extent that such technologies are appropriate for the technology demonstration and can be declassified for such purposes without causing adverse harm to United States national security interests.

(c) Broad Application.—To the greatest extent practicable, the technology demonstration program established under subsection (a) shall be designed to be responsive to the broad civilian, national security, commercial, and foreign policy needs of the United States.

(d) Private Sector Funding.—The technology demonstration program under this section may be carried out in part with private sector funding.

(e) Landsat Program Management Coordination.—The Landsat Program Management shall have a coordinating role in the technology demonstration program carried out under this section.

(f) Report to Congress.—The President shall assess the progress of the technology demonstration program under this section and, within 2 years after the date of enactment of this Act, submit a report to the Congress on such progress.

TITLE IV—ASSESSING OPTIONS FOR SUCCESSOR LAND REMOTE SENSING SYSTEM

SEC. 401. ASSESSING OPTIONS FOR SUCCESSOR LAND REMOTE SENSING SYSTEM.

(a) Assessment.—Within 5 years after the date of the enactment of this Act, the Landsat Program Management, in consultation with representatives of appropriate United States Government agencies, shall assess and report to the Congress on the options for a successor land remote sensing system to Landsat 7. The report shall include a full assessment of the advantages and disadvantages of—

(1) private sector funding and management of a successor land remote sensing system;

(2) establishing an international consortium for the funding and management of a successor land remote sensing system;

(3) funding and management of a successor land remote sensing system by the United States Government; and

(4) a cooperative effort between the United States Government and the private sector for the funding and management of a successor land remote sensing system.

(b) Goals.—In carrying out subsection (a), the Landsat Program Management shall consider the ability of each of the options to—

(1) encourage the development, launch, and operation of a land remote sensing system that adequately serves the civilian, national security, commercial, and foreign policy interests of the United States;

(2) encourage the development, launch, and operation of a land remote sensing system that maintains data continuity with the Landsat system; and

(3) incorporate system enhancements, including any such enhancements developed under the technology demonstration program under section 303, which may potentially yield a system that is less expensive to build and operate, and more responsive to data users, than is the Landsat system projected to be in operation through the year 2000.

(c) Preference for Private Sector System.—If a successor land remote sensing system to Landsat 7 can be funded and managed by the private sector while still achieving the goals stated in subsection (b) without jeopardizing the domestic, national security, and foreign policy interests of the United States, preference should be given to the development of such a system by the private sector without competition from the United States Government.

TITLE V—GENERAL PROVISIONS

SEC. 501. NONDISCRIMINATORY DATA AVAILABILITY

(a) General Rule.—Except as provided in subsection (b) of this section, any unenhanced data generated by the Landsat system or any other land remote sensing system funded and owned by the United States Government shall be made available to all users without preference, bias, or any other special arrangement (except on the basis of national security concerns pursuant to section 506) regarding delivery, format, pricing, or technical considerations which would favor one customer or class of customers over another.

(b) Exceptions.—Unenhanced data generated by the Landsat system or any other land remote sensing system funded and owned by the United States Government may be made available to the United States Government and its affiliated users at reduced prices, in accordance with this Act, on the condition that such unenhanced data are used solely for noncommercial purposes.

SEC. 502. ARCHIVING OF DATA.

(a) Public Interest.—It is in the public interest for the United States Government to—

(1) maintain an archive of land remote sensing data for historical, scientific, and technical purposes, including long-term global environmental monitoring;

(2) control the content and scope of the archive; and

(3) assure the quality, integrity, and continuity of the archive.

(b) Archiving Practices.—The Secretary of Interior, in consultation with the Landsat Program Management, shall provide for long-term storage, maintenance, and upgrading of a basic, global, land remote sensing data set (hereinafter referred to as the "basic data set") and shall follow reasonable archival practices to assure proper storage and preservation of the basic data set and timely access for parties requesting data.

(c) Determination of Content of Basic Data Set.—In determining the initial content of, or in upgrading, the basic data set, the Secretary of Interior shall—

(1) use as a baseline the data archived on the date of enactment of this Act;

(2) take into account future technical and scientific developments and needs, paying particular attention to the anticipated data requirements of global environmental change research;

(3) consult with and seek the advice of users and producers of remote sensing data and data products;

(4) consider the need for data which may be duplicative in terms of geographical coverage but which differ in terms of season, spectral bands, resolution, or other relevant factors;

(5) include, as the Secretary of Interior considers appropriate, unenhanced data generated either by the Landsat system, pursuant to title I, or by licensees under title II;

(6) include, as the Secretary of Interior considers appropriate, data collected by foreign ground stations or by foreign remote sensing space systems; and

(7) ensure that the content of the archive is developed in accordance with section 506.

(d) Public Domain.—After the expiration of any exclusive right to sell, or after relinquishment of such right, the data provided to the National Satellite Land Remote Sensing Data Archive shall be in the public domain and shall be made available to requesting parties by the Secretary of the Interior at the cost of fulfilling user requests.

SEC. 502. NONREPRODUCTION

Unenhanced data distributed by any licensee under Title II of this Act may be sold on the condition that such data will not be reproduced or disseminated by the purchaser for commercial purposes.

SEC. 503. REIMBURSEMENT FOR ASSISTANCE

The Administrator, the Secretary of Defense, and the heads of other United States Government agencies may provide assistance to land remote sensing system operators under the provisions of this Act. Substantial assistance shall be reimbursed by the operator, except as otherwise provided by law.

SEC. 504. ACQUISITION OF EQUIPMENT

The Landsat Program Management may, by means of a competitive process, allow a licensee under title II or any other private party to buy, lease, or otherwise acquire the use of equipment from the Landsat system, when such equipment is no longer needed for the operation of such system or for the sale of data from such system. Officials of other United States Government civilian agencies are authorized and encouraged to cooperate with the Secretary in carrying out this section.

SEC. 505. RADIO FREQUENCY ALLOCATION

(a) APPLICATION TO FEDERAL COMMUNICATIONS COMMISSION.—To the extent required by the Communications Act of 1934 (47 U.S.C. 151 et seq.), an application shall be filed with the Federal Communications Commission for any radio facilities involved with commercial remote sensing space systems licensed under title II.

(b) DEADLINE FOR FCC ACTION.—It is the intent of Congress that the Federal Communications Commission complete the radio licensing process under the Communications Act of 1934 (47 U.S.C. 151 et seq.), upon the application of any private sector party or consortium operator of any commercial land remote sensing space system subject to this Act, within 120 days of the receipt of an application for such licensing. If final action has not occurred within 120 days of the receipt of such an application, the Federal Communications Commission shall inform the applicant of any pending issues and of actions required to resolve them.

(c) DEVELOPMENT AND CONSTRUCTION OF UNITED STATES SYSTEMS.—Authority shall not be required from the Federal Communications Commission for the development and construction of any United States land remote sensing space system (or component thereof), other than radio transmitting facilities or components, while any licensing determination is being made.

(d) CONSISTENCY WITH INTERNATIONAL OBLIGATIONS AND PUBLIC INTEREST.—Frequency allocations made pursuant to this section by the Federal Communications Commission shall be consistent with international obligations and with the public interest.

SEC. 506. CONSULTATION

(a) CONSULTATION WITH SECRETARY OF DEFENSE.—The Secretary and the Landsat Program Management shall consult with the Secretary of Defense on all matters under this Act affecting national security. The Secretary of Defense shall be responsible for determining those conditions, consistent with this Act, necessary to meet national security concerns of the United States and for notifying the Secretary and the Landsat Program Management promptly of such conditions.

(b) CONSULTATION WITH SECRETARY OF STATE.—(1) The Secretary and the Landsat Program Management shall consult with the Secretary of State on all matters under this Act affecting international obligations. The Secretary of State shall be responsible for determining those conditions, consistent with this Act, necessary to meet international obligations and policies of the United States and for notifying promptly the Secretary and the Landsat Program Management of such conditions.

(2) Appropriate United States Government agencies are authorized and encouraged to provide remote sensing data, technology, and training to developing nations as a component of programs of international aid.

(3) The Secretary of State shall promptly report to the Secretary and Landsat Program Management any instances outside the United States of discriminatory distribution of Landsat data.

(c) STATUS REPORT.—The Landsat Program Management shall, as often as necessary, provide to the Congress complete and updated information about the status of ongoing operations of the Landsat system, including timely notification of decisions made with respect to the Landsat system in order to meet national security concerns and international obligations and policies of the United States Government.

(d) REIMBURSEMENTS.—If, as a result of technical modifications imposed on a licensee under title II on the basis of national security concerns, the Secretary, in consultation with the Secretary of Defense or with other Federal agencies, determines that additional costs will be incurred by the licensee, or that past development costs (including the cost of capital) will not be recovered by the licensee, the Secretary may require the agency or agencies requesting such technical modifications to reimburse the licensee for such additional or development costs, but not for anticipated profits. Reimbursements may cover costs associated with required changes in system performance, but not costs ordinarily associated with doing business abroad.

SEC. 507. ENFORCEMENT.

(a) IN GENERAL.—In order to ensure that unenhanced data from the Landsat system received solely for noncommercial purposes are not used for any commercial purpose, the Secretary (in collaboration with private sector entities responsible for the marketing and distribution of unenhanced data generated by the Landsat system) shall develop and implement a system for enforcing this prohibition, in the event that unenhanced data from the Landsat system are made available for noncommercial purposes at a different price than such data are made available for other purposes.

(b) AUTHORITY OF SECRETARY.—Subject to subsection (d), the Secretary may impose any of the enforcement mechanisms described in subsection (c) against a person who—

(1) receives unenhanced data from the Landsat system under this Act solely for noncommercial purposes (and at a different price than the price at which such data are made available for other purposes); and

(2) uses such data for other than noncommercial purposes.

(c) ENFORCEMENT MECHANISMS.—Enforcement mechanisms referred to in subsection (b) may include civil penalties of not more than $10,000 (per day per violation), denial of further unenhanced data purchasing privileges, and any other penalties or restrictions the Secretary considers necessary to ensure, to the greatest extent practicable, that unenhanced data provided for noncommercial purposes are not used to unfairly compete in the commercial market against private sector entities not eligible for data at the cost of fulfilling user requests.

(d) PROCEDURES AND REGULATIONS.—The Secretary shall issue any regulations necessary to carry out this section and shall establish standards and procedures governing the imposition of enforcement mechanisms under subsection (b). The standards and procedures shall include a procedure for potentially aggrieved parties to file formal protests with the Secretary alleging instances where such unenhanced data has been, or is being, used for commercial purposes in violation of the terms of receipt of such data. The Secretary shall promptly act to investigate any such protest, and shall report annually to the Congress on instances of such violations.

TITLE VI—PROHIBITION OF COMMERCIALIZATION OF WEATHER SATELLITES

SEC. 601. PROHIBITION.

Neither the President nor any other official of the Government shall make any effort to lease, sell, or transfer to the private sector, or commercialize, any portion of the weather satellite systems operated by the Department of Commerce or any successor agency.

SEC. 602. FUTURE CONSIDERATIONS.

Regardless of any change in circumstances subsequent to the enactment of this Act, even if such change makes it appear to be in the national interest to commercialize weather satellites, neither the President nor any official shall take any action prohibited by section 601 unless this title has first been repealed.

THE LAND REMOTE SENSING ACT OF 1992

Mr. PRESSLER. Mr. President, for the past 2 years I have worked on the legislation we have before us today. In February of this year, after consultation with several Government agencies and numerous user groups I introduced S. 2297 the Land Remote Sensing Act of 1992. In May of this year, Senator GORE and I held hearings on this legislation in the Commerce, Science, and Transportation Subcommittee on Science, Technology, and Space. There are two primary purposes for this bill. First, the United State's has long needed the establishment of a new policy framework for civil land satellite remote sensing. Second, Congress has needed to act to ensure the continuity and availability of Landsat data into the next century.

The legislation accomplishes these two goals by assigning new roles and responsibilities for the Landsat program within the U.S. Government and by providing for the procurement of the Landsat 7 spacecraft and associated ground data processing components. The legislation also authorizes an advanced technology demonstration program and establishes data policy goals. Through these provisions, the bill seeks to maintain United States' leadership in land remote-sensing.

Mr. President, the first satellite in the Landsat series was launched 20 years ago on July 23, 1972. At that time, the system was called the Earth Resources Technology Satellite [ERTS]. ERTS-1 was launched specifically to gather data for the scientific community working in the area of terrestrial resources analysis and management. ERTS-1 was the first civil land remote-sensing satellite. Since this launch, four additional satellites have been put into orbit. The program was renamed the Landsat Program in 1975. Landsat satellites collect multispectral images that are used by Government, private industry, nongovernmental organizations, and academia. Uses of these data currently include: crop identification and yield estimation; oil; gas and mineral exploration; urban and environmental planning and management; water resources modeling; map-making; and environmental hazards risk assessment.

Early Landsat satellites orbited the Earth at an altitude of approximately 900 km. Current Landsat satellites orbit the earth at an altitude of approximately 700 km, with the satellite passing over the same point on the earth every 16 days. Thematic mapper [TM] and multispectral scanner [MSS] data from Landsats 4 and 5 are either directly downlinked to ground receiving stations, or are transmitted via the Tracking and Data Relay Satellite [TDRSS] to a receiving station in the United States.

Both TM and MSS images cover an area 185 km by 185 km. MSS acquires 80-meter resolution data in four spectral bands while TM gathers 30-meter data in six spectral bands in the visible and near infrared and one band in the thermal infrared whose resolution is 120 meters. Because of the decay in the health of the transmission equipment on Landsats 4 and 5 because of old age, this TDRSS link must currently be used very sparingly. Landsat 6 will have only the direct downlink capability, augmented by on-board tape recorders which can be played back when the satellite passes over ground stations in the United States. There are data receiving stations located in 13 nations in addition to the United States.

A civil land remote sensing satellite program was initiated by the United States Geological Survey of the Department of the Interior as the earth resources observations systems [EROS] program in the mid-1960's. The ERTS/Landsat program was begun by the National Aeronautics and Space Administration [NASA] in 1969. Under NASA's management, Landsat was operated as an experimental satellite. In 1979, Landsat operations were transferred to the National Oceanic and Atmospheric Administration. In 1981 the Administration deleted from its budget initial funding for Landsats 4 and 5. In 1984, at the urging of the Reagan administration, Congress passed the Land Remote-Sensing Commercialization Act of 1984 (Public Law 98–365), which led to the selection of the Earth Observation Satellite Co. [EOSAT] as the Landsat contractor in 1985. Although the original contract was to have included funding for the construction of both Landsats 6 and 7, it was later modified to include only Landsat 6 after the U.S. Government failed to meet funding obligations. Landsat 6 is currently scheduled for launch in January, 1993. Erratic funding for the program, coupled with the high cost of data, $4,400 per scene, have resulted in restricted use of the data and caused concern—especially on the part of the scientific and academic communities—over the future of the program. This concern is shared by State and local government officials and environmental organizations.

Fortunately, Landsat 4 and 5 spacecraft have survived and continue to provide data despite the delays in the launch of Landsat 6. This situation will not continue indefinitely. This legislation is needed to provide adequate funding, and to establish a management infrastructure to build and launch Landsat 7. Most importantly, the continuation of the Landsat program will ensure that all users will be able to obtain Landsat data at reasonable prices.

In 1981, the Department of Commerce established the Civil Operational remote-Sensing Satellite Advisory Committee. This committee was formed by the Reagan administration to determine the best method of transferring the Landsat systems to the private sector. This committee issued a report, known as the "Halbouty Report", advising that Landsat commercialization be done gradually, starting with the ground distribution infrastructure. The consensus of three additional Government studies all urged caution in Landsat commercialization. I along with many others agreed that revenues from a commercial Landsat operation would not, in the short term, support the estimated costs of the Landsat program.

Ignoring these warnings, the Reagan administration continued down the path of commercialization. Originally, it was intended that weather satellites as well would be commercialized, with the revenues from the weather satellites making up the shortfall in the Landsat program. However, when Congress finally passed legislation (Public Law 98–365) in July 1984, whether satellites were specifically excluded from commercialization because of the fear on the part of Congress that commercialization of weather satellites might jeopardize the future of a system which was vital to the public safety.

A 1985 report by the U.S. National Academy of Sciences Space Applications Board termed the U.S. Civil Land Remote Sensing effort a Program in Crisis. The U.S. Congress, Office of Technology Assessment [OTA] said "In the next 5–10 years, the market is not likely to sustain commercial operations of the entire satellite land remote sensing system without substantial direct or indirect Government funding." In the spring of 1987, after 2 years of sporadic funding of the EOSAT contract, the contract was modified to include only one additional satellite, Landsat 6. The design parameters of Landsat 6 were modified to reduce cost, and to permit the satellite to be launched on a Titan II expendable launch vehicle rather than the Space Shuttle, as was the previous EOSAT plan.

In 1988, three independent studies were again conducted under contract to the Department of Commerce through NOAA. These studies, conducted independently by the Egan Group, Kodak Remote Sensing, and the Analytical Science Corp., reached essentially the same conclusion as the OTA study. The conclusion was that commercialization was not currently working, nor would it work in the foreseeable future. EOSAT was criticized in each of these reports for making no progress in developing the remote-sensing market as a commercial venture. During this entire period, the high cost of Landsat data inhibited its use by the scientific and academic communities. Later, a University of California at Santa Barbara survey of the academic community showed overwhelmingly that commercialization had a deleterious effect on uses of Landsat data in American colleges and research institutions. Eight-six percent said operation of the Landsat program should be conducted by the U.S. Government.

The number of Landsat scenes purchased by the academic community has fallen dramatically in the period from 1976 to 1990. Part of this decline in due, to doubt, to the fact that Landsat is no longer the novelty that it was in 1976. On the other hand, the high cost of data, coupled with the decreased tasking necessitated by the degraded state of the Landsat 4 and 5 spacecraft, make it less likely that a desired area will have been imaged at the time required for a specific research effort. Many times research projects cannot predict when images should be taken, because the event of interest has already occurred. Analysis of change is not possible if images were not taken of the desired area in the past because of a lack of commercial demand for the image.

For this reason, we included a provision in the legislation that stipulates all users will have access to Landsat 7 data at the "cost of fulfilling user requests" and the requirement for phasing down Landsats 4 through 6 data costs to reflect Landsat 7 data policy stated in section 105. I am pleased with the preliminary agreements reached between NASA and the Landsat 6 contractor so far, and understand that the price of Landsat 4 and 5 data for the U.S. Government and its affiliated users has already been agreed to at an average cost of $1,600 per scene. We expect the negotiations on a data purchase price to move forward in the required statutory phase down from this point in the negotiations with respect to Landsats 4 and 5. Additionally, since the contractor has represented that the Landsat 6 system will be new and more efficiently run, we expect that the agreed price for Landsat 6 data for the U.S. Government and its affiliated users will in no case be higher than the $1,600 price already agreed to for Landsats 4 and 5 data. Due to this new found increase in efficiency, we also believe it is realistic that Landsat 6 data can be made available all users at marginal cost within 3 years of the passage of this legislation.

In section 105 we mandate a single tier pricing policy at marginal cost of fulfilling user requests by directing that the administration should adopt such policy. The Landsat Program Management office should know that Congress is committed to a marginal cost, single tier price for Landsats 6 and 7 data. We expect the administration will in fact, formulate in no uncertain terms a marginal cost, single price for Landsat 7 data from the inception of Landsat 7 policy. There can be no deviation from this policy without the strongest burden of proof. In defining "United States Government and its affiliated users," we recognize that ultimately all environmental and natural resources research is global change research. The aggregate of local environmental change—much of which is studied by State and local governments and non-profit organizations locally, regionally and internationally—is global environmental change. It is imperative that the U.S. global change research program share data with and receive data from, State, and to the extent applicable, local governments, as well as non-profit organizations engaged in local, regional and international environmental research. This is important both to maximize the benefits of U.S. taxpayer investment in Landsat, as well as to gain the greatest understanding possible of regional and local impacts on climate change. For this reason, we have included independent environmental research by State and local governments, universities, Indian tribes, and non-profit public interest organizations in the definitions of the U.S. global change research program. We expect that through the open sharing of research results, this data will be made part of the U.S. global change research program, and its international counterpart programs where applicable.

Section 103(a) does not relieve the Landsat 6 contractor from the responsibility, of carrying out substantial revisions of its data policy, including major reductions in cost of data for the U.S. Government and its affiliated users specified in section 103(a), during all earlier phases of the transition. Section 103(b) is not meant to preclude other options if such options appear to be more efficient or cost effective, such as the EROS Data Center. Section 501(b) reflects our intent that this requirement apply throughout the transition period.

The definition of noncommercial purposes in Section 3 is not intended to preclude the sharing of data between States, local governments, Indian Tribes or non-profit research organizations to the extent that this sharing furthers non-commercial research purposes. The definition of "data preprocessing" is intended to provide the option of ordering additional preprocessing functions, with the understanding that those data requesters who order such preprocessing by the Landsat 6 contractor will be charged a premium over and above the marginal cost of fulfilling users requests.

Mr. President, I would like to thank Science Subcommittee Chairman Senator GORE, for all his assistance in creating this legislation. I also would like to thank Chairman GEORGE BROWN of the House of Representatives for his tireless efforts in bringing this legislation together. This legislation is needed, and I urge my colleagues to support it.

The ACTING PRESIDENT pro tempore. Is there further debate on the substitute amendment?

Without objection, the substitute amendment (No. 3416) is agreed to.

The ACTING PRESIDENT pro tempore. Without objection, the bill is considered read three times. The bill was deemed read the third time.

Mr. FORD. Mr. President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of H.R. 3614, the House companion; that the Senate proceed its immediate consideration; that all after the enacting clause be stricken and the text of S. 2297, as amended, be inserted in lieu thereof; that the bill be advanced to third reading, passed; and, the motion to reconsider laid upon the table.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 3614), as amended, was passed.

Mr. SIMPSON. Mr. President, on behalf of Senator PRESSLER, I now send to a desk a title amendment, and ask unanimous consent that the amendment be agreed to.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The title was amended so as to read: "An act to secure United States leadership in land remote-sensing by providing data continuity for the Landsat program and by establishing a new national Landsat policy, and for other purposes."

MEASURE RETURNED TO THE CALENDAR—S. 2297

Mr. FORD. Mr. President, I ask unanimous consent that S. 2297 be returned to the calendar.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

PERSIAN GULF VETERANS HEALTH

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. 3346, relating to Persian Gulf veterans health introduced earlier today by Senators CRANSTON, SPECTER, KENNEDY, NUNN, SIMPSON, and others; that the bill be deemed read a third time, and passed; that the motion to reconsider be laid upon the table, any statements relative to the passage of this item appear at the appropriate place in the RECORD.

So the bill (S. 3346) was deemed read the third time, and passed, as follows:

S. 3346

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Persian Gulf War Veterans' Health Status Act".

SEC. 2. PERSIAN GULF WAR VETERANS HEALTH REGISTRY.

(a) ESTABLISHMENT OF REGISTRY.—The Secretary of Veterans Affairs shall establish and maintain a special record to be known as the "Persian Gulf War Veterans Health Registry" (in this section referred to as the "Registry").

(b) CONTENTS OF REGISTRY.—Except as provided in subsection (c), the Registry shall include the following information:

(1) A list containing the name of each individual who served as a member of the Armed Forces in the Persian Gulf theater of operations during the Persian Gulf War and who—

(A) applies for care or services from the Department of Veterans Affairs under chapter 17 of title 38, United States Code;

(B) files a claim for compensation under chapter 11 of such title on the basis of any disability which may be associated with such service;

(C) dies and is survived by a spouse, child, or parent who files a claim for dependency and indemnity compensation under chapter 13 of such title on the basis of such service;

(D) requests from the Department a health examination under section 3 of this Act; or

(E) receives from the Department of Defense a health examination similar to the health examination referred to in subparagraph (D) and requests inclusion in the Registry.

(2) Relevant medical data relating to the health status of, and other information that the Secretary considers relevant and appropriate with respect to, each individual described in paragraph (1) who—

(A) grants to the Secretary permission to include such information in the Registry; or

(B) at the time the individual is listed in the Registry, is deceased.

(c) INDIVIDUALS SUBMITTING CLAIMS OR MAKING REQUESTS BEFORE DATE OF ENACTMENT.—If in the case of an individual described in subsection (b)(1) the application, claim, or request referred to in such subsection was submitted, filed, or made, before the date of the enactment of this Act, the Secretary shall, to the extent feasible, include in the Registry such individual's name and the data and information, if any, described in subsection (b)(2) relating to the individual.

(d) DEPARTMENT OF DEFENSE INFORMATION.—The Secretary of Defense shall furnish to the Secretary of Veterans Affairs such information maintained by the Department of Defense as the Secretary of Veterans Affairs considers necessary to establish and maintain the Registry.

(e) RELATION TO DEPARTMENT OF DEFENSE REGISTRY.—The Secretary of Veterans Affairs, in consultation with the Secretary of Defense, shall ensure that information is collected and maintained in the Registry in a manner that permits effective and efficient cross-reference between the Registry and the registry established under section 734 of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Public Law 102-190; 105 Stat. 1411; 10 U.S.C. 1074 note), as amended by section 4 of this Act.

(f) ONGOING OUTREACH TO INDIVIDUALS LISTED IN REGISTRY.—The Secretary of Veterans Affairs shall, from time to time, notify individuals listed in the Registry of significant developments in research on the health consequences of military service in the Persian Gulf theater of operations during the Persian Gulf War.

SEC. 3. HEALTH EXAMINATIONS AND COUNSELING FOR VETERANS ELIGIBLE FOR INCLUSION IN CERTAIN HEALTH-RELATED REGISTRIES.

(a) IN GENERAL.—(1) The Secretary of Veterans Affairs—

(A) shall, upon the request of a veteran described in subsection (b)(1), provide the veteran with a health examination and consultation and counseling with respect to the results of the examination; and

(B) may, upon the request of a veteran described in subsection (b)(2), provide the veteran with such an examination and such consultation and counseling.

(2) The Secretary shall carry out appropriate outreach activities with respect to the provision of any health examinations and consultation and counseling services under paragraph (1).

(b) COVERED VETERANS.—(1) In accordance with subsection (a)(1)(A), the Secretary shall provide an examination, consultation, and counseling under that subsection to any veteran who is eligible for listing or inclusion in the Persian Gulf War Veterans Health Registry established by section 2 of this Act.

(2) In accordance with subsection (a)(1)(B), the Secretary may provide an examination, consultation, and counseling under that subsection to any veteran who is eligible for listing or inclusion in any other similar health-related registry administered by the Secretary.

SEC. 4. EXPANSION OF COVERAGE OF PERSIAN GULF REGISTRY.

Section 734 of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Public Law 102-190; 105 Stat. 1411; 10 U.S.C. 1074 note) is amended—

(1) by amending subsections (a) and (b) to read as follows:

"(a) ESTABLISHMENT OF REGISTRY.—The Secretary of Defense shall establish and maintain a special record (in this section referred to as the 'Registry') relating to the following members of the Armed Forces:

"(1) Members who, as determined by the Secretary, were exposed to the fumes of burning oil in the Operation Desert Storm theater of operations during the Persian Gulf conflict.

"(2) Any other members who served in the Operation Desert Storm theater of operations during the Persian Gulf conflict.

"(b) CONTENTS OF REGISTRY.—(1) The Registry shall include—

"(A) with respect to each class of members referred to in each of paragraphs (1) and (2) of subsection (a)—

"(i) a list containing each such member's name and other relevant identifying information with respect to the member; and

"(ii) to the extent that data are available and inclusion of the data is feasible, a description of the circumstances of the member's service during the Persian Gulf conflict, including the locations in the Operation Desert Storm theater of operations in which such service occurred and the atmospheric and other environmental circumstances in such locations at the time of such service; and

"(B) with respect to the members referred to in subsection (a)(1), a description of the circumstances of each exposure of each such member to the fumes of burning oil as described in such subsection (a)(1), including the length of time of the exposure.

"(2) The Secretary shall establish the Registry with the advice of an independent scientific organization.";

(2) in subsection (c)(1), by striking out "subsection (a)" and inserting in lieu thereof "subsection (a)(1)"; and

(3) in subsection (d), by inserting "pursuant to subsection (a)(1)" after "Registry".

SEC. 5. STUDY OF PERSIAN GULF REGISTRY AND PERSIAN GULF WAR VETERANS HEALTH REGISTRY.

(a) STUDY.—The Director of the Office of Technology Assessment shall, in a manner consistent with the provisions of the Technology Assessment Act of 1972 (2 U.S.C. 471 et seq.), assess—

(1) the potential utility of each of the Persian Gulf Registry and the Persian Gulf War Veterans Health Registry for scientific study and assessment of the intermediate and long-term health consequences of military service in the Persian Gulf theater of operations during the Persian Gulf War;

(2) the extent to which each registry meets the requirements of the provisions of law under which the registry is established;

(3) the extent to which data contained in each registry—

(A) are maintained in a manner that ensures permanent preservation and facilitates the effective, efficient retrieval of information that is potentially relevant to the scientific study of the intermediate and long-term health consequences of military service in the Persian Gulf theater of operations during the Persian Gulf War; and

(B) would be useful for scientific study regarding such health consequences;

(4) the adequacy of any plans to update each of the registries;

(5) the extent to which the Department of Defense or the Department of Veterans Affairs, as the case may be, is assembling and maintaining information on the Persian Gulf theater of operations (including information on troop locations and atmospheric and weather conditions) in a manner that facilitates the usefulness of, maintenance of, and retrieval of information from, the applicable registry; and

(6) the adequacy and compatibility of protocols for the health examinations and counseling provided under section 3 and health examinations provided by the Department of Defense to members of the Armed Forces for the purpose of assessing the health status of members of the Armed Forces who served in the Persian Gulf theater of operations during the Persian Gulf War.

(b) ACCESS TO INFORMATION.—The Secretary of Veterans Affairs and the Secretary of Defense shall provide the Director with access to such records and information under the jurisdiction of each such secretary as the Director determines necessary to permit the Director to carry out the study required under this section.

(c) REPORTS.—The Director shall—

(1) not later than 270 days after the date of the enactment of this Act, submit to Congress a report on the results of the assessment carried out under this section of the Persian Gulf Registry and health-examination protocols; and

(2) not later than 15 months after such date, submit to Congress a report on the results of the assessment carried out under this section of the Persian Gulf War Veterans Health Registry.

(d) DEFINITIONS.—For the purposes of this section—

(1) The term "Persian Gulf Registry" means the registry established under section 734 of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Public Law 102-190; 105 Stat. 1411; 10 U.S.C. 1074 note), as amended by section 4 of this Act.

(2) The term "Persian Gulf War Veterans Health Registry" means the Persian Gulf War Veterans Health Registry established under section 2 of this Act.

SEC. 6. AGREEMENT WITH NATIONAL ACADEMY OF SCIENCES FOR REVIEW OF HEALTH CONSEQUENCES OF SERVICE DURING THE PERSIAN GULF WAR.

(a) AGREEMENT.—(1) The Secretary of Veterans Affairs and Secretary of Defense jointly shall seek to enter into an agreement with the National Academy of Sciences for the Medical Follow-Up Agency (MFUA) of the Institute of Medicine of the Academy to review existing scientific, medical, and other information on the health consequences of military service in the Persian Gulf theater of operations during the Persian Gulf War.

(2) The agreement shall require MFUA to provide members of veterans organizations and members of the scientific community (including the Director of the Office of Technology Assessment) with the opportunity to comment on the method or methods MFUA proposes to use in conducting the review.

(3) The agreement shall permit MFUA, in conducting the review, to examine and evaluate medical records of individuals who are included in the registries referred to in section 5(d) for purposes MFUA considers appropriate, including the purpose of identifying illnesses of such individuals.

(4) The Secretary of Veterans Affairs and the Secretary of Defense shall seek to enter into the agreement under this section not later than 180 days after the date of the enactment of this Act.

(b) REPORT.—(1) The agreement under this section shall require the National Academy of Sciences to submit to the committees and secretaries referred to in paragraph (2) a report on the results of the review carried out under the agreement. Such report shall contain the following:

(A) An assessment of the effectiveness of actions taken by the Secretary of Veterans Affairs and the Secretary of Defense to collect and maintain information that is potentially useful for assessing the health consequences of the military service referred to in subsection (a).

(B) Recommendations on means of improving the collection and maintenance of such information.

(C) Recommendations on whether there is a sound scientific basis for an epidemiological study or studies on the health consequences of such service, and if the recommendation is that there is a sound scientific basis for such a study or studies, the nature of the study or studies.

(2) The committees and secretaries referred to in paragraph (1) are the following:

(A) The Committees on Veterans' Affairs of the Senate and House of Representatives.

(B) The Committees on Armed Services of the Senate and House of Representatives.

(C) The Secretary of Veterans Affairs.

(D) The Secretary of Defense.

(c) FUNDING.—(1) The Secretary of Veterans Affairs and the Secretary of Defense shall make available up to a total of $500,000 in fiscal year 1993, from funds available to the Department of Veterans Affairs and the Department of Defense in that fiscal year, to carry out the review. Any amounts provided by the two departments referred to in the previous sentence shall be paid in equal portions by the two departments.

(2) If the Secretary of Veterans Affairs and the Secretary of Defense enter into an agreement under subsection (a) with the National Academy of Sciences—

(A) the Secretary of Veterans Affairs shall make available $250,000 in each of fiscal years 1994 through 2003, from amounts available to the Department of Veterans Affairs in each such fiscal year, to the National Academy of Sciences for the general purpose of conducting epidemiological research with respect to military and veterans populations; and

(B) the Secretary of Defense shall make available $250,000 in each of fiscal years 1994 through 2003, from amounts available to the Department of Defense in each such fiscal year, to the National Academy of Sciences for the purposes of carrying the research referred to in subparagraph (A).

SEC. 7. COORDINATION OF GOVERNMENT ACTIVITIES ON HEALTH-RELATED RESEARCH ON THE PERSIAN GULF WAR.

(a) DESIGNATION OF COORDINATING ORGANIZATION.—The President shall designate, and may redesignate from time to time, the head of an appropriate department or agency of the Federal Government to coordinate all research activities undertaken or funded by the Executive Branch of the Federal Government on the health consequences of military service in the Persian Gulf theater of operations during the Persian Gulf War.

(b) REPORT.—Not later than March 1 of each year after 1992, the head of the department or agency designated under subsection (a) shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the status and results of all such research activities undertaken or by the Executive Branch of the Federal Government during the previous year.

SEC. 8. DEFINITION.

For the purposes of this Act, the term "Persian Gulf War" has the meaning given such term in section 101(33) of title 38, United States Code.

Mr. CRANSTON. Mr. President, as chairman of the Committee on Veterans' Affairs, I today introduced a bill, S. 3346, to address concerns raised about the health of the courageous men and women who served in our Armed Forces in Operations Desert Shield and Desert Storm. I am very pleased to be joined in introducing this measure by the committee's ranking Republican member, Mr. SPECTER; the Senator from Massachusetts [Mr. KENNEDY]; the chairman of the Armed Services Committee, Mr. NUNN; the chairman of the Armed Services Committee's Subcommittee on Manpower and Personnel, Mr. GLENN; Veterans' Affairs Committee members DECONCINI, GRAHAM, ROCKEFELLER, AKAKA, DASCHLE, SIMPSON, THURMOND, MURKOWSKI, JEFFORDS, and Senator KOHL.

SUMMARY OF PROVISIONS

Mr. President, the proposed Persian Gulf War Veterans' Health Status Act contains freestanding provisions and amendments to Public Law 102-190 that would:

PERSIAN GULF WAR VETERANS HEALTH REGISTRY

First, require the Secretary of Veterans Affairs to establish and maintain a Persian Gulf war veterans health registry listing the name of each individual who served in the Persian Gulf war theater of operations during the war and who, first, applies for Department of Veterans' Affairs [VA] care or services; second, files a claim for VA compensation based on any disability that might be associated with this service; third, dies and is survived by a spouse, child, or parent who files a claim for dependency and indemnity compensation [DIC] based on this service; fourth, requests a health examination from VA, as authorized in section 3 of the bill, or fifth, receives from the Department of Defense [DOD] a health examination similar to the health examination given by VA to veterans under section 3 of the bill and requests inclusion in the registry. (Section 2(b)(1).)

Second, require that the registry include relevant medical data relating to the health status of, and other information that the Secretary considers relevant and appropriate with respect to, each individual listed in the registry who either grants permission to include this type of information in the Registry or is deceased at the time the individual is listed in the Registry. (Section 2(b)(2).)

Third, require the Secretary to include in the registry, to the extent feasible, similar information about such individuals who served in the Persian Gulf that is developed in connection with similar actions occurring prior to enactment of this legislation. (Section 2(c).)

Fourth, require the Secretary of Defense to provide to the Secretary of Veterans' Affairs any information the Secretary of Veterans' Affairs considers necessary to establish and maintain the Registry. (Section 2(d).)

Fifth, require the Secretary of Veterans' Affairs, in consultation with the Secretary of Defense, to ensure that information in the registry is collected and maintained in a manner that permits effective and efficient cross-reference between the registry and the Department of Defense [DOD] Persian Gulf registry, established under section 734 of the National Defense Authorization Act for fiscal years 1992 and 1993, Public Law 102-190, as modified by the proposed legislation (Section 2(e).)

Sixth, require VA, from time to time, to notify individuals listed in the registry of significant research developments regarding the health consequences of military service in the Persian Gulf war. (Section 2(f).)

HEALTH EXAMINATIONS AND COUNSELING FOR VETERANS ELIGIBLE FOR INCLUSION IN CERTAIN HEALTH-RELATED REGISTRIES

Seventh, require VA to provide, upon the request of a veteran, a health examination and consultation and counseling concerning the results of the examination to any veteran eligible for listing or inclusion in the VA Persian Gulf war veterans health registry and authorize these services for any veteran eligible for listing or inclusion in any other health-related registry established by VA who requests the services. (Section 3(a) and (b).)

Eighth, require VA to carry out appropriate outreach activities to inform veterans of the availability of the health examinations. (Section 3(a)(2).)

EXPANSION OF COVERAGE OF PERSIAN GULF WAR REGISTRY

Tenth, expand the DOD registry—established under section 734 of Public Law 102-190 for listing members of the Armed Forces who were exposed to the fumes of burning oil in the Operation Desert Storm theater of operations during the Persian Gulf conflict—to include any other member of the Armed Forces who served in the Operation Desert Storm theater of operations during the Persian Gulf conflict. (Section 4(1), adding proposed section 734(a)(2).)

Eleventh, expand the contents of the DOD registry to include, in addition to the name of listed members, other relevant identifying information and, to the extent that data are available and inclusion of the data is feasible, a description of the circumstances of the member's service during the war, including the locations in the theater of operations in which the member's service occurred and the atmospheric and other environmental circumstances in those locations at the time. (Section 4(1), adding section 734(b)(1)(A).)

Twelfth, recodify the requirement in current law that the DOD registry include, with respect to the listed members exposed to the fumes of burning oil, a description of the circumstances of each exposure of each such member to the fumes, including the length of time of the exposure. (Section 4(1), adding section 734(b)(1)(B).)

Thirteenth, recodify the requirement in current law that the Secretary establish the DOD registry with the advice of an independent scientific organization. (Section 4(1), adding proposed section 734(b)(2).)

STUDY OF PERSIAN GULF REGISTRY AND PERSIAN GULF WAR VETERANS HEALTH REGISTRY

Fourteenth, require the Director of the Office of Technology Assessment [OTA] to assess—

First, the potential utility of each of the VA and DOD registries for scientific study of the health consequences of military service in the Persian Gulf theater of operations:

Second, the extent to which each of the registries meets the requirements of the respective laws establishing that registry:

Third, the extent to which data in each registry, first, are maintained in a manner that ensures permanent preservation and allows effective, efficient retrieval of information potentially relevant to scientific study of the health consequences of military service in the Persian Gulf, and second, would be useful for scientific study regarding these health consequences;

Fourth, the adequacy of any plans to update each of the registries;

Fifth, the extent to which VA and DOD are gathering and maintaining information on the Persian Gulf theater of operations, including troop locations and environmental conditions, in a manner that facilitates the usefulness, maintenance, and retrieval of information from the respective registry; and

Sixth, the adequacy and compatibility VA and DOD's protocols for health examinations provided for the purpose of determining the health status of any member of the Armed Forces or any reserve component thereof who served in the Persian Gulf war. (Section 5(a).)

Fifteenth, require VA and DOD to give OTA access to the records and information under each department's jurisdiction that OTA determines is necessary to permit OTA to carry out the assessments. (Section 5(b).)

Sixteenth, require OTA to report to Congress on the assessments regarding the DOD registry and the compatibility of health-examination protocols within 270 days after enactment of the legislation and regarding the VA registry within 15 months after enactment. (Section 5(c).)

AGREEMENT WITH NATIONAL ACADEMY OF SCIENCES FOR REVIEW OF HEALTH CONSEQUENCES OF SERVICE DURING THE PERSIAN GULF WAR

Seventeenth, require the Secretaries of Veterans' Affairs and of Defense, within 180 days after enactment, to seek to contract with the National Academy of Sciences [NAS] to have the NAS Medical Follow-up Agency [MFUA] review existing scientific, medical, and other information on the health consequences of in-theater service during the Persian Gulf war. (Section 6(a)(1) and (4).)

Eighteenth, provide that the agreement shall require MFUA to provide veterans organizations and the scientific community—including the Director of the Office of Technology Assessment—with an opportunity to comment on the method or methods that MFUA proposes to use to conduct the review. (Section 6(a)(2).)

Nineteenth, require that the agreement allow MFUA, in conducting the review, to examine and evaluate medical records of individuals included in the two registries for purposes MFUA considers appropriate, including the purpose of identifying illnesses of these individuals. (Section 65(a)(3).)

Twentieth, require MFUA to report the results of its review to the Senate and House Committees on Veterans' Affairs and on Armed Services and to the Secretaries of Veterans' Affairs and of Defense, including MFUA's, assessment of the effectiveness of actions by the two Secretaries to collect and maintain information potentially useful for assessing the health consequences of in-theater service; recommendations on how to improve collection and maintenance of this information; and recommendations on whether there is a sound scientific basis for an epidemiological study or studies of the health consequences of this service and, if so, the nature of any such study. (Section 6(b).)

Twenty-first, require the two Secretaries to make available, up to $500,000 in fiscal year 1993, from funds available to the two respective departments for that fiscal year, divided equally between the departments, to carry out the review. (Section 6(c)(1).)

Twenty-second, if VA and DOD contract with NAS for the MFUA study, require each department to provide $250,000 in each of fiscal years 1994 through 2003, from amounts available to each department in each of these fiscal years, to NAS for the general purpose of conducting epidemiological research with respect to military and veterans populations. (Section 6(c).)

COORDINATION OF GOVERNMENT ACTIVITIES ON HEALTH-RELATED RESEARCH ON THE PERSIAN GULF WAR

Twenty-third, required the President to designate the head of an appropriate Federal agency to coordinate all research activities undertaken or funded by the executive branch of the Federal Government on the health consequences of in-theater service during the Persian Gulf war. The coordinator would be required to report to the Committees on Veterans' Affairs by March 1 of each year after 1992 on the status and results of this research. (Section 7.)

Mr. President, since the need for this legislation is pressing and the time remaining in this Congress is very short, I am seeking unanimous consent for the Senate to proceed immediately to the bill and pass it. Following Senate passage of this measure, I will work with Members of the House of Representatives to seek prompt action on this legislation before adjournment so that it can be sent to the White House for signature this month.

Mr. President, my colleagues are well aware that some veterans and current active duty service members who served in the Persian Gulf war theater of operations are experiencing serious, unexplained health problems that some suspect are related to in-theater service before, during, or after the war. A small number also have experienced certain health problems that clearly are related to this service, such as leishmaniasis, which results from infection by a certain tropical parasite.

All of us have seen the press reports of what the articles refer to as mysterious illnesses in Persian Gulf veterans. Some of the 540,000 American troops who served in the Persian Gulf have reported lingering health problems, such as joint pain, chronic fatigue, hair loss, bleeding gums, and skin rashes. Some concern has focused on the effects of the burning oil from wells in Kuwait that were set afire by enemy troops. Scientists have not as yet, however, been able to establish a link between the undiagnosed symptoms and the oil fires. In fact, environmental scientists have advised our committee that the oil fires burned so hot that they emitted only soot and other particulate matter, with practically no detectable levels of volatile petrochemicals that might cause health problems.

Mr. President, military health authorities have reported that some of the symptoms could be related to the stresses of combat. Some have misinterpreted this as a denial of the observed medical problems. This is not the case. Our experience with posttraumatic stress disorder clearly shows that stress can create or aggravate real physical symptoms that require treatment. On this point, the Army physician in charge of the Office of Professional Services and Chief of Medical Corps Affairs of the Office of the Surgeon General, Brig. Gen. Ronald Blanck, readily acknowledges that "these people have a real disease."

Mr. President, Senators KOHL and DASCHLE and I coauthored an amendment to last year's defense authorization measure, Public Law 102–190, that established a Department of Defense registry of all service members who were exposed to the fumes of burning oil during service in the Persian Gulf. The registry is intended to preserve information about these troops that could prove vital in assessing the health impact of the oil fires.

The Senate adopted our amendment less than 6 months after Operation Desert Storm began. I believe that quick action in the Congress demonstrated how much we have learned from our experience with agent orange. One of the great difficulties in trying to resolve whether certain diseases are related to exposure to agent orange in Vietnam has been the effort to document who was exposed, using old and inadequate information about troop locations and other circumstances of veterans' service in Vietnam. Establishing a DOD registry was an attempt to compile and analyze this type of data about Persian Gulf veterans before the information is lost or hopelessly dispersed.

Mr. President, with the appearance of these newly recognized, unexplained medical problems in Persian Gulf veterans, it is clear that a DOD registry limited to servicemembers exposed to fumes, by itself, is not sufficient. The DOD registry must be expanded and we must require the Department of Veterans' Affairs to collect and preserve information about the health of these veterans.

Mr. President, I congratulate former Secretary of Veterans Affairs, Edward J. Derwinski and Deputy Secretary Anthony J. Principi, now the Acting Secretary, for VA's request for legislation to establish a VA health registry and authorize medical examinations for Persian Gulf veterans. Their leadership on this issue is an encouraging sign of how far our Government has come in recognizing its responsibilities to veterans exposed to environmental dangers during service. This is an especially welcome signal to those of us who have spent so many years seeking equitable compensation and medical treatment for veterans exposed to radiation or agent orange.

NEED FOR SCIENTIFIC APPROACH

Mr. President, while I applaud VA's proposal, I believe that it left out some important elements. Even VA was careful to point out that the registry it proposed, which would include a largely self-selected group of veterans, is not very useful scientifically. In announcing the proposed registry and health examinations, however, VA asserted that the registry and examinations would "reassure veterans that VA will keep ahead of the science and remain committed to long-term monitoring" of these veterans. The VA proposal itself, however, did not address the scientific issues involved in determining whether or not those who served in the Persian Gulf experience long-term adverse health consequences.

Mr. President, the legislation we are introducing today does address the need for valid, long-term scientific study of these reported medical problems—without reaching any conclusions at this time about specific conditions or mandating any particular studies. The best scientific advice available to us at this point indicates that such legislation would be premature.

Our legislation, in addition to creating a VA health registry and authorizing health examinations, would require VA and DOD to contract with the National Academy of Sciences' Medical Follow Up Agency [MFUA] to review the existing scientific, medical, and other information on the health consequences of military service in the Persian Gulf theater of operations. MFUA also would assess the effectiveness of VA's and DOD's efforts to collect and maintain information potentially useful for assessing these health consequences. Finally, MFUA would evaluate and recommend whether there is a scientific basis for VA and DOD to undertake an epidemiological study or studies, and, if so, what types of studies would be appropriate.

ADEQUACY OF VA AND DOD REGISTRY DATA

Mr. President, our bill also would direct the Office of Technology Assessment, an agency of the Congress, to evaluate the potential scientific usefulness of both the new VA registry and the existing DOD registry.

Mr. President, the DOD registry currently must include only those service members who were exposed to the fumes of burning oil during the war, as determined by the Secretary of Defense. Our bill would expand the DOD registry to include all others who served in the Persian Gulf war theater of operations. The expanded registry would be required to include information about the circumstances of the service of all service members who served in the Persian Gulf, such as troop-location data and atmospheric and environmental measurements for specific locations and times. I thank the distinguished chairman of the Armed Services Committee and cosponsor of this legislation, Mr. NUNN, for his leadership on the provisions expanding the DOD registry.

Mr. President, the VA registry in this legislation is modeled closely on the ionizing radiation registry created by the Veterans' Benefits Improvement and Health-Care Authorization Act of 1986, Public Law 99-576, which I coauthored in the Senate with the Senator from Wyoming [Mr. SIMPSON].

COORDINATION OF FEDERAL RESEARCH REGARDING HEALTH EFFECTS OF PERSIAN GULF SERVICE

Mr. President, a final part of the bill would require the President to designate a senior Government official to coordinate all research activities undertaken or funded by the executive branch on the health consequences of military service in the Persian Gulf. This provision is modeled on another law I coauthored, the Veterans Health Programs Extension and Improvement Act of 1979, Public Law 96-151, which required the President to ensure that agencies coordinate all Federal research on agent orange. The White House Domestic Policy Council currently has the responsibility for coordinating Federal research on agent orange, and I expect that an official at a similarly high-ranking level would be appointed to coordinate Federal research on Persian Gulf war health issues.

EXPEDITED CONSIDERATION

Mr. President, I am seeking expedited consideration of this measure for several reasons. One obvious reason is the extremely short time we have left in this Congress. There simply is not time to follow the regular legislative procedure for this bill and still have any chance of enacting it this year.

More important, however, is that every day we delay in setting in place the mechanism needed to address the health concerns of Persian Gulf veterans could result in the loss or dispersion of information that might prove essential for resolving existing health concerns—or concerns that might arise in the future—about service in the Persian Gulf. Each day, it may become more difficult to collect and authenticate necessary information. The positive actions taken by the Secretaries of Veterans' Affairs and Defense to date highlight the importance of taking immediate steps to preserve this information in usable forms; the additional actions this legislation would require will help to ensure that their is no undue delay of long-term scientific investigation of the health consequences of Persian Gulf service or any avoidable loss of data necessary for such inquiry.

Mr. President, this legislation has been developed in consultation with a wide range of interested and responsible parties, including various scientific experts; the Department of Veterans Affairs; the Department of Defense; Senator KENNEDY, who as chairman of the Committee on Labor and Human Resources, has vast experience regarding health research issues; the very able chairman of the Armed Services Committee, Senator NUNN; Senator KOHL, with whom I coauthored the provision creating DOD's Persian Gulf registry; the ranking majority member of our committee, Senator DECONCINI; Senator DASCHLE, a member of our committee with whom I coauthored the Agent Orange Act of 1991 and a coauthor of the provision creating the DOD registry; the ranking Republican member of our committee, Senator SPECTER; and the distinguished chairman and ranking minority Member of the House Committee on Veterans' Affairs, Mr. MONTGOMERY and Mr. STUMP.

Mr. President, this legislation has been through many drafts and I am pleased to report to the Senate that the bill I will introduce generally is acceptable to the leadership of the House Committee on Veterans' Affairs and that the House will act promptly on the bill.

Mr. President, this bill is an excellent demonstration of bipartisan cooperation. I believe it represents Government at its most responsive in the service of those who have given so much for the rest of us. I urge my colleagues to support the measure.

Mr. KENNEDY. Mr. President, as an original cosponsor of S. 3346, the proposed Persian Gulf War Veterans' Health Status Act, I congratulate my good friend, the chairman of the Committee on Veterans' Affairs, Senator CRANSTON for his excellent work on this legislation. I am extremely pleased that the Senate is considering this legislation that addresses the health concerns of Persian Gulf war veterans.

The bill we are considering today would authorize the Department of Veterans Affairs to provide a health examination, and counseling regarding the results of any exam, to any veteran who served in the Persian Gulf war theater of operations. The veterans' names would be placed on a VA registry of Persian Gulf war veterans along with data from their examinations if the veterans give permission.

Many Persian Gulf war veterans, even those with no present health problems, are concerned by media reports of mysterious illnesses among their colleagues. The health examinations that are provided in the bill will help to allay these concerns. Periodically, VA would be able to provide veterans listed on the registry with current information about the health consequences of military service in the Persian Gulf war.

The registry and health examinations that this legislation would authorize are very important to these veterans, and I want to be sure that Congress' intentions are clear.

As I understand it, under the proposal before us today, if the veteran seeking the exam has a current health problem, VA should make every reasonable effort to diagnose the condition. The diagnosis might require some necessary and reasonable medical tests. Nothing in the bill would prohibit VA from providing more than one health examination to veterans requesting additional examinations. Is my understanding on these points correct?

Mr. CRANSTON. Mr. President, the distinguished Senator from Massachusetts is correct.

The legislation we are considering today would authorize VA to provide health examinations to any veteran who served in the theater of operations of the Persian Gulf war. Nothing in the bill limits the number of examinations that VA may provide to a veteran. I expect that VA would provide as many additional examinations to eligible veterans as are necessary and reasonable. I have in mind particularly those cases in which the veteran has received an examination and later develops significant symptoms that are of concern to the veteran. Further, I intend that VA make necessary efforts to diagnose illnesses reported by a veteran, including conducting such diagnostic tests as are reasonable and appropriate in individual cases.

On this point, I note that VA has designated three medical centers as referral centers, where Persian Gulf war veterans with symptoms difficult to diagnose are being sent and observed by multidisciplinary teams of experts on environmental illnesses. The referral centers are at VA medical centers located in Washington, DC, Houston, TX, and Los Angeles, CA. I am pleased that VA appears to be committed to learning the cause or causes of these illnesses being reported by Persian Gulf war veterans.

Mr. KENNEDY. Mr. President, I thank my friend from California for his response.

I also note that the legislation will require VA and DOD to seek to contract with the National Academy of Sciences to have the medical followup agency conduct a review of scientific, medical, and other information on the health consequences of military service in the Persian Gulf war. The followup agency will also be required to assess the effectiveness of VA's and DOD's efforts to collect and maintain information potentially useful for assessing these conditions and to recommend whether VA and DOD should undertake epidemiological studies of Persian Gulf war veterans.

The legislation provides the followup agency with access to health records of individuals listed in the registry who have reported an illness. However, the legislation does not explicitly require that DOD and VA give the followup agency access to other information that might be necessary to conduct the review. As I understand it, Congress expects the followup agency to have full access to any data it considers necessary. VA and DOD must be totally forthcoming in sharing this information with the followup agency, and the followup agency must, as it has in the past, respect the confidential nature of this information.

Does the chairman of the Committee on Veterans' Affairs agree with my understanding on this point?

Mr. CRANSTON. Mr. President, the Senator from Massachusetts certainly is correct to expect that VA and DOD will provide MFUA with access to any data MFUA feels is necessary to complete a thorough review.

Since concerns first surfaced about possible health problems related to service in the Persian Gulf war, VA and DOD have been extremely forthcoming and cooperative. I believe the administration's actions to date indicate an appropriate attitude toward the health consequences of possible exposure to toxic environmental agents or other hazards during military service.

Mr. President, I thank my good friend, Senator KENNEDY, for his cooperation and assistance in developing this important legislation. Senator KENNEDY's work on this legislation, and other veterans issues, demonstrates his genuine concern for the welfare of our Nation's veterans.

Mr. KENNEDY. Mr. President, I thank the distinguished and able chairman of the Committee on Veterans' Affairs for his comments.

Mr. DASCHLE. Mr. President, I would like to take a moment to follow up on the discussions that have just taken place between the chairman of the Veterans' Affairs Committee and Senator KENNEDY in order to answer some additional questions that veterans and others may have about the bill.

The legislation before the Senate today is not complicated, and it is designed to establish by law the need for greater attention to and tracking of the health problems that may develop or have developed among Persian Gulf veterans. The legislation is intentionally broad, and I understand that this is necessary to allow us the flexibility to respond to a changing situation. However, because of the broad nature of the language and since we are moving this legislation without a committee report, I believe its very important to clarify some of the language, as Senator KENNEDY has done, now for the RECORD.

First, this legislation includes a requirement that the Secretary of Veterans Affairs provide veterans with health exams and counseling. Would the chairman of the Veterans' Affairs Committee agree that the words "health examination" would also include mental health exams? It is my concern that many veterans will suffer psychological stress as a result of their service, and I want to make certain that mental stress is recognized as a serious health problem for many veterans.

Mr. CRANSTON. Mr. President, I agree with Senator DASCHLE on that point. We chose the words "health examination" because they encompass the many different types of examinations that should be offered to veterans. It certainly is my intention that the examination be designed to look for signs of psychological stress and its effects and for mental disorders. Mental health definitely is integral to a person's overall health status.

Mr. DASCHLE. I thank the distinguished chairman.

Mr. President, I also wanted to clarify the amendment that section 4 of the bill would make in section 734(b)(1)(A)(ii) of Public Law 102-190. That amendment would expand the scope of the registry now being kept at the Department of Defense. If enacted, this provision would require the Secretary of Defense to include in the registry a description of the circumstances of the service member's service, including the location of such service and any atmospheric and other environmental circumstances in those locations, to the extent that information is available.

It is my understanding that the broad nature of this section would allow the Defense Department to include information in the registry that would track, for example, whether a service member was exposed to burning trash or possibly to viruses or parasites unique to the Persian Gulf region or part of it. In addition, for those service members who were given antichemical or biological weapons injections or drugs based on the probability that service in a given location put them at risk of being exposed to such weapons, this section would also provide for the tracking of individuals who were given such drugs and the identification of those drugs. Would the Senator from California agree?

Mr. CRANSTON. Mr. President, I agree and add that there are many other possibilities for inclusion in the DOD and the VA registries. We felt that an attempt to limit the registries to particular information would be a mistake at this point. We have had a relatively short amount of time during which to evaluate the factors in the gulf that could have caused some of the health problems veterans are now experiencing and, thus, felt that including broad language would be the best approach at this point.

Mr. DASCHLE. I thank the chairman for that clarification. It is very important that Persian Gulf war veterans understand that this is a first step in what will undoubtedly be a long process of determining just which diseases or health ailments may be linked to service and which are only coincidental. It is important to know that we will continue to work to see that veterans who are afflicted with service-related problems receive the help and compensation they deserve.

Mr. President, I am pleased to be an original cosponsor of this legislation. It is an extremely important measure for veterans of the Persian Gulf war and will prove to be a very important basis for future legislative action. The Persian Gulf War Veterans' Health Status Act is designed to protect those veterans who may have been exposed to hazardous environmental conditions during their service by tracking those veterans as a group and by coordinating Federal research and study on the health status of those veterans. It is my hope that this legislation will ensure that any abnormal levels of disease or health disorders will be easily identified in the upcoming months or years, so that the VA is able to provide treatment, compensation, and other services immediately to those veterans, rather than waiting years and years and asking veterans to prove that their conditions are service connected.

Mr. President, for 13 years I have worked with Vietnam veterans, veterans organizations, and other Members of the House and Senate to ensure that those Vietnam veterans who were exposed to and harmed by agent orange receive the compensation they deserve. Part of the reason this has taken so many years is the many difficulties that arose when we attempted to conduct studies utilizing the agent orange registry established for Vietnam veterans. Had this registry been established properly, immediately following the end of the war, and had it been evaluated and updated on a regular basis, compensation for Vietnam veterans would have come much sooner. It is essential that we avoid the mistakes of the past and ensure that these Persian Gulf registries are established in a way that will facilitate both meaningful scientific research and outreach efforts.

Although Congress has to learn the hard way about the long-term consequences of military service, we can say today that this body has, in fact, learned its lesson. Today we will approve this legislation which will, I hope, help us to evaluate in the future what health effects, if any, there are for veterans who served downwind from oil fires. It will help us to see whether the veterans who have complained of fatigue, hair loss, or other problems, are in fact suffering from service-connected illnesses.

It is important to understand that authors and cosponsors of this legislation would have preferred to have more time to evaluate the situation and recommend comprehensive health studies, including a longitudinal study, since there is sufficient indication that such studies will be necessary. However, we are still in the early stages of this process, and we felt it was important to put a registry in place and get the process moving, so that we may have the time to evaluate the situation without losing the progress that could be gained in the meantime. Passage of this legislation will enable us to compile a complete registry and evaluate the evidence now available on this issue.

Thus, Mr. President, I urge my colleagues to support the Persian Gulf War Veterans' Health Status Act, and I look forward to working with my colleagues who have cosponsored this measure to ensure that the remaining issues are addressed in the 103d Congress. There is much work still to be done for our Nation's veterans who served in the Persian Gulf, but I wanted to take this opportunity to congratulate the chairman for his continued leadership on this issue, and on all veterans' issues.

While many of us are saddened by the chairman's decision to retire, the legislation we will approve today is a fitting reminder of the lasting legacy he leaves behind. I have enjoyed working with him on this measure and on the many veterans bills he has brought before this Chamber. There are many veterans who could attest to the difference his work has made in their lives and in their families' lives, and I join my colleagues in the Senate who will miss his dedication to, and leadership on behalf of, our Nation's veterans.

Mr. KENNEDY. I am pleased to be a sponsor of the Persian Gulf War Veterans' Health Status Act. This important legislation addresses the health needs of the large number of men and women who served in the Persian Gulf during Operation Desert Storm.

In recent weeks, many of us have become increasingly concerned by the growing number of instances of unexplained illnesses affecting those who served in the gulf. According to some reports, over 300 gulf war veterans have reported a wide assortment of unexplained ailments. They deserve assurances from their Government that their conditions are being taken seriously and the cause is being investigated. Recent hearings in Boston and Washington have highlighted the concerns of veterans with this gulf war syndrome.

We must move quickly to reassure our veterans and active members of the Armed Forces that any possible health effects from their service will be fully evaluated, and that appropriate care will be provided. They deserve to know what they were exposed to in the gulf and if their service has caused them to become sick. They deserve straight and complete answers. Swift passage of this bill by the Senate today and similar action in the House will demonstrate that Congress is committed to finding these answers.

For now, the cause of these mysterious symptoms remains unknown, but hundreds of young men and women who served in the gulf are sick and in pain, and we must make every reasonable attempt to make sure that their health needs are met.

The legislation which Senator CRANSTON and I are proposing today is an important step in meeting our Nation's commitment. It gives the Veterans' Administration the authority it needs to provide health examinations for returning veterans.

This legislation authorizes free medical evaluations for returning veterans and service personnel, and establishes a registry to track their health status and provide followup treatment. The legislation also mandates an independent review by the National Academy of Sciences of the adequacy of the steps being taken by the Department of Defense and the Department of Veterans' Affairs to answer these current concerns. Another independent review by the National Academy of Sciences will make recommendations on whether epidemiologic studies should be conducted.

In addition, the legislation asks the Congressional Office of Technology Assessment to review information being collected on troop locations and exposure to various environmental conditions in the gulf.

These independent reviews will provide the credibility needed to assure veterans that their concerns are being pursued in an efficient and effective manner. The approach taken in this legislation will provide solid answers to the many questions that exist about their health.

I commend Senator CRANSTON for his leadership in developing this needed measure. All of us hope we have learned the painful lesson of agent orange, and that the Federal Government will act in time, this time, to deal responsibly with these troubling reports.

(At the request of Mr. DOLE, the following statement was ordered to be printed in the RECORD:)

• Mr. SPECTER. Mr. President, as ranking Republican member of the Committee on Veterans' Affairs, and as an original cosponsor, I am pleased to support passage of S. 3346.

Hundreds of thousands of our courageous men and women won a great victory for our Nation in the Persian Gulf. Some, unfortunately, have paid a high price for that victory. The injuries and diseases of those brave men and women have been an issue of major concern to me and I am determined to see that they receive proper care and the benefits that they deserve from a grateful Nation. I have been honored to work closely with the survivors of the infamous Scud attack on the 14th Quartermaster Detachment from Greensburg, PA.

Recently, questions have been raised about other delayed effects of service in the Persian Gulf. In the wake of the environmental disasters triggered by the enemy, unexplained illnesses in Persian Gulf veterans have raised concerns and fears not unlike those raised by Vietnam veterans, and by those exposed to radiation and environmental hazards. Mr. President, these concerns are felt not only by veterans, but also by the Congress and the administration. In his letter of July 14, 1992, former Secretary of Veterans Affairs Derwinski urged the Congress to provide medical examinations to these veterans, and to establish a health registry similar to those provided to Vietnam veterans concerned about agent orange.

This bill would provide the authority for VA to embark on the important mission of investigating the health problems of the service members who served in the Persian Gulf, and would also ensure that the information, both regarding health and environmental factors, will be preserved in VA and DOD to provide for later study. It may be some time before we discover the nature and extent of the problems suffered by our Persian Gulf veterans. I hope that these problems prove to be neither extensive nor severe. Nevertheless, just as we owed answers to the veterans of prior wars, we owe to our Persian Gulf veterans answers concerning the health effects of their service. This bill is a necessary step in that direction.

I urge my colleagues to support this important measure.•

EXECUTIVE SESSION

U.N. FRAMEWORK CONVENTION ON CLIMATE CHANGE

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider Executive Calendar No. 48, the U.N. Framework Convention on Climate Change. I further ask unanimous consent that the treaty be considered as having been advanced to the various parliamentary stages, up to and including the presentation of the resolution of ratification; that no amendments provisos, understandings, reservations be in order; that any statements appear as if read in the RECORD; that the Senate vote on the resolution of ratification without intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE GLOBAL CLIMATE CHANGE TREATY

Mr. CHAFEE. Mr. President, I rise in strong support of this historic treaty on global climate change and urge all of our colleagues to vote for it. On behalf of myself and many others, I want to thank and commend my colleague from Rhode Island, Senator PELL, the chairman of the Committee on Foreign Relations and the ranking member, Senator HELMS, for their diligence and prompt consideration of this matter.

This treaty represents a sound first step in response to the environmental threat of global climate change. This threat is frequently referred to as "the greenhouse effect".

Now, what is the greenhouse effect—is it really a serious environmental threat? Briefly, Mr. President, as a member of the Committee on Environment and Public Works and as the vice chair of the Senate delegation that went to the Rio Earth summit last June, I have spent more than 6 years examining this problem.

Is the problem real? The answer is yes. There is no doubt in my mind that the problem is real and we must act quickly to deal with the threat of massive, uncontrolled global climate change.

The skeptics like to point out that the greenhouse effect is natural and that, without a greenhouse effect—without an atmospheric thermal blanket consisting of carbon dioxide, methane and similar greenhouse gases—our planet could not support life as we know it. They also like to argue that there is no proof that pollution has already caused any climate change—that the current warming trend is within the range of natural variability. And they are right.

But the problem is not a greenhouse effect per se. It is the expected intensification of the greenhouse effect—an intensified effect caused by human pollution.

The problem is not a simple, gradual warming trend. It is the likelihood that there will be wild shifts in global climate patterns—changes in rainfall, more frequent hurricanes like the recently disastrous Hurricane Andrew, shifting ocean currents.

There is also the probability that these changes will not be gradual at all. Before we know it, we could reach the point of no return. Rather than experiencing a gradual change in climate, we may see a rapid, uncontrollable collapse of the climate system as we know it.

If we wait until all of the evidence is in and every last scientist is willing to say "yes, this is definitely a problem and we have hard evidence to prove it"—it will probably to too late to do anything about it. Each day of delay increases the cost and severity of the steps we will have to take to cope with this problem. This is not simply a matter of paying the piper now or later. If we do not pay now we may not be given the chance to pay later.

Mr. President, this treaty represents the classic case of the glass being half full or half empty. We have heard a great deal about the evil United States and the President's alleged efforts to weaken the treaty. In my view, those who complain about the final treaty are seizing defeat from the jaws of victory.

This treaty was not watered down by the United States. It was strengthened by the position of the United States. It was expanded to cover more greenhouse gases—at U.S. insistence it now covers methane as well as carbon dioxide. And it is now an action oriented document. Rather than relying on arbitrary, unenforceable targets and timetables, the United States insisted on inclusion of a provision that will force each nation to prepare concrete, specific action plans—plans that will lay out the steps each nation will take to reduce emissions of greenhouse gases.

This treaty is an historic document. It is the first time that the world's governments have jointly declared that the global environment is threatened by the greenhouse effect, that it is everyone's problem, and that we must act together to solve the problem. We no longer have to argue about the existence of the problem. That is now a given. The debate now is what do we do about it?

Those who complain about the lack of targets and timetables were pushing for a commitment to stabilize emissions at 1990 levels by the year 2000. That commitment is not included in the treaty but stabilization at 1990 levels by 2000 is the target—it is the standard that will be used to judge each nation's action plan. So, in effect, we do have a target and timetable.

Nevertheless, as I noted before, the treaty includes a formal recognition of the problem and, more importantly, it includes a goal that is much tougher than stabilization of emissions. Article 2 of the treaty states, in relevant part, that:

> The ultimate objective of this Convention * * * is to achieve * * * stabilization of greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system. Such a level should be achieved within a time frame sufficient to allow ecosystems to adapt naturally to climate change, to ensure that food production is not threatened and to enable economic development to proceed in a sustainable manner.

It is important for everyone here to understand that stabilization of atmospheric concentrations will require significant reductions in emissions—not the simple stabilization of emissions that has received so much attention. This is a major provision of the treaty and it gives me hope for the future.

Mr. President, I see this glass as being half full. In 1986, I called upon then-President Reagan and the leaders of numerous other countries to negotiate a global climate treaty. With the help of several Senate colleagues, I continued to press for a treaty. Now, here we are 6 years later and my hope has become a reality. We have made great strides in this area and I am pleased to rise in support of this treaty.

This is by no means the last we will hear about the threat of global climate change. More work needs to be done. Thankfully, plans are already underway for additional international cooperation and for the development of the action plans that are required by the treaty.

This is a good treaty, it is an important treaty, it should be approved by the Senate, and I commend the President for his leadership on this critical environmental matter.

FRAMEWORK CONVENTION ON CLIMATE CHANGE

Mr. McCONNELL. Mr. President, as the Senate takes up the Framework Convention on Climate Change, I want to make a few observations on this important treaty.

This document is viewed by all as the most far-reaching environmental agreement ever negotiated and concluded by 156 countries. I think it is important to once again point out that President Bush's commitment to cost effective policies to prevent climate change will preserve jobs as they protect our environment. The President was farsighted in his regard for real long-term prosperity and environmental protection. This convention prepares the Nations of the world to come up with a sober assessment of the climate change issue and calls for voluntary action plans to address the potential impacts of human activities.

I want to commend President Bush for his leadership at the U.N. Conference on Environment and Development [UNCED] in the face of outrageous criticism from those attempting to cloud our Nation's efforts to protect the environment. He braved a barrage of predictable rhetoric from the liberal media, the developing world, the developed world, and Congress.

Looking back at UNCED, there were several groups who delighted in bashing the administration, but whose true interests appear to be far from that of sustainable development.

Our European allies, appeasing their strong green lobbies back home, cynically cried alligator tears, with their pecuniary interests foremost in mind. Carbon dioxide targets and timetables would give these countries an enormous competitive advantage over the United States which relies on its natural endowment of coal. The representatives of Third World countries wanted more aid with fewer strings attached. The emotionally charged pleas of environmental groups trying to pump up their membership rolls make great direct mail, but poor environmental policy. And the politically driven diatribes of liberal politicians in the United States now appear to be their best bet at getting off the political endangered species list.

While most critics had agendas far removed from reasonable environmental protection, there were those critics with no hidden agendas: The apologists for U.S. policies who fail to recognize that no Nation has done more, or spent more, to protect the environment than the United States. A case in point was a news report that Fidel Castro received the largest round of applause of all the world leaders who spoke at the conference, while President Bush was only politely acknowledged. This reflects a world conference with a very warped view of our Nation's real, long-term commitment to the environment.

The President's firm stand against targets and timetables for greenhouse gases was not a fashionable position at UNCED. However, it was the only position supported by the facts. There is no conclusive evidence of significant long-term global warming. Our understanding of the Earth's climate is quite primitive and does not take into account the dynamic interaction of such factors as water vapor, sunspots, volcanic activity, variations in the Earth's orbit around the Sun, and the effect of oceans and ocean currents. While these forces have been at work for eons, some self-proclaimed environmental saviors can only cite the latest weather report, and prepare thirty second political ads.

According to a recent survey of the scientific community, 47 percent of scientists did not believe that current policies would lead to global warming. This is hardly a consensus on global climate change requiring us to limit economic growth for an amorphous fear that the sky is falling. Clearly, the potential for climate change is something that must be carefully watched. But based on our limited understanding of the atmosphere, we are not justified in pursuing drastic changes in our industrial policy.

I agree with many in the environmental community that measures must be taken to minimize the potential for climate change. But these measures should be the least cost alternatives in light of the many uncertainties. Many such alternatives have been incorporated into the President's national energy strategy.

The President led the way at UNCED by crafting a thoughtful, reasoned response in the face of shrill rhetoric. In the end, the President's initiative was adopted by the rest of the world. It requires Nations to submit action plans to monitor and limit greenhouse gas emissions. It provides for technology cooperation and commits funding.

The United States has pledged $50 million in contributions to the World Bank's global environmental facility to assist developing countries in reducing greenhouse emissions. President Bush has proposed over a billion dollars per year in funding for climate change research in fiscal year 1991 and 1992. And this year the President requested $1.37 billion.

Initially, I had reservations that the Framework Convention on Climate Change could be convoluted in a way that would devastate the U.S. economy and the economy of my State. I was concerned that it could be interpreted unilaterally by the executive branch to bind the United States to targets and timetables for greenhouse gas emissions. However, I am satisfied that we have clarified this issue in the Foreign Relations Committee.

In pressing for a unilateral interpretation to include targets and timetables, some draw a parallel to the experience we had with chlorofluorocarbons and the Montreal protocol: Once the United States signed the agreement, everyone else fell in line. However, there is no evidence, no experience, or no record to indicate that developing countries will be willing to similarly commit to meaningful and binding reductions in carbon dioxide emissions.

The negotiations leading up to the Rio summit demonstrated the reluctance of the developing world to join in a binding interpretation of this convention to limit carbon dioxide emissions without broad disclaimers that they not interfere with economic growth. The commitments of this convention simply to study and analyze greenhouse gas emissions are subject to overriding priorities of economic development. An interpretation by the executive branch that would recognize binding targets and timetables would not be reciprocated by the developing world, and would do little to reduce atmospheric carbon dioxide levels.

A unilateral commitment to targets and timetables would be a tragic mistake. It would have a negligible effect in mitigating the potential for climate change, leave unchecked the burgeoning emissions from developing countries, and constrain our own economic growth.

Because of these concerns, I felt compelled to discuss the possibility of a unilateral interpretation with the chairman of the Foreign Relations Committee who has given me his public assurances that if this treaty is amended or interpreted by the executive branch to commit the United States to stabilize greenhouse gas emissions, that it would be subject to ratification by the Senate. The Foreign Relations Committee has included language to this effect in the committee report accompanying this treaty to make the record on this point absolutely clear.

The executive branch is precluded from interpreting this convention as a binding commitment to targets and timetables unless ratified by the Senate. Interpreting the aim of this convention in binding terms would amount to a material change in the treaty requiring the Senate's advice and consent.

With the chairman's assurances, I am pleased to support this fine agreement. I congratulate President Bush on his courageous leadership on the issue of global climate change.

In this year of sloganeering and poll watching, it may be an irresistible urge to gloss over the facts, and smear prudent policies in favor of environmental extremism. I am heartened that the one-sided coverage of the UNCED conference did not undermine the level-headed policies advanced by President Bush, and adopted by the rest of the world in this important treaty.

Mr. LOTT. Mr. President I shall vote in favor of ratification by the Senate of the U.N. Framework Convention on Climate Change.

I believe that the approach to the issue of potential global climate change in the convention is responsible and realistic, considering the uncertainties of the science and the risk of tremendous adverse economic impacts from ill-advised policies. It is clear that the convention does not obligate the United States or any other country to achieve any particular target or timetable for limitation of greenhouse gas emissions. The convention's statement of objective does not detract in any way from the fact that the commitments section contains no such requirement. To me, that is the correct and responsible approach and is the result which President Bush and his administration wisely negotiated and achieved.

We have a responsible approach to limiting the growth of greenhouse gas emissions. The U.S. national action strategy, outlined in the environmental documentation furnished by the Department of State to the Committee on Foreign Relations, is a bold strategy that fully meets U.S. obligations concerning greenhouse gas emissions. It contains initiatives in the areas of energy efficiency, transportation, energy supply, agriculture and natural resources, and technology research and development. Its estimated effects are to reduce otherwise projected emissions by the equivalent of 125 to 200 million metric tons of carbon in the year 2000, a 7- to 11-percent reduction from anticipated emissions levels.

Those results would mean that U.S. net greenhouse gas emissions in the year 2000 would be only 1.4 to 6 percent above 1990 levels. Some may say that is not sufficient. I say that such a result would be remarkable, given that greenhouse gas emissions typically bear some relationship to economic growth, and we all desire economic recovery that enables our gross national product to be substantially higher—far more than just 1.4 to 6 percent higher—in the year 2000 than it was a decade earlier. Even a meager 2 percent average annual growth in GNP during the decade would mean that our economy would be 20 percent larger in 2000 than it was in 1990. That economic growth would be more than 3 to 14 times greater than the projected increase in greenhouse gas emissions under the U.S. national action strategy, a very impressive result.

Growth of GNP is only one of several factors affecting the level of greenhouse gas emissions. Others include population growth, the resource mix in the energy sector, the penetration of energy efficiency technologies, reforestation programs, and efforts to constrain methane emissions from landfills and natural gas pipelines. Those important variables are extremely difficult to predict with confidence.

The Climate Change Convention wisely takes all these factors into account. It rejects the artificiality of rigid emissions levels, which no nation could be assured of meeting by prescribed deadlines. This was articulated by Mr. Jean Ripert, the chairman of the Intergovernmental Negotiating Committee for a Framework Convention on Climate Change. On May 4, 1992, in response to a reporter's question as to why the draft of the convention he supported did not contain targets and timetables, he replied: "No government is in the position to guarantee levels of emissions."

Some have suggested that carbon taxes could achieve specified emissions levels. I disagree. Carbon taxes could not give us that assurance if for no other reason than that we cannot know with confidence what the price elasticities of different types of energy supply and demand would be at any particular tax level. Nor would carbon dioxide emissions caps on major sources of emissions give us the assurance. This is because, unlike the case of sulfur dioxide emissions, carbon dioxide, not to mention other greenhouse gases, comes from so many different sources—including millions of homes, automobiles, trucks, and small businesses.

The Department of Commerce engaged DRI/McGraw-Hill to conduct a study on the impacts of carbon taxes. That study forecast that carbon taxes necessary to keep carbon dioxide emissions in the year 2000 at 1988 levels would deprive American workers of more than 560,000 jobs and reduce our GNP by $92 billion from what we otherwise would expect.

A newer study by the same firm, "Potential U.S. Regional and State Impacts of International Carbon Taxes," shows electricity prices in the year 2000 up 53 percent in the Pacific Northwest over the base case; and up more than 65 percent in the east north central region of Illinois, Indiana, Michigan, Ohio, and Wisconsin. As for manufacturing employment in the year 2000, almost 12,000 lost jobs in Missouri compared to the base case, more than 15,000 jobs lost in Florida, and more than 21,000 lost jobs in Texas. Nationally, this new study forecasts over 800,000 nonfarm jobs lost by the year 2000 as a result of carbon taxes.

As the new DRI study points out, "because manufacturing accounts for a high share of my own State of Mississippi's economic activity, the effects of the carbon tax on the State's economy would be significant." Personal income in the year 2000 would drop by 3 percent from the base-case forecast for that year; employment in electrical machinery manufacturing would decline by 4.6 percent from the base-case forecast; nonelectrical machinery manufacturing would suffer an employment loss of 5.2 percent; and lumber and wood products manufacturing would face a 3.7-percent job loss. The people of Mississippi cannot stand such impacts.

Some say that taxation or regulatory schemes to limit carbon dioxide emissions would not hurt the economy. This is based on some pretty amazing economic assumptions. For example, the assumption that there is perfect and instantaneous movement of both labor and capital from one industry to another. If that were true, policies could cause tens or even hundreds of thousands of coal miners and steelworkers to lose their jobs, but they instantly—without substantial retraining—could be reemployed as computer operators or insurance agents; and the huge investments in idled manufacturing plants would be turned overnight into investments in activities not as severely hurt by the taxes or regulations, such as video stores. As Raymond J.

Kopp, senior fellow and director of the Quality of the Environment Division of Resources for the Future, an environmental group, noted this year, "while environmental programs may be desirable, they are not free."

Unless and until we can develop at least a general consensus among economists as to what the most probable results would be of Federal schemes to achieve specific levels of greenhouse gas emissions, my view is that we simply cannot gamble with the economic future of American workers and consumers. Not with information before us such as I have described.

The need for deliberateness has been underscored by the Intergovernmental Panel on Climate Change, whose findings and recommendations are quoted so often by others. In its formal report, it cautioned:

> The consideration of climate change response strategies presents formidable difficulties for policymakers. *The information available to make sound policy analyses is inadequate* because of (a) uncertainty with respect to how effective specific response options or groups of options would be in actually averting potential climate change; (b) uncertainty with respect to the costs, effects on economic growth, and other economic and social implications of specific options or groups of options. [Italic added].

We all should applaud those who understand how complex these issues are and who, therefore, negotiated a climate change convention that provides for flexibility, and rejects arbitrary rigidity, in light of the enormous economic, not to mention scientific, uncertainties that confront us.

I urge my colleagues to support ratification of this convention.

Mr. PELL. Mr. President, I am very pleased that the Senate is able to consider the U.N. Framework Convention on Climate Change, and I urge my colleagues to vote in favor of granting advice and consent to its ratification.

The Convention on Climate Change marks a significant advance in international efforts to address the threat of climate change caused by anthropogenic emissions of green house gases. However, it is only a first step, more is needed. In my view, the parties to the convention should begin now to negotiate a protocol to establish targets and timetables for reducing carbon dioxide emissions.

The administration has objected to the adoption of targets and timetables out of two principal concerns: First, that the uncertainty associated with projections of climate change precluded us from taking serious action; and second, that efforts to reduce greenhouse gas emissions will be extremely costly and harmful to the economy.

I disagree with both of these propositions, and will address each of them in turn. First, the issue of uncertainty. It is true that there is uncertainty about the timing, magnitude, and rate of climate change, and that this presents policymakers with difficult decisions, but uncertainty must not become an excuse for inaction. Indeed, Congress regularly makes decisions in the face of uncertainty. The budget resolution, for instance, depends heavily on uncertain projections of GNP growth.

In light of some of the misleading statements that have been made about our state of knowledge about climate change, I think is it useful to summarize the current best available scientific projections of climate change. At the fifth round of INC negotiations, the administration submitted a document entitled "U.S. Views on Global Climate Change" which presented a consensus view of scientists on climate change:

> While scientists cannot yet establish that a human-induced warming has already occurred, best estimates indicate that increased concentrations of greenhouse gases are likely to increase atmospheric and ocean temperatures and alter their associated circulation and weather patterns. However, the magnitude, timing and regional details of these changes cannot be predicted with much certainty. Climate models predict changes in the average temperature of the globe's atmosphere as consequence of a doubling of atmospheric concentrations of carbon dioxide are unlikely to lie out the range of 1.5° to 4.5°C (2.7° to 8.1°F), with a best estimate, based on model results taking into account the observed climate record of 2.5°C (4.5°F). Associated sea-level rise has been estimated to range between a few tens of centimeters and approximately 1 meter (less than 1 foot to approximately three feet). In addition, observed warming in recent years is of the same magnitude as that predicted by the models but also of the same magnitude as natural variability. Thus, the observed increase could be due predominately to natural variability or could be part of a larger warming offset by other human factors.

Another way to look at the issue is that the current rates of increase in greenhouse gas concentrations are faster than at any time in the past 10,000 years and will result in a doubling of preindustrial atmospheric CO_2 equivalent concentrations by the middle of the next century. The rate of increase in CO_2 emissions is 30 to 100 times faster than the natural rate of fluctuation indicated by the climate record, the rate of increase of CH_4 is roughly 400 times that of natural fluctuations.

In its report "Changing by Degrees: Steps to Reduce Greenhouse Gases," the Office of Technology Assessment stated:

> (W)e appear to be pushing the climate system beyond the limits of natural rates of change experienced by the Earth for hundreds of thousands and probably millions of years. The projected rate of climate change may outpace the ability of natural and human systems to adapt in some areas.

In my view, these facts suggest that we should begin now to examine limiting emissions of these greenhouse gases. My views are reinforced by the fact that, contrary to the claims of proponents of such measures, authoritative studies indicate that U.S. emissions of greenhouse gases could be stabilized at little or no cost or perhaps even a profit.

By the administration's own estimate, by adhering to existing measures, projected U.S. net emissions of greenhouse gases in the year 2000 will be 7 to 11 percent below emissions otherwise projected or 1 to 6 percent above 1990 levels. These projections depend in part upon GNP and population growth, the energy intensity of economy, and the rate of diffusion of energy efficiency technologies. These measures nearly stabilize emissions and are voluntary as well as profitable.

It is notable that in statements up to the release of this estimate, the administration had asserted that there were no programs beyond those in the national energy strategy, that could reduce greenhouse emissions without additional costs. The new estimate suggests that the original estimates were inadequate, and that indeed there may be even more opportunities in this area.

This view is reinforced by authoritative studies released by the National Academy of Sciences and the Office of Technology Assessment. In its study of climate change, the National Academy of Sciences concluded that:

> The United States could reduce its greenhouse gas emissions by between 10 and 40 percent of the 1990 level at very low cost. Some reductions may even be at a net savings if the proper policies are implemented.

In testimony before the committee, Dr. John Gibbons, the Director of the Office of Technology Assessment stated that the United States could return to its 1990 level of carbon dioxide emissions "at little or no net cost until 2005 if we start now."

Dr. Gibbons went on to note that:

> The longer we wait to make the commitment to stabilize or reduce greenhouse gases, the more difficult it becomes. The short term goal of emissions reductions becomes less attainable because more retrofits are required. The long term goal of concentration reductions fades into the more distant future because of a momentum similar to population momentum. We know that the delay between the time the gases are produced and the time when the climatic and ecological impacts are fully felt is considerable (many decades).

Early in this administration, then-Secretary of State Baker addressed the Intergovernmental Panel on Climate Change and articulated four principles to guide the international response to climate change.

They are: First, that we cannot afford to wait until all uncertainties have been resolved before we act; second, that while efforts to refine our knowledge are underway, we should focus immediately on prudent steps that are already justified on grounds other than climate change—this has come to be called the no regrets policy;

third, that actions taken to address global climate should be as specific and cost effective as possible; and fourth, that the solutions should reconcile the need for economic growth and environmental protection.

Unfortunately, the administration appears to have abandoned these principles. This despite strong evidence that controlling emissions of greenhouse gases will be essential in limiting the increase in atmospheric concentrations of greenhouse gases and thus in limiting climate change, and authoritative analysis which shows that such measures would not adversely affect the economy, and could in fact promote economic growth.

Indeed, as was noted at the committee's hearing, faithful implementation of the convention may be essential to future U.S. competitiveness in world markets. In his testimony, Dr. Gibbons noted that:

> (A)nalysis underway at OTA and in other organizations reveals potential negative repercussions for the U.S. economy if we fail to adhere to commitments and objectives such as those established in the Convention. If other countries, for instance Germany and/or Japan, elect to engage in a more rigorous pursuit of emissions reductions, more efficient products and industrial processes, and nonfossil energy sources, their industries and products may become more competitive than ours.

In light of the key role energy efficiency will place in future U.S. economic competitiveness, I had hoped the administration would have pursued an aggressive program to increase energy efficiency and to reduce our reliance on fossil fuels. Unfortunately, this is not the case. The administration is pursuing policies that reinforce the status quo, or may in fact actually be making matters worse.

For example, the national energy strategy will continue our Nation's unfortunate reliance on imported oil and in fact is likely to increase them in the future. Further, the NES fails to pursue aggressive energy conservations policies; OTA and National Academy of Sciences analyses identify two to three times the low-cost energy conservation that the NES does. Moreover, the NES will actually reduce the percentage of electricity generated in the United States from renewable energy sources.

Mr. President, all of this points to the fact that the administration has simply not responded adequately to one of the most serious environmental and foreign policy issues facing our Nation today. The convention we have before us is an essential first step, but it is only that. The Senate should advise and consent to its ratification and then push for the initiation of a new round of negotiations on a protocol that would limit anthropogenic greenhouse gas emissions.

Mr. BAUCUS. The Framework Convention on Climate Change before the Senate is a first step toward addressing this Nation's need to curb its greenhouse gas emissions as part of a global effort. We are playing roulette with the planet by not taking more aggressive action to curb greenhouse gas emissions.

The President claims it costs jobs to protect the environment. This is an old-fashioned way of thinking that is simply not supported by the facts. In today's highly competitive, computerized marketplace, pollution itself is a sign of inefficiency. This inefficiency costs jobs when our competitors eliminate this inefficiency.

Japan has set up the International Center for Environmental Technology Transfer. You can be sure they are most interested in transferring Japanese technology to developing countries. America should be in the forefront of such efforts. Thirty-five percent of our exports go to developing countries. An international environmental agreement on greenhouse gas emissions would only increase the demand for U.S. environmental goods and services.

But the President's turns his back on these types of jobs. He wants to give workers in the 1990's jobs of the 1950's. Only we aren't building Studebakers anymore, Mr. President. We are building electrostatic precipitators, computerized monitors for a wide variety of air pollution, and a host of other technologies.

We need to provide Americans jobs with a future. These are high-paying, skilled jobs; not just flipping burgers at minimum wage.

The President seems blind to the opportunities he is missing. He cannot lead us forward, he can only turn toward the past.

I attended the Earth Summit and I was astonished at how out of step the administration's negotiating team was from the rest of the industrialized world.

Other nations—and business in those nations—recognize this rare opportunity to gain market share in a bull market. Other nations understand we can have greater prosperity and better environmental protection.

I was deeply disappointed in the failure of American leadership at the Earth Summit. I support the climate change treaty before us today, but only as a minimal first step. There is more we must do.

We must prepare an action agenda, to which we are committed by the terms of the treaty. We must have public comment on the agenda so that it can be a document we can all support.

Parties to the convention should meet soon to decide on the next step. We can start this process at the next meeting of the Intergovernmental Negotiating Committee.

We run the risk of losing an enormous trade and economic opportunity if we remain imprisoned by past ideas.

The administration needs to change its outlook on the environment and see the opportunity that exists. Jobs are created when we improve our environmental performance. I hope we are not the last nation to recognize this truth.

Mr. MITCHELL. I am pleased that the Senate today is prepared to consider the Framework Convention on Climate Change. This convention does not take the action I believe is necessary to adequately protect this planet from the risks associated with climate change. The Bush administration prevented a meaningful convention from being signed at the Earth summit last June.

The Bush administration resists agreements for meaningful reductions in greenhouse gases because it says that controlling emissions will harm the economy. This is false reasoning on two counts.

First, controlling pollution can create jobs and enhance our economic health. In fact, pollution may be the most tangible sign of economic inefficiency. Reducing pollution can create jobs by increasing efficiency and creating products in demand elsewhere. A global effort to protect the environment would create demand for environmental goods and services. Japan and Germany are already consciously targeting this market. We need to seize the opportunity if we are to compete successfully in this growing international market.

Second, the administration claims a need to wait for more scientific certainty. There is no certainty on every aspect of climate change, but there is consensus that greenhouse gas emissions from industrialized societies are placing the globe at risk. This was the conclusion of the Intergovernmental Panel on Climate Change. Waiting for absolute certainty as to every aspect of this risk is a delay we cannot afford.

The administration seems to assume that more science will justify their delay. But experience teaches us otherwise. In the case of ozone depletion, another, major international air pollution issue, science, showed us that the situation was worse, not better, then science first anticipated. We need not wait for more science to adopt a prudent course of action and reduce our greenhouse gas emissions.

Despite my great concerns about the shortcomings of the convention before the Senate, I recommend we ratify this convention as a first, small step.

The treaty calls for an action agenda on climate change by January 1993. We need to move quickly to act on this agenda. The public must be involved and able to comment on development of such a plan, and justification for the various provisions of the plan should be made public.

There should be a meeting of the parties to the convention to review progress and we should begin to take action now to develop a protocol to the convention. That protocol should address the need to reduce greenhouse gas emissions, not merely count them. We have an opportunity to take the next step at the meeting of the Intergovernmental Negotiating Committee in December.

The IPCC must also continue its work. We need meaningful information, not a political analysis, about the science of climate change and what strategies can best counter the program.

It is within our power as a Nation to address this program. It only remains to see if the administration has the will to do so.

Mr. GORE. Mr. President, I rise today to urge my colleagues to join me in support of the Framework Convention on Climate Change that the president signed in June at the Earth summit in Rio de Janeiro. While I believe that this treaty falls far short of what is necessary effectively to address the serious threat of global climate change—and I think it is clear that the responsibility for the treaty's shortcomings rests squarely with President Bush—it is nevertheless an important step forward and a foundation upon which responsible policy can be built.

The process leading to the conclusion of the Climate Change Treaty was initiated—and driven—by the virtual unanimous opinion of the world scientific community that, by overloading the atmosphere with carbon dioxide and other greenhouse gases, we are risking disruptions in the climate system more severe than any in the past 10,000 years. More severe storm systems in some areas; intense bouts of drought in others; rising sea levels and flooding of coastal communities would be among the consequences. The imperative—to most of the world community—was clear; we need to take action now.

What became clear during the course of the discussions—again, to most of the world community—was that taking action to combat climate change is also an economic imperative. The fact is that cutting CO_2 emissions can most readily and effectively be achieved by improving efficiency in every sector of the economy. And improving efficiency means reducing waste; enhancing productivity and profits.

Apparently all of this was lost on President Bush. As we all are now all too well aware, the Bush administration was—throughout these negotiations—the single largest obstacle to progress. While our major industrialized trading partners and competitors called for decisive action to forestall this global threat, the United States alone refused. Germany, Japan, the United Kingdom—all of our G-7 partners—urged our President to join in a treaty with substance to its emissions limitations commitments. But we stonewalled the world and in the end, our intransigence meant that the final agreement is completely devoid of any legally binding commitments to action.

As I mentioned, we signed the convention at the Earth summit in Rio. The real meaning of the Earth summit was also lost on the President. This is a turning point in history. Leaders of nearly every nation on Earth gathered together in a profound awareness of the true nature and magnitude of the global environmental crisis we face.

Perhaps even more significantly, they realized that the alleviation of human suffering around the globe is inextricably intertwined with our efforts to relieve the building pressures on the environment. They understood that—to combat the poverty, suffering, and pain that afflicts so many in the world today—we have to pursue economic growth that is not destructive of the environment.

In addition, while clearly a milestone in terms of international diplomatic relations, the Earth summit was also a powerful coming together of concerned citizens from all parts of the world. They were parents who are concerned about the quality of life their children will enjoy; they were children who are determined to clean up the damage that has been done and move forward to a brighter future.

Citizens of the United States were there too, in strong numbers. Proud of the many positive steps we have taken in this country to clean our air and water, they wanted to demonstrate United States resolve to lead the world in confronting the larger, global challenges we now face.

They were disappointed. Together with a bipartisan delegation of Senators, I travelled to Rio hoping to amplify their voices. All of our voices were drowned out, however, by the firestone of protest against the United States. Rather than lead the world, President Bush had instructed our negotiators to block progress and drag the talks to a halt. This was nothing new, of course, it had been the President's tack throughout the negotiations. But the world community had had enough of his obstructionism and in Rio, the depth of their disdain and frustration became clear.

In response to the outcry, President Bush presses on the American public a false choice. He says that we can't take a lead on environmental issues if we want to have a strong economy. This just isn't so. The truth is that we won't be able to revitalize our economy unless we move aggressively forward—away from the polluting ways of the past and toward the cleaner more efficient means of production that are the way of the future.

Japan and Germany are sounding an economic wakeup call. Honda's new president, for example, made 99 speeches to his employees around the world on the imperative of environmentally sound production processes. Specifically with regard to increased fuel efficiency—a policy that President Bush has strongly opposed—he stated in an interview with Business Week that "If a car maker doesn't build more efficient cars, it can't survive."

Mr. Bush should know that taking action to protect the environment will also help our economy. Indeed, the reports of his own experts say just that. A recent report by the EPA, for example, concludes that effective policies to stem carbon dioxide emissions will increase economic growth.

The National Academy of Sciences, the Office of Technology Assessment, and other private analyses all point to the same conclusion: job creation; increased efficiency; enhanced productivity and competitiveness will come with progress in confronting global climate change.

The environmental and economic imperatives are therefore clear. It's time for us to move ahead.

While the climate change convention—at Mr. Bush's insistence—is a nonbinding and very weak document, it does lay an important foundation on which we can build.

We need to move quickly to ratify the convention and then to begin discussions with the conference of the parties to develop a protocol to the convention that would contain effective and binding commitments to action. We also should act quickly to develop a national dialogue on climate change and specifically, provide a forum for citizens groups, scientists, and industry to help craft and comment on our action strategy to stem greenhouse gas emissions.

The challenges that the threat of climate change poses are not too great for the world to meet—if there is strong U.S. commitment and leadership. I believe that our Nation can, and must, meet the challenge. Our industry is innovative and resourceful. In the past, as we have committed ourselves to achieving serious goals in solving environmental problems, our industries have risen to the occasion to meet—and not infrequently exceed—the mark. Our effort—and remarkable success—in phasing our ozone-destroying chemicals pursuant to the precise target and timetables laid out in the Montreal protocol is but one example of this. Let's ratify this convention and work with industry and with concerned citizens to regain the leadership position on the environment—and on the economy—that the United States has always proudly held.

Mr. SIMPSON. Mr. President, I trust that all of my colleagues will vote in favor of ratification of the U.N. Framework Convention on Climate Change, as I shall. The formal negotiations lasted almost 17 months and were difficult. Notwithstanding the many differences that existed among the parties before the final document was agreed upon, there was unanimous agreement, upon conclusion of the negotiations, as to what the convention meant in terms of the issue that had captured so much of the attention of the media and the public. President Bush deserves a great deal of credit for negotiating a realistic agreement.

Specifically, as we vote to ratify the convention, we do so with the confidence that all of the participants in the negotiation of the convention and many of the observers of that process understood and agreed that the wording of the convention was carefully chosen so as not to constitute or imply the commitment, binding or otherwise, of any country to a specific level of carbon dioxide or other greenhouse gas emissions at any time.

Instead, the convention provides for a flexible approach by which nations will develop action plans appropriate to the specific circumstances of the country. For example, industrialized nation's plans to limit greenhouse gas emissions may take into account important factors such as economic structures and resource bases, the need to maintain strong and sustainable economic growth, available technologies, and other individual circumstances. The U.S. national action strategy fully meets our Nation's obligations concerning greenhouse gas emissions.

Some of the participants were pleased with the conventions's approach to commitments to limit emissions, and others were not. But, the important point for the Senate, Mr. President, is that, regardless of their policy preferences, they had a common understanding of what the convention did and did not prescribe. I would like the record to reflect some examples of this unanimous understanding, which was contemporaneous with the final negotiation of the convention text and the agreement to its provisions by the Intergovernmental Negotiating Committee for a Framework Convention on Climate Change, [INC] the international negotiating body that had been established by resolution of the U.N. General Assembly.

Mr. Jean Ripert, chairman of the INC, spoke with reporters concerning his proposed text of commitments by the industrialized countries to limit greenhouse gas emissions, which text subsequently was agreed upon by all the participating nations. The May 4, 1992 issue of the Bureau of National Affairs' Environment Reporter reported: "Explaining why his draft did not contain targets and timetables, Ripert said 'No government is in the position to guarantee levels of emissions.'"

On May 8, 1992, once the parties had agreed to the provisions concerning commitments regarding limitations on greenhouse gas emissions by the industrialized countries, as set forth in article 4, paragraph 2 of the convention, Clayton Yeutter, who then was Counselor to the President for Domestic Policy and who was coordinating the administration's negotiating policies and position, wrote to Chairman JOHN DINGELL of the House Committee on Energy and Commerce.

With reference to convention article 4, paragraph 2(a), which refers to "recognizing that the return by the end of the present decade to earlier levels of anthropogenic emissions * * * would contribute to * * * modification" of long-term emissions trends, Mr. Yeutter's letter stated: "But there is nothing in any of the language which constitutes a commitment to a specific level of emissions at any time." With reference to convention article 4, paragraph 2(b), which refers to reports of nations about their policies and measures, "with the aim of returning" greenhouse gas emissions to their 1990 levels, Mr. Yeutter stated: "The word 'aim' was carefully chosen, and it does not constitute a commitment, binding or otherwise. Nor does this sentence prescribe or imply any kind of timetable."

The Department of State has furnished the Committee on Foreign Relations with a comprehensive document, entitled "Environmental Documentation: United Nations Framework Convention on Climate Change," dated September 1992. Among other things, that document was intended to "provide a description of the obligations parties will undertake on ratifying the Convention and upon its entry into force." Included in its description of the goals sought to be achieved by the convention is "specifically avoiding the imposition of uniform, rigidly specified requirements—in favor of a more flexible approach enabling countries to develop strategies that best meet their individual situations, needs and capabilities."

The many environmental groups who had been active in the negotiations from the beginning also understood this. Their joint, formal policy statement, delivered to the plenary session of the INC on May 4, state: "And yet in front of you is a text which not only does not commit the developed countries to reducing carbon dioxide emissions, it does not even guarantee stabilization * * *".

There are many other illustrations that the governments which negotiated the Climate Change Convention, as well as the environmental and business organizations participating in those negotiations, were in total agreement, at the time the convention was agreed upon, as to what its provisions were intended to mean. I have set these matters forth, as part of the record of Senate ratification, so that, as we vote, we, too, have a clear understanding of the meaning and intent of these important provisions of the convention.

I want to add that I am pleased the United States stood up to certain interest groups and foreign governments and did not go along with pressure to turn political rhetoric into legally binding commitments.

My point, Mr. President, is that accusing the United States of having frustrated a more far-reaching convention, as some nations advocated, presupposes that it makes more sense to listen to rhetoric than to look at real plans. As demonstrated by the U.S. national action strategy, our country has a real plan, not an illusory one, to deal with the issue of potential global climate change.

I am glad we saw through the posturing of others and that we effectively resisted them. My hope is that we will continue to do so in the interest of the American people.

Mr. CRAIG. Mr. President, I will be voting in favor of Senate ratification of the U.N. Framework Convention on Climate Change.

At the same time, I strongly disagree with those who argue that the convention did not go far enough and that the United States should have agreed to legally binding targets and timetables for limitations on U.S. emissions of carbon dioxide and other greenhouse gases. Those who make such criticisms, in my opinion, fail to reckon with facts concerning the issue of potential global climate change.

Interestingly, one of the most important of those facts has been acknowledged by the junior Senator from Tennessee, our colleague AL GORE. On April 7, 1992, during Senate debate on comprehensive energy legislation, as reported in the CONGRESSIONAL RECORD at page S4890, the Senator stated:

> If the United States not only stabilizes emissions but reduces greenhouse gas emissions by 50 percent, and if every other industrial country also reduces greenhouse emission by 50 percent, and the developing countries continue on their current path, then worldwide greenhouse gas emissions will, by the year 2030, increase by 250 percent.

Senator GORE'S observation was confirmed by the Department of State's Environmental Documentation, which it submitted to the Committee on Foreign Relations. Commenting on the thinking of the nations that negotiated the Climate Change Convention, it noted:

> [T]here was awareness that the 'savings' achieved by the industrialized countries—the only countries to which binding limits would apply—could be eclipsed by increased emissions of developing countries.

The industrialized countries now account for around half of global greenhouse gas emissions. However, the relative contribution of different countries is shifting. Emissions from the developing countries are increasing rapidly, as their populations grow and they seek improved standards of living through economic development. Once the countries of the former U.S.S.R.

and of Eastern Europe make the transition to market economies, their economies will grow, rather than shrink, as has been the case during the last few years. That means more emissions from those nations. As a consequence of the increased greenhouse gas emissions from these other countries, it is estimated that, by 2025, the net carbon dioxide emissions from developing nations and from those with economies in transition will constitute two-thirds of the world total, and, when all greenhouse gases are considered, the emissions from these other nations jumps to as much as three-quarters of the world total.

The correct point made by Senator GORE and by the State Department is that the projected growth of developing countries' greenhouse gas emissions will more than offset—indeed, will dwarf—any amount of greenhouse gas emissions that would be avoided by the United States and other industrialized countries if they and we had agreed in the Climate Change Convention, or in the future would agree, to so-called stabilization of such emissions at 1990 levels by the year 2000.

What we have to remember, Mr. President, is that proponents of limiting carbon dioxide emissions of the industrialized countries in 2000 to their 1990 levels simply cannot tell us how much unacceptable, potential global climate change, if any, would be avoided during the next century as a result of such policies. Moreover, even if there were some *de minimis* avoidance of climate change, as a result of what industrialized nations did, there is no credible scientific evidence that it would last more than a very few years at most, because of the huge, ongoing increases in emissions from the developing nations in particular.

We also have to consider the economic cost of such proposals. There are studies by eminent economists that policies necessary to stabilize U.S. carbon dioxide emissions at 1990 levels by the year 2000 could cost American workers hundreds of thousands of their jobs and cost the economy more than $90 billion of gross national product. Whether those predictions are better than those which forecast less drastic consequences ignores the crucial point, which is this: Now is not the time to gamble recklessly with our Nation's economic future, especially when, as on this issue, nobody can tell us how we or the world would benefit from that gamble.

Unless and until we have persuasive evidence that binding emissions targets and timetables for the United States and other industrialized countries will actually avert any material amount of global climate change, there is no justification for our taxpayers and consumers to be asked to endure the economic burdens.

The Climate Change Convention, as written, goes quite far enough from the standpoint of U.S. obligations. We should only ratify it and talk about increasing the burdens on our citizens, if ever, when we have sound scientific reasons for doing so.

Mr. BIDEN. Mr. President, I have supported efforts to put global warming on the U.S. agenda and to create national and international strategies for lessening the threat posed by accumulating greenhouse gases. So it is with mixed emotions that I support ratification of the U.N. Framework Treaty on Climate Change that is only a faint call to global action.

I am encouraged by the participation of nearly every country in the world in the arduous task of negotiating the global responsibilities of nations. The countries of the world, the United State included, have recognized the magnitude of the dangers of the current emissions trends. One of the positive elements of the treaty is a call for a coordinated global research effort to further document the climate changes that are underway and understand their effect on our global environment.

However, I am disappointed in the short-sightedness of the agreement. The convention creates no targets or timetables to stem the documented increases in carbon dioxide, methane, chlorine and other greenhouse gases. Due to the administration's efforts, the treaty mandates only good intentions.

The climate convention declares a goal of restoring emissions of greenhouse gases to 1990 levels by the year 2000. But, participating countries are not bound by this goal. Section 4 of the document, which contains the binding elements of the agreement, commits the countries to inventory their emissions and issue progress reports on reduction efforts to a conference of the parties. This is much closer to the pledge and review approach, which was widely criticized for its inadequacy to the task at hand, than it is to a global response to this threat.

The Rio treaty was intended to couple worldwide recognition with an international commitment to reduce the threat of global warming. An obligation merely to assess emissions and report on efforts to reduce them does not create the depth of commitment many of us had envisioned. In an effort to block any commitment by the United States, the administration's negotiators deprived everyone of assurance of mutual commitments.

In 1988, President Bush used the White House effect to battle the greenhouse effect. But, in my quarters, the United States' role in the treaty negotiations has been assessed as a failure. In one respect, though, the final treaty is a testament to United States' influence and leadership, to the "White House effect."

At the outset, the United States stood almost alone in opposing targets and timetables, but the administration triumphed over the wishes of more than 150 countries to have its way. The White House effect was shown to be a truly powerful influence in international environmental affairs, although in exactly the opposite manner that the President had promised. The true judges of the success or failure of these efforts will be future generations who will live with the administration's results.

We need to take steps now to avoid the worst effects of global climate change. Contrary to the administration's predictions, these steps do not involve drastic lifestyle changes or economic ruin. We can admit the dangers of our current wasteful ways and we can take steps to change them.

The framework convention is not what we need or what we hope for to address emissions of greenhouse gases. But it is a foundation we can build upon in the years ahead. Although some may be tempted to eject this treaty for falling far short of its goal, truly we will be better off with the convention than without it, providing that we do build upon it and not allow it to languish. That will be one of our challenges for the years ahead.

Mr. FORD. Mr. President, I ask for consideration of the resolution before the Senate by a division vote.

The ACTING PRESIDENT pro tempore. A division vote is requested.

All of those in favor of the resolution of ratification will please stand and be counted.

Those opposed please stand and be counted.

On a division, two-thirds of the Senators present and voting having voted in the affirmative, the resolution of ratification is agreed to, as follows:

Resolved (two-thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the United Nations Framework Convention on Climate Change, adopted May 9, 1992, by the Resumed Fifth Session of the Intergovernmental Negotiating Committee for a Framework Convention on Climate Change ("Convention"), and signed on behalf of the United States at the United Nations Conference on Environment and Development (UNCED) in Rio de Janeiro on June 12, 1992.

Mr. FORD. I ask unanimous consent that the motion to reconsider the vote be tabled, that the President be notified of the Senate's action, and that the Senate return to legislative session.

LEGISLATIVE SESSION

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senate will now return to legislative session.

AUTHORIZING CERTAIN ADDITIONAL USES OF THE LIBRARY OF CONGRESS SPECIAL FACILITIES CENTER

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 5575, a bill to authorize certain additional uses of the Library of Congress special facilities center just received from the House; that the bill be deemed read the third time, passed, the motion to reconsider be laid upon the table, any statements relating to this measure be placed in the RECORD at the appropriate place.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 5575) was deemed read the third time, and passed.

PRIVATE RELIEF FOR ANNA MASSARI

Mr. FORD. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from and that the Senate proceed to the immediate consideration of H.R. 5923, the private relief bill for an A.C. Massari; that the bill be deemed read the third time, passed, and that the motion to reconsider be laid upon the table.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 5923) was deemed read the third time, and passed.

ENHANCING THE FINANCIAL SAFETY OF THE BANKS ASSOCIATION FARM CREDIT SYSTEM—H.R. 6125

PROVIDING FOR USE OF ELECTRONIC COTTON WAREHOUSE RECEIPTS—H.R. 6128

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration, en bloc, of the following bills just received in the House: H.R. 6125, a bill to enhance the financial safety and soundness of the Banks Association Farm Credit System, and H.R. 6128, a bill to provide for the use of electronic cotton warehouse receipts; that the bills be deemed read the third time, passed, the motions to reconsider laid upon the table, en bloc, and that any statements relative to these measures be placed in the RECORD at the appropriate place.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bills (H.R. 6125 and H.R. 6128) were deemed read the third time, and passed.

Mr. LEAHY. Mr. President, this recession has created huge increases in the demand for emergency food relief. This year food stamp participation is at record levels.

In cities and rural areas alike, hunger has returned with a vengeance. America's first line of defense against hunger has become TEFAP—The Emergency Food Assistance Program—and related food shelf and food bank programs.

These programs provide bags of groceries to those in need. They are particularly important to those whose unemployment benefits have run out or for those who have not yet received their first food stamp coupon.

As the recession stretches on—with no end in sight—our nutrition programs are pushed beyond their means. With so many in need, there is not enough food to go around.

In Vermont, and in many Northeastern States, nutrition programs are overburdened, forcing programs to reduce benefits or to cut food distribution from once a month to once every other month.

The administration refuses to see the magnitude of the problem.

I asked the Secretary of Agriculture to reconsider his recent position not to provide additional funding for TEFAP. I informed him of the results of the survey that the Committee on Agriculture, Nutrition, and Forestry conducted. More than 10 States advised me that they needed double the amount of TEFAP commodities to handle demand. One State needed six times as much food as it was slated to receive.

Those running Vermont's TEFAP Program estimate they require at least twice their current allocation of commodities to meet demand.

To help alleviate some of the Nation's hunger, I pushed to make TEFAP a permanent program in the 1990 farm bill, authorizing funding at $220 million for the current fiscal year. I also pushed for $50 million to help States and local agencies with the costs of distributing commodities.

Unfortunately, the administration proposed substantially less funding—only $120 million. This is 45 percent less.

I felt then, as I do now, that the President's request of $120 million and $45 million for distribution costs was inadequate, particularly during this recession. Unfortunately our worst fears have come true.

In Vermont alone, unemployment figures show a 130-percent increase in the number of those unemployed since January 1989. Food stamp participation has climbed 40 percent in the same period.

The shortfall in commodities coupled with the dismal economy has forced TEFAP distributors in Vermont to make a very difficult decision. They have concluded that the funding only allows distributions every other month. Vermont has decided that it is simply not cost efficient in terms of storage, transportation, and volunteer availability to make the allocations more often.

To help counter this shortfall, I have added a provision to a bill concerning the Farm Credit System that will provide more funds for TEFAP without costing taxpayers anything.

The bill will increase the amount of food provided by TEFAP by about 25 percent for each State. That is the equivalent of 3 months' worth of food in Vermont for fiscal year 1993.

I will continue to work for even greater levels of funding for TEFAP in the future.

I wish to thank several Vermonters who have been very helpful regarding TEFAP. Avram Patt, director of State Office of Economic Opportunity of Vermont, and Mary Carlson, food and nutrition programs coordinator, deserve a great deal of credit. They have been instrumental in getting me the information that I needed to keep the TEFAP Program going in 1988, to make TEFAP a permanent program in 1990, and to expand TEFAP funding with this bill

Also, I appreciate the efforts of Sue Weilbrenner, Dot Dennis, and Vicki Leszko, who have done a marvelous job regarding Vermont commodity distribution programs. I am very proud of these, and other Vermonters, who have done such a great job in providing emergency food assistance to those in need. Vicki supervised the program up until last May.

I also have to mention the great job the Vermont community action agencies have done. All Vermonters owe them, and their dedicated staffs, a great deal of thanks.

I want to thank the dedicated volunteers that provide TEFAP, food shelf, food bank, and soup kitchen foods to needy families. Vermont volunteers, and volunteers in every other State, have dedicated their time and efforts in aiding low-income hungry families. The area Agencies on Aging have done a great job donating time and vehicles and in getting additional volunteers. Most of the Vermont volunteers are senior citizens.

At the national level, the American Commodity Distribution Association deserves a lot of credit. My staff distributed questionnaires at their annual conference in Harrisburg, PA, so that I could obtain additional information about the need for TEFAP assistance throughout the Nation.

I want to single out three members for their recent efforts: Valerie Buechner, Wisconsin Department of Health and Social Services; Michael Levenson, of Washington State; and Foylen Bryant, food distribution office for Florida.

Foylen has had to put in countless additional hours recently to provide emergency assistance to south Florida. I commend her efforts in this regard.

ACDA members have been extremely helpful in getting information to me regarding the need for TEFAP increases. I would also like to thank:

Barry Shutt, director, Bureau of Government Donated Food of Pennsylvania; John Naylor, Commodity Distribution Program of Arkansas; and Maria Balakshin, Division of Child Nutrition and Food Distribution for California.

Many others deserve credit for all they have done over the years.

AGRICULTURAL CREDIT, RURAL DEVELOPMENT, AND COMMODITY MARKETING IMPROVEMENTS ACT

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1709.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1709) entitled "An Act to amend the Farm Credit Act of 1971 to enhance the financial safety and soundness of the Farm Credit System, and for other purposes," do pass with the following amendments:

Strike out all after the enacting clause, and insert:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Agricultural Credit, Rural Development, and Commodity Marketing Improvements Act of 1992".

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—FARM CREDIT BANKS AND ASSOCIATIONS SAFETY AND SOUNDNESS ACT OF 1992

Sec. 1001. Short title.
Sec. 1002. References to the Farm Credit Act of 1971.

SUBTITLE A—FARM CREDIT SYSTEM INSURANCE CORPORATION

Sec. 1101. Statutory successor to Assistance Board agreements.

SUBTITLE B—REMOVAL OF HINDRANCE TO MERGERS

Sec. 1201. Sectional representation on boards of directors.

SUBTITLE C—CLARIFICATION OF OBLIGATION OF FARM CREDIT BANKS FOR REPAYMENT OF DEBT ISSUED BY FARM CREDIT SYSTEM ASSISTANCE CORPORATION

Sec. 1301. Capital preservation.
Sec. 1302. Preferred stock.
Sec. 1303. Systemwide repayment obligation.
Sec. 1304. Repayment of Treasury-paid interest.
Sec. 1305. Transfer of obligations from associations to banks, and other matters.
Sec. 1306. Defaults.
Sec. 1307. Authority of Financial Assistance Corporation.
Sec. 1308. Technical amendments.

SUBTITLE D—CLARIFICATION OF CERTAIN AUTHORITIES

Sec. 1401. Clarification of the status and powers of certain institutions of the Farm Credit System.

SUBTITLE E—DISCLOSURE REQUIREMENTS

Sec. 1501. Financial disclosure and conflict of interest reporting by directors, officers, and employees of Farm Credit System institutions.

TITLE II—AGRICULTURAL CREDIT IMPROVEMENT ACT OF 1992

Sec. 2001. Short title.

SUBTITLE A—AMENDMENTS TO THE CONSOLIDATED FARM AND RURAL DEVELOPMENT ACT

Sec. 2101. Beginning farmer and rancher program.
Sec. 2102. Processing of applications for farm operating loans.
Sec. 2103. Time period within which county committee is required to meet to consider applications for farm ownership and operating loans and guarantees and beginning farmer plans.
Sec. 2104. Debt service margin requirements; certified lender program.
Sec. 2105. Federal-State beginning farmer partnership.
Sec. 2106. Graduation of borrowers with operating loans or guarantees to private commercial credit.
Sec. 2107. Simplified application for guaranteed loans of $50,000 or less.
Sec. 2108. Targeting of loans to members of groups whose members have been subjected to gender prejudice.
Sec. 2109. Recordkeeping of loans by borrower's gender.
Sec. 2110. Increase in period during which county committee loan eligibility certification continues in effect.
Sec. 2111. Limitation on aggregate indebtedness.
Sec. 2112. Graduation of seasoned borrowers to the loan guarantee program.
Sec. 2113. Deadline for issuance of regulations.

SUBTITLE B—AMENDMENTS TO THE FARM CREDIT ACT OF 1971

Sec. 2201. Valuation of reserves of production credit associations.
Sec. 2202. Elimination of authority of Farm Credit System Insurance Corporation to appoint nonvoting member of Farm Credit System Funding Corporation Board.
Sec. 2203. Expansion of water and sewer lending authority of banks for cooperatives.
Sec. 2204. Equity voting for one director of each bank for cooperatives.
Sec. 2205. Per diem compensation of bank directors.
Sec. 2206. Frequency of examinations of system institutions.
Sec. 2207. Authority to examine system institutions.
Sec. 2208. Repeal of prohibition against guarantee of certain instruments of indebtedness.
Sec. 2209. Clarification of treatment of Farm Credit Administration operating expenses.
Sec. 2210. Approval of competitive charters.

SUBTITLE C—TECHNICAL CORRECTIONS

Sec. 2301. Technical corrections.

SUBTITLE D—EFFECTIVE DATE

Sec. 2401. Effective date.

TITLE III—RURAL ELECTRIFICATION ADMINISTRATION IMPROVEMENT ACT OF 1992

Sec. 3001. Short title.
Sec. 3002. Discounted loan prepayment.
Sec. 3003. Repeal of section 412.
Sec. 3004. Repeal of section 311.
Sec. 3005. Grants to enable providers of health care and educational services in rural areas to implement interactive telecommunications systems.
Sec. 3006. Increase in limitation on population of rural areas for purposes of telephone loans.
Sec. 3007. Sense of the Congress.
Sec. 3008. Regulations.

TITLE IV—PERISHABLE AGRICULTURAL COMMODITIES ACT TECHNICAL AMENDMENTS OF 1992

Sec. 4001. Short title.
Sec. 4002. Reaffirmation of findings.
Sec. 4003. Technical amendment.

TITLE V—EQUITABLE TREATMENT FOR SUGARCANE PRODUCERS

Sec. 5001. Equitable treatment for producers.
Sec. 5002. Adjustment after disaster.
Sec. 5003. Clarifying and conforming amendments.

TITLE VI—USE OF ELECTRONIC COTTON WAREHOUSE RECEIPTS

Sec. 6001. Use of electronic cotton warehouse receipts.

TITLE I—FARM CREDIT BANKS AND ASSOCIATIONS SAFETY AND SOUNDNESS ACT OF 1992

SEC. 1001. SHORT TITLE.

(a) SHORT TITLE.—This title may be cited as the "Farm Credit Banks and Associations Safety and Soundness Act of 1992".

SEC. 1002. REFERENCES TO THE FARM CREDIT ACT OF 1971.

Whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Farm Credit Act of 1971 (12 U.S.C. 2001 et seq.), except to the extent otherwise provided.

Subtitle A—Farm Credit System Insurance Corporation

SEC. 1101. STATUTORY SUCCESSOR TO ASSISTANCE BOARD AGREEMENTS.

(a) IN GENERAL.—Section 5.58(2) (12 U.S.C. 2277a-7(2)) is amended by adding at the end thereof the following: "The Corporation shall succeed to the rights of the Farm Credit System Assistance Board under agreements between the Farm Credit System Assistance Board and System institutions that certify such institutions as eligible to issue preferred stock pursuant to title VI on the termination of the Assistance Board on the date provided in section 6.12.".

(b) CONFORMING AMENDMENTS.—Section 5.35(4) (12 U.S.C. 2271(4)) is amended—

(1) by striking "and" at the end of subparagraph (A);

(2) by striking the period at the end of subparagraph (B) and inserting "; and"; and

(3) by adding at the end the following new subparagraph:

"(C) after December 31, 1992, mean any significant noncompliance by a System institution (as determined by the Farm Credit Administration, in consultation with the Farm Credit System Insurance Corporation) with any term or condition imposed on the institution by the Farm Credit System Assistance Board under section 6.6 or by the Farm Credit System Insurance Corporation under section 5.61.".

Subtitle B—Removal of Hindrance to Mergers

SEC. 1201. SECTIONAL REPRESENTATION ON BOARDS OF DIRECTORS.

Section 4.15 (12 U.S.C. 2203) is amended—

(1) by amending the section heading to read as follows:

"NOMINATION AND ELECTION OF BANK AND ASSOCIATION DIRECTORS.—";

(2) by inserting, before the text thereof, the following:

"(a) NOMINATION OF DIRECTORS.—"; and

(3) by adding at the end thereof the following new subsection:

"(b) SECTIONAL REPRESENTATION ON BANK AND ASSOCIATION BOARDS.—

"(1) IN GENERAL.—To ensure representation of geographical sections within the territory served by a bank or association of the Farm Credit System, each such bank (other than the National Bank for Cooperatives) or association may include in its bylaws governing the election of its board of directors provisions for the election of some or all of its members of the board to be elected by the stockholders:

"(A) at large;

"(B) from designated geographical sections of the territory served by the bank or association; or

"(C) as provided in both subparagraphs (A) and (B).

"(2) PROPORTIONALITY.—If members of the board of directors are elected by stockholders from designated geographical sections, the membership on the board elected from each section should reflect proportionately—

"(A) in the case of an association, the same number of stockholders; or

"(B) in the case of a bank, the same number of stockholder-borrowers of associations that accept, make, or otherwise provide loans in the designated sections of the bank's territory and that hold voting stock in the bank.

"(3) EXAMINATION OF SECTIONS.—The boundaries of the designated geographical sections shall be examined by the bank or association, as appropriate, at least once every three years and shall be readjusted, as necessary, to ensure such proportional representation of membership on the board.".

Subtitle C—Clarification of Obligation of Farm Credit Banks for Repayment of Debt Issued by Farm Credit System Assistance Corporation.

SEC. 1301. CAPITAL PRESERVATION.

Section 6.9(e)(3) (12 U.S.C. 2278a–9(e)(3)), is amended—

(1) by adding at the end of subparagraph (C) the following: "Any bank leaving the Farm Credit System pursuant to Section 7.10 of this Act shall be required, under regulations of the Farm Credit Administration, to pay to the Financial Assistance Corporation the estimated present value of such future payment had the bank remained in the System. With respect to any bank undergoing liquidation under this Act, a liability to the Financial Assistance Corporation in said amount (calculated as if the bank had left the System on the date it was placed in liquidation) shall be recognized as a claim in favor of the Financial Assistance Corporation against the estate of such bank. The obligations of other banks shall not be reduced in anticipation of any such recoveries from banks leaving the System or in liquidation, but the Financial Assistance Corporation shall apply such recoveries, when received, and all earnings thereon, to reduce the other banks' payment obligations, or, to the extent such recoveries are received after the other banks have met their entire payment obligation, shall refund such recoveries, when received, to the other banks in proportion to the other banks' payments.";

(2) by redesignating subparagraph (D) as subparagraph (E);

(3) by adding a new subparagraph (D) as follows:

"(D)(i) In order to provide for the orderly funding and discharge over time of the obligation of each System bank to the Financial Assistance Corporation under subparagraph (C), each System bank shall enter into or continue in effect an agreement with the Financial Assistance Corporation under which the bank will make annual annuity-type payments to the Financial Assistance Corporation, beginning no later than December 1991 (except for any bank that did not meet its interim capital requirement on December 31, 1990, in which case such bank shall begin making such payments no later than December 31, 1993) in amounts designed to accumulate, in total, including earnings thereon, to 90% of the bank's ultimate obligation, and the Financial Assistance Corporation will partially discharge the bank from its obligation under subparagraph (C) to the extent of each such payment and the earnings thereon as earned.

"(ii) Such agreement shall not require payments to be made to the extent that making a particular payment or part thereof would cause the bank to fail to satisfy applicable regulatory permanent capital requirements, but shall provide for recalculation of subsequent payments accordingly.

"(iii) The funds received by the Financial Assistance Corporation pursuant to such agreements shall be invested in eligible investments as defined in Section 6.25(a)(1) of this Act, and such funds and the earnings thereon shall be available only for the payment of the principal of the bonds issued by the Financial Assistance Corporation under this subsection."; and

(4) by adding before the period at the end of subparagraph (E), as redesignated by paragraph (2) of this section, the following: ", nor shall the obligation to make future annuity payments to the Financial Assistance Corporation under subparagraph (D) be considered a liability of any System bank".

SEC. 1302. PREFERRED STOCK.

Section 6.26(d)(1)(B) (12 U.S.C. 2278b–6(d)(1)(B)), is amended by adding at the end thereof the following: "Each year beginning in 1992, as soon as practicable following the end of the prior year, each such institution (except institutions in receivership) shall appropriate from its earnings in the prior year to an appropriated unallocated surplus account with respect to preferred stock, the sum of—

"(i) the greater of—

"(I) such amount as the institution may be required to appropriate under any assistance agreement it has with the Farm Credit System Assistance Board or the Farm Credit System Insurance Corporation; or

"(II) the amount that, if appropriated to such account in equal amounts in each year thereafter until the maturity of the obligation referred to in subparagraph (A), would cause the amount in such account to equal the par value of the preferred stock issued by such institution with respect to such obligation; plus

"(ii) any amount that had been appropriated to said account in a previous year but had thereafter been offset by losses;

"*Provided, However*, that an annual appropriation shall not be made to the extent that it would exceed the institution's net income (as determined pursuant to generally accepted accounting principles) in that year or to the extent that it would cause the institution's preferred stock to be impaired. The amount in such appropriated unallocated surplus account shall be unavailable to pay dividends or other allocations or distributions to shareholders or holders of participation certificates, and said account shall be senior to all other unallocated surplus accounts but junior to all preferred and common stock for purposes of the application of operating losses. Such appropriations of surplus by an institution shall not affect the treatment of its preferred stock (and of the appropriated unallocated surplus) as equity for purposes of regulatory permanent capital requirements."

SEC. 1303. SYSTEMWIDE REPAYMENT OBLIGATION.

Section 6.26(d)(1)(C) (12 U.S.C. 2278b–6(d)(1)(C)), is amended by adding at the end thereof the following: "The annual increase in the present value of the estimated obligation of each bank to the Financial Assistance Corporation hereunder shall be recorded each year as an expense item, in accordance with generally accepted accounting principles, on the books of the bank. A bank may (and, to the extent necessary to satisfy its obligations, shall) pass on (either directly, or indirectly through loan pricing or otherwise) all or part of such payment requirement to its affiliated direct lender associations based on proportionate average accruing retail loan volumes for the preceding 15 years, but the bank shall remain primarily liable for such amount. Any bank leaving the Farm Credit System pursuant to Section 7.10 of this Act shall be required, under regulations of the Farm Credit Administration, to pay to the Financial Assistance Corporation the estimated present value of such future payment had the bank remained in the System, and a liability to the Financial Assistance Corporation in said amount (calculated as if the bank had left the System on the date it was placed in liquidation) shall be recognized as a claim in favor of the Financial Assistance Corporation against the estate of any bank undergoing liquidation. The obligations of other banks shall not be reduced in anticipation of any such recoveries from banks leaving the System or in liquidation, but the Financial Assistance Corporation shall apply such recoveries, when received, and all earnings thereon, to reduce the other banks' payment obligations, or, to the extent such recoveries are received after the other banks have met their entire payment obligation, shall refund such recoveries, when received, to the other banks in proportion to the other banks' payments. Any association leaving the Farm Credit System pursuant to Section 7.10 of this Act shall be required, under regulations of the Farm Credit Administration, to pay to its supervising bank a share, based on the association's retail loan volume relative to the retail loan volume of the bank and its affiliated associations had the association remained in the System, of the present value of such future payment, and a liability to the bank in said amount (calculated as if the association had left the System on the date it was placed in liquidation) shall be recognized as a claim in favor of the bank against the estate of any association undergoing liquidation."

SEC. 1304. REPAYMENT OF TREASURY-PAID INTEREST

(a) CONFORMING AMENDMENT.—Section 6.26(c)(5) (12 U.S.C. 2278b–6(c)(5)), is amended to read as follows:

"(5) REPAYMENT OF TREASURY-PAID INTEREST.—

"(A) IN GENERAL.—On the maturity date of the last-maturing debt obligation issued under subsection (a) of this section, the Financial Assistance Corporation shall repay to the Secretary of the Treasury the total amount of any annual interest charges on such debt obligations that Farm Credit System institutions (other than the Financial Assistance Corporation) have not previously paid, and the Financial Assistance Corporation shall not be required to pay any additional interest charges on such payments.

(B) ASSESSMENT.—In order to provide for the orderly funding and discharge of the obligation of the Financial Assistance Corporation under subparagraph (A), each System bank shall enter into or continue in effect, and comply with, an agreement with the Financial Assistance Corporation under which the bank will make annual annuity-type payments to the Financial Assistance Corporation, beginning no later than December 31, 1992 (except for any bank that did not meet its interim capital requirement on December 31, 1990, in which case such bank shall begin making such payments no later than December 31, 1993) in amounts designed to accumulate, in total, including earnings thereon, to an amount equal to the bank's ultimate obligation, and the Financial Assistance Corporation will partially discharge the bank from its obligation under this subparagraph to the extent of each such payment and the earnings thereon as earned. Except in the last five years prior to the date the Financial Assistance Corporation is obligated to make such repayment, no annual payment may exceed .0006 times the bank's and its affiliated associations' average accruing retail loan volume for the preceding year.

"(C) INVESTMENT OF FUNDS.—The Financial Assistance Corporation shall invest funds derived from such investment in eligible investments as defined in section 6.25(a)(1) of this Act, and such funds and the earnings thereon shall be available only for the repayment to the Secretary of the Treasury provided for in subparagraph (A).

"(D) PASS THROUGH.—A bank may (and, to the extent necessary to satisfy its obligations, shall) pass on (either directly, or indirectly through loan pricing or otherwise) all or part of such assessments to its affiliated direct lender associations based on proportionate average accruing retail loan volumes for the preceding year, but the bank shall remain primarily liable for such amounts.

"(E) LIABILITY.—

"(i) BANKS TERMINATING SYSTEM STATUS OR IN LIQUIDATION.—Any bank terminating System status pursuant to Section 7.10 shall be required, under regulations of the Farm Credit Administration, to pay to the Financial Assistance Corporation the estimated present value of all future such assessments against the bank had the bank remained in the System, and a liability to the Financial Assistance Corporation in such amount (calculated as if the bank had left the System on the date it was placed in liquidation) shall be recognized as a claim in favor of the Financial Assistance Corporation against the estate of any bank undergoing liquidation.

"(ii) NO ANTICIPATORY REDUCTIONS IN OTHER OBLIGATIONS.—The obligations of other banks shall not be reduced in anticipation of any such recoveries from banks leaving the System or in liquidation.

"(iii) REFUND OF RECOVERIES.—The Financial Assistance Corporation shall apply such recoveries, when received, and all earnings thereon, to reduce the other banks' payment obligations, or, to the extent such recoveries are received after the other banks have met their entire payment obligation, shall refund such recoveries, when received, to the other banks in proportion to the other banks' payments.

"(F) ASSOCIATIONS TERMINATING SYSTEM STATUS OR IN LIQUIDATION.—Any association terminating System status pursuant to Section 7.10 of this Act shall be required, under regulations of the Farm Credit Administration, to pay to its supervising bank a share, based on the association's retail loan volume relative to the retail loan volume of the bank and its affiliated associations had the association remained in the System, of the estimated present value of all future such assessments against the bank, and a liability to the bank in said amount (calculated as if the association had left the System on the date it was placed in liquidation) shall be recognized as a claim in favor of the bank against the estate of any association undergoing liquidation.

"(G) CAPITAL REQUIREMENTS.—

"(i) IN GENERAL.—Until the date that is five years prior to the date on which the Financial Assistance Corporation is required to repay the Secretary of the Treasury pursuant to subparagraph (A), all assessments paid by banks to the Financial Assistance Corporation pursuant to subparagraph (B), and any part of the obligation to pay future assessments to the Financial Assistance Corporation under subparagraph (B) that is recognized as an expense on the books of any System bank or association, shall nonetheless be included in the capital of the bank or association for purposes of determining its compliance with regulatory capital requirements.

"(ii) DURING THE FINAL FIVE YEARS PRIOR TO REPAYMENT.—During the period beginning on the date that is—

"(I) five years prior to the date on which the Financial Assistance Corporation is required to repay the Secretary of the Treasury pursuant to subparagraph (A), sixty percent;

"(II) four years prior to the date on which the Financial Assistance Corporation is required to repay the Secretary of the Treasury pursuant to subparagraph (A), thirty percent; and

"(III) three years prior to the date on which the Financial Assistance Corporation is required to repay the Secretary of the Treasury pursuant to subparagraph (A), zero percent;

of all assessments paid by banks to the Financial Assistance Corporation pursuant to subparagraph (B), and of any part of the obligation to pay future assessments to the Financial Assistance Corporation under subparagraph (B) that is recognized as an expense on the books of any System bank or association, shall nonetheless be included in the capital of the bank or association for purposes of determining its compliance with regulatory capital requirements.".

(b) CONFORMING AMENDMENT.—Section 6.28 of the Farm Credit Act of 1971 (12 U.S.C. 2278b–8) is amended by striking subsection (b) and redesignating subsection (c) as subsection (b).

SEC. 1305. TRANSFER OF OBLIGATIONS FROM ASSOCIATIONS TO BANKS, AND OTHER MATTERS.

Section 6.26 (12 U.S.C. 2278b–6), is amended—

(1) in subsection (c)—

(A) by striking "INSTITUTIONS" in the heading of paragraph (2)(B) and inserting "BANKS";

(B) by striking the word "institutions" each time it appears in paragraphs (2)(B), (3) and (4) and inserting in lieu thereof the word "banks";

(C) by amending paragraph (2)(C) to read as follows:

"(C) ALLOCATION.—During each year of the second 5-year period, each System bank shall pay to the Financial Assistance Corporation a proportion, as calculated by the Financial Assistance Corporation, of the interest due from System banks under this paragraph equal to—

"(i) the amount of the average accruing retail loan volume of the bank and its affiliated associations for the preceding year; divided by

"(ii) the total average accruing retail loan volume of all such banks and their affiliated associations for the preceding year."; and

(D) by striking paragraph (2)(D);

(2) in subsection (d)—

(A) in paragraph (1)(C)—

(i) by striking the word "institution" the first time it appears and inserting in lieu thereof the word "bank";

(ii) by striking "under section 6.7(a)" and inserting in lieu thereof "or the Financial Assistance Corporation under sections 6.7(a) and 6.24, respectively,";

(iii) by adding after "proportion" the following ", as calculated by the Financial Assistance Corporation,";

(iv) by amending clauses (i) and (ii) to read as follows:

"(i) the average accruing retail loan volume of the bank and its affiliated associations for the preceding 15 years; divided by

"(ii) the average accruing retail loan volume of all such banks and their affiliated associations for the same period.";

(B) by striking paragraph (1)(D); and

(C) by redesignating paragraph (1)(E) as paragraph (1)(D); and

(3) by adding at the end thereof the following new subsections:

"(e) ADMINISTRATION.—

"(1) DEFINITION OF RETAIL LOAN VOLUME.—As used in this section, the term 'retail loan volume' means all loans (as defined in accordance with generally accepted accounting principles) by a System bank or association, excluding loans by such a bank or association to another System institution.

"(2) CALCULATION OF AVERAGE ANNUAL LOAN VOLUMES.—For purposes of this section and section 6.9, average annual loan volumes shall be calculated using month-end balances.

"(3) EXCLUSION OF BANKS UNDERGOING LIQUIDATION.—For purposes of this section and section 6.9, the term 'bank' shall not include a bank that had entered liquidation prior to the enactment of this subsection.".

SEC. 1306. DEFAULTS.

Section 6.26(d) (12 U.S.C. 2278b–6(d)), is amended—

(1) by amending the heading of paragraph (3)(A) to read as follows: "CERTAIN PRINCIPAL AND INTEREST OBLIGATIONS.—";

(2) in paragraph (3)(A)(i)—

(A) by striking "subsection (a)," and inserting the following: "subsection (a) of this section, on the payment of principal or interest due under subparagraphs (B) and (C) of section 6.9(e)(3), on the payment of principal due under paragraph (1)(C) of this section, or on the payment of an assessment due under subsection (c)(5)(B) of this section,";

(B) by striking "of the interest" in the two places it appears; and

(C) by striking "institution" wherever it appears, and inserting in lieu thereof "bank";

(3) in paragraph (3)(A)(ii)—

(A) by striking "of interest";

(B) by striking "institution" and inserting in lieu thereof "bank"; and

(C) by striking "such uncollected interest", and inserting in lieu thereof "any uncollected amount";

(4) in paragraph (3)(A)(iii), by striking "added" and all that follows through the period at the end and inserting "allocated to other System banks in accordance with the allocation mechanism applicable under this Act to the particular defaulted obligation.";

(5) by amending the heading of subparagraph (B) of paragraph (3) to read as follows: "PRINCIPAL OF BONDS ISSUED TO FUND PURCHASE OF PREFERRED STOCK.—";

(6) in paragraph (3)(C)—

(A) by striking "INSTITUTIONS" in the heading to paragraph (3)(C) and inserting "BANKS";

(B) by striking "institution" and inserting "bank";

(C) by striking "institutions" both places it appears and inserting "banks"; and

(D) by striking "the amount of any interest", and inserting in lieu thereof "any amounts";

(7) in paragraph (4)(A), by adding after "subsection (a)" "of this section or section 6.9(e)(3)(A)";

(8) in paragraph (4)(B)(i)—

(A) by amending the clause heading to read as follows: "CERTAIN PRINCIPAL AND INTEREST OBLIGATIONS.—";

(B) by striking "subsection (c)," and inserting "subsection (c) of this section, on the payment of principal or interest due under subparagraphs (B) and (C) of section 6.9(e)(3), on the payment of principal due under paragraph (1)(C) of this subsection, or on the payment of an assessment due under subsection (c)(5)(B) of this section,"; and

(C) by striking "institution" wherever it appears, and inserting in lieu thereof "bank"; and

(9) in paragraph (4)(B)(ii), by amending the clause heading to read as follows: "PRINCIPAL OF BONDS ISSUED TO FUND PURCHASE OF PREFERRED STOCK.—".

SEC. 1307. AUTHORITY OF FINANCIAL ASSISTANCE CORPORATION.

(a) PURPOSE.—Section 6.21 (12 U.S.C. 2278b–1) is amended by adding before the period at the end thereof: "and to assist, pursuant to section 6.9(e) and subsections (c) through (g) of section 6.26, in the repayment by System institutions of those who provided funds in connection with such program".

(b) Section 6.31(a) (12 U.S.C. 2278b–11(a)) is amended by adding striking "terminate on" and inserting the following: "terminate on the complete discharge by the Financial Assistance Corporation of its responsibilities under Section 6.9(e) and subsections (c) through (g) of section 6.26 with regard to repayments by System institutions, but in no event later than two years following".

SEC. 1308. TECHNICAL AMENDMENTS.

(a) TECHNICAL AMENDMENT TO THE FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT AMENDMENTS OF 1991.—Section 204(3) of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 (P.L. 102–237; 105 Stat. 1855) is amended by striking "in section 1221(1)(D) (16 U.S.C. 3821(1)(D))" and inserting "in section 1221(a)(1)(D) (16 U.S.C. 3821(a)(1)(D))".

(b) TECHNICAL AMENDMENTS TO THE FARM CREDIT ACT OF 1971.—

(1) Section 8.11(a)(1)(B)(ii) of the Farm Credit Act of 1971 (12 U.S.C. 2279aa–11(a)(1)(B)(ii)) is amended by striking "the date of enactment of this section" and inserting "December 13, 1991".

(2) Section 8.32 of such Act (12 U.S.C. 2279bb–1) is amended—

(A) in each of subsections (a), (b)(1)(D), and (b)(2), by striking "the date of the enactment of this section" each place such term appears and inserting "December 13, 1991"; and

(B) in subsection (b)(1)(E), by striking "the date of the enactment of such Act" and inserting "December 13, 1991".

(3) Section 8.3(c)(13) of the Farm Credit Act of 1971 (12 U.S.C. 2279aa–3(c)(13)) is amended by striking "8.11(g)" and inserting "8.11(e)".

Subtitle D—Clarification of Certain Authorities

SEC. 1401. CLARIFICATION OF THE STATUS AND POWERS OF CERTAIN INSTITUTIONS OF THE FARM CREDIT SYSTEM.

(a) CLARIFICATION OF AUTHORITY REGARDING REMAINING FEDERAL INTERMEDIATE CREDIT BANK.—Section 410 of the Agricultural Credit Act of 1987 (12 U.S.C. 2011 note) is amended by adding at the end the following new subsection:

"(e) CLARIFICATION OF AUTHORITY REGARDING REMAINING FEDERAL INTERMEDIATE CREDIT BANK.—

"(1) BORROWER VOTE.—Notwithstanding any other provision of law, within 30 days after the date of the enactment of this subsection, the Farm Credit Administration shall conduct and compile the results of a referendum of the farmer-borrowers of the production credit associations that are stockholders in the Federal Intermediate Credit Bank of Jackson to determine whether the merger required under this subsection shall be completed in accordance with the provisions of paragraph (2) or paragraph (3) of this subsection. The Farm Credit Administration shall make available to such farmer-borrowers such information as it determines is appropriate under the circumstances to reasonably inform the farmer-borrowers of the anticipated benefits and potential disadvantages of each of the two merger completion options. Each such farmer-borrower shall be entitled to one vote. The Farm Credit Administration shall establish record dates and other procedures for conducting the referendum. The Federal Intermediate Credit Bank of Jackson and the production credit associations shall cooperate in the conduct of the referendum, as determined necessary by the Farm Credit Administration.

"(2) ARBITRATED MERGER.—

"(A) APPROVAL BY BORROWERS.—If at least fifty percent of the farmer-borrowers voting in the referendum under paragraph (1) vote to complete the merger required under this subsection under the provisions of this paragraph, then a merger of the Federal Intermediate Credit Bank of Jackson into the Farm Credit Bank of Texas shall be completed in accordance with the provisions of this paragraph not later than 1 year after the date of the enactment of this subsection.

"(B) ARBITRATOR.—

"(i) IN GENERAL.—If at least fifty percent of the farmer-borrowers voting in the referendum under paragraph (1) vote to complete the merger required under this subsection under the provisions of this paragraph, then, not later than 60 days after the date of the enactment of this subsection, an arbitrator (or panel of arbitrators) shall be named by the American Arbitration Association in accordance with the Commercial Arbitration Rules of the American Arbitration Association toserve as the arbitrator referred to in this paragraph.

"(ii) DUTIES.—The arbitrator shall determine the terms and conditions of the merger required under this paragraph, such that the terms and conditions are fair and equitable to the two banks, their affiliated associations, the stockholders and borrowers of such associations, and the other institutions of the Farm Credit System, and are designed to protect or enhance the safety and soundness of the Farm Credit System. The arbitrator shall have the authority to hire staff and secure the services of consultants as necessary to discharge the duties of the arbitrator under this paragraph.

"(iii) EXPENSES.—Notwithstanding any other provision of law, the compensation and expenses of the arbitrator, the fees and expenses of the American Arbitration Association, and any expenses associated with the referendum required under subparagraph (C) shall be paid from the Farm Credit Assistance Fund established under section 6.25.

"(C) REFERENDUM ON ASSOCIATION STRUCTURE.—

"(i) IN GENERAL.—Within 120 days after the date of the enactment of this subsection, the American Arbitration Association shall conduct, and compile the results of, a vote of current farmer-borrowers of the production credit associations and the Federal land bank associations in the States of Alabama, Louisiana, and Mississippi in accordance with the Election Rules of the American Arbitration Association to determine whether the farmer-borrowers of each association prefer to have credit delivered—

"(I) in the case of production credit association farmer-borrowers, through a production credit association or through an agricultural credit association; and

"(II) in the case of Federal land bank association farmer-borrowers, through a Federal land bank association or through an agricultural credit association.

Each farmer-borrower shall be entitled to one vote. The arbitrator shall establish record dates and other procedures for conducting the referendum. The Federal Intermediate Credit Bank of Jackson and the production credit associations shall cooperate in the conduct of the referendum, as determined necessary by the Arbitrator.

"(ii) DISCLOSURE.—The arbitrator shall send to farmer-borrowers eligible to vote under this subparagraph, with their ballot, a statement describing the potential consequences to the farmer-borrowers, and to the associations from which they borrow, of the two alternatives presented in the ballots and setting forth factors that farmer-borrowers might consider relevant to the choice between the two alternatives. The arbitrator shall develop such disclosure materials in cooperation with the Farm Credit Administration and ensure that the materials are not inconsistent with applicable laws and regulations.

"(iii) TABULATION OF RESULTS.—The results of the vote under this subparagraph shall be compiled separately for production credit association farmer-borrowers and Federal land bank association farmer-borrowers in each of the following seven geographic areas:

"(I) The area served by the Federal Land Bank Association of South Mississippi.

"(II) The area served by the Federal Land Bank Association of North Mississippi.

"(II) The area served by the Federal Land Bank Association of North Mississippi.

"(III) The area served by the Federal Land Bank Association of South Alabama.

"(IV) The area served by the Federal Land Bank Association of North Alabama.

"(V) The area served by the Federal Land Bank Association of South Louisiana.

"(VI) The area served by both the Federal Land Bank Association of North Louisiana and the First South Production Credit Association.

"(VII) The area served by both the Federal Land Bank Association of North Louisiana and the Northwest Louisiana Production Credit Association.

"(iv) PUBLICATION OF RESULTS.—The results of the vote under this subparagraph, as tabulated by the American Arbitration Association, shall be made promptly available to the public in a manner determined appropriate by the Farm Credit Administration.

"(D) DEVELOPMENT OF MERGER PLANS.—

"(i) IN GENERAL.—Within 210 days after the date of the enactment of this subsection, the arbitrator shall develop a plan specifying the terms and conditions of the merger of the two banks (and any related association mergers) required under this paragraph, such that the terms and conditions are fair and equitable to the two banks, their affiliated associations, the stockholders or farmer-borrowers of such associations, and the other institutions of the Farm Credit System, and are designed to protect or enhance the safety and soundness of the Farm Credit System. In devising the plan the arbitrator shall, to the extent practicable, achieve the following objectives:

"(I) Implementation of the preference expressed by the majority vote of the farmer-borrowers voting under subparagraph (C) in accordance with subparagraph (D)(iv), and expressed by the affected and interested parties under clause (ii).

"(II) Valuation of assets fairly, equitably, and consistently for all parties involved.

"(III) Establishment of capitalization and funding terms in a manner that treats farmer-borrowers and stockholders in the two involved farm credit districts equitably and takes account of risk.

"(IV) Ensure the viability of the resulting Farm Credit Bank and associations of such bank and the ability of the resulting bank and associations of such bank to lend to eligible borrowers at reasonable and competitive rates of interest.

"(ii) SUBMISSION OF VIEWS AND INFORMATION.—The arbitrator shall receive from affected and interested parties written submissions, in accordance with fair and reasonable procedures established by the arbitrator, regarding the terms and conditions of an appropriate plan for the merger of the two banks (and any related association mergers) required under this paragraph. The Federal Intermediate Credit Bank of Jackson, the Farm Credit Bank of Texas, and their affiliated associations in the states of Alabama, Louisiana, and Mississippi, shall make available all books, records, financial information, and other material that the arbitrator determines is directly necessary to the development of the plan or the fulfillment of any other requirement under this paragraph. A copy of any submission or information provided to the arbitrator by any party under this paragraph shall be furnished to the Federal Intermediate Credit Bank of Jackson or the Farm Credit Bank of Texas upon the written request of such bank and at such bank's expense. The arbitrator shall provide both banks with a reasonable opportunity to review and respond to any submission or information provided by any party.

"(iii) CONTENT OF PLAN.—In accordance with the standards in clause (i) and giving due consideration to the views and information submitted or made available under clause (ii), the arbitrator shall develop and submit to the Farm Credit Administration for certification a merger plan that shall include provisions regarding the following matters:

"(I) The initial composition, following the merger, of the board of directors of the resulting Farm Credit Bank (which shall be subject to change thereafter in accordance with the provisions of the Farm Credit Act of 1971 and any applicable regulations).

"(II) The initial association structure following the merger, as required under clause (iv), in the States of Alabama, Louisiana, and Mississippi (which shall be subject to change thereafter in accordance with the provisions of the Farm Credit Act of 1971 and any applicable regulations).

"(III) The initial composition, following the merger, of the board of directors of any association whose chartered territory or lending authority is altered under the plan (which shall be subject to change thereafter in accordance with the provisions of the Farm Credit Act of 1971 and any applicable regulations).

"(IV) The valuation, for purposes of the merger, of the assets and liabilities of the merging banks and any merging associations. The arbitrator shall consult with the Farm Credit System Insurance Corporation regarding the valuation of such assets and liabilities in accordance with clause (v).

"(V) The terms and conditions upon which the shares of capital stock of the Federal Intermediate Credit Bank of Jackson, and of any associations that may merge under the plan, will be converted into shares of the Farm Credit Bank of Texas, and shares of the resulting associations, respectively.

"(VI) The capital structure and capitalization levels of the resulting Farm Credit Bank, the associations described in subclause (III), and such other associations in the States of Alabama, Louisiana, and Mississippi as the arbitrator determines necessary to carry out the purposes of this paragraph (which shall be subject to change thereafter in accordance with the provisions of the Farm Credit Act of 1971 and any applicable regulations).

"(VII) The terms of financing agreements between any production credit associations or associations described in subclause (III), and the resulting Farm Credit Bank (which shall be subject to change thereafter in accordance with the provisions of the Farm Credit Act of 1971 and any applicable regulations).

"(VIII) Any other terms and conditions or other matters that the arbitrator considers necessary.

"(iv) CONTENT OF PLAN; AGRICULTURAL CREDIT ASSOCIATIONS.—The plan shall—

"(I) in any of the geographic areas described in subparagraph (C)(iii) where a majority of the farmer-borrowers of both the production credit association and the Federal land bank association voted under subparagraph (C)(i) that they preferred to have credit delivered through an agricultural credit association, provide for the delivery of credit through an agricultural credit association in such territory; and

"(II) in any of the geographic areas described in subparagraph (C)(iii) where a majority of the farmer-borrowers of the production credit association or the Federal land bank association voted that they preferred to have credit delivered through a production credit association or a Federal land bank association, as appropriate, not provide for the delivery of credit through an agricultural credit association, or otherwise alter the existing association structure.

"(v) CONSULTATION WITH INSURANCE CORPORATION.—The arbitrator shall consult with the Farm Credit System Insurance Corporation regarding the valuation of the assets and liabilities under the plan of merger, the capitalization of the Farm Credit System institutions resulting under the plan, and any other matters relevant to the assistance to be provided by the Insurance Corporation under subparagraph (H).

"(E) CERTIFICATION OF PLAN.—Within 45 days after the receipt of the plan developed by the arbitrator, the Farm Credit Administration shall—

"(i) certify; or

"(ii) recommend to the arbitrator revisions to the plan that, if incorporated into the plan, will allow the Farm Credit Administration to certify,

that the resulting bank and associations are organized in such a fashion such that they will, upon implementation of the plan, operate in compliance with applicable laws and regulations. The arbitrator and the Farm Credit Administration shall work cooperatively to ensure the expeditious issuance of the certification. If the Farm Credit Administration recommends to the arbitrator revisions to the plan that, if incorporated into the plan, will allow the Farm Credit Administration to certify the plan, the arbitrator shall, within 15 days of receipt of such recommended revisions, incorporate such revisions into the plan as the arbitrator deems appropriate to secure such certification.

"(F) REVIEW.—Actions and determinations of the arbitrator or the Farm Credit Administration pursuant to this paragraph shall not be subject to judicial review, and the actions and determinations of the arbitrator shall not be subject to the requirements of the Administrative Procedures Act.

"(G) IMPLEMENTATION.—Within 90 days after the date of the receipt of the plan under subparagraph (E), the Farm Credit Administration shall issue such charters or charter amendments and take any such other regulatory actions as may be necessary to implement the merger or mergers as provided for under the certified plan.

"(H) Facilitation.—

"(i) Beginning on the date of the enactment of this subsection, the Farm Credit System Insurance Corporation shall expend amounts in the Farm Credit Insurance Fund to the extent necessary to facilitate the merger prescribed in the plan. Assistance shall be on such terms and conditions as the Farm Credit System Insurance Corporation deems appropriate.

"(ii) Until the expiration of five years from the effective date of a merger authorized by this subsection, or the final resolution of any litigation against the Federal Intermediate Credit Bank of Jackson or any of its stockholders pending on the date of the enactment of this subsection, whichever is later, the Insurance Corporation shall guarantee prompt payment of any loss experienced by the merged bank, which loss is caused by the failure of any association-stockholder of the merged bank that was a stockholder of the Federal Intermediate Credit Bank of Jackson immediately prior to such merger, or any successor to such association, to pay when due any obligation of principal or interest owed by such association or its successor to the resulting bank.

"(I) DEFINITIONS.—As used in this paragraph—

"(i) the term 'agricultural credit association' means an association having the same authorities, attributes and obligations as, and for all purposes an agricultural credit association resulting from the implementation of the plan under this paragraph shall be deemed to be, an association resulting from the merger of a production credit association and a Federal land bank association under section 7.8; and

"(ii) the term 'farmer-borrower' means a borrower from a Farm Credit System association or bank in the states of Alabama, Louisiana, or Mississippi who is an individual and who holds voting stock, or is eligible to hold voting stock, in such institution.

"(3) NEGOTIATED OR REGULATORY MERGER.—

"(A) APPROVAL BY BORROWERS.—If a majority of the farmer-borrowers voting in the referendum under paragraph (1) vote to complete the merger required under this subsection under the provisions of this paragraph, then a merger of the Federal Intermediate Credit Bank of Jackson shall be completed in accordance with the provisions of this paragraph not later than 1 year after the date of the enactment of this subsection.

"(B) MERGER AUTHORITY.—

"(i) EFFECTIVE DATES.—If a majority of the farmer-borrowers voting in the referendum under paragraph (1) vote to complete the merger required under this subsection in accordance with the provisions of this paragraph, then the provisions of clause (ii) shall take effect as if such clause had become law at the time the amendment referred to in such clause (ii) took effect, and shall remain in effect until 1 year after the date of enactment of this subsection.

"(ii) AUTHORITY.—Effective only as provided in clause (i), the Federal Intermediate Credit Bank of Jackson may operate subject to such provisions of part A of title II of the Farm Credit Act of 1971 (as in effect immediately before the amendment made by section 401 of the Agricultural Credit Act of 1987 took effect) and such provisions of the Farm Credit Act of 1971 (as in effect after the amendment), as the Farm Credit Administration may deem appropriate to carry out the purposes of this subsection and such Act.

"(C) REQUIREMENT.—Within 11 months after the date of enactment of this subsection, the Federal Intermediate Credit Bank of Jackson shall merge with a Farm Credit Bank pursuant to the procedures prescribed by section 7.12 of the Farm Credit Act of 1971.

"(D) EFFECT OF FAILURE TO MERGE.—If the Federal Intermediate Credit Bank of Jackson fails to comply with subparagraph (C), the Farm Credit Administration shall, within 30 days after the end of the 11 month period described in subparagraph (C), order the Federal Intermediate Credit Bank of Jackson to merge with a Farm Credit Bank which is willing to merge with the Federal Intermediate Credit Bank of Jackson pursuant to a plan of merger prescribed by the Farm Credit Administration, after consultation with the Farm Credit System Insurance Corporation with respect to the assistance to be provided by the Insurance Corporation under subparagraph (F). The order provided for in this paragraph shall specify the effective date of the merger, which shall be in the sole discretion of the Farm Credit Administration.

"(E) REVIEW.—Actions and determinations of the Farm Credit Administration pursuant to subparagraph (D) shall not be subject to judicial review.

"(F) FACILITATION.—

"(i) If a merger under this paragraph is ordered pursuant to subparagraph (D), then beginning on the date of such order the Farm Credit System Insurance Corporation shall expend amounts in the Farm Credit Insurance Fund to the extent necessary to facilitate the merger prescribed in the order.

"(ii) Until the expiration of five years from the effective date of the order under subparagraph (D), or the final resolution of any litigation against the Federal Intermediate Credit Bank of Jackson or any of its stockholders pending on the date of the enactment of this subsection, whichever is later, the Insurance Corporation shall guarantee prompt payment of any loss experienced by the merged bank, which loss is caused by the failure of any association-stockholder of the merged bank that was a stockholder of the Federal Intermediate Credit Bank of Jackson immediately prior to such merger, or any successor to such association, to pay when due any obligation of principal or interest owed by such association or its successor to the resulting bank.".

(b) LONG-TERM LENDING AUTHORITY OF THE FARM CREDIT BANK OF TEXAS WITH RESPECT TO THE STATES OF ALABAMA, LOUISIANA, AND MISSISSIPPI.—

(1) IN GENERAL.—Notwithstanding any other provision of law, the Farm Credit Bank of Texas may act in accordance with the exclusive charter of the bank, as amended by the Farm Credit Administration on February 7, 1989, and effective February 9, 1989 (except to the extent that such charter may be further amended by the Farm Credit Administration).

(2) EFFECTIVE DATE.—Paragraph (1) shall take effect as if such paragraph had become law on February 7, 1989.

(c) DENIAL OF COMPETITIVE CHARTERS.—Section 5.17(a)(2) of the Farm Credit Act of 1971 (12 U.S.C. 2252(a)(2)) is amended by adding at the end the following: "The Farm Credit Administration shall not issue a charter to, or approve an amendment to the charter of, any institution of the Farm Credit System to operate in the states of Alabama, Louisiana, or Mississippi under title I or II which would authorize the institution to exercise lending authority, whether directly or indirectly as an agent of a Farm Credit Bank, in a territory in which the charter of another such institution authorizes such other institution to exercise like authority, whether directly or indirectly as an agent of a Farm Credit Bank, except with the approval of—

(A) in a case affecting only the charter of an association—

((i) a majority of the shareholders (present and voting or voting by proxy) of each of the associations that would have like lending authority (whether directly or indirectly as an agent of a Farm Credit Bank) in any of that territory if such charter action were taken; and

(ii) the board of directors of the Farm Credit Bank with which the affected associations are affiliated; or

(B) in a case affecting the charter of a bank—

(i) a majority of the shareholders (present and voting or voting by proxy) of the affiliated associations of each of the banks that would have like lending authority in any of that territory if such charter action were taken; and

(ii) a majority of the shareholders (present and voting or voting by proxy) of each of the banks that would have like lending authority in any of that territory if such charter were taken."

Subtitle E—Disclosure Requirements

SEC. 1501. FINANCIAL DISCLOSURE AND CONFLICT OF INTEREST REPORTING BY DIRECTORS, OFFICERS, AND EMPLOYEES OF FARM CREDIT SYSTEM INSTITUTIONS.

(a) FINDINGS.—The Congress finds that—

(1) the disclosure of the compensation paid to, loans made to, and transactions made with a Farm Credit System institution by, directors and senior officers of such institution provides the stockholders of such institutions with information necessary to better manage such institutions, provides the Farm Credit Administration with information necessary to efficiently and effectively regulate such institutions, and enhances the financial integrity of the Farm Credit System by making such information available to potential investors;

(2) the reporting of potential conflicts of interest by directors, officers, and employees of institutions of the Farm Credit System benefits the stockholders of such institutions, helps to ensure the financial viability of such institutions, provides information valuable to the Farm Credit Administration in periodic examinations of such institutions, and therefor enhances the safety and soundness of the Farm Credit System; and

(3) the directors, officers, or employees of some Farm Credit System institutions may not be subject to the regulations of the Farm Credit Administration requiring the disclosure of such financial information and the reporting of such potential conflicts of interest.

(b) PURPOSE.—It is the purpose of this section to ensure that the information reported by the directors, officers, and employees of Farm Credit System institutions under regulations of the Farm Credit Administration requiring the disclosure of financial information and the reporting of potential conflicts of interest—

(1) provides the stockholders of all Farm Credit System institutions with information to assist such stockholders in making informed decisions regarding the operation of such institutions,

(2) provides investors and potential investors with information necessary to assist them in making investment decisions regarding Farm Credit System obligations or institutions; and

(3) provides the Farm Credit Administration with information necessary to allow the Farm Credit Administration to effectively and efficiently examine and regulate all Farm Credit System institutions and thus enhance the safety and soundness of the Farm Credit System.

(c) REVIEW.—Not later than 120 days after the date of enactment of this section, the Farm Credit Administration shall complete a review of the current regulations of the Farm Credit Administration regarding the disclosure of financial information and the reporting of potential conflicts of interest by the directors, officers, and employees of Farm Credit System institutions. Consistent with the purpose of this section as provided in subsection (b), such review shall address whether the regulations—

(1) are adequate to fulfill the purpose of this section and such other purposes as the Farm Credit Administration determines to be consistent with the Farm Credit Act of 1971, and other applicable law, and to be otherwise necessary or appropriate;

(2) currently require the disclosure of financial information and the reporting of potential conflicts of interest by the directors, officers, and employees of all Farm Credit System institutions; and

(3) currently require the disclosure or reporting of such information by all of the appropriate directors, officers, or employees of Farm Credit System institutions.

(d) IMPLEMENTATION.—Not later than 360 days after the date of enactment of this section, the Farm Credit Administration shall amend its current financial disclosure and conflict of interest regulations as it determines necessary to carry out the purpose of this section and to address any deficiencies in such regulations that the Farm Credit Administration determines necessary pursuant to the review conducted under subsection (c).

TITLE II—AGRICULTURAL CREDIT IMPROVEMENT ACT OF 1992

SEC. 2001. SHORT TITLE.

This title may be cited as the "Agricultural Credit Improvement Act of 1992".

Subtitle A—Amendments to the Consolidated Farm and Rural Development Act

SEC. 2101. BEGINNING FARMER AND RANCHER PROGRAM.

(a) Operating Loans; Guarantees of Operating Loans.—Subtitle B of the Consolidated Farm and Rural Development Act (7 U.S.C. 1941–1947) is amended by adding at the end the following:

"SEC. 318. ASSISTANCE TO BEGINNING FARMERS AND RANCHERS.

"(a) In General.—The Secretary shall provide assistance in accordance with this section to enable individuals to conduct viable farming or ranching operations. For purposes of this section, the term 'individual' means a natural person or an entity (other than a corporation) (1) all of whose owners or members are related by blood or marriage, and (2) none of whose owners or members has operated a farm or ranch for more than 5 years.

"(b) Submission of Plan of Farm Operation.—An individual may seek assistance under this section for a proposed or ongoing farming or ranching operation by submitting to the county committee of the county in which the operation is (or is to be) located, not later than 60 days before such assistance is to be first provided, a plan which—

"(1) describes, for each of the first 5 years for which assistance under this section is sought for the operation—

"(A) how the operation is to be conducted;

"(B) the types and amounts of commodities to be produced by the operation;

"(C) the production methods and practices to be employed by the operation;

"(D) the conservation measures to be taken in the operation;

"(E) the equipment needed to conduct the operation (including any expected replacements therefor) and, with respect to each item of needed equipment, whether the individual owns, leases, or otherwise has access to the item, or proposes to purchase, lease, or otherwise gain access to the item;

"(F) the expected income and expenses of the operation;

"(G) the expected credit needs of the operation, including the types and amounts of assistance to be sought under this section; and

"(H) the site or sites at which the operation is (or is to be) located; and

"(2) projects the financial status of the operation after assistance under this section has been provided for such period, not exceeding 10 years, as is necessary for the operation to become financially viable without further assistance from the Secretary.

"(c) Determinations by the County Committee; Approval of Plan.—The county committee shall approve a plan submitted by an individual in accordance with subsection (b) if the county committee determines that—

"(1) the individual has not operated a farm or ranch, or has operated a farm or ranch for not more than 5 years;

"(2) during the 5-year period ending with the submission of the plan, the individual has had sufficient education and experience to indicate that the individual is able to conduct a successful farming or ranching operation, as the case may be;

"(3) the individual owns, leases, or has a commitment to have leased to the individual the site or sites of the operation;

"(4) there is, or will be, available to the individual equipment sufficient to conduct the operation in accordance with the plan;

"(5) the individual agrees to participate in such loan assessment, borrower training, and financial management programs as the Secretary may require; and

"(6) the individual, or in the case of an entity, each owner or member of the entity meets the requirements of paragraphs (1) and (3) of section 311(a).

"(d) Determination by the Secretary; Approval of Application for Assistance.—The Secretary shall approve an application for assistance under this section for an operation described in a plan approved by a county committee under subsection (c) if the Secretary determines that—

"(1) the operation (taking into account the types of agricultural commodities produced, and the average size of similar operations, in the area in which the operation is, or is to be, located) would generate income sufficient to cover the expenses of the operation, debt service, and adequate family living expenses of the individual, to the extent that other income would not cover such living expenses, if the operation received assistance under this section as provided for in the plan; and

"(2) not later than 10 years after first receiving assistance under this section, the operation will be financially viable without further assistance from the Secretary.

"(e) Provision of Assistance.—

"(1) Determination of Commitment Period.—

"(A) Initial Determination.—Upon approval of an application under subsection (d), the Secretary shall, subject to subparagraph (C) of this paragraph, determine the period during which assistance under this section is to be provided for the operation described in the application (in this subsection referred to as the 'commitment period').

"(B) Authority to Extend Period; No Authority to Reduce Period.—At any time, the Secretary may, subject to subparagraph (C) of this paragraph and subsections (f) and (g), extend the duration of the commitment period. The Secretary may not reduce the duration of the commitment period.

"(C) Limitation.—The duration of any commitment period (including any extensions thereof) shall not exceed 10 years.

"(2) Operating Loans; Loan Guarantees.—

"(A) In General.—To the extent that an applicant whose application is approved under subsection (d) is unable to obtain sufficient credit from commercial or cooperative lenders to finance the operation described in the application at reasonable rates and terms (taking into consideration prevailing private and cooperative rates, and terms in the community in which the operation is, or is to be, located, for loans for similar purposes and periods of time), the Secretary shall, subject to the availability of funds therefor and subject to subsections (f) and (g), make a commitment to the applicant—

"(i) for each of the 1st, 2nd, 3rd, and 4th years of the commitment period—

"(I) to make a loan under this subtitle to the applicant at the interest rate charged to low income, limited resource borrowers under this subtitle, in the amount specified in the plan contained in the application; or

"(II) to provide to any commercial or cooperative lender who makes a loan to the applicant that is within the credit needs of the operation (as specified in the plan contained in the application)—

"(aa) a guarantee under section 309(h) for the repayment of 90 percent of the loan principal and interest; and

"(bb) if the Secretary determines that, despite the provision of the guarantee referred to in item (aa), the applicant will not qualify for such a loan, an interest subsidy payment sufficient to ensure that the effective rate of interest payable by the applicant on the loan equals the rate of interest charged to low income, limited resource borrowers on insured operating loans under this subtitle of comparable size and maturity;

"(ii) for each of the 5th, 6th, 7th, and 8th years of the commitment period—

"(I) to provide to any commercial or cooperative lender who makes a loan to the applicant that is within the credit needs of the operation (as specified in the plan contained in the application) a guarantee under section 309(h) for the repayment of 90 percent of the loan principal and interest; and

"(II) if the Secretary determines that, despite the provision of the guarantee referred to in subclause (I), the applicant will not qualify for such a loan, then—

"(aa) to offer the lender an interest subsidy payment in the amount necessary to ensure that the applicant qualifies for such a loan but not more than the amount necessary to ensure that the effective rate of interest on the loan equals the rate of interest charged to low income, limited resource borrowers on insured operating loans under this subtitle of comparable size and maturity; or

"(bb) if funds are not available for the interest subsidy payment described in item (aa), to provide to the applicant a loan under this subtitle that is comparable to one for which a person not receiving assistance under this section (but otherwise in the same situation as the applicant) would be eligible; and

"(iii) for each of the 9th and 10th years of the commitment period, to provide to any commercial or cooperative lender who makes a loan to the applicant that is within the credit needs of the operation (as specified in the plan contained in the application) a guarantee under section 309(h) for the repayment of not more than 90 percent of the loan principal and interest.

"(B) Special Rule.—In the case of an application approved under subsection (d) with respect to which the commitment period is less than 10 years, the Secretary shall make the commitments described in subparagraph (A) for such portions of the commitment period as the Secretary deems appropriate.

"(3) Loans or Guarantees for New or Improved Equipment.—The Secretary shall make a commitment to any applicant whose application is approved under subsection (d) of this section to provide the applicant with loans under this subtitle or loan guarantees under section 309(h) to finance the acquisition, improvement, or repair of equipment needed in the operation described in the application if the plan contained in the application provides for the commitment, to the extent that the applicant is unable to obtain sufficient credit from commercial or cooperative lenders for such purposes at reasonable rates and terms (taking into consideration prevailing private and cooperative rates, and terms in the community in which the operation is, or is to be, located, for loans for similar purposes and periods of time).

"(4) Priority in Purchase of Inventory Equipment; Loans or Guarantees for Such Purchases in Certain Cases.—During the commitment period, the Secretary shall—

"(A) accord the applicant whose application is approved under subsection (d) priority in the purchase of equipment in the inventory of the Farmers Home Administration necessary for the success of the operation described in the application; and

"(B) provide the applicant with loans under this subtitle or loan guarantees under section 309(h) to finance such purchases if the plan contained in the application provides for such assistance, to the extent that the applicant is unable to obtain sufficient credit from commercial or cooperative lenders for such purpose at reasonable rates and terms (taking into consideration prevailing private and cooperative rates, and terms in the community in which the operation is, or is to be, located, for loans for similar purposes and periods of time).

"(5) OTHER KINDS OF ASSISTANCE.—During the commitment period, the Farmers Home Administration, the Agricultural Extension Service, the Soil Conservation Service, and the other entities of the Department of Agriculture shall provide the applicant with such other assistance and information as may be needed in developing and implementing the operation described in the application.

"(6) NO LOAN GUARANTEE FEES.—The Secretary may not charge a fee to any lender in connection with any loan guarantee provided in accordance with this subsection.

"(f) ANNUAL PLAN REVISIONS REQUIRED AS CONDITION OF CONTINUED ASSISTANCE.—The Secretary shall not provide assistance under this section for an operation for any particular year after the first year for which such assistance is provided, unless—

"(1) not later than 60 days before such assistance is to be first provided for the particular year, the applicant has revised the plan describing the operation, based on the experience of the year preceding the particular year, to provide the information required by subsection (b) for the 5-year period beginning with the particular year (or, if shorter, the period beginning with the particular year and ending with the year in which the plan projects the operation as becoming financially viable); and

"(2) the county committee has approved the revised plan.

"(g) EFFECTS OF AVOIDABLE FAILURE TO ACHIEVE GOALS.—

"(1) TERMINATION OF COMMITMENTS.—The Secretary shall revoke any commitment for assistance made to an applicant under this section if the applicant's operation fails, for 2 consecutive years, to meet the goals specified in the plan, unless the failure is due to circumstances beyond the control of the applicant and has not materially reduced the likelihood of the operation becoming financially viable.

"(2) SUSPENSION OF ELIGIBILITY FOR ASSISTANCE.—During the 3-year period that begins with the date the commitments made to an applicant are revoked under paragraph (1), the applicant shall not be eligible for assistance under this section.".

(b) DOWN PAYMENT LOAN PROGRAM.—Subtitle A of such Act (7 U.S.C. 1922–1934) is amended by adding at the end the following:

"SEC. 310E. DOWN PAYMENT LOAN PROGRAM.

"(a) IN GENERAL.—Notwithstanding any other section of this subtitle, the Secretary shall establish within the farm ownership loan program under this subtitle a program under which loans are made under this section to eligible beginning farmers and ranchers for down payments on farm ownership loans.

"(b) LOAN TERMS.—

"(1) PRINCIPAL.—Each loan made under this section shall be of an amount equal to 30 percent of the price of the farm or ranch to be acquired, unless the borrower requests a lesser amount.

"(2) INTEREST RATE.—The interest rate on any loan made under this section shall not exceed the minimum interest rate at which loans are made under subtitle C.

"(3) DURATION.—Each loan under this section shall be made for a period of 10 years, or less, at the option of the borrower.

"(4) REPAYMENT.—Each borrower of a loan under this section shall repay the loan to the Secretary in equal annual installments.

"(5) NATURE OF RETAINED SECURITY INTEREST.—The Secretary shall retain an interest in each farm or ranch acquired with a loan made under this section, which shall—

"(A) be secured by the farm or ranch;

"(B) be junior only to such interests in the farm or ranch as may be conveyed at the time of acquisition to the person from whom the borrower obtained a loan used to acquire the farm or ranch; and

"(C) require the borrower to obtain the permission of the Secretary before the borrower may grant an additional security interest in the farm or ranch.

"(c) LIMITATIONS.—

"(1) BORROWERS REQUIRED TO MAKE MINIMUM DOWN PAYMENT.—The Secretary shall not make a loan under this section to any borrower with respect to a farm or ranch if the contribution of the borrower to the down payment on the farm or ranch will be less than 10 percent of the price of the farm or ranch.

"(2) MAXIMUM PRICE OF PROPERTY TO BE ACQUIRED.—The Secretary shall not make a loan under this section with respect to a farm or ranch the price of which exceeds $250,000.

"(3) PROHIBITED TYPES OF FINANCING.—The Secretary shall not make a loan under this section with respect to a farm or ranch if the farm or ranch is to be acquired with other financing which contains any of the following conditions:

"(A) The financing, other than that provided by the Secretary under this section, is to be amortized over a period of less than 30 years.

"(B) A balloon payment will be due on the financing during the 10-year period beginning on the date the loan is to be made by the Secretary.

"(d) ADMINISTRATION.—The Secretary shall, to the maximum extent practicable—

"(1) facilitate the transfer of farms and ranches from retiring farmers and ranchers to persons eligible for insured loans under this subtitle;

"(2) make efforts to widely publicize the availability of loans under this section among—

"(A) potentially eligible recipients of such loans;

"(B) retiring farmers and ranchers; and

"(C) applicants for farm ownership loans under this subtitle;

"(3) encourage retiring farmers and ranchers to assist in the sale of their farms and ranches to eligible beginning farmers or ranchers by providing seller financing; and

"(4) coordinate the loan program established by this section with State programs that provide farm ownership or operating loans for beginning farmers.

"(e) ELIGIBLE BEGINNING FARMER OR RANCHER DEFINED.—As used in this section, the term 'eligible beginning farmer or rancher' means an individual—

"(1) who is eligible for assistance under this subtitle;

"(2) who has operated a farm or ranch for not less than 5 nor more than 10 years;

"(3)(A) in the case of an owner or operator of a farm or ranch, who, individually or with the immediate family of the owner or operator—

"(i) materially and substantially participates in the farm or ranch; and

"(ii) provides substantial day-to-day labor and management of the farm or ranch, consistent with the practices in the State or county in which the farm or ranch is located; and

"(B) in the case of an individual seeking to own or operate a farm or ranch, who, individually or with the immediate family of the individual, will—

"(i) materially and substantially participate in the farm or ranch; and

"(ii) provide substantial day-to-day labor and management of the farm or ranch, consistent with the practices in the State or county in which the farm or ranch is located;

"(4) who agrees to participate in such loan assessment, borrower training, and financial management programs as the Secretary may require;

"(5) who—

"(A) does not own land; or

"(B) directly or through interests in family farm corporations, owns land the aggregate acreage of which does not exceed 15 percent of the median acreage of the farms or ranches, as the case may be, in the county in which the individual is to obtain land is located, as reported in the most recent census of agriculture taken under section 142 of title 13, United States Code;

"(6) who demonstrates that the available resources of the individual and the spouse (if any) of the individual are not sufficient to enable the individual to continue farming or ranching on a viable scale; and

"(7) in the case of an individual whose application for assistance under section 318 has been approved by the Secretary, the individual meets the requirements of section 310F(b)(1).".

(c) AVAILABILITY OF FARM OWNERSHIP LOANS AND LOAN GUARANTEES FOR CERTAIN BEGINNING FARMERS AND RANCHERS.—Subtitle A of such Act (7 U.S.C. 1922–1934) is amended by adding after the section added by subsection (b) of this section the following:

"SEC. 310F. AVAILABILITY OF FARM OWNERSHIP LOANS AND LOAN GUARANTEES FOR CERTAIN BEGINNING FARMERS AND RANCHERS.

"(a) ASSISTANCE PROHIBITED FOR A LIMITED PERIOD.—Except as otherwise provided in this section, if the Secretary approves the application of an individual for assistance under section 318, the Secretary may not make a loan under this subtitle to the individual or provide a guarantee under section 309(h) with respect to any farm real estate loan made to the individual.

"(b) AVAILABILITY OF DOWN PAYMENT LOANS.—After the applicable period, the Secretary may make an insured loan under this subtitle, or a down payment loan under section 310E, to an individual referred to in subsection (a) of this section if—

"(1) throughout the applicable period, the individual conducted an operation for which assistance is provided under section 318 in accordance with the plan contained in the application for such assistance;

"(2) the plan provides for such a loan; and

"(3) the individual is otherwise eligible for the loan.

"(c) AVAILABILITY OF LOAN GUARANTEES.—After the applicable period, the Secretary may guarantee under section 309(h) the repayment of a commercial or cooperative loan made to an individual referred to in subsection (a) of this section if—

"(1) throughout the applicable period, the individual conducted the operation for which assistance is provided under section 318 in accordance with the plan contained in the application for such assistance;

"(2) the plan provides for such a loan guarantee; and

"(3) the individual is otherwise eligible for the loan guarantee.

"(d) APPLICABLE PERIOD DEFINED.—As used in this section, the term 'applicable period' means—

"(1) in the case of an individual who, at the time the application referred to in this section was approved, had not operated a farm for more than 3 years, the first 5 years for which the individual is provided assistance under section 318; or

"(2) in any other case, the first 3 years for which the individual is provided assistance under section 318.".

(d) TARGETING OF FUNDS.—

(1) FARM OPERATING LOANS FOR BEGINNING FARMERS AND RANCHERS.—Section 346(b) of such Act (7 U.S.C. 1994(b)) is amended by adding at the end the following:

"(5) In expending the following percentages of the funds available for insured operating loans under subtitle B for any fiscal year beginning after September 30, 1993, the Secretary shall, to the maximum extent practicable, give priority to making such loans under section 318:

"(A) Not less than 20 percent, for the first 6 months of fiscal year 1994.

"(B) Not less than 30 percent, for the first 6 months of each of fiscal years 1995 and 1996.

"(C) Not less than 40 percent, for the first 6 months of each of fiscal years 1997 and 1998.

"(D) Not less than 50 percent, for first 6 months of each of the succeeding fiscal years.".

(2) FARM OWNERSHIP LOANS.—

(A) PERCENTAGE OF INSURED FARM OWNERSHIP LOAN FUNDS RESERVED FOR BEGINNING FARMERS OR RANCHERS.—Section 346(b)(3) of such Act (7 U.S.C. 1994(b)(3)) is amended by adding at the end the following:

"(D)(i) To the extent not inconsistent with an exercise of authority under section 355, not less than the applicable percentage of the amounts available for insured farm ownership loans for any fiscal year shall be for such loans to beginning farmers or ranchers.

"(ii) For purposes of clause (i), the term 'applicable percentage' means—

"(I) 50 percent, for the first 6 months of each of the fiscal years 1994 and 1995; and

"(II) 80 percent, for the first 6 months of each succeeding fiscal year.".

(B) FUNDS RESERVED FOR DOWNPAYMENT LOAN PROGRAM.—Section 346(b)(3) of such Act (7 U.S.C. 1994(b)(3)) is amended by adding after the subparagraph added by subparagraph (A) of this paragraph the following:

"(E)(i) To the extent not inconsistent with an exercise of authority under section 355, not less than the applicable percentage of the amounts reserved for beginning farmers or ranchers under subparagraph (D) for any fiscal year shall be for downpayment loans under section 310E.

"(ii) For purposes of clause (i), the term 'applicable percentage' means—

"(I) 50 percent, for the first 6 months of each of the fiscal years 1994 and 1995; and

"(II) 80 percent, for the first 6 months of each succeeding fiscal year.".

(C) CERTAIN UNOBLIGATED DOWNPAYMENT LOAN PROGRAM FUNDS AVAILABLE FOR ANY TYPE OF INSURED FARM OWNERSHIP LOANS FOR BEGINNING FARMERS AND RANCHERS.—Section 346(b)(3) of such Act (7 U.S.C. 1994(b)(3)) is amended by adding after the subparagraph added by subparagraph (B) of this paragraph the following:

"(F) To the extent not inconsistent with an exercise of authority under section 355, any funds reserved for downpayment loans under section 310E for a fiscal year by reason of subparagraph (E) of this paragraph that are not obligated by the end of the 2nd quarter of the fiscal year shall be available throughout the remainder of the fiscal year for any type of insured farm ownership loans, with priority to be given to beginning farmers and ranchers.".

(3) PORTIONS OF FARM OWNERSHIP LOAN GUARANTEE FUNDS TARGETED TO BEGINNING FARMERS OR RANCHERS.—Section 346(b)(2) of such Act (7 U.S.C. 1994(b)(2)) is amended by adding at the end the following:

"Not less than 25 percent of the amounts appropriated for guarantees of farm ownership loans for each of the fiscal years 1994, 1995, 1996, and 1997 shall be available during the first 6 months of the respective fiscal year for guarantees of farm ownership loans to beginning farmers or ranchers.".

(4) INTEREST RATE ASSISTANCE PROGRAM.—Section 346(b)(3) of such Act (7 U.S.C. 1994(b)(3)) is amended by adding after the subparagraphs added by paragraph (2) of this subsection the following:

"(G) Not less than 40 percent of the amounts available for the interest rate reduction program under section 351 shall be reserved for the first 6 months of each fiscal year for assistance to beginning farmers or ranchers.".

SEC. 2102. PROCESSING OF APPLICATIONS FOR FARM OPERATING LOANS.

Section 333A(a)(2) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1983a(a)(2)) is amended—

(1) by inserting "(A)" after "(2)";

(2) by inserting "(other than under subtitle B)" after "under this title"; and

(3) by adding after and below the end the following new subparagraph:

"(B)(i) Within 10 calendar days after the Secretary receives an application for an operating loan or loan guarantee under subtitle B, the Secretary shall notify the applicant of any information required before a decision may be made on the application. Upon receipt of such an application, the Secretary shall request from other parties such information as may be needed in connection with the application.

"(ii) Within 15 calendar days after the date an agency of the Department of Agriculture receives a request for information made pursuant to clause (i), the agency shall provide the Farmers Home Administration with the requested information.

"(iii) If, within 20 calendar days after the date a request is made pursuant to clause (i) with respect to an application, the Farmers Home Administration has not received the information requested, the Farmers Home Administration county office shall notify the applicant, in writing, as to the outstanding information.

"(iv) A county office shall notify the district office of the Farmers Home Administration of each application for an operating loan or loan guarantee under subtitle B that is pending more than 45 calendar days after receipt by the Secretary, and the reasons therefor.

"(v) A district office that receives a notice provided under clause (iv) with respect to an application shall immediately take steps to ensure that final action is taken on the application within 15 calendar days after the date of the receipt of the notice.

"(vi) The district office shall notify the State office of the Farmers Home Administration of each application for an operating loan or loan guarantee under subtitle B that is pending more than 45 calendar days after receipt by the Secretary, and the reasons therefor.

"(vii) Each month, the Secretary shall notify the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, on a State-by-State basis, as to each application for an operating loan or loan guarantee under subtitle B on which final action had not been taken within 60 calendar days after receipt by the Secretary, and the reasons therefor.".

SEC. 2103. TIME PERIOD WITHIN WHICH COUNTY COMMITTEE IS REQUIRED TO MEET TO CONSIDER APPLICATIONS FOR FARM OWNERSHIP AND OPERATING LOANS AND GUARANTEES AND BEGINNING FARMER PLANS.

Section 332 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1982) is amended—

(1) in subsection (c), by striking "The committee" and inserting "Subject to subsection (e), the committee"; and

(2) by adding at the end the following:

"(e) The county committee shall meet to consider approval of an application received by the committee for a farm ownership or farm operating loan under this title, a guarantee under section 309(h), or a plan of farm operation under section 318, within—

"(1) 5 calendar days after receipt if at the time of the receipt there is at least 1 other such application or plan pending; or

"(2) 15 calendar days after receipt if at the time of the receipt there are no other such applications or plans pending.".

SEC. 2104. DEBT SERVICE MARGIN REQUIREMENTS; CERTIFIED LENDER PROGRAM.

Section 339 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1989) is amended—

(1) by inserting "(a)" before "The Secretary"; and

(2) by adding at the end the following:

"(b) Notwithstanding subsection (a), in providing farmer program loan guarantees under this title, the Secretary shall consider the income of the borrower adequate if the income is equal to or greater than the income necessary—

"(1) to make principal and interest payments on all debt obligations of the borrower, in a timely manner;

"(2) to cover the necessary family living expenses; and

"(3) to pay all other obligations and expenses of the borrower not financed through debt obligations referred to in paragraph (1), including expenses of replacing capital items (determined after taking into account depreciation of such items).

"(c) CERTIFIED LENDER PROGRAM.—

"(1) IN GENERAL.—The Secretary shall establish a program under which the Secretary shall guarantee loans (other than loans with respect to which a guarantee is provided under section 318) for any purpose specified in subtitle B that are made by lending institutions certified by the Secretary.

"(2) CERTIFICATION REQUIREMENTS.—The Secretary shall certify any lending institution that meets such criteria as the Secretary may prescribe in regulations, including the ability of the institution to properly make, service, and liquidate its loans.

"(3) CONDITION OF CERTIFICATION.—As a condition of such certification, the Secretary shall require the institution to undertake to service the loans guaranteed by the Secretary under this subsection using generally accepted banking standards concerning loan servicing employed by prudent commercial or cooperative lenders. The Secretary shall, at least annually, monitor the performance of each certified lender to ensure that the conditions of such certification are being met.

"(4) EFFECT OF CERTIFICATION.—Notwithstanding any other provision of law, the Secretary shall—

"(A) guarantee 80 percent of an approved loan made by a certified lending institution as described in paragraph (1), subject to county committee certification that the borrower meets the eligibility requirements or such other criteria as may be applicable to loans guaranteed by the Secretary under other provisions of this title;

"(B) permit certified lending institutions to make all decisions, with respect to loans to be guaranteed by the Secretary under this subsection, relating to creditworthiness and loan closing, and to accept appropriate certifications, as provided by regulations issued by the Secretary, that the borrower is in compliance with all requirements of law or regulations promulgated by the Secretary; and

"(C) be deemed to have guaranteed 80 percent of a loan made by a certified lending institution as described in paragraph (1), if the Secretary fails to approve or reject the application within 14 calendar days after the date that the lending institution presented the application to the Secretary. If the Secretary rejects the application within the 14-day period, the Secretary shall state, in writing, the reasons the application was rejected.".

SEC. 2105. FEDERAL-STATE BEGINNING FARMER PARTNERSHIP.

(a) COORDINATION OF ASSISTANCE FOR ELIGIBLE BEGINNING FARMERS AND RANCHERS.—Section 309 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1929) is amended by adding at the end the following:

"(i)(1) Within 60 days after any State expresses to the Secretary, in writing, a desire to coordinate the provision of financial assistance to eligible beginning farmers and ranchers in the State, the Secretary and the State shall conclude a joint memorandum of understanding which shall govern how the Secretary and the State are to do so.

"(2) The memorandum of understanding shall provide that if a State beginning farmer program makes a commitment to provide an eligible beginning farmer or rancher (as defined in section 310E(e)) with financing to establish or maintain a viable farming or ranching operation, the Secretary shall, subject to applicable law, normal loan approval criteria, and the availability of funds, provide the farmer or rancher with—

"(A) a downpayment loan under section 310E;

"(B) a guarantee of the financing provided by the State program; or

"(C) such a loan and such a guarantee.

"(3) The Secretary may not charge any person any fee with respect to the provision of any guarantee under this subsection.

"(4) As used in paragraph (1), the term 'State beginning farmer program' means any program which is—

"(A) carried out by, or under contract with, a State; and

"(B) designed to assist persons in obtaining the financial assistance necessary to enter agriculture and establish viable farming or ranching operations.".

(b) ADVISORY COMMITTEE.—

(1) ESTABLISHMENT; PURPOSE.—Within 18 months after the date of the enactment of this section, the Secretary of Agriculture shall establish an advisory committee, to be known as the "Advisory Committee on Beginning Farmers and Ranchers", which shall provide advice to the Secretary on—

(A) the development of the program of coordinated assistance to eligible beginning farmers and ranchers under section 309(i) of the Consolidated Farm and Rural Development Act;

(B) ways to maximize the number of new farming and ranching opportunities created through such program;

(C) ways to encourage States to participate in such program;

(D) the administration of such program; and

(E) other methods of creating new farming or ranching opportunities.

(2) MEMBERSHIP.—The Secretary shall appoint the members of the Advisory Committee which shall include representatives from the following:

(A) The Farmers Home Administration.

(B) State beginning farmer programs (as defined in section 309(i)(3) of the Consolidated Farm and Rural Development Act).

(C) Commercial lenders.

(D) Private nonprofit organizations with active beginning farmer or rancher programs.

(E) The Cooperative Extension Service.

(F) Community colleges or other educational institutions with demonstrated experience in training beginning farmers or ranchers.

(G) Other specialists in lending or technical assistance for beginning farmers and ranchers.

SEC. 2106. GRADUATION OF BORROWERS WITH OPERATING LOANS OR GUARANTEES TO PRIVATE COMMERCIAL CREDIT.

Subtitle B of the Consolidated Farm and Rural Development Act (7 U.S.C. 1941–1947) is amended by adding after the section added by section 2101(a) of this Act the following:

"SEC. 319. GRADUATION OF BORROWERS ASSISTED UNDER THIS SUBTITLE TO PRIVATE COMMERCIAL CREDIT.

"(a) GRADUATION PLAN.—The Secretary shall establish a plan, in coordination with activities under sections 359, 360, 361, and 362, to encourage each borrower with an outstanding loan under this subtitle or with respect to whom there is an outstanding guarantee under this subtitle to graduate to private commercial or other sources of credit.

"(b) LIMITATION ON PERIOD FOR WHICH BORROWERS ARE ELIGIBLE FOR ASSISTANCE UNDER THIS SUBTITLE.—Notwithstanding any other provision of this subtitle:

"(1) GENERAL RULE.—Except as provided in paragraph (2), the Secretary may not—

"(A) make a loan to a borrower under this subtitle for any year after the 10th year for which such a loan is made to the borrower; or

"(B) guarantee for any year a loan made to the borrower for a purpose specified in this subtitle, after the 15th year for which loans under this subtitle are made to, or such a guarantee is provided with respect to, the borrower.

"(2) TRANSITION RULE.—If, as of the date of the enactment of this section, the Secretary has made loans to a borrower under this subtitle for 5 or more years, or has provided guarantees for 10 or more years with respect to 1 or more loans made to the borrower for a purpose specified in this subtitle, the Secretary may not make a loan to the borrower under this subtitle, or provide such a guarantee with respect to a loan made to the borrower for a purpose specified in this subtitle, after the 5th year occurring after such date of enactment for which a loan is made under this subtitle to, or such a guarantee is provided with respect to, the borrower.".

SEC. 2107. SIMPLIFIED APPLICATION FOR GUARANTEED LOANS OF $50,000 OR LESS.

Section 333A of the Consolidated Farm and Rural Development Act (7 U.S.C. 1983a) is amended by adding at the end the following:

"(f)(1) The Secretary shall provide to lenders a short, simplified application form for guarantees under this title of loans the principal amount of which is $50,000 or less.

"(2) In developing the application, the Secretary shall—

"(A) consult with commercial and cooperative lenders; and

"(B) ensure that—

"(i) the form can be completed manually or electronically, at the option of the lender;

"(ii) the form minimizes the documentation required to accompany the form;

"(iii) the cost of completing and processing the form is minimal; and

"(iv) the form can be completed and processed in an expeditious manner.".

SEC. 2108. TARGETING OF LOANS TO MEMBERS OF GROUPS WHOSE MEMBERS HAVE BEEN SUBJECTED TO GENDER PREJUDICE.

Section 355(e)(1) of the Consolidated Farm and Rural Development Act (7 U.S.C. 2003(e)(1)) is amended by striking "or ethnic" and inserting ", ethnic, or gender".

SEC. 2109. RECORDKEEPING OF LOANS BY BORROWER'S GENDER.

Subtitle D of the Consolidated Farm and Rural Development Act (7 U.S.C. 1981–2008c) is amended by adding at the end the following:

"SEC. 369. RECORDKEEPING OF LOANS BY BORROWER'S GENDER.

"The Secretary shall classify, by gender, records of applicants for loans and guarantees under this title.".

SEC. 2110. INCREASE IN PERIOD DURING WHICH COUNTY COMMITTEE LOAN ELIGIBILITY CERTIFICATION CONTINUES IN EFFECT.

Section 333(2)(A)(iii) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1983(2)(A)(iii)) is amended by striking "2 years" and inserting "5 years".

SEC. 2111. LIMITATION ON AGGREGATE INDEBTEDNESS.

Section 305 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1925) is amended by striking "and 310D of this title" and inserting "310D, and 310E".

SEC. 2112. GRADUATION OF SEASONED BORROWERS TO THE LOAN GUARANTEE PROGRAM.

Section 333A of the Consolidated Farm and Rural Development Act (7 U.S.C. 1983a) is amended by adding after the subsection added by section 2007 of this Act the following:

"(g) GRADUATION OF SEASONED BORROWERS TO THE LOAN GUARANTEE PROGRAM.—

"(1) IN GENERAL.—The Secretary shall annually review the operating loans made under section 312 to each seasoned borrower, and if, based on the review, the Secretary determines that the borrower is able to obtain a loan, guaranteed by the Secretary, from commercial or cooperative lenders at reasonable rates and terms, and for purposes and periods of time similar to those for which the operating loan was made to the borrower, then the borrower shall be ineligible to receive a new operating loan under section 312 for similar purposes, unless the borrower demonstrates to the Secretary that the borrower is unable to obtain such a guaranteed loan.

"(2) LISTING OF SEASONED BORROWERS.—Within 180 days after the date of the enactment of the Agricultural Credit Improvement Act of 1992, and annually thereafter, the Secretary may direct all county offices to make available to qualified lenders a listing of all seasoned borrowers, as provided in regulations issued by the Secretary.

"(3) QUALIFIED LENDERS.—Upon request and upon application for a guaranteed loan to a qualified lender, by a seasoned borrower, the Farmers Home Administration shall provide the lender with all current and past documentation relating to the approval and the continued compliance with the terms of the direct operating loan then held by the borrower.

"(4) INTEREST RATE.—To the extent necessary for the borrower to obtain a loan, guaranteed by the Secretary, from a commercial or cooperative lender, the Secretary shall provide interest rate reductions under section 351.

"(5) DEFINITIONS.—As used in this subsection:

"(A) SEASONED BORROWER.—The term 'seasoned borrower' means a borrower—

"(i) to whom a loan has been made under section 312; and

"(ii) who has maintained a satisfactory borrowing relationship with the Farmers Home Administration for at least 24 consecutive months.

"(B) QUALIFIED LENDER.—The term 'qualified lender' means a lender approved by the Secretary under—

"(i) the approved lender program established by exhibit A to subpart B of part 1980 of title 7, Code of Federal Regulations, January 1, 1991, edition;

"(ii) the certified lender program established under section 339(c); or

"(iii) any program that is a successor to either of such programs.".

SEC. 2113. DEADLINE FOR ISSUANCE OF REGULATIONS.

Not later than September 30, 1993, the Secretary of Agriculture shall issue interim final regulations to implement the amendments made by this subtitle.

Subtitle B—Amendments to the Farm Credit Act of 1971

SEC. 2201. VALUATION OF RESERVES OF PRODUCTION CREDIT ASSOCIATIONS.

Section 2.3(b) of the Farm Credit Act of 1971 (12 U.S.C. 2074(b)) is amended to read as follows:

"(b) APPLICATION OF EARNINGS.—At the end of each fiscal year, each production credit association shall apply the amount of the earnings of the association for the fiscal year in excess of the operating expenses of the association (including provision for valuation of reserves against loan assets in accordance with generally accepted accounting principles)—

"(1) first to the restoration of the impairment (if any) of capital; and

"(2) second, to the establishment and maintenance of the surplus accounts, the minimum aggregate amount of which shall be prescribed by the Farm Credit Bank.".

SEC. 2202. ELIMINATION OF AUTHORITY OF FARM CREDIT SYSTEM INSURANCE CORPORATION TO APPOINT NONVOTING MEMBER OF FARM CREDIT SYSTEM FUNDING CORPORATION BOARD.

Section 4.9(d)(2) of the Farm Credit Act of 1971 (12 U.S.C. 2160(d)(2)) is amended—

(1) in the paragraph heading, by striking "REPRESENTATIVES" and inserting "REPRESENTATIVE";

(2) by striking subparagraph (B) and redesignating subparagraph (C) as subparagraph (B); and

(3) in subparagraph (B), as so redesignated, by striking "persons" and all that follows through "Insurance Corporation" and inserting "person so designated".

SEC. 2203. EXPANSION OF WATER AND SEWER LENDING AUTHORITY OF BANKS FOR COOPERATIVES.

Section 3.7(f) of the Farm Credit Act of 1971 (12 U.S.C. 2128(f)) is amended—

(1) by striking "the installation, expansion, or improvement of" and inserting "installing, maintaining, expanding, improving, or operating"; and

(2) by striking "to extend" and inserting "extending".

SEC. 2204. EQUITY VOTING FOR ONE DIRECTOR OF EACH BANK FOR COOPERATIVES.

Section 3.2(a) of the Farm Credit Act of 1971 (12 U.S.C. 2123(a)) is amended by inserting ", and, notwithstanding section 3.3(d), the bylaws may provide for 1 director to be elected on the basis of 1 vote for each share of voting stock of the bank" before the period.

SEC. 2205. PER DIEM COMPENSATION OF BANK DIRECTORS.

(a) IN GENERAL.—Section 4.21 of the Farm Credit Act of 1971 (12 U.S.C. 2209) is amended to read as follows:

"SEC. 4.21. COMPENSATION OF DIRECTORS.

"Each member of the board of directors of a System bank may receive compensation only for days during the year in which engaged in the performance of duties of such a director, and in an amount not exceeding $300 for each such day, adjusted annually to reflect any increase in the cost of living since the end of 1991, as determined under regulations prescribed by the Farm Credit Administration.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on January 1, 1993.

SEC. 2206. FREQUENCY OF EXAMINATIONS OF SYSTEM INSTITUTIONS.

Section 5.19(a) of the Farm Credit Act of 1971 (12 U.S.C. 2254(a)) is amended by striking the 1st and 2nd sentences and inserting "Not less frequently than once every 3 years, Farm Credit Administration examiners shall examine each institution of the Farm Credit System at such times as the Farm Credit Administration Board may determine.".

SEC. 2207. AUTHORITY TO EXAMINE SYSTEM INSTITUTIONS.

(a) AUTHORITY OF FARM CREDIT SYSTEM INSURANCE CORPORATION.—Section 5.59(b) of the Farm Credit Act of 1971 (12 U.S.C. 2277a-8(b)) is amended to read as follows:

"(b) EXAMINATION OF SYSTEM INSTITUTIONS.—

"(1) EXAMINATION AUTHORITY.—

"(A) IN GENERAL.—If the Board of Directors deems it necessary to examine an insured System bank, a production credit association, an association making direct loans under the authority provided under section 7.6, or any System institution in receivership, the Board may, using Farm Credit Administration examiners, conduct the examination using reports and other information on the System institution prepared or held by the Farm Credit Administration.

"(B) REQUEST FOR ADDITIONAL EXAMINATION OR OTHER INFORMATION.—If the Board determines that such reports or information are not adequate to enable the Corporation to carry out the duties of the Corporation under this part, the Board shall request the Farm Credit Administration to examine or to obtain other information from or about the System institution and provide to the Corporation the resulting examination report or such other information.

"(2) APPOINTMENT OF EXAMINERS.—If the Farm Credit Administration informs the Corporation that the Farm Credit Administration is unable to comply with a request made under paragraph (1)(B) with respect to a System institution, the Board may appoint examiners to examine the institution.

"(3) POWERS AND REPORT.—Each examiner appointed under paragraph (2) shall make such examination of the affairs of the System institution as the Board may direct, and shall make a full and detailed report of the examination to the Corporation.

"(4) APPOINTMENT OF CLAIM AGENTS.—The Board of Directors of the Corporation shall appoint claim agents who may investigate and examine all claims for insured obligations.".

(b) DUTIES OF THE FARM CREDIT ADMINISTRATION.—Section 5.19 of such Act (12 U.S.C. 2254) is amended by adding at the end the following:

"(d) Upon receipt of a request made under section 5.59(b)(1)(B) with respect to a System institution, the Farm Credit Administration shall—

"(1) furnish for the confidential use of the Corporation reports of examination of the institution and other reports or information on the institution; and

"(2)(A) examine, or obtain other information on, the institution and furnish for the confidential use of the Corporation the report of the examination and such other information, or

"(B) if the Farm Credit Administration Board determines that compliance with the request would substantially impair the ability of the Farm Credit Administration to carry out the other duties and responsibilities of the Farm Credit Administration under this Act, notify the Board of Directors of the Farm Credit System Insurance Corporation that the Farm Credit Administration will be unable to comply with the request.".

SEC. 2208. REPEAL OF PROHIBITION AGAINST GUARANTEE OF CERTAIN INSTRUMENTS OF INDEBTEDNESS.

Section 4.16 of the Farm Credit Act of 1971 (12 U.S.C. 2204) is hereby repealed.

SEC. 2209. CLARIFICATION OF TREATMENT OF FARM CREDIT ADMINISTRATION OPERATING EXPENSES.

Section 5.15(b)(1) of the Farm Credit Act of 1971 (12 U.S.C. 2250(b)(1)) is amended—

(1) by inserting ", for purposes of sequestration," after "regard"; and

(2) by striking "or any other law".

SEC. 2210. APPROVAL OF COMPETITIVE CHARTERS.

Section 5.17(a) of the Farm Credit Act of 1971 (12 U.S.C. 2252(a)) is amended by adding at the end the following:

"(13)(A) Subject to subparagraph (B), the Farm Credit Administration may approve an amendment to the charter of any institution of the Farm Credit System operating under title I or II, which would authorize the institution to exercise lending authority in any territory—

"(i) in the geographic area served by an association that was reassigned pursuant to section 433 of the Agricultural Credit Act of 1987 (where such geographic area was a part of the association's territory as of the date of such reassignment); and

"(ii) in which the charter of an institution that is not seeking the charter amendment authorizes such institution to exercise the type of lending authority that is the subject of the charter request.

"(B) The Farm Credit Administration may approve a charter amendment under subparagraph (A) only upon the approval of—

"(i) the respective boards of directors of the associations that, if the charter request is approved, would exercise like lending authority in any of the territory that is the subject of the charter request;

"(ii) a majority of the stockholders of each association described in clause (i) voting, in person or by proxy, at a duly authorized stockholders' meeting; and

"(iii) the respective boards of directors of the Farm Credit Banks which, if the charter request is approved, would exercise, either directly or through associations, like lending authority in any of the territory described in subparagraph (A)(i).

"(14)(A) Subject to subparagraph (B), the Farm Credit Administration may approve a request to charter an association of the Farm Credit System to operate under title II where the proposed charter—

"(i) will include any of the geographic area included in the territory served by an association that was reassigned pursuant to section 433 of the Agricultural Credit Act of 1987 (where such geographic area was a part of the association's territory as of the date of such reassignment); and

"(ii) will authorize the association to exercise lending authority in any territory in such geographic area in which the charter of an association that is not requesting the charter authorizes such association to exercise the type of lending authority that is the subject of the charter request.

"(B) The Farm Credit Administration may approve a charter request under subparagraph (A) only upon the approval of—

"(i) the respective boards of directors of the associations that, if the charter request is approved, would exercise like lending authority in any of the territory that is the subject of the charter request;

"(ii) a majority vote of the stockholders (if any) of each association described in clause (i) voting, in person or by proxy, at a duly authorized stockholder's meeting; and

"(iii) the respective boards of directors of the Farm Credit Banks which, if the charter request is approved, would exercise, either directly or through associations, like lending authority in any of the territory described in subparagraph (A)(i).".

Subtitle C—Technical Corrections

SEC. 2301. TECHNICAL CORRECTIONS.

(a) Correction of Reference to Section 1236 of the Food Security Act of 1985.—Title I of the Department of the Interior and Related Agencies Appropriations Act, 1991 is amended, in the item designated "construction and anadronomous fish" under the heading "United States Fish and Wildlife Service", by striking "title 16 U.S.C. section 3832(a)(6)" and inserting "section 1232(a)(6) of the Food Security Act of 1985 (16 U.S.C. 3832(a)(6))".

(b) Section 1245(b) of the Food Security Act of 1985.—

(1) Correction.—Section 1245(b) of the Food Security Act of 1985 (16 U.S.C. 3845(b)) is amended by striking "(A) through (G)" and inserting "A through G".

(2) Effective date.—The amendment made by paragraph (1) of this subsection shall take effect immediately after section 1443 of the Food, Agriculture, Conservation, and Trade Act of 1990 took effect.

(c) Section 307(a)(6)(B) of the Consolidated Farm and Rural Development Act.—

(1) Correction.—Section 307(a)(6)(B) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1927(a)(6)(B)) is amended by striking clause (ii), and by redesignating clauses (iii) through (viii) as clauses (ii) through (vii), respectively.

(2) Effective date.—The amendments made by paragraph (1) of this subsection shall take effect at the same time as the amendments made by subsection (a) of section 501 of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 took effect.

(d) Section 310D(a) of the Consolidated Farm and Rural Development Act.—

(1) Correction.—Section 310D(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1934(a)) is amended by striking "304(d)(1)" and inserting "304(a)(1)".

(2) Effective date.—The amendment made by paragraph (1) of this subsection shall take effect at the same time as the amendments made by subsection (a) of section 501 of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 took effect.

(e) Section 312(a) of the Consolidated Farm and Rural Development Act.—

(1) Replacement of unexecutable amendment made by the food, agriculture, conservation, and trade act of 1990.—

(A) Correction.—Section 1818(b) of the Food, Agriculture, Conservation, and Trade Act of 1990 (P.L. 101-624; 104 Stat. 3830) is amended to read as follows:

"(b) Operating Loan Purposes.—The first sentence of section 312(a) (7 U.S.C. 1942(a)) is amended—

"(1) by striking 'and' at the end of clause (11); and

"(2) by inserting ', and (13) borrower training under section 359' before the period at the end.".

(B) Effective date.—The amendment made by subparagraph (A) shall take effect as if included in the Food, Agriculture, Conservation, and Trade Act of 1990 at the time such Act became law.

(2) Repeal of unexecutable amendment made by the food, agriculture, conservation, and trade act amendments of 1991.—Subsection (b) of section 501 of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 (P.L. 102-237; 105 Stat. 1866) is hereby repealed, and the Consolidated Farm and Rural Development Act shall be applied and administered as if such subsection had never become law.

(f) Amendments to Section 331E of the Consolidated Farm and Rural Development Act.—

(1) Correction.—Section 331E of the Consolidated Farm and Rural Development Act (7 U.S.C. 1981e) is amended—

(A) in subsection (a), by striking "Disaster Relief Act of 1974" and inserting "the Robert T. Stafford Disaster Relief and Emergency Assistance Act"; and

(B) in subsection (b), by inserting "Robert T. Stafford" before "Disaster Relief".

(2) Effective date.—The amendments made by paragraph (1) of this subsection shall take effect immediately after subsection (d) of section 501 of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 took effect.

(g) Section 335(e)(1)(A)(i) of the Consolidated Farm and Rural Development Act.—

(1) Corrections to amendment made by the food, agriculture, conservation, and trade act amendments of 1991.—Paragraph (1) of section 501(f) of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 (P.L. 102-237; 105 Stat. 1867) is amended—

(A) by inserting "the 1st place such term appears" before "and all that follows"; and

(B) by striking "borrower-owner (as defined in subparagraph (F)" and inserting "the borrower-owner (as defined in subparagraph (F))".

(2) Effective date.—The amendments made by paragraph (1) of this subsection shall take effect immediately after subsection (f) of section 501 of the Food, Agriculture, Conservation, and Trade Act of 1990 took effect.

(h) Section 352(a) of the Consolidated Farm and Rural Development Act.—Section 352(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 2000(a)) is amended by redesignating the second paragraph (4) as paragraph (5).

(i) Section 352(b)(2) of the Consolidated Farm and Rural Development Act.—

(1) Correction.—Section 352(b)(2) of the Consolidated Farm and Rural Development Act (7 U.S.C. 2000(b)(2)) is amended by striking "borrower's" and inserting "borrower-owner's".

(2) Effective date.—The amendment made by paragraph (1) of this subsection shall take effect at the same time as the amendments made by subsection (f) of section 501 of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 took effect.

(j) Section 702(h)(2) of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991.—Section 702(h)(2) of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 (P.L. 102-237; 105 Stat. 1881) is amended by inserting "section" before "2388(h)(3)".

(k) Section 306C(b)(1) of the Consolidated Farm and Rural Development Act.—Section 306C(b)(1) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926c(b)(1)) is amended by striking "or connecting such systems to the residences of such individuals" and inserting ", connecting such systems to the residences of such individuals, or installing plumbing and fixtures within the residences of such individuals to facilitate the use of the water supply and waste disposal systems".

(l) Section 306C of the Consolidated Farm and Rural Development Act.—Section 306C of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926c) is amended by adding at the end the following:

"(f) Within 30 days after the date of the enactment of this subsection, the Secretary shall issue interim final regulations, with a request for public comments, implementing this section.".

Subtitle D—Effective Date

SEC. 2401. EFFECTIVE DATE.

Except as otherwise provided in this title, the amendments and repeal made by this title shall take effect on the date of the enactment of this Act.

TITLE III—RURAL ELECTRIFICATION ADMINISTRATION IMPROVEMENT ACT OF 1992

SEC. 3001. SHORT TITLE.

This title may be cited as the "Rural Electrification Administration Improvement Act of 1992".

SEC. 3002. DISCOUNTED LOAN PREPAYMENT.

(a) In General.—Subsection (a) of section 306B of the Rural Electrification Act of 1936 (7 U.S.C. 936b(a)) is amended to read as follows:

"(a) Discounted Prepayment by Borrowers of Electric Loans.—

"(1) In general.—Except as provided in paragraph (2), a direct or insured loan made under this Act shall not be sold or prepaid at a value that is less than the outstanding principal balance on the loan.

"(2) Exception.—On request of the borrower, an electric loan made under this Act, or a portion thereof, that was advanced before May 1, 1992, or has been advanced for not less than 2 years, shall be sold to or prepaid by the borrower at the lesser of—

"(A) the outstanding principal balance on the loan; or

"(B) the loan's present value discounted from the face value at maturity at the rate established by the Administrator.

"(3) DISCOUNT RATE.—The discount rate applicable to the prepayment under this subsection of a loan or loan advance shall be the then current cost of funds to the Department of the Treasury for obligations of comparable maturity to the remaining term of the loan.

"(4) TAX EXEMPT FINANCING.—If a borrower prepays a loan under this subsection using tax exempt financing, the discount shall be adjusted to ensure that the borrower receives a benefit that is equal to the benefit the borrower would receive if the borrower used fully taxable financing. The borrower shall certify in writing whether the financing will be tax exempt and shall comply with such other terms and conditions as the Administrator may establish that are reasonable and necessary to carry out this subsection.

"(5) ELIGIBILITY.—

"(A) IN GENERAL.—A borrower that has prepaid an insured or direct loan shall remain eligible for assistance under this Act in the same manner as other borrowers, except that—

"(i) a borrower that has prepaid a loan, either before or after the date of the enactment of this subsection, at a discount rate as provided by paragraph (3), shall not be eligible, except at the discretion of the Administrator, to apply for or receive direct or insured loans under this Act for 60 months after the prepayment; and

"(ii) a borrower that prepaid a loan before such date of enactment at a discount rate greater than that provided by paragraph (3), shall not be eligible—

"(I) except at the discretion of the Administrator, to apply for or receive such direct or insured loans until 120 months after the date of the prepayment; or

"(II) to apply for or receive such direct or insured loans until the borrower has repaid to the Federal Government the sum of—

"(aa) the amount (if any) by which the discount the borrower received by reason of the prepayment exceeds the discount the borrower would have received had the discount been based on the cost of funds to the Department of the Treasury at the time of the prepayment; and

"(bb) interest on the amount described in item (aa), for the period beginning on the date of the prepayment and ending on the date of the repayment, at a rate equal to the average annual cost of borrowing by the Department of the Treasury.

In cases where a borrower and the Administrator have entered into an agreement with respect to a prepayment occurring before such date of enactment, this paragraph shall supersede any provision in the agreement relating to the restoration of eligibility for loans under this Act.

"(B) DISTRIBUTION BORROWERS.—A distribution borrower not in default on the repayment of loans made or insured under this Act shall be eligible for discounted prepayment as provided in this subsection.For the purpose of determining eligibility for discounted prepayment under this subsection or eligibility for assistance under this Act, a default by a borrower from which a distribution borrower purchases wholesale power shall not be considered a default by the distribution borrower.

"(6) DEFINITIONS.—As used in this subsection:

"(A) DIRECT LOAN.—The term 'direct loan' means a loan made under section 4.

"(B) INSURED LOAN.—The term 'insured loan' means a loan made under section 305.".

(b) CONFORMING AMENDMENT.—Section 306B(b) of such Act (7 U.S.C. 936b(b)) is amended by striking "(b) Notwithstanding" and inserting the following:

"(b) MERGERS OF ELECTRIC BORROWERS.—Notwithstanding".

SEC. 3003. REPEAL OF SECTION 412.

Section 412 of the Rural Electrification Act of 1936 (7 U.S.C. 950b) is hereby repealed.

SEC. 3004. REPEAL OF SECTION 311.

Section 311 of the Rural Electrification Act of 1936 (7 U.S.C. 940a) is hereby repealed.

SEC. 3005. GRANTS TO ENABLE PROVIDERS OF HEALTH CARE AND EDUCATIONAL SERVICES IN RURAL AREAS TO IMPLEMENT INTERACTIVE TELECOMMUNICATIONS SYSTEMS.

(a) FINDINGS.—The Congress finds that—

(1) interactive telecommunications systems hold the potential to alleviate many of the problems rural Americans face in obtaining access to adequate health care and expanded educational services; and

(2) access to such systems by providers of health care services and educational institutions in rural areas would greatly increase their ability to provide more comprehensive health care and education to rural, underserved populations.

(b) GRANT PROGRAM.—Subtitle D of title XXIII of the Food, Agriculture, Conservation, and Trade Act of 1990 is amended by adding at the end the following:

"CHAPTER 3—IMPROVEMENT OF HEALTH CARE SERVICES AND EDUCATIONAL SERVICES THROUGH TELECOMMUNICATIONS

"SEC. 2338. GRANT PROGRAM.

"(a) ESTABLISHMENT.—The Administrator of the Rural Electrification Administration (in this chapter referred to as the 'Administrator') shall establish a program for providing grants to any qualified consortium to assist the consortium in obtaining access to modern interactive telecommunications systems through the public switched network.

"(b) DEFINITIONS.—

"(1) QUALIFIED CONSORTIUM.—As used in this chapter, the term 'qualified consortium' means a consortium which—

"(A) provides health care services or educational services in a rural area of a qualified State; and

"(B) is composed of—

"(i) a tertiary care facility, rural referral center, or medical teaching institution, or an educational institution accredited by the State;

"(ii) any number of institutions that provide health care services or educational services; and

"(iii)(I) in the case of a consortium seeking a grant under this chapter to improve health care services, not less than 3 rural hospitals, clinics, community health centers, migrant health centers, local health departments, or similar facilities; or

"(II) in the case of a consortium seeking a grant under this chapter to improve educational services, not less than 3 educational institutions accredited by the State.

"(2) QUALIFIED STATE.—The term 'qualified State' means a State which has adopted, within 1 year after the date final regulations are prescribed to carry out this chapter, a plan for the upgrading and modernization of the rural telecommunications infrastructure of the State which, among other things—

"(A) provides for the elimination of party line service in rural areas of the State;

"(B) encourages and improves the use of telecommunications, computer networks, and related advanced technologies to provide educational and medical benefits to people in rural areas of the State;

"(C) provides for an enhancement in the quality and availability of educational opportunities for students in rural areas of the State;

"(D) provides for improvement in the quality of medical care provided, and access to medical care afforded, to people in rural areas of the State;

"(E) provides incentives for local telephone exchange carriers to improve the quality of telephone service and access to advanced telecommunications services for subscribers in rural areas of the State, including facsimile document transmission, multifrequency tone signaling services, interactive audio and video transmissions, voicemail services, and other telecommunications services;

"(F) provides for the full participation of rural areas in the modernization of the telecommunications network through the implementation of joint coordinated network planning, design, and cooperative implementation among all local telephone exchange carriers in the provision of public switched network infrastructure and services;

"(G) provides for the achievement, preservation, and enhancement of universal service by bringing reasonably priced, high-quality, advanced telecommunications network capabilities to the people of the rural areas of the State, including through the sharing of public switched network infrastructure and functionality by local telephone exchange carriers at the request of local telephone exchange carriers lacking economies of scale or scope to provide such infrastructure or functionality on their own;

"(H) provides for the achievement of such goals within 10 years after the adoption of the plan; and

"(I) does not alter the boundaries of any local telephone exchange company franchised service area designated or recognized by the State, or the equivalent in the State.

"(3) RURAL AREA.—The term 'rural area' has the meaning given such term in section 203(b) of the Rural Electrification Act of 1936.

"(4) TELEPHONE SERVICE.—The term 'telephone service' has the meaning given such term in section 203(a) of the Rural Electrification Act of 1936.

"(c) SELECTION OF GRANT RECIPIENTS.—

"(1) APPLICATION REQUIREMENT.—

"(A) IN GENERAL.—Any qualified consortium that provides services in a State and desires to obtain a grant under this chapter shall submit to a State agency designated by the Governor of the State an application in such form, containing such information and assurance, and at such time, as the Administrator may require.

"(B) CONTENTS OF APPLICATION.—The application shall contain or be accompanied by—

"(i) a copy of the State plan described in subsection (b)(2);

"(ii) the plan of the applicant, for obtaining access to interactive telecommunications systems, which—

"(I) specifies, consistent with subsection (f), the uses to be made of such systems;

"(II) demonstrates that the systems will be capable of being readily connected to the established public switched network; and

"(III) is compatible with the State plan; and

"(iii) a commitment by the State to make a grant to the applicant in an amount equal to 20 percent of the funds required to carry out the plan of the applicant, conditional upon a commitment by the Administrator to make 1 or more grants to the applicant under this chapter in an amount equal to 80 percent of the funds required to carry out the plan of the applicant.

"(2) REVIEW AND COMMENT.—The State agency shall review the application and the applicant's plan and, after any revisions made by the applicant are incorporated, transmit to the Administrator the application and plans, and the comments of the State agency.

"(3) SELECTION OF GRANTEES.—The Administrator shall—

"(A) review the applications and plans transmitted pursuant to paragraph (2);

"(B) consider the comments of the State agency with respect to the application; and

"(C) make grants in accordance with paragraph (4) to each applicant therefor that complies with the requirements of this chapter and the regulations prescribed by the Administrator to carry out this chapter.

"(4) PRIORITIES.—Priority for grants under this chapter shall—

"(A) be accorded to applicants whose applications demonstrate—

"(i) the greatest likelihood of successfully and efficiently carrying out the activities described in subsection (f)(1);

"(ii) the participation of the local telephone exchange carrier in providing and operating the telecommunications transmission facilities required by the plan; and

"(iii) unconditional financial support from the local community; and

"(B) so as to ensure, to the extent possible, that various regions of the United States benefit from the use of the grants.

"(d) MAXIMUM AMOUNT OF GRANT.—The amount of each grant under this chapter shall not exceed $1,500,000.

"(e) DISTRIBUTION OF GRANTS.—Grants to any qualified consortium under this chapter shall be disbursed over a period of not more than 3 years.

"(f) USE OF FUNDS.—

"(1) IN GENERAL.—Grants under this chapter may be used to support the costs of activities involving the sending and receiving of information to improve health care services or educational services in rural areas, including—

"(A) in the case of grants to improve health care services—

"(i) consultations between health care providers;

"(ii) transmitting and analyzing x-rays, lab slides, and other images;

"(iii) developing and evaluating automated claims processing, and transmitting automated patient records; and

"(iv) developing innovative health professions education programs;

"(B) in the case of grants to improve educational services—

"(i) developing innovative education programs and expanding curriculum offerings;

"(ii) providing continuing education to all members of the community;

"(iii) providing the means for libraries of educational institutions or public libraries to share resources;

"(iv) providing the public with access to State and national data bases;

"(v) conducting town meetings; and

"(vi) covering meetings of agencies of State government; and

"(C) in all cases—

"(i) transmitting financial information; and

"(ii) such other related activities as the Administrator deems to be consistent with the purposes of this chapter.

"(2) LIMITATION ON ACQUISITION OF INTERACTIVE TELECOMMUNICATIONS EQUIPMENT.—Not more than 40 percent of the amount of any grant made under this chapter may be used to acquire interactive telecommunications end user equipment.

"(3) LIMITATION ON USE OF CONSULTANTS.—Not more than 5 percent of the amount of any grant made under this chapter may be used to employ or contract with any consultant or similar person.

"(4) PROHIBITIONS.—Grants made under this chapter may not be used, in whole or in part, to establish or operate a telecommunications network or to provide any telecommunications service for hire.

"(g) LIMITATIONS ON AUTHORIZATION OF APPROPRIATIONS.—

"(1) GRANTS TO IMPROVE RURAL HEALTH CARE SERVICES.—For grants under this chapter to improve health care services, there are authorized to be appropriated to the Administrator not to exceed $30,000,000 for each fiscal year.

"(2) GRANTS TO IMPROVE RURAL EDUCATIONAL SERVICES.—For grants under this chapter to improve educational services, there are authorized to be appropriated to the Administrator not to exceed $20,000,000 for each fiscal year.

"(3) AVAILABILITY OF FUNDS.—Sums appropriated pursuant to this subsection are authorized to remain available until expended.".

(c) ELIMINATION OF PREFERENCE FOR RURAL TELEPHONE BANK LOANS FOR BORROWERS LOCATED IN STATES WITH PLANS FOR UPGRADING RURAL TELECOMMUNICATIONS INFRASTRUCTURE.—Section 408(b)(2) of the Rural Electrification Act of 1936 (7 U.S.C. 948(b)(2)) is amended by inserting "which is not located in a qualified State (as defined in section 2338(b)(2) of the Food, Agriculture, Conservation, and Trade Act of 1990)" after "any borrower".

SEC. 3006. INCREASE IN LIMITATION ON POPULATION OF RURAL AREAS FOR PURPOSES OF TELEPHONE LOANS.

(a) IN GENERAL.—Section 203(b) of the Rural Electrification Act of 1936 (7 U.S.C. 924(b)) is amended by striking "one thousand five hundred" and inserting "10,000".

(b) CONFORMING AMENDMENT.—Section 13 of such Act (7 U.S.C. 913) is amended by inserting "(except in title II)" before "shall be deemed to mean any area".

SEC. 3007. SENSE OF THE CONGRESS.

It is the sense of the Congress that persons who are eligible for telephone loans under the Rural Electrification Act of 1936 and are interested in upgrading telecommunications in rural areas should obtain financial assistance under such Act through a subsidiary in order to limit the assets subject to the lien requirements of such Act.

SEC. 3008. REGULATIONS.

Within 180 days after the date of the enactment of this Act, the Administrator of the Rural Electrification Administration and the Governor of the Rural Telephone Bank shall prescribe such regulations as may be necessary to carry out the amendments made by this title.

TITLE IV—PERISHABLE AGRICULTURAL COMMODITIES ACT TECHNICAL AMENDMENTS OF 1992

SEC. 4001. SHORT TITLE.

This title may be cited as the "Perishable Agricultural Commodities Act Technical Amendments of 1992".

SEC. 4002. REAFFIRMATION OF FINDINGS.

Congress hereby reaffirms the findings of section 5(c)(1) of the Perishable Agricultural Commodities Act, 1930 (7 U.S.C. 499(c)(1)) that a burden on commerce in perishable agricultural commodities is caused by financing arrangements under which commission merchants, dealers, or brokers, who have not made payment for perishable agricultural commodities purchased, contracted to be purchased, or otherwise handled by them on behalf of another person, encumber or give lenders a security interest in, such commodities, or on inventories of food or other products derived from such commodities or products, and any receivables or proceeds from the sale of such commodities or products, and that such arrangements are contrary to the public interest; and that section 5(c) of such Act is intended to remedy such burden on commerce in perishable agricultural commodities and to protect the public interest.

SEC. 4003. TECHNICAL AMENDMENT.

Section 5(c)(2) of the Perishable Agricultural Commodities Act, 1930 (7 U.S.C. 499e(c)(2)) is amended to read as follows:

"(2) Perishable agricultural commodities received by a commission merchant, dealer, or broker in all transactions, and all inventories of food or other products derived from perishable agricultural commodities, and any receivables or proceeds from the sale of such commodities or products, shall be held in trust by such commission merchant, dealer, broker, or by a lender who finances the business operations of such a commission merchant, dealer, or broker, whether or not the lender holds a security interest in such trust assets, for the benefit of all unpaid suppliers or sellers of such commodities or agents involved in the transaction, until full payment of the sums owing in connection with such transactions has been received by such unpaid suppliers, sellers, or agents. Payment shall not be considered to have been made if the supplier, seller, or agent receives a payment instrument which has been dishonored. The provisions of this subsection shall not apply to transactions between a cooperative association (as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141j(a)), and its members.".

TITLE V—EQUITABLE TREATMENT FOR SUGARCANE PRODUCERS

SEC. 5001. EQUITABLE TREATMENT FOR PRODUCERS.

Section 359f(b)(5) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359ff(b)(5)) (hereinafter referred to as "the 1938 Act"), is amended by striking subparagraph (B) and inserting the following:

"(B) DETERMINATION OF VIOLATION.—No producer shall be considered to have violated subparagraph (A) unless the processor of the sugarcane harvested by such producer from acreage in excess of the proportionate share of the farm markets an amount of sugar that exceeds the allocation of such processor for a fiscal year.

"(C) CIVIL PENALTY.—Any producer on a farm who violates subparagraph (A) by knowingly harvesting, or allowing to be harvested, an acreage of sugarcane in excess of the farm's proportionate share shall be liable to the Commodity Credit Corporation for a civil penalty equal to one and one-half times the United States market value of the quantity of sugar that is marketed by the processor of such sugarcane in excess of the allocation of such processor for the fiscal year. The Secretary shall prorate penalties imposed under this subparagraph in a fair and equitable manner among all the producers of sugarcane harvested from excess acreage that is acquired by such processor.".

SEC. 5002. ADJUSTMENT AFTER DISASTER.

Section 359f(b) of the 1938 Act, as amended by section 5001 of this Act, is further amended by inserting after paragraph (6) the following new paragraph:

"(7) ADJUSTMENTS.—Whenever the Secretary determines that, because of a natural disaster or other condition beyond the control of producers that adversely affects a crop of sugarcane subject to proportionate shares, the amount of sugarcane produced by producers subject to the proportionate shares will not be sufficient to enable processors in the State to meet the State's cane sugar allotment and provide a normal carryover inventory of sugar, the Secretary may uniformly allow producers to harvest an amount of sugarcane in excess of their proportionate share, or suspend proportionate shares entirely, as necessary to enable processors to meet the State allotment and provide a normal carryover inventory of sugar.".

SEC. 5003. CLARIFYING AND CONFORMING AMENDMENTS.

Section 359f(b) of the 1938 Act, as amended by sections 5001 and 5002 of this Act, is further amended—

(1) in paragraph (1)(B), by—

(A) striking "production of sugar" and inserting "production of sugarcane"; and

(B) inserting "of sugar" before the period at the end;

(2) in the first sentence of paragraph (2), by—

(A) striking "sugar processed from all crops by all processors" and inserting "sugarcane produced by producers in the area"; and

(B) inserting "of sugar" after "provide a normal carryover inventory"; and

(3) in the second sentence of paragraph (2), by inserting "paragraph (7) and" after "under".

TITLE VI—USE OF ELECTRONIC COTTON WAREHOUSE RECEIPTS

SEC. 6001. USE OF ELECTRONIC COTTON WAREHOUSE RECEIPTS.

Section 17 of the United States Warehouse Act (7 U.S.C. 259) is amended—

(1) in paragraph (1)(A) of subsection (c)—

(A) by striking "The Secretary of Agriculture, or" and inserting "Notwithstanding any other provisions of State or Federal law, the Secretary of Agriculture, or";

(B) by striking "licensed under this Act" and inserting "licensed under this Act or in any other warehouse";

(C) by striking "section 18" and inserting "section 18 or under any applicable State law";

(2) in paragraph (2)(A) of subsection (c), by striking "of this Act" and inserting "of this Act or State law";

(3) in paragraph (2)(B) of subsection (c), by striking "the Secretary may" and inserting "with respect to cotton stored in a warehouse licensed under this Act, the Secretary may";

(4) in paragraph (3) of subsection (c), by striking "licensed under this Act" and inserting "covered under this subsection"; and

(5) by adding the following new subsection at the end thereof:

"(e) Notwithstanding any other provision of State or Federal law, any person designated as a holder of an electronic cotton warehouse receipt on a record in a system of records applicable to cotton maintained on an electronic cotton warehouse receipt system approved by the Secretary of Agriculture pursuant to regulations issued under this section shall, for the purposes of perfecting the security interest of such person under State or Federal law with respect to the cotton covered by such warehouse receipt, be considered to be in possession of the warehouse receipt. This subsection is applicable to electronic cotton warehouse receipts covering cotton stored in a cotton warehouse, whether or not such warehouse is licensed under this Act.".

AMENDMENT NO. 3417

Mr. FORD. I move that the Senate concur in the amendment of the House with a further amendment, which I send to the desk on behalf of Senators LEAHY and LUGAR.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. LEAHY, for himself, and Mr. LUGAR, proposes an amendment numbered 3417.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(The text of the amendment appears in today's RECORD under "Amendments Submitted.")

The ACTING PRESIDENT pro tempore. The question is on agreeing to the motion.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. FOWLER. Mr. President, this legislation is extremely important to the beginning farmers of America and I am pleased to support its passage. However, we have failed to address an important provision expanding the lending authority of the Farm Credit System. I have worked long and hard with the chairman of the Agriculture Committee on this matter and we have come to an agreement which temporarily resolves some of my concerns.

Mr. LEAHY. The interest of the Senator from Georgia in this matter is well documented and he should be commended for his commitment to expanding economic development opportunities in rural America.

Mr. FOWLER. I thank my distinguished chairman and want to clarify our agreement. It is my understanding the Senate Committee on Agriculture, Nutrition, and Forestry will hold a full committee hearing on the expansion of the Farm Credit System's lending authority early next year?

Mr. LEAHY. The distinguished Senator from Georgia is correct. The committee will hold a hearing on that matter at the beginning of the 103d Congress early next year.

Mr. FOWLER. It is also my understanding that after the hearing the committee members will examine the testimony to determine if there is interest in moving forward with legislation. If there is significant interest in moving forward with legislation expanding the lending authority of the Farm Credit System, the committee will act accordingly.

Mr. LEAHY. If after the hearing there is a desire by the members of the committee to address the expansion of lending authority, the committee will act accordingly.

Mr. FOWLER. I thank the Senator from Vermont and also want to recognize his continued leadership on the many issues facing rural America.

Mr. LEAHY. Mr. President, it is with great pleasure that I discuss one section of S. 1709. This act will revitalize the Industrial Development Grant Program. In the past, that program far too narrowly focused on aiding employers—instead of also aiding employees who want job advancement or persons that need job training.

The bureaucratic rules became a straitjacket, preventing dedicated Vermont staff—and USDA staff in other States—from doing their job.

Attracting businesses to Vermont and training Vermonters for quality jobs in Vermont should be top priority for any Vermont business development program.

All too often stacks of regulations written in Washington hinder operations at the local level. The program become buried in red tape. Paperwork and auditing requirements should not be more important than effective educational instruction for job advancement or training.

This act is intended to cut through the paperwork. It will greatly help in Vermont if the USDA officials in Washington properly implement this law. It should be noted that the law is effective on enactment.

The act is designed to permit a much closer coordination between businesses that are considering locating in Vermont and job training and education programs.

Vermont Interactive Television, for example, wants to provide courses and programming aimed at preparing a quality Vermont work force. They were just issued a $400,000 grant to provide technical assistance and training to rural businesses. But red tape would have made it harder to achieve its goals.

This act specifically allows those funds to be used for the expansion and operation of rural distance learning networks, including the VIT network, so as to provide educational instruction or job training to adult students.

I want to thank several people that have played key roles in the expansion of this great program. Dr. Charles Bunting, chancellor of Vermont State Colleges, and Dr. Robert Clarke, president of the Vermont Technical College, provided the key leadership.

Dr. Patricia Thomas, chair of the coordination council for VIT and Judy

Hastings, program manager for Vermont interactive television, should be recognized for their tremendous contributions and for the long hours they have spent making VIT a great success.

Joe Mora, of the Vermont State Colleges, has been extremely helpful in assisting in this effort. USDA staff in Vermont, Rhonda Shippee and Bert MacIntyre, have done their best to help with this project. I greatly appreciate the time and effort they have spent on this program and their dedication to improving rural America.

I intend to carefully monitor USDA's issuance of regulations in Washington to make sure they do not interfere with VIT's ability to offer outstanding programming to Vermonters. I want to stress again that this act is effective when it is signed by the President and I urge the Department not to delay implementation.

Mr. DOMENICI. Mr. President, I would like to take this time to express my sincere appreciation to the distinguished chairman and ranking member of the Committee on Agriculture, Nutrition, and Forestry for including a technical amendment to the Consolidated Farm and Rural Development Act in this bill.

The amendment corrects a technicality that will help small rural communities along our southern border.

Mr. President, H.R. 5487, the Agriculture, Rural Development, Food and Drug Administration, and related agencies appropriations public law for fiscal year 1993, includes $25 million for these small rural communities known as colonias under the Rural and Waste Disposal Grants Program.

The funding for these small rural communities was requested by the President to address the serious water and wastewater deficiencies in those communities.

I am very pleased that the Agriculture appropriations conferees included funding for this very important program in the Agriculture appropriations bill which is now public law. But Mr. President, it has been brought to my attention that many of the colonias in my State may not even qualify for the grants because of technicalities in the final legislative language.

Mr. President, let me first explain the significance of this very important funding for the colonias.

The colonias are small, unincorporated rural communities with population ranging from about 250 persons to about 5,000 persons.

Many of the colonias were originally settled over 100 years ago, and the majority of the residents are low-income families of Mexican and Mexican-American descent.

There are hundreds of individuals that live in the colonias that will suffer from a lack of adequate water and sanitation facilities.

This situation is truly dangerous in terms of sanitation and health hazards from the lack of proper water and sewer systems.

Others have recognized the serious nature of this problem and funding for the colonias.

In fact, Mr. President, the conference report accompanying the Agriculture appropriations bill includes language asking the President of the United States to urge the appropriate agencies, to develop a comprehensive and coordinated strategy and plan of action for the delivery of assistance and programs to improve the adverse environmental and health problems of the colonias.

It seems to me that both the Congress and the President see the urgent needs of the colonias. But because of some technicalities that have arisen the colonias, at least 12 of the 14 colonias in my State of New Mexico, would not have qualified for this important funding without the amendment being adopted here.

According to the Consolidated Farm and Rural Development Act, section 306C(a)(2), moneys under this program will be distributed to a particular county only if that county's unemployment rate is not less than 125 percent of the National average and the per capita income of the residents is not more than 70 percent of the national average per capita income.

The majority of the colonias are located in Dona Ana County in my State of New Mexico.

Mr. President, presently the County of Dona Ana, does not qualify because its unemployment rate ranges around 110 percent of the national average. This is due, in part, because Dona Ana is a very large county and includes the thriving city of Las Cruces, New Mexico State University and the White Sands missile range which bring down the County's overall unemployment rate.

Because the county does not qualify the colonias in that county would not have received funding under this initiative. The colonias and the surrounding rural areas in Dona Ana County paint a much gloomier picture than the city of Las Cruces. I believe the colonias are well above 125 percent of the national unemployment average.

Mr. President, the technical change in this bill will amend section 306C(a)(2) of the Consolidated Farm and Rural Development Act to include a rural area which was recognized as a colonia as of October 1, 1989.

Because of this technical change, the colonia in Dona Ana County, as well as colonias in other counties, will have a chance to receive funding to address their water and wastewater needs.

Mr. LUGAR. Mr. President, today the Senate is considering a series of provisions addressing issues relating to agricultural credit, rural development and improvements of a technical nature to existing farm programs.

These bills contain many important provisions that deserve the attention and support of the Senate. One of the bills, S. 1709, H.R. 6125—pertaining to the Farm Credit System, contains provisions that address issues raised by the Treasury Department and the General Accounting Office [GAO] in their 1991 review of Government sponsored enterprises [GSE]. Importantly, it contains language that unequivocally restates the obligation of the Farm Credit System to repay the Federal assistance authorized in the 1987 Farm Credit Act. This bill also establishes an orderly schedule for the repayment of that debt. The farmers and ranchers comprising the Farm Credit System should be commended for their efforts to implement this repayment schedule.

For the Members not as close to the farm credit situation, I am pleased to report that net income for the System and individual banks has been up for the past several years, and every year marks a drop in the level of nonaccruing loans is dropping in virtually every farm credit district. Further the System is continuing to contribute to its own self insurance fund to protect against future requests for Federal assistance. Currently that fund is capitalized at a level of approximately $660 million.

The language of the bill requires each System bank to enter into or continue in effect an agreement with the Farm Credit System Financial Assistance Corporation [FAC] such that each bank will make annual annuity-type payments to the Financial Assistance Corporation that will provide for the orderly funding of each bank's obligation under section 6.9(e) of the Farm Credit Act of 1971, as amended.

In December of 1990, the three banks for cooperatives entered into agreements under which certain payments have been made to FAC consistent with the requirement. The remaining System banks entered into similar agreements at the end of 1991, but these never became operable. It is the intent of this bill that the agreements executed by the System banks, to the extent that they are consistent with the requirements of this bill, qualify as the agreements required by the section of this legislation dealing with the repayment of capital preservation commitments.

Another bill, contains provisions that would assist beginning farmers and ranchers begin their farming ventures. I strongly support that objective. The bill also contains a provision that establishes a timeframe under which FmHA borrowers are directed to leave the FmHA umbrella and seek private sources of capital. This bill requires graduation from FmHA lending after 10 years. I also strongly favor that graduation provision.

I believe it is important that Congress take all possible steps to redirect the lending focus of the FmHA away from being source of subsidized credit to marginal farmers almost in perpetuity toward a proactive focus of assisting new farmers to acquire the experience and land to begin a career in farming.

Mr. President, these bills have been carefully reviewed over the past several weeks and I believe have been tailored to address any concerns raised by Members. I urge their swift consideration.

ELHAM GHANDOUR CICIPPIO RELIEF ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of calendar 779, S. 2499, a bill for the relief of Elham Ghandour Cicippio.

The ACTING PRESIDENT pro tempore. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (S. 2499) for the relief of Elham Ghandour Cicippio.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on the Judiciary, with an amendment to strike all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. WAIVER OF PERIOD OF RESIDENCY REQUIREMENT.

Elham Ghandour Cicippio shall be considered to have satisfied the requirements of section 316 of the Immigration and Nationality Act relating to required periods of residence and physical presence within the United States, and, notwithstanding section 310(d) of that Act, may be naturalized if she is otherwise eligible for naturalization under that Act.

SEC. 2. LIMITATION OF WAIVER.

Section 1 shall apply only if Elham Ghandour Cicippio files an application for naturalization within 60 days after the date of the enactment of this Act.

AMENDMENT NO. 3418, EN BLOC

(Purpose: For the relief of Elham Ghandour Cicippio)

Mr. SIMPSON. Mr. President, on behalf of Senator SPECTER, I send two amendments to the desk, en bloc, and ask for their immediate consideration.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Wyoming [Mr. SIMPSON], for Mr. SPECTER, proposes amendments, en bloc, numbered 3418.

Mr. SIMPSON. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendments are as follows:

On page 1, line 9, strike "310(d)" insert "316(a)(1)".

On page 1, line 6, strike "316" insert "319(a)".

The ACTING PRESIDENT pro tempore. The question is on agreeing to the amendments, en bloc.

The amendments (No. 3418), en bloc, were agreed to.

The ACTING PRESIDENT pro tempore. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute, as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The ACTING PRESIDENT pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 2499

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. WAIVER OF PERIOD OF RESIDENCY REQUIREMENT.

Elham Ghandour Cicippio shall be considered to have satisfied the requirements of section 319(a) of the Immigration and Nationality Act relating to required periods of residence and physical presence within the United States, and, notwithstanding section 316(a)(1) of that Act, may be naturalized if she is otherwise eligible for naturalization under that Act.

SEC. 2. LIMITATION OF WAIVER.

Section 1 shall apply only if Elham Ghandour Cicippio files an application for naturalization within 60 days after the date of the enactment of this Act.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

DAIRY AND DISASTER ASSISTANCE ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of calendar 280, H.R. 2893, the Disaster and Dairy Assistance Act of 1991.

The ACTING PRESIDENT pro tempore. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2893) to extend to 1991 crops the disaster assistance provisions of the Food, Agriculture, Conservation and Trade Act of 1990.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Agriculture, Nutrition, and Forestry, with an amendment to strike all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Dairy and Disaster Assistance Act of 1991".

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—DAIRY PRICE SUPPORT AND STABILIZATION PROGRAM

Sec. 101. Findings.
Sec. 102. Policy and purpose.
Sec. 103. Price support operations; surplus reduction program.
Sec. 104. Standards of identity for milk.
Sec. 105. Mandated dairy sales to the Soviet Union.
Sec. 106. Regulations.
Sec. 107. Effective date.

TITLE II—EMERGENCY CROP LOSS ASSISTANCE

Sec. 201. Extension of emergency crop loss assistance to 1990 and 1991 crops.
Sec. 202. Emergency grants to assist low-income migrant and seasonal farmworkers.
Sec. 203. Emergency aquaculture program.
Sec. 204. Emergency livestock feed assistance.
Sec. 205. Emergency forage program.

TITLE I—DAIRY PRICE SUPPORT AND STABILIZATION PROGRAM

SEC. 101. FINDINGS.

Congress finds that—

(1) milk and dairy products are basic foods and as a valuable part of the human diet a primary source of required nutrients, such as calcium;

(2) the production of milk and dairy products plays a significant role in the economy of the United States, in that—

(A) milk and dairy products are consumed by millions of people in the United States every day; and

(B) the production of milk and dairy products involves approximately 200,000 dairy farmers and requires substantial handling, processing, and marketing resources;

(3) dairy farmers have a relatively limited ability to protect themselves from price risk in that—

(A) the commodity they produce is not easily storable;

(B) they are restricted in their access to forward pricing or hedging; and

(C) dairy farming is so specialized that they cannot mitigate price risk by diversifying the mix of commodities they produce;

(4) unstable farm prices are detrimental to the nation's consumers of milk because processors, in order to manage their risk, will increase margins above levels expected with stable prices;

(5) current dairy program policies, which do not include an inventory management component, have failed to prevent the producer market price for milk from collapsing in 1990 and in 1991;

(6) the all-milk price is expected to be less than the cost of production, subjecting dairy farmers to financial stress not experienced in decades;

(7) without further action, producer milk prices in future years will continue to be unstable, making it difficult to maintain an economically healthy dairy sector;

(8) the measures resulting from the amendments made by this title, including the surplus reduction program, are needed to—

(A) ensure consumers of a reliable and adequate supply of pure and wholesome milk and dairy products at reasonable prices;

(B) respond adequately to current and anticipated future dairy supply and demand problems; and

(C) ensure a level of farm income for dairy producers adequate to maintain productive capacity sufficient to meet the anticipated future needs; and

(9) the measures resulting from the amendments made by this title should avoid any increase in net Federal outlays in the milk price support program.

SEC. 102. POLICY AND PURPOSE.

(a) IN GENERAL.—It is declared to be the policy of Congress that it is in the public interest to—

(1) balance milk production and consumption in order to improve and stabilize farm income and limit Government expenditures;

(2) reduce undesirable fluctuations in supplies and prices of milk and stabilize the price of milk at fair and reasonable levels to protect the interests of consumers and producers; and

(3) facilitate orderly marketing conditions for milk and dairy products to enable dairy farmers in the United States to respond adequately to the needs of consumers.

(b) PROTECTION OF CONSUMERS.—It is the sense of Congress that the authorities provided by this title and the amendments made by this title shall be used to ensure the production of pure and wholesome milk and dairy products at the level required to meet the needs of consumers in the United States.

SEC. 103. PRICE SUPPORT OPERATIONS; SURPLUS REDUCTION PROGRAM.

(a) PRICE SUPPORT.—Subsection (b) of section 204 of the Agricultural Act of 1949 (7 U.S.C. 1446e(b)) is amended to read as follows:

"(b) RATE.—

"(1) 1991.—During the period beginning on January 1, 1991, and ending on December 31, 1991, the price of milk shall be supported at a rate of not less than $10.10 per hundredweight for milk containing 3.67 percent milkfat.

"(2) 1992 THROUGH 1995.—

"(A) IN GENERAL.—During the period beginning on January 1, 1992, and ending on December 31, 1995, the price of milk shall be supported at a rate of not less than $11.10 per hundredweight for milk containing 3.67 percent milkfat.

"(B) ADJUSTMENT FOR PROGRAM OPERATION.—Notwithstanding any other provision of law, if net removals by the Commodity Credit Corporation exceed 5 billion pounds of milk and products of milk (milk equivalent, total milk solids basis) for any year, the Secretary shall support the price in the immediately subsequent year at a rate of not less than $12.10 per hundredweight for milk containing 3.67 percent milkfat.".

(b) BUTTER AND NONFAT DRY MILK.—Paragraph (3) of section 204(c) of such Act is amended to read as follows:

"(3) BUTTER AND NONFAT DRY MILK.—

"(A) ESTABLISHED PURCHASE PRICES.—

"(i) 1992.—In calendar year 1992, the Secretary shall establish the purchase price for butter at not more than $0.9425 per pound, and the purchase price for nonfat dry milk at not less than $0.995 per pound.

"(ii) 1993 THROUGH 1995.—In each of the calendar years 1992 through 1995, the Secretary shall establish the purchase price for butter and nonfat dry milk as the Secretary determines to be appropriate.

"(B) NOTIFICATION.—If the Secretary determines that the rate of price support between the purchase prices for nonfat dry milk and butter should be allocated in a manner that does not result in the lowest level of expenditures by the Commodity Credit Corporation, the Secretary shall notify the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate of the alternative allocation and the justification for the alternative allocation.

"(C) TIMING OF PURCHASE PRICE ADJUSTMENT.—The Secretary may make adjustments in the purchase prices for nonfat dry milk and butter the Secretary considers to be necessary not more than twice in each calendar year.".

(c) RECOURSE LOANS FOR PROCESSED MILK PRODUCTS.—Subsection (e) of section 204 of such Act is amended to read as follows:

"(e) RECOURSE LOANS FOR PROCESSED MILK PRODUCTS.—

"(1) IN GENERAL.—Beginning on January 1, 1993, if the Secretary determines that operation of a recourse loan program will improve the orderly marketing of dairy products and the stability of dairy product prices, the Secretary may make available to processors of milk a recourse loan on products of milk (butter, cheese, and nonfat dry milk).

"(2) RATE.—The Secretary shall offer loans on the products at a rate that will enable plants of average efficiency to pay producers, on average, a price that is at least 95 percent but not more than 100 percent of the simple average price received by producers for manufacturing grade milk containing 3.67 percent milkfat for the immediately preceding 5 years, excluding the year in which the average price was the highest and the year in which the average price was the lowest.

"(3) TERMS.—Loans shall be made under this section only in the first 5 months of the calendar year and shall mature at the earlier of—

"(A) the end of 6 months; or

"(B) the end of the fiscal year.

"(4) ASSESSMENT.—

"(A) IN GENERAL.—No later than December 1, 1992, the Secretary shall assess the extent to which the operation of a recourse loan program, made available to the processors of the products of milk, will improve the performance and functioning of dairy markets.

"(B) EFFECT ON ORDERLY MARKETING.—The Secretary shall consider the extent to which the operation of a recourse loan program will improve the orderly marketing of dairy products and the stability of dairy product prices within a marketing year.

"(C) CONSULTATION.—In conducting the assessment and as soon as possible after the assessment is completed, the Secretary shall consult with the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate and, as determined by the Secretary, appropriate representatives from the dairy industry.".

(d) SURPLUS REDUCTION PROGRAM.—Subsection (g) of section 204 of such Act is amended to read as follows:

"(g) SURPLUS REDUCTION AND PREVENTION PROGRAM.—

"(1) IN GENERAL.—The Secretary shall enter into contracts in each of the 1992 through 1995 calendar years with producers in the United States to reduce the marketings of milk for commercial use to ensure that annual net removals by the Commodity Credit Corporation do not exceed 4.5 billion pounds (milk equivalent, total milk solids basis).

"(2) NATIONAL REDUCTION IN MILK MARKETINGS.—

"(A) ANNUAL DETERMINATION.—Not later than November 15 of each of the calendar years 1991 through 1994, the Secretary shall determine the national reduction in milk marketings necessary in the following calendar year to limit net removals by the Commodity Credit Corporation in the year to a level of not more than 4.5 billion pounds (milk equivalent, total milk solids basis).

"(B) CRITERIA.—In making the reduction determination required under subparagraph (A), the Secretary shall—

"(i) use the rate of price support that will be effective for the calendar year subsequent to the year in which the determination is made under this section; and

"(ii) assume there will be no new entrants during that calendar year in the surplus reduction and prevention program established under this subsection.

"(3) REGIONAL REDUCTION IN MILK MARKETINGS.—

"(A) IN GENERAL.—The Secretary shall ensure that participation in the surplus reduction and prevention program shall be proportionately distributed, based on the quantity of milk produced, among the regions identified in subparagraph (B).

"(B) DEFINITION OF REGIONS.—For purposes of this subsection, the United States shall be divided into seven geographic regions as follows:

"(i) California, Oregon, and Washington.

"(ii) Arizona, Arkansas, Colorado, Idaho, Kansas, Montana, Nevada, New Mexico, Oklahoma, Texas, Utah, and Wyoming.

"(iii) Illinois, Iowa, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota.

"(iv) Wisconsin.

"(v) Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia.

"(vi) Delaware, Indiana, Maryland, Michigan, New Jersey, Ohio, Pennsylvania, and West Virginia.

"(vii) Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont.

"(C) REGIONAL MARKETING PERCENTAGE.—Not later than November 15 of each of the calendar years 1991 through 1994, the Secretary shall determine a regional marketing percentage for each region that is equal to the ratio of—

"(i) the total quantity of milk marketed in the region in the 12 months prior to the determination; to

"(ii) the total quantity of milk marketed in the United States in the 12 months prior to the determination.

"(D) REGIONAL ALLOCATION.—To the extent practicable (taking into consideration the regional supply and demand for fluid milk), the Secretary shall determine the total reduction in the quantity of milk marketed for a region under the surplus reduction and prevention program to be equal to the product obtained by multiplying—

"(i) the national reduction in milk marketings, as determined under paragraph (2); by

"(ii) the regional marketing percentage for that region, as determined under subparagraph (C).

"(4) SURPLUS REDUCTION CONTRACTS.—

"(A) IN GENERAL.—Beginning on January 1, 1992, the Secretary shall provide cash payments from the Commodity Credit Corporation to producers who enter into surplus reduction contracts to reduce the quantity of milk the producers market for commercial use during the relevant time period.

"(B) RATE OF PAYMENTS.—In determining the amount to be paid to producers under the contracts, the Secretary may offer payments to, or accept bids from, producers at a level that is necessary to achieve the national and regional reductions in milk marketings required under this subsection.

"(C) PERIOD OF CONTRACT.—In those cases in which contracts are entered into, the Secretary shall offer to enter into contracts in which a participant shall reduce the quantity of milk marketed by the participant over a period of 24 to 36 months, as determined by the Secretary. The Secretary may offer contracts for a shorter period to permit the dairy industry to adjust to unforeseen changes in factors affecting milk production, prices, and the demand for milk products, as determined by the Secretary. In no case shall contracts be for a period of less than 12 months.

"(D) ANNUAL LEVEL OF REDUCTION.—For each year of a contract, the level of reduction in the

quantity of milk marketed shall be equal to the product obtained by multiplying—

"(i) not less than 5 percent, nor more than 30 percent; by

"(ii) the producer's relevant milk marketing history for that contract year, as determined pursuant to subparagraph (E).

"(E) MILK MARKETING HISTORY.—For purposes of surplus reduction contracts entered into under this subsection, a producer's milk marketing history shall be equal to—

"(i) for a producer entering into a surplus reduction contract for reduction beginning in calendar year 1992, the quantity of milk marketed by a producer during 1991;

"(ii) for a producer entering into a surplus reduction contract for reduction beginning in calendar year 1993, the average quantity of milk that is marketed and considered marketed by the producer during 1991 and 1992; and

"(iii) for a producer entering into a surplus reduction contract for reduction beginning in calendar year 1994 or 1995, the average quantity of milk that is marketed and considered marketed by the producer during the previous 3 years.

"(F) ENROLLMENT PERIOD.—

"(i) FREQUENCY OF ENROLLMENT PERIODS.—The Secretary shall offer to enter into surplus reduction contracts on at least three occasions during 1992, and on as many occasions during 1993 through 1995 as the Secretary determines necessary.

"(ii) INITIAL PERIOD.—The Secretary shall allow producers to enroll in the surplus reduction program for an initial period of at least 30 days prior to the beginning of the program. Subsequent enrollment periods shall be of such duration as determined by the Secretary.

"(G) PAYMENTS TO PARTICIPANTS.—

"(i) TIMING.—The Secretary shall make conditional whole or partial payments to participants in the surplus reduction program on at least a quarterly basis, or more frequently at the option of the Secretary.

"(ii) ANNUAL SETTLEMENT PAYMENT.—If necessary, the Secretary shall make an annual settlement payment at the end of each year of the contract period, based on the total reduction in the quantity of milk marketings by the producer during the year.

"(iii) REDUCTION IN PRICE RECEIVED.—Any producer that participates in the surplus reduction program shall not be subject to the reduction in price received under subsection (h) on milk marketed during the term of the contract.

"(H) FUNDING.—The Secretary shall make payments to participants in the surplus reduction program from funds of the Commodity Credit Corporation.

"(I) SEASONAL STABILITY.—The Secretary shall, to the maximum extent practicable and consistent with the other obligations and objectives of this section, administer the surplus reduction program in a manner that will reduce the seasonal fluctuation in the supply of milk produced in the United States.

"(J) OTHER TERMS.—Each contract may include such other terms and conditions as are necessary to ensure that the goals and objectives of the surplus reduction program are met, as determined by the Secretary.

"(5) SURPLUS PREVENTION CONTRACTS.—

"(A) IN GENERAL.—Beginning on January 1, 1992, the Secretary shall offer to enter into contracts with producers not to increase the level of their marketings of milk from the immediately preceding year, as determined in subparagraph (D).

"(B) REDUCTION IN PRICE RECEIVED.—Any producer that participates in the surplus prevention program shall not be subject to the reduction in price received under subsection (h) on milk marketed during the term of the contract.

"(C) PERIOD OF CONTRACT.—The Secretary shall offer to enter into contracts in which a participant shall agree not to exceed the quantity of milk marketed by the participant over a period of 12 months.

"(D) ANNUAL LEVEL OF MARKETINGS.—For each year of a surplus prevention contract, the level of milk marketed by the participant shall not exceed the quantity of milk marketed and considered marketed in the year immediately preceding the term of the contract.

"(E) ENROLLMENT PERIOD.—The Secretary shall allow producers to enroll in the surplus reduction program for an initial period of at least 30 days prior to the beginning of the program. Subsequent enrollment periods shall be of such duration as determined by the Secretary.

"(F) OTHER TERMS.—Each contract may include such other terms and conditions as are necessary to ensure that the goals and objectives of the surplus prevention program are met, as determined by the Secretary.

"(6) CONSIDERED MARKETED.—For purposes of calculating a marketing history under paragraphs (4) and (5), the producer may receive an allowance for amounts considered marketed in previous years only to the extent that for a year the producer enters into a contract under paragraph (4). The quantity of milk considered marketed for the year shall equal the quantity of contracted reduction for the year, except that there shall be no allowance made under this paragraph for quantities considered marketed if the quantity actually marketed in the year exceeded the quantity permitted by the year's contract.

"(7) RECORDS.—

"(A) MARKETING HISTORY.—Any producer of milk who seeks to enter into a contract for payments under this subsection shall provide the Secretary with evidence of the quantity of milk marketed by the producer in previous years to establish the producer's marketing history, as the Secretary considers necessary and appropriate.

"(B) OTHER RECORDS AND REPORTS.—Each producer who enters into a contract with the Secretary to reduce marketings under this subsection shall keep such records and make such reports as the Secretary determines necessary to carry out this subsection.

"(8) MODIFICATION OF CONTRACTS.—

"(A) AUTHORITY.—Subject to subparagraph (B), the Secretary may, in accordance with such rules or procedures as are prescribed by the Secretary, offer to modify contracts entered into under this subsection.

"(B) DETERMINATION.—Prior to a modification under subparagraph (A), the Secretary shall determine that, in the absence of the modification, net removals by the Commodity Credit Corporation would fall excessively below 4.5 billion pounds (milk equivalent, total milk solid basis) during the year.

"(9) ASSIGNMENT OF CONTRACTS.—A producer may, with the approval of the Secretary, assign a contract entered into under this paragraph only if—

"(A) the producer's interest in the entire milk production facility and the entire dairy herd used by the producer to produce milk for commercial marketings have been transferred as a unit to the person to whom the assignment is to be made;

"(B) the producer and the assignee agree in writing that the assignee shall succeed to all rights and liabilities of the producer under the contract; and

"(C) a copy of the writing is submitted to the Secretary before the transfer occurs.

"(10) DECEASED PRODUCERS.—A contract entered into under this subsection by a producer who by reason of death cannot perform or assign the contract may be performed or assigned, in accordance with paragraph (9), by the estate of the producer.

"(11) COMPLIANCE.—

"(A) IN GENERAL.—The Secretary shall ensure compliance by producers with the contracted level of reductions in the quantity of milk marketed, including contracts for a term in excess of 1 year. The Secretary shall ensure compliance with surplus reduction contracts on at least a quarterly basis, consistent with payments to producers under paragraph (4)(G)(i).

"(B) INITIAL ENROLLMENT.—During the initial enrollment period specified in paragraph (4)(F), the Secretary shall, at the option of the participant, not require full compliance with the terms and conditions of the surplus reduction contract until 45 days after entering into the contract. Full compliance with the terms and conditions of the contract shall be required on a quarterly basis, as provided in this paragraph.

"(C) VIOLATIONS OF SURPLUS REDUCTION CONTRACTS.—

"(i) REFUNDS.—If a producer violates a contract entered into under paragraph (4), the Secretary shall, as considered appropriate, require that all payments made under the contract be refunded by the producer, with interest at the rate equal, to the extent practicable, to the cost to the Commodity Credit Corporation of its borrowings from the United States Treasury for the relevant time period. The refund shall not relieve the producer from the obligations of the contract.

"(ii) PENALTIES.—A producer who enters into a contract under paragraph (4) shall be liable to the Secretary for marketing penalties, in addition to other remedies available under this section, if the producer—

"(I) fails to make a required reduction in milk marketings;

"(II) retains or acquires an interest in dairy cattle or the production of milk in violation of a contract entered into under this subsection;

"(III) makes a false statement in a bid submitted under paragraph (4) as to the producer's milk marketing history;

"(IV) makes a false statement as to the producer's reduction in milk marketings required under the contract; or

"(V) fails to meet such other terms and conditions of the contract, as the Secretary considers appropriate.

"(iii) LEVEL OF PENALTIES.—The amount of a marketing penalty shall be an amount determined by the Secretary that is the higher of—

"(I) $5,000 for the violation; or

"(II) the quantity of milk involved in the violation multiplied by the current support price, as determined under this section.

"(iv) EXCEPTION.—The Secretary may waive penalties under clause (iii) for a violation that is the result of inadvertent errors in reduction of marketings, as determined by the Secretary, except that the amount of a waiver may not exceed 5 percent of the quantity of the reduction in annual milk marketings by the producer provided for under the contract.

"(D) VIOLATIONS OF SURPLUS PREVENTION CONTRACTS.—

"(i) PENALTY.—If a producer violates a contract entered into under paragraph (5), the Secretary shall, as considered appropriate, require that the producer pay a penalty to the Commodity Credit Corporation for the relevant time period.

"(ii) VIOLATION.—The Secretary shall find a producer in violation of a contract if the producer—

"(I) exceeds the level of milk marketings provided in the contract;

"(II) makes a false statement as to the producer's level of milk marketings required under the contract; or

"(III) fails to meet such other terms and conditions of the contract, as the Secretary considers appropriate.

"(iii) LEVEL OF PENALTY.—The level of the penalty authorized under clause (i) shall equal the sum of—

"(I) the product obtained by multiplying—

"(aa) the amount of the reductions in price received by the producer that would have applied under subsection (h) had that producer not participated in the surplus prevention program during the year; by

"(bb) the total quantity of milk marketed by the producer in that year; and

"(II) an amount determined by the Secretary that is the higher of—

"(aa) $5,000 for the violation; or

"(bb) the quantity of milk involved in the violation multiplied by the current support price, as determined under this section.

"(iv) EXCEPTION.—The Secretary may reduce any penalties under clause (iii)(II) by such amount as the Secretary determines equitable in any case in which the Secretary determines that the failure was unintentional or without knowledge on the part of the person concerned.

"(12) EFFECT ON THE LIVESTOCK INDUSTRY.—In order to minimize the adverse effect of the surplus reduction program on beef, pork, and poultry producers in the United States, the Secretary shall vary the beginning and ending dates of surplus reduction contracts in a region so that the slaughter of dairy animals as a result of the surplus reduction program will occur on a random basis.

"(13) USE OF GOVERNMENT RESOURCES.—In carrying out this subsection, the Secretary may, as the Secretary considers appropriate—

"(A) use the services of State and county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)); and

"(B) enter into agreements to use, on a reimbursable basis, the services of administrators of the Federal milk marketing orders and State milk marketing programs.".

(e) REDUCTION IN PRICE RECEIVED.—Subsection (h) of section 204 of such Act is amended to read as follows:

"(h) REDUCTION IN PRICE RECEIVED.—

"(1) SURPLUS REDUCTION CONTRACTS.—

"(A) IN GENERAL.—During the period beginning on January 1, 1992, and ending on December 31, 1998, the Secretary shall provide for a reduction in the price received on all milk marketed in the United States for commercial purposes by producers that do not enter into surplus reduction or surplus prevention contracts under subsection (g).

"(B) RATE OF REDUCTION.—

"(i) 1992.—During calendar year 1992, the Secretary shall establish the rate of the reduction under subparagraph (A) in the price received by producers at an amount that is not more than $0.56 per hundredweight of milk marketed.

"(ii) 1993.—During calendar year 1993, the Secretary shall establish the rate of the reduction under subparagraph (A) in the price received by producers at an amount that is equal to the sum of—

"(I) the amount that is necessary to reimburse the Commodity Credit Corporation for all payments to producers who participate in the surplus reduction program under subsection (g)(4) in 1993; and

"(II) the amount, in excess of the funds collected under clause (i), that is necessary to reimburse the Commodity Credit Corporation for payments to producers who participated in the surplus reduction program under subsection (g)(4) in 1992.

"(iii) 1994 THROUGH 1998.—During each of the calendar years 1994 through 1998, the Secretary shall establish the rate of the reduction under subparagraph (A) in the price received by producers in an amount that is equal to the amount that is necessary to reimburse the Commodity Credit Corporation for all payments to producers who participate in the surplus reduction program under subsection (g)(4) in the corresponding year.

"(2) RECONCILIATION COMMITMENTS.—

"(A) 1991.—

"(i) AUTHORITY.—During the period beginning on January 1, 1991, and ending on December 31, 1991, the Secretary shall provide for a reduction in the price received by producers for all milk produced in the United States and marketed by producers for commercial use, in addition to any reduction in price required under paragraph (1).

"(ii) AMOUNT.—The amount of the reduction under clause (i) in the price received by producers shall be 5 cents per hundredweight of milk marketed.

"(iii) REFUND.—The Secretary shall provide a refund of the entire reduction under clause (ii) in the price of milk received by a producer during a calendar year if the producer provides evidence that the producer did not increase marketings in 1991 as compared to marketings by the producer in 1990.

"(B) 1992.—

"(i) AUTHORITY.—During the period beginning on May 1, 1992, and ending on December 31, 1992, the Secretary shall provide for a reduction in the price of milk received by producers that do not enter into surplus reduction or surplus prevention contracts under subsection (g) for all milk produced in the United States and marketed by those producers for commercial use during a contract year, in addition to any reduction in price required under paragraph (1).

"(ii) AMOUNT.—The amount of the reduction under clause (i) in the price received by producers shall be an amount, on a per hundredweight basis of milk marketed, that is sufficient to compensate for refunds made under subparagraph (A)(iii) on the basis of marketings in 1991.

"(C) 1993 THROUGH 1995.—

"(i) AUTHORITY.—During the period beginning on January 1, 1993, and ending on December 31, 1995, the Secretary shall provide for a reduction in the price of milk received by producers that do not enter into surplus reduction or surplus prevention contracts under subsection (g) for all milk produced in the United States and marketed by those producers for commercial use during a contract year, in addition to any reduction in price required under paragraph (1).

"(ii) AMOUNT.—The amount of the reduction under clause (i) in the price received by producers shall be an amount, on a per hundredweight basis of milk marketed, so that total collections shall, to the extent practicable, equal—

"(I) $7,000,000 during calendar year 1993;

"(II) $40,000,000 during calendar year 1994; and

"(III) $80,000,000 during calendar year 1995.

"(3) COLLECTION OF FUNDS.—The funds resulting from the application of any reduction in the price received by producers for milk under paragraph (1) shall be collected and remitted to the Commodity Credit Corporation at such time and in such manner as are prescribed by the Secretary. The funds shall be remitted by any person that purchases milk from a producer, except that in the case of a producer who markets milk of the producer's own production directly to consumers, or other cases as determined by the Secretary, the funds shall be remitted directly to the Corporation by the producer.

"(4) MINIMUM PRICE PROVISIONS.—The funds remitted to the Corporation under this paragraph shall be considered as included in the payments to a producer of milk for purposes of the minimum price provisions of the Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937.".

(f) DEFINITIONS.—

(1) IN GENERAL.—Section 204 of such Act is amended—

(A) by redesignating subsections (j) and (k) as subsections (k) and (l), respectively; and

(B) by inserting after subsection (i) the following new subsection:

"(j) DEFINITIONS.—As used in this section:

"(1) MILK EQUIVALENT, TOTAL MILK SOLIDS BASIS.—The term 'milk equivalent, total milk solids basis', of milk and the products of milk purchased by the Commodity Credit Corporation, shall be equal to the weighted-average of the milk equivalent (as computed on a milkfat basis and on a milk solids nonfat basis) of such products, with weighting factors equal to not more than 40 percent for the milk equivalent, milkfat basis, and not more than 70 percent for the milk equivalent, solids nonfat basis. The weighting factors shall total 100 percent.

"(2) NET REMOVALS.—The term 'net removals' means the level of purchases of milk and the products of milk by the Commodity Credit Corporation under this section, less sales under section 407 for unrestricted use.

"(3) UNITED STATES.—The term 'United States' means the 48 contiguous States in the continental United States.".

(2) ADMINISTRATION.—Section 204(d)(5) of such Act is amended by striking "(5) ADMINISTRATION.—" and all that follows through "In estimating" in subparagraph (B) and inserting "(5) ADMINISTRATION.—In estimating".

(h) CONFORMING AMENDMENTS.—Section 204(i) of such Act is amended by striking "subsection (g) or (h)" each place it appears and inserting "subsection (h)".

(i) PERIOD.—Section 204(l) of such Act (as redesignated by subsection (f)(1)(A) of this section) is amended by inserting after "this section" the following: ", other than as provided in subsection (h)(1),".

SEC. 104. STANDARDS OF IDENTITY FOR MILK.

(a) IN GENERAL.—Section 8c(5) of the Agricultural Adjustment Act (7 U.S.C. 608c(5)), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937 (hereafter in this section referred to as "the Act"), is amended—

(1) in paragraph (G), by striking "No" and inserting "Except as provided in paragraph (H), no"; and

(2) by striking paragraph (H) and inserting the following new paragraph:

"(H) Beginning on January 1, 1994, an order issued pursuant to this section shall contain terms and conditions that require handlers of fluid milk, subject to the order, to market as the highest class milk for fluid use in the geographic area covered by the order only milk that meets the following requirements:

"(i) Milk marketed as whole milk shall contain not less than 12 percent total milk solids consisting of not less than—

"(I) 8.7 percent milk solids not fat; and

"(II) 3.25 percent milk fat.

"(ii) Milk marketed as low fat milk shall contain not less than 12 percent total milk solids consisting of not less than—

"(I) 10 percent milk solids not fat; and

"(II) 2 percent milk fat.

"(iii) Milk marketed as light milk shall contain not less than 12 percent total milk solids consisting of not less than—

"(I) 11 percent milk solids not fat; and

"(II) 1 percent milk fat.

"(iv) Milk marketed as skim milk shall contain not less than 9 percent total milk solids consisting of—

"(I) not less than 9 percent milk solids not fat; and

"(II) not more than 0.25 percent milk fat.

The Federal Milk Market Order Administrators shall test milk sold at the retail level in the geographic area covered by the order to ensure compliance with this paragraph. Violations of this paragraph shall be subject to the penalties provided in subsection (14).".

(b) EXEMPTION FROM REFERENDUM.—The Secretary of Agriculture shall not conduct a referendum under paragraphs (8), (9), and (19) of section 8c(5)(H) of the Act among producers or polling of processors on the amendment made by subsection (a).

(c) APPLICATION TO STATE MILK MARKETING ORDERS.—The requirements of section 8c(5)(H) of the Act, as amended by subsection (a), shall apply with regard to milk marketed for fluid use under State milk marketing orders.

SEC. 105. MANDATED DAIRY SALES TO THE SOVIET UNION.

Section 1163(a) of the Food Security Act of 1985 (7 U.S.C. 1731 note) is amended—

(1) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively; and

(2) by inserting after subsection (a) the following new subsection:

"(b) During calendar year 1991, the Secretary shall sell for export to the Union of Soviet Socialist Republics and its former constituent republics, at such prices as the Secretary determines appropriate, not less than 250,000,000 pounds of dairy products owned by the Commodity Credit Corporation, of which not less than 175,000,000 pounds shall be nonfat dry milk and not less than 55,000,000 pounds shall be butter.".

SEC. 106. REGULATIONS.

Not later than 60 days after the date of the enactment of this Act, the Secretary of Agriculture shall issue such regulations as are necessary to carry out this title and the amendments made by this title.

SEC. 107. EFFECTIVE DATE.

This title and the amendments made by this title shall become effective on the date of the enactment of this Act.

TITLE II—EMERGENCY CROP LOSS ASSISTANCE

SEC. 201. EXTENSION OF EMERGENCY CROP LOSS ASSISTANCE TO 1990 AND 1991 CROPS.

(a) EXTENSION OF ASSISTANCE TO 1990 AND 1991 CROPS.—Chapter 3 of subtitle B of title XXII of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 1421 note; 104 Stat. 3962) is amended to read as follows:

"CHAPTER 3—EMERGENCY CROP LOSS ASSISTANCE

"SEC. 2240. SHORT TITLE.

"This chapter may be cited as the 'Agricultural Disaster Assistance Act'.

"Subchapter A—Annual Crops

"SEC. 2241. PAYMENTS TO PROGRAM PARTICIPANTS FOR TARGET PRICE COMMODITIES.

"(a) DISASTER PAYMENTS—

"(1) IN GENERAL.—Effective only for producers on a farm who entered into a contract to participate in the production adjustment program established under the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) for an eligible crop of wheat, feed grains, upland cotton, extra long staple cotton, or rice, except as otherwise provided in this subsection, if the Secretary determines that, because of damaging weather or related condition, the total quantity of the crop of the commodity that the producers are able to harvest on the farm is less than the result of multiplying 65 percent of the farm program payment yield established by the Secretary for the crop by the sum of the acreage planted for harvest and the acreage prevented from being planted (because of damaging weather or related condition) to the crop on the farm, as determined by the Secretary, the Secretary shall make a disaster payment available to the producers as provided in this subsection.

"(2) PAYMENTS.—

"(A) PAYMENTS FOR PAYMENT ACRES.—

"(i) ASSIGNMENT OF LOSS.—Except as provided in subparagraph (C), in making payments available under this subsection, the Secretary shall assign any deficiency in production of the eligible crop by producers to payment acres for the crop based on the ratio the payment acres for the crop on the farm bears to the total acres planted for harvest and prevented from being planted to the crop (because of damaging weather or related condition).

"(ii) PAYMENT RATE.—The Secretary shall make a payment available to producers for the deficiency in production for the crop assigned to payment acres at a rate equal to 65 percent of the established price for the crop for any deficiency in production greater than 35 percent for the crop.

"(B) PAYMENTS FOR NONPAYMENT ACRES.—

"(i) ASSIGNMENT OF LOSS.—Except as provided in subparagraph (C), in making payments available under this subsection, the Secretary shall assign the deficiency in production of the eligible crop by producers to nonpayment acres for the crop based on the ratio the nonpayment acres for the crop on the farm bears to the total acres planted for harvest and prevented from being planted to the crop (because of damaging weather or related condition).

"(ii) PAYMENT RATE.—The Secretary shall make a payment available to producers for the deficiency in production for the crop assigned to nonpayment acres at a rate equal to 65 percent of the basic county loan rate for the crop for any deficiency in production greater than 35 percent for the crop.

"(C) PAYMENTS FOR EXTRA LONG STAPLE COTTON AND PRODUCERS OF WHEAT, FEED GRAINS, UPLAND COTTON, OR RICE DURING A CROP YEAR PRIOR TO 1991.—The Secretary shall make a payment under this subsection available to producers of an eligible crop of extra long staple cotton and an eligible crop of wheat, feed grains, upland cotton, or rice that is prior to the 1991 crop at a rate equal to 65 percent of the established price for the crop for any deficiency in production greater than 35 percent for the crop.

"(D) LIMITATION.—Payments shall be made available to producers under this section only if the Secretary determines that—

"(i) the producer entered into a contract to participate in the production adjustment program for the eligible crop of wheat, feed grains, upland cotton, extra long staple cotton, or rice; and

"(ii) the producer is in compliance with the contract.".

"(3) OTHER PROVISIONS.—

"(A) DEFINITIONS.—As used in this section:

"(i) NONPAYMENT ACRES.—The term 'nonpayment acres' means the total acreage planted to wheat, feed grains, upland cotton, or rice, as applicable, by a participant in the production adjustment programs for the commodities under sections 101B, 103B, 105B, 107B, or 504 of the Agricultural Act of 1949 (7 U.S.C. 1441-2, 1444-2, 1444f, 1445b-3a, or 1464) less the amount of payment acres planted to the crop.

"(ii) PAYMENT ACRES.—The term 'payment acres' has the same meaning as in sections 101B(c)(1)(C), 103B(c)(1)(C), 105B(c)(1)(C), or 107B(c)(1)(C) of such Act, as applicable.

"(B) CROP INSURANCE.—Payments provided under this section for a crop of a commodity may not be made available to producers on a farm unless the producers enter into an agreement to obtain multiperil crop insurance, to the extent required under section 2247.

"(4) REDUCTION IN DEFICIENCY PAYMENTS.—The total quantity of a crop of a commodity on which deficiency payments otherwise would be payable to producers on a farm under the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) shall be reduced by the quantity on which a payment is made to the producers for the crop under this section.

"(5) ELECTION OF PAYMENTS.—

"(A) APPLICATION OF PARAGRAPH.—This paragraph shall apply only to producers of an eligible crop of wheat, feed grains, upland cotton, extra long staple cotton, or rice on a farm who—

"(i) had failed wheat, feed grain, upland cotton, extra long staple cotton, or rice acreage during the crop year; or

"(ii) were prevented from planting acreage to the commodity because of damaging weather or related condition.

"(B) ELECTION.—The Secretary of Agriculture shall (within 30 days after the date on which assistance is made available under this subchapter for a crop year) permit producers referred to in subparagraph (A) to elect whether to receive disaster payments for the crop for the crop year in accordance with this section in lieu of payments received for the crop under section 101B(c)(1)(D), 103B(c)(1)(D), 105B(c)(1)(E), or 107B(c)(1)(E) of the Agricultural Act of 1949 (7 U.S.C. 1441–2(c)(1)(D), 1444-2(c)(1)(D), 1444f(c)(1)(E), 1445b–3a(c)(1)(E)) (or the corresponding provision in the case of the 1990 crop).

"(6) SPRING WHEAT AS REPLACEMENT CROP FOR WINTER WHEAT.—In providing assistance under this section or section 2242 for a crop of winter wheat, the Secretary shall disregard spring wheat that is planted as a replacement crop for the winter wheat.

"(b) ADVANCE DEFICIENCY PAYMENTS.—

"(1) APPLICATION OF SUBSECTION.—This subsection shall apply only to producers on a farm who elect to participate in the production adjustment program established under the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) for the crop of wheat, feed grains, upland cotton, extra long staple cotton, or rice for an eligible crop.

"(2) FORGIVENESS OF REFUND REQUIREMENT.—

"(A) IN GENERAL.—Subject to subparagraph (B), if because of damaging weather or related condition the total quantity of an eligible crop of the commodity that the producers are able to harvest on the farm is less than the result of multiplying the farm program payment yield established by the Secretary for the crop by the sum of the acreage planted for harvest and the acreage prevented from being planted (because of a natural disaster, as determined by the Secretary) for the crop (hereinafter in this section referred to as the 'qualifying amount'), the producers shall not be required to refund any advance deficiency payment made to the producers for the crop under section 114 of the Agricultural Act of 1949 (7 U.S.C. 1445j) (or, in the case of 1990 crops, section 107C of such Act (7 U.S.C. 1445b-2) as in effect on November 27, 1990) with respect to that portion of the deficiency in production that does not exceed 35 percent of the qualifying amount.

"(B) CROP INSURANCE.—Producers on a farm shall not be eligible for the forgiveness provided for under subparagraph (A), unless the producers enter into an agreement to obtain multiperil crop insurance to the extent required under section 2247.

"(3) ELECTION FOR NONRECIPIENTS.—The Secretary shall allow producers on a farm who, before the date on which assistance is made available under this subchapter for a crop year, elected not to receive advance deficiency payments made available for the crop for the crop year under section 114 of the Agricultural Act of 1949 (7 U.S.C. 1445j) (or, in the case of 1990 crops, section 107C of such Act (7 U.S.C. 1445b–2) as in effect on November 27, 1990) to elect (within 30 days after such date) whether to receive the advance deficiency payments.

"(4) DATE OF REFUND FOR PAYMENTS.—If the Secretary determines that any portion of the advance deficiency payment made to producers for a crop of wheat, feed grains, upland cotton, extra long staple cotton, or rice under section

114 of the Agricultural Act of 1949 (7 U.S.C. 1445j) (or, in the case of 1990 crops, section 107C of such Act (7 U.S.C. 1445b–2) as in effect on November 27, 1990) must be refunded, the refund shall not be required prior to July 31 of the year following the determination for that portion of the crop for which a disaster payment is made under subsection (a).

"SEC. 2242. PAYMENTS TO PROGRAM NON-PARTICIPANTS.

"(a) DISASTER PAYMENTS.—

"(1) IN GENERAL.—Effective only for producers on a farm who elected not to participate in the production adjustment program established under the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) for an eligible crop of wheat, feed grains, upland cotton, extra long staple cotton, or rice for the crop year, if the Secretary of Agriculture determines that, because of damaging weather or related condition, the total quantity of the crop of the commodity that the producers are able to harvest on the farm is less than the result of multiplying 65 percent of the county average yield established by the Secretary for the crop by the sum of acreage planted for harvest and the acreage for which prevented planted credit is approved by the Secretary for the crop under subsection (b), the Secretary shall make a disaster payment available to the producers.

"(2) PAYMENT RATE.—The payment shall be made to the producers at a rate equal to 65 percent of the basic county loan rate (or a comparable price if there is no current basic county loan rate) for the crop, as determined by the Secretary, for any deficiency in production greater than 35 percent.

"(b) PREVENTED PLANTING CREDIT.—

"(1) IN GENERAL.—The Secretary shall provide prevented planting credit under subsection (a) with respect to acreage for an eligible crop that producers on a farm were prevented from planting to the crop of the commodity for harvest because of damaging weather or related condition, as determined by the Secretary.

"(2) MAXIMUM ACREAGE.—The acreage may not exceed the greater of—

"(A) a quantity equal to the acreage on the farm planted (or prevented from being planted due to a natural disaster or other condition beyond the control of the producers) to the commodity for harvest in the immediately preceding crop year minus acreage actually planted to the commodity for harvest in the crop year involved;

"(B) a quantity equal to the average of the acreage on the farm planted (or prevented from being planted due to a natural disaster or other condition beyond the control of the producers) to the commodity for harvest in the 3 immediately preceding crop years minus acreage actually planted to the commodity for harvest in the crop year involved; or

"(C) with respect to crops planted as provided under section 504 of the Agricultural Act of 1949 (7 U.S.C. 1464) for which no such planting history is established, a quantity of acreage determined to be fair and reasonable by the Secretary.

"(3) ADJUSTMENTS.—The Secretary shall make appropriate adjustments in applying the limitations contained in paragraph (2) to take into account crop rotation practices of the producers.

"(c) LIMITATIONS.—

"(1) ACREAGE LIMITATION PROGRAM.—The amount of payments made available to producers on a farm who elect not to participate in the production adjustment program for an eligible crop of a commodity under subsection (a) shall be reduced by a factor equivalent to the acreage limitation program percentage established for the crop under the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.).

"(2) CROP INSURANCE.—Payments provided under subsection (a) for a crop of a commodity may not be made available to the producers on a farm unless the producers enter into an agreement to obtain multiperil crop insurance to the extent required under section 2247.

"SEC. 2243. PEANUTS, SUGAR, AND TOBACCO.

"(a) DISASTER PAYMENTS.—

"(1) IN GENERAL.—Effective only for an eligible crop of peanuts, sugar beets, sugarcane, and tobacco, if the Secretary of Agriculture determines that, because of damaging weather or related condition, the total quantity of the crop of the commodity that the producers on a farm are able to harvest is less than the result of multiplying 65 percent of the county average yield (or program yield, in the case of peanuts) established by the Secretary for the crop by the sum of the acreage planted for harvest and the acreage for which prevented planted credit is approved by the Secretary for the crop under subsection (b), the Secretary shall make a disaster payment available to the producers.

"(2) PAYMENT RATE.—The payment shall be made to the producers at a rate equal to 65 percent of the applicable payment level under paragraph (3), as determined by the Secretary, for any deficiency in production greater than—

"(A) 35 percent for the crop; or

"(B) with respect to a crop of burley tobacco or flue-cured tobacco, 35 percent of the farm's effective marketing quota for the crop for the crop year.

"(3) PAYMENT LEVEL.—For purposes of paragraph (1), the payment level for a commodity shall be equal to—

"(A) for peanuts, the price support level for quota peanuts or the price support level for additional peanuts, as applicable;

"(B) for tobacco, the national average loan rate for the type of tobacco involved, or (if there is none) the market price, as determined under section 2244(a)(2); and

"(C) for sugar beets and sugarcane, a level determined by the Secretary to be fair and reasonable in relation to the level of price support established for crops of sugar beets and sugarcane for the crop year involved, and that, insofar as is practicable, shall reflect no less return to the producer than under the price support levels in effect for the crop year.

"(b) PREVENTED PLANTING CREDIT.—

"(1) IN GENERAL.—The Secretary shall provide prevented planting credit under subsection (a) with respect to acreage for an eligible crop that producers on a farm were prevented from planting to the crop of the commodity for harvest because of damaging weather or related condition, as determined by the Secretary.

"(2) MAXIMUM ACREAGE.—The acreage may not exceed the greater of—

"(A) a quantity equal to the acreage on the farm planted (or prevented from being planted due to a natural disaster or other condition beyond the control of the producers) to the commodity for harvest in the immediately preceding crop year minus acreage actually planted for harvest in the crop year involved;

"(B) a quantity equal to the average of the acreage on the farm planted (or prevented from being planted due to a natural disaster or other condition beyond the control of the producers) to the commodity for harvest in the 3 immediately preceding crop years minus acreage actually planted to the commodity for harvest in the crop year involved; or

"(C) with respect to crops planted on flexible acres as provided under section 504 of the Agricultural Act of 1949 (7 U.S.C. 1464) for which no such planting history is established, a quantity of acreage determined to be fair and reasonable by the Secretary.

"(3) ADJUSTMENTS.—The Secretary shall make appropriate adjustments in applying for a crop year the limitations contained in paragraph (2) to take into account crop rotation practices of the producers and any change in quotas for crops of tobacco for the crop year.

"(c) LIMITATION.—Payments provided under subsection (a) for a crop of a commodity may not be made available to the producers on a farm unless the producers enter into an agreement to obtain multiperil crop insurance to the extent required under section 2247.

"(d) SPECIAL RULES FOR PEANUTS.—Notwithstanding any other provision of law—

"(1) a deficiency in production of quota peanuts from a farm, as otherwise determined under this section, shall be reduced by the quantity of peanut poundage quota that was the basis of the anticipated production that has been transferred from the farm;

"(2) payments made under this section shall be made taking into account whether the deficiency for which the deficiency in production is claimed was a deficiency in production of quota or additional peanuts and the payment rate shall be established accordingly; and

"(3) the quantity of undermarketings of quota peanuts from a farm for a crop that may otherwise be claimed under section 358–1 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358–1) (or, in the case of 1990 crops of peanuts, section 358 of such Act (7 U.S.C. 1358) as in effect on November 27, 1990) for purposes of future quota increases shall be reduced by the quantity of the deficiency of production of the peanuts for which payment has been received under this section.

"(e) SPECIAL RULES FOR TOBACCO.—Notwithstanding any other provision of law—

"(1) the quantity of undermarketings of quota tobacco from a farm for a crop that may otherwise be claimed under section 317 or 319 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1314c or 1314e) for purposes of future quota increases shall be reduced by the quantity of the deficiency of production of the tobacco for which payment has been received under this section; and

"(2) disaster payments made to producers under this section may not be considered by the Secretary in determining the net losses of the Commodity Credit Corporation under section 106A(d) of the Agricultural Act of 1949 (7 U.S.C. 1445–1(d)).

"(f) SPECIAL RULE FOR SUGARCANE.—For purposes of determining the total quantity of a crop of sugarcane that the producers on a farm are able to harvest, the Secretary shall make the determination based on the quantity of recoverable sugar.

"SEC. 2244. OILSEEDS AND NONPROGRAM CROPS.

"(a) DISASTER PAYMENTS.—

"(1) IN GENERAL.—

"(A) ELIGIBILITY.—Effective only for an eligible crop of oilseeds (as defined in section 205(a) of the Agricultural Act of 1949 (7 U.S.C. 1446f(a)) and nonprogram crops, the Secretary shall make a disaster payment under this section available to the producers on a farm if the Secretary of Agriculture determines that, because of damaging weather or related condition, the total quantity of the crop of the commodity that the producers are able to harvest is less than—

"(i) with respect to oilseeds, the result of multiplying 65 percent of the State, area, or county yield, adjusted for adverse weather conditions during the 3 immediately preceding crop years, as determined by the Secretary, for the crop by the sum of the acreage planted for harvest and the acreage for which prevented planting credit is approved by the Secretary for the crop under subsection (b);

"(ii) with respect to nonprogram crops (other than as provided in clauses (i), (iii), and (iv)), the result of multiplying 65 percent of the yield established by the Commodity Credit Corporation under subsection (d)(2) for the crop by the

sum of the acreage planted for harvest and the acreage for which prevented planting credit is approved by the Secretary for the crop under subsection (b);

"(iii) with respect to crops covered in section 207 of the Agricultural Act of 1949 (7 U.S.C. 1446h) (or, in the case of 1990 crops, section 201(b) of such Act (7 U.S.C. 1446(b)) as in effect on November 27, 1990), 65 percent of the historical annual yield of the producers for the crops, as determined by the Secretary; and

"(iv) with respect to fish or seafood described in subsection (d)(1)(A)(ii)(III), 65 percent of the historical annual yield of the acreage of the pond or other aquatic areas in which the fish or seafood are produced or prevented from being produced.

"(B) PAYMENT RATE.—The payment shall be made to the producers at a rate equal to 65 percent of the applicable payment level under paragraph (2), as determined by the Secretary, for any deficiency in production greater than 35 percent for oilseeds and other nonprogram crops for the crop.

"(C) SPECIAL RULE FOR 1990 CROPS.—In the case of 1990 crops, assistance under this section shall be available only to the extent that assistance was not made available under the Disaster Assistance Act of 1989 (Public Law 101–82; 103 Stat. 564) or any other Act for the same losses of the crops.

"(2) PAYMENT LEVEL.—For purposes of paragraph (1), the payment level for a commodity shall equal the simple average price received by producers of the commodity, as determined by the Secretary subject to paragraph (3), during the marketing years for the immediately preceding 5 crops of the commodity, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period.

"(3) CALCULATION OF PAYMENTS FOR DIFFERENT VARIETIES.—

"(A) CROP-BY-CROP BASIS.—The Secretary shall make disaster payments under this subsection on a crop-by-crop basis, with consideration given to markets and uses of the crops, under regulations issued by the Secretary.

"(B) DIFFERENT VARIETIES.—For purposes of determining the payment levels on a crop-by-crop basis, the Secretary shall consider as separate crops, and develop separate payment levels insofar as is practicable for, different varieties of the same commodity, and commodities for which there is a significant difference in the economic value in the market.

"(C) DOUBLE CROPPING.—

"(i) TREATED SEPARATELY.—In the case of a crop that is historically double cropped (including 2 crops of the same commodity) by the producers on a farm, the Secretary shall treat each cropping separately for purposes of determining whether the crop was affected by damaging weather or related condition and the total quantity of the crop that the producers are able to harvest.

"(ii) APPLICATION OF SUBPARAGRAPH.—This subparagraph shall not apply in the case of a replacement crop.

"(D) NAVEL AND VALENCIA ORANGES TREATED AS SEPARATE CROPS.—For the purpose of programs administered under this chapter and the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.), navel oranges and valencia oranges shall be considered separate crops.

"(4) EXCLUSIONS FROM HARVESTED QUANTITIES.—For purposes of determining the total quantity of a nonprogram crop of the commodity that the producers on a farm are able to harvest under paragraph (1), the Secretary shall—

"(A) exclude commodities that cannot be sold in normal commercial channels of trade;

"(B) exclude dockage, including husks and shells, if the dockage is excluded in determining yields under subsection (d)(2); and

"(C) adjust such quantity to take into consideration declines in the value of the crop of the commodity that are attributable to a deterioration in the quality of the commodity caused by the damaging weather or related condition.

"(b) PREVENTED PLANTING CREDIT.—

"(1) IN GENERAL.—The Secretary shall provide prevented planting credit under subsection (a) with respect to acreage for a crop year that producers on a farm were prevented from planting to the crop of the commodity for harvest because of damaging weather or related condition, as determined by the Secretary.

"(2) MAXIMUM ACREAGE.—The acreage may not exceed the greater of—

"(A) a quantity equal to the acreage on the farm planted (or prevented from being planted due to a natural disaster or other condition beyond the control of the producers) to the commodity for harvest in the immediately preceding crop year minus acreage actually planted for harvest in the crop year involved;

"(B) a quantity equal to the average of the acreage on the farm planted (or prevented from being planted due to a natural disaster or other condition beyond the control of the producers) to the commodity for harvest in the 3 immediately preceding crop years minus acreage actually planted to the commodity for harvest in the crop year involved; or

"(C) with respect to crops planted as provided under section 504 of the Agricultural Act of 1949 (7 U.S.C. 1464) for which no such planting history is established, a quantity of acreage determined to be fair and reasonable by the Secretary.

"(3) ADJUSTMENTS.—The Secretary shall make appropriate adjustments in applying the limitations contained in paragraph (2) to take into account crop rotation practices of the producers.

"(c) LIMITATION.—Payments provided under subsection (a) for a crop of a commodity may not be made available to the producers on a farm unless the producers enter into an agreement to obtain multiperil crop insurance to the extent required under section 2247.

"(d) SPECIAL RULES FOR NONPROGRAM CROPS.—

"(1) NONPROGRAM CROP DEFINED.—

"(A) INCLUDED IN DEFINITION.—Except as provided in subparagraph (B), for purposes of this section, the term 'nonprogram crop' means—

"(i) all crops for which crop insurance through the Federal Crop Insurance Corporation was available for a crop year; and

"(ii) other commercial crops for which the insurance was not available for the crop year, including—

"(I) ornamentals, such as flowering shrubs, flowering trees, field or container grown roses, or turf;

"(II) sweet potatoes; and

"(III) fish or seafood produced or prevented from being produced in established freshwater commercial aquaculture operations.

"(B) EXCEPTION.—The term 'nonprogram crop' in subparagraph (A) shall not include a crop covered under section 2241, 2242, or 2243, or oilseeds.

"(2) FARM YIELDS.—

"(A) ESTABLISHMENT.—The Commodity Credit Corporation shall establish disaster program farm yields for nonprogram crops to carry out this section.

"(B) PROVEN YIELDS AVAILABLE.—If the producers on a farm can provide satisfactory evidence to the Commodity Credit Corporation of actual crop yields on the farm for at least 1 of the immediately preceding 3 crop years, the yield for the farm shall be based on the proven yield.

"(C) PROVEN YIELDS NOT AVAILABLE.—If the data do not exist for any of the 3 preceding crop years, the Commodity Credit Corporation shall establish a yield for the farm by using a county average yield for the commodity, or by using other data available to it.

"(D) COUNTY AVERAGE YIELDS.—In establishing county average yields for nonprogram crops, the Commodity Credit Corporation shall use the best available information concerning yields. The information may include extension service records, credible nongovernmental studies, and yields in similar counties.

"(3) RESPONSIBILITY OF PRODUCERS.—It shall be the responsibility of the producers of nonprogram crops to provide satisfactory evidence of crop losses for a crop year resulting from damaging weather or related condition in order for the producers to obtain disaster payments under this section.

"(e) SPECIAL RULE FOR VALENCIA ORANGES.—For the purposes of this section, the 1990 crop of valencia oranges shall include any crop of valencia oranges, regardless of the year in which those oranges would be harvested, that was destroyed or damaged by damaging weather or related condition in 1990.

"SEC. 2245. CROP QUALITY REDUCTION DISASTER PAYMENTS.

"(a) IN GENERAL.—To ensure that all producers of crops covered under sections 2241 through 2244 are treated equitably, the Secretary of Agriculture shall make additional disaster payments to producers of the crops for a crop year who suffer losses resulting from the reduced quality of the crops caused by damaging weather or related condition, as determined by the Secretary.

"(b) ELIGIBLE PRODUCERS.—Producers on a farm of a crop described in subsection (a) shall be eligible to receive reduced quality disaster payments only if the producers incur a deficiency in production of not less than 40 percent (as determined under section 2241, 2242, 2243, or 2244, as appropriate).

"(c) MAXIMUM PAYMENT RATE.—The Secretary shall establish the reduced quality disaster payment rate, except that the rate shall not exceed 10 percent, as determined by the Secretary, of—

"(1) the established price for the crop, for commodities covered under section 2241;

"(2) the basic county loan rate for the crop (or a comparable price if there is no current basic county loan rate), for commodities covered under section 2242;

"(3) the payment level under section 2243(a)(3), for commodities covered by section 2243; and

"(4) the payment level under section 2244(a)(2), for commodities covered under section 2244.

"(d) DETERMINATION OF PAYMENT.—The amount of payment to a producer under this section shall be determined by multiplying the payment rate established under subsection (c) by the portion of the actual harvested crop on the producer's farm that is reduced in quality by the natural disaster, as determined by the Secretary.

"SEC. 2246. EFFECT OF FEDERAL CROP INSURANCE PAYMENTS.

"In the case of producers on a farm who obtained crop insurance for a crop of a commodity under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.), the Secretary of Agriculture shall reduce the amount of payments made available under this subchapter for the crop to the extent that the amount determined by adding the net amount of crop insurance indemnity payment (gross indemnity less premium paid) received by the producers for the deficiency in the production of the crop and the disaster payment determined in accordance with this chapter for the crop exceeds the amount determined by multiplying—

"(1) 100 percent of the yield used for the calculation of disaster payments made under this chapter for the crop; by

"(2) the sum of the acreage of the crop planted to harvest and the acreage for which prevented planting credit is approved by the Secretary (or, in the case of disaster payments under section 2241, the eligible acreage established under paragraphs (1) and (3)(A) of section 2241(a)); by

"(3)(A) in the case of producers who participated in a production adjustment program for the crop of wheat, feed grains, upland cotton, extra long staple cotton, or rice for the crop year, the established price for the crop of the commodity;

"(B) in the case of producers who did not participate in a production adjustment program for the crop of wheat, feed grains, upland cotton, extra long staple cotton, or rice for the crop year (and, with respect to flexible acres as provided under section 2241(a)(2), in the case of those producers who did participate in the program for the year), the basic county loan rate (or a comparable price, as determined by the Secretary, if there is no current basic county loan rate) for the crop of the commodity;

"(C) in the case of producers of sugar beets, sugarcane, peanuts, or tobacco, the payment level for the commodity established under section 2243(a)(3); and

"(D) in the case of producers of oilseeds or a nonprogram crop (as defined in section 2244(d)(1)), the simple average price received by producers of the commodity, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of the commodity, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period.

"SEC. 2247. CROP INSURANCE COVERAGE.

"(a) REQUIREMENT.—To be eligible to receive for an eligible crop year a disaster payment under this subchapter, an emergency loan under subtitle C of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961 et seq.) for crop losses due to damaging weather or related condition, or forgiveness of the repayment of advance deficiency payments under section 2241(b), the producers on a farm shall agree to obtain multiperil crop insurance under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) for the 1992 crop.

"(b) LIMITATIONS.—Notwithstanding subsection (a), producers on a farm shall not be required to agree to obtain crop insurance under subsection (a) for a commodity—

"(1) unless the producers' deficiency in production, with respect to the crop for which a disaster payment under this chapter otherwise may be made, exceeds 75 percent;

"(2) where, or if, crop insurance coverage is not available to the producers for the commodity for which the payment, loan, or forgiveness is sought;

"(3) if the producers' annual premium rate for the crop insurance is an amount greater than 125 percent of the average premium rate for insurance on that commodity for the preceding crop year in the county in which the producers are located;

"(4) in any case in which the producers' annual premium for the crop insurance is an amount greater than 25 percent of the amount of the payment, loan, or forgiveness received; or

"(5) if the producers can establish by appeal to the county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590(b)), or to the county committee established under section 332 of the Consolidated Farm and Rural Development Act (17 U.S.C. 1982), as appropriate, that the purchase of crop insurance would impose an undue financial hardship on the producers and that a waiver of the requirement to obtain crop insurance should, in the discretion of the county committee, be granted.

"(c) IMPLEMENTATION.—

"(1) COUNTY COMMITTEES.—The Secretary of Agriculture shall ensure (acting through the county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act and located in the counties in which the assistance programs provided for under sections 2241 through 2245 are implemented, and through the county committees established under section 332 of the Consolidated Farm and Rural Development Act in counties in which emergency loans, as described in subsection (a), are made available) that producers who apply for assistance, as described in subsection (a), obtain multiperil crop insurance as required under this section.

"(2) OTHER SOURCES.—Each producer who is subject to the requirements of this section may comply with the requirements by providing evidence of multiperil crop insurance coverage from sources other than through the county committee office, as approved by the Secretary.

"(3) COMMISSIONS.—The Secretary shall provide by regulation for a reduction in the commissions paid to private insurance agents, brokers, or companies on crop insurance contracts entered into under this section sufficient to reflect that the insurance contracts principally involve only a servicing function to be performed by the agent, broker, or company.

"(d) REPAYMENT OF BENEFITS.—Notwithstanding any other provision of law, if (before the end of the crop year for which multiperil crop insurance is obtained pursuant to subsection (a)) the crop insurance coverage is canceled by the producer, the producer—

"(1) shall make immediate repayment to the Secretary of any disaster payment or forgiven advance deficiency payment that the producer otherwise is required to repay; and

"(2) shall become immediately liable for full repayment of all principal and interest outstanding on any emergency loan described in subsection (a) made subject to this section.

"SEC. 2248. CROPS HARVESTED FOR FORAGE USES.

"Not later than 45 days after funds are appropriated to carry out this subchapter for a crop year, the Secretary of Agriculture shall announce the terms and conditions by which producers on a farm may establish a yield for that crop year with respect to crops that were, or will be, harvested during the crop year for silage and other forage uses.

"SEC. 2249. PAYMENT LIMITATIONS.

"(a) LIMITATION.—Subject to subsections (b) and (c), the total amount of payments that a person shall be entitled to receive for a crop year under one or more of the programs established under this subchapter may not exceed $100,000.

"(b) NO DOUBLE BENEFITS.—No person may receive disaster payments for a crop year under this subchapter to the extent that the person receives a livestock emergency benefit for lost feed production in that year under section 606 of the Agricultural Act of 1949 (7 U.S.C. 1471d).

"(c) COMBINED LIMITATION.—

"(1) IN GENERAL.—No person may receive any payment under this subchapter or benefit under title VI of the Agricultural Act of 1949 (7 U.S.C. 1471 et seq.) for livestock emergency losses suffered in a crop year if the payment or benefit will cause the combined total amount of the payments and benefits received by the person in the year to exceed $100,000.

"(2) ELECTION.—If a producer is subject to paragraph (1), the person may elect (subject to the benefits limitations under section 609 of the Agricultural Act of 1949 (7 U.S.C. 1471g) whether to receive the $100,000 in the payments, or the livestock emergency benefits (not to exceed $50,000), or a combination of payments and benefits specified by the person.

"(d) REGULATIONS.—The Secretary of Agriculture shall issue regulations prescribing such rules as the Secretary determines necessary to ensure a fair and reasonable application of the limitations established under this section.

"SEC. 2250. SUBSTITUTION OF CROP INSURANCE PROGRAM YIELDS.

"(a) IN GENERAL.—Notwithstanding any other provision of this chapter, the Secretary of Agriculture may permit each eligible producer of a crop of a commodity who has obtained multiperil crop insurance for the crop for a crop year or, as provided in subsection (c), the preceding crop year under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) to substitute, at the discretion of the producer, the crop insurance yield for the crop, as established under such Act, for the farm yield otherwise assigned to the producer under this subchapter, for the purposes of determining the producer's eligibility for a disaster payment on the crop under this subchapter for the crop year involved and the amount of the payment.

"(b) ADJUSTMENT OF ADVANCED DEFICIENCY PAYMENTS.—

"(1) IN GENERAL.—Notwithstanding any other provision of this chapter, if an eligible producer of wheat, feed grains, upland cotton, extra long staple cotton, or rice for a crop year elects to substitute yields for the producer's crop under subsection (a), the producer's eligibility for a waiver of repayment of an advance deficiency payment on the crop under this chapter shall be adjusted as provided in paragraph (2).

"(2) AMOUNT.—The amount of production of the crop on which the producer otherwise would be eligible for waiver of repayment of advance deficiency payments under this subchapter shall be reduced by an amount of production equal to the difference between—

"(A) the amount of production eligible for disaster payments under this subchapter using a substituted yield under this section; and

"(B) the amount of production that would have been eligible for disaster payments using the farm program payment yield otherwise assigned to the producer under this chapter.

"(c) MULTIPERIL CROP INSURANCE NOT AVAILABLE.—A producer may use the crop insurance yield for the producer's crop of a commodity for the preceding crop year for purposes of substituting yields under subsection (a) if the producer demonstrates to the Secretary that, through no fault of the producer, multiperil crop insurance under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) was not made available to the producer for the producer's crop of the commodity for the crop year involved.

"(d) DEFINITION OF ELIGIBLE PRODUCER.—For purposes of this section, the term 'eligible producer' means a producer of a crop of wheat, feed grains, upland cotton, extra long staple cotton, rice, or oilseeds.

"SEC. 2251. DE MINIMIS YIELDS.

"(a) IN GENERAL.—The Secretary of Agriculture may determine a de minimis yield for each crop eligible for reduced yield disaster payments under this subchapter.

"(b) LEVEL.—The de minimis yield shall be set at a level that will minimize any incentive (because of the prospect of disaster payments) for a producer to abandon crops that have a value that exceeds the cost of harvesting. In no case may the de minimis yield be less than the amount of production that, when valued at current market prices, equals the average cost of harvesting the crop, as determined by the Secretary.

"(c) ACTUAL YIELDS OF ZERO.—Any producer whose actual yield for a crop is equal to or less than the de minimis yield for the crop shall be considered as having an actual yield of zero for the purpose of calculating any reduced yield disaster payments for the crop under this subchapter.

"SEC. 2252. PRODUCER ELIGIBILITY.

"A producer on a farm who produces any crop of a commodity for which disaster payments are made available under this subchapter shall qualify for a disaster payment if the total quantity of the commodity that the producer is able to harvest on that farm is reduced as a result of damaging weather or related condition in an amount that meets the criteria of section 2241, 2242, 2243, or 2244, even though the producers on the farm, collectively, may not meet the criteria.

"SEC. 2253. DEFINITIONS.

"For purposes of this chapter:

"(1) DAMAGING WEATHER.—The term 'damaging weather' includes but is not limited to drought, hail, excessive moisture, freeze, tornado, hurricane, earthquake, or excessive wind (or any combination thereof).

"(2) PERSON.—The term 'person' shall have the meaning given the term by the Secretary in regulations, which shall conform, to the extent practicable, to the regulations defining the term issued under section 1001 of the Food Security Act of 1985 (7 U.S.C. 1308) and the Disaster Assistance Act of 1988 (7 U.S.C. 1421 note).

"(3) RELATED CONDITION.—The term 'related condition' includes but is not limited to insect infestations, plant diseases (including fire blight), or other deterioration of a crop of a commodity, including aflatoxin, that is accelerated or exacerbated naturally as a result of damaging weather.

"Subchapter B—Orchards

"SEC. 2255. ELIGIBILITY.

"(a) LOSS.—The Secretary of Agriculture shall provide assistance under section 2256 to eligible orchardists that planted trees for commercial purposes but lost the trees as a result of damaging weather or related condition occurring in 1990 or 1991, as determined by the Secretary.

"(b) LIMITATION.—An eligible orchardist shall qualify for assistance under subsection (a) only if the orchardist's tree mortality, as a result of the damaging weather or related condition, exceeds 35 percent (adjusted for normal mortality).

"SEC. 2256. ASSISTANCE.

"The assistance provided by the Secretary of Agriculture to eligible orchardists for losses described in section 2255 shall consist of either—

"(1) reimbursement of 65 percent of the cost of replanting trees lost and rehabilitating trees damaged as a result of damaging weather or related condition in the calendar year involved in excess of 35 percent mortality (adjusted for normal mortality); or

"(2) at the discretion of the Secretary, sufficient seedlings to reestablish the stand.

"SEC. 2257. LIMITATION ON ASSISTANCE.

"(a) LIMITATION.—The total amount of payments that a person shall be entitled to receive under this subchapter for a calendar year may not exceed $25,000, or an equivalent value in tree seedlings.

"(b) REGULATIONS.—The Secretary of Agriculture shall issue regulations prescribing such rules as the Secretary determines necessary to ensure a fair and reasonable application of the limitation established under this section.

"SEC. 2258. DEFINITION.

"For purposes of this subchapter, the term 'eligible orchardist' means a person who produces annual crops from trees for commercial purposes and owns 500 acres or less of the trees.

"SEC. 2259. DUPLICATIVE PAYMENTS.

"The Secretary of Agriculture shall establish guidelines to ensure that no person receives duplicative payments under this subchapter and the forestry incentives program, agricultural conservation program, or other Federal program.

"Subchapter C—Forest Crops

"SEC. 2261. ELIGIBILITY.

"(a) LOSS.—The Secretary of Agriculture shall provide assistance, as specified in section 2262, to eligible tree farmers that planted tree seedlings in 1990 or 1991 for commercial purposes but lost the seedlings as a result of damaging weather or related condition occurring in 1990 or 1991, respectively, as determined by the Secretary.

"(b) LIMITATION.—An eligible tree farmer shall qualify for assistance under subsection (a) only if the tree farmer's tree seedling mortality, as a result of the damaging weather or related condition, exceeds 55 percent (adjusted for normal mortality).

"SEC. 2262. ASSISTANCE.

"The assistance provided by the Secretary of Agriculture to eligible tree farmers for losses described in section 2261 shall consist of either—

"(1) reimbursement of 65 percent of the cost of replanting seedlings lost due to damaging weather or related conditions in the calendar year involved in excess of 35 percent mortality (adjusted for normal mortality); or

"(2) at the discretion of the Secretary, sufficient tree seedlings to reestablish the stand.

"SEC. 2263. LIMITATION ON ASSISTANCE.

"(a) LIMITATION.—The total amount of payments that a person shall be entitled to receive under this subchapter may not exceed $25,000 for a calendar year, or an equivalent value in tree seedlings.

"(b) REGULATIONS.—The Secretary of Agriculture shall issue regulations prescribing such rules as the Secretary determines necessary to ensure a fair and reasonable application of the limitation established under this section.

"SEC. 2264. DEFINITION.

"For purposes of this subchapter, the term 'eligible tree farmer' means a person who grows trees for harvest for commercial purposes and owns 1,000 acres or less of the trees.

"SEC. 2265. DUPLICATIVE PAYMENTS.

"The Secretary of Agriculture shall establish guidelines to ensure that no person receives duplicative payments under this subchapter and the forestry incentives program, agricultural conservation program, or other Federal program.

"Subchapter D—Administrative Provisions

"SEC. 2266. INELIGIBILITY.

"(a) GENERAL RULE.—A person who has qualifying gross revenues in excess of $2,000,000 annually, as determined by the Secretary of Agriculture, shall not be eligible to receive any disaster payment or other benefits under this chapter.

"(b) QUALIFYING GROSS REVENUES.—For purposes of this section, the term 'qualifying gross revenues' means—

"(1) if a majority of the person's annual income is received from farming, ranching, and forestry operations, the gross revenue from the person's farming, ranching, and forestry operations; and

"(2) if less than a majority of the person's annual income is received from farming, ranching, and forestry operations, the person's gross revenue from all sources.

"SEC. 2267. TIMING AND MANNER OF ASSISTANCE.

"(a) TIMING OF ASSISTANCE.—

"(1) ASSISTANCE MADE AVAILABLE AS SOON AS PRACTICABLE.—Subject to paragraph (2), the Secretary of Agriculture shall make disaster assistance available under this chapter, as soon as practicable after the date on which appropriations are made available to carry out this chapter.

"(2) COMPLETED APPLICATION.—No payment or benefit provided under this chapter shall be payable or due until such time as a completed application for the payment or benefit for a crop of a commodity has been approved.

"(b) MANNER.—The Secretary may make payments available under subchapter A in the form of cash, commodities, or commodity certificates, as determined by the Secretary.

"SEC. 2268. COMMODITY CREDIT CORPORATION.

"(a) USE.—Except as provided in section 2271, the Secretary of Agriculture shall use the funds, facilities, and authorities of the Commodity Credit Corporation in carrying out this chapter.

"(b) EXISTING AUTHORITY.—The authority provided by this chapter shall be in addition to, and not in place of, any authority granted to the Secretary or the Commodity Credit Corporation under any other provision of law.

"SEC. 2269. EMERGENCY LOANS.

"Section 321(b) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961(b)) shall not apply for a calendar year to persons who otherwise would be eligible for an emergency loan under subtitle C of such Act, if the eligibility is the result of damage to an annual crop planted for harvest in the year.

"SEC. 2270. REGULATIONS.

"The Secretary of Agriculture or the Commodity Credit Corporation, as appropriate, shall issue regulations to implement this chapter as soon as practicable after the date on which appropriations are made to carry out this chapter, without regard to the requirement for notice and public participation in rulemaking prescribed in section 553 of title 5, United States Code, or in any directive of the Secretary.

"Subchapter E—Authorization of Appropriations

"SEC. 2271. AUTHORIZATION OF APPROPRIATIONS.

"Any benefits or assistance (including the forgiveness of unearned advanced deficiency payments or any emergency loans) made available under this chapter shall be provided for a year only to the extent provided for in advance in appropriations Acts. To carry out this chapter, there are authorized to be appropriated such sums as may be necessary for fiscal year 1992. Sums appropriated under this section shall remain available until expended.

"SEC. 2272. PRORATION OF BENEFITS.

"Any funds made available for carrying out this chapter for a calendar year in appropriations Acts shall be prorated to all producers eligible for assistance under this chapter in the year.

"Subchapter F—Application of Chapter

"SEC. 2273. ELIGIBLE CROP.

"(a) ELIGIBLE CROP.—For the purposes of this chapter, the term 'eligible crop' means the 1990 or 1991 crop of wheat, feed grains, upland cotton, extra long staple cotton, rice, peanuts, oilseeds, sugarcane, sugar beets, tobacco, or nonprogram crop.

"(b) ADVERSE IMPACT OF DAMAGING WEATHER.—Assistance under this chapter shall be provided for—

"(1) the 1990 crops of wheat, feed grains, upland cotton, extra long staple cotton, rice, peanuts, oilseeds, sugarcane, sugar beets, tobacco, and nonprogram crops only with respect to crop damage caused by damaging weather or related condition occurring during 1990 (or with respect to a fall seeded crop, the fall of 1989); and

"(2) the 1991 crops of wheat, feed grains, upland cotton, extra long staple cotton, rice, peanuts, oilseeds, sugarcane, sugar beets, tobacco, and nonprogram crops only with respect to crop damage caused by damaging weather or related condition occurring during 1991 (or with respect to a fall seeded crop, the fall of 1990).

"(c) ELECTION OF APPLICABLE BENEFITS.—Producers on a farm eligible for benefits under this chapter with respect to both the 1990 and 1991 crop years of a commodity may elect to receive benefits with respect to either the 1990 or 1991 crop year of the commodity, but not both.".

(b) CLERICAL AMENDMENTS.—The table of contents in section 1(b) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101-624; 104 Stat. 3359) is amended—

(1) by inserting after the item relating to the chapter heading of chapter 3 of subtitle B of title XXII of such Act the following new item:

"Sec. 2240. Short title.";

(2) by striking the item relating to section 2242 and inserting the following new item:

"Sec. 2242. Payments to program nonparticipants.";

(3) by striking the item relating to section 2244 and inserting the following new item:

"Sec. 2244. Oilseeds and nonprogram crops.";

(4) by striking the item relating to section 2247 and inserting the following new item:

"Sec. 2247. Crop insurance coverage.";

(5) by striking the item relating to section 2251 and inserting the following new items:

"Sec. 2251. De minimis yields.
"Sec. 2252. Producer eligibility.
"Sec. 2253. Definitions."; and

(6) by inserting after the item relating to section 2272 the following new items:

"SUBCHAPTER F—APPLICATION OF CHAPTER

"Sec. 2273. Eligible crop.".

SEC. 202. EMERGENCY GRANTS TO ASSIST LOW-INCOME MIGRANT AND SEASONAL FARMWORKERS.

(a) INCLUSION OF PERMANENT FARMWORKERS AND PACKINGHOUSE WORKERS.—Section 2281 of the Food, Agriculture, Conservation, and Trade Act of 1990 (42 U.S.C. 5177a) is amended—

(1) by inserting ", permanent," after "migrant" each place it appears; and

(2) in subsection (b)—

(A) by inserting "(including a packinghouse worker)" after "an individual"; and

(B) by inserting "or packinghouse work" after "farm work" both places it appears.

(b) CLERICAL AMENDMENTS.—

(1) SECTION HEADING.—The section heading of such section is amended to read as follows:

"SEC. 2281. EMERGENCY GRANTS TO ASSIST LOW-INCOME FARMWORKERS AND PACKINGHOUSE WORKERS.".

(2) TABLE OF CONTENTS.—The item relating to such section in the table of contents in section 1(b) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3359) is amended to read as follows:

"Sec. 2281. Emergency grants to assist low-income farmworkers and packinghouse workers.".

SEC. 203. EMERGENCY AQUACULTURE PROGRAM.

Subtitle B of title XXII of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 1421 note, 104 Stat. 3962) is amended by adding at the end the following new chapter:

"CHAPTER 5—EMERGENCY AQUACULTURE PROVISIONS

"SEC. 2276. EMERGENCY AQUACULTURE PROGRAM.

"(a) IN GENERAL.—The Secretary shall implement an emergency aquaculture program to assist owners and operators of established commercial fresh water aquaculture operations in restoring the retention levees and other structural improvements that have been damaged by damaging weather or related condition in 1991.

"(b) COST-SHARE.—Assistance under this section shall be provided through cost-share agreements entered into by the Secretary with the owners and operators for the restoration of the damaged levees and other structural improvements. The Secretary shall share half the costs incurred under each agreement based on damage surveys made pursuant to regulations issued by the Secretary.

"(c) FUNDING.—

"(1) IN GENERAL.—The Secretary shall use the funds, facilities, and authorities of the Commodity Credit Corporation to carry out this section as provided in section 2268.

"(2) AUTHORIZATION OF APPROPRIATIONS.—Any benefits or assistance made available under this section shall be provided for a year only to the extent provided for in advance in appropriations Acts. To carry out this section, there are authorized to be appropriated $1,000,000 for fiscal year 1992. Sums appropriated under this subsection shall remain available until expended.

"(3) PRORATION.—To ensure the equitable award of funds for agreements under this section as a result of the limitations in paragraphs (1) and (2), the Secretary may prorate, and adopt procedures to facilitate the proration of, funds made available under this section.".

SEC. 204. EMERGENCY LIVESTOCK FEED ASSISTANCE.

Section 604 of the Agricultural Act of 1949 (7 U.S.C. 1471b) is amended—

(1) by redesignating subsection (d) as subsection (e); and

(2) by inserting after subsection (c) the following new subsection:

"(d) The Secretary shall consider, if appropriate, the level of precipitation during a growing season in a State, county, or area in a State in making a determination whether to provide emergency livestock feed assistance or other additional assistance under this title.".

SEC. 205. EMERGENCY FORAGE PROGRAM.

(a) IN GENERAL.—The Secretary of Agriculture shall implement an emergency forage program for established pasture damaged by damaging weather or related condition in 1991, under which the Secretary shall enter into cost-share agreements with owners or operators of the damaged land to provide for reseeding of forage crops on the land in order to facilitate late fall 1991 and early spring 1992 grazing and haying. Assistance may be provided to the owners and operators only when—

(1) the forage crop will not regenerate naturally;

(2) reseeding is the most cost-effective method for reestablishing the forage crop; and

(3) reseeding is not undertaken simply to improve the forage crop damaged by the drought.

(b) COST-SHARE.—The Secretary shall share half the costs incurred under each agreement entered into under subsection (a), including the costs of seed, fertilizer, and other inputs on reseeded pasture.

(c) LIMITATIONS ON ASSISTANCE.—

(1) TOTAL ASSISTANCE.—The total amount of payments an owner or operator of pasture land shall be entitled to receive under this section shall be $3,500.

(2) RESEEDING.—The Secretary may cost-share for reseeding under this section only if the reseeding is to be used for nonannual crops planted for pasture purposes.

(d) FUNDING.—

(1) IN GENERAL.—The Secretary shall use the funds, facilities, and authorities of the Commodity Credit Corporation to carry out this section.

(2) AUTHORIZATION OF APPROPRIATIONS.—Any benefits or assistance made available under this section shall be provided for a year only to the extent provided for in advance in appropriations Acts. To carry out this section, there are authorized to be appropriated $50,000,000 for fiscal year 1992. Sums appropriated under this subsection shall remain available until expended.

(3) PRORATION.—To ensure the equitable award of agreements under this section, as limited under paragraph (2), the Secretary may prorate, and adopt procedures to facilitate the proration of, funds made available under this section.

(e) DEFINITIONS.—As used in this section, the terms "damaging weather" and "related condition" have the same meanings provided such terms under section 2253 of the Food, Agriculture, Conservation, and Trade Act of 1990 (as amended by section 201(a) of this Act).

AMENDMENT NO. 3419

Mr. FORD. Mr. President, I send a substitute amendment to the desk on behalf of Mr. LEAHY and Mr. LUGAR, and ask for its immediate consideration.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. LEAHY (for himself and Mr. LUGAR) proposes an amendment numbered 3419.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendments be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(The text of the amendment appears in today's RECORD under "Amendments Submitted.")

The ACTING PRESIDENT pro tempore. The question is on agreeing to the amendment.

The amendment (No. 3419) was agreed to.

The ACTING PRESIDENT pro tempore. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute, as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The ACTING PRESIDENT pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to engrossed for a third reading, was read the third time, and passed, as follows:

(The bill H.R. 2893, will appear in a subsequent issue of the RECORD.)

The title was amended so as to read: "An Act to enhance the financial safety and soundness of the banks and associations of the Farm Credit System, and for other purposes."

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

INTERSTATE RAIL PASSENGER NETWORK COMPACT

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 5602, a bill granting consent of Congress to the interstate rail passenger network compact between Indiana and Tennessee, and also covering Illinois, Kentucky, Georgia, and Florida, received today from the House; that the bill be deemed read the third time, passed, and the motion to reconsider be laid upon the table.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 5602) was deemed read the third time, and passed.

Mr. SIMON. The Senate today will pass H.R. 5602, a bill granting consent to the interstate rail passenger network compact.

This bill will authorize Illinois, Indiana, Kentucky, Tennessee, Georgia, and Florida to take the first preliminary steps toward developing an Amtrak route spanning from Chicago to Florida. The western route, as it has been called, will stimulate economic growth and create jobs throughout the designated areas.

At the same time, development of the western route must proceed in a prudent and careful manner. In this regard, I would like to emphasize the limited scope of the legislation approved by the Senate today. First, the legislation only authorizes participating States to undertake a feasibility study, carrying forward research previously performed by the National Railroad Passenger Corporation [Amtrak]. The compact cannot and will not obligate any participating State to contribute toward any other project, including the development, implementation, management, or operation of the interstate railroad system contemplated by the study. Thus, for example, the determination by the Interstate Rail Passenger Advisory Council of the proportionate share that each State will contribute toward the implementation and management of the proposed restoration will not be binding on the participating States and will not create any obligation under the compact.

Second, a State's obligation to provide funds, equipment, or other things of value for the implementation of the feasibility study is specifically subject to appropriation by the individual State legislatures. This is implicit, if not explicit, in section 4, subsection (2) of the Federal bill, which says that the States will "[p]rovide financial assistance * * * that is available." In general, a State will not incur any obligation to provide funds, equipment, or other things of value under the compact's terms unless these obligations are approved by the legislature of that State.

Once again, in closing, I think this legislation is an important step in the development of a new Amtrak route linked to Illinois. I look forward to further progress in the future on this issue.

PENNSYLVANIA AND NEW JERSEY DELAWARE RIVER PORT AUTHORITY SUPPLEMENTAL COMPACT

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of calendar No. 783, H.R. 5452; that statements with respect to the passage of this bill be inserted at the appropriate place in the RECORD; and that the bill be deemed read the third time, passed, and the motion to reconsider passage be laid upon the table.

So the bill (H.R. 783) was deemed read the third time, and passed.

HOMELESS VETERANS COMPREHENSIVE SERVICE PROGRAMS ACT OF 1992

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on H.R. 5400.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the House agree to the amendment of the Senate to the bill (H.R. 5400) entitled "An Act to establish in the Department of Veterans Affairs a program of comprehensive service for homeless veterans," with the following amendment:

In lieu of the matter inserted by the amendment of the Senate to the text of the bill, insert:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Homeless Veterans Comprehensive Service Programs Act of 1992".

SEC. 2. PILOT PROGRAM.

(a) IN GENERAL.—Subject to the availability of appropriations provided for under section 12, the Secretary of Veterans Affairs shall establish and operate, through September 30, 1995, a pilot program under this Act to expand and improve the provision of benefits and services by the Department of Veterans Affairs to homeless veterans.

(b) COMPREHENSIVE CENTERS.—The pilot program shall include the establishment of no more than four demonstration programs (in addition to any existing programs providing similar services) at sites under the jurisdiction of the Secretary to be centers for the provision of comprehensive services to homeless veterans. The services to be provided at each site shall include a comprehensive and coordinated array of those specialized services which may be provided under existing law.

(c) PLACEMENT OF VBA EMPLOYEES.—The pilot program shall also include the services of such employees of the Veterans Benefits Administration as the Secretary determines appropriate at—

(1) no more than 45 sites at which the Secretary provides services to homeless chronically mentally ill veterans pursuant to section 115 of Public Law 100–322 (38 U.S.C. 1712 note);

(2) no more than 26 sites at which the Secretary furnishes domiciliary care to homeless veterans pursuant to section 801(b) of Public Law 100–628 (102 Stat. 3257);

(3) no more than 12 centers which provide readjustment counseling services under section 1712A of title 38, United States Code; and

(4) each of the demonstration sites established under subsection (b).

SEC. 3. GRANTS.

(a) AUTHORITY TO MAKE GRANTS.—Subject to the availability of appropriations provided for under section 12, the Secretary of Veterans Affairs, during fiscal years 1993, 1994, and 1995, shall make grants to assist eligible entities in establishing new programs to furnish outreach, rehabilitative services, vocational counseling and training, and transitional housing assistance to homeless veterans.

(b) CRITERIA FOR AWARD OF GRANTS.—The Secretary shall establish criteria and requirements for the award of a grant under this section, including criteria for entities eligible to receive such grants. The Secretary shall publish such criteria and requirements in the Federal Register not later than 90 days after the date of the enactment of this Act. In developing such criteria and requirements, the Secretary shall consult with organizations with experience in the area of providing service to homeless veterans and to the maximum extent possible shall take into account the findings of the assessment of the Secretary under section 107 of the Veterans' Medical Programs Amendments of 1992. The criteria established under this section shall include the following:

(1) Specification as to the kinds of projects for which such grant support is available, which shall include (A) expansion, remodeling, or alteration of existing buildings, or acquisition of facilities, for use as service centers, transitional housing, or other facilities to serve homeless veterans, and (B) procurement of vans for use in outreach to, and transportation for, homeless veterans to carry out the purposes set forth in subsection (a).

(2) Specification as to the number of projects for which grant support is available, which shall include provision for no more than 25 service centers and no more than 20 programs which incorporate the procurement of vans as described in paragraph (1).

(3) Appropriate criteria for the staffing for the provision of the services for which a grant under this section is furnished.

(4) Provisions to ensure that the award of grants under this section (A) shall not result in duplication of ongoing services, and (B) to the maximum extent practicable, shall reflect appropriate geographic dispersion and an appropriate balance between urban and nonurban locations.

(5) Provisions to ensure that an entity receiving a grant shall meet fire and safety requirements established by the Secretary, which shall include such State and community requirements that may apply, but fire and safety requirements applicable to buildings of the Federal Government shall not apply to real property to be used by a grantee in carrying out the grant.

(6) Specifications as to the means by which an entity receiving a grant may contribute in-kind services to the start-up costs of any project for which support is sought and the methodology for assigning a cost to that contribution for purposes of subsection (c).

(c) FUNDING LIMITATIONS.—A grant under this section may not be used to support operational costs. The amount of a grant under this section may not exceed 65 percent of the estimated cost of the expansion, remodeling, alteration, acquisition, or procurement provided for under this section.

(d) ELIGIBLE ENTITIES.—The Secretary may not make a grant under this section unless the applicant for the grant—

(1) is a public or nonprofit private entity with the capacity (as determined by the Secretary) to effectively administer a grant under this section;

(2) has demonstrated that adequate financial support will be available to carry out the project for which the grant has been sought consistent with the plans, specifications, and schedule submitted by the applicant; and

(3) has agreed to meet the applicable criteria and requirements established under subsection (b) (and the Secretary has determined that the applicant has demonstrated the capacity to meet those criteria and requirements).

(e) APPLICATION REQUIREMENT.—An entity described in subsection (d) desiring to receive assistance under this section shall submit to the

Secretary an application. The application shall set forth—

(1) the amount of the grant requested with respect to a project;

(2) a description of the site for such project;

(3) plans, specifications, and the schedule for implementation of such project in accordance with requirements prescribed by the Secretary under subsection (b); and

(4) reasonable assurance that upon completion of the work for which assistance is sought, the program will become operational and the facilities will be used principally to provide to veterans the services for which the project was designed, and that not more than 25 percent of the services provided will serve clients who are not receiving such services as veterans.

(f) PROGRAM REQUIREMENTS.—The Secretary may not make a grant to an applicant under this section unless the applicant, in the application for the grant, agrees to each of the following requirements:

(1) To provide the services for which the grant is furnished at locations accessible to homeless veterans.

(2) To maintain referral networks for, and aid homeless veterans in, establishing eligibility for assistance, and obtaining services, under available entitlement and assistance programs.

(3) To ensure the confidentiality of records maintained on homeless veterans receiving services under the grant.

(4) To establish such procedures for fiscal control and fund accounting as may be necessary to ensure proper disbursement and accounting with respect to the grant and to such payments as may be made under section 4.

(5) To seek to employ homeless veterans and formerly homeless veterans in positions created for purposes of the grant for which those veterans are qualified.

(g) SERVICE CENTER REQUIREMENTS.—In addition to criteria established under subsection (b), the Secretary shall, in the case of an application for a grant for a service center for homeless veterans, require that—

(1) such center shall provide services to homeless veterans during such hours as the Secretary may specify and shall be open to such veterans on an as-needed, unscheduled basis;

(2) space at such center will be made available, as mutually agreeable, for use by staff of the Department of Veterans Affairs, the Department of Labor, and other appropriate agencies and organizations in assisting homeless veterans served by such center;

(3) such center shall be equipped and staffed to provide, or to assist in providing, health care, mental health services, hygiene facilities, benefits and employment counseling, meals, transportation assistance, and such other services as the Secretary determines necessary; and

(4) such center may be equipped and staffed to provide, or to assist in providing, job training and job placement services (including job readiness, job counseling, and literacy and skills training), as well as any outreach and case management services that may be necessary to carry out this paragraph.

SEC. 4. PER DIEM PAYMENTS.

(a) PER DIEM PAYMENTS FOR FURNISHING SERVICES TO HOMELESS VETERANS.—Subject to the availability of appropriations provided for under section 12, the Secretary of Veterans Affairs, pursuant to such criteria as the Secretary shall prescribe, shall provide to a recipient of a grant under section 3 (or an entity eligible to receive a grant under section 3 which after the date of enactment of this Act establishes a program which the Secretary determines carries out the purposes described in section 3) per diem payments at such rates as the Secretary shall prescribe by regulation for services furnished to any homeless veteran—

(1) whom the Secretary has referred to the grant recipient (or entity eligible for such a grant); or

(2) for whom the Secretary has authorized the provision of services.

In a case in which the Secretary has authorized the provision of services, per diem payments may be paid retroactively for services provided not more than 3 days before the authorization was provided.

(b) LIMITATION.—The amount of per diem payments made with respect to a veteran under this section may not exceed one-half of the cost to the grant recipient (or other eligible entity) of providing such service.

(c) IN-KIND ASSISTANCE.—In lieu of per diem payments under this section, the Secretary may, with the approval of the grant recipient, provide in-kind assistance (through the services of Department employees and the use of other Department resources) to a grant recipient (or entity eligible for such a grant) under section 3.

(d) INSPECTIONS.—The Secretary may inspect any facility of an entity eligible for payments under subsection (a) at such times as the Secretary considers necessary. No per diem payment may be made to an entity under this section unless the facilities of that entity meet such standards as the Secretary shall prescribe.

SEC. 5. OUTREACH SERVICES.

Section 7722 of title 38, United States Code, is amended by adding at the end thereof the following:

"(e) In carrying out this section, the Secretary shall assign such employees of the Veterans Benefits Administration as the Secretary considers appropriate to conduct outreach programs and provide outreach services for homeless veterans. Such outreach services may include site visits through which homeless veterans can be identified and provided assistance in obtaining benefits and services that may be available to them.".

SEC. 6. EXPANSION OF PROGRAMS FOR HOMELESS VETERANS.

Section 801 of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (Public Law 100–628; 102 Stat. 3257) is amended in subsection (c), by striking out "to homeless" and inserting in lieu thereof "with a primary emphasis on those homeless".

SEC. 7. AUTHORITY TO LEASE CERTAIN PROPERTY OF THE DEPARTMENT OF VETERANS AFFAIRS FOR EXTENDED LEASE TERMS.

(a) AUTHORITY.—Notwithstanding section 8122(a)(1) of title 38, United States Code, and subject to subsection (b), the Secretary of Veterans Affairs may lease to a representative of the homeless for a term in excess of three years any real property at the West Los Angeles Veterans Affairs Medical Center for which an application of the representative for the use of the property has been approved by the Secretary of Health and Human Services under section 501(e) of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411(e)). Any such lease shall be subject to the provisions of section 501(f) of such Act (42 U.S.C. 11411(f)).

(b) LIMITATION.—The Secretary may not lease real property under subsection (a) for a term in excess of three years to a representative of the homeless unless the representative agrees to use the property only as a location for the provision of services to homeless veterans and the families of such veterans.

(c) DEFINITION.—In this section, the term "representative of the homeless" has the meaning given such term in section 501(h)(4) of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411(h)(4)).

SEC. 8. AUTHORITY TO MAKE PROPERTIES AVAILABLE FOR HOMELESS PURPOSES.

(a) LEASE OR DONATION.—Section 3735(a) of title 38, United States Code, is amended—

(1) in paragraph (2)—

(A) by inserting ", lease, lease with an option to purchase, or donate" after "sell"; and

(B) by inserting "or lease or donation" after "sale";

(2) in paragraph (3)(B), by inserting ", leased, or donated" after "sold";

(3) by redesignating paragraph (4) as paragraph (6); and

(4) by inserting after paragraph (3) the following new paragraphs:

"(4) The term of any lease under this subsection may not exceed three years.

"(5) An approved entity that leases a property from the Secretary under this section shall be responsible for the payment of any taxes, utilities, liability insurance, and other maintenance charges or similar charges that apply to the property.".

(b) EXTENSION OF AUTHORITY.—Section 3735(b) of such title is amended by striking out "September 30, 1993" and inserting in lieu thereof "December 31, 1995".

SEC. 9. FINANCING OF PROPERTIES TO ASSIST HOMELESS VETERANS.

(a) FINANCING.—Section 3735 of title 38, United States Code (as amended by section 8), is further amended—

(1) by redesignating subsection (b) as subsection (c); and

(2) by inserting after subsection (a) the following new subsection (b):

"(b)(1) Subject to paragraphs (2) and (3), the Secretary may make loans to organizations described in paragraph (1)(A) of subsection (a) to finance the purchase of property by such organizations under such subsection.

"(2) In making a loan under this subsection, the Secretary—

"(A) shall establish credit standards to be used for this purpose;

"(B) may, pursuant to section 3733(a)(6) of this title, provide that the loan will bear interest at a rate below the rate that prevails for similar loans in the market in which the loan is made; and

"(C) may waive the collection of a fee under section 3729 of this title in any case in which the Secretary determines that such a waiver would be appropriate.".

SEC. 10. ANNUAL REPORTS.

Not later than May 1 of each of 1994, 1995, and 1996, the Secretary of Veterans Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the implementation of this Act. Each such report shall, to the extent feasible, include information on (1) the number of veterans assisted, (2) the services provided, and (3) the Secretary's analysis of the operational and clinical effectiveness and cost-effectiveness of the programs established under, or with assistance provided by, this Act.

SEC. 11. AUTHORIZATION OF APPROPRIATIONS FOR HOMELESS VETERANS' REINTEGRATION PROJECTS.

(a) AUTHORIZATION OF APPROPRIATIONS.—Section 738 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11448) is amended by adding at the end the following new subsection:

"(e) AUTHORIZATION OF APPROPRIATIONS.—(1) There are authorized to be appropriated to carry out this section the following amounts:

"(A) $10,000,000 for fiscal year 1993.

"(B) $12,000,000 for fiscal year 1994.

"(C) $14,000,000 for fiscal year 1995.

"(2) Funds obligated for any fiscal year to carry out this section may be expended in that fiscal year and the succeeding fiscal year.".

(b) CONFORMING AMENDMENTS.—(1) Section 739 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11449) is amended—

(A) in subsection (a)(3)—

(i) by striking out "$17,000,000" and inserting in lieu thereof "$14,800,000"; and

(ii) by striking out "1993," and all that follows through "this subtitle" and inserting in lieu thereof "1993"; and

(B) in subsection (b), by striking out "other than section 738 of this subtitle and for the program under section 738 of this subtitle".

(2) Section 741 of such Act (42 U.S.C. 11451) is amended by inserting "738 and" before "740".

SEC. 12. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out this Act (other than section 8) $48,000,000 for each of the fiscal years 1993, 1994, and 1995. No funds may be used to carry out the provisions of sections 2, 3, and 4 of this Act unless expressly provided for in an appropriation law. Nothing in this Act shall be construed to diminish funds for, continuation of, or expansion of existing programs administered by the Secretary of Veterans Affairs to serve veterans.

Mr. CRANSTON. Mr. President, as chairman of the Committee on Veterans' Affairs, I urge my colleagues to approve H.R. 5400, the proposed Homeless Veterans Comprehensive Programs Act of 1992. The measure, as it comes before the Senate, reflects a compromise agreement reached by the Committees on Veterans' Affairs of the Senate and House of Representatives on provisions relating to homeless veterans contained in H.R. 5400 as passed by the House on July 27, 1992, and in S. 2512 as passed by the Senate on September 8, 1992, as an amendment in the nature of a substitute to H.R. 5400.

This compromise agreement would assist the Nation's homeless veterans and their families by creating new programs to provide needed services, improving and expanding existing VA and Department of Labor programs, and by encouraging the coordination of VA and other Federal, State, and local services. I am extremely pleased that both committees were able to arrive at this far-reaching compromise before the end of the 102d Congress.

Mr. President, I will at this time summarize the compromise agreement and discuss certain key provisions. Detailed descriptions of all provisions are set forth in the explanatory statement prepared by the two committees to accompany this compromise agreement. My counterpart, Representative SONNY MONTGOMERY, chairman of the House Veterans' Affairs Committee, inserted this explanatory statement in the RECORD during House consideration of this measure.

SUMMARY OF PROVISIONS

The compromise agreement includes provisions that would:

First, require VA, subject to the availability of expressly provided appropriations, to carry out a pilot program under which (a) up to four comprehensive service centers for homeless veterans would be established and, second, employees of VA's Veterans Benefits Administration would provide benefits counseling at VA sites at which VA provides services to homeless veterans.

Second, authorize VA, subject to the availability of expressly provided appropriations, to assist eligible entities in establishing programs to provide services to homeless veterans by providing grants of up to 65 percent of the costs of establishing these programs.

Third, authorize VA, subject to the availability of expressly provided appropriations, to make per diem payments to VA-approved entities which provide services to homeless veterans whom VA has either referred to the entities or for whom VA has authorized the entities to provide services. The amount of per diem would be limited to 50 percent of the entities' costs of furnishing the services.

Fourth, amend section 7722 of title XXXVIII, which contains a general requirement that VA conduct outreach to inform all eligible veterans of the benefits for which they may be eligible, to add a specific requirement that VA conduct outreach to homeless veterans.

Fifth, expand the scope of VA's homeless chronically mentally ill [HCMI] veterans program so as to authorize the provision of services to all homeless veterans, with a primary emphasis being given to homeless veterans who have a chronic mental illness.

Sixth, authorize VA, with respect to any property at the West Los Angeles VA Medical Center made available under title V of the McKinney Act, to enter into leases for more than 3 years if the organization approved to use the property agrees to use the property to provide services to homeless veterans and their families.

Seventh, amend VA's authority to sell at a discount VA-repossessed properties to nonprofit organizations and State agencies so as to authorize VA, first, to finance such sales by extending credit to the buyer, and second, to lease, lease with an option to purchase, or donate VA-repossessed properties to eligible nonprofit organizations and State agencies for use as shelters for homeless veterans and their families.

Eighth, require VA to submit annual reports in fiscal years 1994–96 on the implementation of the provisions contained in the compromise agreement.

Ninth, authorize appropriations for fiscal years 1993 through 1995 for the homeless veterans reintegration projects administered by the Department of Labor pursuant to the McKinney Act. The authorized appropriations would increase from the currently authorized fiscal year 1993 level of $2.2 million to $10 million for fiscal year 1993, $12 million for fiscal year 1994, and $14 million for fiscal year 1995.

Tenth, authorize appropriations of $48 million for each of fiscal years 1993 through 1995 for the purpose of carrying out the provisions contained in the compromise agreement and prohibit the expenditure of funds to carry out sections 2, 3, and 4 of the compromise agreement unless funds are expressly provided for in an appropriation law.

Mr. President, at this time I would like to highlight certain provisions of this compromise agreement.

UTILIZATION OF VA-ACQUIRED PROPERTIES TO ASSIST HOMELESS VETERANS

Mr. President, section 9 of the compromise agreement would amend section 3735 of title XXXVIII—which authorizes VA to sell acquired properties at a discount to nonprofit organizations and Government agencies that will use them to shelter or house homeless veterans and their families—so as to authorize VA to make loans directly to nonprofit organizations and State agencies for such purchases. VA would be required to develop credit standards that would apply to such loans and would be authorized to charge purchasers less than the market rate of interest on the loans.

I believe that these modifications would provide eligible nonprofit and Government entities a more realistic opportunity to purchase acquired properties under the discount-sale program, which has been woefully underutilized since it was established in 1987. Enabling VA to finance sales of properties by extending credit to nonprofit organizations buying them could significantly improve participation in the acquired property sale program.

Under the current program, although VA offers as much as a 50-percent discount on acquired properties, an organization must finance a purchase either through its own cash reserves or by a conventional mortgage from a lending institution—options which are ill-suited for nonprofit organizations that put their resources into badly needed services and thus seldom have substantial accumulations of cash on hand. By allowing VA to finance the sales directly, and by permitting the Secretary to develop credit standards specifically for this program, this provision should make it possible for many more properties to be used to provide housing for homeless veterans and their families.

Mr. President, section 8 of the compromise agreement would further improve this VA program by authorizing VA to lease, lease with an option to purchase, or donate VA-repossessed properties to nonprofit organizations and State agencies for the purpose of providing housing to homeless veterans. An approved entity leasing a property would be responsible for payment of taxes, utilities, insurance, and maintenance costs associated with the property and would be required to collect rent from the homeless individuals living in the properties.

I believe that the program improvements that would be made by sections 8 and 9 of the compromise agreement would encourage the development of new opportunities for housing homeless veterans through collaborative ventures with nonprofit organizations.

HOMELESS VETERANS REINTEGRATION PROJECTS

Mr. President, section 11 of the compromise agreement would extend the program authority, and increase the authorized levels of appropriations, for the homeless veterans reintegration projects [HVRP] program administered by the Department of Labor. The HVRP program is a grant program under which grantees hire formerly homeless veterans to conduct outreach to homeless veterans and provide supportive services, job training, job readiness skills, and job placement.

At an April 9, 1992, committee hearing, the Deputy Assistant Secretary for Labor for Veterans Employment and Training, Robin Higgins, testified that, in fiscal year 1990, 11,493 homeless veterans were contacted through outreach efforts, 5,204 of them were enrolled in the program, and 2,309 of those enrolled in the program were placed in jobs, a placement rate of 44 percent.

I have received very favorable comments regarding the HVRP Program from community service providers, the National Coalition for the Homeless, and individual veterans who have been assisted. Up to this point, however, it has been a very small-scale demonstration program—with only 18 projects in 15 cities. The program has shown more than sufficient promise to warrant an increase in its scope. Thus, section 11 of the compromise agreement would increase the authorized level of appropriations from the current fiscal year 1993 level of $2.2 million to $14 million by fiscal year 1995.

Mr. President, it is a national disgrace that many thousands of veterans of the U.S. Armed Forces are sleeping on the streets of our Nation. These men and women are in desperate need of assistance to meet their most basic human needs and to rejoin the mainstream of American life. They answered the call to serve and defend their country, and I believe that we as a nation should respond to their individual and collective crises and assist them in their time of need. This legislation would provide for housing opportunities that would not otherwise exist, and I urge my colleagues to support this measure.

In closing, I thank our committee's ranking Republican member, Senator SPECTER, for his support of this legislation and all members of the committee for their cooperation and assistance regarding this measure. I would also like to note the valuable contributions made by Joan Alker of the National Coalition for the Homeless, the members of the National Coalition for Homeless Veterans, and the individual veterans—Stanley Jordan, William Sherman, and Raymond Tracey—who shared with the committee their personal experiences of homelessness and sought assistance for their fellow veterans.

I also express my gratitude for their work on this legislation to committee minority staff members Yvonne Santa Anna, who has since moved to Senator SPECTER's personal staff, Carrie Gavora, Bill Tuerk, and Tom Roberts and majority staff members Virginia Rowthorn-Apel, Kimberly Morin, who recently left the committee staff, Thomas Tighe, Bill Brew, and Ed Scott.

Mr. President, I urge all of my colleagues to support this important legislation, and I ask unanimous consent that the joint explanatory statement prepared by the Committees on Veterans' Affairs be printed in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

EXPLANATORY STATEMENT OF H.R. 5400, THE HOMELESS VETERANS COMPREHENSIVE SERVICE PROGRAMS ACT OF 1992

This document explains the provisions of two measures relating to programs for homeless veterans that have been passed by the Senate and House of Representatives, upon which the Committees on Veterans' Affairs of the Senate and House have reached agreement, and which are offered as a proposed House amendment to the Senate amendments to H.R. 5400.

The measures referred to above are H.R. 5400, the proposed "Comprehensive Service Programs For Homeless Veterans Act of 1992", as passed by the House on July 27, 1992 (hereinafter referred to as the "House bill"), and the text of S. 2512 as reported in the Senate, which was passed by the Senate on September 8, 1992, as a substitute amendment for H.R. 5400 (hereinafter referred to as the "Senate amendment").

The differences between the provisions of the House bill and the Senate amendment are noted in this document, except for clerical corrections, conforming changes made necessary by the compromise agreement, and minor drafting, technical, and clarifying changes.

COMPREHENSIVE CENTERS PILOT PROGRAM

Current law: Nothing in current law requires the establishment of comprehensive service centers for homeless veterans or the assignment of veterans benefits counselors at any particular sites in order to serve homeless veterans.

House bill: Section 2 would require VA, subject to the availability of appropriations expressly provided for in an appropriation law, to establish and operate through FY 1995 a pilot program under which (a) there would be established not more than 4 VA comprehensive service centers for homeless veterans, and (b) veterans benefits counselors would provide services at not more than 45 sites at which VA carries out the homeless chronically mentally ill veterans program, 26 sites at which VA carries out the domiciliary care for homeless veterans program, 12 centers which provide readjustment counseling, and each of the comprehensive service centers established under the program.

Senate amendment: No provision.

Compromise agreement: Section 2 follows the House bill with amendments to (a) clarify that any comprehensive service centers established under the demonstration program would be in addition to any existing programs providing similar services, (b) omit specific reference to the services that may be provided at the comprehensive centers created under this program and instead authorize the Secretary to provide any services which are authorized to be provided under current law, and (c) clarify that benefits counseling provided at the specified sites is to be furnished by employees of the Veterans Benefits Administration.

GRANT PROGRAM FOR THE ESTABLISHMENT OF PROGRAMS TO ASSIST HOMELESS VETERANS

Current law: Current law does not authorize VA to make grants for the establishment of programs to assist homeless veterans.

House bill: Section 3(a) would require VA, subject to the availability of appropriations, to make grants during FYs 1993 through 1995 to assist eligible entities in establishing new programs to furnish outreach, rehabilitative services, vocational counseling and training, and transitional housing assistance to homeless veterans.

Senate amendment: No provision.

Compromise agreement: Section 3(a) follows the House bill.

The Committees note that the intent of the grant program is to assist in the establishment of new programs, or new components of existing programs, that will provide needed services to homeless veterans. In this regard, both newly established organizations and existing organizations would be eligible for grant support for the furnishing of specified assistance that is needed in an area or community so long as, in the case of existing organizations, they are not already providing that kind of assistance in such area or community.

Development of criteria for award of grants

House bill: Section 3(b) would require VA to (a) establish and publish in the Federal Register, within 90 days after the date of enactment, criteria and requirements for the awarding of grants under the program, and (b) in developing such criteria, consult with the National Coalition for Homeless Veterans and to the maximum extent possible take into account homeless veterans' needs as indicated by the findings of the assessment required under section 5 of the bill (described below).

Senate amendment: No provision.

Compromise agreement: Section 3(b) follows the House bill with an amendment that would require the Secretary, in developing criteria for the award of grants under this program, to consult with organizations with experience in the area of serving homeless veterans.

The Committees note that this modification is intended to broaden the consultation requirement so as to facilitate broader participation by organizations with experience in providing services to homeless veterans. The Committees fully expect, however, that the National Coalition of Homeless Veterans would be among the entities consulted in view of the organization's members' extensive experience in providing services to homeless veterans.

The Committees also note that the assessment referred to in the House bill is not included in the compromise agreement because a similar assessment requirement was included in section 107 of the conference report on S. 2344, which passed the House of Representatives on September 23, 1992, and the Senate on September 25, 1992. However, the Committees intend that the assessments required under that legislation be taken into account by the Secretary in the development of grant criteria in the same manner that the House bill would have required.

Specific criteria for award of grants

House bill: Section 3(b) would also require that criteria established for the award of grants include: (a) specification as to the kind of projects eligible for grant support, which would be required to include renovation or acquisition of existing facilities for use as service centers, transitional housing or other facilities to serve homeless veterans and procurement of vans for use in outreach to and transportation for homeless veterans; (b) specification as to the number of projects for which grants are available, which would be limited to no more than 25 service centers and 20 programs that incorporate the procurement of vans; (c) appropriate criteria for staffing; (d) provisions to ensure that the award of grants does not result in a duplication of ongoing services in excess of identified needs and reflects appropriate geographic dispersion and appropriate balance between urban and nonurban locations; (e) provisions to ensure that grantees meet applicable State and community—not federal—fire and safety requirements; and (f) specifications as to how a grantee may contribute in-kind services to the start-up costs of any project for which grant support is sought and the methodology for assigning a cost to that contribution.

Senate amendment: No provision.

Compromise agreement: Section 3(b) follows the House bill with an amendment that requires VA to establish fire and safety standards, which, at a minimum, shall include a requirement of compliance with applicable State and community fire and safety standards.

The Committees note that this requirement is consistent with that applicable to VA's approval of a residential-care facility under section 1730(b)(2)(A) of title 38, United States Code.

Funding limitations

House bill: Section 3(c) would prohibit the use of a grant to support operational costs of a grantee, except as provided in section 4 of this bill, relating to per diem payments to eligible entities for services provided to homeless veterans, and would prohibit the award of a grant in excess of 65% of the estimated cost of the expansion, remodeling, alteration, acquisition, or procurement authorized under the program.

Senate amendment: No provision.

Compromise agreement: Section 3(c) follows the House bill with an amendment clarifying the different nature of grants—which may only be used for acquiring, expanding, or renovating facilities or for procuring vans—and per diem payments, which are intended to cover a portion of an organization's operational costs.

Eligible entities

House bill: Section 3(d) would require that, to be eligible for a grant under the program, an applicant (a) must be a public or nonprofit private entity with the capacity (as determined by the Secretary) to administer a grant effectively; (b) must have demonstrated that adequate financial support will be available to carry out the project for which the grant is sought consistent with the plans, specifications, and schedule submitted by the applicant; and (c) must have agreed to meet applicable criteria and regulations (and the Secretary determines that the applicant is capable of compliance). A nonprofit entity established by VA employees under section 1718(b)(2) of title 38 would be prohibited from receiving a grant.

Senate amendment: No provision.

Compromise agreement: Section 3(d) follows the House bill with an amendment deleting language that would make nonprofit entities established under section 1718(b)(2) of title 38 ineligible for grants.

The Committees intend that nonprofit organizations which contract with VA to furnish rehabilitative services under section 1718 be eligible to apply for grant support. However, while the Committees intend that such organizations be eligible, the Committees also intend that the grant program be eavilable to the broadest possible range of eligible entities. In this regard, the Committees are concerned that organizations with ongoing contractual relations with Va may be perceived as having an advantage in the awarding of grants, and thus direct VA to ensure that such organizations do not receive an inappropriate advantage in the award of grants.

Application requirements

House bill: Section 3(e) would require that a grant applicant submit an application which sets forth (a) the amount of the grant requested with respect to a project; (b) a description of the site of the proposed project; (c) plans, specifications, and the schedule for implementation of the project in accordance with the requirements prescribed by the Secretary; and (d) reasonable assurance that upon completion of the project for which a grant is sought, the program will become operational and the facilities will be used to provide to the veterans the services for which the project was designed and that not more than 25 percent of the services will be provided to clients not receiving services as veterans.

Senate amendment: No provision.

Compromise agreement: Section 3(e) follows House bill.

Program requirements for programs awarded grants

House bill: Section 3(f) would require that an applicant, in order to receive a grant, agree to (a) provide the services for which the grant is furnished at locations accessible to homeless veterans; (b) maintain referral networks for, and aid homeless veterans in, establishing eligibility for assistance and obtaining services under available entitlement and assistance programs; (c) ensure the confidentiality of records maintained on homeless veterans receiving services under the grant; (d) establish procedures for fiscal control and fund accounting necessary to ensure proper disbursement and accounting with respect to the grant and to receipt of per diem payments; and (e) seek to employ homeless veterans and formerly homeless veterans in positions created for purposes of the grant for which those veterans are qualified.

Senate provision: No provision.

Compromise amendment: Section 3(f) follows the House bill.

Requirements for the award of grants to establish homeless veterans service centers

House bill: Section 3(f)(5) would require, in addition to the general program requirements, that an applicant for a grant to establish a homeless veterans service center agree that the center would (a) provide services during hours specified by the Secretary and shall be open to homeless veterans on an as-needed, unscheduled basis; (b) make space at the center available, as mutually agreeable, for use by staff of VA, Department of Labor, and other appropriate agencies and organizations to assist homeless veterans in the center; (c) be equipped and staffed to provide, or to assist in providing, health care, mental health services, hygiene facilities, benefits and employment counseling, transportation assistance, and other services the Secretary determines are necessary; and (d) be equipped and staffed to provide, or to assist in providing, job training and job placement services (including job readiness, job counseling, and literacy and skills training) and any outreach and case management services that may be necessary to carry out such services.

Senate amendment: No provision.

Compromise agreement: Section 3(g) generally follows the House bill.

PER DIEM PAYMENTS

Current law: Current law does not authorize VA to make per diem payments to organizations for providing services specifically to homeless veterans.

House bill: Section 4(a) would require VA, subject to the availability of appropriations expressly provided for in an appropriation law, to provide to a grantee (or to an entity eligible to receive a grant which establishes a program consistent with the purposes of the grant program) per diem payments at rates prescribed by the Secretary for services furnished to any homeless veteran (a) referred by the Secretary to the grantee (or eligible entity) or (b) for whom the Secretary, within three working days, has authorized the provision of services if the veteran is eligible for such services from VA.

Senate amendment: No provision.

Compromise agreement: Section 4(a) follows the House bill with an amendment omitting the limitation that per diem payments may only be made for services which VA itself is authorized to provide.

Limitation on per diem payments

House bill: Section 4(b) would limit the amount of per diem paid with respect to a veteran to 50 percent of the grantee's (or eligible entity's) cost of providing the services furnished.

Senate bill: No provision.

Compromise agreement: Section 4(b) follows the House bill.

The Committee notes that payments may be made for services such as benefits and employment counseling and job training that would involve periodic visits of relatively brief duration and not necessarily overnight shelter or day-long visits. The Committees expect that the Secretary will develop appropriate criteria for the payment of per diem for various kinds of services under the compromise agreement.

Authority to provide in-kind assistance in lieu of per diem payments

House bill: Section 4(c) would authorize VA to provide, with the approval of the grantee, in-kind assistance in lieu of per diem.

Senate amendment: No provision.

Compromise agreement: Section 4(c) follows the House bill.

VA inspections of facilities of entities eligible for per diem payments

House bill: Section 4(d) would authorize VA to inspect any facility of an entity eligible to receive per diem payments and prohibits the payment of per diem if an entity's facilities do not meet VA standards.

Senate amendment: No provision.

Compromise agreement: Section 4(d) follows the House bill.

ASSESSMENT OF NEEDS OF HOMELESS VETERANS

Current law: Under section 107 of the conference report on S. 2344, the Veterans' Medical Programs Amendments of 1992, which the House passed on September 23, 1992, and the Senate passed on September 25, 1992, the director of each VA regional benefits offices or the director of each VA medical center would be required to conduct assessments of the needs of homeless veterans in their respective catchment areas. The assessments would include the needs of homeless veterans with respect to (a) health care, (b) education and training, (c) employment, (d) shelter, (e) counseling, and (f) outreach services and the extent to those needs are being met adequately by VA and other federal programs, State and local government programs, and programs of nongovernmental organizations.

House bill: Section 5 is substantively similar to the provisions included in section 107 of the conference report on S. 2344, the Veterans' Medical Programs Amendments of 1992.

Senate bill: No provision.

Compromise agreement: No provision.

OUTREACH SERVICES

Current law: Section 7722 of title 38 requires VA to conduct outreach services to ensure that all veterans are informed of the benefits for which they may be eligible or to which they may be entitled.

House bill: Section 6 would require VA to assign such employees of the Veterans Benefits Administration as the Secretary considers appropriate to conduct outreach services for homeless veterans, including site visits to identify homeless veterans and provide such veterans assistance in obtaining benefits.

Senate amendment: No provision.

Compromise agreement: Section 5 would amend section 7722 of title 38 so as to require the Secretary to conduct appropriate outreach services for homeless veterans, including assigning Veterans Benefits Administration employees to conduct site visits to identify homeless veterans and provide such veterans assistance in obtaining benefits.

EXTENSION AND EXPANSION OF PROGRAMS FOR HOMELESS VETERANS

Current law: Under section 115(d) of the Veterans' Benefits and Services Act of 1988 (Public Law 100–322) (as amended by section 201(c) of the Veterans' Benefits Amendments of 1989 (Public Law 101–237) and as would be amended by section 107(h) of the Veterans' Medical Programs Amendments of 1992, which the House passed on September 23, 1992, and the Senate passed on September 25, 1992), VA is authorized to conduct a program to provide care and treatment and rehabilitative services (directly or by contract) in halfway houses, therapeutic communities, psychiatric residential treatment centers, and other community-based treatment facilities to homeless veterans suffering from chronic mental illness disabilities. Public Law 100–628, the Stewart B. McKinney Homeless Assistance Amendments Act of 1988, authorized appropriations of $30 million for each of FYs 1989 and 1990 and required that 50 percent of the funds so appropriated in those years be available for that program and for VA's domiciliary care for homeless veterans program, which was authorized in Public Law 100–71, the Supplemental Appropriations Act of 1987. Public Law 101–237 extended the authority for the homeless chronically mentally ill veterans program through September 30, 1992, and Public Law 100–645 authorized appropriations of $31.5 million for FY 1991 and $33.075 million for FY 1992 to be divided equally between the programs. Section 107 of the conference report on S. 2344 would extend the authority for the homeless chronically mentally ill veterans program through September 30, 1995, and authorize FY 1993 appropriations of $50 million, with funds appropriated in that year to be allocated between those two programs at the Secretary's discretion.

House bill: Section 7 would (a) extend through FY 1995 VA's authority under section 115(d) of the Veterans' Benefits and Services Act of 1988 (Public Law 100–322) to conduct a program of rehabilitative services for homeless chronically mentally ill veterans; and (b) authorize funds appropriated for that program, if available, to be expended to assist homeless veterans who are not currently eligible for the HCMI program, but require that chronically mentally ill homeless veterans be given a priority for assistance.

Senate bill: No provision.

Compromise agreement: Section 6 of the compromise agreement would amend section 115(d) of the Veterans' Benefits and Services Act of 1988 (Public Law 100–322) so as to expand the scope of the homeless chronically mentally ill veterans program to include all homeless veterans, with primary emphasis being given to homeless veterans who have a chronic mental illness.

The Committees note that the underlying program authority for the existing program would be extended through September 30, 1995, as proposed in the House bill, in section 107(g) of the Veterans' Medical Programs Amendments of 1992, which passed the House on September 23, 1992, and the Senate on September 25, 1992.

AUTHORITY TO LEASE PROPERTIES TO ASSIST HOMELESS VETERANS

Current law: Section 3735 of title 38 authorizes VA, through September 30, 1993, to sell VA-acquired properties at a discount to nonprofit organizations and State agencies that agree to use the properties as a shelter for homeless veterans and their families.

House bill: Section 8 would amend section 3735 to authorize VA to lease, lease with an option to purchase, or donate, to nonprofit or State agencies VA-acquired properties for use as shelter for homeless veterans and their families.

Senate amendment: Section 2 would add to title 38 a proposed new section 3736, that would require VA to carry out through September 30, 1997, a program under which VA would be required annually to make available to nonprofit organizations and State agencies not more than 10 percent of eligible VA-acquired properties for use solely as transitional housing for homeless veterans and their families. Properties would be made available for a nominal fee by lease or by lease with an option to purchase. An approved entity leasing a property would be required (a) to collect rent from veteran occupants in an amount that does not exceed the lesser of (i) the costs of operating and maintaining the property or (ii) 30% of the occupants' income; and (b) to the maximum extent practicable, to (i) utilize the services of homeless veterans in maintaining, operating, and renovating the property, and (ii) provide veteran occupants appropriate information and referrals regarding available services. Properties eligible for lease would be those acquired by default on a loan made, insured, or guaranteed by VA, which are vacant, have been listed for sale for at least 60 days, and are not subject to a sales contract.

Compromise agreement: Section 8 would amend section 3735 of title 38 to authorize VA, through FY September 30, 1997, to lease, lease with an option to purchase, or donate, to nonprofit or State agencies VA-acquired properties for use as shelter for homeless veterans and their families. Any lease would be limited to three years, although the Secretary could include provisions for leases to be renewed; an approved entity leasing a property would be required to collect rent from veteran occupants; and an approved entity that leases a property would be responsible for the payment of any taxes, utilities, liability insurance, and other maintenance charges that apply to the property.

AUTHORITY TO LEASE CERTAIN VA PROPERTY FOR EXTENDED LEASE TERMS

Current law: Title V of the Stewart B. McKinney Homeless Assistance Act (Public Law 100–77; 41 U.S.C. 11411 et seq.) authorizes federal properties, including VA properties, that are surplus, excess, unutilized, or underutilized to be made available by lease for the purpose of assisting homeless persons. Section 8122 of title 38 prohibits VA from entering into a lease of any of its properties for a term in excess of three years.

House bill: Section 9 would authorize VA, with respect to any property at the West Los Angeles VA Medical Center made available under title V of the McKinney Act, to enter into a lease for a term in excess of 3 years with an approved applicant if the applicant agrees to use the property as a location for the provision of services to homeless veterans and their families.

Senate bill: Section 3 is similar to the House provision, except the authority to enter into a lease for a term in excess of three years would apply generally to all VA facilities and not be limited to the West Los Angeles VAMC.

Compromise agreement: Section 7 follows the House bill.

VA FINANCING OF PROPERTIES TO ASSIST HOMELESS VETERANS

Current law: Section 3735(a) of title 38 authorizes VA to sell at a discount VA-acquired properties to nonprofit organizations and State organizations for the purpose of providing shelter for homeless veterans and their families. Under section 3710(g)(2)(a) of title 38, the Secretary is required to establish credit underwriting standards to be used in evaluating VA guaranteed loans.

House bill: No provision.

Senate amendment: Section 1 would amend section 3735 of title 38 to authorize VA to (a) finance directly sales of VA-acquired properties which VA may sell at a discount under section 3735(a) of title 38; (b) waive one or more of the credit underwriting standards that would otherwise apply to direct VA financing under section 3710(g)(2)(A); (c) charge lower-than-market-rate interest; and (d) limit the number of loans in order to protect the interest of the Federal Government. VA would be prohibited from collecting a loan fee for a loan made pursuant to this authority.

Compromise agreement: Section 9 follows the Senate amendment, with amendments that would (a) require the Secretary to establish credit standards to be used to carry out the purposes of this program, and (b) authorize the Secretary to waive a loan fee for loans made under this authority.

HOMELESS VETERANS REINTEGRATION PROJECTS

Current law: Section 738 of the Steward B. McKinney Homeless Assistance Act (Public Law 100–77) authorizes the Secretary of Labor to conduct, directly or through grant or contract, programs to expedite the reintegration of homeless veterans into the labor force. Under this authority, the Secretary of Labor has established the Homeless Veterans Reintegration Projects (HVRP) program, a grant program under which grantees hire formerly homeless veterans to conduct outreach to homeless veterans and provide supportive services, job training, job readiness skills, and job placement. The HVRP program's authority expires on October 1, 1993.

House bill: No provision.

Senate amendment: Section 4 would extend until October 1, 1995, the HVRP program's authority and increase the authorized levels of appropriations from the currently authorized FY 1993 level of $2.2 million to $10 million for FY 1993, $12 million for FY 1994, and $14 million for FY 1995.

Compromise agreement: Section 11 follows the Senate amendment.

ANNUAL REPORTS

House bill: Section 11 would require VA to submit, by May 1 in each of 1994, 1995, and 1996, a report on the implementation of the bill containing, to the extent practicable, information on the number of veterans assisted, the services provided, and the Secretary's analysis of the operational and clinical effectiveness and cost-effectiveness of programs carried out under the bill.

Senate amendment: No provision.

Compromise agreement: Section 10 follows the House bill.

AUTHORIZATION OF APPROPRIATIONS

House bill: Section 10 would (a) authorize appropriations of $48 million for each of FYs 1993 through 1995; (b) prohibit the use of funds to carry out the House bill (except for section 8, regarding VA's authority to lease or donate VA-acquired properties to nonprofit and State organizations) unless expressly provided for in an appropriaton law; and (c) provide that nothing in the House bill be construed to diminish funds for, or continuation of, existing programs administered by VA.

Senate amendment: No provision.

Compromise agreement: Section 12 follows the House bill with amendments to (a) clarify that nothing in the compromise agreement shall be construed to limit expansion of existing programs administered by VA, and (b) prohibit the expenditure of funds to carry out sections 2, 3, and 4 of the bill unless expressly provided for in an appropriation law.

Mr. FORD. Mr. President, I move that the Senate concur in the House amendment.

The ACTING PRESIDENT pro tempore. The question is on agreeing to the motion.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

CONSUMER PROTECTION ACT

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1392.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1392) entitled "An Act to strengthen the authority of the Federal Trade Commission regarding fraud committed in connection with sales made with a telephone, and for other purposes", do pass with the following amendments:

Strike out all after the enacting clause, and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Consumer Protection Telemarketing Act".

SEC. 2. FINDINGS.

The Congress makes the following findings:

(1) Telemarketing differs from other sales activities in that it can be carried out by sellers across State lines without direct contact. Telemarketers can also be very mobile, easily moving from State to State.

(2) Interstate telemarketing fraud has become a problem of such magnitude that the resources of the Federal Trade Commission are not sufficient to insure adequate consumer protection from such fraud.

(3) Consumers and others are estimated to lose $1 billion a year in telemarketing fraud.

(4) Consumers are victimized by other forms of telemarketing deception and abuse.

(5) Consequently, Congress should enact legislation that will offer consumers necessary protection from telemarketing deception (including fraud) and abuse.

SEC. 3. TELEMARKETING RULES.

(a) In General.—

(1) The Commission shall prescribe rules prohibiting deceptive (including fraudulent) telemarketing activities and other abusive telemarketing activities.

(2) The Commission shall include in such rules respecting deceptive telemarketing activities—

(A) a definition of deceptive telemarketing activities, and

(B) criteria that are symptomatic of deceptive telemarketing as distinguished from ordinary telemarketing business practices.

(3) The Commission shall include in such rules respecting other abusive telemarketing activities a requirement that telemarketers may not undertake a pattern of unsolicited telephone calls which the reasonable consumer would consider coercive or abusive of such consumer's right to privacy. In prescribing the rules described in this paragraph, the Commission shall consider—

(A) including a requirement that goods or services offered by telemarketing be shipped or provided within a specified period and that if the goods or services are not shipped or provided within such period, a refund be required, and

(B) including, where practicable, authority for a person who orders a good or service through telemarketing to cancel the order within a specified period.

(b) Rulemaking.—

(1) The Commission shall prescribe the rules under subsection (a) within 270 days after the date of enactment of this Act. Such rules shall be prescribed in accordance with section 553 of title 5, United States Code.

(2) A rule issued under subsection (a) shall be considered a rule issued under section 18(a)(1)(B) of the Federal Trade Commission Act.

(c) Enforcement.—Any violation of any rule prescribed under subsection (a) shall be treated as a violation of a rule under section 5 of the Federal Trade Commission Act (15 U.S.C. 45) regarding unfair or deceptive acts or practices.

(d) Securities and Exchange Commission Rules.—

(1) Promulgation.—

(A) In general.—Except as provided in subparagraph (B), not later than 6 months after the effective date of rules promulgated by the Federal Trade Commission under subsection (a), the Securities and Exchange Commission shall promulgate rules substantially similar to such rules to prohibit deceptive and other abusive telemarketing activities by persons described in paragraph (2).

(B) Exception.—The Securities and Exchange Commission is not required to promulgate a rule under subparagraph (A) if it determines that—

(i) Federal securities laws or rules adopted by the Securities and Exchange Commission thereunder provide protection from deceptive and other abusive telemarketing by persons described in paragraph (2) substantially similar to that provided by rules promulgated by the Federal Trade Commission under subsection (a); or

(ii) such a rule promulgated by the Securities and Exchange Commission is not necessary or appropriate in the public interest, or for the protection of investors, or would be inconsistent with the maintenance of fair and orderly markets.

If the Securities and Exchange Commission determines that an exception described in clause (i) or (ii) applies, the Commission shall publish in the Federal Register its determination with the reasons for it.

(2) Application.—

(A) In general.—The rules promulgated by the Securities and Exchange Commission under paragraph (1)(A) shall apply to a broker, dealer, transfer agent, municipal securities dealer, municipal securities broker, government securities broker, government securities dealer, investment adviser or investment company, or any individual associated with a broker, dealer, transfer agent, municipal securities dealer, municipal securities broker, government securities broker, government securities dealer, investment adviser or investment company. The rules promulgated by the Federal Trade Commission under subsection (a) shall not apply to persons described in the preceding sentence.

(B) Definitions.—For purposes of subparagraph (A)—

(i) the terms "broker", "dealer", "transfer agent", "municipal securities dealer", "municipal securities broker", "government securities broker", and "government securities dealer" have the meanings given such terms by paragraphs (4), (5), (25), (30), (31), (43), and (44) of section 3(a) of the Securities and Exchange Act of 1934 (15 U.S.C. 78c(a)(4), (5), (25), (30), (31), (43), and (44));

(ii) the term "investment adviser" has the meaning given such term by section 202(a)(11) of the Investment Advisers Act of 1940 (15 U.S.C. 80b–2(a)(11)); and

(iii) the term "investment company" has the meaning given such term by section 3(a) of the Investment Company Act of 1940 (15 U.S.C. 80a–3(a)).

(e) Commodity Futures Trading Commission Rules.—

(1) Application.—The rules promulgated by the Federal Trade Commission under subsection (a) shall not apply to persons described in subsection (f)(1) of section 6 of the Commodity Exchange Act (7 U.S.C. 8, 9, 15, 13b, 9a).

(2) Promulgation.—Section 6 of the Commodity Exchange Act (7 U.S.C. 8, 9, 15, 13b, 9a) is amended by adding at the end the following new subsection:

"(f)(1) Except as provided in paragraph (2), not later than 6 months after the effective date of rules promulgated by the Federal Trade Commission under section 3(a) of the Consumer Protection Telemarketing Act, the Commission shall promulgate rules substantially similar to such rules to prohibit deceptive and other abusive telemarketing activities by any person registered or exempt from registration under this Act in connection with such person's business as a futures commission merchant, introducing broker, commodity trading advisory, commodity pool operator, leverage transaction merchant, floor broker, or floor trader, or a person associated with any such person.

"(2) The Commission is not required to promulgate rules under paragraph (1) if it determines that—

"(A) rules adopted by the Commission under this Act provide protection from deceptive and abusive telemarketing by persons described under paragraph (1) substantially similar to that provided by rules promulgated by the Federal Trade Commission under section 3(a) of the Consumer Protection Telemarketing Act; or

"(B) such a rule promulgated by the Commission is not necessary or appropriate in the pub-

lic interest, or for the protection of customers in the futures and options markets, or would be inconsistent with the maintenance of fair and orderly markets.

If the Commission determines that an exception described in subparagraph (A) or (B) applies, the Commission shall publish in the Federal Register its determination with the reasons for it.".

SEC. 4. ACTIONS BY STATES.

(a) In General.—Whenever an attorney general of any State has reason to believe that the interests of the residents of that State have been or are being threatened or adversely affected because any person has engaged or is engaging in a pattern or practice of telemarketing which violates any rule of the Commission under section 3, the State may bring a civil action on behalf of its residents in an appropriate district court of the United States to enjoin such telemarketing, to enforce compliance with such rule of the Commission, to obtain damages, restitution, or other compensation on behalf of residents of such State, or to obtain such further and other relief as the court may deem appropriate.

(b) Notice.—The State shall serve prior written notice of any civil action under subsection (a) upon the Commission and provide the Commission with a copy of its complaint, except that if it is not feasible for the State to provide such prior notice, the State shall serve such notice immediately upon instituting such action. Upon receiving a notice respecting a civil action, the Commission shall have the right (1) to intervene in such action, (2) upon so intervening, to be heard on all matters arising therein, and (3) to file petitions for appeal.

(c) Construction.—For purposes of bringing any civil action under subsection (a), nothing in this Act shall prevent an attorney general from exercising the powers conferred on the attorney general by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel the attendance of witnesses or the production of documentary and other evidence.

(d) Actions by the Commission.—Whenever the Commission has instituted a civil action for violation of any rule prescribed under section 3, no State may, during the pendency of such action instituted by the Commission, institute a civil action under subsection (a) against any defendant named in the Commission's complaint for acts or omissions alleged in the complaint for violation of any rule as alleged in the Commission's complaint.

(e) Actions by Other State Officials.—

(1) Nothing contained in this section shall prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any civil or criminal statute of such State.

(2) In addition to actions brought by an attorney general of a State under subsection (a), such an action may be brought by officers of such State who are authorized by the State to bring actions in such State for protection of consumers and who are designated by the Commission to bring an action under subsection (a) against persons that the Commission has determined have or are engaged in a pattern or practice of telemarketing which violates a rule of the Commission under section 3.

SEC. 5. ACTIONS BY PRIVATE PERSONS.

(a) In General.—Any person adversely affected by any pattern or practice of telemarketing which violates any rule of the Commission under section 3 or an authorized person acting on such person's behalf may, within 3 years after discovery of the violation, bring a civil action in an appropriate district court of the United States against a person who has engaged or is engaging in such pattern or practice of telemarketing if the amount in controversy exceeds the sum or value of $50,000 in actual damages for each person adversely affected by such telemarketing. Such an action may be brought to enjoin such telemarketing, to enforce compliance with any rule of the Commission under section 3, to obtain damages, or to obtain such further and other relief as the court may deem appropriate.

(b) Notice.—The plaintiff shall serve prior written notice of the action upon the Commission and provide the Commission with a copy of its complaint, except in any case where such prior notice is not feasible, in which case the person shall serve such notice immediately upon instituting such action. The Commission shall have the right (A) to intervene in the action, (B) upon so intervening, to be heard on all matters arising therein, and (C) to file petitions for appeal.

(c) Actions by the Commission.—Whenever the Commission has instituted a civil action for violation of any rule prescribed under section 3, no person may, during the pendency of such action instituted by the Commission, subsequently institute a civil action against any defendant named in the Commission's complaint for violation of any rule as alleged in the Commission's complaint.

(d) Costs and Fees.—The court, in issuing any final order in any action brought under subsection (a), may award costs of suit and reasonable fees for attorneys and expert witnesses to the prevailing party.

(e) Construction.—Nothing in this section shall restrict any right which any person may have under any statute or common law.

SEC. 6. CLEARINGHOUSE.

(a) In General.—The Commission shall establish a clearinghouse for inquiries made to Federal agencies concerning telemarketing. The clearinghouse will provide information (other than information which may not be disclosed under section 552(b) of title 5, United States Code, or under regulations prescribed by the Commission to implement such section) to anyone making inquiries respecting persons engaged in telemarketing or direct such inquiries to the appropriate Federal or State agency.

(b) Liability for Providing Information.—No person who provides information to the clearinghouse established under subsection (a) shall be liable for damages for the provision of such information unless such person provided such information knowing it to be false.

SEC. 7. ADMINISTRATION AND APPLICABILITY OF ACT.

(a) In General.—Except as otherwise provided in sections 4 and 5, this Act shall be enforced by the Commission under the Federal Trade Commission Act (15 U.S.C. 41 et seq.). Consequently, no activity which is outside the jurisdiction of that Act shall be affected by this Act.

(b) Actions by the Commission.—The Commission shall prevent any person from violating a rule of the Commission under section 3 in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this Act. Any person who violates such rule shall be subject to the penalties and entitled to the privileges and immunities provided in the Federal Trade Commission Act in the same manner, by the same means, and with the same jurisdiction, power, and duties as though all applicable terms and provisions of the Federal Trade Commission Act were incorporated into and made a part of this Act.

SEC. 8. DEFINITIONS.

For purposes of this Act:

(1) The term "attorney general" means the chief legal officer of a State.

(2) The term "Commission" means the Federal Trade Commission.

(3) The term "State" means any State of the United States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, and any territory or possession of the United States.

(4) The term "telemarketing" means a plan, program, or campaign which is conducted to induce purchases of goods or services by significant use of one or more telephones and which involves more than one interstate telephone call. The term does not include the solicitation of sales through the mailing of a catalog which—

(A) contains a written description or illustration of the goods or services offered for sale,

(B) includes the business address of the seller,

(C) includes multiple pages of written material or illustrations, and

(D) has been issued not less frequently than once a year,

where the person making the solicitation does not solicit customers by telephone but only receives calls initiated by customers in response to the catalog and during those calls takes orders only without further solicitation.

SEC. 9. REVIEW.

Upon the expiration of 5 years following the date of the enactment of this Act, the Federal Trade Commission shall review the implementation of this Act and its effect on deceptive telemarketing activities and report the results of the review to the Congress.

AMENDMENT NO. 3420

(Purpose: To make an amendment in the nature of a substitute)

Mr. FORD. I move that the Senate concur in the amendments of the House with a further amendment which I send to the desk now on behalf of Senator BRYAN.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. BRYAN, proposes an amendment numbered 3420.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

In lieu of the matter proposed to be inserted by the House amendment to the bill, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Telemarketing and Consumer Fraud and Abuse Prevention Act".

SEC. 2. FINDINGS.

The Congress makes the following findings:

(1) Telemarketing differs from other sales activities in that it can be carried out by sellers across State lines without direct contact with the consumer. Telemarketers can also be very mobile, easily moving from State to State.

(2) Interstate telemarketing fraud has become a problem of such magnitude that the resources of the Federal Trade Commission are not sufficient to ensure adequate consumer protection from such fraud.

(3) Consumers and others are estimated to lose $40 billion a year in telemarketing fraud.

(4) Consumers are victimized by other forms of telemarketing deception and abuse.

(5) Consequently, Congress should enact legislation that will offer consumers nec-

essary protection from telemarketing deception (including fraud) and abuse.

SEC. 3. TELEMARKETING RULES.

(a) IN GENERAL.—

(1) The Commission shall prescribe rules prohibiting deceptive (including fraudulent) telemarketing activities and other abusive telemarketing activities.

(2) The Commission shall include in such rules respecting deceptive telemarketing activities—

(A) a definition of deceptive telemarketing activities, and

(B) criteria that are symptomatic of deceptive telemarketing as distinguished from ordinary telemarketing business practices.

(3) The Commission shall include in such rules respecting other abusive telemarketing activities (A) a requirement that telemarketers may not undertake a pattern of unsolicited telephone calls which the reasonable consumer would consider coercive or abusive of such consumer's right to privacy, and (B) restrictions on the hours of the day and night when unsolicited telephone calls can be made to consumers. In prescribing the rules described in this paragraph, the Commission shall also consider—

(A) including a requirement that goods or services offered by telemarketing be shipped or provided within a specified period and that if the goods or services are not shipped or provided within such period, a refund be required;

(B) including, where practicable, authority for a person who orders a good or service through telemarketing to cancel the order within a specified period; and

(C) recordkeeping requirements.

(b) RULEMAKING.—

(1) The Commission shall prescribe the rules under subsection (a) within 270 days after the date of enactment of this Act. Such rules shall be prescribed in accordance with section 553 of title 5, Unites States Code.

(2) A rule issued under subsection (a) shall be considered a rule issued under section 18(a)(1)(B) of the Federal Trade Commission Act (15 U.S.C. 57a(a)(1)(B)).

(c) ENFORCEMENT.—Any violation of any rule prescribed under subsection (a) shall be treated as a violation of a rule under section 18 of the Federal Trade Commission Act (15 U.S.C. 57a) regarding unfair or deceptive acts of practices.

(d) SECURITIES AND EXCHANGE COMMISSION RULES.—

(1) PROMULGATION.—

(A) IN GENERAL.—Except as provided in subparagraph (B), not later than 6 months after the effective date of rules promulgated by the Federal Trade Commission under subsection (a), the Securities and Exchange Commission shall promulgate, or require any national securities exchange or registered securities association to promulgate, rules substantially similar to such rules to prohibit deceptive and other abusive telemarketing activities by persons described in paragraph (2).

(B) EXCEPTION.—The Securities and Exchange Commission is not required to promulgate a rule under subparagraph (A) if it determines that—

(i) Federal securities laws or rules adopted by the Securities and Exchange Commission thereunder provide protection from deceptive and other abusive telemarketing by persons described in paragraph (2) substantially similar to that provided by rules promulgated by the Federal Trade Commission under subsection (a); or

(ii) such a rule promulgated by the Securities and Exchange Commission is not necessary or appropriate in the public interest, or for the protection of investors, or would be inconsistent with the maintenance of fair and orderly markets.

If the Securities and Exchange Commission determines that an exception described in clause (i) or (ii) applies, the Securities and Exchange Commission shall publish in the Federal Register its determination with the reasons for it.

(2) APPLICATION.—

(A) IN GENERAL.—The rules promulgated by the Securities and Exchange Commission under paragraph (1)(A) shall apply to a broker, dealer, transfer agent, municipal securities dealer, municipal securities broker, government securities broker, government securities dealer, investment adviser or investment company, or any individual associated with a broker, dealer, transfer agent, municipal securities dealer, municipal securities broker, government securities broker, government securities dealer, investment adviser or investment company. The rules promulgated by the Federal Trade Commission under subsection (a) shall not apply to persons described in the preceding sentence.

(B) DEFINITIONS.—For purposes of subparagraph (A)—

(i) the terms "broker", "dealer", "transfer agent", "municipal securities dealer", "municipal securities broker", "government securities broker", and "government securities dealer" have the meanings given such terms by paragraphs (4), (5), (25), (30), (31), (43), and (44) of section 3(a) of the Securities and Exchange Act of 1934 (15 U.S.C. 78c(a)(4), (5), (25), (30), (31), (43), and (44));

(ii) the term "investment adviser" has the meaning given such term by section 202(a)(11) of the Investment Advisers Act of 1940 (15 U.S.C. 80b–2(a)(11)); and

(iii) the term "investment company" has the meaning given such term by section 3(a) of the Investment Company Act of 1940 (15 U.S.C. 80a–3(a)).

(e) COMMODITY FUTURES TRADING COMMISSION RULES.—

(1) APPLICATION.—The rules promulgated by the Federal Trade Commission under subsection (a) shall not apply to persons described in subsection (f)(1) of section 6 of the Commodity Exchange Act (7 U.S.C. 8, 9, 15, 13b, 9a).

(2) PROMULGATION.—Section 6 of the Commodity Exchange Act (7 U.S.C. 8, 9, 15, 13b, 9a) is amended by adding at the end the following new subsection:

"(f)(1) Except as provided in paragraph (2), not later than 6 months after the effective date of rules promulgated by the Federal Trade Commission under section 3(a) of the Telemarketing and Consumer Fraud and Abuse Prevention Act, the Commission shall promulgate, or require each registered futures association to promulgate, rules substantially similar to such rules to prohibit deceptive and other abusive telemarketing activities by any person registered or exempt from registration under this Act in connection with such person's business as a futures commission merchant, introducing broker, commodity trading advisory, commodity pool operator, leverage transaction merchant, floor broker, or floor trader, or a person associated with any such person.

"(2) The Commission is not required to promulgate rules under paragraph (1) if it determines that—

"(A) rules adopted by the Commission under this Act provide protection from deceptive and abusive telemarketing by persons described under paragraph (1) substantially similar to that provided by rules promulgated by the Federal Trade Commission under section 3(a) of the Telemarketing and Consumer Fraud and Abuse Prevention Act; or

"(B) such a rule promulgated by the Commission is not necessary or appropriate in the public interest, or for the protection of customers in the futures and options markets, or would be inconsistent with the maintenance of fair and orderly markets.

If the Commission determines that an exception described in subparagraph (A) or (B) applies, the Commission shall publish in the Federal Register its determination with the reasons for it.".

SEC. 4. ACTIONS BY STATES.

(a) IN GENERAL.—Whenever an attorney general of any State has reason to believe that the interests of the residents of that State have been or are being threatened or adversely affected because any person has engaged or is engaging in a pattern or practice of telemarketing which violates any rule of the Commission under section 3, the State, as parens patriae, may bring a civil action on behalf of its residents in an appropriate district court of the United States to enjoin such telemarketing, to enforce compliance with such rule of the Commission, to obtain damages, restitution, or other compensation on behalf of residents of such State, or to obtain such further and other relief as the court may deem appropriate.

(b) NOTICE.—The State shall serve prior written notice of any civil action under subsection (a) upon the Commission and provide the Commission with a copy of its complaint, except that if it is not feasible for the State to provide such prior notice, the State shall serve such notice immediately upon instituting such action. Upon receiving a notice respecting a civil action, the Commission shall have the right (1) to intervene in such action, (2) upon so intervening, to be heard on all matters arising therein, and (3) to file petitions for appeal.

(c) VENUE; SERVICE OF PROCESS.—Any civil action brought under this section in a district court of the United States may be brought in the district wherein the defendant is found or is an inhabitant or transacts business or wherein the telemarketing occurred or is occurring, and process in such cases may be served in any district in which the defendant is an inhabitant or wherever the defendant may be found.

(d) CONSTRUCTION.—For purposes of bringing any civil action under subsection (a), nothing in this Act shall prevent an attorney general from exercising the powers conferred on the attorney general by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel the attendance of witnesses or the production of documentary and other evidence.

(e) ACTIONS BY THE COMMISSION.—Whenever the Commission has instituted a civil action for violation of any rule prescribed under section 3, no State may, during the pendency of such action instituted by the Commission, institute a civil action under subsection (a) against any defendant named in the Commission's complaint for acts or omissions alleged in the complaint for violation of any rule as alleged in the Commission's complaint.

(f) ACTIONS BY OTHER STATE OFFICIALS.—

(1) Nothing contained in this section shall prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any civil or criminal statute of such State.

(2) In addition to actions brought by an attorney general of a State under subsection

(a), such an action may be brought by officers of such State who are authorized by the State to bring actions in such State for protection of consumers and who are designated by the Commission to bring an action under subsection (a) against persons that the Commission has determined have or are engaged in a pattern or practice of telemarketing which violates a rule of the Commission under section 3.

SEC. 5. ACTIONS BY PRIVATE PERSONS.

(a) In General.—Any person adversely affected by any pattern or practice of telemarketing which violates any rule of the Commission under section 3, or an authorized persons acting on such person's behalf, may, within 3 years after discovery of the violation, bring a civil action in an appropriate district court of the United States against a person who has engaged or is engaging in such pattern or practice of telemarketing if the amount in controversy exceeds the sum or value of $50,000 in actual damages for each person adversely affected by such telemarketing. Such an action may be brought to enjoin such telemarketing, to enforce compliance with any rule of the Commission under section 3, to obtain damages, or to obtain such further and other relief as the court may deem appropriate.

(b) Notice.—The plaintiff shall serve prior written notice of the action upon the Commission and provide the Commission with a copy of its complaint, except in any case where such prior notice is not feasible, in which case the person shall serve such notice immediately upon instituting such action. The Commission shall have the right (A) to intervene in the action, (B) upon so intervening, to be heard on all matters arising therein, and (C) to file petitions for appeal.

(c) Actions by the Commission.—Whenever the Commission has instituted a civil action for violation of any rule prescribed under section 3, no person may, during the pendency of such action instituted by the Commission, subsequently institute a civil action against any defendant named in the Commission's complaint for violation of any rule as alleged in the Commission's complaint.

(d) Costs and Fees.—The court, in issuing any final order in any action brought under subsection (a), may award costs of suit and reasonable fees for attorneys and expert witnesses to the prevailing party.

(e) Construction.—Nothing in this section shall restrict any right which any person may have under any statute or common law.

SEC. 6. PROCESS.

(a) Civil Suits.—In any suit brought against a person, partnership, or corporation under section 13(b) of the Federal Trade Commission Act (15 U.S.C. 53(b)) to enjoin—

(1) deceptive telemarketing activities or other abusive telemarketing activities in violation of the rules prescribed under this Act, or

(2) unfair or deceptive telemarketing acts or practices in or affecting commerce (within the meaning of section 5(a)(1) of the Federal Trade Commission Act, 15 U.S.C. 45(a)(1)),

the court may, if the court determines that the interests of justice require that any other person, partnership, or corporation should be a party in such suit, cause such other person, partnership, or corporation to be summoned without regard to whether they reside or transact business in the district in which the suit is brought, and to that end process may be served wherever such other person, partnership, or corporation may be found.

(b) Criminal Contempt Actions.—In any case described in subsection (a)(1) or (2), the Commission may bring a criminal contempt action for violations of orders obtained in such case in the same manner as civil penalty and other Federal court actions apply under section 16(a)(1) of the Federal Trade Commission Act (15 U.S.C. 56(a)(1)). Such criminal cases may be initiated by the Commission pursuant to the appointment as a Special Assistant United States Attorney by the Attorney General of an attorney employed full-time by the Commission to assist the Attorney General in the prosecution of such cases. Such appointment may be instituted at the request of the court which has entered the order for which contempt is sought. The Attorney General shall decide on the appointment within 45 days after receipt of such request for appointment of a Commission lawyer as a Special Assistant United States Attorney. The authority to bring criminal contempt actions under this subsection expires 3 years after the date of enactment of this Act.

SEC. 7. INVESTIGATION.

(a) Civil Investigative Demand for Physical Evidence.—In any investigation by the Commission with respect to—

(1) deceptive telemarketing activities or other abusive telemarketing activities in violation of the rules prescribed under this Act, or

(2) unfair or deceptive telemarketing acts or practices in or affecting commerce (within the meaning of section 5(a)(1) of the Federal Trade Commission Act, 15 U.S.C. 45(a)(1)),

the Commission's powers with respect to a civil investigative demand shall include a demand for the production of physical evidence.

(b) Issuance of Demand.—A civil investigative demand in an investigation described in subsection (a)(1) or (2) may require the person upon whom the demand is served to produce physicial evidence for inspection, to give oral testimony concerning physical evidence, or to furnish such physical evidence and testimony in combination with documentary material, answers, or testimony described in section 20(c)(1) of the Federal Trade Commission Act (15 U.S.C. 57b-1(c)(1)).

(c) Contents.—Each such civil investigative demand for the production of physical evidence shall—

(1) describe each class of physical evidence to be produced under the demand with such definiteness and certainty as to permit such evidence to be fairly identified;

(2) prescribe a return date or dates which will provide a reasonable period of time within which the physical evidence so demanded may be assembled and made available for inspection and copying or reproduction; and

(3) identify the custodian to whom such physical evidence shall be made available.

(d) Production of Evidence in Response to Demand.—The production of physical evidence in response to such civil investigative demand shall be made under a sworn certificate, in such form as the demand designates, by the person to whom the demand is directed or, if not a natural person, by any person having knowledge of the facts and circumstances relating to such production, to the effect that all of the physical evidence required by demand and in the possession, custody, or control of the person to whom the demand is directed has been produced and made available to the custodian.

(e) Other Requirements.—Except as provided in this section, the requirements of section 20 of the Federal Trade Commission Act (15 U.S.C. 57b-1) apply to a civil investigative demand in an investigation described in subsection (a)(1) or (2).

(f) Definition.—In this subsection, the term "physical evidence" means any object or device.

SEC. 8. ADMINISTRATION AND APPLICABILITY OF ACT.

(a) In General.—Except as otherwise provided in sections 4 and 5, this Act shall be enforced by the Commission under the Federal Trade Commission Act (15 U.S.C. 41 et seq.). Consequently, no activity which is outside the jurisdiction of that Act shall be affected by this Act.

(b) Actions by the Commission.—The Commission shall prevent any person from violating a rule of the Commission under section 3 in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this Act. Any person who violates such rule shall be subject to the penalties and entitled to the privileges and immunities provided in the Federal Trade Commission Act in the same manner, by the same means, and with the same jurisdiction, power, and duties as though all applicable terms and provisions of the Federal Trade Commission Act were incorporated into and made a part of this Act.

SEC. 9. DEFINITIONS.

For purposes of this Act:

(1) The term "attorney general" means the chief legal officer of a State.

(2) The term "Commission" means the Federal Trade Commission.

(3) The term "State" means any State of the United States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, and any territory or possession of the United States.

(4) The term "telemarketing" means a plan, program, or campaign which is conducted to induce purchases of goods or services by significant use of one or more telephones and which involves more than one interstate telephone call. The term does not include the solicitation of sales through the mailing of a catalog which—

(A) contains written description or illustration of the goods or services offered for sale,

(B) includes the business address of the seller,

(C) includes multiple pages of written material or illustrations, and

(D) has been issued not less frequently than once a year,

where the person making the solicitation does not solicit customers by telephone but only receives calls initiated by customers in response to the catalog and during those calls takes orders only without further solicitation.

SEC. 10. REVIEW.

Upon the expiration of 5 years following the date of the enactment of this Act, the Commission shall review the implementation of this Act and its effect on deceptive telemarking activities and report the results of this review to the Congress.

Mr. BRYAN. As chairman of the Commerce Committee Consumer Subcommittee, I am pleased by the consideration by the full Senate of S. 1392, legislation to protect consumers from telemarketing fraud.

It is now common knowledge that the telemarketing business has become a fertile ground for fraudulent operators. The FTC estimates that telemarketing fraud costs consumers billions of dollars each year. The Consumer Federation of America, along with the National Association of Consumer Agency Administrators, completed a survey of State and local consumer protection agencies which identified telemarketing as one of the worst consumer ripoffs and abuses. A recent report by the National Consumers League shows that over 5.5 million people have bought something by telephone they now feel was a definite fraud.

Under these practices, consumers are typically offered goods and services that are what we call too good to be true. The offers include luxury items and fabulous trips at little or no cost. The consumer is often required to pay in advance, and is generally asked to pay by credit card. The reality, however, is that many of these deals are indeed too good be to be true. Sometimes the items are never delivered, or are not of the value which the consumer expected. Many of these operations are fly-by-night boilerroom shops, whose contact with the consumer is limited to the telephone, and whose mobility permit the consumer no recourse in the event the goods are deficient or not delivered. The quick movement and deceptive tactics by these scam operators also make it difficult for enforcement and prosecution, particularly for State law enforcement officials.

As I have stated before, no one knows the problems of telemarketing abuse better than the citizens of my own State of Nevada. During the 1980's, fraudulent telemarketing boilerrooms were a growth industry in Nevada. The State's consumer affairs division has recorded over 15,000 written complaints and over 66,000 telephone inquiries from consumers concerned about such fraud. Estimates show that Nevada consumers lost about $8 million between 1984 and 1989 because of fraudulent telemarketing schemes.

The State government, together with the Federal strike force, has done an admirable job in attempting to deal with this overwhelming problem. The boilerroom industry has gone into sharp decline, from 400 telemarketing firms with 20,000 employees in 1988 to 60 operations with 5,000 salespeople in 1989. The State has enacted creative and effective legislation to address this problem, requiring licensing of telemarketers and establishing tough antifraud provisions in the securities area, which I was pleased to sign into law when I served as Governor.

The effects of telemarketing fraud, however, are felt throughout the Nation, both by consumers and legitimate telemarketers. The FTC and the National Association of State Attorneys General have both stated that they consider telemarketing fraud a grave threat to consumers, and that the problem is one of their top priorities.

In the last Congress, I introduced legislation to strengthen the FTC's authority, and the ability of State attorneys general and individual consumers, to combat fraudulent telemarketing. I was joined in that effort by Senator MCCAIN. At the beginning of this Congress, Senator MCCAIN and I reintroduced the legislation. The bill, S. 1392, was passed unanimously by the full Senate. Similar legislation introduced by Congressman SWIFT, H.R. 3203, was passed by the House.

The legislation that I am introducing today retains provisions from S. 1392 as originally passed, and also incorporates provisions from H.R. 3203. This legislation directs the Federal Trade Commission to undertake a rulemaking to prohibit fraudulent and abusive telemarketing activities. It also provides new enforcement tools for the FTC. Equally important, S. 1392 provides a new cause of action for State attorneys general and other State officials, and for private parties.

The bill provides that the FTC rules respecting deceptive and abusive telemarketing activities shall be considered rules issued under section 18(a)(2)(B) of the Federal Trade Commission Act. In determining whether to make a finding under section 18(f)(1) of the Federal Trade Commission Act that the acts or practices of banks, savings associations, or Federal credit unions are not unfair or deceptive in this connection, it is the intention of the Congress that the appropriate Federal banking regulator include in its consideration, first, whether banks, savings associations, or credit unions in fact engage in deceptive or abusive telemarketing, and, second, whether existing laws or regulations provide protection from deceptive or abusive telemarketing substantially similar to the protection provided by the rules promulgated by the FTC under this bill.

Second, it is the intention of the Congress that the rules the FTC will promulgate under this bill concerning deceptive and abusive telemarketing activities expressly prohibit credit card laundering. Credit card laundering is the practice by which fraudulent telemarketers, sometimes acting in conjunction with third-party intermediaries as brokers, persuade merchants with access to the credit card system to submit, in the name of that merchant, the fraudulent telemarketers' sales drafts into the credit card system. This practice enables the fraudulent telemarketer to avoid the safeguards the credit card systems and the financial institutions participating in these systems have established to preclude access by the fraudulent telemarketer to the credit care system.

The FTC's prohibition of credit card laundering should be broad enough to cover all of the parties involved in credit card laundering—the fraudulent telemarketer, the merchant submitting the fraudulent telemarketer's sales drafts into the credit card system, and any third-party intermediaries causing or arranging the credit card laundering. However, this credit card laundering prohibition should not cover the activities of a legitimate servicing organization which, as an authorized agent of a member of a credit card system, provides services directly to merchants, including, among other things, processing sales drafts. It should not cover an act or practice expressly permitted in a valid agreement with a member of a credit card system or the member's authorized agent. An agreement in violation of the rules of the application credit card system should not constitute a valid agreement for these purposes. In addition, this prohibition generally should not apply to a messenger or other delivery service that is used by a telemarketer merely to physically transport sales drafts, if the messenger or delivery service does not arrange for the sales drafts to be presented to a member of the credit card system or the member's agent.

Finally, the bill provides that the private party actions provided for in the bill may be brought by a victim or an authorized person acting on the victim's behalf. It is the intention of the Congress that such an authorized person includes, among others, a financial institution that has incurred loss or damage, such as through reimbursement of a victimized credit card holder, as well as a member organization comprising financial institution members, or any parent organization of such member organization, if one or more of its financial institution members is eligible to bring a civil action under the bill.

It should be noted that both the National Association of Attorneys General and the U.S. Department of Justice strongly support the provision that would allow all the State attorneys general to enforce a Federal telemarketing rule both on behalf of consumers and State entities. The parens patriae language is not intended to introduce any additional procedural requirements that would delay or otherwise hinder the ability of the State attorneys general to move quickly to enforce the rights of citizens of their States.

Mr. President, this legislation is vitally important. S. 1392 will protect all consumers, as well as legitimate businesses and financial institutions, from becoming unwilling victims of unscrupulous and fraudulent telemarketers. I ask for the unanimous support of my colleagues.

Mr. MCCAIN. Mr. President, I am pleased at the passage of the conference report on S. 1392, the Telemarketing and Consumer Fraud and Abuse Prevention Act. This legislation is long overdue. It addresses the issue of telemarketing fraud which continues to prey upon innocent victims in my State of Arizona, and around the country. Advancements in communications technology have ironically proven to be both a benefit and a liability to consumers. While new technologies have provided greater choices to consumers in the marketplace, they have also widened the options of scam operators in selecting a vehicle for cheating consumers out of their earnings.

We all know too well the prevalence of these practices. Senator BRYAN and I have worked together on two telemarketing fraud bills, S. 2494, which was unanimously passed in the Senate in the fall of 1990, and S. 1392 which was again approved in the fall of 1991. This legislation has become increasingly more imperative as the practice becomes more and more sophisticated and less apparent even to the most alert consumer. The need for enacting Federal legislation has never been greater.

I have stated repeatedly that this legislation is not directed at the legitimate telemarketing industry. This industry has provided consumers greater options for obtaining information, entertainment, and home shopping opportunities. A great many of these telemarketing companies are legitimately operated by honest business men and women. Nevertheless, the increases in telemarketing fraud have been a scourge on the industry, and consumers have lost money, in some cases their health, and, in all cases, their patience.

Telemarketing and consumer fraud costs American taxpayers tens of billions of dollars per year. Such fraud is often committed by individuals who escape legal action by dismantling their operation and relocating to begin the operation again. In the cases of these so-called boilerroom scams, both the victims and the perpetrators are difficult to locate since the operations often consist of nothing more than phone banks which do not readily provide detailed evidence of illegal activity.

Of even greater concern are the so-called root organizations which support the boiler rooms and facilitate credit card laundering, an activity which has been shown to be integral to the telemarketing fraud industry. The Federal Trade Commission [FTC] has focused its efforts on bringing cases against these root organizations in order to bring down their client boiler-room outfits, and stop credit card laundering.

The impact of credit card laundering has been harmful to both consumers and banking institutions throughout the Nation. This is exemplified by the situation where a fraudulent telemarketer uses the credit card privileges of a merchant to obtain legitimate credit card drafts as records of transactions to receive payment from the unsuspecting customer's bank.

This exact scenario played out in my State of Arizona. On February 15, 1990, Gateway National Bank in Phoenix was declared insolvent by the Office of the Comptroller of the Currency. Just 1 year prior to insolvency, Gateway claimed assets of $11 million. One of the main reasons attributed to its demise was the overwhelming number of chargebacks the bank had to absorb because of merchants' failure to pay. These chargebacks ate away at the bank's equity capital, depleting it so as to render the bank insolvent.

The message here is clear: With credit card fraud, and all kinds of telemarketing fraud, the consumer and the banking communities are the big losers.

The cases involving telemarketing fraud continue to make news. In April 1991, the FTC brought charges against the makers and marketers of the Arizona-based Amerdream Corp. which misrepresented its product, the so-called ultimate solution diet program, falsely claiming that a Harvard study showed an ingredient in the ultimate solution's night trim diet tablets to be effective in achieving significant weight loss and reducing cholesterol levels and blood pressure. The program also promised consumers of the ultimate solution a 100-percent moneyback guarantee and a $1,000 U.S. Treasury bond just for buying and testing a 2-month supply, which has now been found to be false.

In July 1991, the FTC brought additional charges against the president of Amerdream for false claims made through another one of his companies, also based in Arizona, Advanced Automotive Technologies, Inc., the maker of the Petromizer. A Federal court found that Advanced Automotive falsely represented that the Petromizer increases gas mileage by more than 28 percent, increases automobile horsepower and acceleration by 11 percent, and reduces automobile emissions, including a 100-percent reduction in carbon monoxide emissions, and that various Federal and State organizations helped develop or had tested the product and proven its effectiveness. This marketing technique was very effective in the period during the conflict in the Persian Gulf, where concerns about gasoline supplies were heightened.

As a result of the FTC's efforts in these two cases, a Federal court ordered the companies to pay nearly $675,000 for consumer redress.

I wish these were isolated cases, but we all know they are not. Every segment of society is victimized by telemarketing fraud. The elderly are always targeted by scam operators peddling phony health care products.

Every consumer cries out for greater law enforcement protection. Congressional action has been long overdue, and I am pleased that the Senate and the House of Representatives have passed this legislation.

One of the most important aspects of this legislation are the enforcement provisions which will help the FTC catch these scam operators, wherever they may go, and bring them to justice. The bill also assists the State attorneys general in fighting telemarketing fraud as well. Each part of this bill is extremely important within the framework of helping those on a State and Federal level fight telemarketing fraud and protect consumers.

I appreciate the efforts that have been made by the legitimate members of the telemarketing community and by the consumer advocacy groups, both of whom have worked together in a successful partnership to fight against fraud.

The ACTING PRESIDENT pro tempore. The question is on agreeing to the motion.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

INTER-AMERICAN SCIENTIFIC COOPERATION ACT OF 1992

Mr. FORD. Mr. President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of H.R. 3215, the Inter-American Scientific Cooperation Act of 1992, and that the Senate then proceed to its immediate consideration.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered. The bill will be stated by title.

The assistant legislative clerk read as follows:

> A bill (H.R. 3215) to reinvigorate cooperation between the United States and Latin America in science and technology.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 3421

(Purpose: To make an amendment in the nature of a substitute)

Mr. FORD. Mr. President, on behalf of Senator BINGAMAN and Senator LIEBERMAN, I send a substitute amendment to the desk and ask for its immediate consideration.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

> The Senator from Kentucky [Mr. FORD] for Mr. BINGAMAN (for himself and Mr. LIEBERMAN) proposes an amendment numbered 3421.

Mr. FORD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

Strike all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Inter-American Scientific Cooperation Act of 1992".

SEC. 2. FINDINGS AND DEFINITION.

(a) FINDINGS.—The Congress finds the following:

(1) Latin America shares a wide range of scientific and technological concerns with the United States.

(2) The need for science and technology cooperation with Latin America has increased significantly since the 1970s, but mechanisms for cooperation have decreased significantly since many countries in Latin America graduated from programs sponsored by the Agency for International Development.

(3) Latin American scientists and engineers have increasingly looked to Europe and Japan for advanced training and research. This trend may result in a loss of mutually beneficial commerce and scientific cooperation between Latin America and the United States.

(4) Investment by the United States in the Latin American science and technology infrastructure and participation of United States scientists and engineers in short-term and long-term assignments in Latin America can further improve relations between the United States and Latin America, and bring many benefits to the United States, including scientific access, enhanced trade and investment relations, and the opportunity to contribute to economic growth and democratization in the hemisphere.

(5) Science and technology cooperation with the United States, and advanced training and research in the United States, can bring many benefits to Latin America. In developing countries, cooperation can contribute to the strengthening of basic science and technology infrastructure. In industrially advanced Latin American countries, cooperation can increase opportunities in many scientific disciplines and in the frontier scientific fields.

(6) Considerable progress in science and technology cooperation can be made with relatively modest investments.

(7) The return to democracy in a number of Latin American countries provides renewed vigor for freedom of scientific inquiry, cooperation, and progress, as well as a focus for the reversal of the decline in science and technology cooperation between the United States and Latin America.

(b) DEFINITIONS.—As used in this Act—

(1) the term "debt-for-science exchange" means an agreement, between a grantee under section 4 and a Latin American country, that provides that the grantee shall cancel its right to collect payment on a portion of the commercial external debt of that Latin American country, in exchange for the country's contribution to the grantee of local currencies or other assets to support scientific and technological research in the country;

(2) the term "Director" means the Director of the National Science Foundation; and

(3) the term "Latin America" means Mexico, the Caribbean basin, Central America, and South America.

SEC. 3. ESTABLISHMENT OF THE PROGRAM.

The National Science Foundation shall establish an Inter-American Scientific Cooperation Program (hereafter in this Act referred to as the "Program") aimed at increasing the level of science and technology cooperation between the United States and Latin America. The National Science Foundation, in establishing the Program, shall identify and cooperate with private and governmental funding bodies, both in Latin America and in the United States. The Program shall include the following elements:

(1) Encouragement and funding of project development interchanges and joint research projects between United States and Latin American scientists and engineers. Joint projects and interchanges funded by the National Science Foundation shall, whenever possible, include cost sharing from sources within the Latin American countries whose citizens participate. The Director shall determine the amount of cost sharing which is required.

(2) Establishment in accordance with section 13 of the National Science Foundation Act of 1950 (42 U.S.C. 1872) of an Inter-American Scientific Exchange. The Exchange's activities shall include collection and dissemination of information to Latin Americans on avenues for advanced study in science and engineering in the United States; United States assistance to Latin American institutions, at the institutions' request, for development of courses, seminars, and curricula in science and engineering; and other forms of scientific and technological cooperation as may be mutually agreeable, such as research projects in furtherance of professional development. In carrying out this paragraph the Director shall coordinate with other Federal agencies offering programs for foreign nationals for advanced study and research in the sciences and in engineering.

(3) Exchange of information and technical assistance between United States and Latin American scientists and engineers interested in establishing data bases and connecting to computer networks such as the National Research and Education Network.

(4) Exchange of information to facilitate the routing of scientific equipment between the United States and Latin America, including information with respect to matching equipment with need, identifying technical maintenance requirements, and meeting customs regulations

(5) Promotion of research programs which utilize unique natural environments or existing or potential centers of scientific research excellence in Latin America.

SEC. 4. DEBT-FOR-SCIENCE EXCHANGES

"(a) GRANTS.—The Director is authorized to make grants to nongovernmental organizations within the United States, including colleges and universities, for the purpose of acquiring the commercial external debt of Latin American Countries and undertaking such other activities as are necessary to carry out debt-for-science exchanges. Before making any grant under this section, the Director shall ascertain that—

(1) funds received from a Latin American country in connection with the debt-for-science exchange to which the grant applies will be expended only for cooperative research and development projects, including those described in section 3; or to fund endowments for the long-term support of cooperative research and development projects;

(2) the debt-for-science exchange will result in making funds available for such cooperative projects which otherwise would not be available;

(3) the amount of local currency provided by the Latin American country as a result of the debt-for-science exchange will be substantially greater than the cost of acquiring the country's commercial external debt;

(4) the grantee certifies that the Latin American country has accepted the terms of the exchange and that an agreement has been reached to cancel the commercial debt in an agreed upon fashion; and

(5) Federal grants made under this section will be equally matched by non-Federal contributions to acquire the commercial external debt of the Latin American country.

"(b) RETENTION OF INTEREST.—Grantees or subgrantees of funds provided under this section may retain, without deposit in the Treasury of the United States and without further appropriation, interest earned on the proceeds of any resulting debt-for-science exchange pending disbursements of such proceeds and interest for approved program purposes, which may include the establishment of an endowment, the income of which is used for such purposes.

"(c) COORDINATION WITH OTHER FEDERAL AGENCIES.—In carrying out subsection (a) the Director shall coordinate with Federal agencies, such as the Agency for International Development, that have expertise in debt exchanges.

SEC. 5. REPORT ON BINATIONAL SCIENCE FOUNDATIONS.

"(a) REPORT TO CONGRESS.—Within 180 days after the date of enactment of this Act, the Director shall submit to Congress a report which—

(1) describes existing Binational Science Foundations in Latin America and elsewhere and the research funded by them;

(2) identifies successful binational foundations in Latin America in areas other than sciences and technology;

(3) evaluates the advantages and disadvantages of Binational Science Foundations in comparison to direct funding of joint research projects;

(4) identifies countries in Latin America that might benefit by establishment of a Binational Science Foundation between that country and the United States;

(5) identifies types of cooperative scientific research and educational projects that might most effectively be funded through Binational Science Foundations;

(6) assesses, by country, the availability of private-sector funding and in-country funding to match United States funding of Binational Science Foundations in Latin America; and

(7) identifies legislative or administrative changes needed if the National Science Foundation is to fund establishment of Binational Science Foundations.

(b) CONSULTATION.—In carrying out subsection (a), the Director shall consult with Federal agencies, such as the Department of State and the Agency for International Development, that have participated in binational foundations in Latin America and elsewhere.

SEC. 6. REPORT ON PROGRAM.

Within 180 days after the date of enactment of this Act, the Director shall submit to Congress a report which—

(1) details activities funded by the National Science Foundation and carried out by or in cooperation with Latin American countries during the preceding fiscal year;

(2) includes a description of how activities of the Program relate to other ongoing and prospective National Science Foundation activities in Latin America;

(3) describes plans for the current and upcoming fiscal years' activities of the Program;

(4) recommends priorities for the Program for cooperation in terms of scientific disciplines and geographic regions; and

(5) recommends necessary legislative or administrative changes in the Program.

SEC. 7. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Director for carrying out this Act—

(1) $10,000,000 for fiscal year 1993; and

(2) $10,000,000 for fiscal year 1994.

Mr. BINGAMAN. Mr. President, on behalf of myself and Senator LIEBERMAN, I send to the desk a substitute amendment to H.R. 3215, the Inter-American Scientific Cooperation Act of 1992, which authorizes the National Science Foundation [NSF] to establish an Inter-American Scientific Cooperation Program to increase efforts to support joint research projects in Latin America. I appreciate the help of Senator HOLLINGS, who is chairman of the primary committee of jurisdiction on this legislation, the Commerce Committee, in developing this compromise amendment.

I first introduced this legislation in 1990 (S. 2733) as a companion bill to a bill introduced by Congressman BROWN (H.R. 2152). My interest derived really from the efforts of my former New Mexico colleague Congressman Manuel Lujan, now Secretary of the Interior who championed very similar legislation during his tenure in the House. In this Congress I introduced S. 2733 and am pleased to have Senators SEYMOUR and LIEBERMAN as cosponsors of the bill. Over the past 2 years this legislation has gone through several iterations. As originally conceived, and still retained in this amendment, the legislation seeks to establish a strong alliance in joint research and education between Latin America and the United States.

This legislation is aimed at increasing our scientific and technological ties with the nations of Latin America. The United States is known as a world leader in science and technology. In order to maintain and strengthen our leadership, the United States needs to reevaluate our current process for science and technology cooperation. Unfortunately, cooperative efforts between the United States and one of our most important partners, Latin America, have declined in the past 20 years. The amendment seeks to reverse this trend by establishing a strong alliance in joint research and education between Latin America and the United States.

As scientific cooperation between Latin America and the United States has declined, Latin America has looked increasingly to Europe and Japan for scientific and technological training. This trend, in conjunction with the increased emphasis on science and technology in the national development plans of many Latin American nations, will mean a loss of United States influence if we do not act to reassert our interest in this area. Such a reawakening of United States-Latin American cooperation is not only possible but imperative. The amendment is but one step, albeit an important step, toward reinvigorating cooperation between the United States and Latin America.

The amendment will help American scientists working with their colleagues in Latin America to cooperatively develop new technologies and address and monitor environmental problems. We need to develop policies with our Latin American neighbors which are consistent and which support common interests in science and technology. As the Latin American nations strive to increase the standard of living for their people and as we strive to become more economically competitive with other industrialized nations in Europe and Asia, the need for cooperation between the nations of Latin America and the United States becomes evident. It is good policy for us to forge scientific and technological partnerships with Latin America now, as a basis for establishing economic markets later. The United States would not only aid Latin America but would also benefit from expanded trade and investment opportunities.

Unique natural environments and conditions make Latin America a critical area for research opportunities for United States scientists. For example, to thoroughly investigate such topics as the deforestation of the Amazon Basin and its contribution to global climate change and species diversity, United States scientists need stable working relationships with Latin American scientists as well as access to these environments.

The new Inter-American Scientific Cooperation Program within the NSF would consist of several elements. The first is an expansion of funds. At present, NSF funds joint research projects between the United States and Latin America through its international division, with funding under $1 million. The amendment would expand the scope of joint research activities with an authorization of up to $10 million in fiscal year 1993 and up to $10 million in fiscal year 1994.

This amendment would also increase the number of Latin American exchange students eligible to study in the United States. Since the peak year of 1982, enrollment of Latin American students in the United States has dropped by 31 percent and more Latin American students have elected to study in Europe and in Japan. This trend has been fostered by several factors including the Latin American debt crisis, devaluation of currencies, decline of oil revenues, rise in the cost of education in the United States, improvement in indigenous opportunities, and increased opportunities in other Latin American countries, Europe, and Japan.

In order to reverse these trends, this amendment establishes the Inter-American Scientific Educational Development Exchange to provide graduate and post-doctoral fellowships, both for Latin Americans studying in the United States and for United States students who wish to study in Latin America. There will also be an exchange of information and technical assistance between the scientists and engineers of both countries interested in establishing data bases and computer linkages.

In addition, this amendment authorizes NSF to provide grants to colleges and universities so that they may enter into debt-for-science swaps in order to leverage NSF research dollars. Under these arrangements, colleges and universities purchase, from American banks, commercial debt issued by Latin American countries. Due to the Latin American debt crisis, this debt is often available for a fraction of its face value.

I would have preferred that the amendment go further with respect to binational science foundations in Latin America. I favored language that would facilitate the establishment of binational science foundation encouraging, whenever possible, each participating country in Latin America to make financial contributions to the establishment of such foundations. But because of concerns from the Senate Foreign Relations Committee this amendment calls for the National Science Foundation to report to Congress on how binational science foundations could be used to provide long-term funding for cooperative research projects in Latin American countries.

We have already had reports written on this topic. There are other binational science foundations, like those established between Israel and the United States, and more recently in the Freedom Support Act, which will hopefully be passed within the next few days, with Russia and the other States of the former Soviet Union, which can serve as models for foundations with Latin American countries. I can only hope we will receive a positive report from NSF allowing us to move forward with establishing the foundation in the next Congress.

Mr. President, the viability of the United States economy is inescapably linked to the world economy. A successful Latin America will be fundamental to world economic growth and thus to our own. Increased cooperation by the United States and Latin America in the areas of science and technology will provide new research and development opportunities and, as a consequence, positively impact economic growth. I urge my colleagues to support this important legislation.

AMENDMENT NO. 3422

(Purpose: To establish a wind engineering program within the National Institute of Standards and Technology)

Mr. FORD. Mr. President, on behalf of Senator HOLLINGS, I send an amendment regarding wind engineering to the desk and ask for its immediate consideration.

The ACTING PRESIDENT pro tempore. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD] for Mr. HOLLINGS (for himself and Mr. THURMOND) proposed an amendment numbered 3422.

Mr. FORD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

At the end, add the following:

SEC. 8. SHORT TITLE.

(a) This section may be cited as the "Wind Engineering Program Act of 1992".

(b) FINDINGS AND PURPOSES.—The Congress finds the following:

(1) Hurricanes and tornadoes kill more Americans and destroy more property than any other natural disaster.

(2) Each year, in the United States, extreme winds cause billions of dollars of damage to homes, schools, and other buildings, roads and bridges, electrical power distribution networks, and communications networks.

(3) Research on wind and wind engineering has resulted in improved methods for making buildings and other structures less vulnerable to extreme winds, but additional research funding is needed to develop new, improved, and more cost-effective methods of wind-resistant construction.

(4) Federal funding for wind engineering research has decreased over the last twenty years.

(5) Wind research has been hampered by a lack of data on near-surface wind speed and distribution during hurricanes, tornadoes, and other severe storms.

(6) Many existing methods for wind-resistant construction are inexpensive and easy to implement but often they are not applied because the construction industry and the general public are unaware of such methods.

(7) Various Federal agencies have important roles to play in wind engineering research, but at present there is little interagency cooperation or coordination in this area.

(8) Establishment of a Federal Wind Engineering Program would result in new technologies for wind-resistant construction, broader application of such technologies in construction, and ultimately decreased loss of life and property due to extreme winds.

(c) PURPOSE.—The purpose of this section is to create a Wind Engineering Program within the National Institute of Standards and Technology, which would—

(1) provide for wind engineering research;

(2) serve as a clearinghouse for information on wind engineering; and

(3) improve interagency coordination on wind engineering research between the National Institute of Standards and Technology, the National Oceanic and Atmospheric Administration, the National Science Foundation, the Federal Aviation Administration, and other appropriate agencies.

(d) ESTABLISHMENT.—Within the National Institute of Standards and Technology, there shall be established a Wind Engineering Program which shall—

(1) conduct research and development, in cooperation with the private sector and academia, on new methods for mitigating wind damage due to tornadoes, hurricanes, and other severe storms;

(2) fund construction and maintenance of wind tunnels and other research facilities needed for wind engineering research;

(3) promote the application of existing methods for, and research results on, reducing wind damage to buildings that are usually incompletely- or non-engineered, such as single family dwellings, mobile homes, light industrial buildings, and small commercial structures;

(4) transfer technology developed in wind engineering research to the private sector so that it may be applied in building codes, design practice, and construction;

(5) conduct, in conjunction with the National Oceanic and Atmospheric Administration, post-disaster research following hurricanes, tornadoes, and other severe storms to evaluate the vulnerability of different types of buildings to extreme winds;

(6) serve as a point of contact for dissemination of research information on wind engineering and work with the private sector to develop education and training programs on construction techniques, develop from research results, for reducing wind damage;

(7) work with the National Oceanic and Atmospheric Administration, the Federal Aviation Administration, and other agencies as is appropriate, on meteorology programs to collect and disseminate more data on extreme wind events; and

(8) work with the National Science Foundation to support and expand basic research on wind engineering.

(e) AUTHORIZATIONS.—(1) There are authorized to be appropriated to the National Institute of Standards and Technology for the purpose of this section $1,000,000 for fiscal year 1993 and $3,000,000 for fiscal year 1994.

(2) Of the amounts authorized under paragraph (1), no less than 50 percent shall be used for cooperative agreements with the National Oceanic and Atmospheric Administration, the National Science Foundation, the Federal Aviation Administration, or other agencies, for wind engineering research, development of improved practices for structures, and the collection and dissemination of meteorological data needed for wind engineering.

Mr. HOLLINGS. Mr. President, the amendment that Senator THURMOND and I are offering is nearly identical to S. 3273, the Wind Engineering Program Act of 1992, which I introduced, along with Senators INOUYE, BREAUX, AKAKA, and BENTSEN, on September 25. A companion bill, H.R. 6039, was introduced in the House by Representatives TOM LEWIS, GEORGE BROWN, and several others.

This is a small but important bill that will do a great deal to prevent the type of wind damage caused by Hurricane Hugo in South Carolina, Hurricane Andrew in Florida and Louisiana, and Hurricane Iniki in Hawaii. Houses ripped to pieces by the wind—entire neighborhoods flattened—block after block without a single house or tree standing; these are the terrible effects of the recent storms that have ravaged several of our States.

By taking a few extra precautions, architects and builders can construct buildings to withstand hurricane-force winds, and it does not require a great deal of special, expensive hardware or sophisticated, new building techniques. Engineers have developed inexpensive, simple techniques for ensuring that roofs stay in place and windows remain intact—even if wind speeds top 120 or 130 miles per hour. Yet, too often, home owners and builders do not know about these techniques.

This amendment would create a Wind Engineering Program at the National Institute of Standards and Technology [NIST] of the Department of Commerce. For years, the Center for Building Technology at NIST has helped builders and architects to design better buildings. The Center is well-known for developing new ways to design and build earthquake-resistant buildings. It helps builders to evaluate new building materials and techniques.

The Wind Engineering Program Act would authorize a total of $4 million over the next 2 years to create a Wind Engineering Program at NIST. The program would coordinate wind engineering research being done at the National Oceanic and Atmospheric Administration [NOAA], the National Science Foundation [NSF], and other agencies. One-half of the money authorized would be used for joint projects with other agencies. For instance, this money could be used by NOAA and Department of Defense meteorologists to provide better data on wind speeds in severe storms so that wind engineers at NIST, in universities, and in industry can understand better how winds damage structures. NIST could also join with NSF to fund wind engineering research in universities and to ensure that the results of that research are disseminated to the architects and builders who can put them into practice.

In this area of wind engineering, there is some very exciting, useful research being done in our universities. I am most familiar with research being done at Clemson University by Dr. Bell Sill, Dr. Peter Sparks, and others. They have constructed a wind tunnel that enables them to test the response of different types of roofs to hurricane-force winds. In addition, after Hurricane Hugo they used their expertise to assess the damage and determine how communities could prepare better for the next hurricane. This amendment will ensure that such important work in continued.

The program created by this amendment is similar to that called for in a recently released National Research Council report, "Wind and the Built Environment: U.S. Needs in Wind Engineering and Hazard Mitigation." That report documents how wind engineering could save lives and billions of dollars throughout the country and makes clear the inadequacy of Federal wind engineering programs.

The Wind Engineering Program created by this bill will be small, but I believe it can do a great deal to reduce the damage caused by hurricanes in the future. During the 1980's, severe wind storms—hurricanes, tornadoes, mountain winds like chinooks, and Santa Anas—caused an average of about $3.7 billion in damage to buildings and other facilities each year. According to some estimates, without new efforts to reduce wind damage, by the year 2000, the average annual cost could rise to $8.8 billion. This bill represents a solid investment—in terms of dollars and, more importantly, in terms of lives saved.

I urge my colleagues to support this legislation.

The ACTING PRESIDENT pro tempore. Without objection, the amendment is agreed to.

So the amendment (No. 3422) was agreed to.

The ACTING PRESIDENT pro tempore. Without objection, the substitute amendment, as amended, is agreed to.

So the substitute amendment (No. 3421), as amended, was agreed to.

The ACTING PRESIDENT pro tempore. Without objection, the bill is considered deemed read a third time and passed.

So the bill (No. 3215), as amended, was deemed read the third time and passed.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UNITED STATES AND STATE OF UTAH LAND EXCHANGE ACT OF 1992

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 758, H.R. 5118, relating to a Utah land exchange.

The ACTING PRESIDENT pro tempore. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 5118) to exchange lands within the State of Utah, between the United States and the State of Utah.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

The ACTING PRESIDENT pro tempore. Are there any additional floor amendments.

AMENDMENT NO. 3423

Mr. FORD. Mr. President, on behalf of Senator GARN, I send an amendment to the desk and ask for its immediate consideration.

The ACTING PRESIDENT pro tempore. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD] for Mr. GARN proposes an amendment numbered 3423.

Mr. FORD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

On page 3, lines 9 and 10, strike "Nevada, amounting to about" and insert "Nevada, comprising approximately".

On page 5, line 2, strike "Act, credit to" and insert "Act, compensate".

On page 5, line 3, strike "Utah the" and insert "Utah for".

On page 5, line 11, strike "shall send" and insert "shall transmit to".

On page 6, line 6, strike "coal in" and insert "coal located in".

On page 6, line 8, strike "coal in" and insert "coal located in".

On page 6, starting on line 11, strike "Secretary may" and insert "Secretary shall".

On page 6, line 12, strike "the right to receive".

On page 7, strike lines 1 through 3 and insert "royalties under this section exceeding $12,500,000 annually."

On page 7, line 22, strike "shall arrange" and insert "shall provide".

On page 8, strike lines 3 through 14 and insert:

"(b) DEADLINE AND DISPUTE RESOLUTION.—(1) If after two years from the date of enactment of this Act, the parties have not agreed upon the final terms of some or all of the exchanges authorized by this Act, including the value of the lands involved in some or all of such exchanges, notwithstanding any other provisions of law, the United States District Court for the District of Utah, Central Division, shall have jurisdiction to hear, determine, and render judgment on the value of any and all lands, or interests therein, involved in the exchange."

On page 8, strike lines 15 through 24.

On page 9, after line 5 insert:

"(c) ADJUSTMENT.—If the State shares revenue from the selected Federal properties the value of such properties shall be the value otherwise established under this section, less the percentage which represents the Federal revenue sharing obligation, but such adjustment shall not be considered as reflecting a property right of the State of Utah.

"(d) INTEREST.—Any royalty offer by the Secretary pursuant to subsection 7(b) shall be adjusted to reflect net present value as of the effective date of the exchange. The State shall be entitled to receive a reasonable rate of interest at a rate equivalent to a five year treasury note on the balance of the value owed by the United States from the effective date of the exchange until full value is received by the State and mineral rights revert to the United States as prescribed by subsection 9(a)(3).".

On page 12, line 24, strike "establish funding," and insert "establish a funding mechanism,".

Mr. GARN. Mr. President, I am pleased to join with my colleague from Utah, Senator HATCH, to legislatively address a situation which was placed upon the State of Utah by the Federal Government at the time it entered the Union in 1896. Many people, including the Governor and representatives of PTA's throughout Utah have worked tirelessly to bring us closer together on a State land exchange bill than we have ever previously been.

The amendments now before the Senate resolve the shortcomings of a bill passed earlier this week by the House, H.R. 5118. Specifically, the amendments allow the State of Utah to recoup revenues due it from the Federal Government from a broad cross section of Federal lands and royalties, in addition to those lands which are specifically listed in the bill. The House bill capped such revenues for these additional offers at $25 million total. The Senate amendments would allow the State to receive $12.5 million per year until the value of the land it traded to the Federal Government is met. Since no more than 50 percent of the revenues can come from so-called additional offers, this means the State could receive more money for the operation of its school system, sooner than if the House provision were left in place. It is a fair proposition to both the Federal Government and the State of Utah.

The effect of this legislation would be to remove State inholdings from within Utah's national parks, forests, and Indian reservations, in exchange for receiving revenue producing lands based on a recommendation put forth by the Secretary of the Interior and agreed to by the State.

Stated simply, at the time of statehood, the Congress granted Utah land sections numbered 2, 16, 32, and 36 "* * * for the support of the common schools * * *." A quick glance at a Utah State map reveals a hodgepodge system of land ownership that is inefficient, cumbersome, and one which deprives the school system of Utah tens of millions of dollars which, if available would reduce the tax burden of every property owner in the State.

Today, this checkerboard management scheme has the effect of giving every management decision over State lands to the various Federal land managers by default. When small, 1-square-mile sections are all surrounded by Federal land, this result is inevitable. For example, when the U.S. Forest Service or the Bureau of Land Management decides certain lands containing developable coal or other resources are better suited for other nondevelopment purposes, then, even though the State of Utah may want to develop those captive State lands for the benefit of the schools, the Federal land manager can effectively veto any decision the State may make concerning such lands. The end result of this ongoing dilemma is that in 1991, State lands generated less than 2 percent of the State of Utah's school budget. Two percent. The 98-percent difference is made up by Utahns paying inordinately high property taxes.

Mr. President, Utah spends more on education as a percent of its total State budget than any other State. Yet, per capita expenditures on students is the lowest of the 50 States. People may ask how can this be? Well, it's really very simple. The people of Utah have more kids per family than in any other State. We don't complain about the kids because they represent our future. But it is no longer possible to sit idly by while the Federal Government's land management policies effectively deprive Utah's State school trust lands of their revenue producing potential. So, parents and teachers and PTA's everywhere in Utah have begun to tell their elected Representatives to fix the problem, to obtain Utah's fair share. To accomplish this requires legislation. That is why this legislation is so important.

For nearly 18 years, it has been my privilege to represent the State of Utah here in the U.S. Senate. I have always tried to be a representative of all of the people. I haven't always succeeded, but I have always tried.

The bill before the Senate, includes lands with commercial value for selection by the Secretary of the Interior for possible transfer to the State. Regrettably, it does not include all available public land with commercial value in Utah. If it did, rural communities and the State school trust would benefit even more than they will from this limited measure.

In my view, Utah's new Governor, whoever he may be, should be entitled to choose from among all the revenue producing lands in the State, no matter how controversial, no matter where those lands are located. The State school trust and thus every school child in the State should be entitled to benefit from school trust lands in Utah. The PTA's around the State have worked long and hard to support measures which would realize the revenue producing potential available to the State school trust. I share their concerns and have done all that I can to amend the House bill in order to maximize the benefits to Utah's schoolchildren and equally as important, to their taxpaying parents.

In 1896, the Congress specifically set aside these State lands for the purpose of providing the maximum possible revenue to operate the school system in Utah. Now, 96 years later, the taxpaying parents of Utah's schoolchildren are demanding of their Representatives in Congress that this statehood promise finally be put into effect.

Mr. President, in summary, Utahns don't want a handout. We simply want what has been taken away from us—de facto—by the Federal land management agencies, whose mandates often differ from the legal mandate of the State to provide money for the education of its children.

Mr. HATCH. Mr. President, I am pleased to have this opportunity to join with Senator GARN in stating my support for this legislation that will address a problem that has been vexing Utah governmental and school leaders for generations.

When Utah gained its statehood, it was given one-ninth of all acres in the State for the support of its public schools. Out of every 36-square-mile township, Utah was given four sections. Unfortunately, much of that land now lies in the middle of Indian reservations, Forest Service units, national parks, national recreation areas, and land managed by the Bureau of Land Management. These lands, referred to as inholdings, are scattered throughout Utah. In many cases, these inholdings are in remote, inaccessible areas.

The isolated nature of these sections has made it impossible for the State to control, the management or economic development of its land, and as a result, the Utah school trust fund has been deprived of much-needed revenues.

The revenues from school trust land sales, mineral leases, and mineral royalties goes into a permanent account. Interest earnings from that account go into the State's annual education budget. At the end of 1991, Utah's permanent school trust fund contained $44 million. When compared to its other school trust fund neighbors of Arizona, Colorado, Idaho, New Mexico, and Wyoming, Utah is far behind. Colorado's trust fund, which is the next smallest, is over $200 million. New Mexico has over $2.5 billion in its trust fund.

Utah school districts are struggling to provide the necessary services to a growing school age population and are feeling a great deal of financial stress. Utah must have the ability to fully utilize its school trust lands. It is essential that a legislative process be provided to facilitate the exchange or purchase of Utah's inholdings.

This legislation would be beneficial to both the Federal Government and the State of Utah. The Federal Government would gain ownership of lands of great scenic value while maintaining the integrity of our national parks and forests. Utah would be able to better manage its school lands and generate the revenues that are desperately needed by Utah school districts.

Mr. President, I am pleased to join with my colleague in urging passage of this proposal that is so important to Utah's future.

The ACTING PRESIDENT pro tempore. Without objection, the amendment is agreed to.

So the amendment (No. 3423) was agreed to.

The ACTING PRESIDENT pro tempore. Without objection, the bill is considered deemed read the third time and passed.

So the bill (H.R. 5118), as amended, was deemed read the third time and passed.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. FORD. Mr. President, I ask unanimous consent that the Calendar 717 be indefinitely postponed.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

JEMEZ NATIONAL RECREATION AREA

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 729, H.R. 2502, relating to the Jemez National Recreation Area.

The ACTING PRESIDENT pro tempore. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2502) to establish the Jemez National Recreation Area in the State of New Mexico, and for other purposes.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Energy and Natural Resources, with amendments; as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets and the parts of the bill intended to be inserted are shown in italic.)

H.R. 2502

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ESTABLISHMENT.

(a) PURPOSE AND ESTABLISHMENT.—In order to conserve, protect, and restore the recreational, ecological, cultural, religious, and wildlife resource values of the Jemez Mountains, there is hereby established the Jemez National Recreational Area (hereinafter in this Act referred to as the "recreation area"), to be administered by the Secretary of Agriculture (hereinafter the Secretary).

(b) AREA INCLUDED.—The recreation area shall be comprised of approximately [100,000 acres] 57,000 acres of lands and interests in lands within the Santa Fe National Forest as generally depicted on the map entitled "Jemez National Recreation Area-Proposed" [and dated October, 1991.] and dated September 1992. The map shall be on file and available for public inspection in the offices of the Chief of the Forest Service, Department of Agriculture, Washington, D.C. The Secretary may from time to time make minor revisions in the boundary of the recreation area to promote management effectiveness and efficiency in furtherance of the purposes of this Act.

(c) MAP AND DESCRIPTION.—As soon as practicable after enactment of this Act, the Secretary shall file a map and legal description of the recreation area with the Committee on Interior and Insular Affairs of the

House of Representatives and with the Committee on Energy and Natural Resources of the United States Senate. Each such map and description shall have the same force and effect as if included in this Act, except that correction of clerical and typographical errors in such legal description and map may be made. Each such map and legal description shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Department of Agriculture.

SEC. 2. ADMINISTRATION.

(a) IN GENERAL.—The Secretary shall administer the recreation area in accordance with this Act and the laws, rules, and regulations applicable to National Forest System lands in manner that will further the purposes of the recreation area. Management of the natural resources within the recreation area shall be permitted only to the extent that such management is compatible with and does not impair the purposes for which the recreation area is established. Recreational activities within the recreation area shall include (but not be limited to) hiking, camping, hunting, fishing, skiing, backpacking, rock climbing, and swimming.

(b) MANAGEMENT PLAN.—The Secretary shall, no later than 5 years after the enactment of this Act, develop a management plan for the recreation area as an amendment to the Santa Fe National Forest Land and Resource Management Plan to reflect the establishment of the recreation area and to conform to the provisions of this Act: *Provided*, That nothing in this Act shall require the Secretary to revise the Santa Fe Forest Land and Resource Management Plan pursuant to section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974.

As part of the management plan for the recreation area, the Secretary shall study newly designated land within the recreation area, and adjacent National Forest Land. The Secretary shall, no later than 5 years after enactment of this Act, submit recommendations with respect to future boundaries for the recreation area.

(c) CULTURAL RESOURCES.—In administering the recreation area, the Secretary shall give particular emphasis to the preservation, stabilization, and protection of cultural resources located within the recreation area in furtherance of the Archaeological Resources Protection Act of 1979 and the National Historic Preservation Act.

(d) NATIVE AMERICANS.—In recognition of the past use of portions of the recreation area by Indian peoples for traditional cultural and religious purposes, the Secretary shall protect religious and cultural sites and provide access from time-to-time to those sites by Indian peoples for traditional cultural and religious purposes. Such access shall be consistent with the purpose and intent of the Act of August 11, 1978 (42 U.S.C. 1991) (commonly referred to as the "American Indian Religious Freedom Act"). The Secretary, in accordance with such Act, upon request of an Indian tribe or pueblo, may from time to time temporarily close to general public use one or more specific portions of the recreational area in order to protect the privacy of religious activities and cultural uses in such portion by Indian peoples. Any such closure shall be made so as to affect the smallest practicable area for the minimum period necessary for such purposes.

(2) In preparing and implementing management plans for the recreation area, the Secretary shall request that the Governor of the Pueblo of Jemez and the chief executive officers of other appropriate Indian tribes and pueblos make recommendations on methods of—

(A) assuring access to religious and cultural sites;

(B) enhancing the privacy and continuity of traditional cultural and religious activities in the recreation area; and

(C) protecting traditional cultural and religious sites in the recreation area.

(e) WILDLIFE RESOURCES.—In administering the recreation area, the Secretary shall give particular emphasis to the conservation and protection of wildlife resources, including species listed as sensitive by the United States Forest Service, within the recreation area and shall comply with applicable Federal and State laws relating to wildlife, including the Endangered Species Act of 1973.

(f) HUNTING.—The Secretary shall permit hunting and fishing on lands and waters under the jurisdiction of the Secretary within the recreation area in accordance with applicable Federal and State law. The Secretary may designate zones where, and establish periods when, such activities will not be permitted for reasons of public safety, administration, fish and wildlife management or public use and enjoyment. Except in emergencies such designation by the Secretary under this subsection shall be put into effect only after consultation with the appropriate State agencies responsible for hunting and fishing activities.

(g) TIMBER HARVESTING.—The Secretary may permit timber harvesting in the recreation area for commercial purposes, including (but not limited to) vigas, latillas, the gathering of fuelwood, and for purposes of public safety, recreation, wildlife, and administration, insofar as the harvesting is compatible with the purposes of the recreation area. The Secretary may provide for timber harvesting in the recreation area insofar as harvesting is compatible with the purposes of this Act. Trees damaged or downed due to fire, disease, or insect infestation may be utilized, salvaged or removed from the recreation area as authorized by the Secretary in furtherance of the purposes of this Act. Nothing in this Act shall be construed to affect the timber sales under contract on the date of enactment of this Act. Nothing in this Act shall be construed to effect the Los Griegos timber sale in the Los Griegos Diversity Unit number 0322 as shown on the West Half Diversity Unit map of the Santa Fe National Forest dated November 1991; except that the Secretary shall manage such sale using uneven aged management including the individual tree selection method.

(b) GRAZING.—The Secretary may permit grazing within the recreation area in accordance with regulations prescribed by the Secretary. Riparian areas will be managed in such a manner as to protect their important resource values.

(i) TRANSPORTATION PLAN.—(1) Within 1 year after the date of enactment of this Act, the Secretary shall prepare a transportation plan that provides for the most efficient use of existing roads and trails to accomplish the purposes of this Act. The plan shall provide for a comprehensive trails system that provides for dispersed recreation while minimizing impact on significant archaeological and religious sites.

(2) The Secretary shall construct, maintain, and close roads within the recreation area only in accordance with such plan.

(j) RECREATIONAL FACILITIES.—The Secretary shall provide for recreational facilities within the recreation area. Such facilities shall be constructed so as to minimize impacts on scenic beauty and the natural character of the recreation area.

(k) VISITOR FACILITIES.—The Secretary shall establish a visitor center and interpretive facilities in or near the recreation area for the purpose of providing for education relating to the interpretation of cultural and natural resources of the recreation area.

(l) POWER TRANSMISSION LINES.—In accordance with Federal and State laws and regulations, the Secretary may permit a utility corridor for high power electric transmission lines only when the Secretary determines that—

(1) there is not a feasible alternative for the location of such corridor;

(2) damage to the recreational and scenic quality of the recreation area will not be significant;

(3) it is in the public interest that such corridor be located in the recreation area; and

(4) a plan to minimize harm to the resources of the recreation area has been developed.

(m) SCIENTIFIC INVESTIGATIONS.—The Secretary may permit scientific investigations within the recreation area upon the Secretary's determination that such investigations are in the public interest and are compatible with the purposes of this Act.

SEC. 3. ACQUISITION OF LAND.

(a) STATE LANDS.—Lands, and interests in lands, within the boundaries of the recreation area which are owned by the State of New Mexico, or any political subdivision thereof, may be acquired only by donation or exchange.

(b) OFFERS TO SELL.—In exercising the authority to acquire property under this Act, the Secretary shall give prompt and careful consideration to any offer made by any person owning property within the boundaries of the recreation area established under this Act to sell such property.

(b) OFFERS TO SELL.—The Secretary is authorized to acquire lands and interest in land within the boundaries of the recreation area by donation, purchase with donated or appropriated funds, or exchange: *Provided*, That no lands or interests in land may be added to the recreation area after date of enactment of this Act without specific authorization by Congress and the consent of the owner of such land or interest therein.

SEC. 4. MINERALS AND MINING.

(a) LIMITATION ON PATENT ISSUANCE.—(1) Notwithstanding any other provision of law, no patents shall be issued after the date of May 30, 1991 for any location or claim made in the recreation area under the mining laws of the United States.

(2) Notwithstanding any statute of limitations or similar restriction otherwise applicable, any party claiming to have been deprived of any property right by enactment of paragraph (1) may file in the United States Claims Court a claim against the United States within 1 year after the date of enactment of this Act seeking compensation for such property right. The United States Claims Court shall have jurisdiction to render judgment upon any such claim in accordance with section 1491 of title 28, United States Code.

(b) WITHDRAWAL.—Subject to valid existing rights, after the date of enactment of this Act, lands within the recreation area are withdrawn from location under the general mining laws and from the operation of the mineral leasing, geothermal leasing, and mineral material disposal laws.

(c) RECLAMATION.—No mining activity involving any surface disturbance of lands or waters within such area, including disturbance through subsidence, shall be permitted except in accordance with requirements imposed by the Secretary, including requirements for reasonable reclamation of disturbed lands to a visual and hydrological condition as close as practical to their premining condition.

(d) MINING CLAIM VALIDITY REVIEW.—The Secretary of Agriculture shall undertake and complete within 3 years after the date of enactment of this Act an expedited program to examine all unpatented mining claims, including those for which a patent application has been filed, within the recreation area. Upon determination by the Secretary of Agriculture that the elements of a contest are present, the Secretary of the Interior shall immediately determine the validity of such claims. If a claim is determined to be invalid, the Secretary shall promptly declare the claim to be null and void.

(e) PUBLIC PURPOSES.—The Secretary may utilize mineral materials from within the recreation area for public purposes such as maintenance and construction of roads, trails, and facilities as long as such use is compatible with the purposes of the recreation area.

SEC. 5. ADJOINING LANDS.

The Secretary may from time to time evaluate lands adjoining the recreation area for possible inclusion in the recreation area and make recommendations to Congress, including but not limited to, that area authorized for study by section 5 of Public Law 101-556, known as the Baca Location Number 1.

SEC. 6. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated such sums as may be necessary to carry out the purposes of this Act.

"SEC. 7. TAOS RANGER DISTRICT.

(a) CONVEYANCE OF PROPERTY.—

Not later than 6 months after the date of enactment of this Act, the Secretary of Agriculture shall convey by quit-claim deed to the town of Taos, New Mexico, subject to the terms and conditions stated in section 2, all right, title, and interest of the United States in and to the land and improvements thereon described as follows:

That property locally referred to as the "Old Taos Ranger District Office and Warehouse" located in the town of Taos, Taos County, New Mexico, containing approximately 0.633 acres, specifically described in that certain warranty deed dated January 22, 1937, by William T. and Mary E. Hinde, husband and wife, to the United States, as recorded on January 23, 1937, in book A-34, page 415, of the Record of Deeds of Taos County, New Mexico.

(b) TERMS AND CONDITIONS.—

(1) CONSIDERATION.—The conveyance described in section 1 shall be in consideration of the amount of $360,000, payable in full within the 6-month period referred to in section 1, or, at the option of the town of Taos, in 20 annual payments of $18,000 due on January 1 of the first year following enactment of this Act and annually thereafter until the total amount due has been paid, as agreed upon by the Secretary of Agriculture. The cash so received shall be deposited into a special fund in the Treasury which will remain available until expended by the Secretary for purpose of acquiring, within the State of New Mexico, lands or administrative facilities on National Forest System lands. The town of Taos shall not be charged interest on amounts owed the United States for such conveyance.

(2) RELEASE.—On transfer of the property under section 1 the town of Taos shall release the United States from any liability for claims relating to the property.

(3) REVERSION.—The conveyance described in section 1 shall be a conveyance of fee simple title to the property, subject to reversion to the United States if the property is used for other than public purposes or if the compensation requirements described in subsection (a) are not met.

AMENDMENT NO. 3424

(Purpose: To authorize the Secretary of the Interior to contract with the Smithsonian Institution for the completion of the Prehistoric Trackways Study)

Mr. FORD. Mr. President, on behalf of Senator DOMENICI and Senator BINGAMAN I send two amendments to the desk and ask that they be considered en bloc.

The ACTING PRESIDENT pro tempore. The clerk will report the amendments en bloc.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD] for Mr. BINGAMAN (for himself and Mr. DOMENICI) proposes an amendment numbered 3424, en bloc.

Mr. FORD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill, add the following new section:

SEC. 8. COMPLETION OF PREHISTORIC TRACKWAYS STUDY.

The Secretary of the Interior is authorized to contract with the Smithsonian Institution for the completion of the prehistoric trackways study required under section 303 of the Act entitled "An Act to conduct certain studies in the State of New Mexico", approved November 15, 1990 (Public Law 101-578).

On page 9, lines 1 through 19, strike section 3 in its entirety and insert in lieu thereof the following:

"SEC. 3. ACQUISITION OF LAND.

"(a) IN GENERAL. —The Secretary is authorized to acquire lands and interests therein within the boundaries of the recreation area by donation, purchase with donated or appropriated funds, or exchange: *Provided*, That no lands or interests therein may be acquired except with the consent of the owner thereof.

"(b) STATE LANDS.—Lands or interests therein owned by the State of New Mexico or a political subdivision thereof may be acquired only by donation or exchange.

"(c) OFFERS TO SELL.—The Secretary shall give prompt and careful consideration to any offer made by any person owning property within the boundaries of the recreation area to sell such property.

"(d) NO ADDITIONAL LANDS.—No lands or interests therein outside of the boundaries of the recreation area may be added to the recreation area without specific authorization by Congress.".

The ACTING PRESIDENT pro tempore. Is there further debate? If not, without objection, the amendments are agreed to.

So the amendment (No. 3424) was agreed to.

The ACTING PRESIDENT pro tempore. Are there additional amendments.

If there is no objection the committee amendments are considered and agreed to en bloc.

So the committee amendments were agreed to.

The ACTING PRESIDENT pro tempore. Without objection, the bill is considered deemed read a third time and passed.

So the bill (H.R. 2502), as amended, was deemed read the third time and passed.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

DELAWARE RIVER WILD AND SCENIC RIVERS ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 732, H.R. 3457 relating to the Delaware River.

The ACTING PRESIDENT pro tempore. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3457) to amend the Wild and Scenic Rivers Act to designate certain segments of the Delaware River in Pennsylvania and New Jersey as components of the National Wild and Scenic Rivers System.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Energy and Natural Resources, with an amendment to strike all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Delaware River Study Act of 1992".

SEC. 2. WILD AND SCENIC RIVER STUDY.

(a) STUDY.—Section 5(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1276(a)) is amended by adding at the end thereof the following new paragraph:

"( ) DELAWARE RIVER, PENNSYLVANIA AND NEW JERSEY.—(A) The approximately 3.6-mile segment from the Erie Lackawanna Railroad Bridge to the southern tip of Dildine Island.

"(B) The approximately 2-mile segment from the southern tip of Mack Island to the northern border of the town of Belvidere, New Jersey.

"(C) The approximately 12.5-mile segment from the southern border of the town of Belvidere, New Jersey, to the northern border of the city of Easton, Pennsylvania.

"(D) The approximately 9.5-mile segment from the southern border of the town of Phillipsburg, New Jersey, to a point just north of the Gilbert Generating Station.

"(E) The approximately 14.2-mile segment from a point just south of the Gilbert Generating Station to a point just north of the Point Pleasant Pumping Station.

"(F) The approximately 6.5-mile segment from a point just south of the Point Pleasant Pumping Station to the north side of the Route 202 bridge.

"(G) The approximately 6-mile segment from the southern boundary of the town of New Hope, Pennsylvania, to the town of Washington Crossing, Pennsylvania.

"(H) The Cook's Creek tributary.

"(I) The Tinicum Creek tributary.

"(J) The Tohickon Creek tributary.".

(b) ELIGIBILITY STUDY AND REPORT.—Section 5(b) of the Wild and Scenic Rivers Act, as amended (16 U.S.C. 1276(b)) is amended by adding at the end the following new paragraph:

"( )(A) The study of the Delaware River segments and tributaries designated for potential addition to the National Wild and Scenic Rivers System by the amendment made by section 3(a) of this Act shall be completed and the report submitted to Congress not later than 1 year after the date of enactment of this paragraph.

"(B) The Secretary shall—

"(i) prepare the study in cooperation and consultation with appropriate Federal, State, regional, and local agencies, including but not limited to, the Pennsylvania Department of Environmental Resources, the New Jersey Department of Environmental Protection and Energy, the Delaware and Lehigh Navigational Canal National Heritage Corridor Commission, and the Delaware and Raritan Canal Commission; and

"(ii) consider previous plans for the protection of affected cultural, recreational, and natural resources (including water supply and water quality) and existing State and local regulations, so as to avoid unnecessary duplication.

"(C) Pursuant to section 11(b)(1) of this Act, the Secretary shall undertake a river conservation plan for the segment of the Delaware River from the northern city limits of Trenton, New Jersey, to the southern boundary of Bucks County, Pennsylvania.".

SEC. 3. EXISTING FACILITIES AND POSSIBLE ADDITIONS THERETO.

The study of the river segments and tributaries designated for potential addition to the National Wild and Scenic Rivers System under section 2 of this Act shall not be used in any proceeding or otherwise to preclude, prevent, restrict, or interfere with the completion, continued or changed operation, maintenance, repair, construction, reconstruction, replacement, or modification of the Gilbert Generating Station and associated facilities, the Point Pleasant Pumping Station and associated facilities, the Portland Generating Station and associated facilities, or the Merrill Creek Reservoir Project and associated facilities, or with the licensing, permitting, relicensing, or repermitting of such projects, stations, and associated facilities. Such study designation shall not preclude or interfere with the licensing, permitting, construction, operation, maintenance, repair, relicensing, or repermitting of any additions to any such facilities, so long as such additions are outside the segments of the Delaware River designated for study by this Act and impounded backwater from any such addition does not intrude on any such segment, and so long as the values present in such segments on the date of enactment of this Act are not unreasonably diminished thereby.

SEC. 4. TRANSMISSION AND DISTRIBUTION FACILITIES.

The study of the river segments and tributaries designated for potential addition to the National Wild and Scenic Rivers System under section 2 of this Act shall not be used in any proceeding or otherwise to preclude, prevent, restrict, or interfere with the present or future access to or operation, maintenance, repair, construction, reconstruction, replacement, or modification of electric or gas transmission or distribution lines across or adjacent to such segments, or with the licensing, permitting, relicensing, or repermitting of such lines across such segments: *Provided, however*, That during the administration of the study of such segments, each new electric or gas transmission or distribution line across any such segment shall be located no further than ½ mile from the center line of any transmission or distribution line across any such segment in existence on the date of enactment of this Act.

SEC. 5. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as are necessary to carry out this Act.

AMENDMENT NO. 3425

Mr. FORD. Mr. President, on behalf of Senator BUMPERS, I send an amendment to the desk and ask for its immediate consideration.

The ACTING PRESIDENT pro tempore. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD] for Mr. BUMPERS proposes an amendment numbered 3425.

Mr. FORD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

On page 7, line 6, strike "Pennsylvania." and insert in lieu thereof, "Pennsylvania, excluding river mile 196.0 to 193.8.".

On page 8, line 4, strike "3(a)" and insert in lieu thereof, "5(a)".

On page 9, line 14, strike "or" and insert in lieu thereof, "the Martins Creek Steam Electric Station and associated facilities, or".

On page 10, line 14, strike "the administration of".

The ACTING PRESIDENT pro tempore. Without objection, the amendment is agreed to.

So the amendment (No. 3425) was agreed to.

The ACTING PRESIDENT pro tempore. Without objection, the committee substitute amendment, as amended, is agreed to.

So the committee amendment, as amended, was agreed to.

The ACTING PRESIDENT pro tempore. Without objection, the bill is considered read a third time and passed.

So the bill (H.R. 3457), as amended, was deemed read the third time and passed.

The title was amended so as to read: "A bill to amend the Wild and Scenic Rivers Act to designate certain segments and tributaries of the Delaware River in Pennsylvania and New Jersey for study for potential addition to the National Wild and Scenic Rivers System.".

Mr. BRADLEY. Mr. President, I want to applaud the Senate's action today on passing H.R. 3457, which begins the effort to preserve 55 miles of the Delaware River. This legislation calls for a formal study of the river by the National Park Service to determine which river segments merit inclusion in the Nation's Wild and Scenic River System.

This study will allow for an assessment of detailed data on the historic and ecological values. It will allow for the public meetings and comments that are so necessary to the development of a feasible and effective management plan. Such a plan, which forms the heart of an overall preservation effort, must be based in the understanding and commitment of the local citizens. It is on them that much of the responsibility for protection falls.

These stretches of the Delaware River are within an hour or two drive of roughly 25 million Americans, and it must be considered in this context. This is not Idaho or Montana. People have been settled in the Delaware River valley for over 300 years. Yet it is hard to travel this riverway and not feel compelled by its lasting beauty and rustic nature. Along its banks, are still rolling hills and forests, farms, and sleepy country towns. It may not be completely undeveloped, but it is largely unspoiled.

This river should not be overlooked or disregarded because of its long history. On the contrary, its situation and history provide the rationale for preservation and protection.

Mr. President, it would not be appropriate to close this statement without a special acknowledgement. My friend and colleague, Congressman KOSTMAYER, has played an enormous role in this effort to protect this river. Since coming to Congress, he has stood up for the Delaware River, its beauty and its preservation. That we act today is a testament to his ability and tenacity.

My colleagues are to be commended for the actions taken today. My constituents and I thank them for their support and vision.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ARMED FORCES WORLD WAR II MEMORIAL ACT OF 1992

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 712, S. 2244, relating to a memorial for World War II Armed Forces, that the committee substitute amendment be agreed to; and that the bill be deemed read a third time.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the committee substitute amendment was agreed to as follows:

SECTION 1. AUTHORITY TO ESTABLISH MEMORIAL.

(a) IN GENERAL.—The American Battle Monuments Commission (hereinafter in this Act referred to as the "Commission") is authorized to establish a memorial on Federal land in the District of Columbia or its environs to honor members of the Armed Forces who served in World War II and to commemorate the participation of the United States in that war.

(b) COMPLIANCE WITH STANDARDS FOR COMMEMORATIVE WORKS.—The establishment of the memorial shall be in accordance with the Act entitled "An Act to provide standards for placement of commemorative works on certain Federal lands in the District of Columbia and its environs, and for other purposes" approved November 14, 1986 (40 U.S.C. 1001, et seq.).

(c) HANDICAPPED ACCESS.—The plan, design, construction, and operation of the memorial pursuant to this section shall provide fro accessibility by, and accommodations for, the physically handicapped.

SEC. 2. ADVISORY BOARD.

(a) ESTABLISHMENT OF BOARD.—There is hereby established a World War II Memorial Advisory Board, consisting of 12 members, who shall be appointed by the President from among veterans of World War II, historians of World War II, and representatives of veterans organizations, historical associations, and groups knowledgeable about World War II.

(b) APPOINTMENTS.—Members of the Board shall be appointed not later than 3 months after the date of the enactment of this Act and shall serve for the life of the Board. The President shall make appointments to fill such vacancies as may occur on the Board.

(c) RESPONSIBILITIES OF BOARD.—The Board shall—

(1) in the manner specified by the Commission, promote establishment of the memorial and encourage donation of private contributions for the memorial; and

(2) upon the request of the Commission, advise the Commission on the site and design for the memorial.

(d) TERMINATION.—The Board shall cease to exist on the last day of the third month after the month in which the memorial is completed or the month of the expiration of the authority for the memorial under section 10(b) of the Act referred to in section 1(b), whichever first occurs.

SEC. 3 PRIVATE CONTRIBUTIONS.

The Commission shall solicit and accept private contributions for the memorial.

SEC. 4. FUND IN THE TREASURY FOR THE MEMORIAL.

(a) IN GENERAL.—There is hereby created in the Treasury of fund which shall be available to the American Battle Monuments Commission for the expenses of establishing the memorial. The fund shall consist of—

(1) amounts deposited, and interest and proceeds credited, under subsection (b);

(2) obligations obtained under subsection (c); and

(3) the amount of surcharges paid to the Commission for the memorial under the World War II 50th Anniversary Commemorative Coins Act.

(b) DEPOSITS AND CREDITS.—The Chairman of the Commission shall deposit in the fund the amounts accepted as contributions under subsection (a). The Secretary of the Treasury shall credit to the fund the interest on, and the proceeds from sale or redemption of, obligations held in the fund.

(c) OBLIGATIONS.—The Secretary of the Treasury shall invest any portion of the fund that, as determined by the Chairman of the Commission, is not required to meet current expenses. Each investment shall be made in an interest bearing obligation of the United States or an obligation guaranteed as to principal and interest by the United States that, as determined by the Chairman of the Commission, has a maturity suitable for the fund.

(d) ABOLITION.—Upon the final settlement of the accounts of the fund, the Secretary of the Treasury shall submit to the Congress a draft of legislation (including technical and conforming provisions) recommended by the Secretary for the abolition of the fund.

SEC. 5. DEPOSIT OF EXCESS FUNDS.

If, upon payment of all expenses of the establishment of the memorial (including the maintenance and preservation amount provided for in section 8(b) of the Act referred to in section 1(b)), or upon expiration of the authority for the memorial under section 10(b) of that Act, there remains a balance in the fund created by section 4, the Chairman of the Commission shall transmit the amount of the balance to the Secretary of the Treasury for deposit in the account provided for in section 8(b)(1) of that Act.

THE ESTABLISHMENT OF A WORLD WAR II MEMORIAL IN WASHINGTON, DC

Mr. THURMOND. Mr. President, as a veteran of World War II, it is a pleasure to rise today to support S. 2244, a bill, which I introduced, that would establish a memorial to honor members of the Armed Forces who served in World War II and to commemorate the U.S. participation in that conflict.

World War II was one of the most significant wars in all of history. Involving more than 16 million Americans, it was the war which preserved freedom for the Western World. Yet, it was not without a heavy toll. The damage and the human suffering were extreme. More than 670,000 Americans were wounded and over 400,000 made the ultimate sacrifice by giving their lives. A tribute to these Americans is richly deserved.

World War II memorials are located all over the world. However, there is no single monument that honors the American veterans of World War II as a group. Our Nation's Capital would be an especially fitting location for such a monument, and the legislation I have introduced would provide for such a location.

Mr. President, I introduced S. 2244 on February 20, 1992. The Senate Committee on Energy and Natural Resources held a hearing on August 6, 1992 and unanimously approved it on September 22, 1992.

S. 1244, as introduced, would have authorized a private group to raise the funds necessary to plan, design and oversee the construction of the memorial with no Federal funds involved. The House of Representatives companion bill, H.R. 1624, as introduced by Congresswoman KAPTUR on March 22, 1991, would have appropriated to the American Battle Monuments Commission [ABMC] "such funds as are necessary" to build the memorial. After many negotiations concerning the differences between the two bills, I believe the bill, as reported by the Senate Committee on Energy and Natural Resources, has been revised and amended to better reflect a bipartisan effort to honor the American veterans of World War II.

According to the compromise legislation, the ABMC will be authorized to plan, design, and oversee the construction of the Memorial. The necessary funds will be raised through the sale of commemorative coins, as provided in S. 3195, the World War II Commemorative Coin Act of 1992, and private donations, as passed by Congress.

While S. 2244 is nearly identical to H.R. 1624 as passed by the House on June 22, 1992, there is one difference. Section 3, of S. 2244 directs the ABMC to actively seek private contributions.

My concern is that no Federal tax dollars should be used for construction of the memorial in this time of scarce Federal resources. I want to emphasize this point. The taxpayer should not be stuck with having to rescue a failed attempt to raise enough money through the sale of commemorative coins alone. I strongly feel that this memorial should be funded through private donations and not be placed as a burden on the taxpayer. I believe that the ABMC has proven its ability in raising private donations and I encourage the ABMC to do so.

Mr. President, I urge my colleagues to join me in support of this worthy measure for our faithful and deserving veterans.

So the bill was deemed read the third time.

Mr. FORD. Mr. President, I ask unanimous consent that the Rules Committee be discharged from further consideration of H.R. 1624; that the Senate proceed to its immediate consideration; that all after the enacting clause be stricken and the text of S. 2244, as amended be inserted in lieu thereof, that the bill be deemed read a third time, passed; and that the motion to reconsider be laid upon the table.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 1624), as amended, was deemed read the third time and passed.

Mr. FORD. Mr. President, I ask unanimous consent that the Calendar No. 712 be indefinitely postponed.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

U.S. HOLOCAUST MEMORIAL COUNCILS

Mr. FORD. Mr. President, I ask unanimous consent that the Energy Committee be discharged from further consideration of H.R. 2660, a bill authorizing appropriations for the U.S. Holocaust Memorial Councils and that the Senate proceed to its immediate consideration; that the bill be deemed read a third time, passed; and that the motion to reconsider be laid upon the table.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 2660) was deemed read the third time and passed.

LOWER MERCED RIVER WILD AND SCENIC RIVERS ACT

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on H.R. 2431.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the House agree to the amendment of the Senate to the bill (H.R. 2431) entitled "An Act to amend the Wild and Scenic Rivers Act by designating a segment of the Lower Merced River in California as a component of the National Wild and Scenic Rivers System," with the following amendment: Strike out all after the enacting clause, and insert:

SECTION 1. DESIGNATION OF THE LOWER MERCED RIVER FOR INCLUSION IN THE WILD AND SCENIC RIVERS SYSTEM.

Section 3(a)(62) of the Wild and Scenic Rivers Act (16 U.S.C. 127(a)(62)) is hereby amended—

(1) by striking "The main stem" and inserting in lieu thereof, "(A) The main stem";

(2) by striking "paragraph" whenever it appears and inserting in lieu thereof "subparagraph"; and

(3) by adding the following new subparagraph at the end thereof:

"(B)(i) The main stem from a point 300 feet upstream of the confluence with Bear Creek downstream to the normal maximum operating pool water surface level of Lake McClure (elevation 867 feet mean sea level) consisting of approximately 8 miles, as generally depicted on the map entitled 'Merced Wild and Scenic River', dated April, 1990. The Secretary of the Interior shall administer the segment as recreational, from a point 300 feet upstream of the confluence with Bear Creek downstream to a point 300 feet west of the boundary of the Mountain King Mine, and as wild, from a point 300 feet west of the boundary of the Mountain King Mine to the normal maximum operating pool water surface level of Lake McClure. The requirements of subsection (b) of this section shall be fulfilled by the Secretary of the Interior through appropriate revisions to the Sierra Management Framework Plan for the Sierra Planning Area of the Folsom Resource Area, Bakersfield District, Bureau of Land Management. There are authorized to be appropriated such sums as may be necessary to carry out the purposes of this subparagraph.

"(ii) To the extent permitted by, and in a manner consistent with section 7 of this Act (16 U.S.C. 1278), and in accordance with other applicable law, the Secretary of the Interior shall permit the construction and operation of such pumping facilities and associated pipelines as identified in the Bureau of Land Management right-of-way application CACA 26084, filed by the Mariposa County Water Agency on November 7, 1989, and known as the 'Saxon Creek Project', to assure an adequate supply of water from the Merced River to Mariposa County.

"(C) With respect to the segments of the main stem of the Merced River and the South Fork Merced River designated as recreational or scenic pursuant to this paragraph or by the appropriate agency pursuant to subsection (b), the minerals to Federal lands which constitute the bed or bank or are situated within one-quarter mile of the bank are hereby withdrawn, subject to valid existing rights, from all forms of appropriation under the mining laws and from operation of the mineral leasing laws including, in both cases, amendments thereto.".

SEC. 2. STUDY OF THE NORTH FORK OF THE MERCED RIVER.

Section 5(a) of the Wild and Scenic Rivers Act, as amended, (16 U.S.C. 1276(a)), is further amended by adding the following new paragraph at the end thereof:

"( ) NORTH FORK MERCED, CALIFORNIA.—The segment from its headwaters to its confluence with the Merced River, by the Secretary of Agriculture and the Secretary of the Interior.".

SEC. 8. NEW EXCHEQUER PROJECT.

The designation of the river segments referred to in section 1 of this Act as components of the Wild and Scenic Rivers System shall not affect the continued operation and maintenance (including flood control operations) of the New Exchequer Project (Project No. 2179) as licensed by the Federal Energy Regulatory Commission on the date of enactment of this Act or the Commission's authority to issue a new license to the existing license for such project within the project boundaries set forth in the license on the date of enactment of this Act: *Provided* that if the Commission issues a new license to the existing licensee for such a project, the normal maximum operating pool water surface level authorized in the project's license shall not exceed elevation 867.0 mean sea level.

Mr. FORD. Mr. President, I move that the Senate concur in the House amendment.

The ACTING PRESIDENT pro tempore. Without objection, the motion is agreed to.

So the motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ARKANSAS-IDAHO LAND EXCHANGE ACT OF 1992

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 2572.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 2572) entitled "An Act to authorize an exchange of lands in the States of Arkansas and Idaho," do pass with the following amendment: Strike out all after the enacting clause, and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Arkansas-Idaho Land Exchange Act of 1992".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) the Potlatch Corporation has offered to the United States Government an exchange of lands under which Potlatch would receive approximately 17,625 acres of scattered tracts of Federal lands in the State of Idaho in return for conveying to the United States lands owned by Potlatch consisting of approximately 40,922 acres of undisturbed bottomland hardwood lands in the State of Arkansas and approximately 1,170 acres of lands with important recreational and fisheries values in the State of Idaho;

(2) the lands in Arkansas that Potlatch has offered to convey to the United States are surrounded by Federal and State lands on the Cache and White Rivers which are designated as a "Wetland of International Importance" under the Convention on Wetlands of International Importance (commonly referred to as the "Ramsar Convention"), one of only 10 areas in the United States so designated;

(3) acquisition of these lands by the United States will remove the lands from sustained timber production and other development in the heart of this critical wetland ecosystem;

(4) the lands Potlatch has offered to convey to the United States will qualify for inclusion as a Wetland of International Importance under the Ramsar Convention;

(5) the lands Potlach has offered to convey to the United States are outstanding fish and wildlife habitat and should continue to be made available for activities such as public hunting, fishing, trapping, nature observation, enjoyment, and education;

(6) the lands the United States would convey to Potlatch do not contain comparable fish, wildlife, or wetland values;

(7) appraisals of all lands to be conveyed in the exchange have been completed; and

(8) the United States and Potlatch have agreed to the values and boundaries of all lands to be conveyed in the exchange and concur that the lands to be conveyed by Potlatch and the lands to be conveyed by the United States are of equal value.

(b) PURPOSE.—The purpose of this Act is to authorize and require the Secretary and the Secretary of Agriculture to participate in an exchange of lands that will provide environmental and economic benefits to the States of Arkansas and Idaho and to the Nation.

SEC. 3. EXCHANGE.

(a) INTER-AGENCY LAND TRANSFERS.—

(1) TRANSFERS BETWEEN SECRETARY AND SECRETARY OF AGRICULTURE.—

(A) TRANSFER TO SECRETARY OF AGRICULTURE.—Notwithstanding the provisions of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.), not later than 30 days after the date of the enactment of this Act, the Secretary shall transfer to the jurisdiction of the Secretary of Agriculture for inclusion in the National Forest System approximately 9,114 acres of public lands in the State of Idaho, as identified upon a map entitled "Arkansas-Idaho Exchange—Idaho Lands", dated July 1992 and available for inspection in appropriate offices of the Secretary.

(B) TRANSFER TO SECRETARY OF AGRICULTURE.—Subsequent to the exchange required by subsection (b), the Secretary shall transfer to the Secretary of Agriculture for inclusion in the National Forest System approximately 891 acres of public lands in the State of Idaho identified for postexchange transfer upon the map referenced in subparagraph (A).

(2) TRANSFER TO SECRETARY.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Agriculture shall transfer

to the Secretary for conveyance to Potlatch pursuant to subsection (b), approximately 7,979 acres of lands within the National Forest System in the State of Idaho, as identified upon the map referenced in subparagraph (A).

(b) EXCHANGE OF LANDS.—

(1) IN GENERAL.—Notwithstanding the provisions of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.), within 60 days after the date of the enactment of this Act, the Secretary shall convey to Potlatch, in accordance with the provisions of the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668ee) and subject to paragraph (2) and any valid existing rights, approximately 17,625 acres of public lands in the State of Idaho identified for transfer to Potlatch on the map referenced in subsection (a)(1)(A) in exchange for lands owned by Potlatch consisting of—

(A) approximately 40,921 acres in the State of Arkansas, as depicted for transfer to the United States upon a map entitled "Arkansas-Idaho Land Exchange—Arkansas Lands," dated July 1992 and available for inspection in appropriate offices of the Secretary, and

(B) approximately 1,170 acres in the State of Idaho, as identified for transfer to the United States upon the map referenced in subsection (a)(1)(A).

(2) LIMITATION.—The Secretary may not convey any lands to Potlatch under this subsection unless title to the lands to be conveyed by Potlatch in exchange is in accordance with the Department of Justice standards for the preparation of title evidence in land acquisitions by the United States.

(c) GENERAL PROVISIONS.—

(1) MAPS CONTROLLING.—To ensure the management benefits of consolidating isolated tracts of lands, any conflict between a number of acres of lands referred to in this Act and a depiction of the lands on a map referenced in this Act shall be resolved in favor of the map.

(2) CANCELLATION.—Prior to implementation of the exchange required by subsection (b), if Potlatch notifies the Secretary in writing that it no longer intends to complete the exchange, the lands referenced in subsection (a) shall revert to their status as of the day before the date of enactment of this Act, and shall be managed in accordance with applicable management plans.

(3) FINAL MAPS.—Not later than 6 months after the conclusion of the exchange required by subsection (b), the Secretary shall transmit maps accurately depicting the lands transferred and conveyed pursuant to this Act and the acreages and legal descriptions of such lands to the Committee on Interior and Insular Affairs and the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Energy and Natural Resources and the Committee on Environment and Public Works of the Senate.

(4) WITHDRAWAL.—Subject to valid existing rights, the lands depicted for conveyance to Potlatch on the map referenced in subsection (a)(1)(A) are withdrawn from all forms of entry and appropriation under the public land laws (including the mining laws) and from operation of the mineral leasing and geothermal leasing laws effective upon the date of the enactment of this Act. Such withdrawal shall terminate on the date of completion of the exchange required by subsection (b) or on the date of any notification by Potlatch of a decision not to complete the exchange pursuant to paragraph (2).

(5) POWER SITE RESERVATIONS.—The following Executive Orders shall have no effect insofar as they involve the following described lands:

(A) The Executive order dated July 2, 1910, which established Powersite Reserve No. 91, with respect to those lands at Boise Meridian, T. 45 N., R. 4 E., Sec. 18, SW¼NE¼, comprising approximately 40 acres.

(B) The Executive order dated July 2, 1910, which established Powersite Reserve No. 106, with respect to those lands at Boise Meridian, T. 32 N., R. 5 E., Sec. 14, W½NE¼NE and SE¼NE¼NE¼, comprising approximately 30 acres.

(C) The Executive order dated August 31, 1917, which established Power Reservation No. 654, with respect to those lands at Boise Meridian, T. 48 N., R. 1 W., Sec. 3, SE¼NE¼, comprising approximately forty acres, and T. 46 N., R. 2 W., Sec. 14, lot 1, comprising approximately 28.15 acres.

(6) INDEMNITY LIST CLASSIFICATION ORDER.—Bureau of Land Management Indemnity List Classification Orders on public lands to be conveyed to Potlatch as required by subsection (b) are hereby removed from such classification.

(7) CONVEYANCE DOCUMENTS; BEFORE SURVEY.—Lands to be conveyed by the United States pursuant to subsection (b) on which any boundary is required to be surveyed in order to describe remaining public lands shall be conveyed by an interim conveyance. An interim conveyance under this paragraph shall convey to and vest in the recipient the same right, title, and interest in and to such lands as the recipient would have received in a patent issued pursuant to this Act. Upon completion of the survey, the Secretary shall issue a patent for such lands. The boundaries of such lands shall be those which were defined in and conveyed by the interim conveyance, except that the boundaries shall be corrected and redescribed in the patent, where necessary, as a result of the survey of such lands.

SEC. 4. USE OF ACQUIRED LANDS.

(a) NATIONAL WILDLIFE REFUGE SYSTEM.—

(1) ADDITION TO THE SYSTEM.—The Secretary shall add the lands conveyed to the United States in Arkansas pursuant to section 3(b), to the Cache River and White River National Wildlife Refuges, as depicted upon the map described in such section. The Secretary shall manage such lands in accordance with the provisions of the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668ee).

(2) PLAN PREPARATION.—Within 24 months after the completion of the exchange required by section 3(b), the Secretary shall prepare and implement a single refuge management plan for the Cache River and White River Refuges, as expanded by this Act. Such plan shall recognize the important public purposes served by nonconsumptive activities, other recreational activities, and wildlife-related public use, including hunting, fishing, and trapping. The plan shall permit, to the maximum extent practicable, such uses to the extent that they are consistent with sound wildlife management and in accordance with the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668ee) and other applicable law. Any regulations promulgated by the Secretary with respect to fishing, hunting, and trapping on those lands shall, to the extent practicable, be consistent with State fish and wildlife laws and regulations. In preparing the management plan and regulations, the Secretary shall consult with the Arkansas Game and Fish Commission.

(3) INTERIM USE OF LANDS.—

(A) IN GENERAL.—Except as provided in subparagraph (B), during the period beginning on the date of the completion of the exchange of lands under subsection 3(b) and ending on the first date of the implementation of the plan prepared under paragraph (2), the Secretary shall administer all lands added to the Cache River and White River National Wildlife Refuges pursuant to this Act in accordance with the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668d–668ee) and other applicable law.

(B) HUNTING SEASONS.—During the period described in subparagraph (A), the duration of any hunting seasons on the lands referred to in subsection (a) shall comport with State law.

(b) PUBLIC LANDS.—

(1) STATUS.—Except as provided in section 3(a)(1)(B), the lands referred to in section 3(b)(1)(B) shall be public lands, as defined in section 103(e) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.), and shall be managed in accordance with the provisions of such Act.

(2) GRANDMOTHER MOUNTAIN AREA.—Subject to valid existing rights, those Federal and non-Federal lands within the Grandmother Mountain Wilderness Study Area which are transferred to the jurisdiction of the Forest Service pursuant to section 3(b) shall be managed so as to preserve their suitability for designation as wilderness, pursuant to section 603(c) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1782(c)), until the Congress determines otherwise. Nothing in this Act shall be construed as permitting or prohibiting continued use of motorized vehicles on existing routes within such area at the level of such use as was permitted on August 1, 1992.

(3) PLAN AMENDMENTS AND ENVIRONMENTAL ANALYSIS.—Within 24 months after the completion of the exchange under section 3(b), the Secretary and the Secretary of Agriculture shall prepare amendments to applicable resource management plans and accompanying documents pursuant to section 202 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1712), section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604), and section 102(2) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)) for lands in Idaho conveyed to the United States pursuant to section 3(b).

SEC. 5. DEFINITIONS.

For purposes of this Act, the term—

(1) "Potlatch" means the Potlatch Corporation, chartered in the State of Delaware;

(2) "Secretary" means the Secretary of the Interior; and

(3) "lands" means both the surface and subsurface estates whenever both estates are owned by the United States or Potlatch, as applicable.

SEC. 6. OUACHITA NATIONAL FOREST BOUNDARY ADJUSTMENT.

(a) IN GENERAL.—The boundaries of the Ouachita National Forest are hereby adjusted to include those lands generally depicted on the map entitled "Proposed Proclamation Boundary Extension, East End of Lake Ouachita" and dated August 3, 1992.

(b) MAP AND LEGAL DESCRIPTION.—The map described in subsection (a) and a legal description of the lands depicted on the map shall be on file and available for public inspection in the appropriate offices of the Forest Service, United States Department of Agriculture. Not later than 90 days after the date of enactment of this Act, the Secretary of Agriculture shall prepare a legal description of the lands depicted on the map referred to in subsection (a). Such map and legal descriptions shall have the same force and effect as if included in this Act, except that the Secretary may correct clerical and typographical errors.

(c) RULE OF CONSTRUCTION.—For the purpose of section 7 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601–9), the boundaries of the Ouachita National Forest, as adjusted by this Act, shall be considered to be the boundaries of such forest as of January 1, 1965.

Mr. BUMPERS. Mr. President, I want to express my extreme pleasure that we are enacting the Arkansas-Idaho Land Exchange Act today. This act will cause more than 40,000 acres of rare wetlands in an area that has been designated a wetland of international importance—one of only 10 such areas in the United States—to be transferred from a private timber company to the Fish and Wildlife Service. The Service will manage the lands to conserve and enhance their wetland and fish and wildlife values.

Mr. President, passage of this act will have an extremely beneficial impact in Arkansas. The wetlands to be transferred provide wintering habitat for approximately 10 percent of the Mississippi flyway mallard population and are also important habitat for wood ducks. A number of threatened or endangered species are located in these river basins including: The bald eagle, least tern, fat pocketbook pearly mussel, and pond berry. In addition, there are populations of native wildlife and rare animals, such as the black bear. Many species of migrant songbirds nest in the bottomland hardwoods.

Mr. CRAIG. Mr. President, I would like to engage the chairman of the Public Lands, National Parks and Forests Subcommittee, the senior Senator from Arkansas, in a brief colloquy. When S. 2572 passed the Senate and was sent to the House, the House Interior and Insular Affairs Committee made certain changes to section 4(b)(2) which governs the management of the Grandmother Mountain Area in Idaho. I would like to inquire about the Senator from Arkansas' interpretation of the meaning of these changes.

Mr. BUMPERS. Certainly.

Mr. CRAIG. The bill, as sent back from the House, states: "Nothing in this act shall be construed as permitting or prohibiting continued use of motorized vehicles on existing routes within the Grandmother Mountain Wilderness Study Area at the level of such use as was permitted on August 1, 1992." Is it your understanding that this provision maintains the status quo in the area with regard to motorized vehicle use as it existed on or before August 1, 1992?

Mr. BUMPERS. Yes; Senator, that is my understanding.

Mr. CRAIG. In addition, I have a question regarding the management of the Grandmother Mountain Wilderness Study Area following the land exchange. It is my understanding that after the exchange takes place, the Forest Service will take over the management responsibilities for the area from the Bureau of Land Management [BLM]. Will the Forest Service continue to manage the land under the same standards which governed the BLM?

Mr. BUMPERS. Yes; currently, the BLM manages the area so as not to impair its suitability for designation as wilderness, pursuant to section 603(c) of the Federal Land Policy and Management Act of 1976 [FLPMA]. Once the exchange takes place, the Forest Service will manage the area under the same FLPMA provision.

Mr. CRAIG. I thank the Senator.

Mr. SIMPSON. Mr. President, I am pleased to support S. 2572, the Arkansas-Idaho Land Exchange Act of 1992. Substantial credit for passage should be allocated in true bipartisan fashion to the administration, members of the Committee on Energy and Natural Resources, and to Senators SYMMS, CRAIG, BUMPERS, and PRYOR. Also, members of the Idaho and Arkansas delegations in the House and members of the House committees of jurisdiction—Agriculture, Merchant Marine and Fisheries, and Interior and Insular Affairs—reported the bill in an expeditious fashion on September 23. It passed the House on September 29.

I am impressed with the considerable benefits to the United States that should result from this exchange. For that reason, I cosigned a letter with Senator WALLOP 2 years ago urging that legislation authorizing the exchange be passed in the 102d Congress. Congressman JOE SKEEN of New Mexico also played an important role in securing administration support for this important environmental initiation.

Mr. President, I ask unanimous consent that a letter be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
Washington, DC, September 20, 1990.

Hon. MANUEL LUJAN, Jr.,
Secretary of the Interior, Washington, DC.

DEAR MANUEL: We would take this opportunity to comment on a proposed land exchange between the Potlatch Corporation and the Federal Government. In essence, the Potlatch Corporation has an interest in swapping a large block of forested wetlands in Arkansas and a small strip of Idaho property for scattered federally owned parcels of timberland of equal economic value in northern Idaho.

We believe that the potential acquisition of such a large continuous track of wetlands including bottom land, which bridges the gap between two extraordinary existing wildlife refuges, in exchange for scattered woodlands in Idaho would be a rare opportunity to promote both increased efficiency in management of federal lands and compelling environmental values.

While it is unlikely that any legislation will pass on the closing days of this congressional session, it is expected that there could be definite legislative action regarding this issue during the next session of Congress if the appraisals and other necessary evaluations are conducted in the coming months. We trust that you share our view that there are positive benefits to the Federal Government and the public that could accrue as a result of such a land exchange.

We are aware that you are already in receipt of a letter from Senator Bumpers and Senator McClure in support of this concept. We would like to add our support for the exchange.

We would appreciate it if you would keep us informed of any significant developments regarding this matter in the coming months.

Thank you for considering our comments with regard to the Potlatch land exchange.

Sincerely,
ALAN K. SIMPSON,
U.S. Senator,
MALCOLM WALLOP,
U.S. Senator.

Mr. FORD. Mr. President, I move the Senate concur in the House amendment.

The ACTING PRESIDENT pro tempore. Without objection, the motion is agreed to.

So the motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

TACOMA, WA, LAND EXCHANGE

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 4489, relating to a Tacoma, WA land exchange, just received from the House; that the bill be deemed read a third time and passed; and that the motion to reconsider be laid upon the table.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 4489) was deemed read the third time and passed.

Mr. FORD. Mr. President, I ask unanimous consent that Calendar No. 713 be indefinitely postponed.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

OFFICE OF GOVERNMENT ETHICS AMENDMENTS OF 1992

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1145.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1145) entitled "An Act to amend the Ethics in Government Act of 1978 to remove the limitation on the authorization of appropriations for the Office of Government Ethics", do pass with the following amendment: Strike out all after the enacting clause, and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Office of Government Ethics Amendment of 1992".

SEC. 2. REMOVAL OF THE CAP ON THE AUTHORIZATION OF APPROPRIATIONS.

Section 405 of the Ethics in Government Act of 1978 (5. U.S.C. App.) is amended—

(1) in paragraph (1) by striking "and";

(2) in paragraph (2) by striking "each of the 5 fiscal years thereafter." and inserting "the fiscal year ending September 30, 1990; and"; and

(3) by adding after paragraph (2) the following new paragraph:

"(3) such sums as may be necessary for each of the 4 fiscal years thereafter.".

Mr. LEVIN. Mr. President, this is a very simple piece of legislation. The

Office of Government Ethics [OGE] is a freestanding agency that is charged with developing standards and promoting ethics in the Executive Branch. It began in 1978 as a component of the Office of Personnel Management, but over the years, Congress has given it more autonomy and responsibility.

Unlike most other freestanding agencies, however, OGE's authorizing legislation contains a cap on the authorization of appropriations—now set at $5 million for each of the fiscal years 1990 through 1994. This cap has caused OGE to ask Congress to raise OGE's authorization level from time to time when the administration and Congress agree that OGE needs more money to do its job.

The administration asked Congress to simply remove the cap on OGE's authorization of appropriations to avoid these periodic adjustments, and S. 1145 does that. The only difference between the Senate version and the House bill, H.R. 2828, was the date in the short title.

S. 1145 authorizes OGE to receive such sums as may be necessary. Since OGE is authorized only through 1994, Congress will have ample incentive and opportunity to oversee OGE's performance, to make sure that OGE uses its new funding wisely.

Mr. FORD. Mr. President, I move that the Senate concur in the amendment of the House.

The ACTING PRESIDENT pro tempore. The question is on agreeing to the motion.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

U.S. INFORMATION AND EDUCATION EXCHANGE ACT AMENDMENT

Mr. FORD. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be discharged and the Senate proceed to the immediate consideration of H.R. 6047, a bill to amend the U.S. Information Educational Exchange Act of 1948 just received from the House; that the bill be deemed read a third time and passed, and the motion to reconsider be laid upon the table.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 6047) was deemed read the third time and passed.

SUPPORTING THE PLANTING OF 500 REDWOOD TREES FROM CALIFORNIA IN SPAIN

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of House Joint Resolution 529, a joint resolution supporting the planting of 500 California redwood trees in Spain as a commemorative of the quincentenary of the voyage of Christopher Columbus, just received from the House.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

A Joint Resolution (H.J. Res. 529) supporting the planting of 500 redwood trees from California in Spain in commemoration of the quincentenary of the voyage of Christopher Columbus and designating the trees as a gift to the people of Spain.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the joint resolution?

There being no objection, the Senate proceeded to consider the joint resolution.

The ACTING PRESIDENT pro tempore. Without objection, the joint resolution is deemed read three times and passed.

Without objection, the preamble is agreed to.

So the joint resolution (H.J. Res. 529), with its preamble, was deemed read three times and passed.

Mr. FORD. Mr. President, I move to reconsider the vote by which the joint resolution was passed.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

RIDGEFIELD NATIONAL WILDLIFE REFUGE INTERPRETIVE CENTER

Mr. FORD. Mr. President, I ask unanimous consent that the Environment and Public Works Committee be discharged from further consideration of H.R. 5809 regarding the Ridgefield National Wildlife Refuge in Clark County, WA; that the Senate then proceed to its immediate consideration; that the bill be deemed read three times, passed, and the motion to reconsider laid upon the table; and a statement by Senator ADAMS relating to this bill appear in the RECORD at the appropriate place.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 5809) was deemed read three times and passed.

Mr. ADAMS. Mr. President, H.R. 5809, introduced by Representative UNSOELD, urges the U.S. Fish and Wildlife Service to work with local sponsors and the public on a proposal for an interpretive center at the Ridgefield National Wildlife Refuge.

Showcasing the natural history of the Columbia River wetlands and the rich human history of native Americans, the center would also highlight the activities of explorers, including the 1804 Lewis and Clark Expedition, and early settlers at the site. The refuge, located less than 5 miles from the Interstate-5 corridor, north of the Portland-Vancouver metropolitan area, would be accessible to the region's students and to the millions of visitors who travel to other natural attractions in the area—Mount St. Helens, the Columbia River Gorge, and Mount Rainier.

One of the unique and important features of this legislation is the willingness of local sponsors, who view the center as an important means of diversifying the local economy, to share in the costs of the facility. Local sponsors would cover a large part of the construction costs and virtually all of the maintenance costs of the facility. The interpretive center would also provide offices for refuge staff, saving the cost of leased office space.

At a time when Federal deficits and tight budgets make investments in new facilities difficult, the kind of cost-sharing partnership embodied in H.R. 5809 is the way of the future. I applaud Representative UNSOELD for taking the initiative with this project, and appreciate the assistance of the Environment and Public Works Committee in moving this bill. I urge the Senate to approve this legislation.

INDIAN HEALTH AMENDMENTS OF 1992

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 2481, the Indian health care amendments.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 2481) entitled "An Act to amend the Indian Health Care Improvement Act to authorize appropriations for Indian health programs, and for other purposes", do pass with the following amendment: Strike out all after the enacting clause, and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Indian Health Amendments of 1992".

SEC. 2. AMENDMENTS TO INDIAN HEALTH CARE IMPROVEMENT ACT.

Except as otherwise specifically provided, whenever in this Act a section or other provision is amended or repealed, such amendment or repeal shall be considered to be made to that section or other provision of the Indian Health Care Improvement Act (25 U.S.C. 1601 et seq.).

SEC. 3. FINDINGS; POLICY; AND DEFINITIONS.

(a) FINDINGS.—Section 2 of the Act (25 U.S.C. 1601) is amended—

(1) in the matter preceding paragraph (a), by striking "finds that—" and inserting "finds the following:";

(2) in paragraph (d), by striking out the second sentence; and

(3) by striking out paragraphs (e), (f), and (g).

(b) DECLARATION OF POLICY.—Section 3 of the Act (25 U.S.C. 1602) is amended to read as follows:

"DECLARATION OF HEALTH OBJECTIVES

"SEC. 3. (a) The Congress hereby declares that it is the policy of this Nation, in fulfillment of its special responsibilities and legal obligation to the American Indian people, to assure the highest possible health status for Indians and urban Indians and to provide all resources necessary to effect that policy.

"(b) It is the intent of the Congress that the Nation meet the following health status objectives with respect to Indians and urban Indians by the year 2000:

"(1) Reduce coronary heart disease deaths to a level of no more than 100 per 100,000.

"(2) Reduce the prevalence of overweight individuals to no more than 30 percent.

"(3) Reduce the prevalence of anemia to less than 10 percent among children aged 1 through 5.

"(4) Reduce the level of cancer deaths to a rate of no more than 130 per 100,000.

"(5) Reduce the level of lung cancer deaths to a rate of no more than 42 per 100,000.

"(6) Reduce the level of chronic obstructive pulmonary disease related deaths to a rate of no more than 25 per 100,000.

"(7) Reduce deaths among men caused by alcohol-related motor vehicle crashes to no more than 44.8 per 100,000.

"(8) Reduce cirrhosis deaths to no more than 13 per 100,000.

"(9) Reduce drug-related deaths to no more than 3 per 100,000.

"(10) Reduce pregnancies among girls aged 17 and younger to no more than 50 per 1,000 adolescents.

"(11) Reduce suicide among men to no more than 12.8 per 100,000.

"(12) Reduce by 15 percent the incidence of injurious suicide attempts among adolescents aged 14 through 17.

"(13) Reduce to less than 10 percent the prevalence of mental disorders among children and adolescents.

"(14) Reduce the incidence of child abuse or neglect to less than 25.2 per 1,000 children under age 18.

"(15) Reduce physical abuse directed at women by male partners to no more than 27 per 1,000 couples.

"(16) Increase years of healthy life to at least 65 years.

"(17) Reduce deaths caused by unintentional injuries to no more than 66.1 per 100,000.

"(18) Reduce deaths caused by motor vehicle crashes to no more than 39.2 per 100,000.

"(19) Among children aged 6 months through 5 years, reduce the prevalence of blood lead levels exceeding 15 ug/dl and reduce to zero the prevalence of blood lead levels exceeding 25 ug/dl.

"(20) Reduce dental caries (cavities) so that the proportion of children with one or more caries (in permanent or primary teeth) is no more than 45 percent among children aged 6 through 8 and no more than 60 percent among adolescents aged 15.

"(21) Reduce untreated dental caries so that the proportion of children with untreated caries (in permanent or primary teeth) is no more than 20 percent among children aged 6 through 8 and no more than 40 percent among adolescents aged 15.

"(22) Reduce to no more than 20 percent the proportion of individuals aged 65 and older who have lost all of their natural teeth.

"(23) Increase to at least 45 percent the proportion of individuals aged 35 to 44 who have never lost a permanent tooth due to dental caries or periodontal disease.

"(24) Reduce destructive periodontal disease to a prevalence of no more than 15 percent among individuals aged 35 to 44.

"(25) Increase to at least 50 percent the proportion of children who have received protective sealants on the occlusal (chewing) surfaces of permanent molar teeth.

"(26) Reduce the prevalence of gingivitis among individuals aged 35 to 44 to no more than 50 percent.

"(27) Reduce the infant mortality rate to no more than 8.5 per 1,000 live births.

"(28) Reduce the fetal death rate (20 or more weeks of gestation) to no more than 4 per 1,000 live births plus fetal deaths.

"(29) Reduce the maternal mortality rate to no more than 3.3 per 100,000 live births.

"(30) Reduce the incidence of fetal alcohol syndrome to no more than 2 per 1,000 live births.

"(31) Reduce stroke deaths to no more than 20 per 100,000.

"(32) Reverse the increase in end-stage renal disease (requiring maintenance dialysis or transplantation) to attain an incidence of no more than 13 per 100,000.

"(33) Reduce breast cancer deaths to no more than 20.6 per 100,000 women.

"(34) Reduce deaths from cancer of the uterine cervix to no more than 1.3 per 100,000 women.

"(35) Reduce colorectal cancer deaths to no more than 13.2 per 100,000.

"(36) Reduce to no more than 11 percent the proportion of individuals who experience a limitation in major activity due to chronic conditions.

"(37) Reduce significant hearing impairment to a prevalence of no more than 82 per 1,000.

"(38) Reduce significant visual impairment to a prevalence of no more than 30 per 1,000.

"(39) Reduce diabetes-related deaths to no more than 48 per 100,000.

"(40) Reduce diabetes to an incidence of no more than 2.5 per 1,000 and a prevalence of no more than 62 per 1,000.

"(41) Reduce the most severe complications of diabetes as follows:

"(A) End-stage renal disease, 1.9 per 1,000.

"(B) Blindness, 1.4 per 1,000.

"(C) Lower extremity amputation, 4.9 per 1,000.

"(D) Perinatal mortality, 2 percent.

"(E) Major congenital malformations, 4 percent.

"(42) Confine annual incidence of diagnosed AIDS cases to no more than 1,000 cases.

"(43) Confine the prevalence of HIV infection to no more than 100 per 100,000.

"(44) Reduce gonorrhea to an incidence of no more than 225 cases per 100,000.

"(45) Reduce chlamydia trachomatis infections, as measured by a decrease in the incidence of nongonococcal urethritis to no more than 170 cases per 100,000.

"(46) Reduce primary and secondary syphilis to an incidence of no more than 10 cases per 100,000.

"(47) Reduce the incidence of pelvic inflammatory disease, as measured by a reduction in hospitalization for pelvic inflammatory disease to no more than 250 per 100,000 women aged 15 through 44.

"(48) Reduce viral hepatitis B infection to no more than 40 per 100,000 cases.

"(49) Reduce indigenous cases of vaccine-preventable diseases as follows:

"(A) Diphtheria among individuals aged 25 and younger, 0.

"(B) Tetanus among individuals aged 25 and younger, 0.

"(C) Polio (wild-type virus), 0.

"(D) Measles, 0.

"(E) Rubella, 0.

"(F) Congenital Rubella Syndrome, 0.

"(G) Mumps, 500.

"(H) Pertussis, 1,000.

"(50) Reduce epidemic-related pneumonia and influenza deaths among individuals aged 65 and older to no more than 7.3 per 100,000.

"(51) Reduce the number of new carriers of viral hepatitis B among Alaska Natives to no more than 1 case.

"(52) Reduce tuberculosis to an incidence of no more than 5 cases per 100,000.

"(53) Reduce bacterial meningitis to no more than 8 cases per 100,000.

"(54) Reduce infectious diarrhea by at least 25 percent among children.

"(55) Reduce acute middle ear infections among children aged 4 and younger, as measured by days of restricted activity or school absenteeism, to no more than 105 days per 100 children.

"(56) Reduce cigarette smoking to a prevalence of no more than 20 percent.

"(57) Reduce smokeless tobacco use by youth to a prevalence of no more than 10 percent.

"(58) Increase to at least 65 percent the proportion of parents and caregivers who use feeding practices that prevent baby bottle tooth decay.

"(59) Increase to at least 75 percent the proportion of mothers who breast feed their babies in the early postpartum period, and to at least 50 percent the proportion who continue breast feeding until their babies are 5 to 6 months old.

"(60) Increase to at least 90 percent the proportion of pregnant women who receive prenatal care in the first trimester of pregnancy.

"(61) Increase to at least 70 percent the proportion of individuals who have received, as a minimum within the appropriate interval, all of the screening and immunization services and at least one of the counseling services appropriate for their age and gender as recommended by the United States Preventive Services Task Force.

"(c) It is the intent of the Congress that the Nation increase the proportion of all degrees in the health professions and allied and associated health profession fields awarded to Indians to 0.6 percent.

"(d) The Secretary shall submit to the President, for inclusion in each report required to be transmitted to the Congress under section 801, a report on the progress made in each area of the Service toward meeting each of the objectives described in subsection (b).".

(c) DEFINITIONS.—Section 4 of the Act (25 U.S.C. 1603) is amended by adding at the end the following new subsections:

"(m) 'Service area' means the geographical area served by each area office.

"(n) 'Health profession' means family medicine, internal medicine, pediatrics, geriatric medicine, obstetrics and gynecology, podiatric medicine, nursing, public health nursing, dentistry, psychiatry, osteopathy, optometry, pharmacy, psychology, public health, social work, marriage and family therapy, chiropractic medicine, environmental health and engineering, and allied health professions.

"(o) 'Substance abuse' includes inhalant abuse.

"(p) 'FAE' means fetal alcohol effect.

"(q) 'FAS' means fetal alcohol syndrome.".

TITLE I—INDIAN HEALTH PROFESSIONALS

SEC. 101. PURPOSE.

Section 101 of the Act (25 U.S.C. 1611) is amended to read as follows:

"PURPOSE

"SEC. 101. The purpose of this title is to increase the number of Indians entering the health professions and to assure an adequate supply of health professionals to the Service, Indian tribes, tribal organizations, and urban Indian organizations involved in the provision of health care to Indian people.".

SEC. 102. HEALTH PROFESSIONS.

(a) Recruitment Program.—Section 102(a) of the Act (25 U.S.C. 1612(a)) is amended—

(1) by amending paragraph (1) to read as follows:

"(1) identifying Indians with a potential for education or training in the health professions and encouraging and assisting them—

"(A) to enroll in courses of study in such health professions; or

"(B) if they are not qualified to enroll in any such courses of study, to undertake such postsecondary education or training as may be required to qualify them for enrollment;";

(2) in paragraph (2)—

(A) by striking out "school" both places it appears and inserting in lieu thereof the following: "course of study"; and

(B) by striking out "clause (1)(A)" and inserting in lieu thereof the following: "paragraph (1)"; and

(3) in paragraph (3)—

(A) by striking out "Indians," and inserting in lieu thereof "Indians in,";

(B) by inserting a comma before "courses";

(C) by striking out ", in any school"; and

(D) by striking out "clause (1)(A)" and inserting in lieu thereof the following: "paragraph (1)".

(b) Preparatory Scholarship Program.—Section 103 of the Act (25 U.S.C. 1613) is amended—

(1) by amending subsection (a)(2) to read as follows:

"(2) have demonstrated the capability to successfully complete courses of study in the health professions.";

(2) in subsection (b)(1), by inserting before the period at the end the following: "on a full-time basis (or the part-time equivalent thereof, as determined by the Secretary)";

(3) by amending subsection (b)(2) to read as follows:

"(2) Pregraduate education of any grantee leading to a baccalaureate degree in an approved course of study preparatory to a field of study in a health profession, such scholarship not to exceed 4 years (or the part-time equivalent thereof, as determined by the Secretary).";

(4) in subsection (c), by striking out "full time"; and

(5) by amending subsection (e) to read as follows:

"(e) The Secretary shall not deny scholarship assistance to an eligible applicant under this section solely by reason of such applicant's eligibility for assistance or benefits under any other Federal program.".

(c) Health Professions Scholarships.—Section 104 of the Act (25 U.S.C. 1613a) is amended—

(1) in subsection (a)—

(A) by striking out "Indian communities" and inserting in lieu thereof the following: "Indians, Indian tribes, tribal organizations, and urban Indian organizations";

(B) by striking out "full time" and inserting in lieu thereof the following: "full or part time"; and

(C) by striking out "of medicine" and all that follows through "social work" and inserting in lieu thereof the following: "and pursuing courses of study in the health professions";

(2) in subsection (b)—

(A) in paragraph (2)—

(i) by striking out "full time" and inserting in lieu thereof "full or part time"; and

(ii) by striking out "health profession school" and inserting in lieu thereof "course of study";

(B) in paragraph (3)—

(i) by striking "(3)" and inserting "(3)(A)";

(ii) by redesignating subparagraphs (A), (B), (C), and (D) as clauses (i), (ii), (iii), and (iv), respectively; and

(iii) by inserting at the end the following new subparagraphs:

"(B) A recipient of an Indian Health Scholarship may, at the election of the recipient, meet the active duty service obligation prescribed under section 338C of the Public Health Service Act (42 U.S.C. 254m) by service in a program specified in subparagraph (A) that—

"(i) is located on the reservation of the tribe in which the recipient is enrolled; or

"(ii) serves the tribe in which the recipient is enrolled.

"(C) Subject to subparagraph (B), the Secretary, in making assignments of Indian Health Scholarship recipients required to meet the active duty service obligation prescribed under section 338C of the Public Health Service Act (42 U.S.C. 254m), shall give priority to assigning individuals to service in those programs specified in subparagraph (A) that have a need for health professionals to provide health care services as a result of individuals having breached contracts entered into under this section."; and

(C) by adding at the end the following new paragraph:

"(4) In the case of an individual receiving a scholarship under this section who is enrolled part time in an approved course of study—

"(A) such scholarship shall be for a period of years not to exceed the part-time equivalent of 4 years, as determined by the Secretary;

"(B) the period of obligated service specified in section 338A(f)(1)(B)(iv) of the Public Health Service Act (42 U.S.C. 254m(f)(1)(B)(iv)) shall be equal to the greater of—

"(i) the part-time equivalent of one year for each year for which the individual was provided a scholarship (as determined by the Secretary); or

"(ii) two years; and

"(C) the amount of the monthly stipend specified in section 338A(g)(1)(B) of the Public Health Service Act (42 U.S.C. 254m(g)(1)(B)) shall be reduced pro rata (as determined by the Secretary) based on the number of hours such student is enrolled.";

(3) by amending subsection (c) to read as follows:

"(c) The Secretary shall, acting through the Service, establish a Placement Office to develop and implement a national policy for the placement, to available vacancies within the Service, of Indian Health Scholarship recipients required to meet the active duty service obligation prescribed under section 338C of the Public Health Service Act (42 U.S.C. 254m) without regard to any competitive personnel system, agency personnel limitation, or Indian preference policy."; and

(4) by striking out subsection (d).

(d) Effective Date.—The amendments made by subsection (c)(1)(C) and subsection (c)(2)(B) shall apply with respect to scholarships granted under section 104 of the Indian Health Care Improvement Act after the date of the enactment of this Act.

(e) Extern Program.—Section 105 of the Act (25 U.S.C. 1614) is amended—

(1) in subsection (a), by striking out "section 757 of the Public Health Service Act" and inserting in lieu thereof "section 104"; and

(2) in subsection (b), by striking out "school of medicine" and all that follows through "health professions" and inserting in lieu thereof "course of study in the health professions".

SEC. 103. BREACH OF CONTRACT PROVISIONS RELATING TO INDIAN HEALTH SCHOLARSHIPS.

Section 104(b) of the Act (25 U.S.C. 1613a(b)) (as amended by section 102(c) of this Act) is amended by adding at the end the following new paragraph:

"(5)(A) An individual who has, on or after the date of the enactment of this paragraph, entered into a written contract with the Secretary under this section and who—

"(i) fails to maintain an acceptable level of academic standing in the educational institution in which he is enrolled (such level determined by the educational institution under regulations of the Secretary),

"(ii) is dismissed from such educational institution for disciplinary reasons,

"(iii) voluntarily terminates the training in such an educational institution for which he is provided a scholarship under such contract before the completion of such training, or

"(iv) fails to accept payment, or instructs the educational institution in which he is enrolled not to accept payment, in whole or in part, of a scholarship under such contract,

in lieu of any service obligation arising under such contract, shall be liable to the United States for the amount which has been paid to him, or on his behalf, under the contract.

"(B) If for any reason not specified in subparagraph (A) an individual breaches his written contract by failing either to begin such individual's service obligation under this section or to complete such service obligation, the United States shall be entitled to recover from the individual an amount determined in accordance with the formula specified in subsection (l) of section 108 in the manner provided for in such subsection.".

SEC. 104. NURSING.

(a) Continuing Education Allowances.—Section 106(a) of the Act (25 U.S.C. 1615(a)) is amended by inserting "nurses," after "dentists,".

(b) Quentin N. Burdick American Indians Into Nursing Program.—Section 112 of the Act (25 U.S.C. 1616e) is amended—

(1) by redesignating subsections (e) and (f) as subsections (f) and (g), respectively; and

(2) by inserting after subsection (d) the following new subsection:

"(e) The Secretary shall provide one of the grants authorized under subsection (a) to establish and maintain a program at the University of North Dakota to be known as the 'Quentin N. Burdick American Indians Into Nursing Program'. Such program shall, to the maximum extent feasible, coordinate with the Quentin N. Burdick Indian Health Programs established under section 114(b) and the Quentin N. Burdick American Indians Into Psychology Program established under section 217(b).".

(c) Training for Nurse Midwives, Nurse Anesthetists, and Nurse Practitioners.—Section 112(g) of the Act (25 U.S.C. 1616e(g)) (as redesignated by subsection (b)(1) of this section) is amended to read as follows:

"(g) Beginning with fiscal year 1993, of the amounts appropriated under the authority of this title for each fiscal year to be used to carry out this section, not less than **$1,000,000** shall be used to provide grants under subsection (a) for the training of nurse midwives, nurse anesthetists, and nurse practitioners.".

(d) Retention Bonus for Nurses.—Section 117 (25 U.S.C. 1616j) of the Act is amended—

(1) by redesignating subsections (b) through (e) as subsections (c) through (f), respectively;

(2) by adding after subsection (a) the following new subsection (b):

"(b) Beginning with fiscal year 1993, not less than 25 percent of the retention bonuses awarded each year under subsection (a) shall be awarded to nurses."; and

(3) by amending subsection (f) (as amended by paragraph (1)) to read as follows:

"(f) The Secretary may pay a retention bonus to any physician or nurse employed by an organization providing health care services to Indians pursuant to a contract under the Indian Self-Determination Act if such physician or nurse is serving in a position which the Secretary determines is—

"(1) a position for which recruitment or retention is difficult; and

"(2) necessary for providing health care services to Indians.".

(e) Residency Program.—Title I of the Act is amended by adding at the end the following new section:

"NURSING RESIDENCY PROGRAM

"Sec. 118. (a) The Secretary, acting through the Service, shall establish a program to enable licensed practical nurses, licensed vocational nurses, and registered nurses who are working in an Indian health program (as defined in section 108(a)(2)(A)), and have done so for a period of not less than one year, to pursue advanced training.

"(b) Such program shall include a combination of education and work study in an Indian health program (as defined in section 108(a)(2)(A)) leading to an associate or bachelor's degree (in the case of a licensed practical nurse or licensed vocational nurse) or a bachelor's degree (in the case of a registered nurse).

"(c) An individual who participates in a program under subsection (a), where the educational costs are paid by the Service, shall incur an obligation to serve in an Indian health program for a period of obligated service equal to at least three times the period of time during which the individual participates in such program. In the event that the individual fails to complete such obligated service, the United States shall be entitled to recover from such individual an amount determined in accordance with the formula specified in subsection (l) of section 108 in the manner provided for in such subsection.".

(f) Grants for the Provision of Primary Care Services on or Near Indian Country.—Title I of the Indian Health Care Improvement Act (25 U.S.C. 1601 et seq.) is amended by adding immediately after section 112 the following new section:

"NURSING SCHOOL CLINICS

"Sec. 112A. (a) Grants.—In addition to the authority of the Secretary under section 112(a)(1), the Secretary, acting through the Service, is authorized to provide grants to public or private schools of nursing for the purpose of establishing, developing, operating, and administering clinics to address the health care needs of Indians, and to provide primary health care services to Indians who reside on or within 50 miles of Indian country, as defined in section 1151 of title 18, United States Code.

"(b) Purposes.—Grants provided under subsection (a) may be used to—

"(1) establish clinics, to be run and staffed by the faculty and students of a grantee school, to provide primary care services in areas in or within 50 miles of Indian country (as defined in section 1151 of title 18, United States Code);

"(2) provide clinical training, program development, faculty enhancement, and student scholarships in a manner that would benefit such clinics; and

"(3) carry out any other activities determined appropriate by the Secretary.

"(c) Amount and Conditions.—The Secretary may award grants under this section in such amounts and subject to such conditions as the Secretary deems appropriate.

"(d) Design.—The clinics established under this section shall be designed to provide nursing students with a structured clinical experience that is similar in nature to that provided by residency training programs for physicians.

"(e) Regulations.—The Secretary shall prescribe such regulations as may be necessary to carry out the provisions of this section.

"(f) Authorization To Use Amounts.—Out of amounts appropriated to carry out this title for each of the fiscal years 1993 through 2000 not more than $5,000,000 may be used to carry out this section.".

SEC. 105. MAINTENANCE OF COMMUNITY HEALTH REPRESENTATIVE PROGRAM.

Section 107(b) of the Act (25 U.S.C. 1616(b)) is amended—

(1) in paragraph (2), in the material preceding subparagraph (A), by inserting "and maintain" after "develop";

(2) in paragraph (2)(B), by adding at the end the following: "with appropriate consideration given to lifestyle factors that have an impact on Indian health status, such as alcoholism, family dysfunction, and poverty,";

(3) in paragraphs (3) and (5), by striking out "develop" each place it appears and inserting in lieu thereof "maintain"; and

(4) in paragraph (4), by striking out "develop and".

SEC. 106. CHANGES TO INDIAN HEALTH SERVICE LOAN REPAYMENT PROGRAM.

(a) Eligibility Requirements.—Section 108 of the Act (25 U.S.C. 1616a(b)) is amended—

(1) in subsection (a)(1), by striking out "physicians," and all that follows through "professionals" and inserting in lieu thereof "health professionals"; and

(2) in subsection (b)—

(A) in paragraph (1)(A)—

(i) by amending clause (i) to read as follows:

"(i) in a course of study or program in an accredited institution, as determined by the Secretary, within any State and be scheduled to complete such course of study in the same year such individual applies to participate in such program; or"; and

(ii) in clause (ii), by striking out "medicine" and all that follows through "health profession" and inserting in lieu thereof the following: "a health profession";

(B) in paragraph (1)(B)—

(i) by inserting "and" at the end of clause (i), by striking out clause (ii), and by redesignating clause (iii) as clause (ii);

(ii) in clause (i), by striking out "medicine, osteopathy, dentistry, or other health profession" and inserting in lieu thereof the following: "a health profession"; and

(iii) in clause (ii) (as redesignated by clause (i) of this subparagraph), by striking out "medicine, osteopathy, dentistry, or other health profession" and inserting in lieu thereof the following: "a health profession"; and

(C) in paragraph (2), by inserting "and" at the end of subparagraph (D), by striking out paragraphs (3) and (4), and by inserting after paragraph (2) the following:

"(3) submit to the Secretary an application for a contract described in subsection (f).".

(b) Priority.—Section 108(d) of the Act (25 U.S.C. 1616a(d)) is amended—

(1) in paragraph (1), by striking out "The" and inserting "Consistent with paragraph (3), the"; and

(2) by adding at the end the following new paragraph:

"(3)(A) Subject to subparagraph (B), of the total amounts appropriated for each of the fiscal years 1993, 1994, and 1995 for loan repayment contracts under this section, the Secretary shall provide that—

"(i) not less than 25 percent be provided to applicants who are nurses, nurse practitioners, or nurse midwives; and

"(ii) not less than 10 percent be provided to applicants who are mental health professionals (other than applicants described in clause (i)).

"(B) The requirements specified in clause (i) or clause (ii) of subparagraph (A) shall not apply if the Secretary does not receive the number of applications from the individuals described in clause (i) or clause (ii), respectively, necessary to meet such requirements.".

(c) Becoming a Participant.—Paragraph (1) of section 108(e) (25 U.S.C. 1616a(e)) is amended to read as follows:

"(1) An individual becomes a participant in the Loan Repayment Program only upon the Secretary and the individual entering into a written contract described in subsection (f).".

(d) Extension of Obligated Service.—Paragraph (2)(A) of section 108(e) (25 U.S.C. 1616a(e)) is amended by inserting before the semicolon the following: ", including extensions resulting in an aggregate period of obligated service in excess of 4 years".

(e) Clarification Regarding Undergraduate Loans.—Paragraph (1) of section 108(g) (25 U.S.C. 1616a(g)) is amended in the matter preceding subparagraph (A) by striking out "loans received by the individual for—" and inserting in lieu thereof "loans received by the individual regarding the undergraduate or graduate education of the individual (or both), which loans were made for—".

(f) Payment.—Section 108(g)(2)(A) (25 U.S.C. 1616a(g)(2)(A)) is amended to read as follows:

"(2)(A) For each year of obligated service that an individual contracts to serve under subsection (f) the Secretary may pay up to $35,000 (or an amount equal to the amount specified in section 338B(g)(2)(A) of the Public Health Service Act) on behalf of the individual for loans described in paragraph (1). In making a determination of the amount to pay for a year of such service by an individual, the Secretary shall consider the extent to which each such determination—

"(i) affects the ability of the Secretary to maximize the number of contracts that can be provided under the Loan Repayment Program from the amounts appropriated for such contracts;

"(ii) provides an incentive to serve in Indian health programs with the greatest shortages of health professionals; and

"(iii) provides an incentive with respect to the health professional involved remaining in an Indian health program with such a health professional shortage, and continuing to provide primary health services, after the completion of the period of obligated service under the Loan Repayment Program.".

(g) TAX LIABILITY.—(1) Paragraph (3) of section 108(g) (25 U.S.C. 1616a(g)(3)) is amended to read as follows:

"(3) For the purpose of providing reimbursements for tax liability resulting from payments under paragraph (2) on behalf of an individual, the Secretary—

"(A) in addition to such payments, may make payments to the individual in an amount not less than 20 percent and not more than 39 percent of the total amount of loan repayments made for the taxable year involved; and

"(B) may make such additional payments as the Secretary determines to be appropriate with respect to such purpose.".

(2) The amendment made by paragraph (1) shall apply only with respect to contracts under section 108 of the Indian Health Care Improvement Act entered into on or after the date of enactment of this Act.

(h) STAFFING NEEDS.—Section 108(k) (25 U.S.C. 1616a(k)) is amended to read as follows:

"(k) The Secretary, in assigning individuals to serve in Indian health programs pursuant to contracts entered into under this section, shall—

"(1) ensure that the staffing needs of Indian health programs administered by an Indian tribe or tribal or health organization receive consideration on an equal basis with programs that are administered directly by the Service; and

"(2) give priority to assigning individuals to Indian health programs that have a need for health professionals to provide health care services as a result of individuals having breached contracts entered into under this section.".

(i) ANNUAL REPORT.—Subsection (n) of section 108 is amended to read as follows:

"(n) The Secretary shall submit to the President, for inclusion in each report required to be submitted to the Congress under section 801, a report concerning the previous fiscal year which sets forth—

"(1) the health professional positions maintained by the Service or by tribal or Indian organizations for which recruitment or retention is difficult;

"(2) the number of Loan Repayment Program applications filed with respect to each type of health profession;

"(3) the number of contracts described in subsection (f) that are entered into with respect to each health profession;

"(4) the amount of loan payments made under this section, in total and by health profession;

"(5) the number of scholarship grants that are provided under section 104 with respect to each health profession;

"(6) the amount of scholarship grants provided under section 104, in total and by health profession;

"(7) the number of providers of health care that will be needed by Indian health programs, by location and profession, during the three fiscal years beginning after the date the report is filed; and

"(8) the measures the Secretary plans to take to fill the health professional positions maintained by the Service or by tribes or tribal or Indian organizations for which recruitment or retention is difficult.".

SEC. 107. RECRUITMENT ACTIVITIES.

Section 109 of the Act (25 U.S.C. 1616b) is amended—

(1) by amending the heading to read as follows:

"RECRUITMENT ACTIVITIES"; AND

(2) by amending subsection (b) to read as follows:

"(b) The Secretary, acting through the Service, shall assign one individual in each area office to be responsible on a full-time basis for recruitment activities.".

SEC. 108. ADVANCED TRAINING AND RESEARCH.

Section 111 of the Act (25 U.S.C. 1616d) is amended—

(1) in subsection (b), by amending the last sentence to read as follows: "In such event, with respect to individuals entering the program after the date of the enactment of the Indian Health Amendments of 1992, the United States shall be entitled to recover from such individual an amount to be determined in accordance with the formula specified in subsection (l) of section 108 in the manner provided for in such subsection."; and

(2) by striking out subsection (d).

SEC. 109. INMED PROGRAM.

Section 114(b) of the Act (25 U.S.C. 1616g(b)) is amended—

(1) by inserting after "North Dakota," the following: "to be known as the 'Quentin N. Burdick Indian Health Programs',"; and

(2) by adding at the end the following: "Such program shall, to the maximum extent feasible, coordinate with the Quentin N. Burdick American Indians Into Psychology Program established under section 217(b) and the Quentin N. Burdick American Indians Into Nursing Program established under section 112(e).".

SEC. 110. SCHOLARSHIP AND LOAN REPAYMENT RECOVERY FUND.

Title I of the Act is amended by inserting after section 108 the following new section:

"SCHOLARSHIP AND LOAN REPAYMENT RECOVERY FUND

"SEC. 108A. (a) There is established in the Treasury of the United States a fund to be known as the Indian Health Scholarship and Loan Repayment Recovery Fund (hereafter in this section referred to as the 'Fund'). The Fund shall consist of such amounts as may be appropriated to the Fund under subsection (b). Amounts appropriated for the Fund shall remain available until expended.

"(b) For each fiscal year, there is authorized to be appropriated to the Fund an amount equal to the sum of—

"(1) the amount collected during the preceding fiscal year by the Federal Government pursuant to—

"(A) the liability of individuals under subparagraph (A) or (B) of section 104(b)(5) for the breach of contracts entered into under section 104; and

"(B) the liability of individuals under section 108(l) for the breach of contracts entered into under section 108; and

"(2) the aggregate amount of interest accruing during the preceding fiscal year on obligations held in the Fund pursuant to subsection (d) and the amount of proceeds from the sale or redemption of such obligations during such fiscal year.

"(c)(1) Amounts in the Fund and available pursuant to appropriation Acts may be expended by the Secretary, acting through the Service, to make payments to an Indian tribe or tribal organization administering a health care program pursuant to a contract entered into under the Indian Self-Determination Act—

"(A) to which a scholarship recipient under section 104 or a loan repayment program participant under section 108 has been assigned to meet the obligated service requirements pursuant to sections; and

"(B) that has a need for a health professional to provide health care services as a result of such recipient or participant having breached the contract entered into under section 104 or section 108.

"(2) An Indian tribe or tribal organization receiving payments pursuant to paragraph (1) may expend the payments to recruit and employ, directly or by contract, health professionals to provide health care services.

"(d)(1) The Secretary of the Treasury shall invest such amounts of the Fund as such Secretary determines are not required to meet current withdrawals from the Fund. Such investments may be made only in interest-bearing obligations of the United States. For such purpose, such obligations may be acquired on original issue at the issue price, or by purchase of outstanding obligations at the market price.

"(2) Any obligation acquired by the Fund may be sold by the Secretary of the Treasury at the market price.".

SEC. 111. COMMUNITY HEALTH AIDE PROGRAM.

Title I of the Act (as amended by section 104 of this Act) is amended by adding at the end the following new section:

"COMMUNITY HEALTH AIDE PROGRAM FOR ALASKA

"SEC. 119. (a) Under the authority of the Act of November 2, 1921 (25 U.S.C. 13; popularly known as the Snyder Act), the Secretary shall maintain a Community Health Aide Program in Alaska under which the Service—

"(1) provides for the training of Alaska Natives as health aides or community health practitioners;

"(2) uses such aides or practitioners in the provision of health care, health promotion, and disease prevention services to Alaska Natives living in villages in rural Alaska; and

"(3) provides for the establishment of teleconferencing capacity in health clinics located in or near such villages for use by community health aides or community health practitioners.

"(b) The Secretary, acting through the Community Health Aide Program of the Service, shall—

"(1) using trainers accredited by the Program, provide a high standard of training to community health aides and community health practitioners to ensure that such aides and practitioners provide quality health care, health promotion, and disease prevention services to the villages served by the Program;

"(2) in order to provide such training, develop a curriculum that—

"(A) combines education in the theory of health care with supervised practical experience in the provision of health care;

"(B) provides instruction and practical experience in the provision of acute care, emergency care, health promotion, disease prevention, and the efficient and effective management of clinic pharmacies, supplies, equipment, and facilities; and

"(C) promotes the achievement of the health status objectives specified in section 3(b);

"(3) establish and maintain a Community Health Aide Certification Board to certify as community health aides or community health practitioners individuals who have successfully completed the training described in paragraph (1) or can demonstrate equivalent experience;

"(4) develop and maintain a system which identifies the needs of community health aides and community health practitioners for continuing education in the provision of health care, including the areas described in paragraph (2)(B), and develop programs that meet the needs for such continuing education;

"(5) develop and maintain a system that provides close supervision of community health aides and community health practitioners; and

"(6) develop a system under which the work of community health aides and community health practitioners is reviewed and evaluated to assure the provision of quality health care, health promotion, and disease prevention services.".

SEC. 112. MATCHING GRANTS TO TRIBES.

Title I of the Act (as amended by section 111 of this Act) is amended by adding at the end the following new section:

"MATCHING GRANTS TO TRIBES FOR SCHOLARSHIP PROGRAMS

"SEC. 120. (a)(1) The Secretary shall make grants to Indian tribes and tribal organizations for the purpose of assisting such tribes and tribal organizations in educating Indians to serve as health professionals in Indian communities.

"(2) Amounts available for grants under paragraph (1) for any fiscal year shall not exceed 5 percent of amounts available for such fiscal year for Indian Health Scholarships under section 104.

"(3) An application for a grant under paragraph (1) shall be in such form and contain such agreements, assurances, and information as the Secretary determines are necessary to carry out this section.

"(b)(1) An Indian tribe or tribal organization receiving a grant under subsection (a) shall agree to provide scholarships to Indians pursuing education in the health professions in accordance with the requirements of this section.

"(2) With respect to the costs of providing any scholarship pursuant to paragraph (1)—

"(A) 80 percent of the costs of the scholarship shall be paid from the grant made under subsection (a) to the Indian tribe or tribal organization; and

"(B) 20 percent of such costs shall be paid from non-Federal contributions by the Indian tribe or tribal organization through which the scholarship is provided.

"(3) In determining the amount of non-Federal contributions that have been provided for purposes of subparagraph (B) of paragraph (2), any amounts provided by the Federal Government to the Indian tribe or tribal organization involved or to any other entity shall not be included.

"(4) Non-Federal contributions required by subparagraph (B) of paragraph (2) may be provided directly by the Indian tribe or tribal organization involved or through donations from public and private entities.

"(c) An Indian tribe or tribal organization shall provide scholarships under subsection (b) only to Indians enrolled or accepted for enrollment in a course of study (approved by the Secretary) in one of the health professions described in section 104(a).

"(d) In providing scholarships under subsection (b), the Secretary and the Indian tribe or tribal organization shall enter into a written contract with each recipient of such scholarship. Such contract shall—

"(1) obligate such recipient to provide service in an Indian health program (as defined in section 108(a)(2)(A)), in the same service area where the Indian tribe or tribal organization providing the scholarship is located, for—

"(A) a number of years equal to the number of years for which the scholarship is provided (or the part-time equivalent thereof, as determined by the Secretary), or for a period of 2 years, whichever period is greater; or

"(B) such greater period of time as the recipient and the Indian tribe or tribal organization may agree;

"(2) provide that the amount of such scholarship—

"(A) may be expended only for—

"(i) tuition expenses, other reasonable educational expenses, and reasonable living expenses incurred in attendance at the educational institution; and

"(ii) payment to the recipient of a monthly stipend of not more than the amount authorized by section 338A(g)(1)(B) of the Public Health Service Act (42 U.S.C. 254m(g)(1)(B)), such amount to be reduced pro rata (as determined by the Secretary) based on the number of hours such student is enrolled; and

"(B) may not exceed, for any year of attendance for which the scholarship is provided, the total amount required for the year for the purposes authorized in subparagraph (A);

"(3) require the recipient of such scholarship to maintain an acceptable level of academic standing (as determined by the educational institution in accordance with regulations issued by the Secretary); and

"(4) require the recipient of such scholarship to meet the educational and licensure requirements necessary to be a physician, certified nurse practitioner, certified nurse midwife, or physician assistant.

"(e)(1) An individual who has entered into a written contract with the Secretary and an Indian tribe or tribal organization under subsection (d) and who—

"(A) fails to maintain an acceptable level of academic standing in the educational institution in which he is enrolled (such level determined by the educational institution under regulations of the Secretary),

"(B) is dismissed from such educational institution for disciplinary reasons,

"(C) voluntarily terminates the training in such an educational institution for which he is provided a scholarship under such contract before the completion of such training, or

"(D) fails to accept payment, or instructs the educational institution in which he is enrolled not to accept payment, in whole or in part, of a scholarship under such contract,

in lieu of any service obligation arising under such contract, shall be liable to the United States for the Federal share of the amount which has been paid to him, or on his behalf, under the contract.

"(2) If for any reason not specified in paragraph (1), an individual breaches his written contract by failing either to begin such individual's service obligation required under such contract or to complete such service obligation, the United States shall be entitled to recover from the individual an amount determined in accordance with the formula specified in subsection (l) of section 108 in the manner provided for in such subsection.

"(3) The Secretary may carry out this subsection on the basis of information submitted by the tribes or tribal organizations involved, or on the basis of information collected through such other means as the Secretary determines to be appropriate.

"(f) The recipient of a scholarship under subsection (b) shall agree, in providing health care pursuant to the requirements of subsection (d)(1)—

"(1) not to discriminate against an individual seeking such care on the basis of the ability of the individual to pay for such care or on the basis that payment for such care will be made pursuant to the program established in title XVIII of the Social Security Act or pursuant to the program established in title XIX of such Act; and

"(2) to accept assignment under section 1842(b)(3)(B)(ii) of the Social Security Act for all services for which payment may be made under part B of title XVIII of such Act, and to enter into an appropriate agreement with the State agency that administers the State plan for medical assistance under title XIX of such Act to provide service to individuals entitled to medical assistance under the plan.

"(g) The Secretary may not make any payments under subsection (a) to an Indian tribe or tribal organization for any fiscal year subsequent to the first fiscal year of such payments unless the Secretary determines that, for the immediately preceding fiscal year, the Indian tribe or tribal organization has complied with requirements of this section.".

SEC. 113. TRIBAL HEALTH PROGRAM ADMINISTRATION.

Title I of the Act (as amended by section 112 of this Act) is amended by adding at the end the following new section:

"TRIBAL HEALTH PROGRAM ADMINISTRATION

"SEC. 121. The Secretary shall, by contract or otherwise, provide training for individuals in the administration and planning of tribal health programs.".

SEC. 114. TRIBALLY CONTROLLED VOCATIONAL INSTITUTIONS.

(a) NURSING PROGRAM GRANTS.—Section 112(a)(2) of the Act (25 U.S.C. 1616e(a)(2)) is amended by inserting before the comma the following: "and tribally controlled postsecondary vocational institutions (as defined in section 390(2) of the Tribally Controlled Vocational Institutions Support Act of 1990 (20 U.S.C. 2397h(2))".

(b) TRIBAL CULTURE AND HISTORY PROGRAMS.—Section 113(b)(1) of the Act (25 U.S.C. 1616f(b)(1) is amended by inserting before the comma "and tribally controlled postsecondary vocational institutions (as defined in section 390(2) of the Tribally Controlled Vocational Institutions Support Act of 1990 (20 U.S.C. 2397h(2))".

SEC. 115. CONTINUING EDUCATION ALLOWANCES.

Section 106(b) of the Act (25 U.S.C. 1615(b)) is amended to read as follows:

"(b) Of amounts appropriated under the authority of this title for each fiscal year to be used to carry out this section, not more than $1,000,000 may be used to establish postdoctoral training programs for health professionals.".

SEC. 116. UNIVERSITY OF SOUTH DAKOTA MODEL HEALTH PROGRAM.

Title I of the Act (as amended by section 113 of this Act) is amended by adding at the end the following new section:

"UNIVERSITY OF SOUTH DAKOTA PILOT PROGRAM

"SEC. 122. (a) The Secretary may make a grant to the School of Medicine of the University of South Dakota (hereafter in this section referred to as 'USDSM') to establish a pilot program on an Indian reservation at one or more service units in South Dakota to address the chronic manpower shortage in the Aberdeen Area of the Service.

"(b) The purposes of the program established pursuant to a grant provided under subsection (a) are—

"(1) to provide direct clinical and practical experience at a service unit to medical students and residents from USDSM and other medical schools;

"(2) to improve the quality of health care for Indians by assuring access to qualified health care professionals; and

"(3) to provide academic and scholarly opportunities for physicians, physician assistants, nurse practitioners, nurses, and other allied health professionals serving Indian people by identifying and utilizing all academic and scholarly resources of the region.

"(c) The pilot program established pursuant to a grant provided under subsection (a) shall—

"(1) incorporate a program advisory board composed of representatives from the tribes and communities in the area which will be served by the program; and

"(2) shall be designated as an extension of the USDSM campus and program participants shall be under the direct supervision and instruction of qualified medical staff serving at the service unit who shall be members of the USDSM faculty.

"(d) The USDSM shall coordinate the program established pursuant to a grant provided under subsection (a) with other medical schools in the region, nursing schools, tribal community colleges, and other health professional schools.

"(e) The USDSM, in cooperation with the Service, shall develop additional professional opportunities for program participants on Indian reservations in order to improve the recruitment and retention of qualified health professionals in the Aberdeen Area of the Service.".

SEC. 117. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION.—Title I of the Act (as amended by section 116 of this Act) is amended by adding at the end the following new section:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 123. There are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2000 to carry out this title.".

(b) CONFORMING AMENDMENTS.—Title I of the Act is amended—

(1) in section 102, by striking out subsection (c);

(2) in section 105, by striking out subsection (d);

(3) in section 108, by striking out subsection (o);

(4) in section 110, by striking out subsection (c);

(5) in section 113, by striking out subsection (c);

(6) in section 114, by striking out subsection (e);

(7) in section 115, by striking out subsection (f); and

(8) in section 116, by striking out subsection (e).

TITLE II—HEALTH SERVICES

SEC. 201. INDIAN HEALTH CARE IMPROVEMENT FUND.

(a) IN GENERAL.—Section 201 of the Act (25 U.S.C. 1621) is amended—

(1) in subsection (a)—

(A) in the material preceding paragraph (1), by striking out "subsection (h)" and inserting in lieu thereof "this section";

(B) by amending paragraph (1) to read as follows:

"(1) eliminating the deficiencies in health status and resources of all Indian tribes,"; and

(C) in paragraph (4), in the material preceding subparagraph (A)—

(i) by inserting after "responsibilities" the following: ", either through direct or contract care or through contracts entered into pursuant to the Indian Self-Determination Act,"; and

(ii) by striking out "resources deficiency" and inserting in lieu thereof the following: "status and resource deficiencies";

(2) in subsection (b)—

(A) in paragraph (1), by striking out "subsection (h)" and inserting in lieu thereof "this section";

(B) by striking out paragraph (2) and redesignating paragraph (3) as paragraph (2); and

(C) in paragraph (2)(A) (as redesignated by subparagraph (B))—

(i) by striking out "subsection (h)" and inserting in lieu thereof "this section";

(ii) in the first sentence, by striking out "but such allocation" through "met";

(iii) in the second sentence—

(I) by striking out "(in accordance with paragraph (2))"; and

(II) by striking out "raise the deficiency level" and inserting in lieu thereof the following: "reduce the health status and resource deficiency"; and

(D) in paragraph (2)(B) (as redesignated by subparagraph (B)), by inserting after "consultation with" the following: ", and with the active participation of,";

(3) in subsection (c)—

(A) by striking out paragraph (1) and redesignating paragraphs (2), (3), and (4) as paragraphs (1), (2), and (3), respectively;

(B) by amending paragraph (1) (as redesignated by subparagraph (A) above) to read as follows:

"(1) The term 'health status and resource deficiency' means the extent to which—

"(A) the health status objectives set forth in section 3(b) are not being achieved; and

"(B) the Indian tribe does not have available to it the health resources it needs, taking into account the actual cost of providing health care services given local geographic, climatic, rural, or other circumstances."; and

(C) in paragraph (3) (as redesignated by subparagraph (A) above)—

(i) by striking out "Under regulations, the" and inserting in lieu thereof "The"; and

(ii) by striking out "health resources deficiency level" and inserting in lieu thereof "extent of the health status and resource deficiency";

(4) in subsection (d)(1), by striking out "subsection (h)" and inserting in lieu thereof "this section";

(5) in subsection (e)—

(A) in the material preceding paragraph (1)—

(i) by striking out "60 days" and inserting in lieu thereof "3 years";

(ii) by striking out "Indian Health Care Amendments of 1988" and inserting in lieu thereof "Indian Health Amendments of 1992"; and

(iii) by striking out "health services priority system" and inserting in lieu thereof "health status and resource deficiency";

(B) in paragraph (1), by striking out "health resources deficiencies" and inserting in lieu thereof "health status and resource deficiencies";

(C) in paragraph (2), by striking out "the level of health resources deficiency for" and inserting in lieu thereof the following: "the extent of the health status and resource deficiency of";

(D) in paragraph (3), by striking "raise all" and all that follows through the semicolon and insert in lieu thereof the following: "eliminate the health status and resource deficiencies of all Indian tribes served by the Service; and"; and

(E) by striking out paragraphs (4) and (5) and redesignating paragraph (6) as paragraph (4); and

(6) in subsection (f), by striking out "(f)(1)" and all that follows through the paragraph designation for paragraph (2) and inserting in lieu thereof "(f)".

(b) EFFECTIVE DATE.—Except with respect to the amendments made by subsection (a)(5), the amendments made by subsection (a) shall take effect three years after the date of the enactment of this Act. The amendments made by subsection (a)(5) shall take effect upon the date of the enactment of this Act.

(c) TECHNICAL AMENDMENT.—The heading for section 201 of the Act (25 U.S.C. 1621) is amended to read as follows:

"INDIAN HEALTH CARE IMPROVEMENT FUND".

SEC. 202. CATASTROPHIC HEALTH EMERGENCY FUND.

(a) IN GENERAL.—Section 202 of the Act (25 U.S.C. 1621a) is amended—

(1) in subsection (a)(1)(B), by striking out "under subsection (e)" and inserting in lieu thereof "to the Fund under this section";

(2) in subsection (b)(2), by striking out "shall establish at not less than $10,000 or not more than $20,000;" and inserting in lieu thereof the following: "shall establish at—

"(A) for 1993, not less than $15,000 or not more than $25,000; and

"(B) for any subsequent year, not less than the threshold cost of the previous year increased by the percentage increase in the medical care expenditure category of the consumer price index for all urban consumers (United States city average) for the 12-month period ending with December of the previous year;"; and

(3) in subsection (c), by striking out "Funds appropriated under subsection (e)" and inserting in lieu thereof "Amounts appropriated to the Fund under this section".

(b) EFFECTIVE DATE.—The amendment made by subsection (a)(2) shall take effect January 1, 1993.

SEC. 203. HEALTH PROMOTION AND DISEASE PREVENTION.

Section 203 of the Act (25 U.S.C. 1621b) is amended—

(1) in subsection (a), by inserting before the period at the end the following: "so as to achieve the health status objectives set forth in section 3(b)";

(2) in subsection (b), in the material preceding paragraph (1), by striking out "section 201(f)" and inserting in lieu thereof "section 801"; and

(3) by striking out subsection (c).

SEC. 204. DIABETES PREVENTION, TREATMENT, AND CONTROL.

Section 204 of the Act (25 U.S.C. 1621c) is amended—

(1) by amending subsection (c) to read as follows:

"(c)(1) The Secretary shall continue to maintain through fiscal year 2000 each model diabetes project in existence on the date of the enactment of the Indian Health Amendments of 1992 and located—

"(A) at the Claremore Indian Hospital in Oklahoma;

"(B) at the Fort Totten Health Center in North Dakota;

"(C) at the Sacaton Indian Hospital in Arizona;

"(D) at the Winnebago Indian Hospital in Nebraska;

"(E) at the Albuquerque Indian Hospital in New Mexico;

"(F) at the Perry, Princeton, and Old Town Health Centers in Maine;

"(G) at the Bellingham Health Center in Washington;

"(H) at the Fort Berthold Reservation;

"(I) at the Navajo Reservation;

"(J) at the Papago Reservation;

"(K) at the Zuni Reservation; or

"(L) in the States of Alaska, California, Minnesota, Montana, Oregon, or Utah.

"(2) The Secretary may establish new model diabetes projects under this section taking into consideration applications received under this section from all service areas, except that the Secretary may not establish a greater number of such projects in one service area than in any other service area until there is an equal number of such projects established with respect to all service areas from which the Secretary receives qualified applications during the application period (as determined by the Secretary).''; and

(2) in subsection (d)—

(A) in paragraph (2), by striking out "and" after the semicolon;

(B) in paragraph (3), by striking out the period and inserting in lieu thereof the following: "; and"; and

(C) by adding at the end the following new paragraph:

"(4) evaluate the effectiveness of services provided through model diabetes projects established under this section.".

SEC. 205. MENTAL HEALTH PREVENTION AND TREATMENT SERVICES.

Section 209 of the Act (25 U.S.C. 1621h) is amended—

(1) in subsection (j) (as redesignated by section 902(3)(B) of this Act), by striking out "submit to the Congress an annual report" and inserting in lieu thereof the following: "submit to the President, for inclusion in each report required to be transmitted to the Congress under section 801, a report"; and

(2) by adding at the end the following new subsections:

"(l) LICENSING REQUIREMENT FOR MENTAL HEALTH CARE WORKERS.—Any person employed as a psychologist, social worker, or marriage and family therapist for the purpose of providing mental health care services to Indians in a clinical setting under the authority of this Act or through a contract pursuant to the Indian Self-Determination Act shall—

"(1) in the case of a person employed as a psychologist, be licensed as a clinical psychologist or working under the direct supervision of a licensed clinical psychologist;

"(2) in the case of a person employed as a social worker, be licensed as a social worker or working under the direct supervision of a licensed social worker; or

"(3) in the case of a person employed as a marriage and family therapist, be licensed as a marriage and family therapist or working under the direct supervision of a licensed marriage and family therapist.

"(m) INTERMEDIATE ADOLESCENT MENTAL HEALTH SERVICES.—(1) The Secretary, acting through the Service, may make grants to Indian tribes and tribal organizations to provide intermediate mental health services to Indian children and adolescents, including—

"(A) inpatient and outpatient services;

"(B) emergency care;

"(C) suicide prevention and crisis intervention; and

"(D) prevention and treatment of mental illness, and dysfunctional and self-destructive behavior, including child abuse and family violence.

"(2) Funds provided under this subsection may be used—

"(A) to construct or renovate an existing health facility to provide intermediate mental health services;

"(B) to hire mental health professionals;

"(C) to staff, operate, and maintain an intermediate mental health facility, group home, or youth shelter where intermediate mental health services are being provided; and

"(D) to make renovations and hire appropriate staff to convert existing hospital beds into adolescent psychiatric units.

"(3) Funds provided under this subsection may not be used for the purposes described in section 216(b)(1).

"(4) An Indian tribe or tribal organization receiving a grant under this subsection shall ensure that intermediate adolescent mental health services are coordinated with other tribal, Service, and Bureau of Indian Affairs mental health, alcohol and substance abuse, and social services programs on the reservation of such tribe or tribal organization.

"(5) The Secretary shall establish criteria for the review and approval of applications for grants made pursuant to this subsection.

"(6) There are authorized to be appropriated to carry out this section $10,000,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.".

SEC. 206. NEW STUDIES AND DEMONSTRATION PROGRAM.

(a) HOSPICE CARE.—Title II of the Act is amended by inserting after section 204 the following:

"HOSPICE CARE FEASIBILITY STUDY

"SEC. 205. (a) The Secretary, acting through the Service and in consultation with representatives of Indian tribes, tribal organizations, Indian Health Service personnel, and hospice providers, shall conduct a study—

"(1) to assess the feasibility and desirability of furnishing hospice care to terminally ill Indians; and

"(2) to determine the most efficient and effective means of furnishing such care.

"(b) Such study shall—

"(1) assess the impact of Indian culture and beliefs concerning death and dying on the provision of hospice care to Indians;

"(2) estimate the number of Indians for whom hospice care may be appropriate and determine the geographic distribution of such individuals;

"(3) determine the most appropriate means to facilitate the participation of Indian tribes and tribal organizations in providing hospice care;

"(4) identify and evaluate various means for providing hospice care, including—

"(A) the provision of such care by the personnel of a Service hospital pursuant to a hospice program established by the Secretary at such hospital; and

"(B) the provision of such care by a community-based hospice program under contract to the Service; and

"(5) identify and assess any difficulties in furnishing such care and the actions needed to resolve such difficulties.

"(c) Not later than the date which is 12 months after the date of the enactment of this section, the Secretary shall transmit to the Congress a report containing—

"(1) a detailed description of the study conducted pursuant to this section; and

"(2) a discussion of the findings and conclusions of such study.

"(d) For the purposes of this section—

"(1) the term 'terminally ill' means any Indian who has a medical prognosis (as certified by a physician) of a life expectancy of six months or less; and

"(2) the term 'hospice program' means any program which satisfies the requirements of section 1861(dd)(2) of the Social Security Act (42 U.S.C. 1395x(dd)(2)); and

"(3) the term 'hospice care' means the items and services specified in subparagraphs (A) through (H) of section 1861(dd)(1) of the Social Security Act (42 U.S.C. 1395x(dd)(1)).".

(b) MANAGED CARE.—Title II of the Act is amended by adding at the end the following new section:

"MANAGED CARE FEASIBILITY STUDY

"SEC. 210. (a) The Secretary, acting through the Service, shall conduct a study to assess the feasibility of allowing an Indian tribe to purchase, directly or through the Service, managed care coverage for all members of the tribe from—

"(1) a tribally owned and operated managed care plan; or

"(2) a State licensed managed care plan.

"(b) Not later than the date which is 12 months after the date of the enactment of this section, the Secretary shall transmit to the Congress a report containing—

"(1) a detailed description of the study conducted pursuant to this section; and

"(2) a discussion of the findings and conclusions of such study.".

(c) CONTRACT CARE.—Title II of the Act (as amended by subsection (b) of this Act) is amended by adding at the end the following new section:

"CALIFORNIA CONTRACT HEALTH SERVICES DEMONSTRATION PROGRAM

"SEC. 211. (a) The Secretary shall establish a demonstration program to evaluate the use of a contract care intermediary to improve the accessibility of health services to California Indians.

"(b)(1) In establishing such program, the Secretary shall enter into an agreement with the California Rural Indian Health Board to reimburse the Board for costs (including reasonable administrative costs) incurred, during the period of the demonstration program, in providing medical treatment under contract to California Indians described in section 809(b) throughout the California contract health services delivery area described in section 810 with respect to high-cost contract care cases.

"(2) Not more than 5 percent of the amounts provided to the Board under this section for any fiscal year may be for reimbursement for administrative expenses incurred by the Board during such fiscal year.

"(3) No payment may be made for treatment provided under the demonstration program to the extent payment may be made for such treatment under the Catastrophic Health Emergency Fund described in section 202 or from amounts appropriated or otherwise made available to the California contract health service delivery area for a fiscal year.

"(c) There is hereby established an advisory board which shall advise the California Rural Indian Health Board in carrying out the demonstration pursuant to this section. The advisory board shall be composed of representatives, selected by the California Rural Indian Health Board, from not less than 8 tribal health programs serving California Indians covered under such demonstration, at least one half of whom are not affiliated with the California Rural Indian Health Board.

"(d) The demonstration program described in this section shall begin on January 1, 1993, and shall terminate on September 30, 1997.

"(e) Not later than July 1, 1998, the California Rural Indian Health Board shall submit to the Secretary a report on the demonstration program carried out under this section, including a statement of its findings regarding the impact of using a contract care intermediary on—

"(1) access to needed health services;

"(2) waiting periods for receiving such services; and

"(3) the efficient management of high-cost contract care cases.

"(f) For the purposes of this section, the term 'high-cost contract care cases' means those cases in which the cost of the medical treatment provided to an individual—

"(1) would otherwise be eligible for reimbursement from the Catastrophic Health

Emergency Fund established under section 202, except that the cost of such treatment does not meet the threshold cost requirement established pursuant to section 202(b)(2); and

"(2) exceeds $1,000.

"(g) There are authorized to be appropriated for each of the fiscal years 1993, 1994, 1995, 1996, and 1997 such sums as may be necessary to carry out the purposes of this section.".

SEC. 207. COVERAGE OF SCREENING MAMMOGRAPHY.

(a) IN GENERAL.—Title II of the Act (as amended by section 206(c) of this Act) is amended by adding at the end the following new section:

"COVERAGE OF SCREENING MAMMOGRAPHY

"SEC. 212. The Secretary, through the Service, shall provide for screening mammography (as defined in section 1861(jj) of the Social Security Act) for Indian and urban Indian women 35 years of age or older at a frequency, determined by the Secretary (in consultation with the Director of the National Cancer Institute), appropriate to such women, and under such terms and conditions as are consistent with standards established by the Secretary to assure the safety and accuracy of screening mammography under part B of title XVIII of the Social Security Act.".

(b) CONFORMING AMENDMENT.—Section 201(a)(4)(B) of the Act (25 U.S.C. 1621(a)(4)(B)) is amended by striking the semicolon at the end and inserting the following: ", including screening mammography in accordance with section 212;".

SEC. 208. PATIENT TRAVEL COSTS.

Title II of the Act (as amended by section 207 of this Act) is amended by adding at the end the following new section:

"PATIENT TRAVEL COSTS

"SEC. 213. (a) The Secretary, acting through the Service, shall provide funds for the following patient travel costs associated with receiving health care services provided (either through direct or contract care or through contracts entered into pursuant to the Indian Self-Determination Act) under this Act—

"(1) emergency air transportation; and

"(2) nonemergency air transportation where ground transportation is infeasible.

"(b) There are authorized to be appropriated to carry out this section $15,000,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.".

SEC. 209. THIRD PARTY REIMBURSEMENT.

(a) RECOVERY BY INDIAN TRIBE.—Section 206 of the Act (25 U.S.C. 1621e) is amended—

(1) by inserting ", an Indian tribe, or a tribal organization" after "United States" each place it appears;

(2) in subsection (a), by inserting ", an Indian tribe, or a tribal organization" after "Service";

(3) in subsection (a) and subsection (e)(1)(A), by inserting ", an Indian tribe, or a tribal organization" after "Secretary" each place it appears; and

(4) in subsection (b), by striking ", or any political subdivision of a State,".

(b) SPECIAL RULE WITH RESPECT TO SELF-INSURANCE PLAN.—Section 206 of the Act (25 U.S.C. 1621e) is amended—

(1) by striking "(a) The" and inserting the following: "(a) Except as provided in subsection (f), the"; and

(2) by adding at the end the following new subsection:

"(f) The United States shall not have a right of recovery under this section if the injury, illness, or disability for which health services were provided is covered under a self-insurance plan funded by an Indian tribe or tribal organization.".

SEC. 210. EPIDEMIOLOGY CENTERS.

Title II of the Act (as amended by section 208 of this Act) is amended by adding at the end the following new section:

"EPIDEMIOLOGY CENTERS

"SEC. 214. (a)(1) The Secretary shall establish an epidemiology center in each Service area to carry out the functions described in paragraph (3).

"(2) To assist such centers in carrying out such functions, the Secretary shall perform the following:

"(A) In consultation with the Centers for Disease Control and Indian tribes, develop sets of data (which to the extent practicable, shall be consistent with the uniform data sets used by the States with respect to the year 2000 health objectives) for uniformly defining health status for purposes of the objectives specified in section 3(b). Such sets shall consist of one or more categories of information. The Secretary shall develop formats for the uniform collecting and reporting of information on such categories.

"(B) Establish and maintain a system for monitoring the progress made toward meeting each of the health status objectives described in section 3(b).

"(3) In consultation with Indian tribes and urban Indian communities, each area epidemiology center established under this subsection shall, with respect to such area—

"(A) collect data relating to, and monitor progress made toward meeting, each of the health status objectives described in section 3(b) using the data sets and monitoring system developed by the Secretary pursuant to paragraph (2);

"(B) evaluate existing delivery systems, data systems, and other systems that impact the improvement of Indian health;

"(C) assist tribes and urban Indian communities in identifying their highest priority health status objectives and the services needed to achieve such objectives, based on epidemiological data;

"(D) make recommendations for the targeting of services needed by tribal, urban, and other Indian communities;

"(E) make recommendations to improve health care delivery systems for Indians and urban Indians;

"(F) work cooperatively with tribal providers of health and social services in order to avoid duplication of existing services; and

"(G) provide technical assistance to Indian tribes and urban Indian organizations in the development of local health service priorities and incidence and prevalence rates of disease and other illness in the community.

"(4) Epidemiology centers established under this subsection shall be subject to the provisions of the Indian Self-Determination Act (25 U.S.C. 450f et seq.).

"(5) The director of the Centers for Disease Control shall provide technical assistance to the centers in carrying out the requirements of this subsection.

"(6) The Service shall assign one epidemiologist from each of its area offices to each area epidemiology center to provide such center with technical assistance necessary to carry out this subsection.

"(b)(1) The Secretary may make grants to Indian tribes, tribal organizations, and eligible intertribal consortia or Indian organizations to conduct epidemiological studies of Indian communities.

"(2) An intertribal consortia or Indian organization is eligible to receive a grant under this subsection if—

"(A) it is incorporated for the primary purpose of improving Indian health; and

"(B) it is representative of the tribes or urban Indian communities in which it is located.

"(3) An application for a grant under this subsection shall be submitted in such manner and at such time as the Secretary shall prescribe.

"(4) Applicants for grants under this subsection shall—

"(A) demonstrate the technical, administrative, and financial expertise necessary to carry out the functions described in paragraph (5);

"(B) consult and cooperate with providers of related health and social services in order to avoid duplication of existing services; and

"(C) demonstrate cooperation from Indian tribes or urban Indian organizations in the area to be served.

"(5) A grant awarded under paragraph (1) may be used to—

"(A) carry out the functions described in subsection (a)(3);

"(B) provide information to and consult with tribal leaders, urban Indian community leaders, and related health staff, on health care and health services management issues; and

"(C) provide, in collaboration with tribes and urban Indian communities, the Service with information regarding ways to improve the health status of Indian people.

"(6) There are authorized to be appropriated to carry out the purposes of this subsection not more than $12,000,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.".

SEC. 211. COMPREHENSIVE SCHOOL HEALTH EDUCATION PROGRAMS.

Title II of the Act (as amended by section 210 of this Act) is amended by adding at the end the following new section:

"COMPREHENSIVE SCHOOL HEALTH EDUCATION PROGRAMS

"SEC. 215. (a) The Secretary, acting through the Service and in consultation with the Secretary of the Interior, may award grants to Indian tribes to develop comprehensive school health education programs for children from preschool through grade 12 in schools located on Indian reservations.

"(b) Grants awarded under this section may be used to—

"(1) develop health education curricula;

"(2) train teachers in comprehensive school health education curricula;

"(3) integrate school-based, community-based, and other public and private health promotion efforts;

"(4) encourage healthy, tobacco-free school environments;

"(5) coordinate school-based health programs with existing services and programs available in the community;

"(6) develop school programs on nutrition education, personal health, and fitness;

"(7) develop mental health wellness programs;

"(8) develop chronic disease prevention programs;

"(9) develop substance abuse prevention programs;

"(10) develop accident prevention and safety education programs;

"(11) develop activities for the prevention and control of communicable diseases; and

"(12) develop community and environmental health education programs.

"(c) The Secretary shall provide technical assistance to Indian tribes in the development of health education plans, and the dissemination of health education materials and information on existing health programs and resources.

"(d) The Secretary shall establish criteria for the review and approval of applications for grants made pursuant to this section.

"(e) Recipients of grants under this section shall submit to the Secretary an annual report on activities undertaken with funds provided under this section. Such reports shall include a statement of—

"(1) the number of preschools, elementary schools, and secondary schools served;

"(2) the number of students served;

"(3) any new curricula established with funds provided under this section;

"(4) the number of teachers trained in the health curricula; and

"(5) the involvement of parents, members of the community, and community health workers in programs established with funds provided under this section.

"(f)(1) The Secretary of the Interior, acting through the Bureau of Indian Affairs and in cooperation with the Secretary, shall develop a comprehensive school health education program for children from preschool through grade 12 in schools operated by the Bureau of Indian Affairs.

"(2) Such program shall include—

"(A) school programs on nutrition education, personal health, and fitness;

"(B) mental health wellness programs;

"(C) chronic disease prevention programs;

"(D) substance abuse prevention programs;

"(E) accident prevention and safety education programs; and

"(F) activities for the prevention and control of communicable diseases.

"(3) The Secretary of the Interior shall—

"(A) provide training to teachers in comprehensive school health education curricula;

"(B) ensure the integration and coordination of school-based programs with existing services and health programs available in the community; and

"(C) encourage healthy, tobacco-free school environments.

"(g) There are authorized to be appropriated to carry out this section $15,000,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.".

SEC. 212. INDIAN YOUTH GRANT PROGRAM.

Title II of the Act (as amended by section 211 of this Act) is amended by adding at the end the following new section:

"INDIAN YOUTH GRANT PROGRAM

"SEC. 216. (a) The Secretary, acting through the Service, is authorized to make grants to Indian tribes, tribal organizations, and urban Indian organizations for innovative mental and physical disease prevention and health promotion and treatment programs for Indian preadolescent and adolescent youths.

"(b)(1) Funds made available under this section may be used to—

"(A) develop prevention and treatment programs for Indian youth which promote mental and physical health and incorporate cultural values, community and family involvement, and traditional healers; and

"(B) develop and provide community training and education.

"(2) Funds made available under this section may not be used to provide services described in section 209(m).

"(c) The Secretary shall—

"(1) disseminate to Indian tribes information regarding models for the delivery of comprehensive health care services to Indian and urban Indian adolescents;

"(2) encourage the implementation of such models; and

"(3) at the request of an Indian tribe, provide technical assistance in the implementation of such models.

"(d) The Secretary shall establish criteria for the review and approval of applications under this section.

"(e) There are authorized to be appropriated to carry out this section $5,000,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.".

SEC. 213. AMERICAN INDIANS INTO PSYCHOLOGY PROGRAM.

Title II of the Act (as amended by section 212 of this Act) is amended by adding at the end the following new section:

"AMERICAN INDIANS INTO PSYCHOLOGY PROGRAM

"SEC. 217. (a) The Secretary may provide grants to at least 3 colleges and universities for the purpose of developing and maintaining American Indian psychology career recruitment programs as a means of encouraging Indians to enter the mental health field.

"(b) The Secretary shall provide one of the grants authorized under subsection (a) to develop and maintain a program at the University of North Dakota to be known as the 'Quentin N. Burdick American Indians Into Psychology Program'. Such program shall, to the maximum extent feasible, coordinate with the Quentin N. Burdick Indian Health Programs authorized under section 114(b), the Quentin N. Burdick American Indians Into Nursing Program authorized under section 112(e), and existing university research and communications networks.

"(c)(1) The Secretary shall issue regulations for the competitive awarding of the grants provided under this section.

"(2) Applicants for grants under this section shall agree to provide a program which, at a minimum—

"(A) provides outreach and recruitment for health professions to Indian communities including elementary, secondary and community colleges located on Indian reservations that will be served by the program;

"(B) incorporates a program advisory board comprised of representatives from the tribes and communities that will be served by the program;

"(C) provides summer enrichment programs to expose Indian students to the varied fields of psychology through research, clinical, and experiential activities;

"(D) provides stipends to undergraduate and graduate students to pursue a career in psychology;

"(E) develops affiliation agreements with tribal community colleges, the Service, university affiliated programs, and other appropriate entities to enhance the education of Indian students;

"(F) to the maximum extent feasible, utilizes existing university tutoring, counseling and student support services; and

"(G) to the maximum extent feasible, employs qualified Indians in the program.

"(d) The active duty service obligation prescribed under section 338C of the Public Health Service Act (42 U.S.C. 254m) shall be met by each graduate student who receives a stipend described in subsection (c)(2)(D) that is funded by a grant provided under this section. Such obligation shall be met by service—

"(1) in the Indian Health Service;

"(2) in a program conducted under a contract entered into under the Indian Self-Determination Act;

"(3) in a program assisted under title V of this Act; or

"(4) in the private practice of psychology if, as determined by the Secretary, in accordance with guidelines promulgated by the Secretary, such practice is situated in a physician or other health professional shortage area and addresses the health care needs of a substantial number of Indians.".

SEC. 214. PREVENTION, CONTROL, AND ELIMINATION OF TUBERCULOSIS.

Title II of the Act (as amended by section 213 of this Act) is amended by adding at the end the following new section:

"PREVENTION, CONTROL, AND ELIMINATION OF TUBERCULOSIS

"SEC. 218. (a) The Secretary, acting through the Service after consultation with the Centers for Disease Control, may make grants to Indian tribes and tribal organizations for—

"(1) projects for the prevention, control, and elimination of tuberculosis;

"(2) public information and education programs for the prevention, control, and elimination of tuberculosis; and

"(3) education, training, and clinical skills improvement activities in the prevention, control, and elimination of tuberculosis for health professionals, including allied health professionals.

"(b) The Secretary may make a grant under subsection (a) only if an application for the grant is submitted to the Secretary and the application is in such form, is made in such manner, and contains the assurances required by subsection (c) and such other agreements, assurances, and information as the Secretary may require.

"(c) To be eligible for a grant under subsection (a), an applicant must provide assurances satisfactory to the Secretary that—

"(1) the applicant will coordinate its activities for the prevention, control, and elimination of tuberculosis with activities of the Centers for Disease Control, and State and local health agencies; and

"(2) the applicant will submit to the Secretary an annual report on its activities for the prevention, control, and elimination of tuberculosis.

"(d) In carrying out this section, the Secretary—

"(1) shall establish criteria for the review and approval of applications for grants under subsection (a), including requirement of public health qualifications of applicants;

"(2) shall, subject to available appropriations, make at least one grant under subsection (a) within each area office;

"(3) may, at the request of an Indian tribe or tribal organization, provide technical assistance; and

"(4) shall prepare and submit a report to the Committee on Energy and Commerce and the Committee on Interior and Insular Affairs of the House and the Select Committee on Indian Affairs of the Senate not later than February 1, 1994, and biennially thereafter, on the use of funds under this section and on the progress made toward the prevention, control, and elimination of tuberculosis among Indian tribes and tribal organizations.

"(e) The Secretary may, at the request of a recipient of a grant under subsection (a), reduce the amount of such grant by—

"(1) the fair market value of any supplies or equipment furnished the grant recipient; and

"(2) the amount of the pay, allowances, and travel expenses of any officer or employee of the Government when detailed to the grant recipient and the amount of any other costs incurred in connection with the detail of such officer or employee.

when the furnishing of such supplies or equipment or the detail of such an officer or employee is for the convenience of and at the request of such grant recipient and for the purpose of carrying out a program with respect to which the grant under subsection (a) is made. The amount by which any such grant is so reduced shall be available for payment by the Secretary of the costs incurred in furnishing the supplies or equipment, or in detailing the personnel, on which the reduction of such grant is based, and such amount shall be deemed as part of the grant and shall be deemed to have been paid to the grant recipient.".

SEC. 215. CONTRACT HEALTH SERVICES.

Title II of the Act (as amended by section 214 of this Act) is amended by adding at the end the following new sections:

"CONTRACT HEALTH SERVICES PAYMENT STUDY

"SEC. 219. (a) The Secretary, acting through the Service and in consultation with representatives of Indian tribes and tribal organizations operating contract health care programs under the Indian Self-Determination Act (25 U.S.C. 450f et seq.) or under self-governance compacts, Service personnel, private contract health services providers, the Indian Health Service Fiscal Intermediary, and other appropriate experts, shall conduct a study—

"(1) to assess and identify administrative barriers that hinder the timely payment for services delivered by private contract health services providers to individual Indians by the Service and the Indian Health Service Fiscal Intermediary;

"(2) to assess and identify the impact of such delayed payments upon the personal credit histories of individual Indians who have been treated by such providers; and

"(3) to determine the most efficient and effective means of improving the Service's contract health services payment system and ensuring the development of appropriate consumer protection policies to protect individual Indians who receive authorized services from private contract health services providers from billing and collection practices, including the development of materials and programs explaining patients' rights and responsibilities.

"(b) The study required by subsection (a) shall—

"(1) assess the impact of the existing contract health services regulations and policies upon the ability of the Service and the Indian Health Service Fiscal Intermediary to process, on a timely and efficient basis, the payment of bills submitted by private contract health services providers;

"(2) assess the financial and any other burdens imposed upon individual Indians and private contract health services providers by delayed payments;

"(3) survey the policies and practices of collection agencies used by contract health services providers to collect payments for services rendered to individual Indians;

"(4) identify appropriate changes in Federal policies, administrative procedures, and regulations, to eliminate the problems experienced by private contract health services providers and individual Indians as a result of delayed payments; and

"(5) compare the Service's payment processing requirements with private insurance claims processing requirements to evaluate the systemic differences or similarities employed by the Service and private insurers.

"(c) Not later than 12 months after the date of the enactment of this section, the Secretary shall transmit to the Congress a report that includes—

"(1) a detailed description of the study conducted pursuant to this section; and

"(2) a discussion of the findings and conclusions of such study.

"PROMPT ACTION ON PAYMENT OF CLAIMS

"SEC. 220. (a) The Service shall respond to a notification of a claim by a provider of a contract care service with either an individual purchase order or a denial of the claim within 5 working days after the receipt of such notification.

"(b) If the Service fails to respond to a notification of a claim in accordance with subsection (a), the Service shall accept as valid the claim submitted by the provider of a contract care service.

"(c) The Service shall pay a completed contract care service claim within 30 days after completion of the claim.

"DEMONSTRATION OF ELECTRONIC CLAIMS PROCESSING

"SEC. 221. (a) Not later than June 15, 1993, the Secretary shall develop and implement, directly or by contract, 2 projects to demonstrate in a pilot setting the use of claims processing technology to improve the accuracy and timeliness of the billing for, and payment of, contract health services.

"(b) The Secretary shall conduct one of the projects authorized in subsection (a) in the Service area served by the area office located in Phoenix, Arizona.

"LIABILITY FOR PAYMENT

"SEC. 222. (a) A patient who receives contract health care services that are authorized by the Service shall not be liable for the payment of any charges or costs associated with the provision of such services.

"(b) The Secretary shall notify a contract care provider and any patient who receives contract health care services authorized by the Service that such patient is not liable for the payment of any charges or costs associated with the provision of such services.".

SEC. 216. OFFICE OF INDIAN WOMEN'S HEALTH CARE.

Title II of the Act (as amended by section 215 of this Act) is amended by adding at the end the following new section:

"OFFICE OF INDIAN WOMEN'S HEALTH CARE

"SEC. 223. There is established within the Service an Office of Indian Women's Health Care to oversee efforts of the Service to monitor and improve the quality of health care for Indian women of all ages through the planning and delivery of programs administered by the Service, in order to improve and enhance the treatment models of care for Indian women.".

SEC. 217. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION.—Title II of the Act (as amended by section 216 of this Act) is amended by adding at the end the following new section:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 224. Except as provided in sections 209(m), 211, 213, 214(b)(5), 215, and 216, there are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2000 to carry out this title.".

(b) CONFORMING AMENDMENTS.—Title II of the Act is amended—

(1) in section 201(h), by striking out the first sentence and striking out "subsection" and inserting in lieu thereof "section".

(2) in section 202, by striking out subsection (e);

(3) in section 204(e), by striking out the first sentence and striking out "subsection (c)" and inserting in lieu thereof "this section"; and

(4) in section 209 (as amended by section 902(3)(B) of this Act)—

(A) by striking out subsections (c)(5), (d)(6), (f)(4), and (g)(5);

(B) in subsection (h)—

(i) by striking out paragraph (2) and by striking out "(1)";

(ii) by redesignating subparagraphs (A) and (B) as paragraphs (1) and (2), respectively;

(iii) by striking out "subparagraph (A)" and inserting "paragraph (1)"; and

(iv) by striking out "subparagraph (B)" and inserting "paragraph (2)";

(C) in subsection (i), by striking out paragraph (2) and by striking out "(1)";

(D) in subsection (d)(3)(B), by striking out "this subsection" and inserting in lieu thereof "this section"; and

(E) in subsection (k)(6), by striking out the first sentence and in the second sentence by striking out "subsection" and inserting in lieu thereof "section".

TITLE III—HEALTH FACILITIES

SEC. 301. HEALTH FACILITIES CLOSURE AND PRIORITIES.

Section 301 of the Act (25 U.S.C. 1631) is amended—

(1) in subsection (a)(2), by striking out "Hospitals" and inserting "Health Care Organizations";

(2) in subsection (b)(1)—

(A) in the material preceding subparagraph (A), by striking out "other" before "outpatient";

(B) by striking out "and" at the end of subparagraph (D);

(C) by striking out the period at the end of subparagraph (E) and inserting in lieu thereof a semicolon; and

(D) by adding at the end the following new subparagraphs:

"(F) the level of utilization of such hospital or facility by all eligible Indians; and

"(G) the distance between such hospital or facility and the nearest operating Service hospital.";

(3) by striking out subsection (c) and redesignating subsections (d) and (e) as subsections (c) and (d), respectively;

(4) in subsection (c)(1) (as redesignated by paragraph (2) of this subsection), by amending the material preceding subparagraph (A) to read as follows:

"(c)(1) The Secretary shall submit to the President, for inclusion in each report required to be transmitted to the Congress under section 801, a report which sets forth—"; and

(5) by striking out paragraph (2) of subsection (c) (as redesignated by paragraph (2)) and redesignating paragraphs (3), (4), and (5) of such subsection as paragraphs (2), (3), and (4), respectively.

SEC. 302. SAFE WATER AND SANITARY WASTE DISPOSAL FACILITIES.

Section 302 of the Act (25 U.S.C. 1632) is amended—

(1) by amending subsection (e) to read as follows:

"(e)(1) The Secretary is authorized to provide financial assistance to Indian tribes and communities in an amount equal to the Federal share of the costs of operating, managing, and maintaining the facilities provided under the plan described in subsection (c).

"(2) For the purposes of paragraph (1), the term 'Federal share' means 80 percent of the costs described in paragraph (1).

"(3) With respect to Indian tribes with fewer than 1,000 enrolled members, the non-Federal portion of the costs of operating, managing, and maintaining such facilities may be provided, in part, through cash donations or in kind property, fairly evaluated.";

(2) in subsection (f)(1), by striking out "subsection (h)" and inserting in lieu thereof "this section"; and

(3) in subsection (g)—

(A) in paragraph (1), by striking out "The Secretary" through "report" and inserting in lieu thereof the following: "The Secretary shall submit to the President, for inclusion in each report required to be transmitted to the Congress under section 801, a report"; and

(B) by striking out paragraph (2) and redesignating paragraphs (3), (4), (5), and (6) as paragraphs (2), (3), (4), and (5), respectively.

SEC. 303. AMBULATORY CARE FACILITIES GRANT PROGRAM.

Section 306 of the Act (25 U.S.C. 1636) is amended to read as follows:

"GRANT PROGRAM FOR THE CONSTRUCTION, EXPANSION, AND MODERNIZATION OF SMALL AMBULATORY CARE FACILITIES

"SEC. 306. (a)(1) The Secretary, acting through the Service, shall make grants to tribes and tribal organizations for the construction, expansion, or modernization of facilities for the provision of ambulatory care services to eligible Indians (and noneligible persons as provided in subsection (c)(1)(C)). A grant made under this section may cover up to 100 percent of the costs of such construction, expansion, or modernization. For the purposes of this section, the term 'construction' includes the replacement of an existing facility.

"(2) A grant under paragraph (1) may only be made to a tribe or tribal organization operating an Indian health facility (other than a facility owned or constructed by the Service, including a facility originally owned or constructed by the Service and transferred to a tribe or tribal organization) pursuant to a contract entered into under the Indian Self-Determination Act.

"(b)(1) A grant provided under this section may be used only for the construction, expansion, or modernization (including the planning and design of such construction, expansion, or modernization) of an ambulatory care facility—

"(A) located apart from a hospital;

"(B) not funded under section 301 or section 307; and

"(C) which, upon completion of such construction, expansion, or modernization will—

"(i) have a total capacity appropriate to its projected service population;

"(ii) serve no less than 500 eligible Indians annually; and

"(iii) provide ambulatory care in a service area (specified in the contract entered into under the Indian Self-Determination Act) with a population of not less than 2,000 eligible Indians.

"(2) The requirements of clauses (ii) and (iii) of paragraph (1)(C) shall not apply to a tribe or tribal organization applying for a grant under this section whose tribal government offices are located on an island.

"(c)(1) No grant may be made under this section unless an application for such a grant has been submitted to and approved by the Secretary. An application for a grant under this section shall be submitted in such form and manner as the Secretary shall by regulation prescribe and shall set forth reasonable assurance by the applicant that, at all times after the construction, expansion, or modernization of a facility carried out pursuant to a grant received under this section—

"(A) adequate financial support will be available for the provision of services at such facility;

"(B) such facility will be available to eligible Indians without regard to ability to pay or source of payment; and

"(C) such facility will, as feasible without diminishing the quality or quantity of services provided to eligible Indians, serve noneligible persons on a cost basis.

"(2) In awarding grants under this section, the Secretary shall give priority to tribes and tribal organizations that demonstrate—

"(A) a need for increased ambulatory care services; and

"(B) insufficient capacity to deliver such services.

"(d) If any facility (or portion thereof) with respect to which funds have been paid under this section, ceases, at any time after completion of the construction, expansion, or modernization carried out with such funds, to be utilized for the purposes of providing ambulatory care services to eligible Indians, all of the right, title, and interest in and to such facility (or portion thereof) shall transfer to the United States.".

SEC. 304. INDIAN HEALTH CARE DELIVERY DEMONSTRATION PROJECT.

(a) AWARDING OF GRANTS.—Section 307(c) of the Act (25 U.S.C. 1637(c)(3)) is amended—

(1) in paragraph (1)(A), by inserting "or program" immediately after "facility" each place it appears;

(2) in paragraph (3)(A)—

(A) by striking "The" and inserting "On or before September 30, 1995, the"; and

(B) by adding before the colon the following: "and for which a completed application has been received by the Secretary"; and

(3) by striking subparagraph (B) and inserting the following:

"(B) The Secretary may also enter into contracts or award grants under this section taking into consideration applications received under this section from all service areas. The Secretary may not award a greater number of such contracts or grants in one service area than in any other service area until there is an equal number of such contracts or grants awarded with respect to all service areas from which the Secretary receives applications during the application period (as determined by the Secretary) which meet the criteria specified in paragraph (1).".

(b) REPORTS.—Section 307(h) of the Act (25 U.S.C. 1637(h)) is amended to read as follows:

"(h)(1) The Secretary shall submit to the President, for inclusion in the report which is required to be submitted to the Congress under section 801 for fiscal year 1997, an interim report on the findings and conclusions derived from the demonstration projects established under this section.

"(2) The Secretary shall submit to the President, for inclusion in the report which is required to be submitted to the Congress under section 801 for fiscal year 1999, a final report on the findings and conclusions derived from the demonstration projects established under this section, together with legislative recommendations.".

SEC. 305. EXPENDITURE OF NONSERVICE FUNDS FOR RENOVATION.

Section 305 of the Act (25 U.S.C. 1634) is amended to read as follows:

"EXPENDITURE OF NONSERVICE FUNDS FOR RENOVATION

"SEC. 305. (a)(1) Notwithstanding any other provision of law, the Secretary is authorized to accept any major renovation or modernization by any Indian tribe of any Service facility, or of any other Indian health facility operated pursuant to a contract entered into under the Indian Self-Determination Act, including—

"(A) any plans or designs for such renovation or modernization; and

"(B) any renovation or modernization for which funds appropriated under any Federal law were lawfully expended,

but only if the requirements of subsection (b) are met.

"(2) The Secretary shall maintain a separate priority list to address the needs of such facilities for personnel or equipment.

"(3) The Secretary shall submit to the President, for inclusion in each report required to be transmitted to the Congress under section 801, the priority list maintained pursuant to paragraph (2).

"(b) The requirements of this subsection are met with respect to any renovation or modernization if—

"(1) the tribe or tribal organization—

"(A) provides notice to the Secretary of its intent to renovate or modernize; and

"(B) applies to the Secretary to be placed on a separate priority list to address the needs of such new facilities for personnel or equipment; and

"(2) the renovation or modernization—

"(A) is approved by the appropriate area director of the Service; and

"(B) is administered by the tribe in accordance with the rules and regulations prescribed by the Secretary with respect to construction or renovation of Service facilities.

"(c) If any Service facility which has been renovated or modernized by an Indian tribe under this section ceases to be used as a Service facility during the 20-year period beginning on the date such renovation or modernization is completed, such Indian tribe shall be entitled to recover from the United States an amount which bears the same ratio to the value of such facility at the time of such cessation as the value of such renovation or modernization (less the total amount of any funds provided specifically for such facility under any Federal program that were expended for such renovation or modernization) bore to the value of such facility at the time of the completion of such renovation or modernization.".

SEC. 306. LAND TRANSFER.

Title III of the Act is amended by adding at the end the following new section:

"LAND TRANSFER

"SEC. 308. The Bureau of Indian Affairs is authorized to transfer, at no cost, up to 5 acres of land at the Chemawa Indian School, Salem, Oregon, to the Service for the provision of health care services. The land authorized to be transferred by this section is that land adjacent to land under the jurisdiction of the Service and occupied by the Chemawa Indian Health Center.".

SEC. 307. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION.—Title III of the Act (as amended by section 306 of this Act) is amended by adding at the end the following new section:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 309. There are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2000 to carry out this title.".

(b) CONFORMING AMENDMENTS.—Title III of the Act is amended—

(1) in section 302, by striking out subsection (h); and

(2) in section 307, by striking out subsection (i).

SEC. 308. BUY AMERICAN REQUIREMENT.

Title III of the Act (as amended by section 307 of this Act) is amended by adding at the end the following new section:

"APPLICABILITY OF BUY AMERICAN REQUIREMENT

"SEC. 310. (a) The Secretary shall ensure that the requirements of the Buy American Act apply to all procurements made with funds provided pursuant to the authorization contained in section 309.

"(b) The Secretary shall submit to the Congress a report on the amount of procurements from foreign entities made in fiscal years 1993 and 1994 with funds provided pursuant to the authorization contained in section 309. Such report shall separately indicate the dollar value of items procured with such funds for which the Buy American Act was waived pursuant to the Trade Agreement Act of 1979 or any international agreement to which the United States is a party.

"(c) If it has been finally determined by a court or Federal agency that any person intentionally affixed a label bearing a 'Made in America' inscription, or any inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, such person shall be ineligible to receive any contract or subcontract made with funds provided pursuant to the authorization contained in section 309, pursuant to the debarment, suspension, and ineligibility procedures described in sections 9.400 through 9.409 of title 48, Code of Federal Regulations.

"(d) For purposes of this section, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).".

TITLE IV—ACCESS TO HEALTH SERVICES

SECTION 401. TREATMENT OF PAYMENTS TO INDIAN HEALTH SERVICE FACILITIES UNDER MEDICARE AND MEDICAID PROGRAMS.

(a) MEDICARE PROGRAM.—Section 401 of the Act (42 U.S.C. 1395qq note) is amended to read as follows:

"TREATMENT OF PAYMENTS UNDER MEDICARE PROGRAM

"SEC. 401. (a) Any payments received by a hospital or skilled nursing facility of the Service (whether operated by the Service or by an Indian tribe or tribal organization pursuant to a contract under the Indian Self-Determination Act) for services provided to Indians eligible for benefits under title XVIII of the Social Security Act shall not be considered in determining appropriations for health care and services to Indians.

"(b) Nothing in this Act authorizes the Secretary to provide services to an Indian beneficiary with coverage under title XVIII of the Social Security Act, as amended, in preference to an Indian beneficiary without such coverage.".

(b) MEDICAID PROGRAM.—(1) Section 402 of the Act is amended to read as follows:

"TREATMENT OF PAYMENTS UNDER MEDICAID PROGRAM

"SEC. 402. (a) Notwithstanding any other provision of law, payments to which any facility of the Service (including a hospital, nursing facility, intermediate care facility for the mentally retarded, or any other type of facility which provides services for which payment is available under title XIX of the Social Security Act) is entitled under a State plan by reason of section 1911 of such Act shall be placed in a special fund to be held by the Secretary and used by him (to such extent or in such amounts as are provided in appropriation Acts) exclusively for the purpose of making any improvements in the facilities of such Service which may be necessary to achieve compliance with the applicable conditions and requirements of such title. In making payments from such fund, the Secretary shall ensure that each service unit of the Service receives at least 80 percent of the amounts to which the facilities of the Service, for which such service unit makes collections, are entitled by reason of section 1911 of the Social Security Act.

"(b) Any payments received by such facility for services provided to Indians eligible for benefits under title XIX of the Social Security Act shall not be considered in determining appropriations for the provision of health care and services to Indians.".

(2) The increase (from 50 percent) in the percentage of the payments from the fund to be made to each service unit of the Service specified in the amendment made by paragraph (1) shall take effect beginning with payments made on January 1, 1993.

SEC. 402. REPORT.

Section 403 of the Act (25 U.S.C. 1671 note) is amended by striking out "The Secretary" and all that follows through "section 701" and inserting in lieu thereof the following: "The Secretary shall submit to the President, for inclusion in the report required to be transmitted to the Congress under section 801,".

SEC. 403. APPLICATION ASSISTANCE.

Section 404 of the Act (25 U.S.C. 1622) is amended—

(1) by amending subsection (b)(4) to read as follows:

"(4) develop and implement—

"(A) a schedule of income levels to determine the extent of payments of premiums by such organizations for coverage of needy individuals; and

"(B) methods of improving the participation of Indians in receiving the benefits provided under titles XVIII and XIX of the Social Security Act."; and

(2) by amending subsection (c) to read as follows:

"(c) The Secretary, acting through the Service, may enter into an agreement with an Indian tribe, tribal organization, or urban Indian organization which provides for the receipt and processing of applications for medical assistance under title XIX of the Social Security Act and benefits under title XVIII of the Social Security Act at a Service facility or a health care facility administered by such tribe or organization pursuant to a contract under the Indian Self-Determination Act.".

SEC. 404. EXTENSION OF DEMONSTRATION PROGRAM.

Section 405 of the Act (42 U.S.C. 1395qq note) is amended—

(1) in subsection (c)(2), by striking "1995" and inserting "1996"; and

(2) in subsection (e), by striking "1995" and inserting "1996".

SEC. 405. AUTHORIZATION FOR EMERGENCY CONTRACT HEALTH SERVICES.

Title IV of the Act is amended by adding at the end the following new section:

"AUTHORIZATION FOR EMERGENCY CONTRACT HEALTH SERVICES

"SEC. 406. With respect to an elderly or disabled Indian receiving emergency medical care or services from a non-Service provider or in a non-Service facility under the authority of this Act, the time limitation (as a condition of payment) for notifying the Service of such treatment or admission shall be 30 days.".

SEC. 406. AUTHORIZATION OF APPROPRIATIONS.

Title IV of the Act is amended by adding at the end the following new section:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 407. There are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2000 to carry out this title.".

TITLE V—HEALTH SERVICES FOR URBAN INDIANS

SEC. 501. GRANT AUTHORITY.

(a) IN GENERAL.—Section 502 of the Act (25 U.S.C. 1652) is amended—

(1) by striking "contracts with" and inserting the following: "contracts with, or make grants to,";

(2) by inserting after "enters into with" the following: ", or in any grant the Secretary makes to,"; and

(3) by amending the heading to read as follows:

"CONTRACTS WITH, AND GRANTS TO, URBAN INDIAN ORGANIZATIONS".

(b) CONFORMING AMENDMENTS.—(1) Section 503 of the Act (25 U.S.C. 1653) is amended—

(A) in subsection (a), in the material preceding paragraph (1)—

(i) by inserting ", or make grants to," after "contracts with"; and

(ii) by inserting "or grant" after "such contract";

(B) in subsection (b)—

(i) in the material preceding paragraph (1), by inserting "or receive grants" after "enter into contracts"; and

(ii) in paragraph (5), by inserting "or to meet the requirements for receiving a grant" after "Secretary";

(C) in subsection (c)(1), by inserting before the period at the end the following: "or receiving grants under subsection (a)";

(D) in subsection (d)(1), by inserting before the period at the end the following: "or receiving grants under subsection (a)";

(E) in subsection (e)(1), by inserting before the period at the end the following: "or receiving grants under subsection (a)";

(F) in subsection (f), by inserting "or receiving grants under subsection (a)" after "this section"; and

(G) by amending the heading to read as follows:

"CONTRACTS AND GRANTS FOR THE PROVISION OF HEALTH CARE AND REFERRAL SERVICES".

(2) Section 504 of the Act (25 U.S.C. 1654) is amended—

(A) by striking "SEC. 504." and all that follows through the end of subsection (a) and inserting the following:

"SEC. 504. (a) Under authority of the Act of November 2, 1921 (25 U.S.C. 13), popularly known as the Snyder Act, the Secretary, through the Service, may enter into contracts with, or make grants to, urban Indian organizations situated in urban centers for which contracts have not been entered into, or grants have not been made, under section 503. The purpose of a contract or grant made under this section shall be the determination of the matters described in subsection (b)(1) in order to assist the Secretary in assessing the health status and health care needs of urban Indians in the urban center involved and determining whether the Secretary should enter into a contract or make a grant under section 503 with respect to the urban Indian organization which the Secretary has entered into a contract with, or made a grant to, under this section.";

(B) in subsection (b)—

(i) in the material preceding paragraph (1), by inserting ", or grant made," after "contract entered into"; and

(ii) in paragraph (2), by striking "within one year" and all that follows through the period at the end and inserting the following:

", or carry out the requirements of the grant, within one year after the date on which the Secretary and such organization enter into such contract, or within one year after such organization receives such grant, whichever is applicable.";

(C) in subsection (c), by inserting ", or grant made," after "entered into"; and

(D) by amending the heading to read as follows:

"CONTRACTS AND GRANTS FOR THE DETERMINATION OF UNMET HEALTH CARE NEEDS".

(3) Section 505 of the Act (25 U.S.C. 1655) is amended—

(A) in subsection (a), by inserting "compliance with grant requirements under this title and" before "compliance with,";

(B) in subsection (b)—

(i) by inserting "or received a grant" after "entered into a contract"; and

(ii) by inserting before the period at the end the following: "or the terms of such grant";

(C) in subsection (c)—

(i) by inserting "the requirements of a grant or complied with" after "complied with";

(ii) by inserting "or grant" after "such contract" each place it appears;

(iii) by inserting "or make a grant" after "enter into a contract"; and

(iv) by inserting "or grant" after "whose contract";

(D) in subsection (d), by inserting "or grant" after "a contract" each place it appears; and

(E) by amending the heading to read as follows:

"EVALUATIONS; RENEWALS".

(4) Section 506 of the Act (25 U.S.C. 1656) is amended—

(A) in subsection (b), by inserting "or grants" after "any contracts";

(B) in subsection (d), by inserting "or grant" after "contract" each place it appears;

(C) in subsection (e)—

(i) by inserting ", or grants to," after "Contracts with"; and

(ii) by inserting "or grants" after "such contracts"; and

(D) by amending the heading to read as follows:

"OTHER CONTRACT AND GRANT REQUIREMENTS".

(5) Section 507 of the Act (25 U.S.C. 1657) is amended—

(A) in subsection (a)—

(i) in the material preceding paragraph (1), by inserting ", or a grant received," after "entered into"; and

(ii) in paragraphs (1) and (2), by inserting "or grant" after "contract" each place it appears; and

(B) in subsections (b) and (c), by inserting "or grant" after "contract" each place it appears.

(6) Section 509 of the Act (25 U.S.C. 1659) (as amended by section 902(5)(A) of this Act) is amended by inserting "or grant recipients" after "contractors" each place it appears.

(7) Section 510(a) of the Act (25 U.S.C. 1660(a)) (as amended by section 902(5)(B) of this Act) is amended by inserting before the period at the end the following: "and for providing central oversight of the programs and services authorized under this title".

SEC. 502. ALCOHOL AND SUBSTANCE ABUSE.

Title V of the Act is amended by inserting after section 510 (as redesignated by section 902(5)(B) of this Act) the following new section:

"GRANTS FOR ALCOHOL AND SUBSTANCE ABUSE RELATED SERVICES

"SEC. 511. (a) GRANTS.—The Secretary may make grants for the provision of health-related services in prevention of, treatment of, rehabilitation of, or school and community-based education in, alcohol and substance abuse in urban centers to those urban Indian organizations with whom the Secretary has entered into a contract under this title or under section 201.

"(b) GOALS OF GRANT.—Each grant made pursuant to subsection (a) shall set forth the goals to be accomplished pursuant to the grant. The goals shall be specific to each grant as agreed to between the Secretary and the grantee.

"(c) CRITERIA.—The Secretary shall establish criteria for the grants made under subsection (a), including criteria relating to the—

"(1) size of the urban Indian population;

"(2) accessibility to, and utilization of, other health resources available to such population;

"(3) duplication of existing Service or other Federal grants or contracts;

"(4) capability of the organization to adequately perform the activities required under the grant;

"(5) satisfactory performance standards for the organization in meeting the goals set forth in such grant, which standards shall be negotiated and agreed to between the Secretary and the grantee on a grant-by-grant basis; and

"(6) identification of need for services.

"The Secretary shall develop a methodology for allocating grants made pursuant to this section based on such criteria.

"(d) TREATMENT OF FUNDS RECEIVED BY URBAN INDIAN ORGANIZATIONS.—Any funds received by an urban Indian organization under this Act for substance abuse prevention, treatment, and rehabilitation shall be subject to the criteria set forth in subsection (c).".

SEC. 503. TREATMENT OF DEMONSTRATION PROJECTS.

Title V of the Act (as amended by section 502 of this Act) is amended by adding at the end the following new section:

"TREATMENT OF CERTAIN DEMONSTRATION PROJECTS

"SEC. 512. (a) Notwithstanding any other provision of law, the Oklahoma City Clinic demonstration project and the Tulsa Clinic demonstration project shall be treated as service units in the allocation of resources and coordination of care and shall not be subject to the provisions of the Indian Self-Determination Act for the term of such projects. The Secretary shall provide assistance to such projects in the development of resources and equipment and facility needs.

"(b) The Secretary shall submit to the President, for inclusion in the report required to be submitted to the Congress under section 801 for fiscal year 1999, a report on the findings and conclusions derived from the demonstration projects specified in subsection (a).".

SEC. 504. URBAN NIAAA TRANSFERRED PROGRAMS.

Title V of the Act (as amended by section 503 of this Act) is amended by adding at the end the following new section:

"URBAN NIAAA TRANSFERRED PROGRAMS

"SEC. 513. (a) The Secretary shall, within the Branch of Urban Health Programs of the Service, make grants or enter into contracts for the administration of urban Indian alcohol programs that were originally established under the National Institute on Alcoholism and Alcohol Abuse (hereafter in this section referred to as 'NIAAA') and transferred to the Service.

"(b) Grants provided or contracts entered into under this section shall be used to provide support for the continuation of alcohol prevention and treatment services for urban Indian populations and such other objectives as are agreed upon between the Service and a recipient of a grant or contract under this section.

"(c) Urban Indian organizations that operate Indian alcohol programs originally funded under NIAAA and subsequently transferred to the Service are eligible for grants or contracts under this section.

"(d) For the purpose of carrying out this section, the Secretary may combine NIAAA alcohol funds with other substance abuse funds currently administered through the Branch of Urban Health Programs of the Service.

"(e) The Secretary shall evaluate and report to the Congress on the activities of programs funded under this section at least every two years.".

SEC. 505. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION.—Title V of the Act (as amended by section 504 of this Act) is amended by adding at the end the following new section:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 514. There are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2000 to carry out this title.".

(b) CONFORMING AMENDMENTS.—Title V of the Act (25 U.S.C. 1650 et seq.) is amended—

(1) in section 503—

(A) in subsection (c), by striking out "(c)(1)" and inserting "(c)" and by striking out paragraph (2);

(B) in subsection (d), by striking out paragraph (4);

(C) in subsection (e), by striking out paragraph (4); and

(D) in subsection (f), by striking out paragraph (5); and

(2) in section 509 (as redesignated by section 902(5)(A) of this Act), by striking out the last sentence.

TITLE VI—ORGANIZATIONAL IMPROVEMENTS

SEC. 601. INDIAN HEALTH SERVICE.

Section 601(c) of the Act (15 U.S.C. 1661(c)) is amended—

(1) in paragraph (2), by striking out "and" after the semicolon;

(2) in paragraph (3), by striking out the period at the end and inserting in lieu thereof "; and"; and

(3) by adding at the end the following new paragraph:

"(4) all scholarship and loan functions carried out under title I.".

SEC. 602. DIRECTOR OF INDIAN HEALTH SERVICE.

(a) CONFIRMATION BY SENATE.—

(1) IN GENERAL.—Section 601(a) of the Act (25 U.S.C. 1661(a)) is amended in the second sentence by striking "Secretary" and inserting "President, by and with the advice and consent of the Senate".

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect January 1, 1993.

(b) INTERIM APPOINTMENT.—The President may appoint an individual to serve as Interim Director of the Service from January 1, 1993, until such time as a Director is appointed and confirmed as provided in section 601(a) of the Indian Health Care Improvement Act (25 U.S.C. 1601 et seq.) (as amended by subsection (a) of this section).

(c) TERM.—Section 601(a) of the Act (25 U.S.C. 1661(a)) is amended by adding at the end the following: "Effective with respect to an individual appointed by the President, by and with the advice and consent of the Senate, after January 1, 1993, the term of service of the Director shall be 4 years. A Director may serve more than 1 term.".

SEC. 603. AUTHORIZATION OF APPROPRIATIONS.

Title VI of the Act (25 U.S.C. 1661 et seq.) is amended by adding at the end the following new section:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 603. There are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2000 to carry out this title.".

TITLE VII—SUBSTANCE ABUSE PROGRAMS

SEC. 701. REDESIGNATION OF EXISTING TITLE VII.

(a) TITLE HEADING.—Title VII of the Act (25 U.S.C. 1671 et seq.) is redesignated as title VIII and the title heading is amended to read as follows:

"TITLE VIII—MISCELLANEOUS"

(b) REDESIGNATION OF SECTIONS.—Sections 701 through 720 of the Act (25 U.S.C. 1671 et seq.) are hereby redesignated as sections 801 through 820, respectively.

(c) CONFORMING AMENDMENTS.—The Act is amended—

(1) in section 207(a), by striking out "section 713" and inserting in lieu thereof "section 813";

(2) in section 307(e), by striking out "section 713" and inserting in lieu thereof "section 813"; and

(3) in section 405(b)—

(A) in paragraph (1), by striking out "sections 402(c) and 713(b)(2)(A)" and inserting in lieu thereof "sections 402(a) and 813(b)(2)(A)"; and

(B) in paragraph (4), by striking out "section 402(c)" each place it appears and inserting in lieu thereof "section 402(a)".

(d) REFERENCES.—Any reference in a provision of law other than the Indian Health Care Improvement Act to sections redesignated by subsection (b) shall be deemed to refer to the section as so redesignated.

SEC. 702. SUBSTANCE ABUSE PROGRAMS.

(a) IN GENERAL.—The Act is amended by inserting after title VI the following new title:

"TITLE VII—SUBSTANCE ABUSE PROGRAMS

"INDIAN HEALTH SERVICE RESPONSIBILITIES

"SEC. 701. The Memorandum of Agreement entered into pursuant to section 4205 of the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2411) shall include specific provisions pursuant to which the Service shall assume responsibility for—

"(1) the determination of the scope of the problem of alcohol and substance abuse among Indian people, including the number of Indians within the jurisdiction of the Service who are directly or indirectly affected by alcohol and substance abuse and the financial and human cost;

"(2) an assessment of the existing and needed resources necessary for the prevention of alcohol and substance abuse and the treatment of Indians affected by alcohol and substance abuse; and

"(3) an estimate of the funding necessary to adequately support a program of prevention of alcohol and substance abuse and treatment of Indians affected by alcohol and substance abuse.

"INDIAN HEALTH SERVICE PROGRAM

"SEC. 702. (a) COMPREHENSIVE PREVENTION AND TREATMENT PROGRAM.—(1) The Secretary, acting through the Service, shall provide a program of comprehensive alcohol and substance abuse prevention and treatment which shall include—

"(A) prevention, through educational intervention, in Indian communities;

"(B) acute detoxification and treatment;

"(C) community-based rehabilitation;

"(D) community education and involvement, including extensive training of health care, educational, and community-based personnel; and

"(E) residential treatment programs for pregnant and post partum women and their children.

"(2) The target population of such program shall be members of Indian tribes. Efforts to train and educate key members of the Indian community shall target employees of health, education, judicial, law enforcement, legal, and social service programs.

"(b) CONTRACT HEALTH SERVICES.—(1) The Secretary, acting through the Service, may enter into contracts with public or private providers of alcohol and substance abuse treatment services for the purpose of assisting the Service in carrying out the program required under subsection (a).

"(2) In carrying out this subsection, the Secretary shall provide assistance to Indian tribes to develop criteria for the certification of alcohol and substance abuse service providers and accreditation of service facilities which meet minimum standards for such services and facilities as may be determined pursuant to section 4205(a)(3) of the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2411(a)(3)).

"(c) GRANTS FOR MODEL PROGRAM.—(1) The Secretary, acting through the Service shall make a grant to the Standing Rock Sioux Tribe to develop a community-based demonstration project to reduce drug and alcohol abuse on the Standing Rock Sioux Reservation and to rehabilitate Indian families afflicted by such abuse.

"(2) Funds shall be used by the Tribe to—

"(A) develop and coordinate community-based alcohol and substance abuse prevention and treatment services for Indian families;

"(B) develop prevention and intervention models for Indian families;

"(C) conduct community education on alcohol and substance abuse; and

"(D) coordinate with existing Federal, State, and tribal services on the reservation to develop a comprehensive alcohol and substance abuse program that assists in the rehabilitation of Indian families that have been or are afflicted by alcoholism.

"(3) The Secretary shall submit to the President for inclusion in the report to be transmitted to the Congress under section 801 for fiscal year 1995 an evaluation of the demonstration project established under paragraph (1).

"INDIAN WOMEN TREATMENT PROGRAMS

"SEC. 703. (a) The Secretary may make grants to Indian tribes and tribal organizations to develop and implement a comprehensive alcohol and substance abuse program of prevention, intervention, treatment, and relapse prevention services that specifically addresses the cultural, historical, social, and child care needs of Indian women, regardless of age.

"(b) Grants made pursuant to this section may be used to—

"(1) develop and provide community training, education, and prevention programs for Indian women relating to alcohol and substance abuse issues, including fetal alcohol syndrome and fetal alcohol effect;

"(2) identify and provide appropriate counseling, advocacy, support, and relapse prevention to Indian women and their families; and

"(3) develop prevention and intervention models for Indian women which incorporate traditional healers, cultural values, and community and family involvement.

"(c) The Secretary shall establish criteria for the review and approval of applications for grants under this section.

"(d)(1) There are authorized to be appropriated to carry out this section $10,000,000 for fiscal year 1993 and such sums as are necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.

"(2) Twenty percent of the funds appropriated pursuant to this subsection shall be used to make grants to urban Indian organizations funded under title V.

"INDIAN HEALTH SERVICE YOUTH PROGRAM

"SEC. 704. (a) DETOXIFICATION AND REHABILITATION.—The Secretary shall develop and implement a program for acute detoxification and treatment for Indian youth who are alcohol and substance abusers. The program shall include regional treatment centers designed to include detoxification and rehabilitation for both sexes on a referral basis. These regional centers shall be integrated with the intake and rehabilitation programs based in the referring Indian community.

"(b) TREATMENT CENTERS OR FACILITIES.—(1) The Secretary shall construct, renovate, or, as necessary, purchase, and appropriately staff and operate, a youth regional treatment center in each area under the jurisdiction of an area office. For the purposes of this subsection, the area offices of the Service in Tucson and Phoenix, Arizona, shall be considered one area office and the area office in California shall be considered to be two area offices, one office whose jurisdiction shall be considered to encompass the northern area of the State of California, and one office whose jurisdiction shall be considered to encompass the remainder of the State of California.

"(2) For the purpose of staffing and operating such centers or facilities, funding shall be pursuant to the Act of November 2, 1921 (25 U.S.C. 13).

"(3) A youth treatment center constructed or purchased under this subsection shall be constructed or purchased at a location within the area described in paragraph (1) agreed upon (by appropriate tribal resolution) by a majority of the tribes to be served by such center.

"(4)(A) Notwithstanding any other provision of this title, the Secretary may, from amounts authorized to be appropriated for the purposes of carrying out this section, make funds available to—

"(i) the Tanana Chiefs Conference, Incorporated, for the purpose of leasing, constructing, renovating, operating and maintaining a residential youth treatment facility in Fairbanks, Alaska; and

"(ii) the Southeast Alaska Regional Health Corporation to staff and operate a residential youth treatment facility without regard to the proviso set forth in section 4(l) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(l)).

"(B) Until additional residential youth treatment facilities are established in Alaska pursuant to this section, the facilities specified in subparagraph (A) shall make every effort to provide services to all eligible Indian youth residing in such State.

"(c) Federally Owned Structures.—

"(1) The Secretary, acting through the Service, shall, in consultation with Indian tribes—

"(A) identify and use, where appropriate, federally owned structures suitable as local residential or regional alcohol and substance abuse treatment centers for Indian youth; and

"(B) establish guidelines for determining the suitability of any such federally owned structure to be used as a local residential or regional alcohol and substance abuse treatment center for Indian youth.

"(2) Any structure described in paragraph (1) may be used under such terms and conditions as may be agreed upon by the Secretary and the agency having responsibility for the structure.

"(d) Rehabilitation and Aftercare Services.—

"(1) The Secretary, in cooperation with the Secretary of the Interior, shall develop and implement within each Service service unit community-based rehabilitation and follow-up services for Indian youth who are alcohol or substance abusers which are designed to integrate long-term treatment and to monitor and support the Indian youth after their return to their home community.

"(2) Services under paragraph (1) shall be administered within each service unit by trained staff within the community who can assist the Indian youth in continuing development of self-image, positive problem-solving skills, and nonalcohol or substance abusing behaviors. Such staff shall include alcohol and substance abuse counselors, mental health professionals, and other health professionals and paraprofessionals, including community health representatives.

"(e) Inclusion of Family in Youth Treatment Program.—In providing the treatment and other services to Indian youth authorized by this section, the Secretary shall provide for the inclusion of family members of such youth in the treatment programs or other services as may be appropriate. Not less than 10 percent of the funds appropriated for the purposes of carrying out subsection (d) shall be used for outpatient care of adult family members related to the treatment of an Indian youth under that subsection.

"(f) Multidrug Abuse Study.—(1) The Secretary shall conduct a study to determine the incidence and prevalence of the abuse of multiple forms of drugs, including alcohol, among Indian youth residing on Indian reservations and in urban areas and the interrelationship of such abuse with the incidence of mental illness among such youth.

"(2) The Secretary shall submit a report detailing the findings of such study, together with recommendations based on such findings, to the Congress no later than two years after the date of the enactment of this section.

"TRAINING AND COMMUNITY EDUCATION

"Sec. 705. (a) Community Education.—The Secretary, in cooperation with the Secretary of the Interior, shall develop and implement within each service unit a program of community education and involvement which shall be designed to provide concise and timely information to the community leadership of each tribal community. Such program shall include education in alcohol and substance abuse to political leaders, tribal judges, law enforcement personnel, members of tribal health and education boards, and other critical members of each tribal community.

"(b) Training.—The Secretary shall, either directly or by contract, provide instruction in the area of alcohol and substance abuse, including instruction in crisis intervention and family relations in the context of alcohol and substance abuse, youth alcohol and substance abuse, and the causes and effects of fetal alcohol syndrome to appropriate employees of the Bureau of Indian Affairs and the Service, and to personnel in schools or programs operated under any contract with the Bureau of Indian Affairs or the Service, including supervisors of emergency shelters and halfway houses described in section 4213 of the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2433).

"(c) Community-Based Training Models.—In carrying out the education and training programs required by this section, the Secretary, acting through the Service and in consultation with tribes and Indian alcohol and substance abuse prevention experts, shall develop and provide community-based training models. Such models shall address—

"(1) the elevated risk of alcohol and substance abuse faced by children of alcoholics;

"(2) the cultural and multigenerational aspects of alcohol and substance abuse prevention and recovery; and

"(3) community-based and multidisciplinary strategies for preventing and treating alcohol and substance abuse.

"GALLUP ALCOHOL AND SUBSTANCE ABUSE TREATMENT CENTER

"Sec. 706. (a) Grants for Residential Treatment.—The Secretary shall make grants to the Navajo Nation for the purpose of providing residential treatment for alcohol and substance abuse for adult and adolescent members of the Navajo Nation and neighboring tribes.

"(b) Purposes of Grants.—Grants made pursuant to this section shall (to the extent appropriations are made available) be used to—

"(1) provide at least 15 residential beds each year for adult long-term treatment, including beds for specialized services such as polydrug abusers, dual diagnosis, and specialized services for women with fetal alcohol syndrome children;

"(2) establish clinical assessment teams consisting of a clinical psychologist, a part-time addictionologist, a master's level assessment counselor, and a certified medical records technician which shall be responsible for conducting individual assessments and matching Indian clients with the appropriate available treatment;

"(3) provide at least 12 beds for an adolescent shelterbed program in the city of Gallup, New Mexico, which shall serve as a satellite facility to the Acoma/Canoncito/Laguna Hospital and the adolescent center located in Shiprock, New Mexico, for emergency crisis services, assessment, and family intervention;

"(4) develop a relapse program for the purposes of identifying sources of job training and job opportunity in the Gallup area and providing vocational training, job placement, and job retention services to recovering substance abusers; and

"(5) provide continuing education and training of treatment staff in the areas of intensive outpatient services, development of family support systems, and case management in cooperation with regional colleges, community colleges, and universities.

"(c) Contract for Residential Treatment.—The Navajo Nation, in carrying out the purposes of this section, shall enter into a contract with an institution in the Gallup, New Mexico, area which is accredited by the Joint Commission of the Accreditation of Health Care Organizations to provide comprehensive alcohol and drug treatment as authorized in subsection (b).

"(d) Authorization of Appropriations.—There are authorized to be appropriated—

"(1) to carry out the purposes of subsection (b)(1)—

"(A) $400,000 for fiscal year 1993;

"(B) $400,000 for fiscal year 1994; and

"(C) $500,000 for fiscal year 1995;

"(2) to carry out the purposes of subsection (b)(2)—

"(A) $100,000 for fiscal year 1993;

"(B) $125,000 for fiscal year 1994; and

"(C) $150,000 for fiscal year 1995;

"(3) to carry out the purposes of subsection (b)(3)—

"(A) $75,000 for fiscal year 1993;

"(B) $85,000 for fiscal year 1994; and

"(C) $100,000 for fiscal year 1995;

"(4) to carry out the purposes of subsection (b)(4), $150,000 for each of fiscal years 1993, 1994, and 1995; and

"(5) to carry out the purposes of subsection (b)(5)—

"(A) $75,000 for fiscal year 1993;

"(B) $90,000 for fiscal year 1994; and

"(C) $100,000 for fiscal year 1995.

"REPORTS

"Sec. 707. (a) Compilation of Data.—The Secretary, with respect to the administration of any health program by a service unit, directly or through contract, including a contract under the Indian Self-Determination Act, shall require the compilation of data relating to the number of cases or incidents in which any Service personnel or services were involved and which were related, either directly or indirectly, to alcohol or substance abuse. Such report shall include the type of assistance provided and the disposition of these cases.

"(b) Referral of Data.—The data compiled under subsection (a) shall be provided annually to the affected Indian tribe and Tribal Coordinating Committee to assist them in developing or modifying a Tribal Action Plan under section 4206 of the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2471 et seq.).

"(c) Comprehensive Report.—Each service unit director shall be responsible for assembling the data compiled under this section and section 4214 of the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2434) into an annual tribal comprehensive report. Such report shall be provided to the affected tribe and to the Director of the Service who shall develop and publish a biennial national report based on such tribal comprehensive reports.

"FETAL ALCOHOL SYNDROME AND FETAL ALCOHOL EFFECT GRANTS

"Sec. 708. (a)(1) The Secretary may make grants to Indian tribes and tribal organizations to establish fetal alcohol syndrome and fetal alcohol effect programs as provided in this section for the purposes of meeting the health status objectives specified in section 3(b).

"(2) Grants made pursuant to this section shall be used to—

"(A) develop and provide community and in-school training, education, and prevention programs relating to FAS and FAE;

"(B) identify and provide alcohol and substance abuse treatment to high-risk women;

"(C) identify and provide appropriate educational and vocational support, counseling, advocacy, and information to FAS and FAE affected persons and their families or caretakers;

"(D) develop and implement counseling and support programs in schools for FAS and FAE affected children;

"(E) develop prevention and intervention models which incorporate traditional healers, cultural values and community involvement;

"(F) develop, print, and disseminate education and prevention materials on FAS and FAE; and

"(G) develop and implement, through the tribal consultation process, culturally sensitive assessment and diagnostic tools for use in tribal and urban Indian communities.

"(3) The Secretary shall establish criteria for the review and approval of applications for grants under this section.

"(b) The Secretary, acting through the Service, shall—

"(1) develop an annual plan for the prevention, intervention, treatment, and aftercare for those affected by FAS and FAE in Indian communities;

"(2) conduct a study, directly or by contract with any organization, entity, or institution of higher education with significant knowledge of FAS and FAE and Indian communities, of the special educational, vocational, school-to-work transition, and independent living needs of adolescent and adult Indians and Alaska Natives with FAS or FAE; and

"(3) establish a national clearinghouse for prevention and educational materials and other information on FAS and FAE effect in Indian and Alaska Native communities and ensure access to clearinghouse materials by any Indian tribe or urban Indian organization.

"(c) The Secretary shall establish a task force to be known as the FAS/FAE Task Force to advise the Secretary in carrying out subsection (b). Such task force shall be composed of representatives from the National Institute on Drug Abuse, the National Institute on Alcohol and Alcoholism, the Office of Substance Abuse Prevention, the National Institute of Mental Health, the Service, the Office of Minority Health of the Department of Health and Human Services, the Administration for Native Americans, the Bureau of Indian Affairs, Indian tribes, tribal organizations, urban Indian communities, and Indian FAS/FAE experts.

"(d) The Secretary, acting through the Substance Abuse and Mental Health Services Administration, shall make grants to Indian tribes, tribal organizations, universities working with Indian tribes on cooperative projects, and urban Indian organizations for applied research projects which propose to elevate the understanding of methods to prevent, intervene, treat, or provide aftercare for Indians and urban Indians affected by FAS or FAE.

"(e)(1) The Secretary shall submit to the President, for inclusion in each report required to be transmitted to the Congress under section 801, a report on the status of FAS and FAE in the Indian population. Such report shall include, in addition to the information required under section (3)(d) with respect to the health status objective specified in section (3)(b)(27), the following:

"(A) The progress of implementing a uniform assessment and diagnostic methodology in Service and tribally based service delivery systems.

"(B) The incidence of FAS and FAE babies born for all births by reservation and urban-based sites.

"(C) The prevalence of FAS and FAE affected Indian persons in Indian communities, their primary means of support, and recommendations to improve the support system for these individuals and their families or caretakers.

"(D) The level of support received from the entities specified in subsection (c) in the area of FAS and FAE.

"(E) The number of inpatient and outpatient substance abuse treatment resources which are specifically designed to meet the unique needs of Indian women, and the volume of care provided to Indian women through these means.

"(F) Recommendations regarding the prevention, intervention, and appropriate vocational, educational and other support services for FAS and FAE affected individuals in Indian communities.

"(2) The Secretary may contract the production of this report to a national organization specifically addressing FAS and FAE in Indian communities.

"(f)(1) There are authorized to be appropriated to carry out this section $22,000,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.

"(2) Ten percent of the funds appropriated pursuant to this section shall be used to make grants to urban Indian organizations funded under title V.

"PUEBLO SUBSTANCE ABUSE TREATMENT PROJECT FOR SAN JUAN PUEBLO, NEW MEXICO

"SEC. 709. The Secretary, acting through the Service, shall continue to make grants, through fiscal year 1995, to the 8 Northern Indian Pueblos Council, San Juan Pueblo, New Mexico, for the purpose of providing substance abuse treatment services to Indians in need of such services.

"THUNDER CHILD TREATMENT CENTER

"SEC. 710. (a) The Secretary, acting through the Service, shall make a grant to the Intertribal Addictions Recovery Organization, Inc. (commonly known as the Thunder Child Treatment Center) at Sheridan, Wyoming, for the completion of construction of a multiple approach substance abuse treatment center which specializes in the treatment of alcohol and drug abuse of Indians.

"(b) For the purposes of carrying out subsection (a), there are authorized to be appropriated $2,000,000 for fiscal years 1993 and 1994. No funding shall be available for staffing or operation of this facility. None of the funding appropriated to carry out subsection (a) shall be used for administrative purposes.

"SUBSTANCE ABUSE COUNSELOR EDUCATION DEMONSTRATION PROJECT

"SEC. 711. (a) The Secretary, acting through the Service, may enter into contracts with, or make grants to, accredited tribally controlled community colleges, tribally controlled postsecondary vocational institutions, and eligible community colleges to establish demonstration projects to develop educational curricula for substance abuse counseling.

"(b) Funds provided under this section shall be used only for developing and providing educational curricula for substance abuse counseling (including paying salaries for instructors). Such curricula may be provided through satellite campus programs.

"(c) A contract entered into or a grant provided under this section shall be for a period of one year. Such contract or grant may be renewed for an additional one year period upon the approval of the Secretary.

"(d) Not later than 180 days after the date of the enactment of this section, the Secretary, after consultation with Indian tribes and administrators of accredited tribally controlled community colleges, tribally controlled postsecondary vocational institutions, and eligible community colleges, shall develop and issue criteria for the review and approval of applications for funding (including applications for renewals of funding) under this section. Such criteria shall ensure that demonstration projects established under this section promote the development of the capacity of such entities to educate substance abuse counselors.

"(e) The Secretary shall provide such technical and other assistance as may be necessary to enable grant recipients to comply with the provisions of this section.

"(f) The Secretary shall submit to the President, for inclusion in the report which is required to be submitted under section 801 for fiscal year 1999, a report on the findings and conclusions derived from the demonstration projects conducted under this section.

"(g) For the purposes of this section, the following definitions apply:

"(1) The term 'educational curriculum' means one or more of the following:

"(A) Classroom education.

"(B) Clinical work experience.

"(C) Continuing education workshops.

"(2) The term 'eligible community college' means an accredited community college that—

"(i) is located on or near an Indian reservation;

"(ii) has entered into a cooperative agreement with the governing body of such Indian reservation to carry out a demonstration project under this section; and

"(iii) has a student enrollment of not less than 10 percent Indian.

"(3) The term 'tribally controlled community college' has the meaning given such term in section 2(a)(4) of the Tribally Controlled Community College Assistance Act of 1978 (25 U.S.C. 1801(a)(4)).

"(4) The term 'tribally controlled postsecondary vocational institution' has the meaning given such term in section 390(2) of the Tribally Controlled Vocational Institutions Support Act of 1990 (20 U.S.C. 2397h(2)).

"(h) There are authorized to be appropriated for each of the fiscal years 1993, 1994, 1995, 1996, and 1997, such sums as may be necessary to carry out the purposes of this section. Such sums shall remain available until expended.

"GILA RIVER ALCOHOL AND SUBSTANCE ABUSE TREATMENT FACILITY

"SEC. 712. (a) The Secretary, acting through the Service, shall establish a regional youth alcohol and substance abuse prevention and treatment center in Sacaton, Arizona, on the Gila River Indian Reservation. The center shall be established within facilities leased, with the consent of the Gila River Indian Community, by the Service from such Community.

"(b) The center established pursuant to this section shall be known as the 'Regional Youth Alcohol and Substance Abuse Prevention and Treatment Center'.

"(c) The Secretary, acting through the Service, shall establish, as a unit of the regional center, a youth alcohol and substance abuse prevention and treatment facility in Fallon, Nevada.

"ALASKA NATIVE DRUG AND ALCOHOL ABUSE DEMONSTRATION PROJECT

"SEC. 713. (a) The Secretary, acting through the Service, shall make grants to the Alaska Native Health Board for the conduct of a two-part community-based demonstration project to reduce drug and alcohol abuse in Alaska Native villages and to rehabilitate families afflicted by such abuse. Sixty percent of such grant funds shall be used by the Health Board to stimulate coordinated community development programs in villages seeking to organize to combat alcohol and drug use. Forty percent of such grant funds shall be transferred to a qualified nonprofit corporation providing alcohol recovery services in the village of St. Mary's, Alaska, to enlarge and strengthen a family life demonstration program of rehabilitation for families that have been or are afflicted by alcoholism.

"(b) The Secretary shall submit to the President for inclusion in the report required to be submitted to the Congress under section 801 for fiscal year 1995 an evaluation of the demonstration project established under subsection (a).

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 714. Except as provided in sections 703, 706, 708, 710, and 711, there are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2000 to carry out the provisions of this title.".

(b) REDESIGNATION AND REPEAL OF EXISTING PROVISIONS.—

(1) REDESIGNATION.—The Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2401 et seq.) is amended by redesignating section 4224 as section 4208A.

(2) REPEAL.—Part 6 of the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2471 et seq.), as amended by paragraph (1), is hereby repealed.

SEC. 703. INDIAN ALCOHOL AND SUBSTANCE ABUSE PREVENTION AND TREATMENT ACT OF 1986 AMENDMENTS.

The Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2401 et seq.) is amended—

(1) in section 4206—

(A) in subsection (c)—

(i) in paragraph (2)—

(I) by striking "(2) the" and inserting "(B) the";

(II) by striking "(3) the" and inserting "(C) the";

(III) by striking "(4) the" and inserting "(D) the";

(IV) in subparagraph (D) (as redesignated by subclause (III)), by striking "and" at the end;

(V) in subparagraph (E), by striking the period at the end and inserting ", and"; and

(VI) by adding at the end the following new subparagraph:

"(F) an evaluation component to measure the success of efforts made."; and

(ii) by adding at the end the following new paragraph:

"(3) All Tribal Action Plans shall be updated every 2 years."; and

(B) in subsection (d), by amending paragraph (2) to read as follows:

"(2) There are authorized to be appropriated for grants under this subsection not more than $2,000,000 for fiscal year 1993 and such sums as are necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000."; and

(C) by adding at the end the following new subsection:

"(f)(1) The Secretary of the Interior may make grants to Indian tribes adopting a resolution pursuant to subsection (a) to implement and develop community and in-school training, education, and prevention programs on alcohol and substance abuse, fetal alcohol syndrome and fetal alcohol effect.

"(2) Funds provided under this section may be used for, but are not limited to, the development and implementation of tribal programs for—

"(A) youth employment;

"(B) youth recreation;

"(C) youth cultural activities;

"(D) community awareness programs; and

"(E) community training and education programs.

"(3) There are authorized to be appropriated to carry out the provisions of this subsection $5,000,000 for fiscal year 1993 and such sums as are necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.";

(2) in section 4207(b), by amending paragraph (3) to read as follows:

"(3) The Assistant Secretary of the Interior for Indian Affairs shall appoint such employees to work in the Office of Alcohol and Substance Abuse, and shall provide such funding, services, and equipment as may be necessary to enable the Office of Alcohol and Substance Abuse to carry out its responsibilities.";

(3) in section 4210, by amending subsection (b) to read as follows:

"(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section $500,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.";

(4) in section 4212(a), by striking out "1989, 1990, 1991, and 1992" and inserting in lieu thereof "1993, 1994, 1995, 1996, 1997, 1998, 1999, and 2000";

(5) in section 4213(e), by amending paragraphs (1) and (2) to read as follows:

"(1) For the planning and design, construction, and renovation of, or purchase or lease of land or facilities for, emergency shelters and half-way houses to provide emergency care for Indian youth, there are authorized to be appropriated $10,000,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.

"(2) For the staffing and operation of emergency shelters and half-way houses, there are authorized to be appropriated $5,000,000 for fiscal year 1993 and $7,000,000 for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.";

(6) in section 4216(a)(1)—

(A) in subparagraph (A), by striking "and" at the end;

(B) in subparagraph (B), by striking the period at the end and inserting ", and"; and

(C) by adding at the end the following new subparagraph:

"(C) the Makah Indian Tribe of Washington for the investigation and control of illegal narcotic traffic on the Makah Indian Reservation arising from its proximity to international waters.";

(7) by amending section 4216(a)(3) to read as follows:

"(3) For the purpose of providing the assistance required by this subsection, there are authorized to be appropriated—

"(A) $500,000 under paragraph (1)(A) for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000,

"(B) $500,000 under paragraph (1)(B) for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000, and

"(C) $500,000 under paragraph (1)(C) for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.";

(8) by amending section 4216(b) to read as follows:

"(b)(1) MARIJUANA ERADICATION AND INTERDICTION.—The Secretary of the Interior, in cooperation with appropriate Federal, tribal, and State and local law enforcement agencies, shall establish and implement a program for the eradication of marijuana cultivation, and interdiction, investigation, and control of illegal narcotics trafficking within Indian country as defined in section 1152 of title 18, United States Code. The Secretary shall establish a priority for the use of funds appropriated under paragraph (2) for those Indian reservations where the scope of the problem is most critical, and such funds shall be available for contracting by Indian tribes pursuant to the Indian Self-Determination Act (25 U.S.C. 450f et seq.).

"(2) For the purpose of establishing the program required by paragraph (1), there are authorized to be appropriated $2,000,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.";

(9) in section 4218, by amending subsection (b) to read as follows:

"(b) AUTHORIZATION.—For the purposes of providing the training required by subsection (a), there are authorized to be appropriated $2,000,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999 and 2000."; and

(10) in section 4220(b), by amending paragraphs (1) and (2) to read as follows:

"(1) For the purpose of constructing or renovating juvenile detention centers as provided in subsection (a), there are authorized to be appropriated $10,000,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.

"(2) For the purpose of staffing and operating juvenile detention centers, there are authorized to be appropriated $7,000,000 for fiscal year 1993 and such sums as may be necessary for each of the fiscal years 1994, 1995, 1996, 1997, 1998, 1999, and 2000.".

TITLE VIII—MISCELLANEOUS

SEC. 801. REPORTS.

Section 801 of the Act (25 U.S.C. 1671) (as redesignated by section 701(b) of this Act) is amended to read as follows:

"REPORTS

"SEC. 801. The President shall, at the time the budget is submitted under section 1105 of title 31, United States Code, for each fiscal year transmit to the Congress a report containing—

"(1) a report on the progress made in meeting the objectives of this Act, including a review of programs established or assisted pursuant to this Act and an assessment and recommendations of additional programs or additional assistance necessary to, at a minimum, provide health services to Indians, and ensure a health status for Indians, which are at a parity with the health services available to and the health status of, the general population;

"(2) a report on whether, and to what extent, new national health care programs, benefits, initiatives, or financing systems have had an impact on the purposes of this Act and any steps that the Secretary may have taken to consult with Indian tribes to address such impact;

"(3) a report on the use of health services by Indians—

"(A) on a national and area or other relevant geographical basis;

"(B) by gender and age;

"(C) by source of payment and type of service; and

"(D) comparing such rates of use with rates of use among comparable non-Indian populations.

"(4) a separate statement which specifies the amount of funds requested to carry out the provisions of section 201;

"(5) a separate statement of the total amount obligated or expended in the most recently completed fiscal year to achieve each of the objectives described in section 814, relating to infant and maternal mortality and fetal alcohol syndrome;

"(6) the reports required by sections 3(d), 108(n), 203(b), 209(j), 301(c), 302(g), 305(a)(3), 403, 708(e), and 817(a), and 822(f);

"(7) for fiscal year 1995, the report required by sections 702(c)(3) and 713(b);

"(8) for fiscal year 1997, the interim report required by section 307(h)(1); and

"(9) for fiscal year 1999, the reports required by sections 307(h)(2), 512(b), 711(f), and 821(g).".

SEC. 802. REGULATIONS.

Section 802 of the Act (25 U.S.C. 1672) (as redesignated by section 701(b) of this Act) is amended to read as follows:

"REGULATIONS

"SEC. 802. Prior to any revision of or amendment to rules or regulations promulgated pursuant to this Act, the Secretary shall consult with Indian tribes and appropriate national or regional Indian organizations and shall publish any proposed revision or amendment in the Federal Register not less than sixty days prior to the effective date of such revision or amendment in order to provide adequate notice to, and receive comments from, other interested parties.".

SEC. 803. EXTENSION OF TREATMENT OF ARIZONA AS A CONTRACT HEALTH SERVICE DELIVERY AREA.

Section 808 of the Act (25 U.S.C. 1678) (as redesignated by section 701(b) of this Act) is amended by striking out "1991" and inserting in lieu thereof "2000".

SEC. 804. INFANT AND MATERNAL MORTALITY; FETAL ALCOHOL SYNDROME.

Section 814 of the Act (25 U.S.C. 1680d) (as redesignated by section 701(b) of this Act) is amended—

(1) by striking out "(a)"; and

(2) by striking out subsection (b).

SEC. 805. REALLOCATION OF BASE RESOURCES.

Section 817(a) of the Act (25 U.S.C. 1680(g)) (as redesignated by section 701(b) of this Act) is amended by striking out "Secretary has submitted to the Congress" and inserting in lieu thereof the following: "Secretary has submitted to the President, for inclusion in the report required to be transmitted to the Congress under section 801,".

SEC. 806. CHILD SEXUAL ABUSE TREATMENT PROGRAMS.

Section 819 of the Act (25 U.S.C. 1680i) (as redesignated by section 701(b) of this Act) is amended to read as follows:

"CHILD SEXUAL ABUSE TREATMENT PROGRAMS

"SEC. 819. (a) The Secretary and the Secretary of the Interior shall, for each fiscal year through fiscal year 1995, continue the demonstration programs involving treatment for child sexual abuse provided through the Hopi Tribe and the Assiniboine and Sioux Tribes of the Fort Peck Reservation.

"(b) Beginning October 1, 1995, the Secretary and the Secretary of the Interior may establish, in any service area, demonstration programs involving treatment for child sexual abuse, except that the Secretaries may not establish a greater number of such programs in one service area than in any other service area until there is an equal number of such programs established with respect to all service areas from which the Secretary receives qualified applications during the application period (as determined by the Secretary).".

SEC. 807. TRIBAL LEASING.

Section 820 of the Act (25 U.S.C. 1680j) (as redesignated by section 701(b) of this Act) is amended to read as follows:

"TRIBAL LEASING

"SEC. 820. Indian tribes providing health care services pursuant to a contract entered into under the Indian Self-Determination Act may lease permanent structures for the purpose of providing such health care services without obtaining advance approval in appropriation Acts.".

SEC. 808. EXTENSION OF TERMINATION DATE OF CERTAIN DEMONSTRATION PROJECTS; JOINT VENTURE PROJECTS.

Section 818 of the Act (25 U.S.C. 1680h) (as redesignated by section 701(b) of this Act) is amended—

(1) in subsection (d)—

(A) in paragraph (1), by inserting before the period at the end the following: ", or, in the case of a demonstration project for which a grant is made after September 30, 1990, three years after the date on which such grant is made"; and

(B) in paragraph (2), by striking "1994" and inserting "1996"; and

(2) by amending subsection (e) to read as follows:

"(e)(1) The Secretary, acting through the Service, shall make arrangements with Indian tribes to establish joint venture demonstration projects under which an Indian tribe shall expend tribal, private, or other available nontribal funds, for the acquisition or construction of a health facility for a minimum of 20 years, under a no-cost lease, in exchange for agreement by the Service to provide the equipment, supplies, and staffing for the operation and maintenance of such a health facility. A tribe may utilize tribal funds, private sector, or other available resources, including loan guarantees, to fulfill its commitment under this subsection.

"(2) The Secretary shall make such an arrangement with an Indian tribe only if the Secretary first determines that the Indian tribe has the administrative and financial capabilities necessary to complete the timely acquisition or construction of the health facility described in paragraph (1).

"(3) An Indian tribe or tribal organization that has entered into a written agreement with the Secretary under this subsection, and that breaches or terminates without cause such agreement, shall be liable to the United States for the amount that has been paid to the tribe, or paid to a third party on the tribe's behalf, under the agreement. The Secretary has the right to recover tangible property (including supplies), and equipment, less depreciation, and any funds expended for operations and maintenance under this section. The preceding sentence does not apply to any funds expended for the delivery of health care services, or for personnel or staffing, shall be recoverable.".

SEC. 809. HOME AND COMMUNITY BASED CARE DEMONSTRATION PROJECT.

Title VIII of the Act (as redesignated by subsections (a) and (b) of section 701 of this Act) is amended by adding at the end the following new section:

"HOME- AND COMMUNITY-BASED CARE DEMONSTRATION PROJECT

"SEC. 821. (a) The Secretary, acting through the Service, is authorized to enter into contracts with, or make grants to, Indian tribes or tribal organizations providing health care services pursuant to a contract entered into under the Indian Self-Determination Act, to establish demonstration projects for the delivery of home- and community-based services to functionally disabled Indians.

"(b)(1) Funds provided for a demonstration project under this section shall be used only for the delivery of home- and community-based services (including transportation services) to functionally disabled Indians.

"(2) Such funds may not be used—

"(A) to make cash payments to functionally disabled Indians;

"(B) to provide room and board for functionally disabled Indians;

"(C) for the construction or renovation of facilities or the purchase of medical equipment; or

"(D) for the provision of nursing facility services.

"(c) Not later than 180 days after the date of the enactment of this section, the Secretary, after consultation with Indian tribes and tribal organizations, shall develop and issue criteria for the approval of applications submitted under this section. Such criteria shall ensure that demonstration projects established under this section promote the development of the capacity of tribes and tribal organizations to deliver, or arrange for the delivery of, high quality, culturally appropriate home- and community-based services to functionally disabled Indians;

"(d) The Secretary shall provide such technical and other assistance as may be necessary to enable applicants to comply with the provisions of this section.

"(e) At the discretion of the tribe or tribal organization, services provided under a demonstration project established under this section may be provided (on a cost basis) to persons otherwise ineligible for the health care benefits of the Service.

"(f) The Secretary shall establish not more than 24 demonstration projects under this section. The Secretary may not establish a greater number of demonstration projects under this section in one service area than in any other service area until there is an equal number of such demonstration projects established with respect to all service areas from which the Secretary receives applications during the application period (as determined by the Secretary) which meet the criteria issued pursuant to subsection (c).

"(g) The Secretary shall submit to the President, for inclusion in the report which is required to be submitted under section 801 for fiscal year 1999, a report on the findings and conclusions derived from the demonstration projects conducted under this section, together with legislative recommendations.

"(h) For the purposes of this section, the following definitions shall apply:

"(1) The term 'home- and community-based services' means one or more of the following:

"(A) Homemaker/home health aide services.

"(B) Chore services.

"(C) Personal care services.

"(D) Nursing care services provided outside of a nursing facility by, or under the supervision of, a registered nurse.

"(E) Respite care.

"(F) Training for family members in managing a functionally disabled individual.

"(G) Adult day care.

"(H) Such other home- and community-based services as the Secretary may approve.

"(2) The term 'functionally disabled' means an individual who is determined to require home- and community-based services based on an assessment that uses criteria (including, at the discretion of the tribe or tribal organization, activities of daily living) developed by the tribe or tribal organization.

"(i) There are authorized to be appropriated for each of the fiscal years 1993, 1994, 1995, 1996, and 1997 such sums as may be necessary to carry out this section. Such sums shall remain available until expended.".

SEC. 810. SHARED SERVICES DEMONSTRATION PROJECTS.

Title VIII of the Act (as redesignated by subsections (a) and (b) of section 701 and amended by section 809 of this Act) is amended by adding at the end the following new section:

"SHARED SERVICES DEMONSTRATION PROJECT

"SEC. 822. (a) The Secretary, acting through the Service and notwithstanding any other provision of law, is authorized to enter into contracts with Indian tribes or tribal organizations to establish not more than 6 shared services demonstration projects for the delivery of long-term care to Indians. Such projects shall provide for the sharing of staff or other services between a Service facility and a nursing facility owned and operated (directly or by contract) by such Indian tribe or tribal organization.

"(b) A contract entered into pursuant to subsection (a)—

"(1) may, at the request of the Indian tribe or tribal organization, delegate to such tribe or tribal organization such powers of supervision and control over Service employees as the Secretary deems necessary to carry out the purposes of this section;

"(2) shall provide that expenses (including salaries) relating to services that are shared between the Service facility and the tribal facility be allocated proportionately between the Service and the tribe or tribal organization; and

"(3) may authorize such tribe or tribal organization to construct, renovate, or expand a nursing facility (including the construction of a facility attached to a Service facility), except that no funds appropriated for the Service shall be obligated or expended for such purpose.

"(c) To be eligible for a contract under this section, a tribe or tribal organization, shall, as of the date of the enactment of this Act—

"(1) own and operate (directly or by contract) a nursing facility;

"(2) have entered into an agreement with a consultant to develop a plan for meeting the long-term needs of the tribe or tribal organization; or

"(3) have adopted a tribal resolution providing for the construction of a nursing facility.

"(d) Any nursing facility for which a contract is entered into under this section shall meet the requirements for nursing facilities under section 1919 of the Social Security Act.

"(e) The Secretary shall provide such technical and other assistance as may be necessary to enable applicants to comply with the provisions of this section.

"(f) The Secretary shall submit to the President, for inclusion in each report required to be transmitted to the Congress under section 801, a report on the findings and conclusions derived from the demonstration projects conducted under this section.".

SEC. 811. RESULTS OF DEMONSTRATION PROJECTS.

Title VIII of the Act (as redesignated by subsections (a) and (b) of section 701 and amended by section 810 of this Act) is amended by adding at the end the following new section:

"RESULTS OF DEMONSTRATION PROJECTS

"SEC. 823. The Secretary shall provide for the dissemination to Indian tribes of the findings and results of demonstration projects conducted under this Act.".

SEC. 812. PRIORITY FOR INDIAN RESERVATIONS.

Title VIII of the Act (as redesignated by subsections (a) and (b) of section 701 and amended by section 811 of this Act) is amended by adding at the end the following new section:

"PRIORITY FOR INDIAN RESERVATIONS

"SEC. 824. (a) Beginning on the date of the enactment of this section, the Bureau of Indian Affairs and the Service shall, in all matters involving the reorganization or development of Service facilities, or in the establishment of related employment projects to address unemployment conditions in economically depressed areas, give priority to locating such facilities and projects on Indian lands if requested by the Indian tribe with jurisdiction over such lands.

"(b) For purposes of this section, the term "Indian lands" means—

"(1) all lands within the limits of any Indian reservation; and

"(2) any lands title which is held in trust by the United States for the benefit of any Indian tribe or individual Indian, or held by any Indian tribe or individual Indian subject to restriction by the United States against alienation and over which an Indian tribe exercises governmental power.".

SEC. 813. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION.—Title VIII of the Act (as redesignated by subsections (a) and (b) of section 701 and amended by section 812 of this Act) is amended by adding at the end the following new section:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 825. Except as provided in section 821, there are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2000 to carry out this title.".

(b) CONFORMING AMENDMENTS.—Section 807 of the Act (25 U.S.C. 1677) (as redesignated by subsections (a) and (b) of section 701 of this Act) is amended by striking out subsection (f).

SEC. 814. TRIBAL SELF-GOVERNANCE PROJECT.

The Indian Self-Determination and Education Assistance Act (25 U.S.C. 450f note) is amended—

(1) in section 301, by inserting after "Interior" the following: "and the Secretary of Health and Human Services (hereafter in this title referred to as the 'Secretaries') each";

(2) in sections 302, 303, 304, and 305, by striking "Secretary" each place it appears and inserting in lieu thereof "Secretaries";

(3) in section 303(a)(1), by inserting after "Interior" the following: "and the Indian Health Service of the Department of Health and Human Services"; and

(4) by adding after section 309 the following new section:

"SEC. 310. For the purposes of providing one year planning and negotiations grants to the Indian tribes identified by section 302, with respect to the programs, activities, functions, or services of the Indian Health Service, there are authorized to be appropriated such sums as may be necessary to carry out such purposes. Upon completion of an authorized planning activity or a comparable planning activity by a tribe, the Secretary is authorized to negotiate and implement a Compact of Self-Governance and Annual Funding Agreement with such tribe.".

TITLE IX—TECHNICAL CORRECTIONS

SEC. 901. REPEAL OF EXPIRED REPORTING REQUIREMENTS.

The Act is amended—

(1) in section 116, by striking out subsection (d);

(2) in section 204(a)—

(A) by striking out paragraph (2);

(B) by striking out "(a)(1)" and inserting in lieu thereof "(a)";

(C) by redesignating subparagraphs (A) and (B) as paragraphs (1) and (2), respectively; and

(D) in paragraph (2) (as redesignated by subparagraph (C)), by striking out "subparagraph (A)" and inserting in lieu thereof "paragraph (1)";

(3) in section 602, by striking out subsection (a)(3); and

(4) by striking out section 803 (as redesignated by section 701(b) of this Act).

SEC. 902. OTHER TECHNICAL CORRECTIONS.

The Act is amended—

(1) in section 4(c), by striking out "sections 102, 103, and 201(c)(5)," and inserting in lieu thereof the following: "sections 102 and 103,";

(2) in title I—

(A) in section 102(b)(1), by striking ": *Provided*, That the" and inserting in lieu thereof ". The";

(B) in section 105(c), by striking out "Department of Health, Education, and Welfare" and inserting in lieu thereof "Department of Health and Human Services";

(C) in section 108(d)(1)(A), by striking out "Indian Health" and inserting in lieu thereof "Indian health"; and

(D) in section 108(i), by striking out "Service manpower programs" and inserting in lieu thereof "health professional programs of the Service".

(3) in title II—

(A) by striking out "**SEC. 209. MENTAL HEALTH PREVENTION AND TREATMENT SERVICES.**" and inserting in lieu thereof the following:

"MENTAL HEALTH PREVENTION AND TREATMENT SERVICES

"SEC. 209."; and

(B) in section 209, by redesignating subsections (c) through (l) as subsections (b) through (k), respectively;

(4) in title III—

(A) by striking out "**SEC. 307. INDIAN HEALTH CARE DELIVERY DEMONSTRATION PROJECT.**" and inserting in lieu thereof the following:

"INDIAN HEALTH CARE DELIVERY DEMONSTRATION PROJECT

"SEC. 307."; and

(B) in section 301(d) (as redesignated by section 301(2) of this Act), by striking out "sections 102 and 103(b)" and inserting in lieu thereof "section 102";

(5) in title V—

(A) by striking out "**SEC. 409. FACILITIES RENOVATION.**" and inserting in lieu thereof the following:

"FACILITIES RENOVATION

"SEC. 509."; and

(B) by striking out "**SEC. 511. URBAN HEALTH PROGRAMS BRANCH.**" and inserting in lieu thereof the following:

"URBAN HEALTH PROGRAMS BRANCH

"SEC. 510.";

(6) in section 601(c)(3)(D), by striking out "(25 U.S.C. 2005, et seq.)" and inserting in lieu thereof "(42 U.S.C. 2005 et seq.)";

(7) in section 601(d)(1)(C), by striking out "appropriate" and inserting in lieu thereof "appropriated";

(8) in section 813(b)(2)(A) (as redesignated by section 701(b) of this Act), by striking out

"section 402(c)" and inserting in lieu thereof "section 402(a)"; and

(9) by amending the heading for section 816 (as redesignated by section 701(b)) to read as follows:

"INDIAN HEALTH SERVICE AND DEPARTMENT OF VETERANS AFFAIRS HEALTH FACILITIES AND SERVICES SHARING".

Mr. INOUYE. Mr. President, I rise today to urge the prompt passage of S. 2481, a bill to amend the Indian Health Care Improvement Act. This legislation reflects the efforts of the three committees of jurisdiction in the House and Senate to assure that the provisions of both House and Senate bills are reconciled and incorporated into a substitute measure which the House of Representatives has now acted upon. I wish to commend my colleagues in the House, Chairman MILLER and Congressman RHODES of the House Interior and Insular Affairs Committee, and Chairman WAXMAN of the House Energy and Commerce Subcommittee on Health, for their leadership on this measure under somewhat difficult circumstances. I also want to take this opportunity to thank the vice-chairman of the select committee for his work on this legislation.

The major objective of this comprehensive legislation is to improve the health status of the American Indian and Alaska Native populations in the United States. S. 2481 would seek to stabilize the programs authorized by the "Indian Health Care Improvement Act through the year 2000". Specific health care objectives set forth in S. 2481 are drawn from the Surgeon General's "Healthy People 2000" report of the Department of Health and Human Services which has set forth national health promotion and disease prevention objectives. This reauthorization measure would set more stringent standards by which to measure progress toward the goal of raising the health status of American Indians and Alaska Natives to the highest possible level.

The Federal Government has a unique historical and legal relationship with the Indian people, whose health status is substantially inferior to that of the general U.S. population. According to the Indian Health Service, the mortality rates of American Indians and Alaska Natives continue to exceed that of the general U.S. population, including all races. In 1987, the Indian age-adjusted mortality rates for the following causes exceeded those for the United States all races population by the following percentages: Tuberculosis, 400 percent; alcoholism, 332 percent; diabetes mellitus, 139 percent; accidents, 139 percent; homicide, 64 percent; pneumonia and influenza, 44 percent; and, suicide, 28 percent.

In 1990, the Department of Health and Human Services noted in the report referenced above, "Healthy People 2000," that relative to other populations, the American Indian and Alaska Native population is young and impoverished, with more than one in four living below the poverty level. The Department suggested that:

> One reason for the youthfulness of the population is the large proportion of the population who die before age 45. Most of the excess deaths—those that would not have occurred if American Indian death rates were comparable to those of the total population—can be traced to six causes: Unintentional injuries, cirrhosis, homicide, suicide, pneumonia, and complications of diabetes.

Since its enactment in 1976, the Health Care Improvement Act has enabled impressive progress in activities intended to enhance the quality, effectiveness, and efficiency of health care delivery services in Indian country. The Indian Health Service [IHS], the tribal health delivery system administered by tribal governments, and the urban Indian health organizations have accomplished remarkable feats in reversing epidemic infectious diseases such as tuberculosis, smallpox, hepatitis B, pneumonia, and influenza. However, the IHS data indicate that many of these disease entities are resurfacing once again and chronic degenerative diseases such as cirrhosis, cerebrovascular diseases, and diseases of the heart are on the rise. The reauthorization of the Indian Health Care Improvement Act will continue this important work, especially in the critical areas such as alcoholism and substance abuse treatment, mental health, diabetes, and tuberculosis.

During the past 18 months, the Select Committee on Indian Affairs and the two committees of jurisdiction in the House of Representatives held nine hearings on the proposed amendments to the Indian Health Care Improvement Act, here in Washington, DC, and in the States of Alaska, Arizona, North Dakota, and South Dakota. An additional hearing was held here in Washington, DC, on the subject of fetal alcohol syndrome and fetal alcohol effect. These 10 hearings represent the concerns of over 85 tribal governments and 30 Indian and other professional organizations who advocate for improved health care delivery which have helped to shape the legislation we are about to consider.

I believe that it is important to note that the administration has worked closely with the committees of jurisdiction to ensure that many of the provisions of S. 2481 are acceptable and allow for optimum effectiveness. We have been advised by the Office of Management and Budget that there is no objection to the enactment of this bill from the standpoint of the administration's program. Unfortunately, the administration strongly opposed two provisions in the Senate bill: First, the payment of Medicare premiums by the Indian Health Service; and second, a requirement that IHS enter into certain leasing arrangements. These provisions were deleted during deliberations among the committees of jurisdiction.

The Senate bill originally contained a provision which would have expanded medical coverage and medical provider options for low-income older and disabled Indians by authorizing IHS to pay Medicare Part B premiums. Many users of IHS or tribal health facilities who have Medicare Part A coverage have great difficulty in paying part B premiums because of their very limited income. The Senate provision would have, if adopted, authorized IHS to make part B premium payments for the estimated 15,000 Medicare-eligible Indians using IHS or tribal facilities who are between 100 percent and 200 percent of the Federal poverty level. I am particularly sorry that we could not secure the support of the administration because the provision would have simply expanded upon existing, but little used, Indian Health Care Improvement Act provisions which encourage additional Medicare participation by Indian people through IHS/tribal contractor payment of part B premiums. IHS already pays Medicare Part B copayments and deductibles for those with part B coverage. All we hoped to do here was to assure that all low-income Indians with Medicare Part A are able to have access to part B coverage as well.

Another Senate provision which was objected to by the Indian Health Service, and subsequently not included in the substitute bill, would have required IHS to treat more fairly those tribes and tribal organizations which own health facilities and, at the same time, contract to administer health programs in those facilities. It has been brought to the committee's attention that IHS refuses to enter into lease arrangements with tribes and tribal organizations when such organizations own their health facility. However, the Service does enter into lease arrangements for these same facilities when the IHS operates the health program directly. This disparate treatment is contrary to the policy of Indian self-determination. The select committee has urged tribal governments to seek alternate sources of revenue to fund the construction of facilities. When they do so, they should not be denied adequate funding to maintain those facilities.

Statutory language presently in the Indian Health Care Improvement Act (Public Law 94-437 and Public Law 100-713) and the Indian Self-Determination Act (Public Law 93-638) requires the IHS to fund tribally contracted programs on the same basis as IHS programs are funded. The discretionary authority to enter into leases with tribes and tribal organizations contained in section 701 of the Indian Health Care Improvement Act, should not be used by the IHS to circumvent its statutory responsibilities to fund tribal lease-type costs of contractors on an equitable basis with IHS programs. I strongly urge the IHS to revise its leasing priority system [LPS] to permit leases with tribes and tribal organizations that own facilities and contract to administer the health program under Public Law 93-638. Unless the IHS reverses its present policy, I shall ask the committee to revisit this issue in the 103d Congress and may issue a request of the General Accounting Office to undertake a study of IHS leasing activities.

Finally, the Senate bill included an amendment to section 1880a of the Social Security Act, yet was deleted during House-Senate deliberations. This technical, but important, amendment would have permitted tribal health care providers to collect Medicare payments for outpatient services offered in tribal clinics, as it does now from Medicaid and, as IHS owned and operated clinics do. Failure to correct this inconsistency in the Medicare Program means that Indian Medicare recipients cannot benefit from this coverage without disrupting their relationship with their usual health care provider and using more expensive health services. In the coming year, I will be working closely with the Finance Committee to ensure that this importnt amendment to the Social Security Act is enacted into law.

While there were a number of other provisions which were deleted during the House-Senate negotiations, I am confident that the final legislative proposal will assist the Indian Health Service, tribal governments, and the urban Indian organizations to enhance their capacity to provide the highest level of quality health care in the decade of the 1990's.

The improvements to the Indian Health Care Improvement Act will allow the Federal Government to utilize the health care objectives contained in the bill to assess the need for adequate health resources. Under title I, a number of health professional programs have been enhanced to draw more native people into the IHS, particularly in nursing and mental health professions. The loan repayment program has been improved to comport with the National Health Service Corps Program. Provision is included to statutorily authorize the community health aide/practitioner program. There is provision for a tribal matching scholarship grant program and the IHS is encouraged to consider a tribal members' ties to their community in placement activities, to name a few of the improvements.

Title II provisions will encourage efforts to assess tribal health status based on the health objectives with the emphasis on creating a system to determine health needs based on addressing health status deficiencies rather than on historical funding. Hospice care and managed care feasibility studies are authorized. The amendments also provide for comprehensive school health education programs and an Indian youth grant program, available to tribal governments, urban and tribal organizations, to develop innovative mental and physical health programs for Indian youth. An Office of Indian Women's Programs is also established.

Language to provide tribal self-determination contractors with the right of recovery for third-party insurance purposes is included. The tribal right to recover encompasses all expenses which arose under a program administered by the tribal health contractor, including those which arose prior to the effective date of the applicable self determination contract. This provides an incentive for the collection of existing claims, and prevents insurance companies from receiving a windfall from past discrimination against Indian policyholders.

Section 209 of the Indian Health Care Improvement Act Amendments of 1992 takes effect November 23, 1988. November 23, 1988, is the effective date of section 206 of the act, which section 209 of the 1992 amendments clarifies, to further carry out the intent of the Congress. Although original section 206 has not raised problems for most third-party payors, in a few instances such payors have refused to meet their statutory obligation to pay, resulting in many accumulated claims. The section 209 clarifying amendment will assure that these payors do not escape their obligations under the law.

Title III amendments authorize the IHS to provide financial assistance to tribal governments for safe water and sanitary waste disposal facilities program covering up to 80 percent for the operation and maintenance of safe water and sanitation facilities. An ambulatory grant program is authorized to allow tribal governments to construct, renovate, or modernize on Indian health facilities to provide ambulatory care services to eligible Indians.

Under title IV, the bill exempts payments received by a hospital or skilled nursing facility operated by the IHS, or Indian tribe, or tribal organization from consideration in determining appropriations for services to Indians. As amended, the IHS may enter into an agreement with any tribal government to provide for the receipt and processing of Medicare/Medicaid assistance at tribally operated facilities. Finally, the IHS is to not deny contract health services coverage to Indian recipients, if they are 65 or older or disabled if they apply for care within 30 days of emergency care. The time limit is now 72 hours.

Improvements to title V, will provide that urban Indian program funding may be issued under grants, as well as contracts. Language is also provided to protect the funding originally awarded to urban Indian programs by the National Institute of Alcoholism and Alcohol Abuse, and now managed by the IHS, in future budget distribution activities.

An amendment offered under title VI by Senator McCain would provide that after January 1, 1993, the position of the Director of the Indian Health Service shall be subject to confirmation with the advice and consent of the Senate.

The amendments to the Indian Health Care Improvement Act redesignate title VII as title VIII. The new title VII includes a series of amendments to continue the Omnibus Anti-Drug Abuse Act Programs contained in Public Law 99-570 and Public Law 100-690. The amendments will require the IHS to address inhalant abuse in the context of substance abuse. Aside from continuing the basic alcohol and substance abuse prevention and treatment programs, a number of tribal specific programs are included to provide for alcohol and drug abuse treatment at Gallup, NM; continuation of the pueblo substance abuse project, in San Juan Pueblo, NM; continuation of the Gila River Indian Youth Treatment Center in Arizona and development of the satellite facility at Fallon, NV; development of the Alaska Native drug and alcohol demonstration project; and a provision to address the construction needs of the Thunderchild Treatment Center in Wyoming, to name a few.

A series of new programs are authorized to address fetal alcohol syndrome and fetal alcohol effect prevention and treatment. Provision is made to establish substance abuse counselor training in colleges, universities and tribally controlled community colleges.

Under title VIII, a variety of reports required under the act will be required for presentation in the President's budget request each year. Language is included to continue child sexual abuse treatment programs on the Hopi and Ft. Peck Reservations and includes additional authority to expand the availability of these model programs in other areas. The amendments will provide that tribal governments and tribal organizations may lease permanent structures without obtaining advance approval under the Interior Appropriations Acts. This allows tribal contractors additional flexibility in leasing program facilities.

Two of the new provisions address vitally needed long-term care needs of the elderly and disabled. The first would authorize the IHS to make grants or to enter into contracts for home- and community-based health care services on a demonstration basis. At least 24 demonstration programs are authorized to be established. The second demonstration program would authorize the IHS to enter into shared services agreements with tribal governments whereby the IHS may agree to share staff and other services with long-term care facilities operated by a tribal government. At least six demonstrations are authorized to be established.

S. 2481 definitively authorizes tribal governments participating in the self-governance project to receive planning grants from the IHS for self-governance purposes as is authorized in the Bureau of Indian Affairs.

Another of the amendments included in title VIII authorizes the IHS to establish a joint venture demonstration project under which tribal governments may expend tribal, private, and other resources for the acquisition or construction of a health facility. In return, the IHS will provide equipment, supplies, and staffing for operation and maintenance of such health centers.

The above mentioned amendments to the Indian Health Care Improvement Act are only a few of those contained in this very comprehensive bill. A number of new categorical program authorities and requirements are included in this 170-page bill, many of which are meritorious and certain to improve the health status of American Indians and Alaska Natives through the year 2000.

In conclusion, I again want to urge my colleagues in the Senate to concur in the House amendments. The administration has indicated its willingness to support this bill and I hope that the President will act at the earliest date possible to give it final approval. This year, 1992, has been declared the "Year of the American Indian." I am certain that my colleagues will want to ensure the Nation's first Americans that we are doing our best to raise their health status to the highest level possible by the year 2000.

Mr. FORD. Mr. President, I move that the Senate concur in the House amendment.

The ACTING PRESIDENT pro tempore. Without objection, the motion is agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

JICARILLA APACHE WATER RIGHTS SETTLEMENT ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Indian Affairs Committee be discharged from further consideration of H.R. 5122, the Jicarilla Apache Water Rights Settlement Act; that the Senate proceed to its immediate consideration; that the bill be deemed read for a third time and passed; the motion to reconsider be laid upon the table; and that any statements thereon appear in the RECORD at the appropriate place as though read.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So, the bill (H.R. 5122) was deemed read the third time and passed.

CIVIL TILTROTOR DEVELOPMENT ADVISORY COMMITTEE ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of S. 2105, the Civil Tiltrotor Development Advisory Committee Act; that the Senate then proceed to its immediate consideration; that the bill be deemed read three times and passed; that the motion to reconsider be laid upon the table; and that any statements relating to this bill appear in the RECORD at the appropriate place.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So, the bill (S. 2105) was deemed read the third time and passed, as follows:

S. 2105

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the "Civil Tiltrotor Development Advisory Committee Act of 1991".

CIVIL TILTROTOR DEVELOPMENT ADVISORY COMMITTEE

SEC. 2. (a) ESTABLISHMENT.—The Secretary of Transportation shall establish in the Department of Transportation a Civil Tiltrotor Development Advisory Committee (hereinafter referred to as the "Advisory Committee") to evaluate the technical feasibility and economic viability of developing civil tiltrotor aircraft and a national system of infrastructure to support the incorporation of tiltrotor aircraft technology into the national transportation system.

(b) MEMBERSHIP.—(1) The Advisory Committee shall be composed of members appointed by the Secretary of Transportation, not later than 60 days after the date of the enactment of this Act, as follows:

(A) At least one representative of the Department of Transportation.

(B) At least one representative of the Federal Aviation Administration.

(C) At least one representative of the National Aeronautics and Space Administration.

(D) Representatives of other Federal departments and agencies, State and local governments, and private industry, as considered appropriate and necessary by the Secretary.

(2) Members appointed pursuant to subparagraphs (A), (B), and (C) of paragraph (1) shall be appointed from among individuals employed within the Federal departments and agencies described in such subparagraphs who receive an annual rate of basic pay which equals or exceeds the rate payable for level VI of the Senior Executive Service.

(3) The Secretary of Transportation shall appoint a Chairperson of the Advisory Committee from among individuals employed within the Department of Transportation who receive an annual rate of basic pay which equals or exceeds the rate payable for level IV of the Executive Schedule.

(c) DUTIES.—The Advisory Committee shall—

(1) determine the costs, feasibility, and economic viability of developing a civil tiltrotor aircraft and establishing the necessary infrastructure to incorporate such aircraft and other advanced vertical takeoff and landing aircraft into the national transportation system;

(2) determine the benefits to the national economy and transportation system, including the potential for improved linkages and connections with other modes of transportation, or incorporating civil tiltrotor aircraft and other advanced vertical takeoff and landing aircraft into the national transportation system;

(3) determine further aeronautical research and development requirements needed to incorporate civil tiltrotor aircraft and other advanced vertical takeoff and landing aircraft into the national transportation system;

(4) determine changes to regulatory standards governing use of the airspace which would be required to incorporate civil tiltrotor aircraft and other advanced vertical takeoff and landing aircraft into the national transportation system; and

(5) recommend which of the costs of developing civil tiltrotor aircraft and establishing the infrastructure necessary to support civil tiltrotor aircraft and other advanced vertical takeoff and landing aircraft should be paid by the Federal Government and which of such costs should be paid by private industry.

(d) REPORT.—Not later than the three hundred and sixty-fifth day following the date of the first meeting of the Advisory Committee, the Advisory Committee shall transmit to Congress a report containing its determinations and recommendations under subsection (c).

(e) TERMINATION.—The Advisory Committee shall terminate on the thirtieth day following the date of submission of its report under subsection (d).

AMTRAK AUTHORIZATION DEVELOPMENT ACT—CONFERENCE REPORT

Mr. FORD. Mr. President, I submit a report of the committee of conference on H.R. 4250 and ask for its immediate consideration.

The ACTING PRESIDENT pro tempore. The report will be stated.

The assistant legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4250) to authorize appropriations for the National Railroad Passenger Corporation, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by a majority of the conferees.

The ACTING PRESIDENT pro tempore. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report is printed in the House proceedings of the RECORD of October 3, 1992.)

Mr. HOLLINGS. Mr. President, I rise in support of the conference agreement on H.R. 4250, the Amtrak Authorization and Development Act. This measure will help to assure the long-term viability of the Nation's rail passenger system.

Earlier this year, the Surface Transportation Subcommittee reviewed carefully the extent to which insufficient capital funding in the past may have prevented Amtrak from investing adequately in necessary equipment and facility improvements. As a result of this examination, the Commerce Committee concluded that the operating and capital needs of Amtrak must be met to ensure the viability of the Nation's present rail passenger system. I am pleased to note that the conference agreement as passed by the House and before us today incorporates the original Senate measure's focus on these important financial objectives.

In addition, the conference agreement includes a number of important provisions, including a separate authorization for new State-supported and other services to provide Amtrak with greater flexibility to promote expansion in areas where ridership potential can be documented. The legislation also retains and strengthens language from the Senate bill addressing locomotive visibility and requiring the formation of a task force comprised of representatives from the Federal Railroad Administration, Amtrak and each of the on-board service employee and operating crafts to consider recommendations for improving emergency training and performance of on-board crew members. My concern as to whether Amtrak is providing sufficient emergency training for these employees stems, in part, from questions raised about inadequate response to those injured in the Amtrak accident that occurred in Lugoff, SC, during the summer of 1991. I believe that this task force will provide the needed examination in this area.

Finally, the legislation provides a mandate for Amtrak to continue its progress in high-speed rail and demonstrate further new high-speed rail technologies. In this regard I am pleased to note that the conference agreement highlights the importance of Amtrak's recent solicitation for the development of a prototype high-speed lightweight locomotive. One of the bidders for this procurement, Republic Locomotive of Greenville, SC, has pioneered an innovative turbine technology for this application, which holds the promise of implementing high-speed rail between densely populated city pairs without the expense of corridor electrification.

In conclusion, Mr. President, the conference agreement on H.R. 4250 is important for the future of rail passenger service, and I urge my colleagues to support its passage.

Mr. EXON. Mr. President, I rise in support of the conference report to H.R. 4250, the Amtrak Authorization and Development Act. This legislation culminates months of work and dedicated effort by Members and staff alike from both sides of the aisle, from the Senate and the House, and I thank all of my distinguished colleagues who have contributed to the realization of this important legislation.

As reported by the conferees, H.R. 4250 improves rail safety, advances high-speed rail initiatives, and provides for a realistic 2-year authorization for Amtrak. I am especially pleased that this legislation creates for the first time a new account dedicated to new passenger service. This measure will bring the Amtrak system squarely into the future by enabling the planning for the expansion of the basic system. We are closer to the day when additional Amtrak service can be offered between Omaha and Chicago and further ahead, service between Omaha and Kansas City. With this provision, the authorization for the Northeast Corridor Improvement Program, and other vital sections in the bill, Congress takes another meaningful step toward the restoration of passenger rail service to its proper role in our Nation's national transportation strategy.

Of particular note, the conference report incorporates legislation originally introduced by Senator KASSEBAUM to improve the visibility of locomotives through the use of ditch lights, strobe lights, and other illuminating devices. The conferees labored to craft a provision which advances public safety and facilitates the transition to permanent locomotive visibility rules. The so-called grandfather clause in this section is intended to encourage the railroad industry immediately to make their locomotives more visible rather than delay current safety initiatives until the Federal Railroad Administration issues final visibility rules by the end of 1995. In this regard, I am pleased to report that the Union Pacific Railroad in Omaha, NE, has launched an aggressive locomotive visibility improvement program. I would hope and expect that progress on this safety program, as well as similar visibility initiatives now underway at other railroads, will not be interrupted or delayed.

In concluding their deliberations, the conferees made it possible to accommodate in this legislation the specific requests of Senators BREAUX, LOTT, PRESSLER, MOYNIHAN, BOREN, and NICKLES. These initiatives as incorporated into the bill highlight the importance of rail service to many communities across the United States. I trust that all of these Members will join me in my continuing efforts to secure sufficient funding for national passenger train service in the Senate Budget and Appropriations Committees.

Mr. President, the importance of rebuilding our Nation's transportation infrastructure has emerged as a key issue in the Presidential debate. I am confident that this legislation will give the next president a firm base from which to build a revitalized passenger rail system in the United States, and I urge my colleagues to join me in working for passage of the conference report to H.R. 4250.

The ACTING PRESIDENT pro tempore. The question is on agreeing to the conference report.

So the conference report was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote by which the conference report was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

STOCK RAISING HOMESTEAD ACT AMENDMENTS

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1187, the Stock Raising Homestead Act.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1187) entitled "An Act to amend the Stock Raising Homestead Act to provide certain procedures for entry onto Stock Raising Homestead Act lands, and for other purposes", do pass with the following amendments:

Strike out all after the enacting clause, and insert:

SECTION 1. MINING CLAIMS ON STOCK RAISING HOMESTEAD ACT LANDS.

(a) MINERAL ENTRY UNDER THE STOCK RAISING HOMESTEAD ACT.—Section 9 of the Act of December 29, 1916, entitled "An act to provide for stock-raising homesteads, and for other purposes (43 U.S.C. 299) is amended by adding the following at the end thereof:

"(b) EXPLORATION; LOCATION OF MINING CLAIMS; NOTICES.—

"(1) IN GENERAL.—(A) Notwithstanding subsection (a) and any other provision of law to the contrary, after the effective date of this subsection no person other than the surface owner may enter lands subject to this Act to explore for, or to locate, a mining claim on such lands without—

"(i) filing a notice of intention to locate a mining claim pursuant to paragraph (2); and

"(ii) providing notice to the surface owner pursuant to paragraph (3).

"(B) Any person who has complied with the requirements referred to in subparagraph (A) may, during the authorized exploration period, in order to locate a mining claim, enter lands subject to this Act to undertake mineral activities related to exploration that cause no more than a negligible disturbance of surface resources and do not involve the use of mechanized equipment, explosives, the construction of roads, drill pads, or the use or toxic or hazardous materials.

"(C) The authorized exploration period referred to in subparagraph (B) shall begin 30 days after notice is provided under paragraph (3) with respect to lands subject to such notice and shall end with the expiration of the 60-day

period referred to in paragraph (2)(A) or any extension provided under paragraph (2)(B).

"(2) NOTICE OF INTENTION TO LOCATE A MINING CLAIM.—Any person seeking to locate a mining claim on lands subject to this Act in order to engage in the mineral activities relating to exploration referred to under paragraph (1)(B) may file with the Secretary of the Interior a notice of intention to locate a claim on the lands concerned. The notice shall be in such form as the Secretary shall prescribe. The notice shall contain the name and mailing address of the person filing the notice and a legal description of the lands to which the notice applies. The legal description shall be based on the public land survey or on such other description as is sufficient to permit the Secretary to record the notice on his land status records. Whenever any person has filed a notice under this subparagraph with respect to any lands, during the 60-day period following the date of such filing, no other person (including the surface owner) may—

"(A) file such a notice with respect to any portions of such lands;

"(B) explore for minerals or locate a mining claim on any portion of such lands; or

"(C) acquire any interest in any portion of such lands pursuant to section 209 of the Federal Land Policy and Management Act of 1977 (43 U.S.C. 1719).

"(3) NOTICE TO SURFACE OWNER.—Any person who has filed a notice of intention to locate a mining claim under paragraph (2) for any lands subject to this Act shall provide written notice of such filing by registered or certified mail with return receipt to the surface owner (as evidenced by local tax records) of the lands covered by the notice under paragraph (2). Possession of the return receipt signed by the surface owner shall be necessary prior to entering such lands. The notice shall be provided at least 30 days before entering such lands and shall contain each of the following:

"(A) A brief description of the proposed mineral activities.

"(B) A map and legal description of the lands to be subject to mineral exploration.

"(C) The name, address and phone number of the person managing such activities.

"(D) A statement of the dates on which such activities will take place.

"(4) ACREAGE LIMITATIONS.—The total acreage covered at any time by notices of intention to locate a mining claim under paragraph (2) filed by any person and by affiliates of such person may not exceed 6,400 acres of lands subject to this Act in any one State and 160 acres or one-tenth of any contiguous parcel of land, whichever is greater (except that in no instance shall the total acreage exceed 640 acres), for a single surface owner. For purposes of this paragraph, the term 'affiliate' means, with respect to any person, any other person which controls, is controlled by, or is under common control with, such person.

"(c) CONSENT.—Notwithstanding subsection (a) and any other provision of law, after the effective date of this subsection no person may engage in the conduct of mineral activities (other than those relating to exploration referred to in subsection (b)(1)B)) on a mining claim located on lands subject to this Act without the written consent of the surface owner thereof unless the Secretary has authorized the conduct of such activities under subsection (d).

"(d) AUTHORIZED MINERAL ACTIVITIES.—The Secretary may authorize a person to conduct mineral activities (other than those relating to exploration referred to in subsection (b)(1)(B)) on lands subject to this Act without the consent of the surface owner thereof if such person complies with the requirements of subsections (e) and (f).

"(e) BOND.—(1) Before the Secretary may authorize any person to conduct mineral activities the Secretary shall require such person to post a bond or other financial guarantee in an amount to insure the completion of reclamation satisfying the requirements of this subsection and subsection (h). The bond or other financial guarantee shall be held for the duration of the mineral activities and for an additional period to cover the responsibility of the person conducting such mineral activities for revegetation under subsection (h)(6). Such bond or other financial guarantee shall also insure—

"(A) payment to the surface owner, after the completion of such mineral activities and reclamation, compensation for any permanent damages to crops and tangible improvements of the surface owner that resulted from mineral activities; and

"(B) payment to the surface owner of compensation for any permanent loss of income of the surface owner due to loss or impairment of grazing, or other uses of the land by the surface owner to the extent that reclamation required by the plan of operations would not permit such uses to continue at the level existing prior to the commencement of mineral activities.

"(2) In determining the bond amount to cover permanent loss of income under paragraph (1)(B), the Secretary shall consider, where appropriate, the potential loss of value due to the estimated permanent reduction in utilization of the land.

"(f) PLAN OF OPERATIONS.—(1) Before the Secretary may authorize any person to conduct mineral activities on lands subject this Act, the Secretary shall require such person to submit a plan of operations. The Secretary shall require that mineral activities and reclamation under such plan be conducted in such a way so as to minimize adverse impacts to the environment. A plan under this subsection shall also include procedures for—

"(A) the minimization of damages to crops and tangible improvements of the surface owner;

"(B) the minimization of disruption to grazing or other uses of the land by the surface owner; and

"(C) payment of a fee equivalent to the loss of income to the ranch operation as established pursuant to subsection (g).

"(2) The Secretary shall provide a copy of the proposal plan of operations to the surface owner at least 60 days prior to the date the Secretary makes a determination as to whether such plan complies with the requirements of this subsection. During such 60-day period the surface owner may submit comments and recommend modifications to the proposed plan of operations to the Secretary.

"(3) The Secretary may approve, require modifications to, or deny a proposed plan of operations. To approve a plan of operations, the Secretary shall make each of the following determinations:

"(A) The proposed plan of operations is complete and accurate.

"(B) The person submitting the proposed plan of operations has demonstrated that reclamation as required under subsection (h) can be accomplished under the plan and would have a high probability of success based on an analysis of such reclamation measures in areas of similar geochemistry, topography and hydrology.

"(C) The person submitting the proposed plan of operations has demonstrated that all other applicable Federal and State requirements have been met.

"(4) Final approval of a plan of operations under this subsection shall be conditioned upon compliance with subsections (e) and (g).

"(g) FEE.—The fee referred to in subsection (f)(2) shall be—

"(1) paid to the surface owner by the person submitting the plan of operations;

"(2) paid in advance of any mineral activities or at such other time or times as may be agreed to by the surface owner and the person conducting such activities; and

"(3) established by the Secretary taking into account the acreage involved and the degree of potential disruption to existing surface uses (including the loss of income to the surface owner and such surface owner's operations due to the loss or impairment of existing surface uses for the duration of the mineral activities).

"(h) RECLAMATION.—Except as provided under paragraphs (5) and (7), lands affected by mineral activities under a plan of operations approved pursuant to subsection (f)(3) shall be reclaimed to a condition capable of supporting the uses to which such lands were capable of supporting prior to surface disturbance. Except as provided under paragraphs (5) and (7), the surface area disturbed by mineral activities shall be backfilled, graded and contoured to its natural topography. Reclamation shall proceed as contemporaneously as practicable with the conduct of mineral activities. For the purposes of such reclamation, the Secretary shall establish reclamation standards which shall include, but not necessarily be limited to, provisions to require each of the following; except that any such standard may be modified only with the consent of the surface owner as part of an approved plan of operations:

"(1) TOPSOIL.—(A) Topsoil removed from lands affected by mineral activities shall be segregated from other spoil material and protected for later use in reclamation. If such topsoil is not replaced on a backfill area within a timeframe short enough to avoid deterioration of the topsoil, vegetative cover or other means shall be used so that the topsoil is preserved from wind and water erosion, remains free of any contamination by acid or other toxic material, and is in a useable condition for sustaining vegetation when restored during reclamation.

"(B) In the event the topsoil from lands affected by mineral activities is of insufficient quantity or of inferior quality for sustaining vegetation, and other suitable growth media removed from the lands affected by the mineral activities are available that shall support vegetation, the best available growth medium shall be removed, segregated and preserved in a like manner as under subparagraph (A) for sustaining vegetation when restored during reclamation.

"(2) STABILIZATION.—All surface areas affected by mineral activities, including spoil material piles, waste material piles, ore piles, subgrade ore piles, and open or partially backfilled mine pits which meet the requirements of paragraph (5) shall be stabilized and protected during mineral activities and reclamation so as to effectively control erosion and minimize attendant air and water pollution.

"(3) EROSION.—Facilities such as but not limited to basins, ditches, streambank stabilization, diversions or other measures, shall be designed, constructed and maintained where necessary to control erosion and drainage of the area affected by mineral activities including spoil material piles and waste material piles prior to the use of such material to comply with the requirements of this subsection, and for the purposes of paragraph (7), and including ore piles and subgrade ore piles.

"(4) HYDROLOGIC BALANCE.—(A) Mineral activities shall be conducted to minimize disturbances to the prevailing hydrologic balance of the area subject to mineral activities and adjacent areas and to the quality and quantity of water in surface and ground water systems in the area subject to mineral activities and adjacent areas.

"(B) Mineral activities shall, to the extent possible, prevent the generation of acid or toxic drainage during the mineral activities and reclamation; and the operator shall prevent the

contamination of surface and ground water with acid or other toxic mine drainage and shall prevent or remove water from contact with acid or toxic producing deposits.

"(C) Mineral activities shall be conducted to prevent, to the extent possible, disruption to streamflow, or runoff outside the area covered by the plan of operations, and in no event shall be in excess of requirements set by applicable State or Federal law.

"(D) Reclamation shall, to the extent possible, also include restoration of the recharge capacity of the area subject to mineral activities to approximate premining condition; except that where surface or underground water sources used for domestic or agricultural use have been diminished, contaminated or interrupted as a proximate result of mineral activities, such water resource shall be restored or replaced.

"(5) PIT BACKFILLING/GRADING VARIANCE.—(A) The requirement to backfill, grade and contour land to its natural topography shall not apply with respect to an open mine pit if the Secretary finds that such open pit or partially backfilled pit would not pose a threat to the public health or safety or have an adverse effect on the environment in terms of surface or ground water pollution.

"(B) In instances where complete backfilling of an open pit is not required, the pit shall be graded to blend with the surrounding topography as much as practicable and revegetated in accordance with paragraph (6).

"(6) REVEGETATION.—(A) Except in such instances where the complete backfill of an open mine pit is not required under paragraph (5), the area affected by mineral activities, including any excess spoil material pile and excess waste pile, shall be revegetated in order to establish a diverse, effective and permanent vegetative cover of the same seasonal variety native to the area affected by mineral activities, capable of self-regeneration and plant succession and at least equal in extent of cover to the natural revegetation of the surrounding area.

"(B) In order to insure compliance with subparagraph (A), the period for determining successful revegetation shall be for a period of 5 full years after the last year of augmented seeding, fertilizing, irrigation or other work, except that such period shall be 10 full years where the annual average precipitation is 26 inches or less.

"(7) EXCESS SPOIL AND WASTE.—(A) Excess spoil material and excess waste material shall be transported and placed in approved areas, in a controlled manner in such a way so as to assure long-term mass stability and to prevent mass movement. In addition to the measures described under paragraph (3), internal drainage systems shall be employed, as may be required, to control erosion and drainage. The design of such excess spoil material piles and excess waste material piles shall be certified by a qualified professional engineer.

"(B) Excess spoil material piles and excess waste material piles shall be graded and contoured to blend with the surrounding topography as much as practicable and revegetated in accordance with paragraph (6).

"(8) SEALING.—All drill holes, and openings on the surface associated with underground mineral activities, shall be sealed when no longer needed for the conduct of mineral activities to ensure protection of the public, wildlife and the environment.

"(9) STRUCTURES.—All buildings, structures or equipment constructed, used or improved during the mineral activity shall be removed, unless the Secretary determines that the buildings, structures or equipment shall be of beneficial use in accomplishing the post-mining uses or for environmental monitoring.

"(i) STATE LAW.—(1) Nothing in this Act shall be construed as affecting any reclamation, bonding, inspection, enforcement, air or water quality standard or requirement of any State law or regulation which may be applicable to mineral activities on lands subject to this Act to the extend that such law or regulation is not inconsistent with this title.

"(2) Nothing in this Act shall be construed as affecting in any way the right of any person to enforce or protect, under applicable law, his interest in water resources affected by mineral activities.

"(j) INSPECTIONS.—(1) The Secretary shall make such inspections of mineral activities under a plan of operations approved under subsection (f) so as to ensure compliance with the terms and conditions of such plan. The Secretary shall establish a frequency of inspections for mineral activities conducted under such an approved plan of operations, but in no event shall such inspection frequency be less than one complete inspection per calendar quarter.

"(2) Any surface owner of land subject to this Act has reason to believe that they are or may be adversely affected by mineral activities due to any violation of the terms and conditions of a plan of operations approved under subsection (f), such surface owner may request an inspection. The Secretary shall determine within 10 days of the receipt of the request whether the request states a reason to believe that a violation exists, except in the event the surface owners alleges and provides reason to believe that an imminent danger, as provided in subsection (k)(2), exists the 10 day period shall be waived and the inspection conducted immediately. When an inspection is conducted under this paragraph, the Secretary shall notify the surface owner and such surface owner shall be allowed to accompany the inspector on the inspection.

"(k) ENFORCEMENT.—(1) If the Secretary or the authorized representative of the Secretary determines, on the basis of an inspection that the operator is in violation of the terms and conditions of a plan of operations approved under subsection (f), the Secretary or his authorized representative shall issue a notice of violation to the operator describing the violation and the corrective measures to be taken. The Secretary or his authorized representative shall provide such operator with a reasonable period of time to abate the violation. If, upon the expiration of time provided for such abatement, the Secretary or his authorized representative finds that the violation has not been abated he shall immediately order a cessation of all mineral activities or the portion thereof relevant to the violation.

"(2) If the Secretary or his authorized representative determines, on the basis of an inspection, that any condition or practice exists with respect to mineral activities conducted on lands subject to this Act, or that an operator is in violation of the surface management requirements established pursuant to this section, and such condition, practice or violation is causing, or can reasonably be expected to cause—

"(A) an imminent danger to the health or safety of the surface owner of land subject to this Act, or

"(B) significant, imminent environmental harm to land, air or water resources,

the Secretary or his authorized representative shall immediately order a cessation of such mineral activities or the portion thereof causing such condition, practice or violation.

"(3)(A) A cessation order by the Secretary or his authorized representative pursuant to paragraphs (1) or (2) shall remain in effect until the Secretary or his authorized representative determines that the condition, practice or violation has been abated, or until modified, vacated or terminated by the Secretary or his authorized representative. In any such order, the Secretary or his authorized representative shall determine the steps necessary to abate the violation in the most expeditious manner possible, and shall include the necessary measures in the order. The Secretary shall require appropriate financial assurances to insure that the abatement obligations are met.

"(B) Any notice or order issued pursuant to paragraphs (1) or (2) may be modified, vacated or terminated by the Secretary or his authorized representative. An operator, or person conducting mineral activities under section 201(b)(2), issued any such notice or order shall be entitled to a hearing on the record.

"(4) If, after 30 days of the date of the order referred to in paragraph (3)(A), the required abatement has not occurred the Secretary shall take such alternative enforcement action against the responsible parties as will most likely bring about abatement in the most expeditious manner possible. Such alternative enforcement action shall include, but is not necessarily limited to, seeking appropriate injunctive relief to bring about abatement.

"(5) In the event an operator conducting mineral activities under a plan of operations approved under subsection (f) is unable to abate a violation or defaults on the terms of the plan of operation the Secretary may cause forfeiture of the bond or other financial guarantee for the plan of operations to the extent necessary to ensure abatement and reclamation.

"(l) COMPLIANCE.—The Secretary may request the Attorney General to institute a civil action for relief, including a permanent or temporary injunction or restraining order, in the district court of the United States for the district in which the mineral activities are located whenever an operator: (A) violates, fails or refuses to comply with any order issued by the Secretary under subsection (k); or (B) interferes with, hinders or delays the Secretary in carrying out an inspection under subsection (j). Such court shall have jurisdiction to provide such relief as may be appropriate. Any relief granted by the court to enforce an order under clause (A) shall continue in effect until the completion or final termination of all proceedings for administrative review of such order, unless the district court granting such relief sets it aside or modifies it.

"(m) PENALTIES.—(1) Any operator who fails to comply with the terms and conditions of a plan of operations approved under subsection (f) shall be liable for a penalty of not more than $5,000 per violation. Each day of continuing violation may be deemed a separate violation for purposes of penalty assessments. No civil penalty under this subsection shall be assessed until the operator charged with the violation has been given the opportunity for a hearing.

"(2) An operator who fails to correct a violation for which a cessation order has been issued under subsection (k) within the period permitted for its correction shall be assessed a civil penalty of not less than $1,000 per violation for each day during which such failure continues, but in no event shall such assessment exceed a 30-day period.

"(n) DAMAGES FOR FAILURE TO COMPLY.—(1) Whenever the surface owner of any land subject to this Act has suffered any permanent damages to crops or tangible improvements of the surface owner, or any permanent loss of income due to loss or impairment of grazing, or other uses of the land by the surface owner, the surface owner may bring an action in the appropriate United States district court for treble damages, and the court may award such damages if such damages or loss results—

"(A) from any mineral activity undertaken without the consent of the surface owner under subsection (c) or an authorization by the Secretary under subsection (d); or

"(B) from the failure of a person conducting mineral activities on lands subject to this Act

approved under subsection (f) to abate a violation under subsection (k).

"(2) The surface owner of any land subject to this Act may also bring an action in the appropriate United States district court for treble damages against any person undertaking any mineral activities on lands subject to this Act in violation of any requirement of subsection (b).

"(3) Treble damages awarded by the court under this subsection shall be reduced by the amount of any compensation which the surface owner has received (or is eligible to receive) pursuant to the bond or financial guarantee required under subsection (e).

"(o) PAYMENT OF DAMAGES.—The surface owner of any land subject to this Act may petition the Secretary for payment of all or any portion of a bond or other financial guarantee required under subsection (e) as compensation for any permanent damages to crops and tangible improvements of the surface owner, or any permanent or temporary loss of income due to loss or impairment of grazing, or other uses of the land by the surface owner. Pursuant to such a petition, the Secretary may use such bond or other guarantee to provide compensation to the surface owner for such damages and to insure the required reclamation.

"(p) BOND RELEASE.—The Secretary shall release the bond or other financial guarantee required under subsection (e) upon the successful completion of all requirements pursuant to a plan of operations approved under subsection (f).

"(q) CONVEYANCE TO SURFACE OWNER.—(1) The Secretary may convey interests owned by the United States (including mineral interests) in lands subject to this Act to the surface owner pursuant to the provisions of section 209 of the Federal Land Policy and Management Act of 1976 without regard to the requirements contained in such provisions that findings be made under subsection (b) of such section.

"(2) The Secretary shall take such actions as may be necessary to simplify the procedures which must be complied with by surface owners of lands subject to this Act who apply to the Secretary to obtain title to interests in such lands owned by the United States.

"(3) Notwithstanding any other provision of law, the Secretary may not convey mineral interests in lands subject to this Act to any person other than the surface owner of such lands without obtaining the consent of such surface owner.

"(r) DEFINITIONS.—For the purposes of subsections (b) through (q)—

"(1) The term 'mineral activities' means any activity for, related to or incidental to mineral exploration, mining, and beneficiation activities for any locatable mineral on a mining claim. When used with respect to this term—

"(A) The term 'exploration' means those techniques employed to locate the presence of a locatable mineral deposit and to establish its nature, position, size, shape, grade and value;

"(B) The term 'mining' means the processes employed for the extraction of a locatable mineral from the earth; and

"(C) The term 'beneficiation' means the crushing and grinding of locatable mineral ore and such processes are employed to free the mineral from other constituents, including but not necessarily limited to, physical and chemical separation techniques.

"(2) The term 'mining claim' means a claim located under the general mining laws of the United States (which generally comprise 30 U.S.C. chapters 2, 12A, and 16, and sections 161 and 162) subject to the terms and conditions of subsections (b) through (q) of this section.

"(3) The term 'tangible improvements' includes agricultural, residential and commercial improvements, including improvements made by residential subdividers.

"(s) MINERALS COVERED.—Subsections (b) through (q) of this section apply only to minerals not subject to disposition under—

"(1) the Mineral Leasing Act (30 U.S.C. 181 and following);

"(2) the Geothermal Steam Act of 1970 (30 U.S.C. 100 and following); or

"(3) the Act of July 31, 1947, commonly known as the Materials Act of 1947 (30 U.S.C. 601 and following).".

(b) FEES.—The Secretary may establish such user fees as may be necessary to reimburse the United States for expenses incurred in administering this section.

(c) TECHNICAL CONFORMING AMENDMENT.—Section 9 of the Act of December 29, 1916, entitled "An Act to provide for stock-raising homesteads, and for other purposes" (43 U.S.C. 299) is amended by inserting "(a) GENERAL PROVISIONS.—" before the words "That all entries made".

(d) EFFECTIVE DATE.—The amendments made by this Act shall take effect 180 days after the date of enactment.

(e) REGULATIONS.—The Secretary of the Interior shall issue final regulations to implement the amendments made by this Act not later than the effective date of this Act. Failure to promulgate these regulations by reason of any appeal or judicial review shall not delay the effective date as specified in paragraph (d).

SEC. 2. REPORT TO CONGRESS ON FOREIGN INTEREST LANDHOLDINGS.

(a) The Secretary of the Department of the Interior is directed to report annually to Congress on the control by foreign firms of the acreage and facilities on lands covered by the 1916 Stock Raising Homestead Act.

(b) DEFINITIONS.—For purposes of this amendment:

(1) The term "domestic firm" means a business entity that is incorporated in the United States, conducts business operations in the United States, and at least 50 percent of its assets are held by private citizens and/or business entities of the United States.

(2) The term "foreign firm" means a business entity that is not described under paragraph (1).

Amend the title so as to read: "An Act to amend the Stock Raising Homestead Act to resolve certain problems regarding subsurface estates, and for other purposes.".

Mr. BINGAMAN. Mr. President, I rise to encourage Members to support passage of S. 1187, amendments to the Stock Raising Homestead Act.

We have been working on this legislation for two Congresses now. It is a sensitive issue that deals with conflicts arising where the mineral estate is federally owned and the surface estate was patented under the Stock Raising Homestead Act for ranching and grazing purposes.

Reaching resolution on this issue has required that the interests of the Federal Government, ranchers, and miners be balanced. This has been a difficult task, but I believe the bill before us now reflects such balance.

The legislation is somewhat different from the which passed the House of Representatives last month, although the basic structure of the bill remains the same. It is my understanding that the bill represents a compromise that the House Of Representatives should find acceptable.

In 1916, Congress passed legislation popularly known as the Stock Raising Homestead Act [SRHA]. This act made available unappropriated public lands for stock raising homestead entries. Patents issue pursuant to SRHA reserved to the United States the mineral estate, thus creating split estates where ownership of the surface, and the mineral estate differs. Conflicts arise between those interested in exploring for, and developing, the Federal mineral estate, and surface owners engaged in raising livestock.

Approximately 70 million acres of land were patented under SRHA prior to repeal of the entry provision in 1976. The Bureau of Land Management [BLM] estimates that there are approximately 17,000 unpatented mining claims recorded on SRHA lands. BLM estimates that roughly 50 prospecting or mining operations are being conducted on these 17,000 claims.

Current law regulates mineral activity on SRHA lands in two stages. During the prospecting phase, compensation is required for damage to crops from mining, and provides that permanent improvements on the lands may not be damaged. For mining operations, if a miner does not have the surface owners' consent to mine, a bond to the United States may be executed to secure payment of any damages.

S. 1187 would provide additional procedures for gaining access to, and undertaking mining activities on, stock raising homestead lands. The bill would require notice to both the surface owner and the Secretary of the Interior prior to entry for exploration purposes. Such notification triggers an exploration period, whereby the person filing the notice has exclusive exploration right for the authorization period.

Any person interested in going forward with development and production must obtain consent from the surface owner. Absent such consent, the miner must submit a plan of operations to the Secretary for approval, pay a surface use fee to the surface owner, and post a bond prior to conducting mineral activities to guarantee reclamation of the surface.

The bill also provides for inspections by the Secretary if a surface owner believes that he or she will, or may be, adversely affected from any violation of the plan of operations, and establishes a cause of action for damages under certain circumstances. In addition, the Secretary of the Interior is directed to take such actions as may be necessary to simplify the procedures to be compiled with by surface owners who apply to obtain title to the mineral estate.

I strongly urge passage of this legislation.

AMENDMENT NO. 3426

Mr. FORD. Mr. President, I move that the Senate concur in the House amendments with a further amendment, which I now send to the desk on behalf of Senator BINGAMAN.

The PRESIDING OFFICER (Mr. GRAHAM). The Clerk will report the amendment by the Senator from New Mexico.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. BINGAMAN, proposes an amendment numbered 4326.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection it is so ordered.

The amendment is as follows:

Strike all after the enacting clause and insert:

SECTION 1. MINING CLAIMS ON STOCK RAISING HOMESTEAD ACT LANDS.

(a) MINERAL ENTRY UNDER THE STOCK RAISING HOMESTEAD ACT.—Section 9 of the Act of December 29, 1916, entitled "An Act to provide for stock-raising homesteads, and for other purposes" (43 U.S.C. 299), is amended by adding the following at the end thereof:

"(b) EXPLORATION; LOCATION OF MINING CLAIMS; NOTICES.—

"(1) IN GENERAL.—(A) Notwithstanding subsection (a) and any other provision of law to the contrary, after the effective date of this subsection no person other than the surface owner may enter lands subject to this Act to explore for, or to locate, a mining claim on such lands without—

"(i) filing a notice of intention to locate a mining claim pursuant to paragraph (2); and

"(ii) providing notice to the surface owner pursuant to paragraph (3).

"(B) Any person who has complied with the requirements referred to in subparagraph (A) may, during the authorized exploration period, in order to locate a mining claim, enter lands subject to this Act to undertake mineral activities related to exploration that cause no more than minimal disturbance of surface resources and do not involve the use of mechanized earthmoving equipment, explosives, the construction of roads, drill pads, or the use of toxic or hazardous materials.

"(C) The authorized exploration period referred to in subparagraph (B) shall begin 30 days after notice is provided under paragraph (3) with respect to lands subject to such notice and shall end with the expiration of the 90-day period referred to in paragraph (2)(A), or any extension provided under paragraph (2).

"(2) NOTICE OF INTENTION TO LOCATE A MINING CLAIM.—Any person seeking to locate a mining claim on lands subject to this Act in order to engage in the mineral activities relating to exploration referred to under paragraph (1)(B) shall file with the Secretary of the Interior a notice of intention to locate a claim on the lands concerned. The notice shall be in such form as the secretary shall prescribe. The notice shall contain the name and mailing address of the person filing the notice and a legal description of the lands to which the notice applies. The legal description shall be based on the public land survey or on such other description as is sufficient to permit the Secretary to record the notice on the land status records of the Secretary. Whenever any person has filed a notice under this paragraph with respect to any lands, during the 90-day period following the date of such filing, or any extension thereof pursuant to this paragraph, no other person (including the surface owner) may—

"(A) file such a notice with respect to any portions of such lands;

"(B) explore for minerals or locate a mining claim on any portion of such lands; or

"(C) file an application to acquire any interest in any portion of such lands pursuant to section 209 of the Federal Land Policy and Mangement Act of 1976 (43 U.S.C. 1719).

If, within such 90-day period, the person who filed a notice under this paragraph files a plan of operations with the Secretary pursuant to subsection (f), such 90-day period shall be extended until the approval or disapproval of the plan by the Secretary pursuant to subsection (f).

"(3) NOTICE TO SURFACE OWNER.—Any person who has filed a notice of intention to locate a mining claim under paragraph (2) for any lands subject to this Act shall provide written notice of such filing, by registered or certified mail with return receipt, to the surface owner (as evidenced by local tax records) of the lands covered by the notice under paragraph (2). The notice shall be provided at least 30 days before entering such lands and shall contain each of the following:

"(A) A brief description of the proposed mineral activities.

"(B) A map and legal description of the lands to be subject to mineral exploration.

"(C) The name, address and phone number of the person managing such activities.

"(D) A statement of the dates on which such activities will take place.

"(4) ACREAGE LIMITATIONS.—The total acreage covered at any time by notices of intention to locate a mining claim under paragraph (2) filed by any person and by affiliates of such person may not exceed 6,400 acres of lands subject to this Act in any one State and 1,280 acres of such lands for a single surface owner. For purposes of this paragraph, the term 'affiliate' means, with respect to any person, any other person which controls, is controlled by, or is under common control with, such person.

"(c) CONSENT.—Notwithstanding subsection (a) and any other provision of law, after the effective date of this subsection no person may engage in the conduct of mineral activities (other than those relating to exploration referred to in subsection (b)(1)(B)) on a mining claim located on lands subject to this Act without the written consent of the surface owner thereof unless the Secretary has authorized the conduct of such activities under subsection (d).

"(d) AUTHORIZED MINERAL ACTIVITIES.—The Secretary shall authorize a person to conduct mineral activities (other than those relating to exploration referred to in subsection (b)(1)(B)) on lands subject to this Act without the consent of the surface owner thereof if such person complies with the requirements of subsections (e) and (f).

"(e) BOND.—(1) Before the Secretary may authorize any person to conduct mineral activities the Secretary shall require such person to post a bond or other financial guarantee in an amount to insure the completion of reclamation pursuant to this Act. Such bond or other financial guarantee shall insure—

"(A) payment to the surface owner, after the completion of such mineral activities and reclamation, compensation for any permanent damages to crops and tangible improvements of the surface owner that resulted from mineral activities; and

"(B) payment to the surface owner of compensation for any permanent loss of income of the surface owner due to loss or impairment of grazing, or other uses of the land by the surface owner to the extent that reclamation required by the plan of operations would not permit such uses to continue at the level existing prior to the commencement of mineral activities.

"(2) In determining the bond amount to cover permanent loss of income under paragraph (1)(B), the Secretary shall consider, where appropriate, the potential loss of value due to the estimated permanent reduction in utilization of the land.

"(f) PLAN OF OPERATIONS.—(1) Before the Secretary may authorize any person to conduct mineral activities on lands subject to this Act, the Secretary shall require such person to submit a plan of operations. Such plans shall include procedures for—

"(A) the minimization of damages to crops and tangible improvements of the surface owner;

"(B) the minimization of disruption to grazing or other use of the land by the surface owner; and

"(C) payment of a fee equivalent to the loss of income to the ranch operation as established pursuant to subsection (g).

"(2) The Secretary shall provide a copy of the proposed plan of operations to the surface owner at least 45 days prior to the date the Secretary makes a determination as to whether such plan complies with the requirements of this subsection. During such 45 day period the surface owner may submit comments and recommend modifications to the proposed plan of operations to the Secretary.

"(3)(A) The Secretary shall, within 60 days of receipt of the plan, approve the plan of operations if it complies with the requirements of this Act, including each of the following:

"(i) The proposed plan of operations is complete and accurate.

"(ii) The person submitting the proposed plan of operations has demonstrated that all other applicable Federal and State requirements have been met.

"(B) The Secretary shall notify the person submitting a plan of operations of any modifications to such plan required to bring it into compliance with the requirements of this Act. If the person submitting the plan agrees to modify such plan in a manner acceptable to the Secretary, the Secretary shall approve the plan as modified. In the event no agreement can be reached on the modifications to the plan which, in the opinion of the Secretary, will bring such plan into compliance with the requirements of this Act, then the Secretary shall disapprove the plan and notify both the surface owner and the person submitting the plan of the decision.

"(C) The 60-day period referred to in paragraph (A) may be extended by the Secretary where additional time is required to comply with other applicable requirements of law.

"(D) The Secretary shall suspend or revoke a plan of operation whenever the Secretary determines, on the Secretary's own motion or on a motion made by the surface owner, that the person conducting mineral activities is in substantial noncompliance with the terms and conditions of an approved plan of operations and has failed to remedy a violation after notice from the Secretary within the time required by the Secretary.

"(4) Final approval of a plan of operations under this subsection shall be conditioned upon compliance with subsections (e) and (g).

"(g) FEE—The fee referred to in subsection (f)(1) shall be—

"(1) paid to the surface owner by the person submitting the plan of operations;

"(2) paid in advance of any mineral activities or at such other time or times as may be agreed to by the surface owner and the person conducting such activities; and

"(3) established by the Secretary taking into the account the acreage involved and the degree of potential disruption to existing surface uses (including the loss of income to the surface owner and such surface owner's operations due to the loss or impairment of existing surface uses for the duration of the mineral activities), except that such fee shall not exceed the fair market value for the surface of the land.

"(h) RECLAMATION.—Lands affected by mineral activities under a plan of operations approved pursuant to subsection (f)(3) shall be reclaimed, to the maximum extent practicable, to a condition capable of supporting the uses to which such lands were capable of supporting prior to surface disturbance. Reclamation shall proceed as contemporaneously as practicable with the conduct of mineral activities.

"(i) STATE LAW.—(1) Nothing in this Act shall be construed as affecting any reclamation, bonding, inspection, enforcement, air or water quality standard or requirement of any State law or regulation which may be applicable to mineral activities on lands subject to this Act to the extent that such law or regulation is not inconsistent with this title.

"(2) Nothing in this Act shall be construed as affecting in any way the right of any person to enforce or protect, under applicable law, the interest of such person in water resources affected by mineral activities.

"(j) INSPECTIONS.—Should any surface owner of land subject to this Act have reason to believe that they are or may be adversely affected by mineral activities due to any violation of the terms and conditions of a plan of operations approved under subsection (f), such surface owner may request an inspection of such lands. The Secretary shall determine within 10 days of the receipt of the request whether the request states a reason to believe that a violation exists, except in the event the surface owner alleges and provides reason to believe that an imminent danger exists the 10-day period shall be waived and the inspection conducted immediately. When an inspection is conducted under this paragraph, the Secretary shall notify the surface owner and such surface owner shall be allowed to accompany the inspector on the inspection.

"(k) DAMAGES FOR FAILURE TO COMPLY.—(1) Whenever the surface owner of any land subject to this Act has suffered any permanent damages to crops or tangible improvements of the surface owner, or any permanent loss of income due to loss or impairment of grazing, or other uses of the land by the surface owner, if such damages or loss results from:

"(A) any mineral activity undertaken without the consent of the surface owner under subsection (c) or an authorization by the Secretary under subsection (d); or

"(B) from the failure of the person conducting mineral exploration, development, or production activities to remedy to the satisfaction of the Secretary any substantial non-compliance with the terms and conditions of a plan under subsection (f);

the surface owner may bring an action in the appropriate United States district court for, and the court may award, double damages plus costs for willful misconduct or gross negligence.

"(2) The surface owner of any land subject to this Act may also bring an action in the appropriate United States district court for double damages plus costs for willful misconduct or gross negligence against any person undertaking any mineral activities on lands subject to this Act in violation of any requirement of subsection (b).

"(3) Any double damages plus costs awarded by the court under this subsection shall be reduced by the amount of any compensation which the surface owner has received (or is eligible to receive) pursuant to the bond or financial guarantee required under subsection (e).

"(l) FULL PAYMENT OF DAMAGES.—The surface owner of any land subject to this Act may petition the Secretary for payment of all or any portion of a bond or other financial guarantee required under subsection (e) as compensation for any permanent damages to crops and tangible improvements of the surface owner, or any permanent or temporary loss of income due to loss or impairment of grazing, or other uses of the land by the surface owner. Pursuant to such a petition, the Secretary may use such bond or other guarantee to provide compensation to the surface owner for such damages and to insure the required reclamation.

"(m) BOND RELEASE.—The Secretary shall release the bond or other financial guarantee required under subsection (e) upon the successful completion of all requirements pursuant to a plan of operations approved under subsection (f).

"(n) CONVEYANCE TO SURFACE OWNER.—The Secretary shall take such actions as may be necessary to simplify the procedures which must be complied with by surface owners of lands subject to this Act who apply to the Secretary to obtain title to interests in such lands owned by the United States.

"(o) DEFINITIONS.—For the purposes of subsections (b) through (n)—

"(1) The term 'mineral activities' means any activity for, related to or incidental to mineral exploration, mining, and beneficiation activities for any locatable mineral on a mining claim. When used with respect to this term—

"(A) The term 'exploration' means those techniques employed to locate the presence of a locatable mineral deposit and to establish its nature, position, size, shape, grade and value;

"(B) The term 'mining' means the processes employed for the extraction of a locatable mineral from the earth; and

"(C) The term 'beneficiation' means the crushing and grinding of locatable mineral ore and such processes are employed to free the mineral from the other constituents, including but not necessarily limited to, physical and chemical separation techniques.

"(2) The term 'mining claim' means a claim located under the general mining laws of the United States (which generally comprise 30 U.S.C. chapters 2, 12A, and 16, and sections 161 and 162) subject to the terms and conditions of subsections (b) through (n) of this section.

"(3) The term 'tangible improvements' includes agricultural, residential and commercial improvements, including improvements made by residential subdividers.

"(p) MINERALS COVERED.—Subsections (b) through (n) of this section apply only to minerals not subject to disposition under—

"(A) the Mineral Leasing Act (30 U.S.C. 181 and following);

"(B) the Geothermal Steam Act of 1970 (30 U.S.C. 100 and following); or,

"(C) the Act of July 31, 1947, commonly known as the Materials Act of 1947 (30 U.S.C. 601 and following).".

(b) TECHNICAL CONFORMING AMENDMENT.—Section 9 of the Act of December 29, 1916, entitled "An Act to provide for stock-raising homesteads, and for other purposes" (43 U.S.C. 299) is amended by inserting "(a) GENERAL PROVISIONS.—" before the words "That all entries made".

(c) EFFECTIVE DATE.—The amendments made by this Act shall take effect 180 days after the date of enactment.

(d) REGULATIONS.—The Secretary of the Interior shall issue final regulations to implement the amendments made by this Act not later than the effective date of this Act. Failure to promulgate these regulations by reason of any appeal or judicial review shall not delay the effective date as specified in paragraph (d).

SEC. 2. REPORT TO CONGRESS ON FOREIGN MINERAL INTEREST.

(a) The Secretary of the Interior is directed to submit a report to the Congress within two years after the date of enactment of this Act on the acquisition of mineral interests made after the date of enactment of this Act by foreign firms on lands subject to the Act of December 29, 1916, entitled "Act to provide for stock-raising homesteads, and for other purposes" (43 U.S.C. 299), as amended.

(b) DEFINITION.—For purposes of this section the term "foreign firm" means a business entity that conducts business operations in the United States and is 51 percent or more owned and controlled by a foreign person or entity.

The PRESIDING OFFICER. The question is on agreeing to the motion.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDING THE CONSOLIDATED FARM AND RURAL DEVELOPMENT ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 6138, a bill to amend the Consolidated Farm and Rural Development Act just received from the House; that the bill be deemed read three times, passed, and the motion to reconsider laid upon the table; further, that any statements relating to this measure appear in the RECORD at the appropriate place and as if read.

The PRESIDING OFFICER. Without objection, it is so ordered.

So the bill (H.R. 6138) was deemed read the third time and passed.

Mr. DOMENICI. Mr. President, this bill corrects a technicality that will help small rural communities along our southern border.

Mr. President, H.R. 5487, the Agriculture, Rural Development, Food and Drug Administration, and related agencies appropriations public law for fiscal year 1993, includes $25 million for these small rural communities known as colonias under the rural and waste disposal grants program.

The funding for these small rural communities was required by the President to address the serious water and wastewater deficiencies in those communities.

I am very pleased that the agriculture appropriations conferees included funding for this very important program in the agriculture appropriations bill which is now public law. But Mr. President, it has been brought to my attention that many of the colonias in may State may not even qualify for the grants because of technicalities in the final legislative language.

Mr. President, let me first explain the significance of this very important funding for the colonias.

The colonias are small, unincorporated rural communities with populations ranging from about 250 persons to about 5,000 persons.

Many of the colonias were originally settled over 100 years ago, and the majority of the residents are low-income families of Mexican and Mexican-American descent.

There are hundreds of individuals that live in the colonias that will suffer from a lack of adequate water and sanitation facilities.

This situation is truly dangerous in terms of sanitation and health hazards from the lack of proper water and sewer systems.

Others have recognized the serious nature of this problem and funding for the colonias.

In fact, Mr. President, the conference report accompanying the Agriculture appropriations bill includes language asking the President of the United States to urge the appropriate agencies, to develop a comprehensive and coordinated strategy and plan of action for the delivery of assistance and programs to improve the adverse environmental and health problems of the colonias.

It seems to me that both the Congress and the President see the urgent needs of the colonias. But because of some technicalities that have arisen the colonias, at least 12 of the 14 colonias in my State of New Mexico, would not have qualified for this important funding without the technical change in this bill.

According to the Consolidated Farm and Rural Development Act, section 306C(a)(2), monies under this program will be distributed to a particular county only if that county's unemployment rate is not less than 125 percent of the national average and the per capita income of the residents is not more than 70 percent of the national average per capita income.

The majority of the colonias are located in Dona Ana County in my State of New Mexico.

Mr. President, presently the county of Dona Ana, does not qualify because its unemployment rate ranges around 110 percent of the national average. This is due, in part, because Dona Ana is a very large county and includes the thriving city of Las Cruces, New Mexico State University and the White Sands missile range which bring down the county's overall unemployment rate.

Because the county does not qualify, the colonias in that county would not have received funding under this initiative. The colonias and the surrounding rural areas in Dona Ana County paint a much gloomier picture than the city of Las Cruces. I believe the colonias are well above 125 percent of the national unemployment average.

Mr. President, the technical change in this bill will amend section 306C(a)(2) of the consolidated farm and rural development to include a rural area which was recognized as a colonia as of October 1, 1989.

Because of this technical change the colonias in Dona Ana County, as well as colonias in other counties, will have a chance to receive funding to address their water and wastewater needs.

ENTERPRISE FOR THE AMERICAS INITIATIVE ACT OF 1992

Mr. FORD. Mr. President, I ask unanimous consent that the Agriculture Committee be discharged from further consideration of H.R. 4059, the Enterprise for the Americas Initiative Act of 1992; that the Senate proceed to its immediate consideration; that the bill be deemed read three times, passed, and the motion to reconsider laid upon the table; and that any statements relating to this bill appear in the RECORD at the appropriate place.

The PRESIDING OFFICER. Without objection, it is so ordered.

So the bill (H.R. 4059) was deemed read the third time and passed.

DESIGNATING CERTAIN LAND IN MISSOURI AS PART OF THE MARK TWAIN NATIONAL FOREST

Mr. FORD. Mr. President, I ask unanimous consent that the Agriculture Committee be discharged from further consideration of H.R. 6014, a bill to designate certain land in the State of Missouri as part of the Mark Twain Memorial Forest; that the Senate then proceed to its immediate consideration; that the bill be deemed read three times, passed, and the motion to reconsider laid upon the table; and any statements appear in the RECORD at the appropriate place.

The PRESIDING OFFICER. Without objection, it is so ordered.

So, the bill (H.R. 6014) was deemed read the third time and passed.

PRESCRIPTION DRUG USER FEE ACT OF 1992

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of H.R. 6181, the FDA user fee bill, now at the desk; that the bill be read three times and passed; the motion to reconsider be laid upon the table; and any statements thereon appear in the RECORD at the appropriate place.

The PRESIDING OFFICER. Without objection, it is so ordered.

So, the bill (H.R. 6181) was deemed read the third time and passed.

Mr. DURENBERGER. Mr. President, I rise to express my personal concern over the manner in which this Congress has decided to introduce user fees on America's drug products for purposes of accelerating Food and Drug Administration approval of new drugs.

My concerns are twofold. They relate to specific problems relevant to the structure of the legislation itself. But I am also troubled by its implications for broader issues of health policy.

I am not opposed to user fees in principle. I believe that those who benefit from Government should share in its expense. Clearly, the FDA is a world leader in assuring the safety and effectiveness of our drug supply for the American people, so tax dollars should help support this agency.

And, unquestionably, the pharmaceutical industry is one of the most prosperous in the Nation. Drug companies benefit enormously from efficient FDA review. The industry recognizes that a faster drug review process will get their products to the market more quickly and generate revenues as a result. The New York Times on August 11, 1992, noted, "It costs an average of $10 million a month, per drug, for every additional month of delay that a product is held off the market."

However, I am skeptical that greater regulatory efficiencies will be accomplished under this bill. Indeed, the result may be just the opposite. This bill could institutionalize inefficiency and cause other unanticipated side effects.

My trepidation is based on the dramatic promises made by Dr. David Kessler, the present FDA Commissioner, to reduce drug application review times. At the one and only hearing on this subject, held by the Labor and Human Resources Committee on September 15, 1992, he said this would be accomplished by hiring 600 new staff with the revenue from new user fees.

I have heard many complaints from my constituents and others in the medical technology industry about the FDA's inexplicable delays, seemingly unrelated to issues of safety and effectiveness.

How do we know that these additional staff reviewers will not represent "business as usual"? How do we know that user fees will not just buy more people doing the status quo? What problems will the FDA experience in recruiting qualified, competent medical reviewers?

What we have here, Mr. President, is authorization for a tax on consumer drug purchases premised on a promise of an FDA commissioner.

Although we have been assured that Dr. Kessler's letter was approved by the Department of Health and Human Services and the Office of Management and Budget, we have received no written assurances that the new employees necessary to achieve the goals set forth by Dr. Kessler will be exempt from personnel and consultant services restrictions. If they are not, this grand hiring scheme might fall through.

I am also concerned about the timing of this bill. Why now? The Secretary has asked the FDA to prepare a strategic plan which will establish goals for the agency into the 21st century. Before that project is completed, we are creating a system of user fees that builds upon the status quo. Wouldn't it be better to establish these fees after the strategic plan is complete, and the agency develops a more efficient system of assuring the safety and effectiveness of drugs?

User fees will not solve all of the problems that the FDA faces and that the FDA must solve. In my book, throwing money at a problem has never led to beneficial or long-lasting solutions to many challenges.

Moreover, Dr. Kessler's dramatic promises focus only on review times for drugs. Will this quest to reduce review times twofold and threefold divert resources from other activities of the agency? Will the pressure to meet the deadlines overemphasize drugs at the expense of other obligations and duties? Will anticipated efficiencies in one area of FDA responsibility lead to neglect of other critically important duties like medical device approvals?

Whenever we look at pharmaceutical issues in the narrow context of the FDA, I am troubled by larger health policy questions. Why is the organized pharmaceutical industry so enthusiastic about paying millions of dollars in fees to the Government? Are we just bolstering a revenue stream from an industry whose prices are soaring, according to the GAO?

Surely these fees either will be added to the price of approved drugs, or we will all pay more through expanded sales. Given the grave concerns on both sides of the aisle about cost containment, we should not impose these new costs on this health care industry without careful thought.

I recognize that many pharmaceuticals provide significant benefits to many patients. However, we remain poorly equipped, in both the public and private sector, to deal with issues of the cost-effectiveness of drugs. Pricing strategies of drug companies are not well-understood. Drug buyers, whether they are doctors or patients, are often not armed with comparative price and efficacy information.

I am not unmindful of the enormous investments that drug firms make in research and development. However, I am also troubled by the fact that American consumers pay for all the costs of the innovation. We are the only developed nation that does not control drug prices. Many foreign buyers pay far less than Americans do for identical drugs.

I realize that some Members are enthusiastic about this user fee proposal. I also recognize that organized representatives of the drug industry have been pushing hard for it.

I believe this bill requires a leap of faith. Has either the FDA or the drug industry earned such a leap? We shall see.

As a member of the Labor and Human Resources Committee, and as a Senator deeply committed to health care reform, I will watch the progress of this experiment with great care.

At this point I ask unanimous consent that a news report from the Washington Post of October 7, 1992, be printed in the RECORD.

There being no objection the article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Oct. 7, 1992]

HOUSE GIVES VITAMIN MAKERS A BREAK

(By Carole Sugarman)

In an unusual case of bicameral bartering, the House yesterday passed legislation that would give vitamin supplement manufacturers a one-year break from conforming to new labeling requirements designed to curb misleading health claims.

The same House bill also gives the Food and Drug Administration authority to charge user fees to pharmaceutical companies applying for new drug applications.

The bill addressing two completely different issues is the result of a deal struck between Sen. Orrin G. Hatch (R–Utah)—whose state's vitamin manufacturers are a $700 million industry—and Rep. John D. Dingell (D–Mich.), Rep. Henry A. Waxman (D–Calif.) and Sen. Edward M. Kennedy (D–Mass.). Those Democrats have been pushing for fees from pharmaceutical companies, which will go toward improving FDA resources for expediting new drug applications.

Hatch said he would not oppose the Democratic wish to impose user fees so long as the one-year moratorium was granted to vitamin manufacturers, according to sources.

Yesterday, Hatch said he wanted the one-year period to develop "a more intelligent approach" to regulating vitamin supplements, and complained that the "FDA appears to be trying to impose severe prior restraints" on supplement manufacturers.

The bill would exempt makers of vitamin and mineral pills, herbs and similar "alternative-medicine" products from FDA regulations to be issued in November. The new set rules were drafted to cover food and supplement manufacturers who make claims that their products may reduce the risk of a disease.

Since 1938, the government has prohibited food or supplement manufacturers from making claims that their products reduce the risk of a disease. But in recent years, some food and supplement manufacturers have circumvented the law, and the federal government has done little to enforce it, critics say.

Under the 1990 Nutrition Labeling and Education Act (NLEA), manufacturers may only make health claims if the FDA determines they are supported by "significant agreement" within the scientific community. If a claim is not approved by the FDA, manufacturers may not use it.

The House bill passed yesterday still would allow supplement manufacturers to make health claims approved by the FDA, but would not specifically prohibit them from making unapproved claims.

Bruce Silverglade, director of legal affairs for the Center for Science in the Public Interest, a consumer advocacy group, said the bill passed yesterday "provides the supplement industry with a license to continue barraging the public with misleading and potentially dangerous health claims for products such as milk thistle extract promoted as providing protection from the ill effects of air pollution." The 1938 law still will apply to supplement manufacturers, Silverglade said, "but it's not much reassurance to the consumer, because [the law] hasn't been enforced."

The legislation comes in the midst of a highly charged debate between vitamin manufacturers—who mounted a public-information campaign suggesting that the FDA's new rules would amount to a ban on supplements—and the FDA, which has long opposed the use of supplementation for the general public. FDA officials said the NLEA is a labeling law that was not intended to prohibit vitamin sales.

FDA officials declined to comment on yesterday's House action pending the outcome of a companion bill slated to be introduced in the Senate this week.

Mr. KENNEDY. Mr. President, the Prescription Drug User Fee Act of 1992 offers a major opportunity to improve the drug review and approval process of the Food and Drug Administration. The idea of asking drug manufacturers to pay user fees to expedite the drug review and approval process has been considered for several years. But it acquired new urgency in 1991, when the Edwards Committee's report on FDA reform urged Congress and the private sector to rely on industry funding to supplement the annual Federal appropriation.

Unitil recently, there has been no agreement on fundamental issues such as the amount of the user fees, the base they would be assessed on, and the services to be carried out by the FDA. However, in recent months, significant progress has been made in consultations with Congress, consumers, industry and the administration.

The bill that Senator HATCH and I offer today has already been passed by the House. The legislation is the result of welcome bipartisan cooperation by Numbers of both the House and Senate. The statutory proposal has been carefully designed to ensure that the fees are reasonable, and that all funds collected go only for those activities directly related to the FDA drug review and approval process. All of us who have worked on this legislation are gratified by the strong support of prescription drug manufacturers for this approach.

The legislation establishes three kinds of user fees: First, drug manufacturers will pay a fee for each new drug application; in the first year, the fee will be $100,000, second, and it will rise to $233,000 by the fifth year; second, manufacturers will pay an annual fee on each establishment which produces prescription drug products; in the first year the fee will be $60,000, and it will rise to $138,000 in the fifth year; third, manufacturers will pay an annual fee for each prescription drug product marketed; the fee will be $5,000 per product in the first year, and it rises to $14,000 in the fifth year.

The fee schedule was developed in cooperation with industry, and represents a consensus about how best to structure an orderly expansion of the FDA's current drug review and approval capabilities. Because the fees are raised by three different methods, no single user fee will be excessively large. Any of the three fees may be reduced or waived by the Secretary of Health and Human Services to protect small businesses, or to minimize economic barriers for the development of drugs that are important for public health.

It is estimated that in fiscal year 1993 the fees established in this legislation will raise $36 million. In fiscal year 1997, approximately $94 million will be raised, and the 5-year total will be an estimated $337 million. FDA currently expands approximately $120 million per year for drug application review. The user fees will therefore provide about a one-third increase in the FDA budget for this purpose. The annual Federal appropriations for FDA must keep pace with overall domestic spending increases or the user fees will not take effect. In other words, the fees must supplement, not replace, Federal funds.

The need for this legislation is obvious. The current Federal budget situation offers little prospect that adequate resources will be available to the FDA to do the job it should be doing in the years ahead. Without the additional funds that user fees will provide, the FDA faces the prospect of being unable to keep up with new scientific advances. Applications for clinical drug investigations have nearly doubled in the last decade. In the vital area of biotechnology, the number of applications has increased from 1 to 299.

While applications have risen sharply, FDA staff resources have declined. The mismatch between accelerating pharmaceutical research and declining FDA resources is severely delaying the health benefits of medical advances, and some remedy must be found. Without additional funds, we risk a serious bottleneck in the FDA approval process.

The legislation that Senator HATCH and I are putting forward today will raise over $300 million in the next 5 years, and provide resources to hire up to 600 new medical reviewers. In return, FDA Commissioner Kessler has developed a set of specific performance goals that will enable the agency to cut approval times dramatically—almost in half. The goal is to cut review times down to 6 months for applications for most breakthrough drugs, and 12 months for most standard applications. The Commissioner has also committed the agency to a timetable for eliminating current backlogs of applications. These actions will have a significant, long-term impact on health care in this country. Faster drug approval will save patients' lives, and benefit the industry too.

At the time, we must ensure that user fees are not a disincentive to the development of new drugs by small businesses, especially innovative biotechnology firms. The legislation contains reduced fees for small businesses, and allows a complete waiver of fees in special circumstances. We will continue to monitor this measure to see that users fees do not retard the development of promising therapies.

The bill establishes limited fees for over-the-counter drugs. These fees will provide an additional $300,000 per year. The over-the-counter drug industry has already expressed a willingness to explore the establishment of additional user fees, including fees on drug establishments and products.

The bill also instructs the Secretary of Health and Human Services to conduct a study of the advisability of user fees for veterinary drugs.

In a time of severe budgetary constraints, we have a unique opportunity to achieve a quantum jump in FDA's performance.

In addition, title II of the bill institutes a moratorium on the implementation of the Nutrition Labeling and Education Act of 1990 [NLEA] with respect to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances. The NLEA provides a framework for major improvements in the nutrition information provided on foods, and establishes guidelines for health claims that will be permitted on foods and dietary supplements. The new legislation requires the Secretary of Health and Human Services to develop new proposed regulations by June 15, 1993, applicable to dietary supplements and to issue final regulations by December 31, 1993. The moratorium will also postpone the implementation of changes in the method used by the Federal Government to determine recommended daily allowances of essential nutrients.

The purpose of the moratorium is to provide additional time for Congress, the Department of Health and Human Services, consumer groups, industry, and other affected parties to consider the public health issues associated with use of dietary supplements.

I urge my colleagues to vote to adopt this important measure.

TITLE I: PRESCRIPTION DRUG USER FEES

H.R. 6181 is similar to an earlier House-passed bill (H.R. 5952) on prescription drug user fees. Explanation of the legislative intent for parts of the two bills that are the same are contained in the committee report for H.R. 5952. Senator HATCH and I have agreed to the following statement of explanation as to the legislative intent of the sections of the bills that have been changed or would benefit from additional comment.

Section 735(1) excludes from the definition of "human drug application" those applications or licenses for the approval of the following products: Whole blood or a blood component for transfusion; a bovine blood product for topical application licensed before September 1, 1992; an allergenic extract product; an in vitro diagnostic biologic product licensed under section 351 of the Public Health Service Act; or a large volume parenteral drug product approved before September 1, 1992.

Sections 735(1) and 735(3) of the bill exempt both bovine blood products licensed before September 1, 1992 and large volume parenteral drug products [LVP's] approved before September 1, 1992 from the definition of human drug application and prescription drug product.

For the purposes of this bill, bovine blood products for topical application include thrombin products which are approved for use during surgery to reduce bleeding and speed blood clotting.

For the purposes of this bill, large volume parenterals are single-dose sterile fluids that are intended for parenteral or irrigation use in humans and packaged in containers containing 100 milliliters or more. Some examples of LVP's include caloric supplements, fluid and electrolyte replacements or replenishers, blood washing solutions and irrigating solutions. The prior approval process and regulatory status of previously approved LVP's is similar to generic drugs. Because generic drugs are excluded from user fees under the bill, previously approved LVP's will also be excluded from fee requirements.

For the purposes of this bill, renovation means remodeling or alternation, conversion or reconfiguration of a buildings' interior spaces, systems, and feature or exterior surfaces and openings to meet the space and housing requirements of client agencies.

In section 736(b)(2), provision is made for small businesses, that is those with less than 500 employees, to pay only 50 percent of the drug application fee if the company does not already have a prescription drug product on the market. The bill also allows manufacturers to defer payment of application fees until 1 year after the date of submission of the application to the FDA.

This deferral is designed to allow startup companies an additional period of time to raise the capital needed to successfully develop a product. The bill's sponsors believe that the 1-year deferral will be of particular assistance to small companies attempting to develop products in research intensive areas such as biotechnology.

During discussion of the legislation, concerns were raised about fees applicable to applications which included multiple strengths or potencies of a drug. The bill's sponsors would like to clarify that for the purposes of this act, a human drug application which included several different strengths or potencies would be subject to a single application fee.

The bill's sponsors would also like to address concerns that have been raised regarding whether generic drugs would be covered under the act. The bill defines "prescription drug product" as a drug for which a human drug application has been approved. The definition of "human drug application" does not include generics approved under an abbreviated new drug application [ANDA] in section 505(j). The definition of prescription drug establishment is defined as a place where prescription drug products are made. Thus, by its terms the definition of "prescription drug establishment" excludes generics approved under an ANDA under 505(j). Similarly, a product fee only applies to each prescription drug product, as defined in the bill. As stated, the definition of "prescription drug product," which incorporates the definition of "human drug application," excludes generic drugs and all paper new drug applications, except for certain new indications or new chemical entities.

Section 736(d) directs the Secretary to grant a waiver or reduction of one or more fees in situations where the waiver is necessary to protect the public health or where the fee would pose a barrier to innovation. The bill's sponsors do not intend for the fees authorized under this act to serve as a disincentive to the research and development of important prescription drug products, nor should the fees impose an undue financial burden on any company.

The bill's sponsors intend the Secretary to construe broadly, on a case-by-case basis, the appropriateness of fee waivers or reductions. A key assessment in making such waiver decisions clearly should be the extent to which application, product or establishment fees may interfere with a company's ability to develop a specific innovative product. However, it is also expected that the Secretary will consider the financial burden imposed by fees on the ability of companies, especially small companies, to continue innovative research and development programs. In section 736(d)(2) the Secretary is granted broad authority to provide fee waivers for circumstances other than resource limitations in order to allow maximum flexibility to limit barriers to innovation.

Orphan drugs are often developed by small companies and usually have limited commercial potential because of small patient populations. The bill's sponsors are aware that companies may be discouraged from pursuing orphan drug research if any additional constraints are placed on the resources available for this purpose. Accordingly, except in the rare situation in which the commercial potential of a specific orphan drug product is clearly adequate to assure development of the product, the bill's sponsors assume that fees will be waived for orphan drugs.

The bill defines the costs of resources allocated for human drug application review, and describes the additional resources needed to ensure successful implementation of an enhanced prescription drug approval program.

The intent of the legislation is to provide for additional full-time equivalent [FTE] positions to be dedicated to the drug approval process. The bill clarifies that the full-time equivalent positions, including Senior Executive Service and Biomedical Research Service, are intended to be additive to existing personnel levels and should not be offset by FTE losses in other parts of the FDA, PHS or the Departments of Health and Human Services.

TITLE II: DIETARY SUPPLEMENTS

The purpose of title II of this legislation is to institute a moratorium, through December 31, 1993, on the implementation of the provisions of the Nutrition Labeling and Education Act of 1990 (Public Law 101-535; 104 Stat. 2353) [NLEA] with respect to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances.

Dietary supplements can play a beneficial role in nutrition. We encourage efforts to continue rigorous scientific research, conducted by qualified experts, into the function of dietary supplements.

This title will permit the Congress and the Food and Drug Administration [FDA] of the U.S. Department of Health and Human Services [HHS] to examine issues related to the regulation of dietary supplements and specifically the provisions of the NLEA as they relate to these products.

As both the statutory text and legislative record reveal, the NLEA primarily addresses food products. Because of the differences in the history of use and function of dietary supplements and conventional foods, it is appropriate for Congress to enact this moratorium so that the issue of how best to regulate dietary supplements may be carefully considered.

Specifically, this legislation creates a moratorium in the implementation of the NLEA with respect to dietary supplements. This legislation also requires the Secretary to repropose NLEA regulations applicable to dietary supplements no later than June 15, 1993. Final regulations will be issued by December 31, 1993.

The moratorium will provide time for the Congress, HHS, consumer groups, industry, and other affected parties to identify more fully and to consider the public health issues associated with use of dietary supplements, and to develop a comprehensive approach for reforming the regulation of dietary supplements.

The general policy goal is clear: The American public must be assured that the dietary supplements they choose to consume are safe, made to quality standards, bear informative labeling, and that health or disease-related claims are properly supported. Both the regulator—the FDA—and the regulated—including manufacturers, distributors, and suppliers of dietary supplements—have important responsibilities in meeting this goal. In attempting to improve the regulatory framework for these products, the moratorium will advance this goal.

The FDA has proposed that the existing U.S. recommended daily allowances [U.S. RDA's] be replaced as the food label standard for vitamins and minerals by a new concept, the reference daily intakes [RDI's]. The NLEA does not mandate changing the U.S. RDA and does not contain the RDI concept. This legislation enacts a moratorium delaying the implementation of the RDI proposal in order to allow additional time for obtaining a thorough assessment of the scientific rationale for any proposed changes from the existing U.S. RDA's.

While this moratorium is in effect, dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances not in the form of conventional food shall be subject to the provisions of the Federal Food, Drug, and Cosmetic Act [FFDC Act], as in effect on November 7, 1990. Under the terms of the moratorium, the labeling of dietary supplements may contain claims identified under clauses (vi) and (x) of section 3(b)(1)(A) of the NLEA for which the Secretary determines that a significant scientific agreement exists.

Two studies are called for by this act. The first will be conducted by the Comptroller General to determine how FDA utilizes resources to regulate potential health risk and risk from deception with respect to using dietary supplements. The second study requests the Office of Technology Assessment to examine how other industrialized countries regulate dietary supplements and the health effects of these regulatory schemes.

During the moratorium, it is expected that attention will be focused on the issue of what standards and procedures should be applied to dietary supplements, including standards for claims under section 403(r)(5)(D) of the FFDC Act. In order to take advantage of the new information and developments that may occur under the moratorium, it is possible that FDA may wish to propose new regulations, guidelines, and enforcement criteria affecting dietary supplements, or to repropose rules under section (r)(5)(D) of the NLEA.

In the course of the moratorium, FDA's enforcement policies and practices with respect to dietary supplements will be examined. While it is clear that the existing legal mechanisms will continue to be in effect during the moratorium, one of the key questions to be considered next year is the proper role of the food additive provisions contained in section 409 of the FFDC Act in the regulation of dietary supplements and whether section 409 should be replaced by a new statutory standard for dietary supplements.

Mr. BINGAMAN. Mr. President, I rise in support of the Dietary Supplement Act of 1992, and I commend Senator HATCH for his leadership and hard work on this issue. Two weeks ago, the Senate overwhelmingly approved an amendment similar to the one before us today. Unfortunately, the amendment was dropped in conference, making today's action necessary.

The Dietary Supplement Act of 1992 accomplishes four key objectives. it would:

First, impose a 14-month moratorium on the Food and Drug Administration's proposed health claims labeling regulations for dietary supplements;

Second, direct the Commissioner to review the proposed dietary supplement regulations and re-issue proposed regulations by June 15, 1993;

Third, authorize three studies, by the Department of Health and Human Services, the General Accounting Office, and the Office of Technology Assessment, on the issue of dietary supplement regulation; and

Fourth, freeze for 1 year the promulgation of any regulation that requires the use of RDI's, or reference daily intakes, in labeling, as a replacement for RDAs, or recommended daily allowances, in labeling.

Mr. President, this measure does not impact in any way the FDA's existing authority to monitor the safety of dietary supplements, vitamins, and minerals. That authority—and duty—exists now, and it will continue to exist. This measure simply gives us time to develop a comprehensive, thoughtful, and fair solution to the question of dietary supplement regulation, which has confused the Federal Government and the American people for decades.

More important, this amendment gives us time to educate ourselves on the intent, scope, and effect of the proposed regulations. Based on the amount of anxiety caused by the proposed regulations and encouraged by a national antiregulation campaign, I believe we need the time this measure would give us. We need time to better educate the health conscience public on the intent and scope of any regulatory proposal. We need time to ensure that the regulations are fair to the manufacturers, wholesalers, and distributors of dietary supplements, many of whom own small businesses and fear for their livelihoods. We need time to ensure that this group of businessmen and businesswomen clearly and fully understand the scope of the regulations and their responsibilities when making health claims. And as I mentioned earlier, we need time to better develop and articulate the Federal Government's role vis-a-vis the manufacture, packaging, and sale of dietary supplements.

Mr. President, I did not reach the decision to advocate a delay lightly. In fact, since my election to the Senate, I have spent much more time and energy urging the administration to implement regulations than I have spent advocating delay. I am proud to have been a cosponsor and strong supporter of the Nutrition Labeling and Education Act. I worked for 6 years to get the National Nutrition Monitoring Act signed into law and implemented. I founded HealthNet New Mexico 7 years ago to try to help New Mexicans improve their cardiovascular and physical fitness, stop smoking, and eat healthful foods. This year, Senator COHEN and I introduced the Healthy Students-Healthy Schools Act, a bill to help states and localities establish comprehensive, high quality health education programs in all schools, from kindergarten through 12th grade.

I care about the health status of all Americans, Mr. President, and I firmly believe that each and every one of us has the right to know whether the health claims we read in magazines and see on store shelves are truthful and scientifically valid. Yet today, there are compelling reasons to delay implementation of the proposed rules:

First, the statutory classification of dietary supplements, for purposes of regulation, remains unclear. Should dietary supplements be treated as foods, drugs, or a new, third category? Should dietary supplement health claims be regulated in the same manner food product health claims are currently regulated? Or should we create a new system that would allow the FDA to issue a seal of disclaimer or approval with respect to dietary supplement health claims? These are questions that need to be thoughtfully resolved.

Second, the final report and recommendations of the commissioner's dietary supplements task force have not been made public, but should contain important, expert information on how best to proceed in this area. Adding to our basis of knowledge will be the newly commissioned reports by the DHHS, the GAO, and the OTA and Congressional oversight hearings, to be conducted in the 103d Congress.

Third, finally, as I mentioned earlier, there is a great need to educate the consuming public about the true intent, scope, and effect of the Nutrition Labeling and Education Act and any proposed regulations. This has not been done. Too many consumers believe that on November 9, 1992, the day after the regulations are scheduled to go into effect, that the vitamins, minerals, and other dietary supplements they use will be stripped from the shelves. They believe many of the vitamins they depend on will no longer be available without a prescription from a licensed medical doctor. Neither one of these scenarios is true. Vitamins, minerals, and other dietary supplements will continue to be available, without prescription. Only the labels—and unsubstantiated health claims—will change because the proposed regulations deal only with health *claims*. This needs to be made clear to the American public, and any lingering questions should be resolved when the proposed regulations are republished next summer.

I urge my colleagues to support the Dietary Supplement Act of 1992 and this amendment and to work with us on this issue when the 103d Congress convenes in January.

Mr. KENNEDY. Mr. President, I ask unanimous consent that a joint statement by myself and Senator HATCH be printed in the RECORD at this point.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

JOINT STATEMENT OF SENATOR EDWARD M. KENNEDY AND SENATOR ORRIN HATCH

Mr. President, the Prescription Drug User Fee Act of 1992 represents a major opportunity to improve the drug review process of the Food and Drug Administration [FDA]. The idea of charging user fees to drug manufacturers to help expedite the drug review and approval process has been around for several years. But it acquired greater urgency in 1991, when the Edwards committee's report on FDA reform urged Congress and the private sector to seek industry funding to supplement the annual public appropriations.

Until recently, there has been no agreement on fundamental issues such as the nature of the user fees to be charged, and the type of services to be carried out by the FDA. However, over the last several weeks significant progress has been made in consultation between Congress, consumers, industry, and the administration.

This legislation is the result of tremendous bipartisan cooperation by Members of both bodies of Congress. The statutory framework has been carefully designed to ensure that the fees are reasonable, and that all monies collected go only for those activities directly related to the FDA drug review and approval process. All of us that have worked on this legislation have been very pleased by the enthusiastic support offered by prescription drug manufacturers.

The need for this legislation is obvious. The current Federal budget situation offers little prospect that adequate resources will be available to the FDA to do the job it should be doing in the years ahead. Without the additional funds that user fees would provide, the FDA faces the prospect of being unable to keep up with new scientific advances. Applications for clinical drug investigations have nearly doubled in the last decade. In the vital area of biotechnology, the number of applications has increased from 1 to 299.

However, FDA staff resources have declined for most of that period. The mismatch between accelerating pharmaceutical research and declining FDA resources is severely delaying the health benefits of medical advances, and some remedy must be found.

Without additional funds, we risk a serious bottleneck in the FDA approval process. The legislation that Senator HATCH and I are putting forward today will raise over $300 million over 5 years and provide resources to hire up to 600 new medical reviewers. In return, FDA Commissioner Kessler has articulated a set of specific performance goals that will enable the agency to cut approval times dramatically—almost in half. The goal is to cut review times down to 6 months for applications for most breakthrough drugs, and 12 months for most standard applications. The Commissioner has also committed to a timetable for eliminating backlogs of overdue applications. These actions would have a significant, long-term impact on health care in this country.

Faster drug approval will save patients' lives, and benefit the industry too. At the same time, we must ensure that user fees does not become disincentives to the development of new drugs by small businesses, especially innovative biotechnology firms. The legislation contains reduced fees for small businesses, and allows a complete waiver of fees in special circumstances. We will continue to work to see that user fees do not retard the development of promising therapies.

The bill includes limited fees for over-the-counter [OTC] drugs that will provide approximately $300,000 per year. More importantly, the OTC industry has already expressed a willingness to explore additional user fees, including fees on drug establishments and products. The bill also instructs the Secretary of Health and Human Services to conduct a study of the advisability of user fees for the animal drug industry.

In a time of severe budgetary constraints we have a unique opportunity to improve FDA's performance. I urge my colleagues to vote to adopt this important measure.

TITLE I: PRESCRIPTION DRUG USER FEES

Senator HATCH and I have agreed to the following statement of explanation as to the legislative intent. The proposed amendments leave intact most of the language from the House bill, and the managers make reference to the legislative history of the House report for all issues not explicitly addressed by our comments:

Section 735(1) is amended to exclude from the definition of "human drug application" those applications or licenses for the approval of the following products: whole blood or a blood component for transfusion; a bovine blood product for topical application licenses before September 1, 1992; an allergenic extract product; an in vitro diagnostic biologic product licensed under section 351 of the Public Health Service Act; or a large volume parenteral drug product approved before September 1, 1992. Whole blood, allergenic extracts and in vitro diagnostic biologic products were unintentionally included in the definition of human drug application in the House bill. The Senate amendments rectify the omission in the House bill.

Sections 735(1) and 735(3) of the Senate amendments except both bovine blood products licensed before September 1, 1992 and large volume parenteral drug products [LVP's] approved before September 1, 1992 from the definition of human drug application and prescription drug product.

For the purposes of this bill, bovine blood products for topical application include thrombin products which are approved for use during surgery to reduce bleeding and speed blood clotting.

For the purposes of this bill, large volume parenterals are single-dose sterile fluids that are intended for parenteral or irrigation use in humans and packaged in containers containing 100 milliliters or more. Some examples of LVP's include caloric supplements, fluid and electrolyte replacements or replenishers, blood washing solutions and irrigating solutions. The prior approval process and regulatory status of previously approved LVP's is similar to generic drugs. Because generic drugs are excluded from user fees under the bill, previously approved LVP's will also be excluded from fee requirements.

For the purposes of this bill, "renovation" means remodeling or alteration, conversion or reconfiguration of a buildings' interior spaces, systems, and feature or exterior surfaces and openings to meet the space and housing requirements of client agencies.

The House passed bill allowed a small business with less than 500 employees to pay only 50 percent of the drug application fee if the company did not already have a prescription drug product on the market. In section 736(b)(2) the Senate amendments retain the 50-percent fee reduction for small business and add an additional benefit for small business. The amendments allow manufacturers to defer payment of application fees until 1 year after the date of submission of the application to the FDA.

This deferral is designed to allow start-up companies an additional period of time to raise the capital needed to successfully develop a product. The bill's sponsors believe that the 1-year deferral will be of particular assistance to small companies attempting to develop products in research intensive areas such as biotechnology.

During discussion of the legislation, concerns were raised about fees applicable to applications which included multiple strengths or potencies of a drug. The bill's sponsors would like to clarify that for the purposes of this act, a human drug application which included several different strengths or potencies would be subject to a single application fee.

The bill's sponsors would also like to address concerns that have been raised regarding whether generic drugs would be covered under the act. The bill defines "prescription drug product" as a drug for which a "human drug application" has been approved. The definition of "human drug application" does not include generics approved under an abbreviated new drug application [ANDA] in section 505(j). The definition of prescription drug establishment is defined as a place where "prescription drug products" are made. Thus, by its terms the definition of "prescription drug establishment" excludes generics approved under an ANDA under 505(j). Similarly, a product fee only applies to each "prescription drug product," as defined in the bill. As stated, the definition of "prescription drug product," which incorporates the definition of "human drug application," excludes generic drugs and all paper new drug applications, except for certain new indications or new chemical entities.

Section 736(d) directs the Secretary to grant a waiver or reduction of one or more fees in situations where the waiver is necessary to protect the public health or where the fee would pose a barrier to innovation. The bill's sponsors do not intend for the fees authorized under this act to serve as a disincentive to the research and development of important prescription drug products, nor should the fees impose an undue financial burden on any company.

The bill's sponsors intend the Secretary to construe broadly, on a case-by-case basis, the appropriateness of fee waivers or reductions. A key assessment in making such waiver decisions clearly should be the extent to which application, product or establishment fees may interfere with a company's ability to develop a specific innovative product. However, it is also expected that the Secretary will consider the financial burden imposed by fees on the ability of companies, especially small companies, to continue innovative research and development programs. In section 736(d)(2) the Secretary is granted broad authority to provide fee waivers for circumstances other than resource limitations in order to allow maximum flexibility to limit barriers to innovation.

Orphan drugs are often developed by small companies and usually have limited commercial potential because of small patient populations. The bill's sponsors are aware that companies may be discouraged from pursuing orphan drug research if any additional constraints are placed on the resources available for this purpose. Accordingly, except in the rare situation in which the commercial potential of a specific orphan drug product is clearly adequate to assure development of the product, the bill's sponsors assume that fees will be waived for orphan drugs.

The bill defines the costs of resources allocated for human drug application review, and describes the additional resources needed to ensure successful implementation of an enhanced prescription drug approval program.

The intent of the legislation is to provide for additional full-time equivalent [FTE] positions to be dedicated to the drug approval process. The bill clarifies that the full-time equivalent positions, including Senior Executive Service and Biomedical Research Service, are intended to be additive to existing personnel levels and should not be offset by FTE losses in other parts of the FDA, PHS or the Departments of Health and Human Services.

TITLE II: DIETARY SUPPLEMENTS

The purpose of the Dietary Supplement Act of 1992 is to institute a moratorium, through December 31, 1993, on the implementation of the provisions of the Nutrition Labeling and Education Act of 1990 (Public Law 101-535; 104 Stat. 2353) [NLEA] with respect to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances.

Dietary supplements can play a beneficial role in nutrition. We encourage efforts to continue rigorous scientific research, conducted by qualified experts, into the function of dietary supplements.

The Dietary Supplement Act of 1992 will permit the Congress and the Food and Drug Administration [FDA] of the U.S. Department of Health and Human Services [HHS] to examine issues related to the regulation of dietary supplements and specifically the provisions of the NLEA as they relate to these products.

As both the statutory text and legislative record reveal, the NLEA primarily addresses food products. Because of the differences in the history of use and function of dietary supplements and conventional foods, it is appropriate for Congress to enact this moratorium so that the issue of how best to regulate dietary supplements may be carefully considered.

Specifically, this legislation creates a moratorium in the implementation of the NLEA with respect to dietary supplements. This legislation also requires the Secretary to repropose NLEA regulations applicable to dietary supplements no later than June 15, 1993. Final regulations will be issued by December 31, 1993.

The moratorium will provide time for the Congress, HHS, consumer groups, industry, and other affected parties to identify more fully and to consider the public health issues associated with use of dietary supplements, and to develop a comprehensive approach for reforming the regulation of dietary supplements.

The general policy goal is clear: The American public must be assured that the dietary supplements they choose to consume are safe, made to quality standards, bear informative labeling, and that health or disease-related claims are properly supported. Both the regulator—the FDA—and the regulated—including manufacturers, distributors, and suppliers of dietary supplements—have important responsibilities in meeting this goal. In attempting to improve the regulatory framework for these products, the moratorium will advance this goal.

The FDA has proposed that the existing U.S. recommended daily allowances [U.S. RDA's] be replaced as the food label standard for vitamins and minerals by a new concept, the reference daily intakes [RDI's]. The NLEA does not mandate changing the U.S. RDA and does not contain the RDI concept. This legislation enacts a moratorium delaying the implementation of the RDI proposal in order to allow additional time for obtaining a thorough assessment of the scientific rationale for any proposed changes from the existing U.S. RDA's.

While this moratorium is in effect, dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances not in the form of conventional food shall be subject to the provisions of the Federal Food, Drug, and Cosmetic Act [FFDC Act], as in effect on November 7, 1990. Under the terms of the moratorium, the labeling of dietary supplements may contain claims identified under clauses (vi) and (x) of section 3(b)(1)(A) of the NLEA for which the Secretary determines that a significant scientific agreement exists.

Two studies are called for by this act. The first will be conducted by the Comptroller General to determine how FDA utilizes resources to regulate potential health risk and risk from deception with respect to using dietary supplements. The second study requests the Office of Technology Assessment to examine how other industrialized countries regulate dietary supplements and the health effects of these regulatory schemes.

During the moratorium, it is expected that attention will be focused on the issue of what standards and procedures should be applied to dietary supplements, including standards for claims under section 403(r)(5)(D) of the FFDC act. In order to take advantage of the new information and developments that may occur under the moratorium, it is possible that FDA may wish to propose new regulations, guidelines, and enforcement criteria affecting dietary supplements, or to repropose rules under section (r)(5)(D) of the NLEA.

In the course of the moratorium, FDA's enforcement policies and practices with respect to dietary supplements will be examined. While it is clear that the existing legal mechanisms will continue to be in effect during the moratorium, one of the key questions to be considered next year is the proper role of the food additive provisions contained in section 409 of the FFDC act in the regulation of dietary supplements and whether section 409 should be replaced by a new statutory standard for dietary supplements.

MAMMOGRAPHY QUALITY STANDARDS ACT OF 1992

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to consideration of H.R. 6182, the mammography standards bill, now at the desk; that the bill be deemed read three times and passed; that the motion to reconsider be laid upon the table; and that any statements thereon appear in the RECORD at the appropriate place as though read.

The PRESIDING OFFICER. Without objection, it is so ordered.

So, the bill (H.R. 6182) was deemed read the third time and passed.

Mr. KENNEDY. The Mammography Quality Improvement Act of 1992 is an important part of our current initiatives in Congress on women's health. This bill is intended to establish uniform national standards to ensure the safety and accuracy of mammograms.

Breast cancer is the most common type of cancer in women. It is second only to lung cancer as the leading cause of cancer death in women age 15 to 54. A total of 181,000 new cases and 46,000 deaths are estimated in 1992. One in nine women will develop the disease at some point in their lives.

Mammography, when properly used, can detect breast cancer at an early stage when proper treatment has a high probability of cure. Mammography, itself, does not prevent or cure breast cancer. But its timely use is one of the most effective weapons we have against this deadly disease. Unfortunately, there is no guarantee that current procedures are safe and accurate.

Poor quality mammography poses a serious health threat to women. Mammograms are among the most difficult radiological examinations to perform and among the most difficult to read. If the image is poor or the interpretation is inaccurate, an early cancer can easily be missed.

Delays in diagnosis inevitably lead to delays in treatment and unnecessary deaths or mastectomies. False positive mammograms can lead to unnecessary biopsies or other procedures.

Currently, there is no uniform mammography quality assurance system. This legislation will assure that women will be able to seek out facilities that have been inspected and certified to meet high standards, and that will provide greater assurance of quality care.

The pending legislation establishes quality assurance standards for all facilities providing mammography. Such facilities must use only radiological equipment designed specificially for mammography. They must use only qualified personnel to perform the radiological imaging, and use only qualified rediologists to interpret the results. They must establish a program for quality assurance and control.

In addition, all mammography facilities must receive certification by the Department of Health and Human Services that the facilities meet basic standards for equipment, personnel, and quality. The facilities must have an annual on-site inspection, and must be accredited as a condition of receiving such certification.

If a facility fails to obtain certification or is not in compliance with the quality standards established by the legislation, the Secretary may impose sanctions in lieu of revoking, suspending or limiting a certificate. The first priority of the bill is to restore a mammography facility to compliance through a plan for corrective action which is developed by the Secretary.

When used properly mammography can be a life-saving procedure, and we must do all we can to assure that it is used effectively. This legislation is a major advance in assuring that women will receive quality mammography service.

I commend Senator ADAMS and the other Members of the Senate who have worked closely with us to develop this bipartisan measure, and I urge the Senate to appove it.

I ask unanimous consent that a summary of the bill be printed in the RECORD following my remarks.

There being no objection, the summary was ordered to be printed in the RECORD, as follows:

BILL SUMMARY—MAMMOGRAPHY QUALITY STANDARDS ACT OF 1992

The bill establishes national, uniform quality standards for mammography. All facilities providing mammography will be required to be certified by the Secretary of Health and Human Services as meeting quality standards for mammography established by the Secretary in the following areas: equipment, personnel, and quality assurance. Certification is for a three-year period and is renewable. Provisional certificates may be issued for new facilities and units. Provisional certificates are valid for six months, and may be extended only for 90 days, and then only in highly unusual situations.

The bill allows and encourages states to carry out the certification program requirements and to implement standards no less stringent than those of the national program.

The bill requires that facilities use only radiological equipment designed specifically for mammography.

The bill requires that facilities use only qualified radiological technologists to perform mammography. These individuals must meet state licensing requirements or be certified by the appropriate professional organizations. They must also meet ongoing training and education requirements.

The bill requires that facilities use only qualified physicians to interpret the results of the mammogram. These individuals must be either certified by an approved professional board or program to interpret mammography. They must also meet training and continuing medical education requirements.

The bill requires that all facilities establish a quality assurance and control program to ensure the reliability, clarity, and accurate interpretation of mammograms. In order to be certified by the Secretary, all facilities must undergo an on-site physics consultation and evaluation (i.e. survey) performed by a qualified medical physicist and submit the results of the survey to the accreditation body.

The bill requires that all facilities be inspected annually by qualified inspectors. The Secretary or State agency acting on behalf of the Secretary will conduct inspections of the beam quality, average glandular dose, phantom image quality and other features to ensure the facility is in compliance with the quality standards required in the bill.

The bill requires that facilities be accredited by an accrediting body approved by the Secretary. Approved accreditation bodies will provide comprehensive peer evaluation and oversight of all components of the mammography facility, including equipment and technical considerations, quality assurance and control programs, and the evaluation of the clinical image quality.

The bill requires that the Secretary establish sanctions. The Secretary may impose sanctions on facilities that do not comply with the certification requirements, including directed plans of correction, civil money penalties, and the cost for on-site monitoring. The Secretary may also suspend, revoke, or limit a certificate if the facility misrepresents itself or fails to comply with intermediate sanctions. The Secretary may shut down facilities that are a significant hazard to the public health.

The bill provides adequate funding to ensure that all facilities can be certified and inspected through the collection of fees to cover such costs, while research grants will be provided such funds as necessary through appropriations.

Mr. ADAMS. Mr. President, I rise today in support of H.R. 6182, the Mammography Quality Standards Act, which will establish national quality standards for mammography. This bill is long overdue. Most of us believe—or would like to believe—that we are getting the highest quality health care possible when we receive medical tests. Where mammography screening is concerned, this is too often not the case.

There is absolutely no guarantee that the mammogram a woman receives today is safe and accurate, even when her doctor recommends the facility. Nor is there a guarantee that the mammogram a woman receives is of the highest quality possible. There are no uniform quality standards for mammography that apply to all 11,000 mammography facilities in the United States. What we have is a disjointed patchwork of Federal, State, and private voluntary standards. And these overlapping and conflicting regulations are riddled with holes.

Congress is no stranger to this issue. We tried to establish quality standards for mammography under the Medicare Program as part of the catastrophic health coverage bill in 1988. When that bill was repealed, Congress passed a separate provision in 1990 to cover the cost of breast cancer screening of women eligible for Medicare, and require again that mammography facilities meet key quality standards as a condition for reimbursement.

But 2 years later, we still do not have a final regulation implementing these standards. Under an interim rule, facilities are required only to self-certify, inspections have yet to be carried out, and there is no requirement that inspections—when they are done—will be performed by qualified personnel.

Even now less than half of the facilities in the country are certified under the Medicare Program. Facilities do not have to comply because the program is entirely voluntary.

At its best the Medicare Program won't work for all women—it doesn't provide protection for the more than 30 million women who the NCI recommends get annual or biannual screening but who under the age of 65 are not eligible for Medicare.

And what happens under Medicare if a facility provides substandard mammography? Very little. It would lose Federal reimbursement, but would not be prohibited from providing a mammogram to any woman walking in the door.

A few States have tried to fill the gap. States like Michigan, Rhode Island, Maryland, Indiana. But 80 percent of the States have no standards. And even the best of State programs do not evaluate clinical images—the very key to high quality mammography.

Probably the best hope for high quality mammography is the private accreditation program established by the American College of Radiology. The ACR has done a tremendous job. But again, the program is entirely voluntary. And only 40 percent of all facilities are accredited. The ACR program is a professional organization and lacks any enforcement power. It has no way to ensure continued compliance once the facility is accredited. Nor does it have any authority to shut down a substandard facility.

What we have is a regulatory system in disarray in the middle of a breast cancer epidemic.

Breast cancer is the single most common form of cancer in women, and a major cause of death second only to lung cancer. This year alone 181,000 women will be diagnosed with the disease. And over 46,000 women will die.

To defeat lung cancer we tell women to stop smoking. To detect breast cancer early, we tell women to get a mammogram—because we know that early detection of breast cancer through mammography can reduce mortality from breast cancer by 30 percent.

But the truth is we can recommend that a woman get a mammogram, but we can't guarantee that it will be safe or accurate.

During subcommittee hearings we learned all too well the consequences of poor quality mammography—women suffered needlessly and in some cases lost their life.

Many of you will remember Mary Stupp. She testified here last October. She told us how she had two mammograms over a 3-year period and that her doctors missed her cancer despite her repeated efforts to get them to look again because she felt something was wrong. By the time the doctors diagnosed Mary with breast cancer, the cancer had spread to her liver. Her doctors told her she had a few months to live, but that if they had read the mammogram right the first time she would have had a good prognosis.

Well, Mary died this summer. During the hearing she asked that we pass this bill so that other women would not have to die needlessly. And that's what I hope we'll do.

H.R. 6182 will establish strong uniform national standards for quality mammography. The bill will require that all facilities: use only equipment designed specifically for mammography; establish an ongoing program for quality assurance and control; use only qualified personnel to perform the mammogram; use only qualified physicians to interpret the result of the mammogram and be certified every 3 years and be inspected every year.

Facilities not meeting these standards will face civil sanctions for failure to comply.

The bottom line is that the burden for getting the highest quality mammogram should not have to fall to women. It should be a guarantee. And this bill does that.

At our hearing we received many helpful suggestions and this legislation incorporates those recommendations and others by my colleagues, particularly Senator HATCH, on the committee.

The amendment: First, clarifies the role of the Federal Government, the States, and private accreditation and provides for a stronger State role; second, builds more directly on the private accreditation system that provides essential professional review of clinical images; third, establishes a new authority for getting the program up and running and makes clear that facilities will be responsible for sharing inspection costs; fourth, eliminates unnecessary bureaucracy and reporting requirements; and fifth, establishes a separate authority for States that wish to run the program themselves.

Other technical changes were made as well. These changes in no way compromise the integrity of the bill. H.R. 6182 sets out to establish tough national quality standards for mammography and it does that.

Several concerns have been raised about the impact of the requirements of the bill on the cost of mammography and access to mammography facilities in rural and underserved areas. I'd like to take a moment to put those concerns to rest. The available data do not support the argument that either cost or access to mammography services in rural or underserved areas will be adversely affected by the requirements of this bill.

The GAO and witnesses from the State of Michigan—which has already enacted a similar program—testified before the Labor Committee that the standards established by S. 1777 would not increase the cost of mammography. Other studies show that the average cost of providing quality mammography is about $3 per mammogram.

Second, no data indicate that there is an access problem for women in rural or underserved areas. The greatest barrier to quality mammography is reimbursement. The majority of private plans do not pay for the cost of breast cancer screening. The National Cancer Institute has in fact, identified an oversupply of mammography equipment, and the American College of Radiology has identified only one community in the United States with fewer than 25,000 people that does not have an ACR accredited facility.

We must consider the cost of not providing high quality mammography. The Secretary of the Michigan State Department of Public Health testified that the State program costs about $240,000 per year to run—approximately the same amount paid out for an average malpractice claim involving women with breast cancer. Malpractice claims in this area are the most expensive and the second most common area of malpractice claims.

Early detection of breast cancer is the only way we successfully fight breast cancer. A good mammogram is key to that success. But without quality standards for mammography, a woman has no guarantee that she will receive a safe and accurate mammogram. This bill will provide that guarantee.

I would like to point out that the bill has the strong endorsement and support of the American Cancer Society, the National Breast Cancer Coalition, which represents 127 breast cancer organizations, the American College of Radiology, the Susan G. Komen Foundation, the American College of Obstetricians and Gynecologists, the Association of State and Territorial Health Officials, and the Conference of Radiation Control Program Directors.

I hope we can make our vote unanimous and tell women in this country, that no matter where they get a mammogram, in whatever facility or State, that they will receive the same high-quality care.

I urge you to vote yes on this bill.

A SPECIAL NOTE OF THANKS

Mr. ADAMS. Mr. President, I'd like to take a minute now before we vote to thank the individuals and groups who have worked tirelessly on behalf of this legislation. About 3 years ago, my administrative assistant, Ellen Globokar, came to me after seeing a very shocking story on NBC Nightly News about the poor quality of mammography some women were receiving. We had already seen the horrible tragedy resulting from poor quality Pap smears, and we decided right then, to get to the bottom of this problem and see if something needed to be done.

Robyn Lipner, my chief health policy staff member, has been spearheading the effort for me ever since. Her tireless efforts on behalf of women's health issues are well known, and her work on this bill, the Mammography Quality Standards Act, has been outstanding. Not only do I, but the women in America, owe her a debt of gratitude for her dedication over the last 3 years to improving women's health and getting tough Federal quality standards for mammography adopted.

I'd also like to give a special thanks to Lucia Giudice, a health fellow in my office, for her excellent work and endless hours of preparation on this bill. I'd also like to thank Van Dunn, David Nexon, Phyllis Albritton, Kevin Quinn, Ann LaBelle, Mike Nelson, Donald Shriber, Mike Hash, and Ruth Katz for their excellent staff work on this bill. And finally, I'd like to thank the organizations who have supported my efforts and led the fight to pass this bill, they are: The American Cancer Society, the Susan G. Komen Foundation, the Breast Cancer Coalition, the American College of Radiology, the American College of Obstetricians and Gynecologists, the Association of State and Territorial Health Officers, and the Conference of Radiation Control Program Directors.

And finally, I'd like to dedicate this bill to two very special people, Mary Stupp who passed away this summer, and Marie Ann Domsalla, who has shown such courage and determination in her fight against breast cancer. Thank you all.

Mr. FORD. Mr. President, I rise today in support of this bill, H.R. 6182 that is so vitally important to the women of this Nation. Breast cancer is a most horrible disease. It strikes all generations and is unrelenting in the attack on its helpless victims. If there is anything that can be done to stop it, we must pursue that effort with all the resources that we possess.

Mr. President, there is something that we can do. A properly performed mammography can help catch this dreaded disease in its early stages, when chances are highest for a full recovery. It is not perfect, it is not 100 percent effective, but it is a start. However, too many women go through the hassles of having a mammogram, only to have it improperly read or improperly taken. Many women do what their doctors, health providers, and friends say they should in getting this service performed, only to leave with a false sense of security.

There must be nationwide standards set regarding this oftentimes life or death diagnosis. This bill will do that. The regulation of mammography services is the least that we, as caring human beings, can do. In my home State of Kentucky, I am proud to say that we are on the forefront in mammography services. All States and all women should be so lucky. But it is not luck. It is the following through on a commitment to the women of this great Nation. Establishing standards and bringing regulation to mammography services and radiological equipment is not the solution, but it is a positive first step in the fight against breast cancer, and I say again, the least that can be done. It is with that sentiment that I ask colleagues to join me in my support for this most meaningful legislation.

Ms. MIKULSKI. Mr. President, I am delighted to be an original cosponsor of the Senate companion to the Mammography Quality Assurance Act of 1992. This bill will assure women that no matter which office they walk into to get a mammogram, it will be done right.

The breast cancer rate in the United States has increased dramatically. Today, 1 in 9 women will develop breast cancer in her lifetime, up from only 1 in 20 in 1961. The death rate from breast cancer is up 24 percent from 1979 to 1986. Researchers presently have no explanation for these dramatic increases. While there still is no 100 percent cure for breast cancer, we do know how to treat the disease at earlier stages to save lives.

Women in America are getting the message that we need to have regular mammograms to protect ourselves from breast cancer. We also have to make sure that the facilities we use to get mammograms are fit for duty. We have to make sure that the results of all mammograms will be accurate and consistent.

Mammograms can detect breast cancer early so that women can get the treatments they need to survive this disease. But a mammogram is among the most difficult radiographic images to read. If it is done wrong, women suffer from delayed treatment which can have drastic consequences for them, including death or avoidable deformity.

Currently, there are no Federal standards for all mammography clinics. Only 50 percent of clinics choose to participate in voluntary quality assurance programs established by the American College of Radiology. Almost a third of those applying fail to meet the standards.

Forty States have passed laws relating to mammography. But only 10 States, including Maryland, have passed laws that make sure mammograms are safe and accurate. But why should women in other States go without those basic protections? Why should they suffer and even die because the equipment or personnel that are used for mammograms are not adequate or reliable?

These gaps are unacceptable. This bill will fill the gaps. I urge my colleagues to vote for this bill and work with Senator ADAMS, Senator DURENBERGER, and me to make sure our technology, our testing, our techniques, and our technicians are fit for duty.

Mr. JOHNSTON. Mr. President, I would like to take the opportunity to express my support for this important women's legislation. This year, breast cancer will take the lives of approximately 44,500 women and occur in approximately 175,000 more women. It is the second leading cause of death of American women after lung cancer. It will invade 1 in 8 women during their lifetime. Experts say the value of early detection is that it could save the lives of 30 percent of women who might otherwise die of the disease.

Clearly, mammography is an extremely sensitive radiologic process that, if carried out with inaccurate equipment and poorly trained technicians, can provide inaccurate results. Women today need to have the assurance that mammograms they receive are safe and accurate. Our current system is a patchwork of Federal, State and private voluntary standards for mammography quality assurance and there is a dire need for consistency at all levels of care.

The proposed legislation is important to make certain that women who undergo mammograms get a competent, thorough procedure. There is no question that women have died who have undergone mammograms in which cancer has not been detected. Legislation like this legislation will save thousands of lives and is long overdue. I urge the Senate to pass it.

Mr. DODD. Mr. President, I rise today in support of H.R. 6182, the Mammography Quality Standards Act. Every woman in this country lives with the fear that someday she will develop breast cancer. To date, the best method of treatment is early intervention. In fact, if detected at an early stage, breast cancer is 95 percent to almost 100 percent curable. If not, it can be deadly.

Unfortunately, there is no guarantee to women today that the mammography services they receive are reliable. Presently, the only accreditation system in this country is voluntary. There is no enforcement to encourage facilities to meet quality standards. Consequently, problems with misreading images or faulty interpretation can lead to serious medical conditions that easily could have been prevented with proper diagnosis.

The current lack of Federal regulations and patchwork of State and voluntary standards threatens the quality of mammography services, and ultimately the lives of millions of women. Women seeking mammograms must be assured that they are receiving the highest quality of services. The Mammography Quality Standards Act will do just that. It requires that all mammography facilities be accredited to ensure the highest quality mammography and establishes an effective system of checks and balances to maintain those standards.

H.R. 6182 comes at a critical time. Breast cancer is the leading cause of death among women 35 to 55 years old. In the next few years, we will see this age group grow, so it is imperative that we take the necessary precautions now to eradicate breast cancer.

I am pleased to see the passage of the Mammography Quality Standards Act and commend my colleague, Senator ADAMS, for bringing this legislation before the Senate.

Mr. HATCH. Mr. President, I am pleased to submit a substitute amendment to H.R. 5938, the Mammography Quality Improvement Act of 1992. This legislation will provide uniform and required standards across the Nation for the performance of this valuable test for breast cancer. Because mammography, when properly performed, can detect cancer at a very early point in the disease, cure or improved survival are more likely. For this reason, it is important to bring the benefits of quality mammography to our citizens.

This bill addresses the need to ensure that mammographic procedures are performed properly and interpreted by properly trained physicians. This should assure women that they are receiving screening and diagnostic mammography services that are accurate and consistent with good radiologic practice. Such an approach makes the potential benefits of good practice available to all.

Senator ADAMS has focused our attention on this important issue and has engaged with us in the lengthy task of developing appropriate legislation. I want to commend him for these efforts. I believe we have arrived at legislation that addresses the need for quality performance of this valuable and essential test.

Initially, we were concerend that the transition from the existing voluntary program to a mandatory program might require some special considerations in order to avoid unintended consequences. Rural and inner-city facilities were the subjects of our concern. We sought to ensure that the legislation was supportive of improved care, rather than punitive in nature, in order to ensure the availability of quality care to the vulnerable populations served by these facilities. In short, we did not want mammographic facilities in rural and inner-city areas to be inadvertently forced out of existence by this bill.

The aim of this legislation is to raise the quality of mammography, both in performance and interpretation, across the Nation. Although adverse action against facilities may be necessary on occasion, it is not the primary focus of this bill. Rather, improvement of performance is the objective.

A category of provisional certification was provided so that additional time would be available for facilities to meet the important standards of this program. This certification is to be used generously for facilities seeking self-improvement, but is not intended to be provided indefinitely, or to those who do not seek to comply. Accordingly, it may be provided and renewed once only, and then only for a very limited time.

Local adherence to national standards may well be accomplished through the involvement of State governments. This legislation provides such an opportunity. For those States that do not choose such a role, the Secretary of the Department of Health and Human Services will ensure that the mammography available in those States will be of acceptable quality.

Sanctions are provided in this legislation to ensure that misrepresentation, falsification of information provided to the program, or provision of care in violation of the program will not be tolerated.

It is also my hope that the Department of Veterans Affairs will adopt these standards to provide uniform protection to American women. I do not believe we should have a double standard. America's women veterans should be accorded the same assurances that the quality of this key diagnostic test.

Again, I am pleased that we were able to work out this legislation and I commend the Senator from Washington for his diligence in pursuing passage of this bill. We made several key changes that I believe will make this an even more effective piece of legislation. I am pleased to support it.

Mr. DURENBERGER. Mr. President, I would like to say how pleased I am as an original cosponsor of the Mammography Quality Standards Act that the Senate has passed this important legislation. It will go a long way toward assuring women that they are receiving quality mammography.

Regular mammography screening is the most effective way we have to reduce the number of women who die from breast cancer. Mammography can spot cancerous lesions the size of a speck of dust, allowing definitive diagnosis before the cancer grows. According to Dr. Bill Roper, director of the Centers for Disease Control, "Controlled studies have shown that a one-third reduction in mortality related to breast cancer is possible, but that is possible only if quality services are given."

And that's the reason this bill was introduced: to ensure that mammography done to find breast cancer is *quality* mammography. Mammography is difficult to do—much harder, for example, than x raying a solid structure such as a bone. The equipment must be carefully calibrated, the patient properly positioned and the images reviewed by physicians particularly skilled in interpretation.

There are now over 10,000 mammography facilities, ranging from teaching hospitals to doctors' offices and mobile clinics. Many of these participate in a voluntary accreditation program run by the American College of Radiology, and the college is to be commended for its leadership in this area. But it is troubling that 30 percent of facilities fail their first attempt at accreditation, especially since it is the better facilities who would want to be accredited.

This legislation builds on the college's work and sets up a nationwide system of mandatory certification that will replace the patchwork of mostly voluntary standards we now have. Starting in October 1994, the Department of Health and Human Services or particular States—if a State chooses to do so—will certify that facilities meet national quality standards.

One requirement for certification is accreditation of the facility by a State agency or a nonprofit organization such as the American College of Radiology; the accreditation process will involve randomized review of how well mammograms are taken and interpreted. Women today have no assurance when they walk into a mammogram facility that outside organizations have reviewed the quality of the facility's work, but when this legislation takes effect they will.

While I have been a strong supporter of quality mammography, I have been concerned that we not set up an unnecessarily bureaucratic regulatory regime. There is always a balance to be struck between regulation and overregulation, and I believe this legislation strikes that balance much better now than it did a year ago. I also am pleased that facilities have 2 years to prepare before this legislation takes effect and that several provisions have been included that give facilities flexibility in meeting the standards.

I commend Senator ADAMS as well as Senator HATCH, the ranking minority member of the Labor Committee, for the improvements in the bill.

Mr. President, throughout the health care system we need to be more concerned with quality and more concerned with outcomes. This legislation will improve the quality of mammography across the Nation and reduce the number of people who die unnecessarily from a disease that could have been treated—and that's the best outcome of all.

Mr. RIEGLE. Mr. President, I rise today in support of the Breast Cancer Screening Safety Act, S. 1777. The mammography screening test is an excellent tool for early detection of breast cancer. Survival rates for women with breast cancer increase dramatically with early detection. But without proper maintenance of the mammography equipment, trained technicians and professional interpretation of the mammogram, the test is of compromised value.

The Breast Cancer Screening Safety Act will create national standards that will assure high quality mammography screening tests. This legislation will provide States the resources to develop and administer quality assurance programs. I am especially pleased that Senator ADAMS has added provisions to this legislation to provide states, like Michigan, with the adequate financial and technical resources to meet these new standards. This was done, in part, to address the concerns constituents from my home state of Michigan had expressed.

Mr. President, the woman of Michigan are fortunate to live in a State that has been a leader in ensuring high quality mammography screening. Michigan has one of the highest professional standards for mammography equipment, technicians, and the interpretation of mammography screens in the Nation. More importantly, Michigan has taken steps, by committing the resources and the staff necessary to periodically inspect all the Michigan facilities, to endorse these high standards. It is time that national standards be adopted and enforced so women across this Nation can be assured of receiving as high a quality mammogram as the women of Michigan enjoy.

Mr. President, I would also like to praise the work of Michigan State Representative Maxine Berman and the Michigan Department of Public Health for leading the way in quality assurance for mammography screening tests. Representative Berman early on recognized the need to take legislative action to ensure the safety and accuracy of mammography screenings. She has testified in support of the bill. Her pioneering efforts at the State level, in close cooperation with the Michigan Department of Public Health, has brought this important public health concern to national focus. I also consulted with several health officials in Michigan's Department of Public Health, who have taken a lead on assuring mammography exams, and they too enthusiastically support the Breast Cancer Screening Safety Act.

I urge my colleagues to support passage of the Breast Cancer Screening Safety Act so that women across the country will be assured of high quality mammography screening exams. I also commend the efforts of Senator ADAMS in pushing forward this important legislation.

Mr. D'AMATO. Mr. President, I rise today to support the passage of S. 1777, the Breast Cancer Screening Safety Act of 1991. This bill addresses the urgent need for expanded access to quality mammography screening for all American women.

Expanding access to mammography screening and ensuring that such screenings meet the highest standards of quality is vital to reducing the unacceptably high death rate associated with breast cancer in this country. It is estimated that in 1992, 180,000 women will be diagnosed with breast cancer, and 46,000 women will die from the disease. Breast cancer is the leading cause of cancer death among women ages 35–52 in the United States.

Mr. President, I and many of my colleagues have worked hard this year in a bipartisan effort to provide sufficient funding to speed research on effective treatments for breast cancer. I and several of my colleagues have also successfully fought for increased funding for the Centers for Disease Control's prevention programs for breast and cervical cancers. Increased research funding in combination with increased prevention funding can make a real difference in fighting the war against breast cancer.

Next to a cure, at this time, our best defense against this horrible disease is early detection and treatment. Such early detection, through regular mammography screening, can, according to the Center for Disease Control, reduce breast cancer mortality by 30 to 40 percent for women aged 50 and older.

Unfortunately, far too few American women receive early cancer detection tests on a regular basis. In 1987, only 25 percent of women over age 50 reported having a mammogram within the preceding 2 years. We need to encourage and facilitate increased use of these tests by American women.

S. 1777 establishes badly needed national quality standards for mammography to assure that every mammogram a woman receives is safe and accurate. The need to establish national standards was underscored by the findings of a recent General Accounting Office report which found that existing professional standards are not uniformly followed at many screening facilities. The same study found a need for strong Federal standards to assure the quality of mammography screening, and sufficient legal mechanisms to enforce them. S. 1777 addresses this need by requiring the Secretary of Health and Human Services to develop national quality standards in the areas of equipment, personnel, oversight, quality control, and enforcement. I commend my colleague from Washington, Senator ADAMS, for introducing and steering this bill through the legislative process. I am convinced that bill, by improving the quality of mammography screening, will surely save numerous lives.

Mr. President, we know that one in every nine American women will develop breast cancer at some point in her life. We need to guarantee these women access to the best preventive health care available. S. 1777 will help us do just that. I encourage my colleagues to join me in voting for this bill.

Mr. GRASSLEY. Mr. President, I am proud to be a cosponsor of the Mammography Quality Standards Act. It is fitting that the Senate will pass this legislation on the eve of Breast Cancer Awareness month.

Over the last 20 years, the risk of developing breast cancer has increased dramatically. In 1990, 1 woman in 10 could expect to develop breast cancer in her lifetime. This year, a woman's risk of developing breast cancer has increased to one in nine. This means that there will be 175,000 newly diagnosed cases of breast cancer this year alone.

Fortunately, we have determined that early detection of breast cancer can dramatically increase a woman's chance of defeating breast cancer. It is, therefore, vital that women are aware of the prevalence of the disease and their vulnerability to developing it. I am painfully aware of the need to increase public awareness about breast cancer as a result of my wife, Barbara's, personal victory over breast cancer several years ago. We believe that early detection through a routine mammogram saved Barbara's life and is the key to saving the lives of other women who develop the disease.

Although public awareness is important, it is also important that women are screened routinely for breast cancer. The goal of a mammogram is to produce a high quality image, which can be accurately interpreted to determine the presence of a cancerous lesion. This is a highly complex process which requires great precision. In order to obtain a good quality mammogram, obtained with a low radiation dose to the patient, a number of quality standards must be adhered to. Such quality standards include using dedicated equipment and employing qualified personnel.

A recent report by the General Accounting Office found that most of the features considered necessary for guaranteeing quality screening contribute significantly to the goal of obtaining good image quality with minimal risk to the patient. Because a mammogram is among the radiographic images most difficult to read, it must have optimal clarity. If image quality is poor or the interpretation is faulty, the interpreter may miss cancerous lesions. And on the other hand, a poor image or interpretation can lead to unnecessary testing and biopsies if normal tissue is misread as abnormal.

Surprisingly, there are no national, uniform, quality standards for mammography. Only a few States have enacted legislation establishing quality standards, and the only Federal standards applies to the Medicare Program. The only other standards that exist are voluntary standards developed by the American College of Radiology.

The Mammography Quality Standards Act would change this. The act directs the Secretary of Health and Human Services to develop standards which would apply to the equipment used in mammography and the personnel involved in the process. Facilities offering mammograms would have to apply for certification and would be inspected on an annual basis. The standards established by this bill will be an important step in assuring a good mammogram, and successfully contribute to future treatment.

Although we have made significant steps in detecting this disease and treating it, we still do not know what factors place a woman at risk. It is worrisome that the risk of developing breast cancer continues to grow. We need to continue to focus on research efforts and promoting public awareness. It is my hope that one day our daughters and granddaughters will not have to face the risk of this disease.

Mr. MCCAIN. Mr. President, I am pleased to join my colleague from Washington, Senator ADAMS, in proposing this amendment to establish standards for the performance of mammography services.

Mr. President, breast cancer has become the most common form of cancer for women in our society today. We have taken steps this year to increase the amount of money being spent on breast cancer research. But, until we have more knowledge about what causes breast cancer and whether it can be prevented, the best weapons we have are education, early detection and aggressive treatment.

One of the critical tools in the arsenal of early detection is regular screening mammograms. While we know that good, accurate mammograms have an 85- to 95-percent success rate as a tool in early detection, there is strong concern about the safety and accuracy of mammograms.

The problems uncovered with mammograms have been very serious. And, the effects of a faulty mammogram or interpretation can be catastrophic. For example, if the mammogram's image is faulty, a technician can miss cancerous lesions, thus resulting in delayed treatment and possibly an unwarranted mastectomy or death.

There are currently no minimum Federal, and few State, standards to assure the quality and accuracy of mammography. In fact, only 13 States have enacted legislation to establish quality assurance standards for mammography.

The amendment we are proposing today is virtually identical to legislation just reported from the Health and Human Resources Committee.

It has 10 major components.

First, it would establish national, uniform quality standards for mammography.

Second, it would require that facilities use only radiological equipment designed specifically for mammography.

Third, it would require that facilities employ certified radiologists to perform mammography.

Fourth, it would require that all facilities establish a quality assurance and control program to ensure the reliability, clarity, and accurate interpretation of mammography.

Fifth, it would require that all facilities use only qualified physicians to interpret the results of the mammogram.

Sixth, it would require that all facilities be inspected annually by qualified inspectors.

Seventh, it would require facilities to be accredited by an accrediting body approved by the Secretary.

Eighth, it would require that the Secretary establish tough sanctions on facilities that do not comply with certification requirements.

Ninth, it would permit States to become the accrediting body if they so choose—assuming that they comply with and adopt all of the standards.

And, tenth, it would provide funding to ensure that all facilities can be certified and inspected.

Mr. President, while I don't generally like the idea of legislating things like this from the Federal level, this is one area where an exception must be made. Given the critical nature of mammograms to the lives of women in America, it is essential that their accuracy be assured. The quality assurance that will result from this amendment, if it is adopted, will provide the type of certainty that all of us should not only expect, but demand, of those providing mammograms to our loved ones.

It is my hope that the Senate will adopt this important amendment, and that it will be accepted in conference. It is time that we assure the women of our Nation, and their loved one's, that they can place their confidence in this critical early detection tool.

PROVIDING THAT THE GEORGIA BAPTIST HOSPITAL COLLEGE OF NURSING BE DEEMED AS SATISFYING CERTAIN ACCREDITATION REQUIREMENTS

Mr. FORD. Mr. President, I ask unanimous consent that Senate proceed to the consideration of S. 3362, introduced earlier today by Senator FOWLER, making technical corrections in the Higher Education Act of 1965; that the bill be deemed read three times and passed; that the motion to reconsider be laid upon the table; and that any statements thereon appear in the RECORD as though read.

The PRESIDING OFFICER. Without objection, it is so ordered.

So, the bill (S. 3362) was deemed read the third time and passed, as follows:

S. 3362

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Notwithstanding the provisions of section 1201(a)(5) of the Higher Education Act of 1965 (20 U.S.C. 1141(a)(5)), the Georgia Baptist Hospital College of Nursing shall be deemed as satisfying, for academic year 1992–1993, the accreditation requirements described in such section.

Mr. FOWLER. Mr. President, I rise today to introduce a bill which has been cleared on both sides and has no revenue impact at all, which will make a much-needed technical correction in order to prevent a gross inequity from occurring.

Georgia Baptist Hospital College of Nursing, an outstanding, 90-year old institution in my State, began transitioning from a 3-year diploma program to a 4-year baccalaureate program in 1988 and has been counseled throughout the entire process by both the State and Federal Departments of Education. Once the school began the formal transition, it submitted a program participation application to obtain Federal financial aid for its college of nursing students. This application was approved by the U.S. Department of Education in 1989. Based on this approval, the students have been eligible for and received Pell, SEOG, Stafford loans, PLUS/SLS, and other forms of Federal financial aid for both the diploma and baccalaureate programs.

In June of this year, the Department of Education notified the college that all of the students who had applied for financial aid and had that aid approved, were no longer eligible because Georgia Baptist Hospital College of Nursing is not yet accredited by the Southern Association of Colleges and Schools [SACS]. For those not familiar with this process, in order to receive Federal financial aid, schools must be accredited by their regional accrediting board. The problem for Georgia Baptist Hospital College of Nursing is that SACS will not consider a school for accreditation until that school graduates its first class. Georgia Baptist Hospital College of Nursing will graduate its first class in March 1993. The College of Nursing has received initial approval status by the Georgia Board of Nursing for continued operation annually since June 1989 but, as I stated earlier, the school needs SACS accreditation in order to be eligible for Federal financial aid.

This bill makes Georgia Baptist Hospital College of Nursing an eligible institution for purposes of receiving Federal financial aid for the 1992–93 academic year only. After that time, they will be considered an eligible institution for financial aid purposes under the Higher Education Act.

Mr. President, before I close let me add that Georgia Baptist Hospital College of Nursing has graduated over 5,000 nursing students since it opened its doors in 1902. The school has a zero default rate on its student loans which is something they can and should take great pride in. I do not have to remind my colleagues of the shortages we have in the nursing profession and what a vital role they play in our health care system. The loss of financial aid for these students is devastating to their families, the school and the nursing profession and I urge passage of this bill.

JOHN F. KENNEDY CENTER ACT AMENDMENTS OF 1992

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. 3363, a bill introduced earlier today by Senator MITCHELL reauthorizing the John F. Kennedy Center for the Performing Arts; that the bill be deemed read a third time and passed; that the motion to reconsider be laid upon the table; and that any statements thereon appear in the RECORD at the appropriate place as though read.

The PRESIDING OFFICER. Without objection, it is so ordered.

So, the bill (S. 3363) was deemed read the third time and passed, as follows:

S. 3363

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. BUREAU, BOARD OF TRUSTEES, AND ADVISORY COMMITTEE.

Section 2 of the John F. Kennedy Center Act (20 U.S.C. 76h) is amended—

(1) by redesignating subsections (a), (b), and (c) as subsections (b), (c), and (d);

(2) by inserting before subsection (b) (as redesignated in paragraph (1)) the following new subsection:

"(a) The Congress finds that—

"(1) the late John Fitzgerald Kennedy served with distinction as President of the United States, and as a Member of the Senate and the House of Representatives;

"(2) by the untimely death of John Fitzgerald Kennedy this Nation and the world have suffered a great loss;

"(3) the late John Fitzgerald Kennedy was particularly devoted to education and cultural understanding and the advancement of the performing arts;

"(4) it is fitting and proper that a living institution of the performing arts, designated as the National Center for the Performing Arts, named in the memory and honor of this great leader, shall serve as the sole national monument to his memory within the city of Washington and its environs;

"(5) such a living memorial serves all of the people of the United States by preserving, fostering, and transmitting the performing arts traditions of the people of this Nation and other countries by producing and presenting music, opera, theater, dance and other performing arts; and

"(6) such a living memorial should be housed in the John F. Kennedy Center for the Performing Arts, located in the District of Columbia.";

(3) in subsection (b) (as redesignated in paragraph (1))—

(A) in the first sentence, by inserting "as the National Center for the Performing Arts and as a living memorial to John Fitzgerald Kennedy," after "thereof"; and

(B) in the second sentence—

(i) by striking "Secretary of Health and Human Services" and inserting "Secretary of State"; and

(ii) by striking "Chairman of the District of Columbia Recreation Board" and inserting "Superintendent of Schools of the District of Columbia";

(4) by amending subsection (c) (as redesignated in paragraph (1)) to read as follows:

"(c) The general trustees shall be appointed by the President of the United States and each such trustee shall hold office as a member of the Board for a term of six years, except that—

"(1) any member appointed to fill a vacancy occurring prior to the expiration of the term for which such member's predecessor was appointed shall be appointed for the remainder of such term;

"(2) a member shall continue to serve until such member's successor has been appointed; and

"(3) the term of office of a member appointed prior to the date of enactment of this subsection shall expire as designated at the time of appointment."; and

(5) in the last sentence of subsection (d) (as redesignated in paragraph (1)), by striking "him" and inserting "the member".

(6) EFFECTIVE DATE FOR CERTAIN APPOINTMENTS.—The appointments made pursuant to the amendments made by clauses (i) and (ii) of subparagraph (3)(B) of section 1 of this Act shall not commence until the expiration of the terms of the Secretary of Health and Human Services and the Chairman of the District of Columbia Recreation Board, respectively, serving as Trustees of the John F. Kennedy Center for the Performing Arts on the date of enactment of this Act.

SEC. 2. PRESENTATIONS, PROGRAMS, FACILITIES FOR ACTIVITIES, AND MEMORIAL IN HONOR OF THE LATE PRESIDENT; RESTRICTION ON ADDITIONAL MEMORIALS.

Subsection (a) of section 4 of the John F. Kennedy Center Act (20 U.S.C. 76j) is amended to read as follows:

"(a)(1) The Board shall—

"(A) present classical and contemporary music, opera, drama, dance and other performing arts from the United States and other countries;

"(B) promote and maintain the Center as the National Center for the Performing Arts by—

"(i) developing and maintaining, in consultation with the Secretary of Education and the heads of other Federal agencies involved in performing arts education, a leadership role in national performing arts education policy and programs, including developing and presenting original and innovative performing arts and educational programs for children, youth, families, adults and educators designed specifically to foster an appreciation and understanding of the performing arts;

"(ii) develop and maintain, in consultation with the Secretary of Education and the heads of other Federal agencies involved in performing arts education, a comprehensive and broad program for national and community outreach, including establishing model programs for adaptation by other presenting and educational institutions; and

"(iii) conducting joint initiatives with the national education and outreach programs of the Very Special Arts, an affiliate of the John F. Kennedy Center for the Performing Arts which has an established program for the identification, development and implementation of model programs and projects in the arts for disabled individuals;

"(C) in consultation with the Secretary of Education and the heads of other Federal agencies involved in performing arts education, strive to ensure that the John F. Kennedy Center for the Performing Arts education and outreach programs and policies meet the highest level of excellence and reflect the cultural diversity of the Nation;

"(D) provide facilities for other civic activities at the John F. Kennedy Center for the performing Arts;

"(E) provide within the John F. Kennedy Center for the Performing Arts a suitable memorial in honor of the late President; and

"(F) develop a comprehensive building needs plan for the existing features of the John F. Kennedy Center for the Performing Arts. This building needs plan shall not include expansion of the building or construction of a new building.

"(2)(A) The Board, in accordance with applicable law, may enter into contracts or other arrangements with, and make payments to, public agencies or private organizations or persons in order to carry out the Board's functions under this Act.

"(B) Notwithstanding any other provisions of law, a contract or other arrangement described in subparagraph (A) that is entered into for an environmental system, a protection system or a repair to or restoration of the John F. Kennedy Center for the Performing Arts may be negotiated with selected contractors and awarded on the basis of contractor qualifications as well as price.".

SEC. 3. TRUST FUNDS, OFFICERS AND EMPLOYEES, REVIEW OF BOARD ACTIONS.

Section 5 of the John F. Kennedy Center Act (20 U.S.C. 76k) is amended—

(1) in the first sentence of subsection (a), by striking "Smithsonian Institution" and inserting "John F. Kennedy Center for the Performing Arts, as a bureau of the Smithsonian Institution,";

(2) in subsection (b)—

(A) in the first sentence, by striking "director, an assistant director, and a secretary of the John F. Kennedy Center for the Performing Arts and of" and inserting "a Chairperson of the John F. Kennedy Center for the Performing Arts (hereinafter in this Act referred to as the 'Chairperson'), who shall serve as the chief executive officer of such Center, and a secretary of such Center. The Chairperson shall appoint"; and

(B) in the second sentence, by striking "director, assistant director," and inserting "Chairperson"; and

(3) by adding at the end the following new subsection:

"(d) The Secretary of the Interior and the Board shall enter into a cooperative agreement regarding major capital projects for the Center. Such cooperative agreement shall—

"(1) provide that the Board or the Board's designated representative shall plan, design, and construct all major capital projects at the John F. Kennedy Center for the Performing Arts; and

"(2) contain assurances that—

"(A) all planning, design, and construction of major capital projects shall be approved by the Secretary of the Interior or such Secretary's designee prior to commencement of such activities;

"(B) the Secretary of the Interior shall transfer to the Board or other entities from amounts available to such Secretary for the John F. Kennedy Center for the Performing Arts the funds necessary to carry out the activities described in subparagraph (A) in accordance with the terms of such cooperative agreement; and

"(C) the Board shall report quarterly to the Secretary of the Interior or such Secretary's designee regarding the progress of all planning, design, and construction performed pursuant to such cooperative agreement.".

SEC. 4. OFFICIAL SEAL, BOARD VACANCIES AND QUORUM, TRUSTEE POWERS AND OBLIGATIONS, REPORTS, SUPPORT SERVICES, AND REVIEW AND AUDIT.

Section 6 of the John F. Kennedy Center Act (20 U.S.C. 76l) is amended—

(1) in subsection (c)—

(A) by striking "its" and inserting "the Board's"; and

(B) by striking "it" and inserting "the Board";

(2) in subsection (e)—

(A) by striking the title and inserting "MAINTENANCE, REPAIR, AND SECURITY SERVICES.—";

(B) by striking "alteration of the building" and all that follows in paragraph (1) and inserting "security services.";

(C) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(D) by inserting after paragraph (1) the following new paragraph:

"(2) SPECIAL RULE.—The Board, with the concurrence of the Secretary of the Interior or such Secretary's designee, shall designate the services to be performed pursuant to paragraph (1) in order to ensure that such services will meet the requirements for high quality operations, except that in no event shall the Board require the expenditure of funds in excess of those appropriated pursuant to the authority of section 13(b)."; and

(3) in paragraph (3) (as redesignated in subparagraph (2)(C) of section 4 of this Act), by adding at the end the following new sentence: "Such agreement shall be reviewed and updated, if necessary, every five years.".

SEC. 5. TECHNICAL AMENDMENT.

Section 10 of the John F. Kennedy Center Act (20 U.S.C. 76p) is amended—

(1) by striking "he" and inserting "the Secretary"; and

(2) by striking "his" and inserting "the Secretary's".

SEC. 6. DEFINITIONS AND AUTHORIZATION OF APPROPRIATIONS.

The John F. Kennedy Center Act (20 U.S.C. 76h et seq.) is amended by inserting at the end the following new sections (with section 12 being codified at 20 U.S.C. 76r, and section 13 being codified at 20 U.S.C. 76s):

"SEC. 12. DEFINITIONS.

"For the purpose of this Act—

"(1) the term 'capital projects' means capital repairs, replacements, improvements, rehabilitations, alterations, and modifications to the existing features of the John F. Kennedy Center for the Performing Arts building and all existing features of interior and exterior Center spaces, including the existing theaters, garage, roadways, and walkways;

"(2) the term 'existing' means existing on the date of enactment of the John F. Kennedy Center Act Amendments of 1992; and

"(3) the term 'maintenance, repair, and security services' means all services and equipment necessary or desirable to maintain and operate the existing features of the John F. Kennedy Center for the Performing Arts building and all existing interior and exterior building spaces, including the existing theaters, garage, roadways, and walkways, in a manner consistent with the requirements for high quality operations as determined by the concurrence of the Board and the Secretary of the Interior or the Secretary's designee and in accordance with the cooperative agreement described in section 6(e)(3) (as redesignated in subparagraph (2)(C) of section 4 of the John F. Kennedy Center Act Amendments of 1992).

"SEC. 13. AUTHORIZATION OF APPROPRIATIONS.

"(a) Capital Projects.—There are authorized to be appropriated to the Secretary of the Interior $15,000,000 for fiscal year 1993 and each succeeding fiscal year through fiscal year 1997 to carry out subparagraph (F) of section 4(a)(1), subparagraph (A) of section 4(a)(2), and subsection (d) of section 5.

"(b) Maintenance, Repair, and Security.—There are authorized to be appropriated to the Secretary of the Interior $12,000,000 for fiscal year 1993 and each succeeding fiscal year through fiscal year 1997 to carry out paragraph (1) of section 6(e).

"(c) Education and Outreach Programs.—There are authorized to be appropriated to the Secretary of Education $4,000,000 for each of the fiscal years 1993 and 1994, and $5,000,000 for each of the fiscal years 1995, 1996, and 1997, to be granted to the Board to carry out subparagraphs (B) and (C) of section 4(a)(1).

"(d) Special Rule.—No funds appropriated pursuant to the authority of subsection (a) or (b) for capital projects or for maintenance, repair, and security services for existing theaters shall be used for performing arts related production expenses.".

SEC. 7.

This Act may be cited as the "John F. Kennedy Center Act Amendments of 1992".

WOMEN IN APPRENTICESHIP AND NONTRADITIONAL OCCUPATIONS ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Senate Labor Committee be discharged from further consideration of H.R. 3475, the Women in Apprenticeship and Nontraditional Occupations Act; that the Senate proceed to its immediate consideration; that the bill be deemed read for a third time and passed; that the motion to reconsider be laid upon the table; and that any statements appear at the appropriate place in the Record.

The PRESIDING OFFICER. Without objection, it is so ordered.

So, the bill (H.R. 3475) was deemed read the third time and passed.

Mrs. KASSEBAUM. Mr. President, I rise today to ask my colleagues to support the passage of H.R. 3475, the Women in Apprenticeship and Nontraditional Occupations Act. This legislation is important because it would help to increase the retention of women in nontraditional occupations—jobs which pay women 30 percent more than conventional occupations in which women are employed. Jobs in the skilled trades and technical positions provide low-income women and welfare recipients with a true path to economic self-sufficiency. Just last week in my own State of Kansas, two women were placed by the Topeka YWCA in nontraditional manufacturing jobs at a starting wage of $16 per hour.

Unfortunately, women in male-dominated occupations often face a hostile work environment and pervasive sexual harassment from both supervisors and coworkers. This does not have to be the case. There are successful models for integrating women into male-dominated occupations. House Resolution 3475 is based on one such award-winning model—the female employment initiative of Stein & Co. Stein is a Chicago real estate developer which has made a concerted, aggressive effort to bring women into the construction trades on its job sites and to keep them there. Stein has had up to 85 women at a time working on a Federal construction site. Most construction sites have no women or one, at most, at any point in time.

Under H.R. 3475, the Department of Labor would provide technical assistance to employers and labor unions to assist them in successfully integrating women into male-dominated occupations. This bill is aimed at preventing the problems which typically arise in such occupations—minimizing the likelihood of sexual harassment and discrimination—and averting the need for employee grievances which are expensive and time consuming for both employer and employee.

In November 1991, the Senate passed the Nontraditional Employment for Women Act by unanimous consent. As an amendment to the Jobs Training Partnership Act, this legislation requires service-delivery areas to train women in nontraditional jobs. The bill was signed into law by President Bush. But what good is that training, if employers are not ready to integrate women into the workplace or if the barriers to getting and keeping the job are insurmountable? If we want the women who will be trained for nontraditional jobs through the Job Training Partnership Act to face a receptive work environment, we must ensure that the workplace will be prepared to receive them.

Ensuring that women work in nontraditional fields is as important to our economy as it is to women and their families. By the year 2000, the majority of new entrants into the labor force will be women and minorities. This Nation must ensure that women are working throughout all sectors of the economy. Our Nation's productivity and economic development will hinge upon our ability to redeploy women from the small number of traditionally female sectors to the broader range of occupations which make up our economy as a whole. The Women in Apprenticeship Occupations and Nontraditional Occupations Act is an important step in this direction.

PREVENTIVE HEALTH AMENDMENTS OF 1992 CONFERENCE REPORT

Mr. FORD. Mr. President, I submit a report of the committee of conference on H.R. 3635 and ask for its immediate consideration.

The PRESIDING OFFICER. The report will be stated.

The assistant legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3635) to amend the Public Health Service Act to revise and extend the program of block grants for preventive health and health services, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by all of the conferees.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report is printed in the House proceedings of the Record of October 5, 1992.)

Mr. KENNEDY. Mr. President, the legislation is a significant expansion of the Federal Government's role in health promotion and disease prevention in assuring a healthy America. The goals of this legislation are to provide resources to States to assist them in achieving the year 2000 national health objectives, develop initiatives for preventing disease, illness, and disability, and promote healthy lives through risk reduction and preventive measures for women, adolescents, and racial and ethnic minorities.

Programs and activities strengthened by this legislation include the preventive health and health services block grant, the Lead Poisoning Prevention Program, the Comprehensive Perinatal Care Program, the Breast and Cervical Cancer Screening Program, the Vaccine Injury Compensation Program, and the Bulk Purchase of Vaccines Program.

New programs authorized by this legislation include an Office of Adolescent

Health, the screening and early detection of prostate cancer, the prevention of cases of infertility from sexually transmitted diseases, a birth defects surveillance and epidemiology research program, and the establishment of a Centers for Disease Control Foundation.

The legislation revises and extends the preventive health and health services block grant. The authorization of the program is increased to $205 million for fiscal year 1993. It also increases the set-aside for services for rape victims and rape prevention to $7 million.

The legislation stresses that block grant funds be used to make progress toward the goals identified in the Department of Health and Human Services report, "Healthy People 2000: National Health Promotion and Disease Prevention Objectives." The funds are intended to improve the health status of the general population as well as work toward eliminating disparities between the general population and racial and ethnic minorities.

The legislation addresses the need to reduce the incidence and severity of diseases and conditions that disproportionately affect women and racial and ethnic minorities. Minorities and the poor continue to suffer poorer overall health status than the general population; many preventable diseases occur at higher rates, and access to quality health promotion and disease prevention services are inadequate. The States are also authorized to use block grant funds for the improvement of the health of women and the racial and ethnic minorities.

Adolescents need greater health services too. One in five of today's adolescents have at least one serious health problem. The future contributions of young people are too often lost because of the senseless violence of suicide and homicide, or the tragedy of malnutrition or chronic despair. This legislation establishes an Office of Adolescent Health. The Office will coordinate the diverse activities of Federal agencies as they related to adolescents. It will monitor the health status of adolescents, support training of health providers who work with adolescents, and support research projects relating to conditions and diseases of adolescents.

The legislation also establishes a prostate cancer prevention program at the Centers for Disease Control which will provide early detection, screening, and prevention services to high-risk and low-income individuals. The program will address the growing concern about the increasing number of men developing prostate cancer and the alarming death rate from that disease. The legislation will ensure that existing screening methods are evaluated, surveillance systems are improved, information is disseminated to health professionals, and research is expedited for the early detection of prostate cancer.

The legislation also establishes a program to screen and treat preventable cases of infertility arising from sexually transmitted diseases in women. The program was established in response to the growing concerns about the nationwide epidemic of chlamydia, its devastating impact on women, and with the hope that new methods for the diagnosis and treatment of this disease will allow progress to be made in controlling this epidemic and reducing the cases of infertility.

Lead poisoning is the No. 1 preventable environmental disease of children. Yet only meager efforts have been undertaken to eliminate lead exposure and detect lead toxicity. For more than a decade it has been known that even healthy appearing children with modest lead elevations show poor academic performance as evidenced by low IQ scores, impaired hearing, speech, and language development, and disruptive classroom behavior.

This legislation revises and extends programs for screening infants and children for lead poisoning. It also creates a program to educate health professionals, paraprofessionals, and the public on the importance of preventing lead poisoning, establishes an interagency task force to coordinate the efforts of Federal agencies to prevent lead poisoning, and supports the development of more improved and more cost-effective testing measures for detecting lead poisoning.

Birth defects, alone and in combination with low birthweight, are a leading cause of infant mortality. The legislation establishes a program to improve State collection and analysis of data of birth defects.

The legislation supports the expansion of the current Comprehensive Perinatal Care Program within the Office of Special Populations as a vital element in an overall strategy to reduce infant mortality. The legislation also addresses the concerns of community health centers on health care financing. It allows them flexibility using nongrant funds to maintain fiscal viability.

An outstanding preventive health initiative is currently being undertaken at the Medical Center of Central Massachusetts. It is establishing a new center as a model that will focus on providing preventive health care to the citizens of central Massachusetts. Of particular importance will be a comprehensive outreach program to provide preventive health care to women, children, and families. In addition to providing much needed preventive health services to the Worcester region, the center will serve as a national model for institutions seeking to offer on-site neonatal and gynecological services, and family practice services.

The current measure builds on the strengths of existing law and enhances the Federal-State partnership in promoting health and preventing disease and disability. With this legislation, we take a major step toward better health care for millions of our citizens, and I urge the Senate to approve it.

Mr. HARKIN. Mr. President, I rise in strong support of the conference report accompanying H.R. 3635, the Preventive Health Amendments of 1992. I want to commend the distinguished chairman of the Labor and Human Resources Committee, Senator KENNEDY, for his continuing leadership in efforts to improve the health care available to Americans. I also want to thank him and his excellent staff for their great work and commitment to bring H.R. 3635 to this point. I was very pleased to have had the opportunity to join him as a conferee on this measure. The conference agreement, while not everything that I would have wanted, includes a major package of health promotion and disease prevention initiatives and is among the most important pieces of health legislation we will approve this session.

Mr. President, as I have said may times, I believe that the most fundamental flaw in our health care system today is its preoccupation with patching and mending and its virtual neglect of prevention and health promotion. What we really have is not a health care system but a sick care system. This year we will spend billions of dollars to treat diseases and disabilities that could have been prevented or caught at an earlier stage. Yet, only a tiny fraction of our health care budget is spend on keeping people healthy and preventing disease and disability. As a result of this flaw in our national health policy, not only are health costs increased, but the quality and length of the lives of many Americans are needlessly reduced. We need to overhaul our sick care system into an American health care systems of which we can all be proud. The conference agreement before the Senate today takes us an important step further toward completing that task.

At the beginning of this Congress, I introduced a package of seven bills, which I call the Prevention First, designed to begin reordering our health care priorities towards commonsense prevention. S. 510, the Older Americans Disease Prevention and Health Promotion Act, which provides for a national program to expand access to health promotion services to senior citizens at senior centers, congregate meal sites and through the Meals-on-Wheels Program, was recently signed into law as part of the Older Americans Act Amendments last month. I am very pleased that a number of other components of my Prevention First initiative and other suggestions are contained in this bill.

A major component of the conference agreement is its reauthorization of the preventative health and health services block grant. This important program is the backbone of State and local public health and prevention efforts. It funds a full range of key disease prevention and health promotion services provided to Americans in every State and locality—from hypertension screening, to health education, to breast cancer screening to smoking cessation programs. H.R. 3635 would expand and strengthen this program, building upon my legislation of last Congress, the Health Objectives 2000 Act. A revised version of this bill, the Year 2000 Health Objectives Planning Act was signed into law by the President and helped pave the way for implementation of the National Health Promotion and Disease Prevention Objectives for the Year 2000.

The conference report before us provides increased capacity and resources to States and localities to assist them in achieveing the Year 2000 National Health Objectives, addressing improvements in health status, risk reduction, public and professional awareness, health services and protective measures, and surveillance and evaluations. Second, it creates and develops an effective partnership of Federal, State, and local health agencies, voluntary health organizations, and other health groups, including minority community-based organizations, to develop initiatives for preventing disease and disability. These provisions will greatly improve not only the preventive health services block grant, but the efficiency and effectiveness of our public health system in general as well.

The conference agreement also incorporates the provisions of S. 507, the Lead Poisoning Prevention Act, legislation I introduced on behalf of myself and a number of our colleagues. Inclusion of S. 507 attacks the No. 1 preventable disease among children—lead poisoning. Conservative estimates indicate that more than 3.5 million American children from all walks of life have dangerous levels of lead in their blood. And we know the devastating impact lead poisoning can have on our children. We know that even healthy-appearing children with modest lead elevations often display poor academic performance, low IQ scores, impaired hearing, unsatisfactory speech and language development, and disruptive classroom behavior. A recent study found that lead poisoned children are seven times more likely to drop out of school before graduating from high school.

The costs of lead poisoning are staggering and the cost-effectiveness of screening for it is clear. The annual cost of remedial education and health care needed as a result of childhood lead poisoning alone totals over $1 billion. Screening and early detection for lead poisoning saves by more than 50-fold the immediate cost of treatment. Yet, there is a sorrowful lack of awareness regarding the perils of lead poisoning, the benefits of screening and the resulting preventive and treatment measures that can be taken to combat this problem.

The conference report attacks this problem by authorizing and expansion of support to States and localities to screen children, establishing a national education program to increase awareness among children, parents, teachers and health professionals about lead poisoning, developing a more cost effective accurate test to screen for lead poisoning, and finally to make certain that the actions of different Federal agencies responding to the problem of lead poisoning are properly coordinated. These steps will save lives and money.

Mr. President, the report before us also incorporates the provisions of S. 505, another component of my Prevention First legislation package. This bill would change the name of our nation's flagship Federal agency on prevention, the Centers for Disease Control [CDC], to the Centers for Disease Control and Prevention [CDC]. This change appropriately recognizes CDC's central role in our national efforts to prevent disease and disability and will give greater national visibility to these efforts. This simple change will also demonstrate our commitment to increasing the focus of our efforts in health care on prevention and elevate prevention to its appropriate high level within the structure of Government health care programs. I want to commend CDC for their strong work and commitment to improving the public health. I want to especially commend Dr. Bill Roper who I think is doing a find job heading up CDC and for his strong support for this change.

The agreement before us contains a number of other prevention-oriented initiatives. It will strengthen our efforts to reduce the rate of preventable injuries, infertility, and adolescent violence. Each of these are very important and would significantly contribute to improved health.

Mr. President, I have been placing top priority in my capacity as chairman of the Senate subcommittee that funds health, education and social services programs on programs that prevent disease and disability and promote health. In the fiscal year 1993 Labor, Health and Human Services Appropriations bill, given final approval by the Senate Saturday, we have provided significant increases in funding for prenatal care, chronic and environmental disease prevention, disability prevention, childhood immunizations and many other critical preventive programs. In the past 2 years alone, we have been able to increase funding for the prevention block grant by more than 50 percent, from $92 to $148 million. We have increased funding for lead poisoning prevention nearly fourfold, from $8 million to nearly $30 million. We have increased funding for the maternal and child health block grant by $78 million and increased funding for childhood immunizations by nearly 50 percent, from $217 to $341 million.

So through these appropriations and through adoption of this authorizing legislation, we are making a downpayment on what needs to be done to turn our sick care system into an American health care system of which we can be proud. We will take further steps next year to assure that all Americans are guaranteed access to quality health and long-term care at a price they can afford. I will be working to assure that preventive measures are at the centerpiece of these efforts.

Mr. President, I urge prompt passage of this conference report and hope that we can move without hesitation to send it to the President for final approval.

Mr. FORD. Mr. President, I ask unanimous consent that the conference report be agreed to; that the motion to reconsider be laid upon the table; and that any statements thereon appear in the RECORD at the appropriate place as though read.

The PRESIDING OFFICER. Without objection, it is so ordered.

So, the conference report was agreed to.

HARD WORK IS THE PROCESS OF THE SENATE

Mr. SIMPSON. Mr. President, I want to thank my friend from Kentucky for that abbreviated version and thank the Chair for alacrity and swiftness in recognizing our efforts here in a most extraordinary way. The exchanges of the friend of Kentucky and my own do not often appear reported in the RECORD, nor would they make light evening reading sometimes.

I enjoy working with him. We work with vigor and loyalty to our leaders and try to promote the flow of the Senate's business as best we can so that the Senate might work its will, as the senior colleague and the most respected colleague from West Virginia often says. That is what Senator FORD and I try to do in our work in our own unique way. We disagree vigorously sometimes, but his word, indeed, is his bond.

Mr. FORD. I thank my good friend.

Mr. President, I thank you for your indulgence here and ability.

So that those who are watching might understand, a great deal of work, long hours, several days have gone into working out agreements on bills that were developed in the House and sent here or developed in the Senate and sent over there. Some were conference reports. Other were negotiations between Senators to bring it to a point where we have that agreement.

What we have seen here today between Senator SIMPSON from Wyoming and myself has been the culmination of all that hard work, which is the process of the Senate. These are unanimous-consent agreements. There is a long, tough trail sometimes to get to that point. There is a lot of give and take. It is given in the best interest of our constituency as it relates to the efficiency of the Senate. It all comes down to one point where we are able to make it work.

I again appreciate the kind words of my friend. I do not imagine the day is over yet. As the Senator says, we are getting ready to hear the dean of all parliamentary procedure and rules of the Senate and an individual who was honored today—not enough, but hopefully there will be some more—when certain items in his home State were agreed to to put his name on it.

Mr. President, I see we now have a couple of items we might be able to work through here.

Mr. SIMPSON. Mr. President, may I before the Senator from Kentucky propounds his unanimous-consent request, I think it is very important that the American people understand what he just said. Some of this material has been here since the first session of this Congress, and people have been working diligently on it. It is my experience after 25 years of legislating that legislating is pretty dry work, if done properly. It is not done for press releases and ribbon-cutting exercises. It is called legislating.

It is a very difficult process of learning to compromise an issue without compromising yourself, learning to do the Nation's business in a highly nondramatic way. What you have seen in this last hour is a true compilation of blood, sweat, and tears on the part of many persons on both sides of the aisle, on both sides of the Capitol building coming to fruition when the final give and take is a very simple one: Either you get it passed or you have to start all over. That is where a lot of give and take is made in the legislative process in the conference committees. It is unreported upon largely because it is unable to be described properly. But it is the essence of democracy.

MONUMENT HONORING THOMAS PAINE

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. 3364, introduced earlier today by Senator SYMMS, to authorize the construction of a monument in the District of Columbia, or its environs, to honor Thomas Paine; that the bill be deemed read the third time, passed, and the motion to reconsider be laid upon the table; and that any statements relating to passage of this item be included at the appropriate place in the CONGRESSIONAL RECORD.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (S. 3364) was deemed read the third time and passed, as follows:

S. 3364

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That effective as of the enactment of the Act entitled "An Act to authorize the construction of a monument in the District of Columbia or its environs to honor Thomas Paine, and for other purposes" (H.R. 1628, One Hundred Second Congress), such Act is amended to read as follows:

"SECTION 1. AUTHORITY TO ESTABLISH MEMORIAL.

"(a) IN GENERAL.—The Thomas Paine National Historical Association is authorized to establish a memorial on Federal land in the District of Columbia or its environs to honor Thomas Paine.

"(b) COMPLIANCE WITH STANDARDS FOR COMMEMORATIVE WORKS.—The establishment of the memorial shall be in accordance with the Act entitled 'An Act to provide standards for placement of commemorative works on certain Federal lands in the District of Columbia and its environs, and for other purposes' approved November 14, 1986 (40 U.S.C. 1001, et. seq.).

"SEC. 2. PAYMENT OF EXPENSES.

"The Thomas Paine National Historical Association shall be solely responsible for acceptance of contributions for, and payment of the expenses of, the establishment of the memorial. No Federal funds may be used to pay any expense of the establishment of the memorial.

"SEC. 3. DEPOSIT OF EXCESS FUNDS.

"If, upon payment of all expenses of the establishment of the memorial (including the maintenance and preservation amount provided for in section 8(b) of the Act referred to in section 1(b)), or upon expiration of the authority for the memorial under section 10(b) of that Act, there remains a balance of funds received for the establishment of the memorial, the Thomas Paine National Historical Association shall transmit the amount of the balance to the Secretary of the Treasury for deposit in the account provided for in section 8(b)(1) of that Act.".

THOMAS PAINE MEMORIAL PROJECT

Mr. SYMMS. Mr. President, our colleagues have heard me speak repeatedly about Thomas Paine. Sometimes my mission has been to generate support for the Thomas Paine Memorial Project, other times it has been to give a status report on our project.

Mr. President, today, I rise with a very special mission, and that is to bring to the attention of the Congress the extraordinary generosity of the private sector's support of a very memorable and important facet of this effort.

As many of our colleagues recall, on the evening of Thursday, September 24, we joined in the Presidents Room of the Capitol Building, EF–100, for a wonderful evening of great food and refreshments as we honored the lifelong contributions to the study of history by Dr. Thomas Clark, of Lexington, KY.

Dr. Clark is known throughout the Nation as a result of his work, and leadership as past president of the Organization of American Historians. In Kentucky, Dr. Clark is nearly beatified for his diligence as a teacher, author, editor, and friend—I have heard only secondhand reports about his golf game, however.

Many of our colleagues were joined in honoring Dr. Clark by Prof. Fred Friendly and his wife Ruth; Felix DeWeldon, who sculpted the magnificent Iwo Jima among others and Florence Stapleton, the past president of the Thomas Paine Association among others.

Mr. President, I want to remind our colleagues of the fact that the wonderful evening would not have been possible if the private sector had not reached deep into its pockets and donated to the worthy cause of honoring Dr. Clark and Thomas Paine.

These donors are: the Bingham Fund, a charitable organization established by Kentucky's Bingham family which was joined by Toyota, U.S.A. of Kentucky, Humana, Inc., Long John Silvers, and Texas Gas & Transmission in giving generously of their financial resources along with the Keith Stein Co. of Boise, ID, and one of my truest friends and my historian/ophthalmologist, Dr. Chuck Howarth.

Additionally, we were very fortunate to receive generous in-kind, support from the Henley Park Hotel here in Washington, Hiram Walker & Sons, Walton Thomas International of Washington, Schneider's of Capitol Hill, Broadbent Meats who supplied that wonderful ham all the way from Cadiz, KY, Premier Beverage of Tampa, FL, and of course Kentucky's Maker's Mark Distillery.

Mr. President, without generosity of these people and the hard work of people like Shirley Felix of the Capitol Catering Office, Karen Portik and Celeste Farmer of the Senate Republican Conference, and Jeremy Chou and Trevor Norris of my staff, this very memorable evening would not have taken place.

Mr. President, with an expression of my deep appreciation to each of these people, I yield the floor.

Mr. President, I ask unanimous consent that the supportive letter regarding Thomas Paine expressing the will of the Rules Committee be printed in the RECORD for the benefit of our colleagues and researchers in the future.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
COMMITTEE ON RULES AND
ADMINISTRATION,
Washington, DC, October 2, 1992.

JOHN G. PARSONS,
Chairman, National Capital Memorial Commission, Washington, DC.

DEAR MR. PARSONS: Congress has passed H.R. 1628, a bill to authorize the construction of a memorial to Thomas Paine, and the President is expected to sign the bill soon. We hope that the Commission will consider promptly this authorization.

In the legislative review of this authorization, there was strong support in both Houses to permit its placement on the Capitol Grounds. In fact there were 78 Senate cosponsors of a resolution proposing such a location. There is, however, a long and strong sentiment that no more memorials be placed on the Capitol Grounds. For that reason, Congress chose to authorize the erection of the monument in the District of Columbia as set forth in this bill.

A memorial to Thomas Paine has strong support in Congress and across America. In keeping with that sentiment, we are writing to urge the Commission to work with The Thomas Paine National Historical Association to select a suitable location within the District to assure that this monument will be erected in a place of dignity and prominence appropriate to a person who played such an important role in the history of this Nation.

We look forward to the day when our Committee, and the Congress, has the opportunity to review the site selected by the Commission and pass the necessary legislation to authorize the issuance of a building permit. It is time to put an end to the capital city's silence on the contributions of Thomas Paine.

Sincerely,

TED STEVENS,
Ranking Republican Member,
WENDELL H. FORD,
Chairman.

EXTENSION OF NATIONAL AIR AND SPACE MUSEUM

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of calendar No. 258, S. 289.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 289) to authorize the Board of Regents of the Smithsonian Institution to plan and design an extension of the National Air and Space Museum at Washington Dulles International Airport, and for other purposes.

The ACTING PRESIDENT pro tempore. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Rules and Administration, with an amendment.

On page 2, line 5, strike "1" and insert in lieu thereof "2". So as to make the bill read:

S. 289

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Board of Regents of the Smithsonian Institution is authorized to plan and design an extension of the National Air and Space Museum at Washington Dulles International Airport.

SEC. 2. Effective October 1, 1992, there is authorized to be appropriated to the Board of Regents of the Smithsonian Institution $9,000,000 to carry out the purposes of this Act.

AMENDMENT NO. 3427

(Purpose: To designate an appropriate public area within the extension of the National Air and Space Museum, Washington Dulles International Airport, to honor Edwin Jacob Garn)

Mr. SIMPSON. Mr. President, I send an amendment on behalf of Senator WARNER to the desk.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Wyoming [Mr. Simpson], for Mr. Warner, proposes an amendment numbered 3427.

Mr. SIMPSON. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

On page 2, line 4, immediately after the period, add the following: "The Board of Regents of the Smithsonian Institution shall designate and name an appropriate public area within such extension to honor Edwin Jacob Garn, currently a member of the Board of Regents, Smithsonian Institution, having served since 1981, and the first Member of Congress to fly in space while serving as a Member.".

The ACTING PRESIDENT pro tempore. The question is on agreeing to the amendment.

The amendment (No. 3427) was agreed to.

Mr. GARN. Mr. President, S. 289 reflects the need of the Smithsonian to provide a replacement facility for the inadequate and outmoded structures near Suitland, MD. That facility currently houses the restoration laboratory, exhibition production and maintenance services, archives, and storage functions of the National Air and Space Museum, which cannot be stored in the Museum's existing building on the Mall. To meet these requirements, it is important to extend those functions at a nearby location while relying on nonappropriated sources of funding to a major extent.

On at least six occasions over the past 9 years, the Board of Regents of the Smithsonian Institution has recommended that an extension of the National Air and Space Museum be constructed at Washington Dulles International Airport so the Museum may continue to fulfill its historic mandate to "memorialize the national development of aviation and space flight * * *." Twice before authorizing legislation has passed the Senate, only to fail in the House.

The existing National Air and Space Museum on the Mall is the most popular museum in the world. Its approval stems from the manner in which its artifacts, from the Wright Flyer to the *Pioneer 10* spacecraft, are exhibited to the public, as well as from the fact that the American people are captivated by the idea of flight and space exploration.

The crucial matter of preserving a collection is the heart of any museum's functions. In spite of the wonderful job that is currently being done, it is obvious that the present site of the museum's restoration and preservation activities, the Paul E. Garber facility at Suitland, is totally inadequate for the existing collection, and absolutely unsuitable for the needs of the future.

The icons of air and space are large: The prototype Boeing 707—whch introduced the commercial jet age, generated billions of dollars for U.S. workers and investors, and shrank the world—should be available as an example of our aviation heritage. But it is too large for the Mall Museum. The space shuttle *Enterprise*—which I was pleased to help obtain for the Smithsonian—should be available for close inspection. The speedy and mysterious SR–71 *Blackbird* is also awaiting exhibit space, as are other examples of our achievements. These machines are too large to be exhibited in the museum on the Mall; indeed, most of them cannot even be disassembled for transportation to the Mall. The Regents of the Smithsonian Institution believe the best location is at nearby Dulles International Airport.

I am aware that there are those who would like to disperse the Air and Space Museum to the many corners of the land, but I believe that bridge has already been crossed in the numerous studies within and without the Smithsonian Institution, and by the many decisions of the Board of Regents pursuant to its statutory authority. Under the accepted criteria the decisions always and unequivocally designated Dulles International Airport as the site of the extension. I recognize that there is room for regional air and space museums, and I am committed to assist and foster these developments. But I believe there should be but one National Air and Space Museum, and that should be kept as compact and unified in display, administration and support as possible.

The Smithsonian does not seek to expand museum activities through extensive new construction that would be costly in itself and would require the long-term commitment of increased levels of Federal program and operating funds. Locating the extension at Washington Dulles International Airport, where a number of its aircraft are stored, will permit the new facility to be managed as part of the existing Museum, thereby avoiding the costs of an additional administrative and support superstructure.

The Dulles location also will permit the Institution to take advantage of the very generous financial package offered by the Commonwealth of Virginia, which several years ago enacted bonding authority for the extension. While a modest increment of Federal funding may be required for the overall project, the Smithsonian expects to explore a variety of financing options, including fund-raising in the private sector, to complement the Virginia offer and ease Federal requirements for its support.

The extension will provide adequate space and modern systems that will enhance the Institution's capacity to enter into collaborative programs with other organizations and share the resources of the National Air and Space Museum with communities beyond the immediate Washington, DC, area. Clearly, the utilization of emerging technologies is key to accelerating the distribution of information about the Museum's resources such as collections, exhibitions, and public programming, as well as to establishing real-time communications between organizations.

Mr. President, I ask that my colleagues approve S. 289 so that this important and thoughtful initiative can proceed.

Mr. ROBB. Mr. President, earlier today the Senate passed S. 289, Senator GARN's bill to authorize $9 million to design an extension of the National Air and Space Museum at Dulles International Airport. Because I was presiding over the Senate at the time, I was unable to speak to the issue. I would like to say just a few words at this time in support of the measure.

Passage of this bill today represents the fourth time that the Senate has approved legislation reaffirming the sound decision of the Smithsonian's Board of Regents to locate the much-needed annex to the Air and Space Museum at Dulles Airport. Just 4 days ago, in fact, the Senate passed the text of S. 289 as part of Senator SIMON's bill establishing a National African-American Memorial Museum—S. 523.

The Commonwealth of Virginia and I have been avid supporters of the Air and Space Museum extension at Dulles since the Smithsonian first broached the idea in 1983, while I was Governor. My distinguished successors in that office, Jerry Baliles and Doug Wilder, have maintained the Commonwealth's commitment to the project.

Unfortunately, attempts have been made over the years to tamper with the Regents' decision to site the annex at Dulles. The most recent attempt to do so came in the form of H.R. 3281, a bill to reopen the site selection process for the extension. I am pleased that the House overwhelmingly rejected that effort on September 30 by a vote of 317-106.

It is my hope that the recent House vote will put to rest the attempts to reopen what should be a settled question, and I wholeheartedly support the Senate's passage of Senator GARN's bill today.

The ACTING PRESIDENT pro tempore. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment, as amended.

The committee amendment, as amended, was agreed to.

The ACTING PRESIDENT pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 289

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Board of Regents of the Smithsonian Institution is authorized to plan and design an extension of the National Air and Space Museum at Washington Dulles International Airport. The Board of Regents of the Smithsonian Institution shall designate and name an appropriate public area within such extension to honor Edwin Jacob Garn, currently a member of the Board of Regents, Smithsonian Institution, having served since 1981, and the first Member of Congress to fly in space while serving as a Member.

SEC. 2. Effective October 1, 1992, there is authorized to be appropriated to the Board of Regents of the Smithsonian Institution $9,000,000 to carry out the purposes of this Act.

Mr. FORD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. SIMPSON. I move to lay the motion on the table.

The motion to lay on the table was agreed to.

RECOMMENDATIONS OF FEDERAL COURTS STUDY COMMITTEE

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 6185, a bill to implement the recommendations of the Federal Courts Study Committee, just received from the House; that the bill be deemed read the third time, passed and the motion to reconsider be laid upon the table; and that statements with respect to passing this bill appear at the appropriate place in the RECORD.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 6185) was deemed read the third time and passed.

Mr. HEFLIN. Mr. President, I rise today to urge immediate passage of H.R. 6185, the Federal Courts Administration Act of 1992. This comprehensive legislation, which began as S. 1569 when I introduced it in the Senate over 1 year ago, would implement recommendations of the Federal Courts Study Committee and make other changes which are necessary to facilitate the operation of our Federal courts system.

The 100th Congress created within the Judicial Conference of the United States a 15-member Federal Courts Study Committee and directed it to "make a complete study of the courts of the United States and of the several States and transmit a report * * * on such study." The Federal Courts Study Committee included members of the Federal executive, legislative, and judicial branches and representatives from State governments, universities and private practice, all of whom worked toward the goal of developing a long-range plan for the judicial system. I was privileged to serve as a member of this committee, as did Senator GRASSLEY.

The 101st Congress saw the first phase of Federal Courts Study Committee legislative recommendations enacted into law as title III of the Judicial Improvements Act of 1990. H.R. 6185 incorporates additional recommendations of the Federal Courts Study Committee. These important provisions are as follows:

Section 101 would delegate authority to the Supreme Court, under the Rules Enabling Act, to define what constitutes a final decision; and to define circumstances in which orders and actions of district courts not otherwise subject to appeal under acts of Congress may be appealed to the courts of appeals.

Section 102 would provide jurisdiction for magistrate judges to revoke, modify or terminate the supervised release or probation of a defendant sentenced by a magistrate judge.

Section 103 would allow the Chief Justice of the United States, upon request, to designate and assign temporarily any circuit judge to another circuit.

Title II of H.R. 6185 addresses important needs and issues affecting the surviving spouses and dependents of Federal judges. This proposal would reduce the contribution of judges from 5 percent of salary to 2.2 percent of salary while in active service or while serving in senior or recalled status, and would set the rate of contribution at 3.5 percent of retirement salary for those judges leaving office. The reductions in the judges' contributions would attract more participants and extend protection to survivors of judges who otherwise would remain vulnerable to financial crises.

Titles III–VII of H.R. 6185 contain various judicial housekeeping items which were included at the request of the Judicial Conference of the United States. These sections focus on judicial financial administration; jury matters; judiciary personnel administration, benefits, and protections; and criminal administrative matters.

The legislation which originally passed the Senate (S. 1569) contained a provision, section 403, since deleted, dealing with compensation for loss or damage to personal property of jurors. It is our opinion that it is within the power of the Judicial Conference of the United States to delegate to the Administrative Office of the U.S. Courts the authority to pay for such losses, without the need for further legislation.

Moreover, section 602 of H.R. 6185 allows the Federal Judicial Center to work with other organizations to assist in the development of judicial systems in foreign countries. With new democracies forming all over the world, it is essential that our judicial branch officers and employees be authorized to share their expertise in judicial administration and the basic tenets of freedom that this country holds dear. I anticipate that there will be many beneficial developments from the efforts of the Federal Judicial Center, the Judicial Conference, and the Administrative Office of the U.S. Courts in this regard.

Title VIII of H.R. 6185 would reauthorize the State Justice Institute from 1993 to 1996. This reauthorization, which I strongly support, would continue the mission of the State Justice Institute to improve the administration of justice in our Nation's State court systems.

Title IX would improve the Federal claims litigation process before the U.S. Claims Court and assist the court in providing better and more efficient service to its litigants. It would also ensure fair treatment for the judges of the court by providing certain benefits equivalent to those available to other Federal trial judges.

Section 907, amending the Contract Disputes Act, is intended to make clear that the claim certification requirements of 41 United States Code, section 605 are not intended to be jurisdictional—in the sense of being an absolute prerequisite to court jurisdiction. Certification has always been intended to ensure that complete, clear, and honest claims are presented to Federal contracting officers, and this requirement remains: Contracting officers are not required to address claims that do not comply with the provisions of title 41, United States Code, section 605. However, a defect in the certification, discovered after a claim is in litigation, may be cured by the contractor to avoid repetition of the entire administrative claim process and waste of judicial or board resources. See generally *United States* v. *Grumman Aerospace Corp.*, 927 F.2d 575 (Fed. Cir. 1991); *Ball, Ball & Brosamer, Inc.* v. *United States*, 878 F.2d 1426 (Fed. Cir. 1986).

The term technically defective is intended to cover the full range of defects found by the courts that do not involve a substantive defect such as bad faith, fraud, or reckless and intentional disregard of the statutory certification requirements. Examples of technically defective certifications made curable by this amendment include certification language that is incomplete, failure to supply a certification with each document submitted as part of the claim when all claim documentation is not submitted simultaneously, missing certifications when two or more claims not requiring certification are deemed by the court or board to be a larger claim requiring certification, and certification by the wrong or incorrect representative of the contractor—when the person making the certification was duly authorized by the contractor to certify on its behalf. This list is not intended to be exclusive, but to illustrate that use of the word "technically" does not narrowly and unreasonably limit the scope of this amendment.

Contractors whose certifications are defective as the result of innocent mistake or inadvertence should not be penalized where their claims are otherwise meritorious and a good faith effort appears to have been made to provide a responsive certification in the first instance, including recertifications filed in response to contracting officer inquiries after the initial claim was filed. This amendment continues protection for the Government against false, bad faith, or fraudulent claims. But it is consistent with the goal of preventing wasteful or duplicative litigation by allowing a contractor to cure a defect after the case is before a court or board, and thus permitting the court or board to proceed to the merits of the litigation.

Finally, title X would provide a civil cause of action in Federal court for victims of terrorism. This provision has strong bipartisan support in the Congress, and I am pleased to support its inclusion here.

Mr. President, H.R. 6185 is the product of much effort on the part of many people. In particular, I would like to extend my deep gratitude to my colleagues on the Senate Judiciary Committee, especially Senators THURMOND and GRASSLEY. I would also like to thank Representative HUGHES, chairman of the House Judiciary Subcommittee on Intellectual Property and Judicial Administration, and Representative MOORHEAD, ranking minority member of the subcommittee and fellow Federal Courts Study Committee member. In addition, the staffs of these Members of Congress are to be commended for their fine work and dedication.

In formulating this Federal Courts Administration legislation, we have been mindful of the concerns of many parties expressing an interest. I feel that these efforts have produced a consensus bill which will benefit our Federal judiciary in many ways, for years to come.

Mr. GRASSLEY. Mr. President, I rise in support of final passage of H.R. 6185/S. 1569, the Federal courts bill, and ask that Senator HEFLIN add my name as a cosponsor of the bill.

A little more than 2 years ago, Senator HEFLIN and I were privileged to be members of the Federal Courts Study Committee. The committee issued an extensive report with recommendations for improving the Federal courts. We implemented some of those recommendations with a bill in 1990, and today we implement several more. We are empowering magistrates to make modifications in probation or supervised release, as well as making it easier for appeals court judges to be transferred temporarily to another circuit to accommodate heavier dockets.

There are many more good recommendations from the Federal Court Study Committee, including changes in prisoner litigation procedures, that have not yet been adopted. I hope that Senator HEFLIN and I will have the opportunity to continue working on the improvement of the Federal courts. It cannot be disputed that our courts are clogged and the judges need assistance with some reforms.

This bill also contains a series of recommendations from the Administrative Office of the U.S. Courts which will enable the courts to function more efficiently. And, in this bill, we have made needed changes in the Judicial Survivor Annuity Act, which will enable the families and survivors of judges to have a more rational benefit plan. I am generally cautious on salaries and benefits for Federal employees, and have long been a fighter against congressional pay raises. But this improvement will be a small initial cost to the Government, and the judges will be contributing to the plan. The result will be a better plan for the families of very important public servants—Federal judges.

We have also provided for some changes in the U.S. Claims Court, the court with jurisdiction over money disputes with the Federal Government. The most significant change is an improvement in the contractor certification procedure. Under the Contract Disputes Act, a contractor is required to certify a claim against the Government. Often, that certification—a technical form—can be the subject of extensive litigation. Under the changes provided in this bill, the claims court or the board of contract appeals may allow a certification to be corrected for technical defects at any time prior to a final decision, unless the defective certification was fraudulent, made in bad faith, or made with reckless or gross negligence. Some contractors sought more expansive changes in the claims certification requirement, but this change should relieve the claims court of needless and wasteful litigation over the validity of certifications. But it also preserves the Government's need for the certification requirement—much needed insurance against bad faith claims against the Government.

Finally, Mr. President, I am pleased that this bill incorporates my legislation to create a new civil action for American victims of terrorism. The tragedies of Pan Am 103 and the *Achilles Lauro* still burn in our minds. Those responsible have not been called to account for destroying precious American lives. This provision, the product of 3 years of effort, is now finally coming to fruition. American victims will be able to bring a claim against a terrorist group for money damages. The Justice Department had some concerns about protecting its criminal investigations in these kinds of cases. And we have been able to accommodate the Department's interests. After all, we agree that the first and best remedy is to bring these terrorists to justice in our courts of law. But often, the terrorists elude justice, as in the *Achilles Lauro* case where Leon Klinghoffer, an elderly American was callously murdered by PLO terrorists. And in the Pan Am 103 case, two Libyans have been indicted, but have not been apprehended. While this bill will not permit civil actions against sovereign leaders, it will allow the victims to pursue renegade terrorist organizations and their leaders, and go after the resource that keeps them in business—their money. We all hope that this new provision will not be invoked—that is, that there will not be American victims of terrorism. But in the event tragedy strikes, victims will be armed with this civil remedy.

FEDERAL COURTS ADMINISTRATION ACT OF 1992

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1569.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1569) entitled "An Act to implement the recommendations of the Federal Courts Study Committee, and for other purposes", do pass with the following amendment:

Strike out all after the enacting clause, and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal Courts Administration Act of 1992".

TITLE I—IMPLEMENTATION OF FEDERAL COURTS STUDY COMMITTEE RECOMMENDATIONS

SEC. 101. SUPREME COURT AUTHORITY TO PRESCRIBE RULES FOR APPEAL OF INTERLOCUTORY DECISIONS.

Section 1292 of title 28, United States Code, is amended by adding at the end the following new subsection:

"(e) The Supreme Court may prescribe rules, in accordance with section 2072 of this title, to provide for an appeal of an interlocutory decision to the courts of appeals that is not otherwise provided for under subsection (a), (b), (c), or (d).".

SEC. 102. ABOLITION OF TEMPORARY EMERGENCY COURT OF APPEALS.

(a) APPEALS UNDER ECONOMIC STABILIZATION ACT.—Section 211 of the Economic Stabilization Act of 1970 (Public Law 91–379; 84 Stat. 799) is amended by striking subsections (b) through (h) and inserting the following:

"(b) Appeals from orders or judgments entered by a district court of the United States in cases and controversies arising under this title shall be brought in the United States Court of Appeals for the Federal Circuit if the appeal is from a final decision of the district court or is an interlocutory appeal permitted under section 1292(c) of title 28, United States Code.".

(b) JUDICIAL REVIEW OF EMERGENCY ORDERS UNDER THE NATURAL GAS POLICY ACT.—Section 506(c) of the Natural Gas Policy Act of 1978 (15 U.S.C. 3416(c)) is amended—

(1) in the first sentence, by striking "the Temporary Emergency Court of Appeals, established pursuant to section 211(b) of the Economic Stabilization Act of 1970, as amended," and inserting "the United States Court of Appeals for the Federal Circuit"; and

(2) by striking "Temporary Emergency Court of Appeals" each place it appears and inserting "United States Court of Appeals for the Federal Circuit".

(c) CONFORMING AMENDMENTS.—Section 1295(a) of title 28, United States Code, is amended—

(1) by striking "and" at the end of paragraph (9);

(2) by striking the period at the end of paragraph (10) and inserting a semicolon; and

(3) by adding at the end the following new paragraphs:

"(11) of an appeal under section 211 of the Economic Stabilization Act of 1970;

"(12) of an appeal under section 5 of the Emergency Petroleum Allocation Act of 1973;

"(13) of an appeal under section 506(c) of the Natural Gas Policy Act of 1978; and

"(14) of an appeal under section 523 of the Energy Policy and Conservation Act.".

(d) ABOLITION OF COURT.—The Temporary Emergency Court of Appeals created by section 211(b) of the Economic Stabilization Act of 1970 is abolished, effective 6 months after the date of the enactment of this Act.

(e) PENDING CASES.—(1) Any appeal which, before the effective date of abolition described in subsection (d), is pending in the Temporary Emergency Court of Appeals but has not been submitted to a panel of such court as of that date shall be assigned to the United States Court of Appeals for the Federal Circuit as though the appeal had originally been filed in that court.

(2) Any case which, before the effective date of abolition described in subsection (d), has been submitted to a panel of the Temporary Emergency Court of Appeals and as to which the mandate has not been issued as of that date shall remain with that panel for all purposes and, notwithstanding the provisions of sections 291 and 292 of title 28, United States Code, that panel shall be assigned to the United States Court of Appeals for the Federal Circuit for the purpose of deciding such case.

SEC. 103. JURISDICTION OF MAGISTRATE JUDGES TO MODIFY OR REVOKE PROBATION OR SUPERVISED RELEASE AFTER IMPRISONMENT.

Section 3401 of title 18, United States Code, is amended—

(1) in subsection (d) by striking "and to revoke or reinstate the probation of any person granted probation by him." and inserting "and to revoke, modify, or reinstate the probation of any person granted probation by a magistrate judge."; and

(2) by adding at the end the following new subsections:

"(h) The magistrate judge shall have power to modify, revoke, or terminate supervised release of any person sentenced to a term of supervised release by a magistrate judge.

"(i) A district judge may designate a magistrate judge to conduct hearings to modify, revoke, or terminate supervised release, including evidentiary hearings, and to submit to the judge proposed findings of fact and recommendations for such modification, revocation, or termination by the judge, including, in the case of revocation, a recommended disposition under section 3583(e) of this title. The magistrate judge shall file his or her proposed findings and recommendations.".

SEC. 104. INTERCIRCUIT TRANSFERS.

Section 291(a) of title 28, United States Code, is amended to read as follows:

"(a) The Chief Justice of the United States may, in the public interest, designate and assign temporarily any circuit judge to act as circuit judge in another circuit upon request by the chief judge or circuit justice of such circuit.".

TITLE II—JUDICIAL SURVIVORS' ANNUITIES IMPROVEMENTS

SEC. 201. JUDICIAL SURVIVORS' ANNUITIES AMENDMENTS.

(a) ELECTION.—Section 376(a)(1) of title 28, United States Code, is amended in the matter following subparagraph (G)—

(1) by striking "or" at the end of clause (v); and

(2) by inserting before the semicolon at the end of clause (vi) ", or (vii) the date of the enactment of the Federal Courts Administration Act of 1992".

(b) CONTRIBUTIONS.—Section 376(b) of title 28, United States Code, is amended—

(1) by inserting "(1)" after "(b)";

(2) in the first sentence by striking "including any 'retirement salary', a sum equal to 5 percent of that salary." and inserting "a sum equal to 2.2 percent of that salary, and a sum equal to 3.5 percent of his or her retirement salary. The deduction from any retirement salary—

"(A) of a justice or judge of the United States retired from regular active service who is described in section 371(b)(1) of this title,

"(B) of a justice or judge of the United States retired under section 372(a) of this title who is willing and able to perform judicial duties in accordance with section 294 of this title,

"(C) of a judge of the United States Court of Federal Claims retired under section 178 (a) or (b) of this title who meets the requirements of section 178(d) of this title, or

"(D) of a judicial official on recall under section 155(b), 797, 373(c)(4), 375, or 636(h) of this title,

shall be an amount equal to 2.2 percent of retirement salary.";

(3) by redesignating all that follows the first sentence (as amended by paragraph (2) of this subsection) as paragraph (3) and inserting before such paragraph (3) the following new paragraph:

"(2) A judicial official who is not entitled to receive an immediate retirement salary upon leaving office but who is eligible to receive a deferred retirement salary on a later date shall file, within 90 days before leaving office, a written notification of his or her intention to remain within the purview of this section under such conditions and procedures as may be determined by the Director of the Administrative Office of the United States Courts. Every judicial official who files a written notification in accordance with this paragraph shall be deemed to consent to contribute, during the period before such a judicial official begins to receive his or her retirement salary, a sum equal to 3.5 percent of the deferred retirement salary which that judicial official is entitled to receive. Any judicial official who fails to file a written notification under this paragraph shall be deemed to have revoked his or her election under subsection (a) of this section."; and

(4) in paragraph (3), as redesignated by paragraph (3) of this subsection, by striking "so deducted and withheld from the salary of each such judicial official" and inserting "deducted and withheld from the salary of each judicial official under paragraphs (1) and (2) of this subsection".

(c) Deposits.—Section 376(d) of title 28, United States Code, is amended—

(1) in paragraph (1) by striking "5 percent" and inserting "3.5 percent"; and

(2) in paragraph (2) by striking "5 percent" and inserting "3.5 percent".

(d) Refund of Deposits.—Section 376(g) of title 28, United States Code, is amended to read as follows:

"(g) If any judicial official leaves office and is ineligible to receive a retirement salary or leaves office and is entitled to a deferred retirement salary but fails to make an election under subsection (b)(2) of this section, all amounts credited to his or her account established under subsection (e), together with interest at 4 percent per annum to December 31, 1947, and at 3 percent per annum thereafter, compounded on December 31 of each year, to the date of his or her relinquishment of office, minus a sum equal to 2.2 percent of salary for service while deductions were withheld under subsection (b) or for which a deposit was made by the judicial official under subsection (d), shall be returned to that judicial official in a lump-sum payment within a reasonable period of time following the date of his or her relinquishment of office. For the purposes of this section, a 'reasonable period of time' shall be presumed to be no longer than 1 year following the date upon which such judicial official relinquishes his or her office.".

(e) Payment of Annuities.—Section 376(h)(1) of title 28, United States Code, is amended by striking "or while receiving 'retirement salary,' " and inserting "while receiving retirement salary, or after filing an election and otherwise complying with the conditions under subsection (b)(2) of this section".

(f) Creditable Service.—Section 376(k) of title 28, United States Code, is amended—

(1) in paragraph (3) by striking "and" at the end;

(2) in paragraph (4) by striking the period and inserting ", and"; and

(3) by adding at the end the following new paragraph:

"(5) those years during which such judicial official had deductions withheld from his or her retirement salary in accordance with subsection (b)(1) or (2) of this section.".

(g) Computation of Annuity.—Section 376(l) of title 28, United States Code, is amended—

(1) in paragraph (1) by striking "(i) during those three years of such service in which his or her annual salary" and inserting "(i) during those three years of such service, or during those three years while receiving a retirement salary, in which his or her annual salary or retirement salary"; and

(2) in paragraph (1) by redesignating subparagraph (D) as subparagraph (E) and inserting after subparagraph (C) the following:

"(D) the number of years during which the judicial official had deductions withheld from his or her retirement salary under subsection (b) (1) or (2) of this section; plus".

(h) Termination.—Section 376 of title 28, United States Code, is amended by adding at the end of that section the following new subsection:

"(v) Subject to the terms of a decree, court order, or agreement described in subsection (t)(1), if any judicial official ceases to be married after making the election under subsection (a), he or she may revoke such election in writing by notifying the Director of the Administrative Office of the United States Courts. The judicial official shall also notify any spouse or former spouse of the application for revocation in accordance with such requirements as the Director of the Administrative Office of the United States Courts shall by regulation prescribe. The Director may provide under such regulations that the notification requirement may be waived with respect to a spouse or former spouse if the judicial official establishes to the satisfaction of the Director that the whereabouts of such spouse or former spouse cannot be determined.".

(i) Adjustment of Contribution Rate.—Section 376 of title 28, United States Code, is amended by adding at the end of that section the following new subsection:

"(w) The Comptroller General of the United States shall, at the end of each 3-fiscal year period, determine whether the contributions by judicial officials under subsection (b) during that 3-year period accounted for 50 percent of the costs of the Judicial Survivors' Annuities Fund and if not, then what adjustments in the contribution rates under subsection (b) should be made to achieve that 50 percent figure. The Comptroller General shall report the results of each determination under this subsection to the Congress.".

(j) Credit for Prior Contributions at Higher Rate.—Notwithstanding any other provision of law, the contribution under section 376(b) (1) or (2) of title 28, United States Code (as amended by this section), of any judicial official who is within the purview of such section 376 on the effective date of this title shall be reduced by 0.5 percent for a period of time equal to the number of years of service for which the judicial official has made contributions or deposits before the enactment of this Act to the credit of the Judicial Survivors' Annuities Fund or for 18 months, whichever is less, if such contributions or deposits were never returned to the judicial official. For purposes of this subsection, the term "years" shall mean full years and twelfth parts thereof.

(k) Redeposit of Prior Contributions.—Any judicial official as defined in section 376(a)(1) of title 28, United States Code, who makes an election under section 376(b) of title 28, United States Code, may make a redeposit, as required by section 7 of Public Law 94–554 and section 2(c)(2) of Public Law 99–336, to the credit of the Judicial Survivors' Annuities Fund in installments, in such amounts and under such conditions as may be determined in each instance by the Director of the Administrative Office of the United States Courts. If a judicial official elects to make a redeposit in installments—

(1) the Director shall require that the first installment payment made shall be in an amount no smaller than the last 18 months of salary deductions or deposits previously returned to that judicial official in a lump-sum payment; and

(2) the election under section 376(b) of title 28, United States Code, shall be effective upon payment of the first such installment.

(l) Audit by GAO.—The Comptroller General shall—

(1) conduct an audit of the judicial survivors annuities program under section 376 of title 28, United States Code, for the 3-year period beginning on the date of the enactment of this Act; and

(2) report to the Congress, not later than 60 days after the end of that 3-year period, on the results of such audit, comparing such program to other survivors annuities programs within the Federal Government.

SEC. 202. EFFECTIVE DATE.

This title and the amendments made by this title shall take effect on the date of the enactment of this Act.

TITLE III—JUDICIAL FINANCIAL ADMINISTRATION

SEC. 301. AWARD OF FILING FEES IN FAVOR OF THE UNITED STATES.

(a) Actions Commenced by the United States.—Section 2412(a) of title 28, United States Code, is amended—

(1) by inserting "(1)" after "(a)"; and

(2) by adding at the end the following new paragraph:

"(2) A judgment for costs, when awarded in favor of the United States in an action brought by the United States, may include an amount equal to the filing fee prescribed under section 1914(a) of this title. The preceding sentence shall not be construed as requiring the United States to pay any filing fee.".

(b) Disposition of Filing Fees.—Section 1931 of title 28, United States Code, is amended by striking "The following" and all that follows through the end and inserting the following:

"(a) Of the amounts paid to the clerk of court as a fee under section 1914(a) or as part of a judgment for costs under section 2412(a)(2) of this title, $60 shall be deposited into a special fund of the Treasury to be available to offset funds appropriated for the operation and maintenance of the courts of the United States.

"(b) If the court authorizes a fee under section 1914(a) or an amount included in a judgment for costs under section 2412(a)(2) of this title of less than $120, the entire fee or amount, up to $60, shall be deposited into the special fund provided in this section.".

TITLE IV—JURY MATTERS

SEC. 401. JURY SELECTION.

Section 1863(b)(2) of title 28, United States Code, is amended by adding at the end the following: "The plan for the district of Massachusetts may require the names of prospective jurors to be selected from the resident list provided for in chapter 234A, Massachusetts General Laws, or comparable authority, rather than from voter lists.".

SEC. 402. GRAND JURY TRAVEL.

Section 1871(c) of title 28, United States Code, is amended by adding at the end the following new paragraph:

"(5) A grand juror who travels to district court pursuant to a summons may be paid the travel expenses provided under this section or, under guidelines established by the Judicial Conference, the actual reasonable costs of travel by aircraft when travel by other means is not feasible and when certified by the chief judge of the district court in which the grand juror serves.".

SEC. 403. PERMANENT AUTHORIZATION FOR OPTIONAL USE OF NEW JURY SELECTION PROCESS.

(a) Authority To Use One-Step Procedure.—Section 1878 of title 28, United States Code, is amended to read as follows:

"§ 1878. Optional use of a one-step summoning and qualification procedure

"(a) At the option of each district court, jurors may be summoned and qualified in a single procedure, if the court's jury selection plan so authorizes, in lieu of the two separate procedures otherwise provided for by this chapter. Courts shall ensure that a one-step summoning and qualification procedure conducted under this section does not violate the policies and objectives set forth in sections 1861 and 1862 of this title.

"(b) Jury selection conducted under this section shall be subject to challenge under section 1867 of this title for substantial failure to comply with the provisions of this title in selecting the jury. However, no challenge under section 1867 of this title shall lie solely on the basis that a jury was selected in accordance with a one-step summoning and qualification procedure authorized by this section.".

(b) CONFORMING AMENDMENT.—The item relating to section 1878 in the table of sections for chapter 121 is amended to read as follows:

"1878. Optional use of a one-step summoning and qualification procedure.".

(c) SAVINGS PROVISION.—For courts participating in the experiment authorized under section 1878 of title 28, United States Code (as in effect before the effective date of this section), the amendment made by subsection (a) of this section shall be effective on and after January 1, 1992.

TITLE V—MISCELLANEOUS

SEC. 501. PRETERMISSION OF REGULAR SESSIONS OF COURT OF APPEALS.

Section 48(c) of title 28, United States Code, is amended by striking ", with the consent of the Judicial Conference of the United States,".

SEC. 502. REPORTS AND STATISTICS.

(a) ELIMINATION OF DUPLICATIVE REPORTING REQUIREMENT.—After January 1, 1992, the Director of the Administrative Office of the United States Courts is not required to send a report under section 1121(a) of Public Law 95-630 (12 U.S.C. 3421(a)).

(b) TRANSFER OF REPORTING DUTY TO ADMINISTERING AGENCY.—Section 2412(d)(5) of title 28, United States Code, is amended by striking "The Director" and all that follows through "this title," and inserting "The Attorney General shall report annually to the Congress on".

(c) EXTENSION FOR JUDICIAL CENTER REPORT.—Section 302(c) of the Judicial Improvements Act of 1990 (Public Law 101-650; 104 Stat. 5104) is amended by striking "2 years" and inserting "2 years and 9 months".

SEC. 503. RECYCLING AND REUSE OF RECYCLABLE MATERIALS.

Section 604(g) of title 28, United States Code, is amended by adding at the end the following new paragraph:

"(3)(A) In order to promote the recycling and reuse of recyclable materials, the Director may provide for the sale or disposal of recyclable scrap materials from paper products and other consumable office supplies held by an entity within the judicial branch.

"(B) The sale or disposal of recyclable materials under subparagraph (A) shall be consistent with the procedures provided in section 203 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484) for the sale of surplus property.

"(C) Proceeds from the sale of recyclable materials under subparagraph (A) shall be deposited as offsetting collections to the fund established under section 1931 of this title and shall remain available until expended to reimburse any appropriations for the operation and maintenance of the judicial branch.".

SEC. 504. VENUE IN DIVERSITY AND FEDERAL QUESTION CASES.

Section 1391(a)(3) of title 28, United States Code, is amended by inserting before the period ", if there is no district in which the action may otherwise be brought".

SEC. 505. SUMMARIES OF REPORTS TO CONGRESS.

Section 103(c)(4)(B) of the Civil Justice Reform Act of 1990 (Public Law 101-650) is amended by striking "the reports" and inserting "summaries of the reports".

SEC. 506. COSTS AND FEES IN THE UNITED STATES COURT OF VETERANS APPEALS.

(a) IN GENERAL.—Section 2412(d)(2)(F) of title 28, United States Code, is amended by inserting before the semicolon "and the United States Court of Veterans Appeals".

(b) APPLICATION TO PENDING CASES.—The amendment made by subsection (a) shall apply to any case pending before the United States Court of Veterans Appeals on the date of the enactment of this Act, to any appeal filed in that court on or after such date, and to any appeal from that court that is pending on such date in the United States Court of Appeals for the Federal Circuit.

(c) FEE AGREEMENTS.—Section 5904(d) of title 38, United States Code, shall not prevent an award of fees and other expenses under section 2412(d) of title 28, United States Code. Section 5904(d) of title 38, United States Code, shall not apply with respect to any such award but only if, where the claimant's attorney receives fees for the same work under both section 5904 of title 38, United States Code, and section 2412(d) of title 28, United States Code, the claimant's attorney refunds to the claimant the amount of the smaller fee.

(d) EFFECTIVE DATE.—This section, and the amendment made by this section, shall take effect on the date of the enactment of this Act.

TITLE VI—JUDICIARY PERSONNEL ADMINISTRATION, BENEFITS, AND PROTECTIONS

SEC. 601. JUDICIAL RETIREMENT MATTERS.

(a) JUDICIAL RETIREMENT FUNDS.—Section 255(g)(1)(B) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 905(g)(1)(B)) is amended by inserting after "Judicial survivors' annuities fund (10-8110-0-7-602);" the following:

"Judicial Officers' Retirement Fund (10-8122-0-7-602);

"Court of Federal Claims Judges' Retirement Fund (10-8124-0-7-602);".

(b) JUDICIARY TRUST FUNDS.—Section 255(g)(1)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 905(g)(1)(A)) is amended by inserting after "Payment to civil service retirement and disability fund (24-0200-0-1-805);" the following:

"Payment to Judiciary Trust Funds (10-0941-0-1-752);".

SEC. 602. FEDERAL JUDICIAL CENTER.

(a) FUNCTIONS.—Subsection 620(b) of title 28, United States Code, is amended—

(1) in paragraph (4) by striking "and" at the end;

(2) in paragraph (5) by striking the period and inserting "; and"; and

(3) by adding at the end the following new paragraph:

"(6) insofar as may be consistent with the performance of the other functions set forth in this section, to cooperate with and assist agencies of the Federal Government and other appropriate organizations in providing information and advice to further improvement in the administration of justice in the courts of foreign countries and to acquire information about judicial administration in foreign countries that may contribute to performing the other functions set forth in this section.".

(b) CLERICAL COMPENSATION.—Subsection 625(c) of title 28, United States Code, is amended by striking "competitive service and" and inserting "competitive service without regard to".

TITLE VII—CRIMINAL ADMINISTRATIVE MATTERS

SEC. 701. NEW AUTHORITY FOR PROBATION AND PRETRIAL SERVICES OFFICERS.

(a) PROBATION OFFICERS.—Section 3603 of title 18, United States Code, is amended—

(1) in paragraph (7) by striking "and" at the end;

(2) by redesignating paragraph (8) as paragraph (9) and inserting after paragraph (7) the following new paragraph:

"(8)(A) when directed by the court, and to the degree required by the regimen of care or treatment ordered by the court as a condition of release, keep informed as to the conduct and provide supervision of a person conditionally released under the provisions of section 4243 or 4246 of this title, and report such person's conduct and condition to the court ordering release and to the Attorney General or his designee; and

"(B) immediately report any violation of the conditions of release to the court and the Attorney General or his designee; and".

(b) PRETRIAL SERVICES.—Section 3154 of title 18, United States Code, is amended—

(1) by redesignating paragraph (12) as paragraph (13); and

(2) by inserting after paragraph (11) the following new paragraph:

"(12)(A) As directed by the court and to the degree required by the regimen of care or treatment ordered by the court as a condition of release, keep informed as to the conduct and provide supervision of a person conditionally released under the provisions of section 4243 or 4246 of this title, and report such person's conduct and condition to the court ordering release and the Attorney General or his designee.

"(B) Any violation of the conditions of release shall immediately be reported to the court and the Attorney General or his designee.".

SEC. 702. GOVERNMENT RATES OF TRAVEL FOR CRIMINAL JUSTICE ACT ATTORNEYS AND EXPERTS.

The Administrator of General Services, in entering into contracts providing for special rates to be charged by Federal Government sources of supply, including common carriers and hotels (or other commercial providers of lodging) for official travel and accommodation of Federal Government employees, shall provide for charging the same rates for attorneys, experts, and other persons traveling primarily in connection with carrying out responsibilities under section 3006A of title 18, United States Code, including community defender organizations established under subsection (g) of that section.

SEC. 703. TECHNICAL CORRECTION.

Section 3143(b)(1) of title 18, United States Code, is amended by striking "paragraph (b)(2)(D)" and inserting "subparagraph (B)(iv) of this paragraph".

TITLE VIII—STATE JUSTICE INSTITUTE REAUTHORIZATION

SEC. 801. AUTHORIZATION OF APPROPRIATIONS.

The text of section 215 of the State Justice Institute Act of 1984 (Public Law 98-620; 42 U.S.C. 10713) is amended to read as follows:

"SEC. 215. There are authorized to be appropriated to carry out the purposes of this title $20,000,000 for fiscal year 1993, $20,000,000 for fiscal year 1994, $25,000,000 for fiscal year 1995, and $25,000,000 for fiscal year 1996. Amounts appropriated for each such year are to remain available until expended.".

SEC. 802. INTERAGENCY AGREEMENTS.

Section 206(b) of the State Justice Institute Act of 1984 (42 U.S.C. 10705(b)) is amended—

(1) in paragraph (1)—

(A) by striking "shall give priority to grants, cooperative agreements, or contracts" and inserting "may award grants to or enter into cooperative agreements or contracts"; and

(B) in subparagraph (A) by striking the comma and inserting a semicolon;

(2) in paragraph (2) by inserting "to" after "award grants";

(3) by striking paragraph (3) and inserting the following:

"(3) Upon application by an appropriate State or local agency or institution and if the arrangements to be made by such agency or institution will provide services which could not be provided adequately through nongovernmental arrangements, the Institute may award a grant or enter into a cooperative agreement or contract with a unit of State or local government other than a court.";

(4) by redesignating paragraph (4) as paragraph (5); and

(5) by inserting after paragraph (3) the following new paragraph:

"(4) The Institute may enter into contracts with Federal agencies to carry out the purposes of this title.".

SEC. 803. TECHNICAL AMENDMENTS.

(a) BOARD OF DIRECTORS.—Section 204(a)(3) of the State Justice Institute Act of 1984 (42 U.S.C. 10703(a)(3)) is amended in the second sentence by striking "conference" and inserting "Conference".

(b) USES OF FUNDS.—Section 206(c)(7) of the State Justice Institute Act of 1984 (42 U.S.C. 10705(c)(7)) is amended by striking "effect" and inserting "affect".

SEC. 804. EFFECTIVE DATE.

The provisions of this title shall take effect on the date of the enactment of this Act.

TITLE IX—COURT OF FEDERAL CLAIMS

SEC. 901. SHORT TITLE.

This title may be cited as the "Court of Federal Claims Technical and Procedural Improvements Act of 1992".

SEC. 902. COURT DESIGNATION.

(a) IN GENERAL.—Chapters 7, 51, 91, and 165 of title 28, United States Code, are amended—

(1) by striking "United States Claims Court" each place it appears and inserting "United States Court of Federal Claims"; and

(2) by striking "Claims Court" each place it appears and inserting "Court of Federal Claims".

(b) OTHER PROVISIONS OF LAW.—Reference in any other Federal law or any document to—

(1) the "United States Claims Court" shall be deemed to refer to the "United States Court of Federal Claims"; and

(2) the "Claims Court" shall be deemed to refer to the "Court of Federal Claims".

SEC. 903. MILITARY RETIREMENT PAY FOR RETIRED JUDGES.

(a) IN GENERAL.—Chapter 7 of title 28, United States Code, is amended by adding at the end the following new section:

"§180. Military retirement pay for retired judges

"Section 371(e) of this title applies to judges of the United States Court of Federal Claims, and for the purpose of construing section 371(e) of this title, a judge of the United States Court of Federal Claims shall be deemed to be a judge of the United States as defined in section 451 of this title.".

(b) TABLE OF SECTIONS.—The table of sections for chapter 7 of title 28, United States Code, is amended by adding at the end the following:

"179. Insurance and annuities programs.
"180. Military retirement pay for retired judges.".

SEC. 904. RECALL OF COURT OF FEDERAL CLAIMS JUDGES ON SENIOR STATUS.

(a) IN GENERAL.—Section 375 of title 28, United States Code, is amended—

(1) in the first sentence of subsection (a)(1) by striking ", a judge of the Claims Court," and ", judge of the Claims Court,";

(2) by amending paragraph (2) of subsection (a) to read as follows:

"(2) For purposes of paragraph (1) of this subsection, a certification may be made, in the case of a bankruptcy judge or a United States magistrate, by the judicial council of the circuit in which the official duty station of the judge or magistrate at the time of retirement was located.";

(3) by amending paragraph (3) of subsection (a) to read as follows:

"(3) For purposes of this section, the term 'bankruptcy judge' means a bankruptcy judge appointed under chapter 6 of this title or serving as a bankruptcy judge on March 31, 1984."; and

(4) in subsection (f)—

(A) by striking ", a judge of the Claims Court,"; and

(B) by striking ", a commissioner of the Court of Claims,".

(b) RECALL OF RETIRED JUDGES.—Section 797(d) of title 28, United States Code, is amended in the second sentence by striking "civil service".

SEC. 905. LAW CLERKS.

The first sentence of section 794 of title 28, United States Code, is amended by inserting after "may approve" the following: "for district judges".

SEC. 906. SITES FOR HOLDING COURT.

(a) IN GENERAL.—Section 798(a) of title 28, United States Code, is amended to read as follows:

"(a) The United States Court of Federal Claims is authorized to use facilities and hold court in Washington, District of Columbia, and throughout the United States (including its territories and possessions) as necessary for compliance with sections 173 and 2503(c) of this title. The facilities of the Federal courts, as well as other comparable facilities administered by the General Services Administration, shall be made available for trials and other proceedings outside of the District of Columbia.".

(b) HEARING IN A FOREIGN COUNTRY.—Section 798 of title 28, United States Code, is amended—

(1) by redesignating subsection (b) as subsection (c); and

(2) by inserting after subsection (a) the following:

"(b) Upon application of a party or upon the judge's own initiative, and upon a showing that the interests of economy, efficiency, and justice will be served, the chief judge of the Court of Federal Claims may issue an order authorizing a judge of the court to conduct proceedings, including evidentiary hearings and trials, in a foreign country whose laws do not prohibit such proceedings, except that an interlocutory appeal may be taken from such an order pursuant to section 1292(d)(2) of this title, and the United States Court of Appeals for the Federal Circuit may, in its discretion, consider the appeal.".

(c) APPEAL JURISDICTION.—Section 1292(d)(2) of title 28, United States Code, is amended by inserting after "When" the following: "the chief judge of the United States Court of Federal Claims issues an order under section 798(b) of this title, or when".

SEC. 907. JURISDICTION.

(a) CERTIFICATIONS.—(1) Section 6(c) of the Contract Disputes Act of 1978 (41 U.S.C. 605(c)) is amended—

(A) in paragraph (1) in the second sentence—

(i) by striking "and" after "belief,"; and

(ii) by inserting before the period at the end of the sentence the following: ", and that the certifier is duly authorized to certify the claim on behalf of the contractor"; and

(B) by adding at the end the following:

"(6) The contracting officer shall have no obligation to render a final decision on any claim of more than $50,000 that is not certified in accordance with paragraph (1) if, within 60 days after receipt of the claim, the contracting officer notifies the contractor in writing of the reasons why any attempted certification was found to be defective. A defect in the certification of a claim shall not deprive a court or an agency board of contract appeals of jurisdiction over that claim. Prior to the entry of a final judgment by a court or a decision by an agency board of contract appeals, the court or agency board shall require a defective certification to be corrected.

"(7) The certification required by paragraph (1) may be executed by any person duly authorized to bind the contractor with respect to the claim.".

(2) The amendment made by paragraph (1)(B) shall be effective with respect to all claims filed before, on, or after the date of the enactment of this Act, except for those claims which, before such date of enactment, have been the subject of an appeal to an agency board of contract appeals or a suit in the United States Claims Court.

(3) If any interest is due under section 12 of the Contract Disputes Act of 1978 on a claim for which the certification under section 6(c)(1) is, on or after the date of the enactment of this Act, found to be defective shall be paid from the later of the date on which the contracting officer initially received the claim or the date of the enactment of this Act.

(4) The amendments made by paragraph (1)(A) shall be effective with respect to certifications executed more than 60 days after the effective date of amendments to the Federal Acquisition Regulation implementing the amendments made by paragraph (1)(A) with respect to the certification of claims.

(b) JURISDICTION OF COURT OF FEDERAL CLAIMS.—(1) Section 1491(a)(2) of title 28, United States Code, is amended in the last sentence by inserting before the period at the end the following: ", including a dispute concerning termination of a contract, rights in tangible or intangible property, compliance with cost accounting standards, and other nonmonetary disputes on which a decision of the contracting officer has been issued under section 6 of that Act".

(2) The amendment made by paragraph (1) shall be effective with respect to all actions filed before, on, or after the date of the enactment of this Act, except for those actions which, before such date of enactment, have been the subject of—

(A) a final judgment of the United States Claims Court, if the time for appeal of that judgment has expired without an appeal having been filed, or

(B) a final judgment of the Court of Appeals for the Federal Circuit.

SEC. 908. AWARDABLE COSTS.

(a) AWARD OF COSTS.—Section 1919 of title 28, United States Code, is amended—

(1) by striking "district court or" and inserting "district court,"; and

(2) by inserting after "Trade" the following: ", or the Court of Federal Claims".

(b) TECHNICAL AMENDMENTS.—(1) The section caption for section 1919 of title 28, United States Code, is amended to read as follows:

"§ 1919. Dismissal for lack of jurisdiction".

(2) The item relating to section 1919 in the table of sections for chapter 123 of title 28, United States Code, is amended to read as follows:

"1919. Dismissal for lack of jurisdiction.".

SEC. 909. PROCEEDINGS GENERALLY.

Section 2503 of title 28, United States Code, is amended by adding at the end the following:

"(d) For the purpose of construing sections 1821, 1915, 1920, and 1927 of this title, the United States Court of Federal Claims shall be deemed to be a court of the United States.".

SEC. 910. SUBPOENAS AND INCIDENTAL POWERS.

(a) IN GENERAL.—Section 2521 of title 28, United States Code, is amended—

(1) by amending the section caption to read as follows:

"§ 2521. Subpoenas and incidental powers";

(2) by inserting "(a)" before "Subpoenas requiring"; and

(3) by adding at the end the following new subsections:

"(b) The United States Court of Federal Claims shall have power to punish by fine or imprisonment, at its discretion, such contempt of its authority as—

"(1) misbehavior of any person in its presence or so near thereto as to obstruct the administration of justice;

"(2) misbehavior of any of its officers in their official transactions; or

"(3) disobedience or resistance to its lawful writ, process, order, rule, decree, or command.

"(c) The United States Court of Federal Claims shall have such assistance in the carrying out of its lawful writ, process, order, rule, decree, or command as is available to a court of the United States. The United States marshal for any district in which the Court of Federal Claims is sitting shall, when requested by the chief judge of the Court of Federal Claims, attend any session of the Court of Federal Claims in such district.".

(b) CONFORMING AMENDMENT.—The table of sections for chapter 165 of title 28, United States Code, is amended by amending the item relating to section 2521 to read as follows:

"2521. Subpoenas and incidental powers.".

SEC. 911. EFFECTIVE DATE.

This title and the amendments made by this title shall take effect on the date of the enactment of this Act.

TITLE X—ADDITIONAL PROVISIONS

SEC. 1001. VICTIMS' RIGHTS FUNDING.

Section 1402 of the Victims of Crime Act of 1984 (42 U.S.C. 10601) is amended—

(1) by striking subsection (c) and inserting the following:

"(c) Sums deposited in the Fund shall remain in the Fund and be available for expenditure under this subsection for grants under this chapter without fiscal year limitation."; and

(2) by striking subsection (d) and inserting the following:

"(d) The Fund shall be available as follows:

"(1) The first $6,200,000 deposited in the Fund in each of the fiscal years 1992 through 1995 and the first $3,000,000 in each fiscal year thereafter shall be available to the judicial branch for administrative costs to carry out the functions of the judicial branch under sections 3611 and 3612 of title 18, United States Code.

"(2) Of the next $100,000,000 deposited in the Fund in a particular fiscal year—

"(A) 49.5 percent shall be available for grants under section 1403; and

"(B) 45 percent shall be available for grants under section 1404(a).

"(3) The next $5,500,000 deposited in the Fund in a particular fiscal year shall be available for grants under section 1404(a).

"(4) The next $4,500,000 deposited in the Fund in a particular fiscal year shall be available for grants under section 1404(a).

"(5) Any deposits in the Fund in a particular fiscal year that remain after the funds are distributed under paragraphs (1) through (4) shall be available as follows:

"(A) 47.5 percent shall be available for grants under section 1403.

"(B) 47.5 percent shall be available for grants under section 1404(a).

"(C) 5 percent shall be available for grants under section 1404(c).".

SEC. 1002. AUTHORITY TO LIMIT COLLECTION OF PRETRIAL INFORMATION IN CLASS A MISDEMEANOR CASES.

Section 3154(1) of title 18, United States Code, is amended by inserting before the period "; except that a district court may direct that information not be collected, verified, or reported under this paragraph on individuals charged with Class A misdemeanors as defined in section 3559(a)(6) of this title".

SEC. 1003. TERRORISM CIVIL REMEDY.

(a) TERRORISM.—Chapter 113A of title 18, United States Code, is amended—

(1) in section 2331 by striking subsection (d) and redesignating subsection (e) as subsection (d);

(2) by redesignating section 2331 as 2332 and striking the caption for section 2331 and inserting the following:

"§ 2332. Criminal penalties";

(3) by inserting before section 2332 as redesignated the following:

"§ 2331. Definitions

"As used in this chapter—

"(1) the term 'international terrorism' means activities that—

"(A) involve violent acts or acts dangerous to human life that are a violation of the criminal laws of the United States or of any State, or that would be a criminal violation if committed within the jurisdiction of the United States or of any State;

"(B) appear to be intended—

"(i) to intimidate or coerce a civilian population;

"(ii) to influence the policy of a government by intimidation or coercion; or

"(iii) to affect the conduct of a government by assassination or kidnapping; and

"(C) occur primarily outside the territorial jurisdiction of the United States, or transcend national boundaries in terms of the means by which they are accomplished, the persons they appear intended to intimidate or coerce, or the locale in which their perpetrators operate or seek asylum;

"(2) the term 'national of the United States' has the meaning given such term in section 101(a)(22) of the Immigration and Nationality Act;

"(3) the term 'person' means any individual or entity capable of holding a legal or beneficial interest in property; and

"(4) the term 'act of war' means any act occurring in the course of—

"(A) declared war;

"(B) armed conflict, whether or not war has been declared, between two or more nations; or

"(C) armed conflict between military forces of any origin.";

(4) by adding after section 2332, as redesignated by paragraph (2) of this subsection, the following new sections:

"§ 2333. Civil remedies

"(a) ACTION AND JURISDICTION.—Any national of the United States injured in his or her person, property, or business by reason of an act of international terrorism, or his or her estate, survivors, or heirs, may sue therefor in any appropriate district court of the United States and shall recover threefold the damages he or she sustains and the cost of the suit, including attorney's fees.

"(b) ESTOPPEL UNDER UNITED STATES LAW.—A final judgment or decree rendered in favor of the United States in any criminal proceeding under section 1116, 1201, 1203, or 2332 of this title or section 902(i), (k), (l), (n), or (r) of the Federal Aviation Act of 1958 (49 U.S.C. App. 1472(i), (k), (l), (n), or (r)) shall estop the defendant from denying the essential allegations of the criminal offense in any subsequent civil proceeding under this section.

"(c) ESTOPPEL UNDER FOREIGN LAW.—A final judgment or decree rendered in favor of any foreign state in any criminal proceeding shall, to the extent that such judgment or decree may be accorded full faith and credit under the law of the United States, estop the defendant from denying the essential allegations of the criminal offense in any subsequent civil proceeding under this section.

"§ 2334. Jurisdiction and venue

"(a) GENERAL VENUE.—Any civil action under section 2333 of this title against any person may be instituted in the district court of the United States for any district where any plaintiff resides or where any defendant resides or is served, or has an agent. Process in such a civil action may be served in any district where the defendant resides, is found, or has an agent.

"(b) SPECIAL MARITIME OR TERRITORIAL JURISDICTION.—If the actions giving rise to the claim occurred within the special maritime and territorial jurisdiction of the United States, as defined in section 7 of this title, then any civil action under section 2333 of this title against any person may be instituted in the district court of the United States for any district in which any plaintiff resides or the defendant resides, is served, or has an agent.

"(c) SERVICE ON WITNESSES.—A witness in a civil action brought under section 2333 of this title may be served in any other district where the defendant resides, is found, or has an agent.

"(d) CONVENIENCE OF THE FORUM.—The district court shall not dismiss any action brought under section 2333 of this title on the grounds of the inconvenience or inappropriateness of the forum chosen, unless—

"(1) the action may be maintained in a foreign court that has jurisdiction over the subject matter and over all the defendants;

"(2) that foreign court is significantly more convenient and appropriate; and

"(3) that foreign court offers a remedy which is substantially the same as the one available in the courts of the United States.

"§ 2335. Limitation of actions

"(a) IN GENERAL.—Subject to subsection (b), a suit for recovery of damages under section 2333 of this title shall not be maintained unless commenced within 4 years after the date the cause of action accrued.

"(b) CALCULATION OF PERIOD.—The time of the absence of the defendant from the United States or from any jurisdiction in which the same or a similar action arising from the same facts may be maintained by the plaintiff, or of any concealment of the defendant's whereabouts, shall not be included in the 4-year period set forth in subsection (a).

"§ 2336. Other limitations

"(a) ACTS OF WAR.—No action shall be maintained under section 2333 of this title for injury or loss by reason of an act of war.

"(b) LIMITATION ON DISCOVERY.—If a party to an action under section 2333 seeks to discover the investigative files of the Department of Justice, the Assistant Attorney General, Deputy Attorney General, or Attorney General may object on the ground that compliance will interfere with a criminal investigation or prosecution of the incident, or a national security operation related to the incident, which is the subject of the civil litigation. The court shall evaluate any such objections in camera and shall stay the discovery if the court finds that granting the discovery request will substantially interfere with a criminal investigation or prosecution of the incident or a national security operation related to the incident. The court shall consider the likelihood of criminal prosecution by the Government and other factors it deems to be appropriate. A stay of discovery under this subsection shall constitute a bar to the granting of a motion to dismiss under rules 12(b)(6) and 56 of the Federal Rules of Civil Procedure. If the court grants a stay of discovery under this subsection, it may stay the action in the interests of justice.

"(c) STAY OF ACTION FOR CIVIL REMEDIES.—(1) The Attorney General may intervene in any civil action brought under section 2333 for the purpose of seeking a stay of the civil action. A stay shall be granted if the court finds that the continuation of the civil action will substantially interfere with a criminal prosecution which involves the same subject matter and in which an indictment has been returned, or interfere with national security operations related to the terrorist incident that is the subject of the civil action. A stay may be granted for up to 6 months. The Attorney General may petition the court for an extension of the stay for additional 6-month periods until the criminal prosecution is completed or dismissed.

"(2) In a proceeding under this subsection, the Attorney General may request that any order issued by the court for release to the parties and the public omit any reference to the basis on which the stay was sought.

"§ 2337. Suits against Government officials

"No action shall be maintained under section 2333 of this title against—

"(1) the United States, an agency of the United States, or an officer or employee of the United States or any agency thereof acting within his or her official capacity or under color of legal authority; or

"(2) a foreign state, an agency of a foreign state, or an officer or employee of a foreign state or an agency thereof acting within his or her official capacity or under color of legal authority.

"§ 2338. Exclusive Federal jurisdiction

"The district courts of the United States shall have exclusive jurisdiction over an action brought under this chapter."; and

(5) by amending the table of sections to read as follows:

"CHAPTER 113A—TERRORISM

"Sec.
"2331. Definitions.
"2332. Criminal penalties.
"2333. Civil remedies.
"2334. Jurisdiction and venue.
"2335. Limitation of actions.
"2336. Other limitations.
"2337. Suits against government officials.
"2338. Exclusive Federal jurisdiction.

(b) TABLE OF CONTENTS.—The table of contents of part 1 of title 18, United States Code, is amended by striking

"113A. Extraterritorial jurisdiction over terrorist acts abroad against United States nationals .... 2331"

and inserting

"113A. Terrorism .... 2331".

(c) EFFECTIVE DATE.—This section and the amendments made by this section shall apply to any pending case or any cause of action arising on or after 4 years before the date of enactment of this Act.

TITLE XI—EFFECTIVE DATE

SEC. 1101. EFFECTIVE DATE.

(a) IN GENERAL.—Except as otherwise provided in this Act, the provisions of this Act and the amendments made by this Act shall take effect on January 1, 1993.

(b) AVAILABILITY OF APPROPRIATIONS.—Notwithstanding any provision of this Act, all sums expended pursuant to this Act shall be subject to the availability of appropriations.

Mr. HEFLIN. Mr. President, I rise today to urge immediate passage of the House substitute to S. 1569, the Federal Courts Administration Act of 1992. This comprehensive legislation would implement recommendations of the Federal Courts Study Committee and make other changes which are necessary to facilitate the operation of our Federal courts system.

The 100th Congress created within the Judicial Conference of the United States a 15-member Federal Courts Study Committee and directed it to "make a complete study of the courts of the United States and of the several States and transmit a report * * * on such study." The Federal Courts Study Committee included members of the Federal executive, legislative, and judicial branches and representatives from State governments, universities, and private practice, all of whom worked toward the goal of developing a long-range plan for the judicial system. I was privileged to serve as a member of this committee, as did Senator GRASSLEY.

The 101st Congress saw the first phase of Federal Courts Study Committee legislative recommendations enacted into law as title III of the Judicial Improvements Act of 1990. S. 1569 incorporates additional recommendations of the Federal Courts Study Committee. These important provisions are as follows:

Section 101 would delegate authority to the Supreme Court, under the Rules Enabling Act, to define what constitutes a final decision; and to define circumstances in which orders and actions of district courts not otherwise subject to appeal under acts of Congress may be appealed to the courts of appeals.

Section 102 would abolish the temporary emergency court of appeals and vest its remaining caseload in the court of appeals for the Federal circuit.

Section 103 would provide jurisdiction for magistrate judges to revoke, modify, or terminate the supervised release or probation of a defendant sentenced by a magistrate judge.

Section 104 would allow the Chief Justice of the United States, upon request, to designate and assign temporarily any circuit judge to another circuit.

Title II of S. 1569 addresses important needs and issues affecting the surviving spouses and dependents of Federal judges. This proposal would reduce the contribution of judges from 5 percent of salary to 2.2 percent of salary while in active service or while serving in senior or recalled status, and would set the rate of contribution at 3.5 percent to retirement salary for those judges leaving office. The reductions in the judges' contributions would attract more participants and extend protection to survivors of judges who otherwise would remain vulnerable to financial crisis.

Titles III–VII of S. 1569 contain various judicial housekeeping items which were included at the request of the Judicial Conference of the United States. These sections focus on judicial financial administration; jury matters; judiciary personnel administration, benefits, and protections; and criminal administrative matters.

The version of S. 1569 which originally passed the Senate contained a provision, section 403, since deleted, dealing with compensation for loss or damage to personal property of jurors. It is our opinion that it is within the power of the judicial Conference of the United States to delegate to the Administrative Office of the U.S. Courts the authority to pay for such losses, without the need or further legislation.

Moreover, section 602 of S. 1569 allows the Federal Judicial Center to work with other organizations to assist in the development of judicial systems in foreign countries. With new democracies forming all over the world, it is essential that our judicial branch officers and employees be authorized to share their expertise in judicial administration and the basic tenants of freedom that this country holds dear. I anticipate that there will be many beneficial developments from the efforts of the Federal Judicial Center, the Judicial Conference, and the Administrative Office of the U.S. Courts in this regard.

Title VIII of S. 1569 would reauthorize the State Justice Institute from 1993–96. This reauthorization, which I strongly support, would continue the mission of the State Justice Institute to improve the administration of justice in our Nation's State court systems.

Title IX would improve the Federal claims litigation process before the U.S. claims court and assist the court in providing better and more efficient service to its litigants. It would also ensure fair treatment for the judges of the court by providing certain benefits equivalent to those available to other Federal trial judges.

Finally, title X would provide a civil cause of action in Federal court for victims of terrorism. This provision has strong bipartisan support in the Congress, and I am pleased to support its inclusion here.

Mr. President, S. 1569 is the product of much effort on the part of many people. In particular, I would like to extend my deep gratitude to my colleagues on the Senate Judiciary Committee, especially Senators THURMOND and GRASSLEY. I would also like to thank Representative HUGHES, chairman of the House Judiciary Subcommittee on Intellectual Property and Judicial Administration, and Representative MOORHEAD, ranking minority member of the subcommittee and fellow Federal Courts Study Committee member. In addition, the staffs of these Members of Congress are to be commended for their fine work and dedication.

In formulating this Federal Courts Administration legislation, we have been mindful of the concerns of many parties expressing an interest. I feel that these efforts have produced a consensus bill which will benefit our Federal judiciary in many ways, for years to come.

Mr. GRASSLEY. Mr. President, I rise in support of final passage of S. 1569, the Federal courts bill, and ask that Senator HEFLIN add my name as a cosponsor of the bill.

A little more than 2 years ago, Senator HEFLIN and I were privileged to be members of the Federal Courts Study Committee. The committee issued an extensive report with recommendations for improving the Federal courts. We implemented some of those recommendations with a bill in 1990, and today we implement several more. Finally, we are abolishing the temporary emergency court of appeals. And we are empowering magistrates to make modifications in probation or supervised release, as well as making it easier for appeals court judges to be transferred temporarily to another circuit to accommodate heavier dockets.

There are many more good recommendations from the Federal Courts Study Committee, including changes in prisoner litigation procedures, that have not yet been adopted. I hope that Senator HEFLIN and I will have the opportunity to continue working on the improvement of the Federal courts. It cannot be disputed that our courts are clogged and the judges need assistance with some reforms.

This bill also contains a series of recommendations from the Administrative Office of the U.S. Courts which will enable the courts to function more efficiently. And, in this bill, we have made needed changes in the Judicial Survivor Annuity Act, which will enable the families and survivors of judges to have a more rational benefit plan. I am generally cautious on salaries and benefits for Federal employees, and have long been a fighter against congressional pay raises. But this improvement will be a small initial cost to the Government, and the judges will be contributing to the plan. The result will be a better plan for the families of very important public servants—Federal judges.

We have also provided for some changes in the U.S. Claims Court, the court with jurisdiction over money disputes with the Federal Government. The most significant change is an improvement in the contractor certification procedure. Under the Contract Disputes Act, a contractor is required to certify a claim against the Government. Often, that certification—a technical form—can be the subject of extensive litigation. Under the changes provided in this bill, the claims court or the board of contract appeals may allow a certification to be corrected for technical defects at any time prior to a final decision, unless the defective certification was fraudulent, made in bad faith, or made with reckless or gross negligence. Some contractors sought more expansive changes in the claims certification requirement, but this change should relieve the claims court of needless and wasteful litigation over the validity of certifications. But it also preserves the Government's need for the certification requirement—much needed insurance against bad faith claims against the Government.

Finally, Mr. President, I am pleased that this bill incorporates my legislation to create a new civil action for American victims of terrorism. The tragedies of Pan Am 103 and the *Achilles Lauro* still burn in our minds. Those responsible have not been called to account for destroying precious American lives. This provision, the product of 3 years of effort is now finally coming to fruition. American victims will be able to bring a claim against a terrorist group for money damages. The Justice Department had some concerns about protecting its criminal investigations in these kinds of cases. And we have been able to accommodate the Department's interests. After all, we agree that the first and best remedy is to bring these terrorists to justice in our courts of law. But often, the terrorists elude justice, as in the *Achilles Lauro* case where Leon Klinghoffer, an elderly American was callously murdered by PLO terrorists. And in the Pan Am 103 case, two Libyans have been indicted, but have not been apprehended. While this bill will not permit civil actions against sovereign leaders, it will allow the victims to pursue renegade terrorist organizations and their leaders, and go after the resource that keeps them in business—their money. We all hope that this new provision will not be invoked—that is, that there will not be American victims of terrorism. But in the event tragedy strikes, victims will be armed with this civil remedy.

Mr. FORD. Mr. President, I move that the Senate concur in the amendment of the House.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

LATE PAYMENT OF MAINTENANCE FEES

Mr. FORD. Mr. President, I ask unanimous consent the Senate proceed to the immediate consideration of H.R. 5328, a bill to amend title 35, United States Code, with respect to the late payment of maintenance fees; that the bill be deemed read the third time, passed, and the motion to reconsider be laid upon the table.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bill (H.R. 5328) was deemed read the third time and passed.

JUVENILE JUSTICE AND DELINQUENCY PREVENTION ACT AUTHORIZATION ACT

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on H.R. 5194.

The ACTING PRESIDENT pro tempore laid before the Senate the following message from the House of Representatives:

Resolved, That the House agree to the amendments of the Senate to the bill (H.R. 5194) entitled "An Act to amend the Juvenile Justice and Delinquency Prevention Act of 1974 to authorize appropriations for fiscal years 1993, 1994, 1995, and 1996, and for other purposes," with the following amendment:

Strike out all after the enacting clause, and insert:

SECTION 1. FINDINGS AND DECLARATION OF PURPOSE.

(a) FINDINGS.—Section 101(a) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5601(a)) is amended—

(1) by redesignating paragraphs (2), (3), (4), (5), (6), (7), and (8) as paragraphs (4), (5), (6), (7), (8), (9), and (10), respectively;

(2) by inserting after paragraph (1) the following new paragraphs:

"(2) recent trends show an upsurge in arrests of adolescents for murder, assault, and weapon use;

"(3) the small number of youth who commit the most serious and violent offenses are becoming more violent;";

(3) in paragraph (4), as redesignated by paragraph (1), by inserting "prosecutorial and public defender offices," after "juvenile courts,";

(4) by striking "and" at the end of paragraph (9), as redesignated by paragraph (1);

(5) by striking the period at the end of paragraph (10), as redesignated by paragraph (1), and inserting ";"; and

(6) by adding at the end the following new paragraphs:

"(11) emphasis should be placed on preventing youth from entering the juvenile justice system to begin with; and

"(12) the incidence of juvenile delinquency can be reduced through public recreation programs and activities designed to provide youth with social skills, enhance self esteem, and encourage the constructive use of discretionary time.".

(b) PURPOSE.—Section 102 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5602) is amended—

(1) in subsection (a)—

(A) in paragraph (1) by striking "delinquency" and inserting "justice and delinquency prevention";

(B) in paragraph (2) by striking "agencies, institutions, and individuals in developing and implementing juvenile delinquency programs" and inserting "nonprofit juvenile justice and delinquency prevention programs";

(C) by striking "and" at the end of paragraph (7);

(D) by redesignating paragraph (8) as paragraph (9);

(E) by inserting after paragraph (7) the following new paragraph:

"(8) to strengthen families in which juvenile delinquency has been a problem;";

(F) by striking the period at the end of paragraph (9), as redesignated by subparagraph (D), and inserting a semicolon; and

(G) by adding at the end the following new paragraphs:

"(10) to assist State and local governments in improving the administration of justice and services for juveniles who enter the system; and

"(11) to assist States and local communities to prevent youth from entering the justice system to begin with."; and

(2) in subsection (b)—

(A) by striking "maintaining and strengthening the family unit" and inserting "preserving and strengthening families";

(B) by striking "and (4)" and inserting "(4)"; and

(C) by inserting "; (5) to encourage parental involvement in treatment and alternative disposition programs; and (6) to provide for coordination of services between State, local, and community-based agencies and to promote interagency cooperation in providing such services" before the period at the end.

(c) DEFINITIONS.—Section 103 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5603) is amended—

(1) by amending paragraph (16) to read as follows:

"(16) the term 'valid court order' means a court order given by a juvenile court judge to a juvenile—

"(A) who was brought before the court and made subject to such order;

"(B) who received, before the issuance of such order, the full due process rights guaranteed to such juvenile by the Constitution of the United States;

"(C) with respect to whom an appropriate public agency (other than a court or law enforcement agency), before the issuance of such order—

"(i) reviewed the behavior of such juvenile and the circumstances under which such juvenile was brought before the court and made subject to such order;

"(ii) determined the reasons for the behavior that caused such juvenile to be brought before the court and made subject to such order;

"(iii) determined that all dispositions (including treatment), other than placement in a secure detention facility or a secure correctional facility, have been exhausted or are clearly inappropriate; and

"(iv) submitted to the court a written report stating the results of the review conducted under clause (i) and the determinations made under clauses (ii) and (iii);";

(2) by striking "and" at the end of paragraph (17);

(3) by striking the period at the end of paragraph (18) and inserting a semicolon; and

(4) by adding at the end the following new paragraphs:

"(19) the term 'comprehensive and coordinated system of services' means a system that—

"(A) ensures that services and funding for the prevention and treatment of juvenile delinquency are consistent with policy goals of preserving families and providing appropriate services in the least restrictive environment so as to simultaneously protect juveniles and maintain public safety;

"(B) identifies, and intervenes early for the benefit of, young children who are at risk of developing emotional or behavioral problems because of physical or mental stress or abuse, and for the benefit of their families;

"(C) increases interagency collaboration and family involvement in the prevention and treatment of juvenile delinquency; and

"(D) encourages private and public partnerships in the delivery of services for the prevention and treatment of juvenile delinquency;

"(20) the term 'gender-specific services' means services designed to address needs unique to the gender of the individual to whom such services are provided;

"(21) the term 'home-based alternative services' means services provided to a juvenile in the home of the juvenile as an alternative to incarcerating the juvenile, and includes home detention;

"(22) the term 'jail or lockup for adults' means a locked facility that is used by a State, unit of local government, or any law enforcement authority to detain or confine adults—

"(i) pending the filing of a charge of violating a criminal law;

"(ii) awaiting trial on a criminal charge; or

"(iii) convicted of violating a criminal law; and

"(23) the term 'nonprofit organization' means an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 that is exempt from taxation under section 501(a) of the Internal Revenue Code of 1986.".

SEC. 2. JUVENILE JUSTICE AND DELINQUENCY PREVENTION.

(a) OFFICE OF JUVENILE JUSTICE AND DELINQUENCY PREVENTION.—Section 201(b) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5611 (b)) is amended by amending the third sentence to read as follows: "The Administrator shall have the same reporting relationship with the Attorney General as the directors of other offices and bureaus within the Office of Justice Programs have.".

(b) PERSONNEL, SPECIAL PERSONNEL, EXPERTS, AND CONSULTANTS.—Section 202 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5612) is amended—

(1) in subsection (b) by striking "prescribes for GS–18 of the General Schedule by section 5332" and inserting "payable under section 5376";

(2) in subsection (c) by striking "Act" and inserting "title"; and

(3) in subsection (d) by striking "prescribed for GS–18 of the General Schedule by section 5332" and inserting "payable under section 5376".

(c) CONCENTRATION OF EFFORT.—Section 204 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5614) is amended—

(1) in subsection (a)—

(A) in the first sentence—

(i) by inserting "(1)" after "(a)"; and

(ii) by striking "implement overall policy and develop objectives and priorities" and inserting "develop objectives, priorities, and a long-term plan, and implement overall policy and a strategy to carry out such plan,"; and

(B) by adding at the end the following new paragraph:

"(2)(A) The plan described in paragraph (1) shall—

"(i) contain specific goals and criteria for making grants and contracts, for conducting research, and for carrying out other activities under this title; and

"(ii) provide for coordinating the administration programs and activities under this title with the administration of all other Federal juvenile delinquency programs and activities, including proposals for joint funding to be coordinated by the Administrator.

"(B) The Administrator shall review the plan described in paragraph (1) annually, revise the plan as the Administrator considers appropriate, and publish the plan in the Federal Register—

"(i) not later than 240 days after the date of enactment of this paragraph, in the case of the initial plan required by paragraph (1); and

"(ii) except as provided in clause (i), in the 30-day period ending on October 1 of each year.";

(2) in subsection (b)—

(A) by striking "and" at the end of paragraph (5); and

(B) by striking the period at the end of paragraph (6) and inserting "; and";

(3) by adding at the end the following new paragraph:

"(7) not later than 1 year after the date of the enactment of this paragraph, issue model standards for providing health care to incarcerated juveniles."; and

(4) by striking subsections (f) and (g).

(d) COORDINATING COUNCIL ON JUVENILE JUSTICE AND DELINQUENCY PREVENTION.—Section 206 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5616) is amended—

(1) in subsection (a)—

(A) in paragraph (1) by striking "the Director of the Office of Community Services" and all that follows through the period and inserting "the Administrator of the Office of Juvenile Justice and Delinquency Prevention, the Director of the Office of National Drug Control Policy, the Director of the ACTION Agency, the Commissioner of Immigration and Naturalization, such other officers of Federal agencies who hold significant decisionmaking authority as the President may designate, and individuals appointed under paragraph (2)."; and

(B) by amending paragraph (2) to read as follows:

"(2)(A) Nine members shall be appointed, without regard to political affiliation, to the Council in accordance with this paragraph from among individuals who are practitioners in the field of juvenile justice and who are not officers or employees of the United States.

"(B)(i) Three members shall be appointed by the Speaker of the House of Representatives, after consultation with the minority leader of the House of Representatives.

"(ii) Three members shall be appointed by the majority leader of the Senate, after consultation with the minority leader of the Senate.

"(iii) Three members shall be appointed by the President.

"(C)(i) Of the members appointed under each of clauses (i), (ii), and (iii)—

"(I) 1 shall be appointed for a term of 1 year;

"(II) 1 shall be appointed for a term of 2 years; and

"(III) 1 shall be appointed for a term of 3 years;

as designated at the time of appointment.

"(ii) Except as provided in clause (iii), a vacancy arising during the term for which an appointment is made may be filled only for the remainder of such term.

"(iii) After the expiration of the term for which a member is appointed, such member may continue to serve until a successor is appointed.";

(2) in subsection (c)—

(A) by inserting "(1)" after "(c)";

(B) in the first sentence by inserting "(in cooperation with State and local juvenile justice programs) all Federal programs and activities that detain or care for unaccompanied juveniles," after "delinquency programs";

(C) in the second sentence—

(i) by inserting "shall examine how the separate programs can be coordinated among Federal, State, and local governments to better serve at-risk children and juveniles and" after "Council"; and

(ii) by inserting "and all Federal programs and activities that detain or care for unaccompanied juveniles" before the period; and

(D) by adding at the end the following new paragraph:

"(2) In addition to performing their functions as members of the Council, the members appointed under subsection (a)(2) shall collectively—

"(A) make recommendations regarding the development of the objectives, priorities, and the long-term plan, and the implementation of overall policy and the strategy to carry out such plan, referred to in section 204(a)(1); and

"(B) not later than 180 days after the date of the enactment of this paragraph, submit such recommendations to the Administrator, the Chairman of the Committee on Education and Labor of the House of Representatives, and the Chairman of the Committee on the Judiciary of the Senate."; and

(3) in subsection (f)—

(A) by inserting "Members appointed under subsection (a)(2) shall serve without compensation." after "(f)"; and

(B) by striking "who are employed by the Federal Government full time".

(e) ANNUAL REPORT.—Section 207(1) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5617(1)) is amended—

(1) in subparagraph (D)—

(A) by inserting "(including juveniles treated as adults for purposes of prosecution)" after "juveniles"; and

(B) by striking "and" at the end;

(2) in subparagraph (E) by striking the period at the end and inserting "; and"; and

(3) by adding at the end the following new subparagraph:

"(F) the educational status of juveniles, including information relating to learning disabilities, failing performance, grade retention, and dropping out of school.".

(f) FEDERAL ASSISTANCE FOR STATE AND LOCAL PROGRAMS.—

(1) AUTHORITY TO MAKE GRANTS AND CONTRACTS.—Section 221(b)(2) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5613(b)(2)) is amended—

(A) in the first sentence by striking "existence" and inserting "experience"; and

(B) in the second sentence by striking "section 291(c)(1)" and inserting "section 299(c)(1)".

(2) ALLOCATION.—Section 222 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5632) is amended—

(A) by striking "allotted" each place it appears and inserting "allocated" and striking "allotment" each place it appears and inserting "allocation";

(B) in subsection (a)—

(i) in paragraph (2)(A)—

(I) by striking "part D" and inserting "parts D and E";

(II) by inserting "or such greater amount, up to $400,000, as is available to be allocated without reducing the amount of any State or territory's allocation below the amount allocated for fiscal year 1992" after "$325,000,"; and

(III) by inserting ", or such greater amount, up to $100,000, as is available to be allocated without reducing the amount of any State or territory's allocation below the amount allocated for fiscal year 1992," after "$75,000";

(ii) in paragraph (2)(B)—

(I) by inserting "or such greater amount, up to $600,000, as is available to be allocated if appropriations have been enacted and made available to carry out parts D and E in the full amounts authorized by section 299(a) (1) and (3)" after "$400,000,"; and

(II) by inserting ", or such greater amount, up to $100,000, as is available to be allocated without reducing the amount of any State or territory's allocation below the amount allocated for fiscal year 1992" after "$100,000"; and

(iii) in paragraph (3) by striking "1988" each place it appears and inserting "1992"; and

(C) in subsection (c)—

(i) in the first sentence by striking "and evaluation" and inserting ", evaluation, and one full-time staff position"; and

(ii) in the second sentence by striking "7½ per centum" and inserting "10 percent".

(3) STATE PLANS.—(A) Section 223 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5633) is amended—

(i) in subsection (a)—

(I) in the second sentence by striking "programs, and the State" and inserting "programs and challenge activities subsequent to State participation in part E. The State";

(II) in paragraph (1) by striking "section 291(c)(1)" and inserting "section 299(c)(1)";

(III) by amending paragraph (3) to read as follows:

"(3) provide for an advisory group, which—

"(A) shall consist of not less than 15 and not more than 33 members appointed by the chief executive officer of the State—

"(i) which members have training, experience, or special knowledge concerning the prevention and treatment of juvenile delinquency or the administration of juvenile justice;

"(ii) which members include—

"(I) at least 1 locally elected official representing general purpose local government;

"(II) representatives of law enforcement and juvenile justice agencies, including juvenile and family court judges, prosecutors, counsel for children and youth, and probation workers;

"(III) representatives of public agencies concerned with delinquency prevention or treatment, such as welfare, social services, mental health, education, special education, recreation, and youth services;

"(IV) representatives of private nonprofit organizations, including persons with a special focus on preserving and strengthening families, parent groups and parent self-help groups, youth development, delinquency prevention and treatment, neglected or dependent children, the quality of juvenile justice, education, and social services for children;

"(V) volunteers who work with delinquents or potential delinquents;

"(VI) youth workers involved with programs that are alternatives to incarceration, including programs providing organized recreation activities;

"(VII) persons with special experience and competence in addressing problems related to school violence and vandalism and alternatives to suspension and expulsion; and

"(VIII) persons with special experience and competence in addressing problems related to learning disabilities, emotional difficulties, child abuse and neglect, and youth violence;

"(iii) a majority of which members (including the chairperson) shall not be full-time employees of the Federal, State, or local government;

"(iv) at least one-fifth of which members shall be under the age of 24 at the time of appointment; and

"(v) at least 3 members who have been or are currently under the jurisdiction of the juvenile justice system;

"(B) shall participate in the development and review of the State's juvenile justice plan prior to submission to the supervisory board for final action;

"(C) shall be afforded the opportunity to review and comment, not later than 30 days after their submission to the advisory group, on all juvenile justice and delinquency prevention grant applications submitted to the State agency designated under paragraph (1);

"(D) shall, consistent with this title—

"(i) advise the State agency designated under paragraph (1) and its supervisory board;

"(ii) submit to the chief executive officer and the legislature of the State at least annually recommendations regarding State compliance with the requirements of paragraphs (12), (13), and (14) and with progress relating to challenge activities carried out pursuant to part E; and

"(iii) contact and seek regular input from juveniles currently under the jurisdiction of the juvenile justice system; and

"(E) may, consistent with this title—

"(i) advise on State supervisory board and local criminal justice advisory board composition;

"(ii) review progress and accomplishments of projects funded under the State plan.";

(IV) in paragraph (8)—

(aa) by inserting "(A)" after "(8)";

(bb) by striking "(A) an" and inserting "(i) an";

(cc) by striking "(B)" and inserting "(ii)";

(dd) by striking "(C)" and inserting "(iii)";

(ee) by inserting "(including educational needs)" after "delinquency prevention needs" each place it appears; and

(ff) by adding at the end the following new subparagraphs:

"(B) contain—

"(i) an analysis of gender-specific services for the prevention and treatment of juvenile delinquency, including the types of such services available and the need for such services for females; and

"(ii) a plan for providing needed gender-specific services for the prevention and treatment of juvenile delinquency;

"(C) contain—

"(i) an analysis of services for the prevention and treatment of juvenile delinquency in rural areas, including the need for such services, the types of such services available in rural areas, and geographically unique barriers to providing such services; and

"(ii) a plan for providing needed services for the prevention and treatment of juvenile delinquency in rural areas; and

"(D) contain—

"(i) an analysis of mental health services available to juveniles in the juvenile justice system (including an assessment of the appropriateness of the particular placements of juveniles in order to receive such services) and of barriers to access to such services; and

"(ii) a plan for providing needed mental health services to juveniles in the juvenile justice system;";

(V) in paragraph (9) by inserting "recreation," after "special education,";

(VI) by amending paragraph (10) to read as follows:

"(10) provide that not less than 75 percent of the funds available to the State under section 222, other than funds made available to the State advisory group under section 222(d), whether expended directly by the State, by the unit of general local government, or by a combination thereof, or through grants and contracts with public or private nonprofit agencies, shall be used for—

"(A) community-based alternatives (including home-based alternatives) to incarceration and institutionalization, specifically—

"(i) for youth who can remain at home with assistance: home probation and programs providing professional supervised group activities or individualized mentoring relationships with adults that involve the family and provide counseling and other supportive services;

"(ii) for youth who need temporary placement: crisis intervention, shelter, and aftercare; and

"(iii) for youth who need residential placement: a continuum of foster care or group home alternatives that provide access to a comprehensive array of services;

"(B) community-based programs and services to work with—

"(i) parents and other family members to strengthen families, including parent self-help groups, so that juveniles may be retained in their homes;

"(ii) juveniles during their incarceration, and with their families, to ensure the safe return of such juveniles to their homes and to strengthen the families; and

"(iii) parents with limited English-speaking ability, particularly in areas where there is a large population of families with limited-English speaking ability;

"(C) comprehensive juvenile justice and delinquency prevention programs that meet the needs of youth through the collaboration of the many local systems before which a youth may appear, including schools, courts, law enforcement agencies, child protection agencies, mental health agencies, welfare services, health care agencies, and private nonprofit agencies offering youth services;

"(D) projects designed to develop and implement programs stressing advocacy activities aimed at improving services for and protecting the rights of youth affected by the juvenile justice system;

"(E) educational programs or supportive services for delinquent or other juveniles, provided equitably regardless of sex, race, or family income, designed to—

"(i) encourage juveniles to remain in elementary and secondary schools or in alternative learning situations, including—

"(I) education in settings that promote experiential, individualized learning and exploration of academic and career options;

"(II) assistance in making the transition to the world of work and self-sufficiency;

"(III) alternatives to suspension and expulsion; and

"(IV) programs to counsel delinquent juveniles and other juveniles regarding the opportunities that education provides; and

"(ii) enhance coordination with the local schools that such juveniles would otherwise attend, to ensure that—

"(I) the instruction that juveniles receive outside school is closely aligned with the instruction provided in school; and

"(II) information regarding any learning problems identified in such alternative learning situations are communicated to the schools;

"(F) expanded use of home probation and recruitment and training of home probation officers, other professional and paraprofessional personnel, and volunteers to work effectively to allow youth to remain at home with their families as an alternative to incarceration or institutionalization;

"(G) youth-initiated outreach programs designed to assist youth (including youth with limited proficiency in English) who otherwise would not be reached by traditional youth assistance programs;

"(H) programs designed to develop and implement projects relating to juvenile delinquency and learning disabilities, including on-the-job training programs to assist community services, law enforcement, and juvenile justice personnel to more effectively recognize and provide for learning disabled and other handicapped youth;

"(I) projects designed both to deter involvement in illegal activities and to promote involvement in lawful activities on the part of gangs whose membership is substantially composed of youth;

"(J) programs and projects designed to provide for the treatment of youths' dependence on or abuse of alcohol or other addictive or nonaddictive drugs;

"(K) law-related education programs (and projects) for delinquent and at-risk youth designed to prevent juvenile delinquency;

"(L) programs for positive youth development that assist delinquent and other at-risk youth in obtaining—

"(i) a sense of safety and structure;

"(ii) a sense of belonging and membership;

"(iii) a sense of self-worth and social contribution;

"(iv) a sense of independence and control over one's life;

"(v) a sense of closeness in interpersonal relationships; and

"(vi) a sense of competence and mastery including health and physical competence, personal and social competence, cognitive and creative competence, vocational competence, and citizenship competence, including ethics and participation;

"(M) programs that, in recognition of varying degrees of the seriousness of delinquent behavior and the corresponding gradations in the responses of the juvenile justice system in response to that behavior, are designed to—

"(i) encourage courts to develop and implement a continuum of post-adjudication restraints that bridge the gap between traditional probation and confinement in a correctional setting (including expanded use of probation, mediation, restitution, community service, treatment, home detention, intensive supervision, electronic monitoring, boot camps and similar programs, and secure community-based treatment facilities linked to other support services such as health, mental health, education (remedial and special), job training, and recreation); and

"(ii) assist in the provision by the Administrator of information and technical assistance, including technology transfer, to States in the design and utilization of risk assessment mechanisms to aid juvenile justice personnel in determining appropriate sanctions for delinquent behavior;

"(N) programs designed to prevent and reduce hate crimes committed by juveniles, including educational programs and sentencing programs designed specifically for juveniles who commit hate crimes and that provide alternatives to incarceration; and

"(O) programs (including referral to literacy programs and social service programs) to assist families with limited English-speaking ability that include delinquent juveniles to overcome language and cultural barriers that may prevent the complete treatment of such juveniles and the preservation of their families.";

(VII) in paragraph (12)(A) by inserting "or alien juveniles in custody," after "court orders,";

(VIII) in paragraph (13)—

(aa) by striking "regular", and

(bb) by inserting before the semicolon at the end "or with the part-time or full-time security staff (including management) or direct-care staff of a jail or lockup for adults";

(IX) in paragraph (14)—

(aa) by striking "; beginning after the five-year period following December 8, 1980,";

(bb) by striking "1993" and inserting "1997"; and

(cc) by striking "areas which" and all that follows through the end of the paragraph and inserting "areas that are in compliance with paragraph (13) and—

"(A)(i) are outside a Standard Metropolitan Statistical Area; and

"(ii) have no existing acceptable alternative placement available;

"(B) are located where conditions of distance to be traveled or the lack of highway, road, or other ground transportation do not allow for court appearances within 24 hours, so that a brief (not to exceed 48 hours) delay is excusable; or

"(C) are located where conditions of safety exist (such as severely adverse, life-threatening weather conditions that do not allow for reasonably safe travel), in which case the time for an appearance may be delayed until 24 hours after the time that such conditions allow for reasonably safe travel;";

(X) by amending paragraph (16) to read as follows:

"(16) provide assurance that youth in the juvenile justice system are treated equitably on the basis of gender, race, family income, and mentally, emotionally, or physically handicapping conditions;"; and

(XI) in paragraph (17)—

(aa) by striking "and maintain the family units" and inserting "the families";

(bb) by striking "deliquency. Such" and inserting "delinquency (which"; and

(cc) by inserting "and the provision of family counseling during the incarceration of juvenile family members and coordination of family services when appropriate and feasible)" before the semicolon;

(XII) by striking "and" at the end of paragraph (23);

(XIII) by striking the period at the end of paragraph (24) and inserting "; and"; and

(XIV) by adding at the end the following new paragraph:

"(25) provide an assurance that if the State receives under section 222 for any fiscal year an amount that exceeds 105 percent of the amount the State received under such section for fiscal year 1992, all of such excess shall be expended through or for programs that are part of a comprehensive and coordinated community system of services."; and

(ii) by amending subsection (c) to read as follows:

"(c)(1) Subject to paragraph (2), the Administrator shall approve any State plan and any modification thereof that meets the requirements of this section.

"(2) Failure to achieve compliance with the subsection (a)(12)(A) requirement within the 3-year time limitation shall terminate any State's eligibility for funding under this part for a fiscal year beginning before January 1, 1993, unless the Administrator determines that the State is in substantial compliance with the requirement, through achievement of deinstitutionalization of not less than 75 percent of such juveniles or through removal of 100 percent of such juveniles from secure correctional facilities, and has made, through appropriate executive or legislative action, an unequivocal commitment to achieving full compliance within a reasonable time not exceeding 2 additional years.

"(3) If a State fails to comply with the requirements of subsection (a), (12)(A), (13), (14), or (23) in any fiscal year beginning after January 1, 1993—

"(A) subject to subparagraph (B), the amount allotted under section 222 to the State for that fiscal year shall be reduced by 25 percent for each such paragraph with respect to which noncompliance occurs; and

"(B) the State shall be ineligible to receive any allotment under that section for such fiscal year unless—

"(i) the State agrees to expend all the remaining funds the State receives under this part (excluding funds required to be expended to comply with section 222 (c) and (d) and with section 223(a)(5)(C)) for that fiscal year only to achieve compliance with any such paragraph with respect to which the State is in noncompliance; or

"(ii) the Administrator determines, in the discretion of the Administrator, that the State—

"(I) has achieved substantial compliance with each such paragraph with respect to which the State was not in compliance; and

"(II) has made, through appropriate executive or legislative action, an unequivocal commitment to achieving full compliance within a reasonable time."; and

(iii) in subsection (d)—

(I) by inserting ", excluding funds the Administrator shall make available to satisfy the requirement specified in section 222(d)," after "section 222(a)";

(II) by striking "the purposes of subsection (a)(12)(A), subsection (a)(13), or subsection (a)(14)" and inserting "activities of the kinds described in subsection (a) (12)(A), (13), (14) and (23)"; and

(III) by striking "subsection (a)(12)(A) and subsection (a)(13)" and inserting "subsection (a) (12)(A), (13), (14) and (23)".

(B) Notwithstanding the amendment made by subparagraph (A)(ii), section 223(c)(3) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5633(c)(3)), as in effect on the day prior to the date of enactment of this Act, shall remain in effect to the extent that it provides the Administrator authority to grant a waiver with respect to a fiscal year prior to a fiscal year beginning before January 1, 1993.

(f) NATIONAL PROGRAMS.—

(1) NATIONAL INSTITUTE FOR JUVENILE JUSTICE AND DELINQUENCY PREVENTION.—Section 241(d) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5651(d)(2)) is amended—

(A) in subsection (d)—

(i) by inserting "recreation and park personnel," after "special education personnel"; and

(ii) by inserting "prosecutors and defense attorneys," after "probation personnel,"; and

(B) in subsection (e)—

(i) in paragraph (5) by striking "prescribed for GS-18 of the General Schedule by section 5332" and inserting "payable under section 5376"; and

(ii) in paragraph (6) by striking "Act" and inserting "title".

(2) INFORMATION FUNCTION.—Section 242(3) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5652(3)) is amended by inserting "(including drug and alcohol programs and gender-specific programs)" after "treatment programs".

(3) RESEARCH, DEMONSTRATION, AND EVALUATION FUNCTIONS.—Section 243 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5653) is amended—

(A) by striking "The" and inserting "(a) The";

(B) in paragraph (1) by striking "maintain the family unit" and inserting "preserve families";

(C) by redesignating paragraphs (3), (4), (5), (6), (7), (8), and (9) as paragraphs (5), (6), (7), (8), (9), (10), and (11), respectively;

(D) by inserting after paragraph (2) the following new paragraphs:

"(3) establish or expand programs that, in recognition of varying degrees of the seriousness of delinquent behavior and the corresponding gradations in the responses of the juvenile justice system in response to that behavior, are designed to—

"(i) encourage courts to develop and implement a continuum of post-adjudication restraints that bridge the gap between traditional probation and confinement in a correctional setting (including expanded use of probation, mediation, restitution, community service, treatment, home detention, intensive supervision, electronic monitoring, boot camps and similar programs, and secure community-based treatment facilities linked to other support services such as health, mental health, education (remedial and special), job training, and recreation); and

"(ii) assist in the provision by the Administrator of information and technical assistance, including technology transfer, to States in the design and utilization of risk assessment mechanisms to aid juvenile justice personnel in determining appropriate sanctions for delinquent behavior;

"(4) Encourage the development of programs which, in addition to helping youth take responsibility for their behavior, take into consideration life experiences which may have contributed to their delinquency when developing intervention and treatment programs;

"(5) encourage the development and establishment of programs to enhance the States' ability to identify chronic serious and violent juvenile offenders who commit crimes such as rape, murder, firearms offenses, gang-related crimes, violent felonies, and serious drug offenses;";

(E) in subparagraph (D) of paragraph (7), as redesignated by subparagraph (C), by inserting "(including the productive use of discretionary time through organized recreational" after "lawful activities";

(F) by striking "and" at the end of paragraph (10), as redesignated by subparagraph (C);

(G) by striking the period at the end of paragraph (11), as redesignated by subparagraph (C), and inserting "; and"; and

(H) by adding at the end the following new paragraphs and subsection:

"(12) support independent and collaborative research, research training, and consultation on social, psychological, educational, economic, and legal issues affecting children and families;

"(13) support research related to achieving a better understanding of the commission of hate crimes by juveniles and designed to identify educational programs best suited to prevent and reduce the incidence of hate crimes committed by juveniles; and

"(14) routinely collect, analyze, compile, publish, and disseminate uniform national statistics concerning—

"(A) all aspects of juveniles as victims and offenders;

"(B) the processing and treatment, in the juvenile justice system, of juveniles who are status offenders, delinquent, neglected, or abused; and

"(C) the processing and treatment of such juveniles who are treated as adults for purposes of the criminal justice system.

"(b) The Administrator shall make available to the public—

"(1) the results of evaluations and research and demonstration activities referred to in subsection (a)(8); and

"(2) the data and studies referred to in subsection (a)(9);

that the Administrator is authorized to disseminate under subsection (a).".

(3) TECHNICAL ASSISTANCE AND TRAINING FUNCTIONS.—Section 244 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5654) is amended—

(A) in paragraph (2) by inserting "(including juveniles who commit hate crimes)" after "offenders";

(B) in paragraph (3)—

(i) by inserting "prosecutors and defense attorneys," after "judges";

(ii) by striking "and" at the end;

(C) by striking the period at the end of paragraph (4) and inserting "; and"; and

(D) by adding at the end the following new paragraph:

"(5) provide technical assistance and training to assist States and units of general local government to adopt the model standards issued under section 204(b)(7).".

(4) ESTABLISHMENT OF TRAINING PROGRAM.—Section 245 of the Juvenile Justice and De-

linquency Prevention Act of 1974 (42 U.S.C. 5659) is amended in the first sentence by inserting ", including methods and techniques specifically designed to prevent and reduce the incidence of hate crimes committed by juveniles" before the period.

(5) CURRICULUM FOR TRAINING PROGRAM.—Section 246 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5660) is amended in the second sentence by inserting "and shall include training designed to prevent juveniles from committing hate crimes" before the period.

(6) SPECIAL STUDIES AND REPORTS.—Section 248 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5662) is amended—

(A) by striking "(a) Not later than 1 year after the date" and inserting "(a) PURSUANT TO 1988 AMENDMENTS.—(1) Not later than 1 year after the date";

(B) by striking "(1) to review" and inserting "(A) to review";

(C) by striking "(A) conditions" and inserting "(i) conditions";

(D) by striking "(B) the extent" and inserting "(ii) the extent";

(E) by striking "(2) to make" and inserting "(B) to make";

(F) by striking "(b)(1) Not later" and inserting "(2)(A) Not later";

(G) by striking "(A) how" and inserting "(i) how";

(H) by striking "(B) the amount" and inserting "(ii) the amount";

(I) by striking "(C) the extent" and inserting "(iii) the extent";

(J) by striking "(2)(A) for purposes" and inserting "(B)(i) for purposes";

(K) by striking "(B) For purposes" and inserting "(ii) for purposes";

(L) by striking "(c) Not later" and inserting "(3) Not later";

(M) by striking "subsection (a) or (b)" and inserting "paragraph (1) or (2)"; and

(N) by adding at the end the following new subsection:

"(b) PURSUANT TO 1992 AMENDMENTS.—(1) Not later than 1 year after the date of enactment of this subsection, the Comptroller General shall—

"(A) conduct a study with respect to juveniles waived to adult court that reviews—

"(i) the frequency and extent to which juveniles have been transferred, certified, or waived to criminal court for prosecution during the 5-year period ending December 1992;

"(ii) conditions of confinement in adult detention and correctional facilities for juveniles waived to adult court; and

"(iii) sentencing patterns, comparing juveniles waived to adult court with juveniles who have committed similar offenses but have not been waived; and

"(B) submit to the Committee on Education and Labor of the House of Representatives and the Committee on the Judiciary of the Senate a report (including a compilation of State waiver statutes) on the findings made in the study and recommendations to improve conditions for juveniles waived to adult court.

"(2) Not later than 1 year after the date of enactment of this subsection, the Comptroller General shall—

"(A) conduct a study with respect to admissions of juveniles for behavior disorders to private psychiatric hospitals, and to other residential and nonresidential programs that serve juveniles admitted for behavior disorders, that reviews—

"(i) the frequency with which juveniles have been admitted to such hospitals and programs during the 5-year period ending December 1992; and

"(ii) conditions of confinement, the average length of stay, and methods of payment for the residential care of such juveniles; and

"(B) submit to the Committee on Education and Labor of the House of Representatives and the Committee on the Judiciary of the Senate a report on the findings made in the study and recommendations to improve procedural protections and conditions for juveniles with behavior disorders admitted to such hospitals and programs.

"(3) Not later than 1 year after the date of enactment of this subsection, the Comptroller General shall—

"(A) conduct a study of gender bias within State juvenile justice systems that reviews—

"(i) the frequency with which females have been detained for status offenses (such as frequently running away, truancy, and sexual activity), as compared with the frequency with which males have been detained for such offenses during the 5-year period ending December 1992; and

"(ii) the appropriateness of the placement and conditions of confinement for females; and

"(B) submit to the Committee on Education and Labor of the House of Representatives and the Committee on the Judiciary of the Senate a report on the findings made in the study and recommendations to combat gender bias in juvenile justice and provide appropriate services for females who enter the juvenile justice system.

"(4) Not later than 1 year after the date of enactment of this subsection, the Comptroller General shall—

"(A) conduct a study of the Native American pass-through grant program authorized under section 223(a)(5)(C) that reviews the cost-effectiveness of the funding formula utilized; and

"(B) submit to the Committee on Education and Labor of the House of Representatives and the Committee on the Judiciary of the Senate a report on the findings made in the study and recommendations to improve the Native American pass-through grant program.

"(5) Not later than 1 year after the date of enactment of this subsection, the Comptroller General shall—

"(A) conduct a study of access to counsel in juvenile court proceedings that reviews—

"(i) the frequency with which and the extent to which juveniles in juvenile court proceedings either have waived counsel or have obtained access to counsel during the 5-year period ending December 1992; and

"(ii) a comparison of access to and the quality of counsel afforded juveniles charged in adult court proceedings with those of juveniles charged in juvenile court proceedings; and

"(B) submit to Committee on Education and Labor of the House of Representatives and the Committee on the Judiciary of the Senate a report on the findings made in the study and recommendations to improve access to counsel for juveniles in juvenile court proceedings.

"(6)(A) Not later than 180 days after the date of enactment of this subsection, the Administrator shall begin to conduct a study and continue any pending study of the incidence of violence committed by or against juveniles in urban and rural areas in the United States.

"(B) The urban areas shall include—

"(i) the District of Columbia;

"(ii) Los Angeles, California;

"(iii) Milwaukee, Wisconsin;

"(iv) Denver, Colorado;

"(v) Pittsburgh, Pennsylvania;

"(vi) Rochester, New York; and

"(vii) such other cities as the Administrator determines to be appropriate.

"(C) At least one rural area shall be included.

"(D) With respect to each urban and rural area included in the study, the objectives of the study shall be—

"(i) to identify characteristics and patterns of behavior of juveniles who are at risk of becoming violent or victims of homicide;

"(ii) to identify factors particularly indigenous to such area that contribute to violence committed by or against juveniles;

"(iii) to determine the accessibility of firearms, and the use of firearms by or against juveniles;

"(iv) to determine the conditions that cause any increase in violence committed by or against juveniles;

"(v) to identify existing and new diversion, prevention, and control programs to ameliorate such conditions;

"(vi) to improve current systems to prevent and control violence by or against juveniles; and

"(vii) to develop a plan to assist State and local governments to establish viable ways to reduce homicide committed by or against juveniles.

"(E) Not later than 3 years after the date of enactment of this subsection, the Administrator shall submit a report to the Committee on Education and Labor of the House of Representatives and the Committee on the Judiciary of the Senate detailing the results of the study addressing each objective specified in subparagraph (D).

"(7)(A) Not later than 1 year after the date of the enactment of this subsection, the Administrator shall—

"(i) conduct a study described in subparagraph (B); and

"(ii) submit to the chairman of the Committee on Education and Labor of the House of Representatives and the chairman of the Committee on the Judiciary of the Senate the results of the study.

"(B) The study required by subparagraph (A) shall assess—

"(i) the characteristics of juveniles who commit hate crimes, including a profile of such juveniles based on—

"(I) the motives for committing hate crimes;

"(II) the age, sex, race, ethnicity, education level, locality, and family income of such juveniles; and

"(III) whether such juveniles are familiar with publications or organized groups that encourage the commission of hate crimes;

"(ii) the characteristics of hate crimes committed by juveniles, including—

"(I) the types of hate crimes committed;

"(II) the frequency with which institutions and natural persons, separately determined, were the targets of such crimes;

"(III) the number of persons who participated with juveniles in committing such crimes;

"(IV) the types of law enforcement investigations conducted with respect to such crimes;

"(V) the law enforcement proceedings commenced against juveniles for committing hate crimes; and

"(VI) the penalties imposed on such juveniles as a result of such proceedings; and

"(iii) the characteristics of the victims of hate crimes committed by juveniles, including—

"(I) the age, sex, race, ethnicity, locality of the victims and their familiarity with the offender; and

"(II) the motivation behind the attack.".

(7) AUTHORITY TO MAKE GRANTS AND CONTRACTS.—Section 261 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5665) is amended—

(A) in subsection (a)—

(i) by striking "(a) The" and inserting "(a) Except as provided in subsection (f), the";

(ii) in paragraph (1) by inserting "(including home-based treatment programs)" after "alternatives"; and

(iii) by amending paragraph (3) to read as follows:

"(3) Establishing or supporting advocacy programs and services that encourage the improvement of due process available to juveniles in the juvenile justice system and the quality of legal representation for such juveniles.";

(iv) by redesignating paragraphs (4), (5), (6), and (7) as paragraphs (5), (6), (7), and (8), respectively;

(v) by inserting after paragraph (3) the following new paragraph:

"(4) Establishing or supporting programs stressing advocacy activities aimed at improving services to juveniles affected by the juvenile justice system, including services that provide for the appointment of special advocates by courts for such juveniles.";

(vi) in paragraph (4), as redesignated by clause (iv)—

(I) by inserting "(including self-help programs for parents)" after "programs"; and

(II) by inserting ", including programs that work with families during the incarceration of juvenile family members and which take into consideration the special needs of families with limited-English speaking ability" before the period at the end;

(vii) in paragraph (7), as redesignated by clause (iv)—

(I) by striking the period at the end of subchapter (C) and inserting a comma; and

(II) by adding at the end the following: "that targets juveniles who have had contact with the juvenile justice system or who are likely to have contact with the system."; and

(viii) by adding at the end the following new paragraph:

"(9) Establishing or supporting programs designed to prevent and to reduce the incidence of hate crimes by juveniles, including—

"(A) model educational programs that are designed to reduce the incidence of hate crimes by means such as—

"(i) addressing the specific prejudicial attitude of each offender;

"(ii) developing an awareness in the offender of the effect of the hate crime on the victim; and

"(iii) educating the offender about the importance of tolerance in our society; and

"(B) sentencing programs that are designed specifically for juveniles who commit hate crimes and that provide alternatives to incarceration."; and

(B) in subsection (b)(5) by inserting "community service personnel," after "law enforcement personnel,";

(C) in subsection (b)—

(i) by striking "(b) The" and inserting "(b) Except as provided in subsection (f), the"; and

(ii) in paragraph (2) by inserting "to assist in identifying learning difficulties (including learning disabilities)," after "schools,"; and

(D) by adding at the end the following new subsection:

"(f) The Administrator shall not make a grant or a contract under subsection (a) or (b) to the Department of Justice or to any administrative unit or other entity that is part of the Department of Justice.".

(g) CONSIDERATIONS FOR APPROVAL OF APPLICATIONS.—Section 262(d)(1) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5665a(d)(1)) is amended—

(1) by amending subparagraph (B) to read as follows:

"(B) The competitive process described in subparagraph (A) shall not be required if the Administrator makes a written determination waiving the competitive process—

"(i) with respect to programs to be carried out in areas with respect to which the President declares under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) that a major disaster or emergency exists; or

"(ii) with respect to a particular program described in part C that is uniquely qualified."; and

(2) by striking subparagraph (C).

(h) PREVENTION, INTERVENTION, AND TREATMENT PROGRAM RELATING TO JUVENILE GANGS AND DRUG ABUSE AND DRUG TRAFFICKING.—Part D of title II of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5667 et seq.) is amended to read as follows:

"PART D—GANG-FREE SCHOOLS AND COMMUNITIES; COMMUNITY-BASED GANG INTERVENTION

"Subpart I—Gang-Free Schools and Communities

"AUTHORITY TO MAKE GRANTS AND CONTRACTS

"SEC. 281. (a) The Administrator shall make grants to or enter into contracts with public agencies (including local educational agencies) and private nonprofit agencies, organizations, and institutions to establish and support programs and activities that involve families and communities and that are designed to carry out any of the following purposes:

"(1) To prevent and to reduce the participation of juveniles in the activities of gangs that commit crimes. Such programs and activities may include—

"(A) individual, peer, family, and group counseling, including the provision of life skills training and preparation for living independently, which shall include cooperation with social services, welfare, and health care programs;

"(B) education and social services designed to address the social and developmental needs of juveniles which such juveniles would otherwise seek to have met through membership in gangs;

"(C) crisis intervention and counseling to juveniles, who are particularly at risk of gang involvement, and their families, including assistance from social service, welfare, health care, mental health, and substance abuse prevention and treatment agencies where necessary;

"(D) the organization of neighborhood and community groups to work closely with parents, schools, law enforcement, and other public and private agencies in the community; and

"(E) training and assistance to adults who have significant relationships with juveniles who are or may become members of gangs, to assist such adults in providing constructive alternatives to participating in the activities of gangs.

"(2) To develop within the juvenile adjudicatory and correctional systems new and innovative means to address the problems of juveniles convicted of serious drug-related and gang-related offenses.

"(3) To target elementary school students, with the purpose of steering students away from gang involvement.

"(4) To provide treatment to juveniles who are members of such gangs, including members who are accused of committing a serious crime and members who have been adjudicated as being delinquent.

"(5) To promote the involvement of juveniles in lawful activities in geographical areas in which gangs commit crimes.

"(6) To promote and support, with the cooperation of community-based organizations experienced in providing services to juveniles engaged in gang-related activities and the cooperation of local law enforcement agencies, the development of policies and activities in public elementary and secondary schools which will assist such schools in maintaining a safe environment conducive to learning.

"(7) To assist juveniles who are or may become members of gangs to obtain appropriate educational instruction, in or outside a regular school program, including the provision of counseling and other services to promote and support the continued participation of such juveniles in such instructional programs.

"(8) To expand the availability of prevention and treatment services relating to the illegal use of controlled substances and controlled substances analogues (as defined in paragraphs (6) and (32) of section 102 of the Controlled Substances Act (21 U.S.C. 802) by juveniles, provided through State and local health and social services agencies.

"(9) To provide services to prevent juveniles from coming into contact with the juvenile justice system again as a result of gang-related activity.

"(10) To provide services authorized in this section at a special location in a school or housing project.

"(11) To support activities to inform juveniles of the availability of treatment and services for which financial assistance is available under this subpart.

"(b) From not more than 15 percent of the amount appropriated to carry out this part in each fiscal year, the Administrator may make grants to and enter into contracts with public agencies and private nonprofit agencies, organizations, and institutions—

"(1) to conduct research on issues related to juvenile gangs;

"(2) to evaluate the effectiveness of programs and activities funded under subsection (a); and

"(3) to increase the knowledge of the public (including public and private agencies that operate or desire to operate gang prevention and intervention programs) by disseminating information on research and on effective programs and activities funded under this subpart.

"APPROVAL OF APPLICATIONS

"SEC. 281A. (a) Any agency, organization, or institution desiring to receive a grant, or to enter into a contract, under this subpart shall submit an application at such time, in such manner, and containing such information as the Administrator may prescribe.

"(b) In accordance with guidelines established by the Administrator, each application submitted under subsection (a) shall—

"(1) set forth a program or activity for carrying out one or more of the purposes specified in section 281 and specifically identify each such purpose such program or activity is designed to carry out;

"(2) provide that such program or activity shall be administered by or under the supervision of the applicant;

"(3) provide for the proper and efficient administration of such program or activity;

"(4) provide for regular evaluation of such program or activity;

"(5) provide an assurance that the proposed program or activity will supplement, not supplant, similar programs and activities already available in the community;

"(6) describe how such program or activity is coordinated with programs, activities, and services available locally under parts B or C of this title, and under chapter 1 of subtitle B of title III of the Anti-Drug Abuse Act of 1988 (42 U.S.C. 11801–11805);

"(7) certify that the applicant has requested the State planning agency to review and comment on such application and summarizes the responses of such State planning agency to such request;

"(8) provide that regular reports on such program or activity shall be sent to the Administrator and to such State planning agency; and

"(9) provide for such fiscal control and fund accounting procedures as may be necessary to ensure prudent use, proper disbursement, and accurate accounting of funds received under this subpart.

"(c) In reviewing applications for grants and contracts under section 281(a), the Administrator shall give priority to applications—

"(1) submitted by, or substantially involving, local educational agencies (as defined in section 1471 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2891));

"(2) based on the incidence and severity of crimes committed by gangs whose membership is composed primarily of juveniles in the geographical area in which the applicants propose to carry out the programs and activities for which such grants and contracts are requested; and

"(3) for assistance for programs and activities that—

"(A) are broadly supported by public and private nonprofit agencies, organizations, and institutions located in such geographical area; and

"(B) will substantially involve the families of juvenile gang members in carrying out such programs or activities.

"Subpart II—Community-Based Gang Intervention

"SEC. 282. (a) The Administrator shall make grants to or enter into contracts with public and private nonprofit agencies, organizations, and institutions to carry out programs and activities—

"(1) to reduce the participation of juveniles in the illegal activities of gangs;

"(2) to develop regional task forces involving State, local, and community-based organizations to coordinate enforcement, intervention, and treatment efforts for juvenile gang members and to curtail interstate activities of gangs; and

"(3) to facilitate coordination and cooperation among—

"(A) local education, juvenile justice, employment, and social service agencies;

"(B) community-based programs with a proven record of effectively providing intervention services to juvenile gang members for the purpose of reducing the participation of juveniles in illegal gang activities; and

"(4) to support programs that, in recognition of varying degrees of the seriousness of delinquent behavior and the corresponding gradations in the responses of the juvenile justice system in response to that behavior, are designed to—

"(A) encourage courts to develop and implement a continuum of post-adjudication restraints that bridge the gap between traditional probation and confinement in a correctional setting (including expanded use of probation, mediation, restitution, community service, treatment, home detention, intensive supervision, electronic monitoring, boot camps and similar programs, and secure community-based treatment facilities linked to other support services such as health, mental health, education (remedial and special), job training, and recreation); and

"(B) assist in the provision by the provision by the Administrator of information and technical assistance, including technology transfer, to States in the design and utilization of risk assessment mechanisms to aid juvenile justice personnel in determining appropriate sanctions for delinquent behavior.

"(b) Programs and activities for which grants and contracts are to be made under subsection (a) may include—

"(1) developing within the juvenile adjudicatory and correctional systems new and innovative means to address the problems of juveniles convicted of serious drug-related and gang-related offenses;

"(2) providing treatment to juveniles who are members of such gangs, including members who are accused of committing a serious crime and members who have been adjudicated as being delinquent;

"(3) promoting the involvement of juveniles in lawful activities in geographical areas in which gangs commit crimes;

"(4) expanding the availability of prevention and treatment services relating to the illegal use of controlled substances and controlled substances analogues (as defined in paragraphs (6) and (32) of section 102 of the Controlled Substances Act (21 U.S.C. 802) by juveniles, provided through State and local health and social services agencies;

"(5) providing services to prevent juveniles from coming into contact with the juvenile justice system again as a result of gang-related activity; or

"(6) supporting activities to inform juveniles of the availability of treatment and services for which financial assistance is available under this subpart.

"APPROVAL OF APPLICATIONS

"SEC. 282A. (a) Any agency, organization, or institution desiring to receive a grant, or to enter into a contract, under this subpart shall submit an application at such time, in such manner, and containing such information as the Administrator may prescribe.

"(b) In accordance with guidelines established by the Administrator, each application submitted under subsection (a) shall—

"(1) set forth a program or activity for carrying out one or more of the purposes specified in section 282 and specifically identify each such purpose such program or activity is designed to carry out;

"(2) provide that such program or activity shall be administered by or under the supervision of the applicant;

"(3) provide for the proper and efficient administration of such program or activity;

"(4) provide for regular evaluation of such program or activity;

"(5) provide an assurance that the proposed program or activity will supplement, not supplant, similar programs and activities already available in the community;

"(6) describe how such program or activity is coordinated with programs, activities, and services available locally under parts B or C of this title, and under chapter 1 of subtitle B of title III of the Anti-Drug Abuse Act of 1988 (42 U.S.C. 11801–11805);

"(7) certify that the applicant has requested the State planning agency to review and comment on such application and summarizes the responses of such State planning agency to such request;

"(8) provide that regular reports on such program or activity shall be sent to the Administrator and to such State planning agency; and

"(9) provide for such fiscal control and fund accounting procedures as may be necessary to ensure prudent use, proper disbursement, and accurate accounting of funds received under this subpart.

"(c) In reviewing applications for grants and contracts under section 285(a), the Administrator shall give priority to applications—

"(1) submitted by, or substantially involving, community-based organizations experienced in providing services to juveniles;

"(2) based on the incidence and severity of crimes committed by gangs whose membership is composed primarily of juveniles in the geographical area in which the applicants propose to carry out the programs and activities for which such grants and contracts are requested; and

"(3) for assistance for programs and activities that—

"(A) are broadly supported by public and private nonprofit agencies, organizations, and institutions located in such geographical area; and

"(B) will substantially involve the families of juvenile gang members in carrying out such programs or activities.

"Subpart III—General Provisions

"DEFINITION

"SEC. 283. For purposes of this part, the term 'juvenile' means an individual who is less than 22 years of age.".

(i) ADDITIONAL PARTS IN TITLE II.—(1) Title II of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5611 et seq.) is amended—

(A) by redesignating part E as part I;

(B) by redesignating sections 291, 292, 293, 294, 295, and 296 as sections 299, 299A, 299B, 299C, 299D, and 299E, respectively; and

(C) by inserting after part D the following new parts:

"PART E—STATE CHALLENGE ACTIVITIES

"ESTABLISHMENT OF PROGRAM

"SEC. 285. (a) IN GENERAL.—The Administrator may make a grant to a State that receives an allocation under section 222, in the amount of 10 percent of the amount of the allocation, for each challenge activity in which the State participates for the purpose of funding the activity.

"(b) DEFINITIONS.—For purposes of this part—

"(1) the term 'case review system' means a procedure for ensuring that—

"(A) each youth has a case plan, based on the use of objective criteria for determining a youth's danger to the community or himself or herself, that is designed to achieve appropriate placement in the least restrictive and most family-like setting available in close proximity to the parents' home, consistent with the best interests and special needs of the youth;

"(B) the status of each youth is reviewed periodically but not less frequently than once every 3 months, by a court or by administrative review, in order to determine the continuing necessity for and appropriateness of the placement;

"(C) with respect to each youth, procedural safeguards will be applied to ensure that a dispositional hearing is held to consider the future status of each youth under State supervision, in a juvenile or family court or another court (including a tribal court) of competent jurisdiction, or by an administrative body appointed or approved by the court, not later than 12 months after the original placement of the youth and periodically thereafter during the continuation of out-of-home placement; and

"(D) a youth's health, mental health, and education record is reviewed and updated periodically; and

"(2) the term 'challenge activity' means a program maintained for 1 of the following purposes:

"(A) Developing and adopting policies and programs to provide basic health, mental health, and appropriate education services, including special education, for youth in the juvenile justice system as specified in standards developed by the National Advisory Committee for Juvenile Justice and Delinquency Prevention prior to October 12, 1984.

"(B) Developing and adopting policies and programs to provide access to counsel for all juveniles in the justice system to ensure that juveniles consult with counsel before waiving the right to counsel.

"(C) Increasing community-based alternatives to incarceration by establishing programs (such as expanded use of probation, mediation, restitution, community service, treatment, home detention, intensive supervision, and electronic monitoring) and developing and adopting a set of objective criteria for the appropriate placement of juveniles in detention and secure confinement.

"(D) Developing and adopting policies and programs to provide secure settings for the placement of violent juvenile offenders by closing down traditional training schools and replacing them with secure settings with capacities of no more than 50 violent juvenile offenders with ratios of staff to youth great enough to ensure adequate supervision and treatment.

"(E) Developing and adopting policies to prohibit gender bias in placement and treatment and establishing programs to ensure that female youth have access to the full range of health and mental health services, treatment for physical or sexual assault and abuse, self defense instruction, education in parenting, education in general, and other training and vocational services.

"(F) Establishing and operating, either directly or by contract or arrangement with a public agency or other appropriate private nonprofit organization (other than an agency or organization that is responsible for licensing or certifying out-of-home care services for youth), a State ombudsman office for children, youth, and families to investigate and resolve complaints relating to action, inaction, or decisions of providers of out-of-home care to children and youth (including secure detention and correctional facilities, residential care facilities, public agencies, and social service agencies) that may adversely affect the health, safety, welfare, or rights of resident children and youth.

"(G) Developing and adopting policies and programs designed to remove, where appropriate, status offenders from the jurisdiction of the juvenile court to prevent the placement in secure detention facilities or secure correctional facilities of juveniles who are nonoffenders or who are charged with or who have committed offenses that would not be criminal if committed by an adult.

"(H) Developing and adopting policies and programs designed to serve as alternatives to suspension and expulsion from school.

"(I) Increasing aftercare services for juveniles involved in the justice system by establishing programs and developing and adopting policies to provide comprehensive health, mental health, education, and vocational services and services that preserve and strengthen the families of such juveniles.

"(J) Developing and adopting policies to establish—

"(i) a State administrative structure to coordinate program and fiscal policies for children who have emotional and behavioral problems and their families among the major child serving systems, including schools, social services, health services, mental health services, and the juvenile justice system; and

"(ii) a statewide case review system.

"PART F—TREATMENT FOR JUVENILE OFFENDERS WHO ARE VICTIMS OF CHILD ABUSE OR NEGLECT

"DEFINITION

"SEC. 287. For the purposes of this part, the term 'juvenile' means a person who is less than 18 years of age.

"AUTHORITY TO MAKE GRANTS

"SEC. 287A. The Administrator, in consultation with the Secretary of Health and Human Services, shall make grants to public and nonprofit private organizations to develop, establish, and support projects that—

"(1) provide treatment to juvenile offenders who are victims of child abuse or neglect and to their families so as to reduce the likelihood that the juvenile offenders will commit subsequent violations of law;

"(2) based on the best interests of juvenile offenders who receive treatment for child abuse or neglect, provide transitional services (including individual, group, and family counseling) to juvenile offenders—

"(A) to strengthen the relationships of juvenile offenders with their families and encourage the resolution of intrafamily problems related to the abuse or neglect;

"(B) to facilitate their alternative placement; and

"(C) to prepare juveniles aged 16 years and older to live independently; and

"(3) carry out research (including surveys of existing transitional services, identification of exemplary treatment modalities, and evaluation of treatment and transitional services) provided with grants made under this section.

"ADMINISTRATIVE REQUIREMENTS

"SEC. 287B. The Administrator shall administer this part subject to the requirements of sections 262, 299B, and 299E.

"PRIORITY

"SEC. 287C. In making grants under section 287A, the Administrator—

"(1) shall give priority to applicants that have experience in treating juveniles who are victims of child abuse or neglect; and

"(2) may not disapprove an application solely because the applicant proposes to provide treatment or transitional services to juveniles who are adjudicated to be delinquent for having committed offenses that are not serious crimes.

"PART G—MENTORING

"PURPOSES

"SEC. 288. The purposes of this part are—

"(1) to reduce juvenile delinquency and gang participation;

"(2) to improve academic performance; and

"(3) to reduce the dropout rate,

through the use of mentors for at-risk youth.

"DEFINITIONS

"SEC. 288A. For purposes of this part—

"(1) the term 'at-risk youth' means a youth at risk of educational failure or dropping out of school or involvement in delinquent activities; and

"(2) the term 'mentor' means a person who works with an at-risk youth on a one-to-one basis, establishing a supportive relationship with the youth and providing the youth with academic assistance and exposure to new experiences that enhance the youth's ability to become a responsible citizen.

"GRANTS

"SEC. 288B. The Administrator shall, by making grants to and entering into contracts with local educational agencies (each which agency shall be in partnership with a public or private agency, institution, or business), establish and support programs and activities for the purpose of implementing mentoring programs that—

"(1) are designed to link at-risk children, particularly children living in high crime areas and children experiencing educational failure, with responsible adults such as law enforcement officers, persons working with local businesses, and adults working for community-based organizations and agencies; and

"(2) are intended to achieve 1 or more of the following goals:

"(A) Provide general guidance to at-risk youth.

"(B) Promote personal and social responsibility among at-risk youth.

"(C) Increase at-risk youth's participation in and enhance their ability to benefit from elementary and secondary education.

"(D) Discourage at-risk youth's use of illegal drugs, violence, and dangerous weapons, and other criminal activity.

"(E) Discourage involvement of at-risk youth in gangs.

"(F) Encourage at-risk youth's participation in community service and community activities.

"REGULATIONS AND GUIDELINES

"SEC. 288C. (a) REGULATIONS.—The Administrator, after consultation with the Secretary of Health and Human Services, the Secretary of Education, and the Secretary of Labor, shall promulgate regulations to implement this part.

"(b) GUIDELINES.—The Administrator shall develop and distribute to program participants specific model guidelines for the screening of prospective program mentors.

"USE OF GRANTS

"SEC. 288D. (a) PERMITTED USES.—Grants awarded pursuant to this part shall be used to implement mentoring programs, including—

"(1) hiring of mentoring coordinators and support staff;

"(2) recruitment, screening, and training of adult mentors;

"(3) reimbursement of mentors for reasonable incidental expenditures such as transportation that are directly associated with mentoring; and

"(4) such other purposes as the Administrator may reasonably prescribe by regulation.

"(b) PROHIBITED USES.—Grants awarded pursuant to this part shall not be used—

"(1) to directly compensate mentors, except as provided pursuant to subsection (a)(3);

"(2) to obtain educational or other materials or equipment that would otherwise be used in the ordinary course of the grantee's operations;

"(3) to support litigation of any kind; or

"(4) for any other purpose reasonably prohibited by the Administrator by regulation.

"PRIORITY

"SEC. 288E. (a) IN GENERAL.—In making grants under this part, the Administrator shall give priority for awarding grants to applicants that—

"(1) serve at-risk youth in high crime areas;

"(2) have 60 percent or more of their youth eligible to receive funds under chapter 1 of the Elementary and Secondary Education Act of 1965; and

"(3) have a considerable number of youth who drop out of school each year.

"(b) OTHER CONSIDERATIONS.—In making grants under this part, the Administrator shall give consideration to—

"(1) the geographic distribution (urban and rural) of applications;

"(2) the quality of a mentoring plan, including—

"(A) the resources, if any, that will be dedicated to providing participating youth with opportunities for job training or postsecondary education; and

"(B) the degree to which parents, teachers, community-based organizations, and the local community participate in the design and implementation of the mentoring plan; and

"(3) the capability of the applicant to effectively implement the mentoring plan.

"APPLICATIONS

"SEC. 288F. An application for assistance under this part shall include—

"(1) information on the youth expected to be served by the program;

"(2) a provision for a mechanism for matching youth with mentors based on the needs of the youth;

"(3) an assurance that no mentor will be assigned to more than one youth, so as to ensure a one-to-one relationship;

"(4) an assurance that projects operated in secondary schools will provide youth with a variety of experiences and support, including—

"(A) an opportunity to spend time in a work environment and, when possible, participate in the work environment;

"(B) an opportunity to witness the job skills that will be required for youth to obtain employment upon graduation;

"(C) assistance with homework assignments; and

"(D) exposure to experiences that youth might not otherwise encounter;

"(5) an assurance that projects operated in elementary schools will provide youth with—

"(A) academic assistance;

"(B) exposure to new experiences and activities that youth might not encounter on their own; and

"(C) emotional support;

"(6) an assurance that projects will be monitored to ensure that each youth benefits from a mentor relationship, with provision for a new mentor assignment if the relationship is not beneficial to the youth;

"(7) the method by which mentors and youth will be recruited to the project;

"(8) the method by which prospective mentors will be screened; and

"(9) the training that will be provided to mentors.

"GRANT CYCLES

"SEC. 288G. Grants under this part shall be made for 3-year periods.

"REPORTS

"SEC. 288H. Not later than 120 days after the completion of the first cycle of grants under this part, the Administrator shall submit to Congress a report regarding the success and effectiveness of the grant program in reducing juvenile delinquency and gang participation, improving academic performance, and reducing the dropout rate.

"PART H—BOOT CAMPS

"ESTABLISHMENT OF PROGRAM

"SEC. 289. (a) IN GENERAL.—The Administrator may make grants to the appropriate agencies of 1 or more States for the purpose of establishing up to 10 military-style boot camps for juvenile delinquents (referred to as "boot camps").

"(b) LOCATION.—(1) The boot camps shall be located on existing or closed military installations on sites to be chosen by the agencies in one or more States, or in other facilities designated by the agencies on such sites, after consultation with the Secretary of Defense, if appropriate, and the Administrator.

"(2) The Administrator shall—

"(A) try to achieve to the extent possible equitable geographic distribution in approving boot camp sites; and

"(B) give priority to grants where more than one State enters into formal cooperative arrangements to jointly administer a boot camp; and

"(c) REGIMEN.—The boot camps shall provide—

"(1) a highly regimented schedule of discipline, physical training, work, drill, and ceremony characteristic of military basic training;

"(2) regular, remedial, special, and vocational education; and

"(3) counseling and treatment for substance abuse and other health and mental health problems.

"CAPACITY

"SEC. 289A. Each boot camp shall be designed to accommodate between 150 and 250 juveniles for such time as the grant recipient agency deems to be appropriate.

"ELIGIBILITY AND PLACEMENT

"SEC. 289B. (a) ELIGIBILITY.—A person shall be eligible for assignment to a boot camp if he or she—

"(1) is considered to be a juvenile under the laws of the State of jurisdiction; and

"(2) has been adjudicated to be delinquent in the State of jurisdiction or, upon approval of the court, voluntarily agrees to the boot camp assignment without a delinquency adjudication.

"(b) PLACEMENT.—Prior to being placed in a boot camp, an assessment of a juvenile shall be preformed to determine that—

"(1) the boot camp is the least restrictive environment that is appropriate for the juvenile considering the seriousness of the juvenile's delinquent behavior and the juvenile's treatment need; and

"(2) the juvenile is physically and emotionally capable of participating in the boot camp regimen.

"POST-RELEASE SUPERVISION

"SEC. 289C. A State that seeks to establish a boot camp, or participate in the joint administration of a boot camp, shall submit to the Administrator a plan describing—

"(1) the provisions that the State will make for the continued supervision of juveniles following release; and

"(2) provisions for educational and vocational training, drug or other counseling and treatment, and other support services.

"PART I—WHITE HOUSE CONFERENCE ON JUVENILE JUSTICE

"SEC. 291. (a) IN GENERAL.—The President may call and conduct a National White House Conference on Juvenile Justice (referred to as the "Conference") in accordance with this part.

"(b) PURPOSES OF CONFERENCE.—The purposes of the Conference shall be—

"(1) to increase public awareness of the problems of juvenile offenders and the juvenile justice system;

"(2) to examine the status of minors currently in the juvenile and adult justice systems;

"(3) to examine the increasing number of violent crimes committed by juveniles;

"(4) to examine the growing phenomena of youth gangs, including the number of young women who are involved;

"(5) to assemble persons involved in policies and programs related to juvenile delinquency prevention and juvenile justice enforcement;

"(6) to examine the need for improving services for girls in the juvenile justice system;

"(7) to create a forum in which persons and organizations from diverse regions may share information regarding successes and failures of policy in their juvenile justice and juvenile delinquency prevention programs; and

"(8) to develop such specific and comprehensive recommendations for executive and legislative action as may be appropriate to address the problems of juvenile delinquency and juvenile justice.

"(c) SCHEDULE OF CONFERENCES.—The Conference under this part shall be concluded not later than 18 months after the date of enactment of this part.

"(d) PRIOR STATE AND REGIONAL CONFERENCES.—

"(1) IN GENERAL.—Participants in the Conference and other interested persons and organizations may conduct conferences and other activities at the State and regional levels prior to the date of the Conference, subject to the approval of the executive director of the Conference.

"(2) PURPOSE OF STATE AND REGIONAL CONFERENCES.—State and regional conferences and activities shall be directed toward the consideration of the purposes of this part. State conferences shall elect delegates to the National Conferences.

"(3) ADMITTANCE.—No person involved in administering State juvenile justice programs or in providing services to or advocacy of juvenile offenders may be denied admission to a State or regional conference.

"CONFERENCE PARTICIPANTS

"SEC. 291A. (a) IN GENERAL.—The Conference shall bring together persons concerned with issues and programs, both public and private, relating to juvenile justice, and juvenile delinquency prevention.

"(b) SELECTION.—

"(1) STATE CONFERENCES.—Delegates, including alternates, to the National Conference shall be elected by participants at the State conferences.

"(2) DELEGATES.—(A) In addition to delegates elected pursuant to paragraph (1)—

"(i) each Governor may appoint 1 delegate and 1 alternate;

"(ii) the majority leader of the Senate, in consultation with the minority leader, may appoint 10 delegates and 3 alternates;

"(iii) the Speaker of the House of Representatives, in consultation with the minority leader, may appoint 10 delegates and 3 alternates;

"(iv) the President may appoint 20 delegates and 5 alternates;

"(v) the chief law enforcement official and the chief juvenile corrections official of each State may appoint 1 delegate and 1 alternate each; and

"(vi) the Chairperson of the Juvenile Justice and Delinquency Prevention Advisory Committee of each State, or his or her designate, may appoint 1 delegate.

"(B) Only persons involved in administering State juvenile justice programs or in providing services to or advocacy of juvenile offenders shall be eligible for appointment as a delegate.

"(c) PARTICIPANT EXPENSES.—Each participant in the Conference shall be responsible for his or her expenses related to attending the Conference and shall not be reimbursed from funds appropriated pursuant to this Act.

"(d) NO FEES.—No fee may be imposed on a person who attends a Conference except a registration fee of not to exceed $10.

"STAFF AND EXECUTIVE BRANCH

"SEC. 291B. (a) IN GENERAL.—The President may appoint and compensate an executive director of the National White House Conference on Juvenile Justice and such other directors and personnel for the Conference as the President may deem to be advisable, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and without regard to the provisions of chapter 51 and subchapter III of chapter 53 of that title relating to classification and General Schedule pay rates. The staff of the Conference may not exceed 20, including the executive director.

"(b) DETAILEES.—Upon request by the executive director, the heads of the executive and military departments may detail employees to work with the executive director in planning and administering the Conference without regard to section 3341 of title 5, United States Code.

"PLANNING AND ADMINISTRATION OF CONFERENCE

"SEC. 291C. (a) FEDERAL AGENCY SUPPORT.—All Federal departments, agencies, and instrumentalities shall provide such support and assistance as may be necessary to facilitate the planning and administration of the Conference.

"(b) DUTIES OF THE EXECUTIVE DIRECTOR.—In carrying out this part, the executive director of the White House Conference on Juvenile Justice—

"(1) shall provide such assistance as may be necessary for the organization and conduct of conferences at the State and regional levels authorized by section 291(d);

"(2) may enter into contracts and agreements with public and private agencies and organizations and academic institutions to assist in carrying out this part; and

"(3) shall prepare and provide background materials for use by participants in the Conference and by participants in State and regional conferences.

"REPORTS

"SEC. 291D. (a) IN GENERAL.—Not later than 6 months after the date on which a National Conference is convened, a final report of the Conference shall be submitted to the President and the Congress.

"(b) CONTENTS.—A report described in subsection (a)—

"(1) shall include the findings and recommendations of the Conference and proposals for any legislative action necessary to implement the recommendations of the Conference; and

"(2) shall be made available to the public.

"OVERSIGHT

"SEC. 291E. The Administrator shall report to the Congress annually during the 3-year period following the submission of the final report of a Conference on the status and implementation of the findings and recommendations of the Conference.".

(2) REPEALER.—Subtitle G of title II of the Crime Control Act of 1990 (42 U.S.C. 13051 et seq.) is repealed effective September 30, 1993.

(j) GENERAL AND ADMINISTRATIVE PROVISIONS.—Section 299 of the Juvenile Justice and Delinquency Prevention Act of 1974, as redesignated by subsection (g), is amended—

(1) by amending subsection (a) to read as follows:

"(a)(1) To carry out the purposes of this title (other than parts D, E, F, G, H, and I) there are authorized to be appropriated $150,000,000 for fiscal years 1993, 1994, 1995, and 1996. Funds appropriated for any fiscal year shall remain available for obligation until expended.

"(2)(A) Subject to subparagraph (B), to carry out part D, there are authorized to be appropriated—

"(i) to carry out subpart 1, $25,000,000 for fiscal year 1993 and such sums as are necessary for fiscal years 1994, 1995, and 1996; and

"(ii) to carry out subpart 2, $25,000,000 for fiscal year 1993 and such sums as are necessary for fiscal years 1994, 1995, and 1996.

"(B) No funds may be appropriated to carry out part D, E, F, G, or I of this title or title V or VI for a fiscal year unless the aggregate amount appropriated to carry out this title (other than part D, E, F, G, or I of this title or title V or VI) for the fiscal year is not less than the aggregate amount appropriated to carry out this title (other than part D, E, F, G, or I of this title or title V or VI) for the preceding fiscal year.

"(3) To carry out part E, there are authorized to be appropriated $50,000,000 for fiscal year 1993 and such sums as are necessary for each of the fiscal years 1994, 1995, and 1996.

"(4)(A) Subject to subparagraph (B), there are authorized to be appropriated to carry out part F—

"(i) $15,000,000 for fiscal year 1993; and

"(ii) such sums as are necessary for fiscal years 1994, 1995, and 1996.

"(B) No amount is authorized to be appropriated for a fiscal year to carry out part F unless the aggregate amount appropriated to carry out this title for that fiscal year is not less than the aggregate amount appropriated to carry out this title for the preceding fiscal year.

"(C) From the amount appropriated to carry out part F in a fiscal year, the Administrator shall use—

"(i) not less than 85 percent to make grants for treatment and transitional services;

"(ii) not to exceed 10 percent for grants for research; and

"(iii) not to exceed 5 percent for salaries and expenses of the Office of Juvenile Justice and Delinquency Prevention related to administering part F.

"(5)(A) Subject to subparagraph (B), there are authorized to be appropriated to carry out part G such sums as are necessary for fiscal years 1993, 1994, 1995, and 1996.

"(6)(A) There are authorized to be appropriated to carry out part H such sums as are necessary for fiscal year 1993, to remain available until expended, of which—

"(i) not more than $12,500,000 shall be used to convert any 1 closed military base or to modify any 1 existing military base or other designated facility to a boot camp; and

"(ii) not more than $2,500,000 shall be used to operate any 1 boot camp during a fiscal year.

"(B) No amount is authorized to be appropriated for a fiscal year to carry out part H unless the aggregate amount appropriated to carry out parts A, B, and C of this title for that fiscal year is not less than 120 percent of the aggregate amount appropriated to carry out those parts for fiscal year 1992.

"(7)(A) There are authorized to be appropriated such sums as are necessary for each National Conference and associated State and regional conferences under part I, to remain available until expended.

"(B) New spending authority or authority to enter into contracts under part I shall be effective only to such extent and in such amounts as are provided in advance in appropriation Acts.

"(C) No funds appropriated to carry out this Act shall be made available to carry out part I other than funds appropriated specifically for the purpose of conducting the Conference.

"(D) Any funds remaining unexpended at the termination of the Conference under part I, including submission of the report pursuant to section 291D, shall be returned to the Treasury of the United States and credited as miscellaneous receipts."; and

(2) by adding at the end the following new subsection:

"(e) Of such sums as are appropriated to carry out section 261(a)(6), not less than 20 percent shall be reserved by the Administrator for each of fiscal years 1993, 1994, 1995, and 1996, for not less than 2 programs that have not received funds under subpart II of part C prior to October 1, 1992, which shall be selected through the application and approval process set forth in section 262.".

SEC. 3. RUNAWAY AND HOMELESS YOUTH.

(a) FINDINGS.—Section 302 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5701) is amended—

(1) by amending paragraph (1) to read as follows:

"(1) juveniles who have become homeless or who leave and remain away from home without parental permission, are at risk of developing serious health and other problems because they lack sufficient resources to obtain care and may live on the street for extended periods thereby endangering themselves and creating a substantial law enforcement problem for communities in which they congregate;";

(2) by striking "and" at the end of paragraph (4);

(3) in paragraph (5) by striking "temporary" and all that follows through the period at the end and inserting "care (including preventive services, emergency shelter services, and extended residential shelter) outside the welfare system and the law enforcement system;" and

(4) by adding at the end the following new paragraphs:

"(6) runaway and homeless youth have a disproportionate share of health, behavioral, and emotional problems compared to the general population of youth, but have less access to health care and other appropriate services and therefore may need access to longer periods of residential care, more intensive aftercare service, and other assistance;

"(7) to make a successful transition to adulthood, runaway youth, homeless youth, and other street youth need opportunities to complete high school or earn a general equivalency degree, learn job skills, and obtain employment;

"(8) in view of the interstate nature of the problem, it is the responsibility of the Federal Government to develop an accurate national reporting system and to develop an effective system of care including prevention, emergency shelter services, and longer residential care outside the public welfare and law enforcement structures;

"(9) early intervention services (such as home-based services) are needed to prevent runaway and homeless youth from becoming involved in the juvenile justice system and other law enforcement systems; and

"(10) street-based services that target runaway and homeless youth where they congregate are needed to reach youth who require assistance but who would not otherwise avail themselves of such assistance or services without street-based outreach.".

(b) AUTHORITY TO MAKE GRANTS.—

(1) AUTHORITY.—Section 311(a) of the Runaway and Homeless Youth Act (42 U.S.C. 5711(a)) is amended by striking "structure and" and inserting "system, the child welfare system, the mental health system, and".

(2) ALLOTMENT OF FUNDS.—Section 311(b) of the Runaway and Homeless Youth Act (42 U.S.C. 5711(b)) is amended—

(A) in paragraph (2)—

(i) by striking "$75,000" and inserting "$100,000"; and

(ii) by striking "$30,000" and inserting "$45,000"; and

(B) in paragraph (3) by striking "1988" each place it appears and inserting "1992".

(3) STREET-BASED SERVICES; HOME-BASED SERVICES.—Section 311 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5633) is amended by striking subsection (c) and inserting the following:

"(c)(1) If for a fiscal year the amount appropriated under section 385(a)(1) exceeds $50,000,000, the Secretary may make grants under this subsection for that fiscal year to entities that receive grants under subsection (a) to establish and operate street-based service projects for runaway and homeless youth.

"(2) For purposes of this part, the term 'street-based services' includes—

"(i) street-based crisis intervention and counseling;

"(ii) information and referral for housing;

"(iii) information and referral for transitional living and health care services; and

"(iv) advocacy, education, and prevention services for—

"(I) alcohol and drug abuse;

"(II) sexually transmitted diseases including HIV/AIDS infection; and

"(III) physical and sexual assault.

"(d)(1) If for a fiscal year the amount appropriated under section 385(a)(1) exceeds $50,000,000, the Secretary may make grants for that fiscal year to entities that receive grants under subsection (a) to establish and operate home-based service projects for families that are separated, or at risk of separation, as a result of the physical absence of a runaway youth or youth at risk of family separation.

"(2) For purposes of this part—

"(A) the term 'home-based service project' means a project that provides—

"(i) case management; and

"(ii) in the family residence (to the maximum extent practicable)—

"(I) intensive, time-limited, family and individual counseling;

"(II) training relating to life skills and parenting; and

"(III) other services;

designed to prevent youth from running away from their families or to cause runaway youth or to return to their families;

"(B) the term 'youth at risk of family separation' means an individual—

"(i) who is less than 18 years of age; and

"(ii)(I) who has a history of running away from the family of such individual;

"(II) whose parent, guardian, or custodian is not willing to provide for the basic needs of such individual; or

"(III) who is at risk of entering the child welfare system or juvenile justice system, as a result of the lack of services available to the family to meet such needs; and

"(C) the term 'time-limited' means for a period not to exceed 6 months.".

(c) ELIGIBILITY.—Section 312 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5712) is amended—

(1) in subsection (a) by striking "facility providing" and inserting "project (including a host family home) that provides"; and

(2) in subsection (b)—

(A) by amending paragraph (2) to read as follows:

"(2) shall use such assistance to establish, to strengthen, or to fund a runaway and homeless youth center, or a locally controlled facility providing temporary shelter, that has—

"(A) a maximum capacity of not more than 20 youth; and

"(B) a ratio of staff to youth that is sufficient to ensure adequate supervision and treatment;";

(B) in paragraph (3)—

(i) by striking "child's parents or relatives and assuring" and inserting "parents or other relatives of the youth and ensuring"; and

(ii) by striking "child" each place it appears and inserting "youth";

(C) by amending paragraph (4) to read as follows:

"(4) shall develop an adequate plan for ensuring—

"(A) proper relations with law enforcement personnel, health and mental health care personnel, social service personnel, school system personnel, and welfare personnel;

"(B) coordination with personnel of the schools to which runaway and homeless youth will return, to assist such youth to stay current with the curricula of those schools; and

"(C) the return of runaway and homeless youth from correctional institutions;";

(D) in paragraph (5)—

(i) by striking "aftercare" and all that follows through "assuring" and inserting "providing counseling and aftercare services to such youth, for encouraging the involvement of their parents or legal guardians in counseling, and for ensuring"; and

(ii) by striking "children" and inserting "youth";

(E) in paragraph (6) by striking "children and family members which it serves" and inserting "youth and family members whom it serves (including youth who are not referred to out-of-home shelter services)";

(F) by redesignating paragraphs (6), (7), (8), (9), and (10) as paragraphs (7), (8), (9), (10), and (11), respectively;

(G) by inserting after paragraph (5) the following new paragraph:

"(6) shall develop an adequate plan for establishing or coordinating with outreach programs designed to attract persons (including, where applicable, persons who are members of a cultural minority and persons with limited ability to speak English) who are eligible to receive services for which a grant under subsection (a) may be expended;"; and

(H) by adding at the end the following new subsections:

"(c) To be eligible for assistance under section 311(c), an applicant shall propose to establish, strengthen, or fund a street-based service project for runaway and homeless youth and shall submit to the Secretary a plan in which the applicant agrees, as part of the project—

"(1) to provide qualified supervision of staff, including on-street supervision by appropriately trained staff;

"(2) to provide backup personnel for on-street staff;

"(3) to provide informational and health educational material to runaway and homeless youth in need of services;

"(4) to provide initial and periodic training of staff who provide services under the project;

"(5) to carry out outreach activities for runaway and homeless youth and to collect statistical information on runaway and homeless youth contacted through such activities;

"(6) to develop referral relationships with agencies and organizations that provide services or assistance to runaway and homeless youth, including law enforcement, education, social services, vocational education and training, public welfare, legal assistance, mental health and health care;

"(7) to submit to the Secretary an annual report that includes information regarding the activities carried out with funds received under section 311(c), the achievements of the project under section 311(c) carried out by the applicant, and statistical summaries describing the number and the characteristics of the runaway and homeless youth who participate in such project in the year for which the report is submitted;

"(8) to implement such accounting procedures and fiscal control devices as the Secretary may require;

"(9) to submit to the Secretary an annual budget that estimates the itemized costs to be incurred in the year for which the applicant requests a grant under subsection 311(c);

"(10) to keep adequate statistical records that profile runaway and homeless youth whom it serves and not to disclose the identity such youth in reports or other documents based on such statistical records;

"(11) not to disclose records maintained on an individual runaway and homeless youth without the informed consent of the youth, to any person other than an agency compiling statistical records; and

"(12) to provide to the Secretary such other information as the Secretary may reasonably require.

"(d) To be eligible for assistance under section 311(d), an applicant shall propose to establish, strengthen, or fund a home-based service project for runaway youth or youth at risk of family separation and shall submit to the Secretary a plan in which the applicant agrees, as part of the project—

"(1) to provide counseling and information services needed by runaway youth, youth at risk of family separation, and the family (including unrelated individuals in the family household) of such youth, including services relating to basic life skills, interpersonal skill building, educational advancement, job attainment skills, mental and physical health care, parent training, financial planning, and referral to sources of other needed services;

"(2) to provide directly, or through an arrangement made by the applicant, 24-hour service to respond to family crises (including immediate access to temporary shelter for runaway youth and youth at risk of family separation affected by family crises);

"(3) to establish in partnership with the families of runaway youth and youth at risk of family separation, objectives and measures of success to be achieved as a result of participating in such project;

"(4) to provide informational and health educational material to runaway youth and youth at risk of family separation in need of services;

"(5) to provide initial and periodic training of staff who provide services under the project;

"(6) to carry out outreach activities for runaway youth and youth at risk of family separation, and to collect statistical information on runaway youth and youth at risk of family separation contacted through such activities;

"(7) to ensure that—

"(i) caseloads will remain sufficiently low to allow for intensive (5 to 20 hours per week) involvement with each family participating in such project; and

"(ii) qualified supervision will be provided to staff who provide services under the project;

"(8) to submit to the Secretary an annual report that includes information regarding the activities carried out with funds under section 311(d), the achievements of the project under this part carried out by the applicant and statistical summaries describing the number and the characteristics of the runaway youth and youth at risk of family separation who participate in such project in the year for which the report is submitted;

"(9) to implement such accounting procedures and fiscal control devices as the Secretary may require;

"(10) to submit to the Secretary an annual budget that estimates the itemized costs to be incurred in the year for which the applicant requests a grant under section 311(d);

"(11) to keep adequate statistical records that profile runaway youth and youth at risk of family separation whom it serves and not to disclose the identity of such youth in reports or other documents based on such statistical records;

"(12) not to disclose records maintained on an individual runaway youth or youth at risk of family separation without the informed consent of the youth, to any person other than an agency compiling statistical records; and

"(13) to provide to the Secretary such other information as the Secretary may reasonably require.".

(d) APPROVAL BY SECRETARY.—Section 316 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5713) is amended—

(1) in the first sentence by striking "section 311(a)" each place it appears and inserting "section 311 (a), (c), or (d)"; and

(2) in the second sentence by striking "$150,000" and inserting "$200,000".

(e) GRANTS TO PRIVATE ENTITIES; STAFFING.—Section 317 of the Runaway and Homeless Youth Act (42 U.S.C. 5714) is amended—

(1) by striking "part" each place it appears and inserting "title";

(2) in the first sentence inserting "and the programs, projects, and activities they carry out under this title" after "center"; and

(3) in the last sentence by inserting "under this title" before the period.

(f) TRANSITIONAL LIVING GRANT PROGRAM.—Section 322(a) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5714-2(a)) is amended—

(1) in paragraph (1) by inserting "which shall include money management, budgeting, consumer education, and use of credit" after "basic life skills"; and

(2) in paragraph (13)—

(A) by striking "consent of the individual youth and parent or legal guardian" and inserting "informed consent of the individual youth"; and

(B) by striking "or a government agency involved in the disposition of criminal charges against youth".

(g) NATIONAL COMMUNICATION SYSTEM; STREET-BASED SERVICES PROGRAM; HOME-BASED SERVICES PROGRAM; COORDINATING ACTIVITIES.—

(1) ADDITIONAL PARTS.—The Runaway and Homeless Youth Act (42 U.S.C. 5701 et seq.) is amended—

(A) in part D—

(i) by striking "PART D" and inserting "PART F"; and

(ii) by redesignating sections 361, 362, 363, 364, and 366 as sections 381 through 385, respectively;

(B) in part C—

(i) by striking PART C" and inserting "PART E"; and

(ii) by redesignating sections 341 and 342 as sections 371 and 372, respectively; and

(C) by inserting after part B the following new parts:

"PART C—NATIONAL COMMUNICATIONS SYSTEM

"AUTHORITY TO MAKE GRANTS

"SEC. 331. With funds reserved under section 385(a)(3), the Secretary shall make grants for a national communication system to assist runaway and homeless youth in communicating with their families and with service providers. The Secretary shall give priority to grant applicants that have experience in providing telephone services to runaway and homeless youth.

"PART D—COORDINATING, TRAINING, RESEARCH, AND OTHER ACTIVITIES

"COORDINATION

"SEC. 341. With respect to matters relating to the health, education, employment, and housing of runaway and homeless youth, the Secretary shall coordinate the activities of agencies of the Department of Health and Human Services with the activities of other Federal entities and with the activities of entities that are eligible to receive grants under this title.

"GRANTS FOR TECHNICAL ASSISTANCE AND TRAINING

"SEC. 342. The Secretary may make grants to statewide and regional nonprofit organizations (and combinations of such organizations) to provide technical assistance and training to public and private entities (and combinations of such entities) that are eligible to receive grants under this title, for the purpose of carrying out the programs, projects, or activities for which such grants are made.

"AUTHORITY TO MAKE GRANTS FOR RESEARCH, DEMONSTRATION, AND SERVICE PROJECTS

"SEC. 343. (a) The Secretary may make grants to States, localities, and private entities (and combinations of such entities) to carry out research, demonstration, and service projects designed to increase knowledge concerning, and to improve services for, runaway youth and homeless youth.

"(b) In selecting among applications for grants under subsection (a), the Secretary shall give special consideration to proposed projects relating to—

"(1) youth who repeatedly leave and remain away from their homes;

"(2) home-based and street-based services for, and outreach to, runaway youth and homeless youth;

"(3) transportation of runaway youth and homeless youth in connection with services authorized to be provided under this title;

"(4) the special needs of runaway youth and homeless youth programs in rural areas;

"(5) the special needs of programs that place runaway youth and homeless youth in host family homes;

"(6) staff training in—

"(A) the behavioral and emotional effects of sexual abuse and assault;

"(B) responding to youth who are showing effects of sexual abuse and assault; and

"(C) agency-wide strategies for working with runaway and homeless youth who have been sexually victimized;

"(7) innovative methods of developing resources that enhance the establishment or operation of runaway and homeless youth centers;

"(8) training for runaway youth and homeless youth, and staff training, related to preventing and obtaining treatment for infection by the human immunodeficiency virus (HIV);

"(9) increasing access to health care (including mental health care) for runaway youth and homeless youth; and

"(10) increasing access to education for runaway youth and homeless youth.

"(c) In selecting among applicants for grants under subsection (a), the Secretary shall give priority to applicants who have experience working with runaway youth or homeless youth.

"TEMPORARY DEMONSTRATION PROJECTS TO PROVIDE SERVICES TO YOUTH IN RURAL AREAS

"SEC. 344. (a)(1) With funds appropriated under section 385(c), the Secretary may make grants on a competitive basis to States, localities, and private entities (and combinations of such entities) to provide services (including transportation) authorized to be provided under part A, to runaway and homeless youth in rural areas.

"(2)(A) Each grant made under paragraph (1) may not exceed $100,000.

"(B) In each fiscal year for which funds are appropriated to carry out this section, grants shall be made under paragraph (1) to eligible applicants carry out projects in not fewer than 10 States.

"(C) Not more than 2 grants may be made under paragraph (1) in each fiscal year to carry out projects in a particular State.

"(3) Each eligible applicant that receives a grant for a fiscal year to carry out a project under this section shall have priority to receive a grant for the subsequent fiscal year to carry out a project under this section.

"(b) To be eligible to receive a grant under subsection (a), an applicant shall—

"(1) submit to the Secretary an application in such form and containing such information and assurances as the Secretary may require by rule; and

"(2) propose to carry out such project in a geographical area that—

"(A) has a population under 20,000;

"(B) is located outside a Standard Metropolitan Statistical Area; and

"(C) agree to provide to the Secretary an annual report identifying—

"(i) the number of runaway and homeless youth who receive services under the project carried out by the applicant;

"(ii) the types of services authorized under part A that were needed by, but not provided to, such youth in the geographical area served by the project;

"(iii) the reasons the services identified under clause (ii) were not provided by the project; and

"(iv) such other information as the Secretary may require.".

(2) TECHNICAL AMENDMENTS.—(A) Section 313 of the Runaway and Homeless Youth Act (42 U.S.C. 5712a) is repealed.

(B) Section 314 of the Runaway and Homeless Youth Act (42 U.S.C. 5712b) is repealed.

(C) Section 315 of the Runaway and Homeless Youth Act (42 U.S.C. 5712c) is repealed.

(D) Sections 316 and 317 of the Runaway and Homeless Youth Act (42 U.S.C. 5713, 5714) are redesignated as sections 313 and 314, respectively.

(E) Section 365 of the Runaway and Homeless Youth Act (42 U.S.C. 5733) is repealed.

(h) REPORTS.—Section 361 of the Juvenile Justice and Delinquency Act of 1974 (42 U.S.C. 5715) is amended to read as follows:

"REPORTS

"SEC. 361. (a) Not later than 180 days after the end of each fiscal year, the Secretary shall submit a report to the Committee on Education and Labor of the House of Representatives and the Committee on the Judiciary of the Senate on the status, activities, and accomplishments of the runaway and homeless youth centers that are funded under parts A, B, C, D, and E, with particular attention to—

"(1) in the case of centers funded under part A—

"(A) their effectiveness in alleviating the problems of runaway and homeless youth;

"(B) their ability to reunite children with their families and to encourage the resolution of intrafamily problems through counseling and other services;

"(C) their effectiveness in strengthening family relationships and encouraging stable living conditions for children; and

"(D) their effectiveness in helping youth decide upon a future course of action; and

"(2) in the case of centers funded under part B—

"(A) the number and characteristic of homeless youth served by such projects;

"(B) describing the types of activities carried out under such projects;

"(C) the effectiveness of such projects in alleviating the immediate problems of homeless youth;

"(D) the effectiveness of such projects in preparing homeless youth for self-sufficiency;

"(E) the effectiveness of such projects in helping youth decide upon future education, employment, and independent living;

"(F) the ability of such projects to strengthen family relationships, and encourage the resolution of intrafamily problems through counseling and the development of self-sufficient living skills; and

"(G) plans for the following fiscal year.".

(2) by adding at the end the following:

"(b)(1) The Secretary shall include in the report required by subsection (a) an evaluation of the results of Federal evaluation of the programs, projects, and activities carried out under this title and a description of the training provided to the persons who carry out the evaluation.

"(2) As part of the evaluation described in paragraph (1), the Secretary shall require the persons who carry out the evaluation to visit each grantee on-site not less frequently than every 3 years.".

(i) AUTHORIZATION OF APPROPRIATIONS.—Section 366 of the Juvenile Justice and Delinquency Act of 1974 (42 U.S.C. 5751) is amended—

(1) in subsection (a)—

(A) by amending paragraph (1) to read as follows:

"(1) There are authorized to be appropriated to carry out this title (other than part B and section 344) $75,000,000 for fiscal year 1993 and such sums as may be necessary for fiscal years 1994, 1995, and 1996."; and

(B) by adding at the end the following new paragraphs:

"(3) After making the allocation required by paragraph (2), the Secretary shall reserve for the purpose of carrying out section 331—

"(A) for fiscal year 1993 not less than $912,500, of which $125,000 shall be available for the acquisition of communications equipment;

"(B) for fiscal year 1994 not less than $826,900;

"(C) for fiscal year 1995 not less than $868,300; and

"(D) for fiscal year 1996 not less than $911,700.

"(4) In the use of funds appropriated under paragraph (1) that are in excess of $38,000,000 but less than $42,600,000, priority may be given to awarding enhancement grants to programs (with priority to programs that receive grants of less than $85,000), for the purpose of allowing such programs to achieve higher performance standards, including—

"(A) increasing and retaining trained staff;

"(B) strengthening family reunification efforts;

"(C) improving aftercare services;

"(D) fostering better coordination of services with public and private entities;

"(E) providing comprehensive services, including health and mental health care, education, prevention and crisis intervention, and vocational services; and

"(F) improving data collection efforts.

"(5) In the use of funds appropriated under paragraph (1) that are in excess of $42,599,999—

"(A) 50 percent may be targeted at developing new programs in unserved or underserved communities; and

"(B) 50 percent may be targeted at program enhancement activities described in paragraph (3).";

(2) in subsection (b) by amending paragraph (1) to read as follows:

"(1) Subject to paragraph (2), there are authorized to be appropriated to carry out B $25,000,000 for fiscal year 1993 and such sums as may be necessary for fiscal years 1994, 1995, and 1996."

(3) by redesignating subsections (c) and (d) as subsections (d) and (e), respectively; and

(4) by inserting after subsection (b) the following new subsection:

"(c) There is authorized to be appropriated to carry out section 344 $1,000,000 for each of fiscal years 1993, 1994, 1995, and 1996.".

SEC. 4. MISSING CHILDREN.

Section 407 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5777) is amended by striking "fiscal years 1989, 1990, 1991, and 1992" and inserting "fiscal years 1993, 1994, 1995, and 1996".

SEC. 5. INCENTIVE GRANTS FOR LOCAL DELINQUENCY PREVENTION PROGRAMS.

(a) ESTABLISHMENT OF PROGRAM.—The Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5601 et seq.) is amended by adding at the end the following new title:

"TITLE V—INCENTIVE GRANTS FOR LOCAL DELINQUENCY PREVENTION PROGRAMS

"SEC. 501. SHORT TITLE.

"This title may be cited as the 'Incentive Grants for Local Delinquency Prevention Programs Act'.

"SEC. 502. FINDINGS.

"The Congress finds that—

"(1) approximately 700,000 youth enter the juvenile justice system every year;

"(2) Federal, State, and local governments spend close to $2,000,000,000 a year confining many of those youth;

"(3) it is more effective in both human and fiscal terms to prevent delinquency than to attempt to control or change it after the fact;

"(4) half or more of all States are unable to spend any juvenile justice formula grant funds on delinquency prevention because of other priorities;

"(5) few Federal resources are dedicated to delinquency prevention; and

"(6) Federal incentives are needed to assist States and local communities in mobilizing delinquency prevention policies and programs.

"SEC. 503. DEFINITION.

"In this title, the term 'State advisory group' means the advisory group appointed by the chief executive officer of a State under a plan described in section 223(a).

"SEC. 504. DUTIES AND FUNCTIONS OF THE ADMINISTRATOR.

"The Administrator shall—

"(1) issue such rules as are necessary or appropriate to carry out this title;

"(2) make such arrangements as are necessary and appropriate to facilitate coordination and policy development among all activities funded through the Department of Justice relating to delinquency prevention (including the preparation of an annual comprehensive plan for facilitating such coordination and policy development);

"(3) provide adequate staff and resources necessary to properly carry out this title; and

"(4) not later than 180 days after the end of each fiscal year, submit a report to the Chairman of the Committee on Education and Labor of the House of Representatives and the Chairman of the Committee on the Judiciary of the Senate—

"(A) describing activities and accomplishments of grant activities funded under this title;

"(B) describing procedures followed to disseminate grant activity products and research findings;

"(C) describing activities conducted to develop policy and to coordinate Federal agency and interagency efforts related to delinquency prevention; and

"(D) identifying successful approaches and making recommendations for future activities to be conducted under this title.

"SEC. 505. GRANTS FOR PREVENTION PROGRAMS.

"(a) PURPOSES.—The Administrator may make grants to a State, to be transmitted through the State advisory group to units of general local government that meet the requirements of subsection (b), for delinquency prevention programs and activities for youth who have had contact with the juvenile justice system or who are likely to have contact with the juvenile justice system, including the provision to children, youth, and families of—

"(1) recreation services;

"(2) tutoring and remedial education;

"(3) assistance in the development of work awareness skills;

"(4) child and adolescent health and mental health services;

"(5) alcohol and substance abuse prevention services;

"(6) leadership development activities; and

"(7) the teaching that people are and should be held accountable for their actions.

"(b) ELIGIBILITY.—The requirements of this subsection are met with respect to a unit of general local government if—

"(1) the unit is in compliance with the requirements of part B of title II;

"(2) the unit has submitted to the State advisory group a 3-year plan outlining the unit's local front end plans for investment for delinquency prevention and early intervention activities;

"(3) the unit has included in its application to the Administrator for formula grant funds a summary of the 3-year plan described in paragraph (2);

"(4) pursuant to its 3-year plan, the unit has appointed a local policy board of no fewer than 15 and no more than 21 members with balanced representation of public agencies and private, nonprofit organizations serving children, youth, and families and business and industry;

"(5) the unit has, in order to aid in the prevention of delinquency, included in its application a plan for the coordination of services to at-risk youth and their families, including such programs as nutrition, energy assistance, and housing;

"(6) the local policy board is empowered to make all recommendations for distribution of funds and evaluation of activities funded under this title; and

"(7) the unit or State has agreed to provide a 50 percent match of the amount of the grant, including the value of in-kind contributions, to fund the activity.

"(c) PRIORITY.—In considering grant applications under this section, the Administrator shall give priority to applicants that demonstrate ability in—

"(1) plans for service and agency coordination and collaboration including the colocation of services;

"(2) innovative ways to involve the private nonprofit and business sector in delinquency prevention activities; and

"(3) developing or enhancing a statewide subsidy program to local governments that is dedicated to early intervention and delinquency prevention.

"SEC. 506. AUTHORIZATION OF APPROPRIATIONS.

"To carry out this title, there are authorized to be appropriated $30,000,000 for fiscal year 1993 and such sums as are necessary for fiscal years 1994, 1995, and 1996.".

(b) STUDY.—After the program established by subsection (a) has been funded for two years, the General Accounting Office shall prepare and submit to Congress a study of the effects of the program in encouraging States and units of general local government to comply with the requirements of part B of title II.

SEC. 6. CHILDREN'S ADVOCACY PROGRAM.

(a) FINDINGS.—Section 211 of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13001) is amended—

(1) by redesignating paragraphs (3), (4), and (5) as paragraphs (4), (6), and (7), respectively;

(2) by inserting after paragraph (2) the following new paragraph:

"(3) traditionally, community agencies and professionals have different roles in the prevention, investigation, and intervention process;" and

(3) by inserting after paragraph (4), as redesignated by paragraph (1), the following new paragraph:

"(5) there is a national need to enhance coordination among community agencies and professionals involved in the intervention system;".

(b) REGIONAL CHILDREN'S ADVOCACY PROGRAM.—Subtitle A of the Victims of Child Abuse Act (42 U.S.C. 13001 et seq.) is amended—

(1) by redesignating sections 212, 213, and 214 as sections 214, 214A, and 214B, respectively; and

(2) by inserting after section 211 the following new sections:

"SEC. 212. DEFINITIONS.

"For purposes of this subtitle—

"(1) the term 'Administrator' means the agency head designated under section 201(b) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5611(b));

"(2) the term 'applicant' means a child protective service, law enforcement, legal, medical and mental health agency or other agency that responds to child abuse cases;

"(3) the term 'board' means the Children's Advocacy Advisory Board established under section 213(e);

"(4) the term 'census region' means 1 of the 4 census regions (northeast, south, midwest, and west) that are designated as census regions by the Bureau of the Census as of the date of enactment of this section;

"(5) the term 'child abuse' means physical or sexual abuse or neglect of a child;

"(6) the term 'Director' means the Director of the National Center on Child Abuse and Neglect;

"(7) the term 'multidisciplinary response to child abuse' means a response to child abuse that is based on mutually agreed upon procedures among the community agencies and professionals involved in the intervention, prevention, prosecution, and investigation systems that best meets the needs of child victims and their nonoffending family members;

"(8) the term 'nonoffending family member' means a member of the family of a victim of child abuse other than a member who has been convicted or accused of committing an act of child abuse; and

"(9) the term 'regional children's advocacy program' means the children's advocacy program established under section 213(a).

"SEC. 213. REGIONAL CHILDREN'S ADVOCACY CENTERS.

"(a) ESTABLISHMENT OF REGIONAL CHILDREN'S ADVOCACY PROGRAM.—The Administrator, in coordination with the Director and with the Director of the Office of Victims of Crime, shall establish a children's advocacy program to—

"(1) focus attention on child victims by assisting communities in developing child-focused, community-oriented, facility-based programs designed to improve the resources available to children and families;

"(2) provide support for nonoffending family members;

"(3) enhance coordination among community agencies and professionals involved in the intervention, prevention, prosecution, and investigation systems that respond to child abuse cases; and

"(4) train physicians and other health care and mental health care professionals in the multidisciplinary approach to child abuse so that trained medical personnel will be available to provide medical support to community agencies and professionals involved in the intervention, prevention, prosecution, and investigation systems that respond to child abuse cases.

"(b) ACTIVITIES OF THE REGIONAL CHILDREN'S ADVOCACY PROGRAM.—

"(1) ADMINISTRATOR.—The Administrator, in coordination with the Director, shall—

"(A) establish regional children's advocacy program centers;

"(B) fund existing regional centers with expertise in the prevention, judicial handling, and treatment of child abuse and neglect; and

"(C) fund the establishment of freestanding facilities in multidisciplinary programs within communities that have yet to establish such facilities,

for the purpose of enabling grant recipients to provide information, services, and technical assistance to aid communities in establishing multidisciplinary programs that respond to child abuse.

"(2) GRANT RECIPIENTS.—A grant recipient under this section shall—

"(A) assist communities—

"(i) in developing a comprehensive, multidisciplinary response to child abuse that is designed to meet the needs of child victims and their families;

"(ii) in establishing a freestanding facility where interviews of and services for abused children can be provided;

"(iii) in preventing or reducing trauma to children caused by multiple contacts with community professionals;

"(iv) in providing families with needed services and assisting them in regaining maximum functioning;

"(v) in maintaining open communication and case coordination among community professionals and agencies involved in child protection efforts;

"(vi) in coordinating and tracking investigative, preventive, prosecutorial, and treatment efforts;

"(vii) in obtaining information useful for criminal and civil proceedings;

"(viii) in holding offenders accountable through improved prosecution of child abuse cases;

"(ix) in enhancing professional skills necessary to effectively respond to cases of child abuse thorough training; and

"(x) in enhancing community understanding of child abuse; and

"(B) provide training and technical assistance to local children's advocacy centers in its census region that are grant recipients under section 214.

"(c) OPERATION OF THE REGIONAL CHILDREN'S ADVOCACY PROGRAM.—

"(1) SOLICITATION OF PROPOSALS.—Not later than 1 year after the date of enactment of this section, the Administrator shall solicit proposals for assistance under this section.

"(2) MINIMUM QUALIFICATIONS.—In order for a proposal to be selected, the Administrator may require an applicant to have in existence, at the time the proposal is submitted, 1 or more of the following:

"(A) A proven record in conducting activities of the kinds described in subsection (c).

"(B) A facility where children who are victims of sexual or physical abuse and their nonoffending family members can go for the purpose of evaluation, intervention, evidence gathering, and counseling.

"(C) Multidisciplinary staff experienced in providing remedial counseling to children and families.

"(D) Experience in serving as a center for training and education and as a resource facility.

"(E) National expertise in providing technical assistance to communities with respect to the judicial handling of child abuse and neglect.

"(3) PROPOSAL REQUIREMENTS.—

"(A) IN GENERAL.—A proposal submitted in response to the solicitation under paragraph (1) shall—

"(i) include a single or multiyear management plan that outlines how the applicant will provide information, services, and technical assistance to communities so that communities can establish multidisciplinary programs that respond to child abuse;

"(ii) demonstrate the ability of the applicant to operate successfully a multidisciplinary child abuse program or provide training to allow others to do so; and

"(iii) state the annual cost of the proposal and a breakdown of those costs.

"(B) CONTENT OF MANAGEMENT PLAN.—A management plan described in paragraph (3)(A) shall—

"(i) outline the basic activities expected to be performed;

"(ii) describe the entities that will conduct the basic activities;

"(iii) establish the period of time over which the basic activities will take place; and

"(iv) define the overall program management and direction by—

"(I) identifying managerial, organizational, and administrative procedures and responsibilities;

"(II) demonstrating how implementation and monitoring of the progress of the children's advocacy program after receipt of funding will be achieved; and

"(III) providing sufficient rationale to support the costs of the plan.

"(4) SELECTION OF PROPOSALS.—

"(A) COMPETITIVE BASIS.—Proposals shall be selected under this section on a competitive basis.

"(B) CRITERIA.—The Administrator, in coordination with the Director, shall select proposals for funding that—

"(i) best result in developing and establishing multidisciplinary programs that respond to child abuse by assisting, training, and teaching community agencies and professionals called upon to respond to child abuse cases;

"(ii) assist in resolving problems that may occur during the development, operation, and implementation of a multidisciplinary program that responds to child abuse; and

"(iii) carry out the objectives developed by the Board under subsection (e)(2)(A);

"(C) to the greatest extent possible and subject to available appropriations, ensure that at least 1 applicant is selected from each of the 4 census regions of the country; and

"(D) otherwise best carry out the purposes of this section.

"(5) FUNDING OF PROGRAM.—From amounts made available in separate appropriation Acts, the Administrator shall provide to each grant recipient the financial and technical assistance and other incentives that are necessary and appropriate to carry out this section.

"(6) COORDINATION OF EFFORT.—In order to carry out activities that are in the best interests of abused and neglected children, a grant recipient shall consult with other grant recipients on a regular basis to exchange ideas, share information, and review children's advocacy program activities.

"(d) REVIEW.—

"(1) EVALUATION OF REGIONAL CHILDREN'S ADVOCACY PROGRAM ACTIVITIES.—The Administrator, in coordination with the Director, shall regularly monitor and evaluate the activities of grant recipients and shall determine whether each grant recipient has complied with the original proposal and any modifications.

"(2) ANNUAL REPORT.—A grant recipient shall provide an annual report to the Administrator and the Director that—

"(A) describes the progress made in satisfying the purpose of the children's advocacy program; and

"(B) states whether changes are needed and are being made to carry out the purpose of the children's advocacy program.

"(3) DISCONTINUATION OF FUNDING.—

"(A) FAILURE TO IMPLEMENT PROGRAM ACTIVITIES.—If a grant recipient under this section substantially fails in the implementation of the program activities, the Administrator shall not discontinue funding until reasonable notice and an opportunity for reconsideration is given.

"(B) SOLICITATION OF NEW PROPOSALS.—Upon discontinuation of funding of a grant recipient under this section, the Administrator shall solicit new proposals in accordance with subsection (c).

"(e) CHILDREN'S ADVOCACY ADVISORY BOARD.—

"(1) ESTABLISHMENT OF BOARD.—

"(A) IN GENERAL.—Not later than 120 days after the date of enactment of this section, the Administrator and the Director, after consulting with representatives of community agencies that respond to child abuse cases, shall establish a children's advocacy advisory board to provide guidance and oversight in implementing the selection criteria and operation of the regional children's advocacy program.

"(B) MEMBERSHIP.—(i) The board—

"(I) shall be composed of 12 members who are selected by the Administrator, in coordination with the Director, a majority of whom shall be individuals experienced in the child abuse investigation, prosecution, prevention, and intervention systems;

"(II) shall include at least 1 member from each of the 4 census regions; and

"(III) shall have members appointed for a term not to exceed 3 years.

"(ii) Members of the Board may be reappointed for successive terms.

"(2) REVIEW AND RECOMMENDATIONS.—

"(A) OBJECTIVES.—Not later than 180 days after the date of enactment of this section and annually thereafter, the Board shall develop and submit to the Administrator and the Director objectives for the implementation of the children's advocacy program activities described in subsection (b).

"(B) REVIEW.—The board shall annually—

"(i) review the solicitation and selection of children's advocacy program proposals and make recommendations concerning how each such activity can be altered so as to better achieve the purposes of this section; and

"(ii) review the program activities and management plan of each grant recipient and report its findings and recommendations to the Administrator and the Director.

"(3) RULES AND REGULATIONS.—The Board shall promulgate such rules and regulations as it deems necessary to carry out its duties under this section.

"(f) REPORTING.—The Attorney General and the Secretary of Health and Human Services shall submit to Congress, by March 1 of each year, a detailed review of the progress of the regional children's advocacy program activities.".

(c) LOCAL CHILDREN'S ADVOCACY PROGRAM.—Section 214 of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13002), as redesignated by subsection (b)(1), is amended—

(1) by amending the heading to read as follows:

"SEC. 214. LOCAL CHILDREN'S ADVOCACY CENTERS.";

(2) in subsection (a) by striking "The Director of the Office of Victims of Crime (hereinafter in this subtitle referred to as the 'Director'), in consultation with officials of the Department of Health and Human Services," and inserting "The Administrator, in coordination with the Director and with the Director of the Office of Victims of Crime,";

(3) in subsection (b)(2)(B) by inserting "and nonoffending family members" after "neglect"; and

(4) by adding at the end the following new subsection:

"(d) CONSULTATION WITH REGIONAL CHILDREN'S ADVOCACY CENTERS.—A grant recipient under this section shall consult from time to time with regional children's advocacy centers in its census region that are grant recipients under section 213.".

(d) SPECIALIZED TECHNICAL ASSISTANCE AND TRAINING PROGRAMS.—Section 214A of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13003), as redesignated by subsection (b)(1), is amended in subsections (a) and (c)(1) by striking "Director" and inserting "Administrator".

(e) AUTHORIZATION OF APPROPRIATIONS.—Section 214B of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13004), as redesignated by subsection (b)(1), is amended to read as follows:

"SEC. 214B. AUTHORIZATION OF APPROPRIATIONS.

"(a) SECTIONS 213 AND 214.—There are authorized to be appropriated to carry out sections 213 and 214—

"(1) $15,000,000 for fiscal year 1993; and

"(2) such sums as are necessary for fiscal years 1994, 1995, and 1996.

"(b) SECTION 214A.—There are authorized to be appropriated to carry out section 214A—

"(1) $5,000,000 for fiscal year 1993; and

"(2) such sums as are necessary for fiscal years 1994, 1995, and 1996.".

SEC. 7. HEAD START TRAINING IMPROVEMENT.

(a) PURPOSE.—It is the purpose of this section—

(1) to promote continued access for Head Start and other early childhood staff to the Child Development Associate credential;

(2) to increase the ability of Head Start staff to address the problems facing Head Start families;

(3) to create a systematic approach to training, thereby improving the quality of Head Start instruction and using training funds more efficiently and effectively; and

(4) to allow the use of training funds for creative approaches to learning for children.

(b) TECHNICAL ASSISTANCE, TRAINING, AND STAFF QUALIFICATIONS.—Section 648 of the Head Start Act (42 U.S.C. 9843) is amended—

(1) in subsection (a) by striking "(2) training" and all that follows through the end of the subsection and inserting "(2) training for specialized or other personnel needed in connection with Head Start programs, including funds from programs authorized under this subchapter to support an organization to administer a centralized child development and national assessment program leading to recognized credentials for personnel working in early childhood development and child care programs, training for personnel providing services to non-English language background children, training for personnel in helping children cope with community violence, and resource access projects for personnel working with disabled children."; and

(2) by adding at the end the following new subsections:

"(c) The Secretary shall—

"(1) develop a systematic approach to training Head Start personnel, including—

"(A) specific goals and objectives for program improvement and continuing professional development;

"(B) a process for continuing input from the Head Start community; and

"(C) a strategy for delivering training and technical assistance; and

"(2) report on the approach developed under paragraph (1) to the Committee on Labor and Human Resources of the Senate and the Committee on Education and Labor of the House of Representatives.

"(d) The Secretary may provide, either directly or through grants to public or private nonprofit entities, training for Head Start personnel in the use of the performing and visual arts and interactive programs using electronic media to enhance the learning experience of Head Start children.".

SEC. 8. AMENDMENTS TO CHILD CARE AND DEVELOPMENT BLOCK GRANT ACT.

(a) SPENDING OF FUNDS BY STATES.—Section 658J(c) of the Child Care and Development Block Grant Act Amendments of 1992 (42 U.S.C. 9858h(c)) is amended—

(1) by striking "obligated" and inserting "expended"; and

(2) by striking "succeeding fiscal year" and inserting "succeeding 3 fiscal years".

(b) PAYMENTS EXCLUDED FROM INCOME.—The Child Care and Development Block Grant Act Amendments of 1992 (42 U.S.C. 9858a et seq.) is amended by adding at the end the following new section:

"SEC. 658S. MISCELLANEOUS PROVISIONS.

"Notwithstanding any other law, the value of any child care provided or arranged (or any amount received as payment for such care or reimbursement for costs incurred for such care) under this subchapter shall not be treated as income for purposes of any other Federal or Federally-assisted program that bases eligibility, or the amount of benefits, on need.".

(c) TECHNICAL AMENDMENTS.—

(1) CORRECTION IN CITATION.—Section 5082 of the Omnibus Budget Reconciliation Act of 1990 (Public Law 101-508) is amended by striking "title IV" and inserting "title VI".

(2) DEFINITIONS.—Section 658P of the Child Care and Development Block Grant Act Amendments of 1992 (42 U.S.C. 9858n) is amended—

(A) in paragraph (7), by striking "4(b)" and inserting "4(e)"; and

(B) in paragraph (14), by striking "4(c)" and inserting "4(l)".

(d) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall take effect on the date of enactment of this Act.

(2) APPLICATION.—The amendments made by this section shall not apply with respect to fiscal years beginning before October 1, 1992.

SEC. 9. AMENDMENT TO THE CHILD ABUSE PREVENTION AND TREATMENT ACT.

(a) FINDINGS.—The Congress finds that—

(1) circumstances surrounding the death of a young boy named Adam Mann in New York City prompted a shocking documentary focusing on the inability of child protection services to protect suffering children;

(2) the documentary described in paragraph (1) showed the serious need for systemic changes in our child welfare protection system;

(3) thorough, coordinated, and comprehensive investigation will, it is hoped, lead to the prevention of abuse, neglect, or death in the future;

(4) an undue burden is placed on investigation due to strict Federal and State laws and regulations regarding confidentiality;

(5) while the Congress recognizes the importance of maintaining the confidentiality of records pertaining to child abuse, neglect, and death, often the purpose of confidentiality laws and regulations are defeated when they have the effect of protecting those responsible;

(6) comprehensive and coordinated interagency communication needs to be established, with adequate provisions to protect against the public disclosure of any detrimental information need to be established;

(7) Certain States, including Georgia, North Carolina, California, Missouri, Arizona, Minnesota, Oklahoma, and Oregon, have taken steps to establish by statute interagency, multidisciplinary fatality review teams to fully investigate incidents of death believed to be caused by child abuse or neglect;

(8) teams such as those described in paragraph (7) should be established in every State, and their scope of review should be expanded to include egregious incidents of child abuse and neglect before the child in question dies; and

(9) teams such as those described in paragraph (7) will increase the accountability of child protection services.

(b) MODIFICATION OF CONFIDENTIALITY PROVISION REGARDING STATE GRANTS UNDER CHILD ABUSE PREVENTION AND TREATMENT ACT.—Section 107(b)(4) of the Child Abuse Prevention and Treatment Act (42 U.S.C. 5106A(b)(4)) is amended to read as follows:

"(4) provide for—

"(A) methods to preserve the confidentiality of all records in order to protect the rights of the child and of the child's parents or guardians, including methods to ensure that disclosure (and redisclosure) of information concerning child abuse or neglect involving specific individuals is made only to persons or entities that the State determines have a need for such information directly related to purposes of this Act; and

"(B) requirements for the prompt disclosure of all relevant information to any Federal, State, or local governmental entity, or any agent of such entity, with a need for such information in order to carry out its responsibilities under law to protect children from abuse and neglect;".

(c) SENSE OF THE CONGRESS.—It is the sense of the Congress that each State should review and reform of the system in the State for protecting against child abuse and neglect, including implementing formal interagency, multidisciplinary teams—

(1) to review—

(A) all cases of child death in which the child was previously known by the State to have been abused or neglected; and

(B) incidents of child abuse before a child dies when there is evidence of negligent handling by the State,

in order to hold the State accountable; and

(2) to make recommendations regarding the outcomes of individual cases and systemic changes in the State's procedures for protecting against child abuse and neglect.

Mr. KOHL. Mr. President, when they write the epitaph for the 102d Congress, they will say that too many good proposals were killed by partisan politics and gridlock. That is why I am so gratified that today the Senate will pass—and soon President Bush will sign—the reauthorization of the Juvenile Justice and Delinquency Prevention Act of 1974. The compromise bill—a merger of S. 2792 and H.R. 4194—is a truly bipartisan measure.

Mr. President, the American juvenile justice system is in crisis. Even by conservative estimates, some 700,000 juveniles enter the justice system a year. It costs close to $2 billion annually to confine many of these young people in facilities that fail them, their families, and communities. Given dramatic increases in arrests of adolescents for murder, assault, and weapon use nationwide, this legislation comes none too soon.

Our bill reauthorizes and strengthens the Juvenile Justice Act by focusing on six key areas. First, the bill expands the existing State Formula Grant Program, providing much needed funding to deter delinquency and violence. Second, the bill sets up a new State challenge program composed of 10 goals. To encourage States to pursue these goals, the bill authorizes a 10-percent increase in formula grant funds for every goal that a State achieves. Such challenge goals include setting up alternatives to incarceration for nonviolent teens, providing appropriate services for girls in the system, and establishing small, secure confinement programs for violent teens.

Third, the bill sets up a new title on delinquency prevention, which will help communities keep youth from getting into trouble in the first place. According to the National Association of Counties, fewer than half the States direct any formula grant funds toward community-based delinquency prevention programs. For example, Milwaukee County in my State of Wisconsin is unable to spend more than 2 percent of its entire juvenile justice budget on prevention. Under this new provision, counties like Milwaukee will be better able to focus on front-end investment strategies.

Fourth, the bill strengthens the juvenile gang prevention and intervention provisions, providing incentives for local schools and community coalitions to get involved. For this language, we are indebted to several colleagues, including Senator SIMON and Representatives MARTINEZ and KILDEE. Elementary schools are to be a primary target for these gang prevention efforts, as specified in Senator SIMON's original proposal.

Fifth, the bill expands existing programs to help provide justice for abused and neglected children—a critical component of delinquency prevention. Within this area, a provision authored by Senator NICKLES, Representative CRAMER, and Chairman BIDEN provided funding for child advocacy centers. Representative MOLINARI added a proposal to ensure that child abuse investigations will not be impeded by overly prescriptive confidentiality regulations. And I added language to establish treatment grants for juveniles in the justice system who have suffered previous physical or sexual abuse.

The sixth priority area strengthens title III of JJDPA, the Runaway and Homeless Youth Act. At least one-half million young people run away from home every year—to escape family violence, sexual abuse, or parental alcohol and drug problems. Our bill expands existing basic grants for runaway centers to include street-based crisis intervention and home-based services. Given the risks of sexual exploitation and sexually transmitted diseases facing the majority of runaways, street-based services are essential. And home-based services will help reunite more runaways with their families. For young people who cannot return home yet need help to achieve full independence, the legislation reauthorizes the transitional living program.

Mr. President, our bill is strengthened by a number of additional provisions. Senator GRAHAM has added a provision calling for a White House conference on juvenile justice. Senator KASSEBAUM has proposed a new juvenile boot camp program. And Senator LAUTENBERG's provision authorizes mentoring programs as a further means of preventing delinquency and youth gangs. This provision was enhanced by language offered by Representative GOODLING, who has had a longstanding interest in mentoring and education. And Senator INOUYE added a provision authorizing the consortium on children, families, and the law.

Senator DODD added two technical amendments to the Child Care and Development Block Grant Act and one technical amendment to the Head Start Program. Experts like David Hamburg at Carnegie and Ed Zigler at Yale University tell us children who participate in such quality, early childhood programs are much less likely to engage in delinquent behavior later on. So such amendments are a welcome addition to this juvenile justice bill.

Mr. President, as I said before, the legislation before us, H.R. 5194, is the result of bipartisan negotiations between the Senate and the House of Representatives. Several Members deserve special praise. So in closing, I wish to commend the distinguished ranking minority member of the Juvenile Justice Subcommittee, Senator BROWN, for working so closely with me to hold hearings, craft the bill, and get it enacted. I also wish to thank the distinguished chair and ranking minority member of the Judiciary Committee, Senators BIDEN and THURMOND, for their help and encouragement. And I want to congratulate Chairman MARTINEZ of the House Human Resources Subcommittee and its ranking minority member, Congressman FAWELL—as well as Chairman FORD and ranking minority member, Mr. GOODLING of the full Education and Labor Committee—for their important contributions.

All the staff who worked so long and so hard with mine on this reauthorization also deserve a great deal of thanks. They include Tracey Carnes, Manus Cooney, Kevin Howard, Mike Bertman, Kimberly Barnes O'Connor, Bruce King, Adam Eisgrau, and Stacey Williams in the Senate. And they include Roger McClellan, Terry Deschler, Lynn Selmser, Lee Cowan, Rebecca Franck, Jeff McFarland, and Wendel Chambliss in the House of Representatives. I commend them for their diligence and commitment.

This Nation's problems with youth crime and violence did not develop overnight. Although no legislation can provide a magic bullet for these problems, H.R. 5194 provides the necessary Federal, State, and local incentives for some significant steps forward. I thank my colleagues for enacting this legislation and the President in advance for signing it.

• Mr. LAUTENBERG. Mr. President, I want to bring to my colleagues' attention a provision in this conference report that is based on legislation I introduced, the Juvenile Mentoring Program Act [JUMP], that will encourage the development of mentoring programs that link children in high crime areas with law enforcement officers and other responsible adults. I am very pleased that my proposal has been incorporated in this legislation, and I want to express my sincere thanks to Senator KOHL and his staff, for their support and assistance in this effort.

Mr. President, JUMP is a competitive grant program under which local educational agencies and nonprofit groups may apply for funding to implement juvenile mentoring programs. Funds may be used to hire mentoring coordinators and support staff; to recruit, screen, and train adult mentors; and to reimburse mentors for reasonable incidental expenditures directly associated with mentoring.

JUMP will be administered by the Office of Juvenile Justice and Delinquency Prevention, which will select grantees based on the quality of their proposed mentoring plans and their ability to implement them.

Mr. President, too many young people today are growing up in environments bereft of hope. They live surrounded by violence and drug dealers. They attend second-rate schools that do not prepare them to function in our economy. And they have few responsible adults to take care of them, to lead them in the right direction.

Clearly, Mr. President, there is no magic answer to the problems of these youth. We need systemic improvements in our schools, more jobs, and better job training. But, Mr. President, we also have to work on a smaller scale—one by one, child by child. That is where mentoring can make an enormous difference.

Mr. President, I am personally involved in a program known as I Have a Dream. The program puts responsible adults together with economically disadvantaged children, to give them the guidance and assistance they need, but so often lack. I also have personally been involved with the Drug Abuse Resistance Education Program [DARE], which brings police officers into schools to talk with children about drug abuse. That program has helped children see the police in a new and more positive light, while bringing the police themselves in closer touch with the community's young people.

Unfortunately, Mr. President, too many children see the police as the enemy, and the resulting tensions can have horrible consequences, as we have seen recently. By involving mentors from the law enforcement community, JUMP will begin to bridge the gap between many children in high crime areas and the police. The resulting improvement in police-community relations will be an important benefit of the program.

Mr. President, my own experience, and the experience of many existing programs, clearly demonstrates the promise of mentoring. When children and adults establish solid, caring relationships, young people often are set on a different and better path. Yet, for all the good work that's already being done, too few children benefit from mentoring. We can and ought to do more. That's what JUMP is all about.

The program will provide children with trained mentors who know and care about them as individuals, who accept them, and who are there to help them when needed. Mentors who can point them away from crime, away from drugs, and toward a future worth working for.

Again, Mr. President, I want to thank Senator KOHL and his staff for their help with this bill. Also, I want to express my appreciation to the many child advocates and others who have helped in the development of this legislation. In particular, I would like to thank the Children's Defense Fund, Big Brothers/Big Sisters of America, the National Collaboration for Youth, the One-to-One Partnership, and the National Association of Police Athletic Leagues, for their advice and their endorsement of the bill. The Boys and Girls Clubs of America and the Amelior Foundation also provided valuable comments. I look forward to working with all these organizations to ensure that the program is funded next year.•

Mr. SIMON. Mr. President, I would like to extend my appreciation to my esteemed colleague and friend from Wisconsin for his efforts as chairman of the Juvenile Justice Subcommittee to focus attention on our youth at risk, and to reauthorize the Juvenile Justice Act of 1974.

The Senator from Wisconsin has done a terrific job with the reauthorization of this legislation. With his assistance, we have been able to include hate crimes provisions which would authorize funding for research projects, training assistance and hate crime prevention programs, and which would also call for a study on juvenile hate crimes. I am particularly grateful for his help in including legislation that I originally introduced to establish an Early Gang Prevention Center which would specifically target children at the elementary level who are seriously thinking of gang membership.

Mr. KOHL. I thank the Senator from Illinois for his kind words and I am glad that we could work together to include these provisions.

Mr. SIMON. I understand, however, that in the conference committee, my original gang prevention provision was expanded to address a much wider array of issues, which I fear may take away the emphasis from targeting at-risk elementary school children. While I certainly recognize the extent of gang violence in America and the need for programs to address all aspects of this problem, I do still hope that the initial intent of my gang prevention bill will be remembered.

Mr. KOHL. The conference agreement does include additional language from the House gang prevention provisions, but I want to assure the Senator from Illinois that all of the original components of his bill are included in the conference agreement. It is obvious that there are many ways that we can address the gang problem, but I agree that an important step in solving this problem is to concentrate on prevention and targeting those young people who are at risk of becoming a gang member.

I am hopeful that the administrator will focus on prevention programs for elementary school children.

• Mr. LAUTENBERG. Mr. President, I would like to engage in a brief colloquy with the distinguished chairman of the Juvenile Justice Subcommittee, Senator KOHL.

Mr. President, this legislation would establish a new competitive grant program to promote the implementation of mentoring programs for at-risk youth. This new program, included in title II, part G, is based on legislation I introduced, the Juvenile Mentoring Program Act [JUMP].

I would like to clarify with the chairman of the subcommittee the entities that are eligible to apply for and receive such grants under that part.

Would the Senator confirm that nonprofit groups are eligible to directly apply for and receive these grants?•

• Mr. KOHL. Mr. President, I want to confirm that it was the intention of the conferees to allow local educational agencies, nonprofit groups, and any of the entities listed in section 288B of part G, to directly apply for and receive grants under this part. Local educational agencies, however, must be in partnership with at least one other eligible entity. Similarly, any eligible entity other than a local educational agency must be in partnership with a local educational agency.

So, for example, if a local nonprofit organization, such as Big Brother/Big Sister, sought funds, it would be eligible to apply for and receive a grant. However, the organization would have to work with a local educational agency in developing the proposal.•

• Mr. LAUTENBERG. I thank the Senator.

Mr. President, let me again thank Senator KOHL and his excellent staff for their extraordinary cooperation and assistance with this legislation. I want to specially recognize Marsha Renwanz of Senator KOHL's staff, who really has gone the extra mile to make this program a reality. I appreciate it, and know that this legislation would not have progressed to this point without her help.•

Mr. THURMOND. Mr. President, I wish to examine the Coordinating Council provisions contained in this juvenile justice bill. At present, the Attorney General, the Secretary of Health and Human Services, the Secretaries of Labor, Education, and Housing and Urban Development, and the directors of a wide array of other Federal agencies and offices all serve on this Coordinating Council. First authorized by the Juvenile Justice and Delinquency Prevention Act of 1974, the Council is directed to coordinate all Federal programs and efforts. The administration is concerned about an amendment added by the House, which would change the composition of this council to include nine private citizens—three of whom are to be nominated by the Senate, three by the House of Representatives, and three by the President. Such congressional involvement in the nominating process has led the Justice Department to express concern that this component may be unconstitutional.

Mr. KOHL. Because the Coordinating Council has neither rulemaking nor enforcement powers, it is my understanding that the House proposal is likely to pass constitutional muster. Existing law does state that the function of the Council is to coordinate all Federal juvenile justice programs. The act further states, however, that this coordination is to be accomplished by means of policy and program recommendations and review. For example, the Council is charged with making annual recommendations to the President and Congress on ways to improve Federal practices and facilities for holding juveniles in custody and the coordination of all Federal juvenile justice programs and policies. The Council is further entrusted with reviewing the degree to which all such programs and policies are consistent with the mandates of the act. And last but not least, the council is authorized to review joint funding proposals. In other words, the Council is directed to serve solely in an advisory capacity.

Nevertheless, I assure my distinguished colleague from South Carolina that in the unlikely event this provision is declared unconstitutional, I will work closely with him to change the provisions accordingly.

Mr. THURMOND. I thank my colleague for this clarification.

Mr. BIDEN. Mr. President, today the Senate has passed H.R. 5194 the juvenile justice reauthorization bill. I am pleased that Senate has acted to reauthorize this vital legislation before the close of the 102d Congress. The Juvenile Justice Office is the most important Federal office addressing the challenge of children in our juvenile justice system. Its reauthorization is imperative.

Also, I would like to take this opportunity to commend Senator KOHL for his outstanding efforts not only to reauthorize the Juvenile Justice Act, but improve it, as well.

Today, more and more children are dropping out of school, becoming involved with gangs, committing crimes, and entering the criminal justice system—amounting to an urgent threat to the future of the Nation.

Prevention is the most effective tool at our disposal to fight the pressing problem of juvenile delinquency—a problem made so much more severe by the epidemic of drug abuse by our children. However, for years the administration has been unwilling to utilize prevention tools to combat juvenile crime and delinquency. In fact, the President's fiscal year 1993 budget request for State and local law enforcement cuts juvenile justice programs from $68 million to $7.5 million—a 90-percent cut.

Despite this demonstrated ambivalence toward at-risk youth, H.R. 5194 is a bipartisan package that takes an innovative approach toward delinquency prevention. At the same time, this legislation continues to achieve the original jail removal mandates of the act—mandates that all must concede have not been achieved.

Through new and creative programs like the State challenge grants and incentive grants that will enable local governments to invest in prevention programs, this legislation attacks juvenile delinquency head on. These programs focus on the appropriate Federal interest in juvenile justice—providing the necessary resources, leadership, and coordination in developing and implementing effective means of preventing and reducing juvenile crime and delinquency.

Mr. President, the Juvenile Justice and Delinquency Prevention Act forms the vital link between the Federal Government and the State and local officials on the front lines of the national effort to fight juvenile crime and prevent juvenile delinquency. I am glad that the Senate has recognized the urgent need to strengthen and improve these programs.

Mr. FORD. Mr. President, on behalf of Senator KOHL, I move that the Senate concur in the amendment of the House.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ASIAN PACIFIC AMERICAN HERITAGE MONTH

EXTENDING FOR 2 YEARS AUTHORIZATIONS FOR CERTAIN PROGRAMS UNDER TITLE I OF THE OMNIBUS CRIME CONTROL AND SAFE STREETS ACT

AMENDING TITLE I OF THE OMNIBUS CRIME CONTROL AND SAFE STREETS ACT OF 1968

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration, en bloc, of the following bills that have been received from the House: H.R. 5572, H.R. 5716 and H.R. 5862; that the bills be deemed read for the third time, passed, the motion to reconsider be laid upon the table; that any statements with respect to the passage of these bills appear at the appropriate place in the RECORD.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bills (H.R. 5572, H.R. 5716 and H.R. 5862) were deemed read the third time and passed.

STATE JUSTICE INSTITUTE

AMENDING STATE JUSTICE INSTITUTE ACT OF 1984

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration, en bloc, of the following bills that have been received from the House: H.R. 1252 and H.R. 1253; that the bills be deemed read the third time, passed, and the motion to reconsider be laid upon the table; that any statements with respect to passage of these bills appear at the appropriate place in the RECORD.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

So the bills (H.R. 1252 and H.R. 1253) were deemed read the third time and passed.

Mr. HATCH. Mr. President, I am pleased to rise in strong support of H.R. 1252, and H.R. 1253, two bills introduced in the House by Representative CONNIE MORELLA and recently moved through the Subcommittee on Intellectual Property and the Administration of Justice through the efforts of Representative BILL HUGHES, the chairman of that House subcommittee. These are excellent pieces of legislation that answer important needs of women involved in the criminal justice system, the subject of H.R. 1252, and of women involved in child custody litigation, the subject of H.R. 1253. Specifically, these bills address fundamental issues that battered women face every day as they go to court to fight for custody of their children or to fight for equal justice in criminal cases.

As Congresswoman MORELLA vividly stated on the House floor last Saturday, "For many American women, real terror is not walking alone down a city street late at night. Real terror is being 'home alone' with their loved ones." I join Congresswoman MORELLA in underscoring the need for our judicial system to recognize this unpleasant, but nonetheless true, fact.

While there are a number of significant pieces of legislation now pending in the Senate dealing generically with the many problems related to violence against women—I specifically note legislation that has been championed by Chairman BIDEN and by Senator DOLE—these two bills, limited though they are, are nonetheless quite significant, and I am very glad that we are passing them today rather than waiting until such time as a more comprehensive package on violence against women could be enacted.

The bills we consider today ensure that battered women involved in the judicial process are treated properly, particularly with respect to preserving their full right to offer proof of their history of abuse. H.R. 1252, is the Battered Women's Testimony Act. It authorizes the State Justice Institute to study this issue and to disseminate information regarding the admissibility and proper uses of expert testimony relating to battered women. H.R. 1253 is the Judicial Training Act. It provides funds to the State Justice Institute to develop programs for judges and other court personnel about domestic violence, especially its impact on children, and to review child custody decisions where evidence of spousal abuse has been presented.

In setting the ground rules for the admission of expert testimony, the Federal rules of evidence, as well as most State codes, properly balance the many conflicting factors that a court must consider. However, this balancing of factors is necessarily subjective and the discretion properly placed in the court's hands can, and is, sometimes abused. H.R. 1252 will more specifically focus the court's attention on the potential value to be derived from the use of expert testimony in criminal trials and will make sure that no judge doubts the necessity, in a proper case, for the use of such evidence.

Although H.R. 1252 strongly endorses the use of expert testimony in appropriate situations, I should add that I am not unmindful of the ways in which expert testimony can be misused. Nor am I unmindful of the more limited scope for the use of experts in criminal trials. We are all familiar with the so-called battle of the experts that too often characterizes civil trials, particularly in the product liability area. It is unfortunate that experts sometimes get in the way of finding the truth rather than assist in that search. But I am confident that the State Justice Institute will be mindful of these problems and will seek to find ways in which expert testimony can be effectively used to help and not to hinder juries in seeking the truth.

I strongly support the bills we pass today, Mr. President. I should, however, note that similar legislation recently introduced by myself on the Senate side, S. 3317 and S. 3318, dealt with these issues in slightly different language. I view those differences as points of clarification, not divergences in approach. For example, my bill, S. 3318, parallels H.R. 1252, except that it specifically recognizes that the use of expert testimony to be studied by the State Justice Institute should include the use of experts on behalf of the prosecution as well as on behalf of the defense.

While the language of H.R. 1252 might be read to mean that it is concerned only with the problems that battered women face when charged with crimes of violence, I believe that it also covers the problems of battered women, such as rape victims, who may also need assistance in the form of expert testimony in a criminal trial. The problems are equally great for battered women who have difficulty testifying as the prosecuting witness in rape and abuse cases, and there may be an equally important role for experts to play in informing juries about the unique difficulties those women sometimes have in explaining why their pattern of conduct may not have conformed to what juries would perhaps be conditioned to expect.

Also, it is important when expert witnesses are produced by the defense, that the prosecution have an equal opportunity to produce experts that may counter or further explain the testimony of the defense expert. This result is implicit in the bill language and would be the natural inference that the State Justice Institute would draw. It is only fair that when one side is permitted to rely on an expert the other side must be allowed to counter that evidence with expert testimony of its own.

I referred earlier to the major pieces of legislation dealing with violence against women that have been studied by the Senate in this Congress. Before leaving this subject today, I would like to publicly salute Senator BIDEN for his recent press conference drawing attention to this problem and for his announcement that passage of the Violence Against Women Act will be a cornerstone of the work of the Judiciary Committee in the next Congress. I very much look forward to working with him to see that the needs of millions of battered women affected by this legislation will become reality early in the next Congress.

Mr. FORD. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

THE WORK OF CONGRESS

Mr. BYRD. Mr. President, I overheard the distinguished Senator from Wyoming, Mr. SIMPSON, and the distinguished Senator from Kentucky, Mr. FORD, talking about the process here whereby many people, Members, staff persons, and otherwise, spend numerous hours on the work of the people, perhaps a year, maybe work going back to the very first session, and then it all comes finally to a close in the last minutes of a session.

As Senator SIMPSON pointed out, the work of the legislative branch that is done efficiently and well appears to be, and is in many ways, a rather dry process. It does not make the headlines, the process itself does not, and the media do not dwell upon the hours or days or, in some instances, the years of labor that go into bringing a piece of legislation to its final fruition.

The media and a good many people even in this body pay little attention to the process. Their eyes glaze over when there is talk of the process.

Mr. President, it is very fashionable these days, and as a matter of fact it has been fashionable over the years, to lampoon a Congress, criticize the House and Senate for their work or for the delays, and fault is easily found with the people's branch, the House and the Senate. Some of it is justified. There is no question but that we are entitled to some criticism—constructive, as it should be.

But in the main, Mr. President, I believe that the people, as a whole, are really not aware of the importance of the Congress to representative democracy, and they are easily misled by the critics, the critics on the inside and the critics on the outside.

John Heywood said that, "It is a foule bird that fouleth his owne nest," and we are treated often to the fouling of the nest by Members of this body. Criticism, of course, comes easy for those who want to play to the galleries, appeal to the masses, and bring into critical light the work of the Congress and the elected Members of the House and the Senate.

Most Members of the House and Senate are hardworking, they are honest, and they contribute a great deal to the progress of the country.

Congress has always been the butt of cartoonists, the editorial critics, the columnists who lampoon the people's branch. Congress is a moving target. It is a kind of faceless entity, and it is easy to criticize.

It reminds me of Plutarch's reference to the plebeians of Rome, who seceded from the city. Plutarch speaks about this, particularly in his "Life of Coriolanus." Plutarch does not dwell on it at length, but he refers to the time when the plebeians seceded from the city and went to the Holy Mount and separated themselves from the Senate and the patricians.

Other historians refer to this event. I particularly like the reference to it by Cassius Dio Cocceianus, the Bithynian historian, writing about the history of Rome. Cocceianus lived, circa, 155 to 240 A.D. He writes about this situation in which the plebeians separated themselves from the city.

The Roman Senate was apprehensive as to what might be the outcome. So, the Senate chose Menenius Agrippa, one of the more moderate and popular members of the Senate, to reason with the secessionists. Therefore, he entreated them to reconsider their secession.

Menenius Agrippa told the fable in which the members of the body were critical of the belly. The eyes said: We provide light for the hands to work, and the feet to walk. The tongue and the lips said: Through us the counsels of the heart are made known. And the ears said: Through us the words of others are conveyed to the mind. The hands said: We do the work that stores up the wealth. And the feet said: We carry the entire body everywhere it goes, walking, standing, and working, and we grow tired. And they all complained in a chorus about the belly, saying that while the food and sustenance go to the belly, the belly does not labor. The belly receives all the benefit that flows from the work of the other members of the body, the other members labor and grow tired while the belly languishes.

They, therefore, voted to stop supplying the belly with food. They voted that the hands no longer convey food to the mouth, and the mouth no longer convey food to the belly.

But after a little while, the various components of the body began to grow tired and to atrophy until the body almost collapsed. Whereupon, Plutarch tells us, and so does Cassius Dio Cocceianus, that the members of the body began to realize that it was, after all, the work of the belly in its digestion of the food that made it possible then for energy to flow therefrom and to be conveyed to the hands, and to the feet, and to the eyes, and to the ears, and to the lips, and to the tongue, and so on. The other members of the body came to their senses when they understood that the much-criticized belly was that organ from which all of their blessings flowed.

And Plutarch tells us that those people from the city who had seceded and gone to the Holy Mount came to the conclusion, after hearing Menenius Agrippa's fable of the belly, that, after all, the much-criticized Senate, was, in the final analysis, their salvation, and that their blessings, indeed, flowed from the counsels, the debates, and the actions of the Senate.

In my judgment, Agrippa's fable could well be applied to the American House and Senate. It is easy to criticize, as I have indicated, and these two bodies are the butts of criticism, always have been, and people should take with a grain of salt many of the criticisms that are directed against the Congress.

Mr. President, Franklin D. Roosevelt said, "If we were to eliminate the Congress, we would automatically cease to be a Republic." That was a sound statement. I also believe that people should stop and think when the critics of the Congress are attempting to light the fires of opprobrium, calumny, and criticism under the Congress.

People should remember that it is the Congress that makes this a Republic. I would say to the veterans, when they hear the critics, they would do well to remember that all of the veterans programs from which they benefit are enacted by the Congress. The senior citizens of the country would do well to pause and reflect that all of the programs which benefit the senior citizens are enacted by the Congress.

Those who are interested in the parks and the forests, the lakes and the rivers, the harbors of the Nation, would do well amidst the clouds of criticism that sweep over the land, especially in a campaign year, to pause and reflect upon the fact that the authorizing measures, the appropriations for these are made by the Congress. The vilified Congress passes the legislation that benefits every person in the land—man, woman, boy, and girl.

Those who are interested in education, those who are interested in the environment, those who are interested in law enforcement, those who are interested in the war on crime, the war on drugs, they should stop and think that, whatever programs are applicable, have been enacted by the Congress. The highly criticized, the greatly vilified, the overly castigated House and Senate, they make all of these programs possible.

The President has made it his campaign to bash the Congress. I regret that the President has done that.

I regret it when I hear Members of this body wrongly criticize the Congress of which they are a part. I say as the Master did: "Lord, forgive them, they know not what they do."

THE APPROPRIATIONS COMMITTEE

Mr. BYRD. Mr. President, with reference to the Appropriations Committee, Congress has now completed action and the President has signed into law all 13 fiscal year 1993 appropriations bills.

This has been a very difficult year for the Appropriations Committee. The committee's fiscal year 1993 allocation for domestic discretionary spending was not sufficient to cover fiscal year 1992 spending levels plus inflation. Therefore, real cuts had to be made to critical domestic programs in nearly every subcommittee.

I have here a table which sets forth, by subcommittee, total fiscal year 1993 appropriations as contained in the conference agreements on all 13 fiscal year 1993 appropriations bills.

This table also provides a breakout between mandatory and discretionary appropriations for each of the 13 bills, as well as a comparison of the 1993 appropriations versus 1992 enacted levels, and versus the President's 1993 budget requests.

In total, including both mandatory and discretionary amounts, fiscal year 1993 appropriations for all 13 appropriation bills equal $761.5 billion. This is $23.7 billion above the fiscal year 1992 enacted levels, and it is $13.2 billion below the President's requests. However, as Senators are aware, the Appropriations Committee has no control over mandatory appropriations. The committee is simply required by the authorizing statutes to appropriate these mandatory amounts to cover the costs of entitlement programs.

Discretionary appropriations, on the other hand, are under the control of the Appropriations Committee, and they cover defense, domestic discretionary, and foreign aid programs. For these programs, the total of all 13 appropriations acts for fiscal year 1993 will equal $502.1 billion, as viewers will see on the chart to my left. This total is $10.1 billion below fiscal year 1992 discretionary appropriations and $8.7 billion below the President's fiscal year 1993 requests.

We have heard all year long about the so-called profligacy of the Appropriations Committee. I have heard it time and time again, ad nauseam, from Members on this floor, about the profligacy of the Appropriations Committee. We have heard it from the unthinking media, the President, from certain Senators who attempt to place the blame for the recordbreaking budget deficits of the past 4 years—the past 12 years, for that matter—on the Congress, and from those who support the line-item veto and enhanced rescissions. This year's total discretionary appropriations should answer these critics. Let me repeat—total discretionary appropriations for fiscal year 1993 equal $502.1 billion.

As shown on this chart, fiscal year 1992 discretionary appropriations totaled $512.2 billion; therefore, fiscal year 1993 appropriations are $10.1 billion less than last year, less than fiscal year 1992. The second bar on the chart shows that the President's fiscal year 1993 requests for discretionary appropriations total $510.8 billion. That is what the President asked.

The third bar, as I have indicated previously, shows the $502.1 billion enacted by Congress for the 13 fiscal year 1993 appropriations bills, which is $8.7 billion less than the President's requests.

Of these fiscal year 1993 discretionary appropriations, national defense—function 050—will total $275.8 billion in budget authority. That amount is $2.2 billion below the budget resolution. Foreign aid—function 150—appropriations total $21.3 billion, or $635 million below the budget resolution. Domestic discretionary appropriations for fiscal year 1993 total $204.9 billion, $1.2 billion less than the budget resolution allowed.

As these numbers make clear, the Appropriations Committee and the Congress, again this year, have acted responsibly in enacting appropriations which, in total, are $13.2 billion below the President's requests. This would not have been possible without the cooperation and support of Senators on both sides of the aisle. I particularly appreciate the assistance of the leadership throughout the consideration of not only the regular appropriations bills this year, but also the rescission bill, which cut fiscal year 1992 spending by $8.2 billion, and the fiscal year 1992 supplemental bill, which contained vital assistance for the victims of Hurricanes Andrew and Iniki, and Typhoon Omar. And it is with great pride that I reflect on the speed with which the Senate enacted the emergency appropriations measure.

The majority and minority leaders, without exception, did everything possible to encourage Senators to work with our subcommittee chairmen and ranking members on all of these appropriations bills, and to hold off extraneous amendments. For the support and guidance, I am deeply grateful.

I particularly am grateful to the minority leader in this respect. Most of the amendments would have come from the Republican side of the aisle. We knew about the amendments that were being written, and we knew that many of these amendments would have resulted in delay in action on appropriations bills, especially in these final days of the session.

It was the Republican leader who counseled with his colleagues on the other side of the aisle, and who used his arts of persuasion and his talents to convince his colleagues that the amendments should not be offered. His actions expedited the work of the Senate on the appropriations bills.

In several instances, there were desires on the part of Senators, particularly again on the part of Senators on the other side of the aisle, may I say, to amend the conference reports that come over from the House.

But, in most instances, those conference reports were all wrapped into one package and there were not any amendments in disagreement between the two Houses.

I congratulate the other body on this procedure, and I congratulate members of my own subcommittees for their work in the conferences which helped to make it possible for the conference reports to be taken up without amendments in disagreement between both Houses.

But there were threats to filibuster and to delay, and I think it is rather remarkable the work the minority leader did in smoothing waters and calming nerves and quieting the threats of those who might otherwise have slowed down the legislation.

Mr. President, to the members of the Appropriations Committee, I say thank you for a job well done. Election year politics complicated the process, and funds were in shorter supply than in past years. It was more difficult this year than last, more difficult last year than the previous year.

I regret the election year politics injected by the President with his veto threats. But the committee did its work and we only needed a 5-day continuing resolution, 2 of which days were weekend days—all bills passed, all appropriations bills passed and are on the President's desk.

I should say, Mr. President, being an appropriator is a thankless job in many ways. The Appropriations Committee rarely receives praise for the work that it does. Rarely do the media praise the Appropriations Committees of the Congress for a job well done.

We only hear about the alleged pork in the bills. We do not hear that this so-called pork is, in great measure, infrastructure. It is an investment in our own country and in our own people; an investment in the rivers and harbors of the country, the highways and the bridges, the airports, the water and sewer facilities in countless communities throughout the land; it is also funding for education, health services, the war on crime, the FBI, law enforcement—all these and more.

This is infrastructure, and yet the media would have people believe that this is pork. Having been in this city now for 40 years, I fully understand that the viewpoint, in the media and otherwise, is that anything that is spent beyond the beltway is pork. Nothing is said about the millions that are spent on the museums, the bridges, the highways, the Metro system, and other important infrastructure here in the city all of which is necessary, of course.

We should have these things in the Nation's Capital. But the people outside the beltway are likewise entitled to infrastructure. It is their taxes as well, their tax dollars that are spent for infrastructure inside the beltway and outside the beltway. So, we should live and let live.

To those who continue the old chant about the budget-busting ways of Congress, let me refer again to the fact that the appropriators have spent $8.7 billion less than the President requested. The President challenged us with his veto threat on appropriations bills.

Mr. President, the Appropriations Committees of the Congress have not broken the pledges that were made in the budget summit in 1990. We have kept our pledges. We have kept our part of the agreement. We have never gone over the caps, and we have consistently lived within our allocations provided by that agreement and by the budget resolutions enacted annually here.

And when the President chose to threaten to veto appropriations bills that were over this budget request, that was not a part of the agreement in my judgment. That was in violation of the agreement. The elected representatives of the people have a right to readjust the priorities as long as we stay within the caps and within our allocations. The total of the various appropriations bills when added up would have been below the President's total budget requests even before he issued his veto threat. One or two or a few of the appropriations bills might have been above the President's budget request while others were below.

The totality of all of the appropriations bills would have come under the total request of the President included in his budget. We were well within the President's total budget request before he threatened to veto. That is the important thing to remember.

But the President threatened to veto any one of the appropriations bills that came to his desk in which the total amount exceeded his budget request for that particular department. That was unfair. That was not right.

But when the President challenged us with his veto threat, I concluded that rather than subject the Nation to a prolonged political ping-pong match with the President—who was only trying to prove that he had some sort of domestic agenda—I would do everything that I could to carry out the responsibilities of the Appropriations Committee to the people of the country. As I have stated, we were already below the President's total budget request when he made that threat. Yet, I suppose he needed an issue. But the American people needed someone to take care of their business.

So, in talking with my various subcommittee chairmen on the Appropriations Committee, it was our unanimous viewpoints that we ought not to engage in a charade of sending down to the President bills that were a little over his budget request, even though the total of all those bills would be under the President's total request. He would merely veto the bills, and then bash Congress.

Rather than engage in such a demagogical game of political football, we would act like adults and bring each bill's total under the President's request for that particular Department, with the exception of the Agriculture appropriations bill, which was already sent to the President's desk and signed before he issued his veto threat.

Hence, the committee worked and cut a little more in order to avoid gridlock and to move the people's business along.

I thank the subcommittee chairmen, Mr. President. I thank the members of the Appropriations Committee in the other body. We have a very, very good working relationship with the Appropriations Committee in the other body. They are entitled to commendations, likewise.

I thank the members of the staff on the Appropriations Committee, Jim English, the staff director on the majority side, and Keith Kennedy, the staff director on the minority side. We have excellent working relationships between these two staff directors and among the various staff members on both sides of the aisle.

Once again, I call attention to the fact that the appropriations staff on the Senate side, composed of staff people representing both the majority and minority, are only 82 in number. They do the work for the entire Government insofar as Senate appropriations are concerned—for all of the Departments and agencies. All of this is done by 82 appropriations staff members. They do the work for the entire Government.

And if one looks at many of the Departments downtown, they have hundreds of people who are engaged in the budget process; and, of course, the White House is the foremost lobbyist, hands down, of any lobby in town.

We have 82 members on the staff here of the Appropriations Committee that do the entire work, all of the appropriations work, year in and year out, for the Senate.

Yet, we are treated to excoriation on the part of inside critics about bloated staffs of Congress. Well, the Appropriations Committee staff is not bloated. We turn back money every year. I am proud of the hard-working staff members on the Appropriations Committee.

I have heard reports of the President's criticism in this regard, talking about the staffs of Congress being so bloated. Little is said about the growth of the staffs in the executive branch or growth of personnel in the judiciary: nothing is ever said about that. I never hear anything said about the growth of administrative costs in the judiciary. The criticism is always directed at the Congress.

I just want to take this moment to commend the appropriators.

There are those who criticize the appropriators for including authorizing legislation on appropriations bills. The truth of that matter is that, in many instances, if the appropriations bills did not include certain authorizations, the Government would come to a stop.

I recall that, for example, last year there was no authorization for the Federal Communications Commission, the Federal Trade Commission, the FBI, the Immigration and Naturalization Service, the Office of Management and Budget, the Securities and Exchange Commission and others. The appropriators had to move ahead, fund the Departments and the agencies, and do virtually the authorizing and the appropriations.

Earlier, I mentioned Keith Kennedy and Jim English. I also should mention Jack Conway. He does the numbers for Republicans and the Democrats on our Appropriations Committee.

Finally, let me thank my colleague, Senator HATFIELD, a former chairman of the Appropriations Committee in the Senate. He is the ranking member. I want to thank him for his valuable contributions to the work of the committee and to the work of the Nation.

On our committee, there is no partisanship. We do not play political games on the Appropriations Committee. We work together. I think we demonstrate a fine team, bipartisan, working for the good of the country.

I could not ask for better cooperation than I receive from Senator HATFIELD. He is always very supportive of our work, and I receive a great deal of encouragement from him. It is a fine team—the Democrats working with the Republicans on that committee. Thank God for the Congress of the United States and for the appropriators.

Mr. HATFIELD. Will the Senator yield? Is this an appropriate time?

Mr. BYRD. It is, if I may momentarily withhold.

I ask unanimous consent that the table to which I have referred be printed in the RECORD.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

(As of) 06-Oct-92	New BA FY 1992 Enacted	New BA FY 1993 Estimates	New BA FY 1993 Conference	Conference vs FY 1992 Enacted	Conference vs Estimates

Mr. BYRD. Mr. President, I yield the floor.

Mr. HATFIELD addressed the Chair.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. HATFIELD. Mr. President, I am terribly sorry I was not on the floor when the chairman of the Appropriations Committee, Senator BYRD, first began his recitation of these statistics and the role of the Appropriations Committee. He may well have used a statistic when I think is also very illustrative of the often misunderstood relationship between Presidential request levels of spending and the congressional responses to those requests.

If the chairman has not already referred to that, I think it is still worth the repetition. I remember when I was in education, one of those golden rules was repetition is the first law of learning. I think that there has to be a lot of relearning on the part of many people as to the facts of the case that often create the imagery of conflict between the executive branch and the congressional branch, legislative branch of Government on levels of spending. And that is I ask the chairman on that span of time of some 38, years, 40 years now perhaps, has the, and this includes Democratic and Republican Presidents alike—I am not playing partisan politics in this instance either—over that span of, say, the last 38, 40 years, looking at the President's budget requests year in and year out, and the legislative responses to those year by year, have they been higher or lower as to the final conference statistics and figures, from the request level and the congressional level of spending?

Mr. BYRD. For the years 1947, I believe, through 1991, the total of the congressional appropriations, including the general appropriations bills, the supplementals, deficiencies—we used to have deficiencies, deficiency bills; we used to have an appropriations committee on deficiencies and supplementals, which I chaired for a while—the total was, not including this year, $188 billion over those years under the total of the requests by all of the Presidents in that period, Republican and Democrat, $188 billion under.

Mr. HATFIELD. Under the Presidents' request?

Mr. BYRD. Yes.

Mr. HATFIELD. Mr. President, I will further comment on that statistic to the effect that this did not happen in 1 or 2 years, which made a great differential to give us that cumulative figure, but I believe with perhaps the exception of 2 or 3, not more, than that was true each year in that period of time. We did not have an aberration or a great differential one year that gave us that final end figure that the Senator quoted of $188 billion; is that correct?

Mr. BYRD. It was true in a great majority of the years.

I ask unanimous consent, Mr. President, that I may print in the RECORD a chart for that period of years which will indicate the annual requests by the Presidents and the annual appropriations and annually the difference between the final appropriations and the Presidents' request in each instance.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

REGULAR ANNUAL, SUPPLEMENTAL, AND DEFICIENCY APPROPRIATION ACTS COMPARISON OF BUDGET REQUESTS AND ENACTED APPROPRIATIONS

	Administration requested	Enacted appropriations	Difference under (−)/over (+)
Calendar year:			
1945	$62,453,310,868	$61,042,345,331	−$1,410,965,537

Source: House Committee on Appropriations.

Mr. HATFIELD. Mr. President, I appreciate the chairman's review of this record because, again, it is counter to the popular imagery that somehow the Congress is always the big spender in this constitutional process of requests and appropriations, and so forth, and that the President or the White House has always been the fiscal constraint or the fiscal restraint in this process. The opposite is true.

I can recall during the 6 years that I was chairman of the Appropriations Committee, and that was 6 of the 8 years of the Reagan administration, Republican White House, Republican Senate. And I can remember what the chairman has already referred to of Presidents', of both parties, favorite target in trying to explain fiscal policies of this Nation to lambaste the Congress. It was always the fault of the Congress, the fault of the Congress not appropriating, or overappropriating, or pork barreling that has led to a lot of these quick-fix conundrums that float around in the political arena: Line-item veto, enhanced rescissions, balanced budget amendments, that somehow are going to fix the deficit problem and bring the Congress under control and into accountability.

Those 6 years out of the 8, and I do not want to just restrict my time of chairmanship, but let us take the full 2 terms of the Reagan administration, one of the favorite targets of the rhetoric of that administration was the Congress as the big spenders. If you take those 8 years and add up each of those 8, your fiscal years, as to what President Reagan requested of the Congress and take that 8 years as to what the Congress appropriated, we were under the Reagan years of request levels, budget request levels.

That certainly was one of the highlights or one of the high points of this Congress bashing and the so-called tension between the executive and legislative branches of Government.

The chairman says, well, this has been a popular subject for many Presidents—which it has. Has it always been so? Well, that also reminded me of the fact that we have together been very much involved in the bicentennial of the Constitution and its efforts and its programs under former Chief Justice Warren Burger. Of course, as the Chief Justice, we had a number of publications which had become the legacy and the heritage of the bicentennial celebration. On one of them particularly, one of these publications concentrating on the history of the judicial branch of Government, and there was a brief respite from the early days when Congress was getting all the bashing, even under the beginning of the first Republican President, Washington. When President Jefferson came into power, that interlude was the tension between the executive and the judiciary. I am not so sure that Thomas Jefferson in his heart of hearts really believed in a three-branch Government. He really was a supporter of two branches. Fortunately, we had a Chief Justice at the time to confront the Jefferson antagonism by the name of John Marshall.

When you go through that early history, and by the way, let me recommend an interesting highlight history of the Supreme Court by Chief Justice Rehnquist. He has now written two books, one of the highlights of the history of the Supreme Court, and the other now on the impeachment trails, major impeachment trials, not only of Andrew Johnson but Justice Chase and a few of the others.

You can get very quickly the flavor of that tension which existed between President Jefferson and what the role of the judiciary was to play in this Republic.

So I guess for that exception and maybe a few others that I do not recall immediately, it has been pretty much the hee and the haw between the executive and the legislative.

That is the nature, I guess, of our system, I would say to the chairman. I do not think we are being overly sensitive to respond from time to time to set the record straight. I wish I sometimes could sit down and draft the whole budget. I am sure the chairman has thought of that, and the distinguished chairman of the Subcommittee on Energy and Water of the Appropriations Committee, Mr. JOHNSTON. We each probably could draft up a better budget than the whole committee put together, or any President. But that is not our system. Our system is consensus. We are a pluralistic society. We are a pluralistic structure of Government—three branches.

I often have to remind my constituents that the Constitution gave to the Congress the purse strings. I believe that is still one of the most fundamental demonstrations of checks and balances and of the sustaining of the democratic system within a Republic, the control of the purse strings—he who controls the purse strings, the elected representatives of the people.

It is like I used to argue about the draft. If a President is given the power of unlimited manpower and womanpower to engage in unilateral warfare, he has power so great that, in my humble opinion, we would never have been in Vietnam if we had not had the draft.

I think there is an analogy here. The President, by nature of the focus of one man—someday one woman—by Executive powers of Government has to be checked by not only an elected body of Representatives but an independent judiciary. One is as dependent on the other, and the total makes the democratic system really work.

As these emerging countries of Europe coming out of communism begin to perceive the role that we have established here as a model for the world, with all of its warts, all of its mistakes, I think they will see it as the best system of government ever conceived by human mind, as did Mr. Churchill.

So I really feel, in spite of the fact that this is inherent in the system, it behooves us as Members of the Congress, and particularly appropriators, to set the record straight, as the chairman has done once again on this matter of spending.

Now, if we want to fix blame for the deficit, there is enough blame to go around everywhere. But I do think on the matter of the spending, this particular issue today is very, very timely.

I hope we can reproduce the charts.

This is the visual understanding of the 1992 level of spending, the 1993 request level, and the 1993 conference report level of the Congress. Each is lower. And the most important thing is that of those discretionary programs, the President's request was $8 billion, whatever the figure was, almost $8 billion higher than what we appropriated.

Mr. BYRD. Eight point seven.

Mr. HATFIELD. Eight point seven, almost $9 billion lower than President Bush's budget request. And that is not an erratic.

As the record shows now, from what has been placed in the RECORD by the chairman, starting in 1945, this is in keeping with that long tradition over those many years.

I thank the Senator for making this available.

Mr. BYRD. Mr. President, I thank the Senator.

I ask unanimous consent to proceed for 30 seconds.

The PRESIDING OFFICER (Mr. BRYAN). Without objection, it is so ordered.

Mr. BYRD. Mr. President, I thank the Senator from Oregon, my colleague, the ranking member.

As to his reference to the years from 1945 through 1991, in which he indicated that in a great majority of those years Congress appropriated less than the President requested, in each of those—for most of them certainly—I call his attention to the fact that out of those 46 years, 1945 through 1991— 1945 through 1991, inclusive—only in 6 years, in 6 of the 46 years did the appropriations by the Congress exceed the request by the President. In 6 years, only in 6 years out of the 46 years did Congress exceed the Presidents' requests.

In all the other years, Congress appropriated less money than the Presidents requested. And the total again, the total difference for the years 1945 through 1991 is $188,769,229,364.00. The total of the congressional appropriations under the totality of the Presidents' requests for those years was $188,769,229,364,00.

I thank the Chair for its courtesy.

Mr. BRADELY addressed the Chair.

The PRESIDING OFFICER. The Senator from New Jersey, Mr. BRADLEY.

Mr. BRADELY. I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum having been suggested, the clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SEYMOUR. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CENTRAL VALLEY PROJECT FISH AND WILDLIFE ACT OF 1992

Mr. SEYMOUR. Mr. President, I call up the Central Valley Project Fish and Wildlife Act of 1992.

The PRESIDING OFFICER. Without objection, it is so ordered.

There will now be 6 hours of debate on the bill, S. 3365, which the clerk will now report.

The assistant legislative clerk read as follows:

A bill (S. 3365) entitled the "Central Valley Project Fish and Wildlife Act of 1992."

The Senate proceeded to consider the bill.

The PRESIDING OFFICER. The Chair informs the Senate that under the previous order, 4 hours of debate are under the control of the junior Senator from California [Mr. SEYMOUR], and 2 hours are under the control of the senior Senator from New Jersey [Mr. BRADLEY].

Mr. SEYMOUR. Thank you, Mr. President.

Mr. President, the reason we are here and the reason we are taking this bill up now is the result of years and years of debate as to how do we ensure, with limited water resources in the State of California, that we adequately supply the water needs of human beings and their jobs, whether they are farmers or urban dwellers; and how do we adequately meet the needs and requirements to protect our fish and wildlife resources in California, which all of us in California and those outside of California respect greatly and want to do everything we can to enhance them.

Senator BRADLEY, who will be speaking later, has labored many years with his ideas as to what form this reform of the Central Valley water project will take. I commend him for his efforts. He has worked hard.

I, on the other hand, am new to the scene. I came here to Washington in January 1991. But since that time, every month of the 21 months that I have been here, I have been involved and committed to try to seek a compromise to meet those needs which, again, are people and their jobs, and fish and wildlife resources, animals, and plants.

I have been unsuccessful. I have tried the best I know how to reach accommodations for those whose priorities might be different from mine, but to try to find a balance, so that the bottom line is we allocate this very precious and limited resource of water to meet the needs of all Californians.

Over the last 21 months, I do not know how many days and weeks and hours have been invested in trying to find this compromise, but I know that a very substantial amount of time, whether it be through public hearings or private negotiations or meetings of the committee, meeting separately with Senator BRADLEY and Senator JOHNSTON, has been dedicated to trying to find a way to balance the diverse needs of my State.

I said I failed in that effort because we have pending on this floor a bill that came from a conference committee entitled H.R. 429. Why have I fought so hard, not only to find an acceptable compromise within the priorities I have laid out, but failing that, why have I fought so hard on the floor to oppose that bill? And the fight concluded over the last 48 hours or so when I joined with Senator D'AMATO on an unsuccessful filibuster that started at 8 p.m. on Monday evening and did not conclude until 1 p.m. the following day. And then beyond that filibuster, since I was prevented from having an opportunity to have my own filibuster, to have my own right to speak on this floor at that time, parliamentarily I asked for the reading of H.R. 429, the conference committee report, a bill that is some 375 pages long. Here it is, a bill that I contend will be an economic disaster to my State of California. That economic disaster has been defined by the California Department of Food and Agriculture as causing an economic loss annually of $4.5 billion and putting tens of thousands of farmworkers and farmers out of business.

Again, let me restate, Mr. President, that my priorities have been people and jobs first and then do whatever we can in every way possible to enhance fish and wildlife resources in our State. Clearly, I do not deny, I do not apologize, I do not take a half a step backward for those priorities.

So in this debate, I am sure we are going to hear that my priorities, although perhaps well meaning, really are not appropriately balanced; that, in fact, they do not address the needs of fish and wildlife to the degree they need to be addressed. Of course, I would argue, on the other hand, I have done the best I can. This bill before us right now outlines it and I will be talking about that. But, on the other hand, I do not deny that my number one priority has been and will continue to be.

So, after we completed the filibuster and I asked that this bill be read into the RECORD, that consumed approximately 26 hours I spent on this floor yesterday and the day before. I believe, as a result, we were able to hammer out a unanimous-consent agreement under which this bill is now being heard, wherein I have one more opportunity to send a bill to the House of Representatives that I think offers a balanced approach, keeping those priorities in mind. We did that once.

I introduced, on November 21, 1991, after long and hard negotiating sessions between farmers and urban water users, people, and industrial water users, jobs—after 9 months of hard negotiations, a bill which included a historic compromise. For the first time in the history of California, there was a compromise between farmers, urban water users, and industrial jobs needs.

That bill, Senate bill 2016, was passed by this body and sent to the House of Representatives. I cannot say, because I know it is not true, that the bill was embraced by 100 U.S. Senators. To the contrary; that is not true. In fact, if the distinguished Senator from New Jersey, Senator BRADLEY, and chairman of the committee, Senator BENNETT JOHNSTON, from Louisiana, had their way, that bill would not have gone to the House of Representatives. So I do not contend in any way that that bill represented all of the views of the Members of the U.S. Senate. But, nevertheless, it went, to be met in conference with the alternative bill, the one that is now in the water conference committee report, H.R. 429, that lies before this body and will be taken up tomorrow.

So late last night, we reached an agreement that I would have this opportunity. Provided I did not filibuster any more or delay the taking up of this bill, I would have the opportunity to send the bill that is now before us, which, quite frankly, is Senate bill 2016 with further modifications—and we will talk abut that—I would have the opportunity to send this bill to the House of Representatives over there. And on Thursday, tomorrow, this body will take up the water conference committee report to H.R. 429.

Let me say, Mr. President, for my part, that was a much less than satisfactory agreement, but I had no alternative. The time clock had begun to run on me, and it was a choice, relative to H.R. 429, the conference committee report, my attempts to amend, change, and finally my attempts to stop it, it was a choice of either dying on Thursday—"dying" meaning passage of that bill which I opposed—or dying on Saturday.

So faced with those choices, I agree that I would withdraw my attempts at a filibuster or delaying of action of other very important measures on this floor if I was provided this opportunity to introduce a further compromise, I think a balanced approach, debate it on this floor, and send it to the House of Representatives.

I can only hope—I can only hope—that the Members of the House of Representatives, and more specifically Congressman MILLER, will recognize in these closing hours of the session that if, in fact, we truly want to have a more balanced delivery of water in meeting the needs of thirsty Californians, that they would come back into session, consider this bill that we are about to send over there that deals with the Central Valley project and then vote it up or down. I feel fairly confident, if they were to do that, they would vote it up and they would send it to the President, because tomorrow, the Senate will approve—I do not have the votes, it will roll over me—they will approve the alternative H.R. 429, and that will go to the President's desk.

Why have I not been able to convince, with logic, why have I not been able to convince other Members of this body, other Members of the House, as to the need to find a balanced approach? The reason I have not been able to do that is there is more in this water conference committee bill, H.R. 429, than what I have been talking about. A sound political strategy was used by Congressman MILLER, Senator BRADLEY, and Senator JOHNSTON in pushing this bill that reforms the CVP in California. Very simply, as so many times happens here, they put provisions in the bill which enough Senators cannot say no to and let them hold their nose and vote for the other provision. So that is what we have in this conference committee report.

What is in there that has caused Members of the House to pass it and what will cause tomorrow the Senate to pass it are water projects, important water projects. I am sure, for example, some time tomorrow on this floor Senator JAKE GARN, from the great State of Utah, a Senator whom I admire, a Senator whom I respect, and a Senator who has fought long and hard, will tell us tomorrow that for 25 years he has fought to get this water project for his own State of Utah. And it is true, he has, and it is tied up in this bill.

So what he will say to me, as he has said before is: "John, I hear you, I'm with you. I know that H.R. 429 as it impacts your State of California is something that you don't want and the people of California don't want. But I need this water project that I have fought for for 25 years."

(Mr. BYRD assumed the chair.)

Mr. SEYMOUR. That is an example of one Senator's—there are others with other water projects in the bill, and that is why, quite frankly, I have been less than successful in getting my point of view across. Some have said that this strategy was holding hostage those water projects, so that this CVP, Central Valley project, reform bill that is unpalatable to so many and will be such an economic disaster to my State of California can go through.

So this bill will go, the one we are discussing now, to the House of Representatives. If they choose to come back into session and consider it as a separate bill with no water projects in it, I think there is a chance it would pass, and it could go to the President's desk. And if it gets to the President's desk, I guarantee you he will sign it.

But I have to say, with all candor, that probably will not happen because probably the House of Representatives will not come back into session. And if they do, I know that Congressman GEORGE MILLER, who has been so committed to his idea of what the Central Valley project should be and how reallocation of water should take place, is a very strong and influential Member of the House of Representatives, and I respect that. He feels very strongly and passionately about his position. I respect that. But with that power, even if they were to come back, it would be a close battle. But standing alone and separate from the water projects that have been held hostage, I think it has a chance.

If that does not occur, then tomorrow, as I said, this House will vote out the water conference committee report. It will go to the President's desk. The Secretary of Agriculture, a member of his Cabinet, has advised him to veto it, should that happen. The Secretary of the Department of the Interior, a member of his Cabinet, has advised him to veto it, should that happen. The Secretary of the Department of Interior, a member of his Cabinet, has also advised that he should veto it. And the read I can get is he may veto it. I hope so. It is sad, but I hope so.

Somebody has to send a message to Congress that we are not going to play games of holding things hostage so that you can pour the caster oil down somebody else's throat, whether they want it or not. And so if that should be the ultimate conclusion, then it is my intention to continue to work as hard as I can to ensure a Presidential veto of that bill.

Let me proceed, Mr. President, if I can, to talk about why this project is important, the Central Valley project, to the great State of California. What are the dynamics of what we are trying to do, whether it is my measure that is before us now or this water conference committee report, H.R. 429, that will be up tomorrow.

Let me say that there were and are many areas of agreement between those two bills, many areas of agreement. There is no disagreement whatsoever, certainly not on my part, that what we need to do is take this precious resource—and let me describe it because I am going to talk about it a lot more, but let me describe this precious resource called water in its most simple terms.

We measure water by acre feet. More specifically, what that means is one foot of water covering an acre. One foot of water a foot deep on an acre of land.

There is no disagreement, none whatsoever, on my part—as a matter of fact, I know we must transfer water from the Central Valley project to meet the needs of people and jobs, whether that is in northern California or whether it is in southern California where two-thirds of the population resides and works. I know we have to transfer that water. I know and the farmers know, as a matter of fact, that they have to conserve water. Now in the sixth year of a drought in California, they have not had much choice but to conserve water because there has not been much going around.

As a matter of fact, this year, Mr. President, the Central Valley project will deliver 4.5 million acre feet of water. Imagine the cup as a bucket.

Now, the question becomes, of this bucket that is limited in its resource—and right now it is under the control of the farmers in the Central Valley of California in this project—how much will be taken out and provided for people and their jobs in urban areas in the State of California and provided for fish and wildlife and the protection of animals and plants.

That is where the great debate is: How much do we take out of that bucket so that we can spread this limited resource around?

It is also important to add that it is not only the scooping out of the bucket that is important as to how much remains but also important is who gets to drink first. Who gets the first scoop? What happens in dry years such as we are in right now with only 4.5 million acre feet in the bucket?

And so there is no argument whatsoever that some of the bucket has to be spread around. Water has to be moved from farming to urban areas, to people and jobs, and, yes, we must deliver more water for fish and wildlife purposes, for animals and plants.

So therein lies one of the cornerstones of this debate: How much water do you take out of the bucket and move it elsewhere?

The other argument of reform of this Central Valley project—and I really only see two basic arguments. There are a lot ancillary arguments. I have made the first argument.

The second question is: How do we change or reform the relationship that was created in the days of FDR between the Federal Government, which built the Central Valley project, and the people who use the Central Valley project—not only the farmers in the Central Valley but the people who live and work in cities like Sacramento, people who live and work in Contra Costa County, up near the bay area? And so primarily it is farming interests in the Central Valley with some cities. How do we reform and change their relationship with the Federal Government, which built this project?

That has to do with the very critical issue, economically, if you are concerned about people and jobs, of contracts, contracts between the users of the water from the CVP and the Federal Government and taxpayers who built the Central Valley project. The question becomes: Shall you let the farmers continue to have 40-year contracts on water at a given price or should you change that?

I think we should change it. I know that Senator BRADLEY and Congressman MILLER and others want it changed, too. So the debate becomes how do you change it.

And so, Mr. President, what we have to remember in this is, No. 1, there is no doubt whatsoever that water needs to be reallocated. Everybody agrees to that. It is how you do it, and who gets what out of the bucket. And then, No. 2, how do you change and reform this contractual relationship that started historically back in the days of FDR?

Let me talk for a moment about the project itself because I think it is important to put it in perspective, get a little feel for this project. And I will tell you, Mr. President, in the last 21 months I have gotten more than a feel for the Central Valley project.

I am sure Senator BRADLEY when he has the opportunity to speak is going to tell you that he has had a similar experience, going out there looking at the project and the dams and reservoirs that were built, a very creative and imaginative canal system that transports their water. Truly, a historic accomplishment was the Central Valley project. Quite frankly, without FDR, and the creation of this project back in the early part of this century, the Central Valley of California would be a desert. There would be no water. So it was ingenious when it was created.

The Central Valley of California is almost completely enclosed by mountains with the only outlet through the Central Valley, through San Francisco Bay. That is a very important area. In fact, it is that area of San Francisco Bay and the delta that caused the rightful concern that we need to move more water out of the bucket for fish and wildlife purposes, and for water quality purposes for the people of San Francisco.

The valley itself is nearly 500 miles long. That is longer than most States, Mr. President. It averages about 120 miles in width, 500 miles long, 120 miles wide. The northern half of the Central Valley is drained by the Sacramento River, the southern portion of the valley by the San Joaquin River, the Tulare Basin tributary streams. That is how that water moves through the Central Valley of California. Those are its two outlets. It is almost like a pipe with a faucet at each end.

The climate of this valley is characterized by hot, dry summers and cool, moist winters, but severe floods and devastating droughts often occur.

If you live and work in this Central Valley, let me tell you, you are a gambler. You may even do better in Las Vegas. You may have better odds there. Because if you have to make a decision today as to what crop you are going to plant, you do not know what the water is going to be. You do not know how much is going to be in that bucket. We know this.

California currently is suffering from the sixth year of a drought. This Central Valley project has the capacity of filling a much bigger pail if it would rain—as I recall, 8½ million acre feet. That is a big bucket.

If it would rain, I would not be here talking about this. If it would rain, Senator BRADLEY would not have fought so hard over the last, he will tell us, 4 years. But it has not rained. Lord, we know that California is in the 6th year of a drought.

We take a look at people and their jobs and their water needs. We see California over the last 4 years, citizens having to cut back on their water supply, severely in some cases—take a shower, but put the bucket in the shower so you can catch the water from the shower, so you can take the bucket out to water your plants—severe.

When you turn that water on for the shower, do not let it run while you lather up. Turn it off.

Companies wanting to expand, hire people, and put people to work are faced with the dilemma that they cannot get the permit to create jobs from the government. Why? Not enough water.

So truly California faces a crisis. Again, there is no dispute as to the need to take this precious resource and spread it around, try to maximize and have utility of every drop of this precious resource.

Some might say why do you not just get a bigger bucket of water? Why do you not build some resources for water? Why do you let this water when it does rain and the snow melts in the Sierra Mountains and water runs off from these mountaintops, why do you let it run into the ocean? Why do you not stop that? Catch it in a reservoir. Save it for when you need it later in the year. That makes sense.

I do not know, however, Mr. President, when the last time it was that California was able to develop any new water resource. We, Senator BRADLEY and I, Senator JOHNSTON and I, talked about the development of a new resource. Let us get a bigger bucket instead of fighting over the limited amount of water in the bucket. We talked about the need to build new reservoirs like Los Banos Grande, like Las Vacaros, like expanding the Shasta Trinity Dam. If you did projects like that, you could have a bigger bucket of water.

In fact, I promised before, and let me promise here on the floor of the U.S. Senate. If the people who support this water conference committee report will join with me in committing new resource development, a bigger budget, they can have it for fish and wildlife purposes, for animals and plants, and let the Central Valley and the farmers, and let the people who live in our cities, work in our cities, let them share in this smaller bucket that we are fighting over. But, no, we do not have any commitment whatsoever to build any new resources.

You might say why is that? Because there are legitimate concerns that, if you build a new reservoir, if you expand Shasta Trinity Dam, you are invading the environment.

You may displace some animals or plants by digging a hole so you can catch some of that water coming off of the mountains, rushing into the sea. So we do not want to do that. Therefore, we must go back and fight over the smaller bucket of water, and make these very important, sometimes emotional but critical decisions as to what we do with the limited amount of water we have.

So therein lies the argument, Mr. President. The Central Valley project was really a creation of genius. In fact, as I said, it started back in the days of FDR. I think it is important to note that back then, what kind of deal did the Federal Government drive with the farmers in the Central Valley; what did they give up so that taxpayers' money could be used to construct this truly remarkable project?

Well, what they gave up is certain water rights. When you buy a piece of property, along with that property, you get water rights, the right to the water that is underneath that land. You may pump it. You may use it. It is as important as the title to the property itself.

I do not know too many people who are willing to invest dollars to buy land where you do not have water. And if you do not have water, or if your water is being cut off, the value of your property that you own obviously drops. So back when the Central Valley project was created, there was a deal struck, a bargain.

The deal was: The Federal Government will put up the money to build this fantastic project. But you people who are going to be getting water from this project have to give up certain rights—primarily farmers.

And so they did; they gave up their water rights. But they said: Look, I do not trust you, Federal Government; I do not trust you. If I give my water rights up now, they are gone. I do not get them back. Yes, you tell me you are going to build this project. But then, how do I know that you are not going to take that water away from me that you are telling me I am going to get for this project, in exchange for giving up my water rights?

The Government says: Do not worry; do not fret. We will give you a water contract, guaranteed as long as it rains. And the water comes through the Central Valley. You have a bona fide contract that you can count on your share of that water,

Well, the farmers went one step further and said: OK; now that is starting to sound better. But tell me, how long will this contract be?

So what they negotiated when this project was built is that farmers would have a 40-year contract. And those who have been involved in the reform of these contracts—as you recall, I said that is one of the very contentious points of this bill. See, they do not need 40-year contracts. I cannot even get a 40-year mortgage on my house. I can get 30; I can get 20 or 25. Some people will go for 15. But you do not need 40. They are right: We do not need 40 years.

What does a farmer use his contract for, anyhow? Why does he have to have a contract at all? Well, how would you like, if you were a farmer, to go down to your local bank and say: Mr. Banker, I want to buy some new equipment for my farm. In fact, what I really want to do is buy another 50 acres. I want to expand the farming operation. So I want you to make me a loan to either buy equipment or expand my farming operation.

And the banker wisely says: OK; you have run a pretty solid operation, very productive. I have looked at your books and your financial statements, and it sounds like a pretty good deal to me. But wait a minute, before I give you the loan. Without water, you do not have an operation; you are dry; you are fallow. So what kind of guarantee do I have as a banker that you are going to have the water to grow your crops, so you can sell the crops and pay me back?

Can you imagine the farmer having to say: Well, the best contract I have is 2 or 3 years.

The banker would say: Well, wait a minute. You want me to make you this loan to expand your operation, and you want this loan to be a 10-year loan, or 7-year loan, and you can only tell me that you have water for 2 or 3 years? Sorry; I cannot do it.

On the other hand, in all fairness, the banker does not need a 40-year water contract, and the farmer does not need one, either. So we should reduce the length of those contracts.

In fact, this bill that is before the House right now cuts the length of those water contracts from 40 years to 25 years. Senator BRADLEY and Congressman MILLER have come a long way in trying to find a compromise—a long way. I think they started out with no contract—no, no, no; it was not that. They started out with legislation that said you get a 1-year contract, and for every additional year you want, up to 10 years, you have to give up 1 percent of your water for fish and wildlife purposes.

And so you can get a maximum contract of 10 years. But, in exchange, you must provide 10 percent of the water off the top of your little bucket for fish and wildlife purposes.

Well, that has been changed. On water, as Senator BRADLEY will tell you, they have become flexible on that point. They now provide for 25-year water contracts. But there is a little catch, and I will talk about that.

Getting back to my analogy of length of contract, if you have too short a contract, or if the contract is uncertain that you will get water, even though it may be a dry year, the banker is willing to say: OK; you are going to get less water, and I will live with whether it rains or not. But I have to be guaranteed you will get some water. Otherwise, you may not pay my loan.

I have compared this crucial position of the farmer in water contracts to somebody who might be interested in buying a home. Let us say you find the home of your dreams. I mean, it is something you have just wanted. And you go through it and say: This is it. The family and kids say: What a place. I love it; I want to buy it.

Well, I do not have the cash to buy it, so I have to get a mortgage. Everybody does.

How would you like to be in the position of going to the banker and saying: I want to buy this home, and I want a mortgage.

The banker says: OK; you have it. I will give you a 2-year mortgage. If things are OK 2 years from now, come back and I will refinance it for another 2 years, or I will give you a 3-year mortgage. If things are OK 3 years from now, come back and I will give you another mortgage.

Boy, if you go for that deal, I have a bridge I want to sell you. It is a bad deal. Just like the contract provisions in the bill we will take up tomorrow is a bad deal.

That is one of the reasons why the California Department of Food and Agriculture has said, if the bill we take up tomorrow becomes law, then tens of thousands of farm workers and farmers are going to join the unemployment lines, and the economy of the State of California, which is already on its back suffering from the worst recession since the Great Depression, will lose $4.5 billion a year out of their economy. Those are not my numbers; those are the numbers from the California Department of Food and Agriculture.

Let us talk a minute about these farmers because they have been much maligned. They have been described as greedy. They have been described as wasteful people. They flood their fields, they grow rice, they flood the fields. What a waste of water. Many of these farmers, small as they might be, have not put in drip irrigation systems yet. They are bad folks. And we who live in urban areas, work in urban areas, and we who are concerned about the very valuable resource of fish and wildlife and the need to enhance that resource and protect it, why should it not be right, since these farmers have the water, let us just take 18 percent of the water from them. They can get by with much much less.

I want to talk for a moment, Mr. President, about these farmers who have been so maligned, who have been described as being so greedy, so unreasonable, so let us just take their water.

It is hard for me or anyone else who was raised in the city, who never farmed for a living to really appreciate what it is like to live the life of a farmer. Earlier I said farmers are the greatest gamblers in the world. They should go to Las Vegas. I think maybe they would have better odds there, because they gamble every year, a huge gamble. They decide what crop they are going to grow, not knowing tomorrow what the rain is going to do, what the pests are going to do. Right now in California in Imperial County—that is down near the southern border of California—there has been severe crop loss as a result of the white fly. And how many around this country have laughed at California's plight over the medfly, helicopters coming over residential areas spraying to kill the medfly?

So they fight pestilence, they fight water, these farmers, and they do not even know, when they have to make these decisions, what the market is going to be like for the crop. This year, for an example, has been a horrible year for lettuce. There is a glut of lettuce on the market. Too many of these farmers sat down separately and individually and said, "I am growing lettuce this year; it is going to be a good market." So here comes this glut of lettuce on the market and, instead of being able to sell that lettuce here, they have to sell it there.

Tell me, Mr. President, these farmers are not gambling. Most of these farmers are little people. I have met them, I have talked to them, I have seen their families. They are small farmers. They are family farmers. They grew up in that Central Valley. "Grandma and Grandpa farmed here, Mom and Dad farmed here, and I am going to farm here." That is their way of life. They could give it up, I guess, and go to the city, but this is a way of life for these people.

During this last 21 months, Mr. President, I have been privileged to be a United States Senator representing these people and all Californians, I have grown to respect them, to love them, and, thank goodness, I have had the opportunity to begin to understand them and their plight.

But forget that. Forget that. Let us talk about dollars and cents. Forget the family side of what these greedy water users are, these people who waste this water forget that. Let us forget about the trials and tribulations they face in their daily life in taking the risk they take.

Let us talk about the dollars and cents. Why should we care whether or not we take this bucket, this limited bucket, and scoop off the top 17 percent of the water and redistribute it, leaving them with 82 percent of what they had? What does that mean to the economy? And what will happen to these tens of thousand of farm workers and small farmers who either will be out of work or out of the farming business? What about the importance of $4.5 billion a year out of the economy of the State of California?

Let me tell you a little I have learned about the farmers and how important agriculture is to the State of California. That is a laugher, is it not—agriculture? Important to the State of California? I mean, California is not agriculture. California is Hollywood. In my case, it is Disneyland where millions of people come every year not only to enjoy themselves but to spend their money. California is aerospace. We build more and bigger and better airplanes than anyone else in the world. California is high technology. California is biotechnology. It is the venture capital of the world. And California is the defense industry. It receives 20 cents out of every defense contract dollar spent in this country. California is the center of financial institutions on the west coast. California really is a nation-state. It is the sixth largest economy in the entire world. That is big.

But how about agriculture? How about it?

Mr. President, a little unknown fact about agriculture in this hustling, bustling metropolis of 30 million people: Agriculture is California's No. 1 industry. It is the single largest industry in the entire State of 30 million people. It is the Nation's bread basket.

So let me tell you a little bit about these little people we call farmers and what they do in this No. 1 industry in the State of California.

Each California farmer produces enough food and fiber for 128 people. One farmer produces enough food and fiber for 128 people. If my math is somewhere correct, Mr. President, three and a half farmers produce enough food and fiber for the Members of the House of Representatives. Some have said maybe they are too well fed.

Fresno County. Fresno. Boy, I have gotten to know Fresno. This Central Valley, interestingly enough, talk about problems, when I took office in January 1991, the Central Valley was suffering from a disaster of a freeze. It was not pestilence, it was not drought. It was a freeze that destroyed millions of dollars worth of crops.

Fresno got particularly hard hit. They recovered from that. I would like to believe I gave them a little help in restoring some jobs and their life and their livelihood.

They recovered from that only to be faced at that time with a 5-year drought. Tell me that farming is not a high-risk and a gambling kind of business.

But Fresno County, that one county, is the leading farm county in the State of California. It produces $2.9 billion, that one county, $2.9 billion in total production. Now there are 39 other counties in that valley, in addition to Fresno, and each one of these produce at least $100 million or more in value of produce and product.

In fact, if we want to talk about California's farmers collectively, there are 85,000 farms, Mr. President, 85,000 farms—that produce $18.3 billion in farm commodities.

Do you want to compare that to something? Let us compare it to the great State of Texas. Everything is bigger and better in Texas, at least that is what my colleagues here from Texas tell me.

Well, you can compare California's agriculture to Texas agriculture. Texas leads the Nation in the number of farms. It has 186,000 compared to California's 85,000. But it comes in second to California in its production of $11.8 billion in Texas, compared to $18.3 billion in California.

Now you think they are big farmers in California, megabuck agri-operations to those who do not have particular empathy for these. Well, I would like to share with them that more than 60 percent of California's farms are less than 50 acres in size. Mr. President, 50 acres is not much to farm. I would call that a small farm.

Yes, California leads the Nation in the production of crops. If we want to talk about the land—I was talking about earlier land and water, and water making land valuable.

As thousands and tens of thousands of acres go fallow, they dry up. As a result of the bill that we will be taking up tomorrow and, sad to say, will pass the U.S. Senate, think about what that fallow land, dry land, is going to be worth. Because land of any kind, whether it is farm, or agriculture, or residential, is important.

More important are the people that own that, the people that own their own homes, the small farmer who owns 50 acres or less and farms it as a family business. How about the land, their investment? What is going to happen to that?

Well, let me share with you, relative to that land, the market value of farm land in this Central Valley. For range land—that is grazing land for cattle primarily—that is worth $600 an acre.

Now, other farmland goes up. If you want to get over into another very important industry within the agriculture industry, it is the production of wine. I believe it is the highest quality wine in the world. And I know there are those from France who would argue that.

But I have some economic numbers to show them how important the California wine industry is. That land in the wine industry could be worth $22,000 per acre. So what we are talking about bottom line is some land for grazing that is, at the low end of the scale, $600 an acre to the upper end of the scale where we have a vineyard, probably $22,000 an acre value in that.

Now how long has California agriculture been so important? Well, Mr. President, California has been the No. 1 ranking agriculture State in the United States for 43 years. California's 30 million acres of farmland accounts for only 4 percent of the United States farmland.

But talk about efficiency—30 million acres, it accounts for 4 percent of the countries entire farmland. But, do you know what? With just 4 percent of the country's farmland, California produces 50 percent, one-half, of the Nation's fruit, nuts, and vegetables.

Well, let me get back to water.

Let me talk about water and food. Water and food. Before I got this job, I would go into a market, I guess, like most, go to the fresh vegetables, and, oh, there is a good-looking orange. Maybe an orange from California, maybe from Florida. Gee, there is a watermelon. My kids love watermelon. Put that in the cart. I like apples. Give me some apples. I want some of those apples. Need some lettuce. Let us have some lettuce.

Then you go to the meat department. Let us have chicken tonight. Let us have steak. And you put these things in your basket and you go and check them out and you go home and you enjoy them.

But have you ever stopped to think what it takes to get it there in the market in the first place? Has anybody ever stopped to think how much water it takes to put that food in the market and on our tables. I do not think so.

And if I seem a little angry about the fact that we do not understand that, I am. I am sick and tired of hearing: The farmers have the water. Let us just scoop it out and take it without intellectualizing what that means to the food that every one of the Members of this body eat, and their families eat, and every American family eats.

Let me just take a few examples. Apples. I love apples. For one apple, one apple, it takes 16 gallons of water to produce one apple.

You like beef? Want to put some beef in your cart, your grocery shopping cart, next time you go to the market? As you put that beef into the cart think: One steak, one serving of steak, takes 2,607 gallons of water.

How about chicken? For one serving, chicken on your plate takes 408 gallons of water.

Milk, a glass of milk. A glass of milk. How much to get one glass of milk? Sixty-six gallons of water. And how about that watermelon that I threw in my cart because my kids love watermelon? That watermelon, as I take it off the counter, put it in the cart, because the family loves watermelon, 100 gallons of water to grow that one watermelon.

Let me put it all in perspective on the water and what it takes to eat. On the average, it takes 4,533 gallons of water to produce the food consumed by one human being in 1 day; 4,533 gallons of water per day to feed me, to feed you, to feed every Member in this Senate, to feed their families and to feed every human being in the United States. That is a lot of water.

And so as we think and we proceed to take the water out of that bucket—and we should take the water out of that bucket; the question is how much—but as we take the water out of that bucket, we should think very carefully about us and what impact it is going to have on our ability today—and I think it is wonderful, I never want to see it change—to push cart down the aisle in the store and grab that watermelon, grab that steak, grab that chicken, and get those apples. We should think about that.

Let me share, Mr. President, a little bit about my involvement in this most emotional and contentious debate over water in the Central Valley of California and what we should do about reallocating. And again, there is no question that we need to reallocate. We need to reallocate it, as I said earlier, to people and jobs, to put people back to work, and we need to do everything we can secondarily to enhance the environment and protect fish and wildlife.

Back in March 1991, Mr. President, we had a hearing, and I want to thank, by the way, Senator BRADLEY. Senator BRADLEY has been working on this issue for, as I said earlier, 4 or 5 years. When I came to the Senate, I said, "Senator BRADLEY, let's have some hearings in California. Let's go out and see what the people think about your legislation because they are the ones who are going to be impacted." And he very graciously—very graciously—agreed to a number of hearings.

I think he would agree with me that we heard all sides of this debate in question. So anybody who says, "Senator BRADLEY, really didn't hold any hearings; you didn't care about what the people of California really thought, "I will stand up there and tell them they are wrong; he did. He was very gracious about providing hearings in California. I might dispute whether he heard it all or not, but he held the hearings, and I thank him for that. He did not have to do that.

That hearing of March 1991 was a hearing held in Los Angeles. It was the first opportunity we had to review what became known as Senator BRADLEY's proposal, Senate bill 484.

Without going into a long dissertation of the whys and the wherefores of that hearing, let me merely say, Mr. President, that I expressed my concerns at that time with Senator BRADLEY's bill. That was the bill we were discussing at that time. So I made comments as follows in talking about what the needs of California are:

> Mr. Chairman, what California needs is flexibility from the Federal Government. What we need in California is a Federal Government willing to work with us to assist us but not preempt us.

I talked about the fact that we were in the fifth year of a drought and that we had a need to reallocate the State's water at the Federal Government's request and the need to do that within California.

I had thanked him for his willingness not only to hold that hearing but to hold further hearings in California.

I also said that what California does not need is legislation from the banks of the Potomac and the wisdom of the Potomac imposing on Californians how they should use their water, how they should allocate this resource, but rather the people of California and those who represent them in California ought to make that decision.

I said in that statement:

> My basic concern with Senator Bradley's legislation is that it would have substituted the wisdom of the Potomac and control of the Federal Government for the political will of the citizens of the State of California. California does not need the Federal Government to dictate how it should use its scarce water resources.

I said, however, as much as I may agree with the objectives—which is a redistribution of water—but if we let the Federal Government do that for us, do it to us rather than have it done by ourselves in California, that is fact we would have sold our birthright or we would have had it stolen from us. I, quite frankly, think it is about to be stolen tomorrow as we proceed to the conference report.

Senator BRADLEY held another hearing. This one in Washington, DC, on May 8, 1991. Again, I raised concerns about many of the components of his bill. I raised concerns that his bill would place limitations on contracting for the unallocated yield to the project and it would specifically prohibit the Secretary of Interior from entering into any contract—water contracts—or other agreements to sell or deliver water on any basis for any purpose other than fish and wildlife until a list of conditions had been met.

Then another hearing Senator BRADLEY held was on May 30, 1991. That one was held in Sacramento, CA. I said then, as I said again today, that I applauded his willingness to hold such a meeting. But again I raised my concerns about the provisions of his bill, many of which are in this bill which we will vote on tomorrow. I said that the fact that that bill made many promises for fish and wildlife refuges, those promises would actually run counter to one another and that the promise that was extended, in my opinion, promised unreal things, things that would not happen.

In that hearing and other hearings, we had experts testify that the bill preempted States' rights, California's right to determine their own water policy.

I said at that particular time that in addition to the human and economic cost, or as I have described it earlier, people and jobs cost, a $4.5 billion hit on the economy and tens of thousands of jobs, I said that I was also concerned about environmental costs because the bill ended water diversions from the Trinity River, for example. I said that would have a significant impact on the fisheries of Sacramento Bay and the delta areas.

And then as we proceeded through these hearings, Mr. President, and after 9 months of negotiations, hard negotiations with Californians, not with people from the banks of the Potomac, there was concluded in California, and I think it was September or October of 1991, a historic compromise on what we should do relative to dipping out of the limited pail of water, who is going to get it and how it should be spread among people and jobs and animals and plants.

That historic compromise was not mine, although it became the bill I introduced, Senate bill 2016, a lot of which is in the bill that is pending today and at the conclusion of our debate will go over to the House of Representatives. That bill was a historic compromise. Quite frankly, in the 9 months that it was negotiated, I never thought it would happen. There were times when I gave up and just walked away shaking my head.

I did not think it would be possible. I did not think it would be possible that the farmers, these so-called greedy water users, could ever possibly reach an agreement with the water needs of urban interests—people and jobs, particularly—in southern California. But I was wrong. They found a way, without me and without any Senator from the banks of the Potomac saying: Here is how you should do it; I know better.

They found a way to do it themselves, in this historic compromise between the farmers of the Central Valley, and specifically the Metropolitan water district, that represents over 16 million water consumers in California. That is over half the population.

So the Met, as we call it, the metropolitan water district and the farmers of the Central Valley reached an agreement: Here is how we will use the limited resources in this pail, and here is how much water we will dip out of it, right off the top, and provide for fish and wildlife purposes.

That compromise became a bill that I introduced on November 21, 1991, almost 1 year ago.

It was for the first time in California's history that one interest, representing over half of the people of the State of California, the metropolitan water district, sat down and hammered out an agreement with the farmers.

(Mr. CONRAD assumed the chair.)

Mr. SEYMOUR. Mr. President, when I stood on the floor on November 21, 1991, I said:

> Mr. President, I rise today to introduce the Central Valley Project Fish and Wildlife Act

> of 1991. Mr. President, this bill is but a beginning. It is the product of California groups—urban, agricultural, and conservation organizations working together to develop legislation to address the fish and wildlife needs in the Central Valley.
>
> This is a first step in an attempt to resolve the water dilemma, which has torn at the State of California for decades. Specifically, the bill provides a mechanism for water transfers—

Get it out of the bucket, redistribute it.

> from agricultural to urban use, and it also includes actions for the restoration of fish and wildlife and mandates firm water supplies—

Firm means you get it. Nobody else may get any water but you have a firm water supply, so you can count on it—

> for wildlife refuges and fishery habitat.

And I said:

> This bill preserves the agricultural economy which is so vital to our State.

What we have before us today is that bill, Senate bill 2016, yet compromised again and again and again. I guess what the bill before us now represents is the best, the very best I could do through the entire process in trying to find a balance. All I ever wanted was a balanced approach, something where we could have a transfer of water to people in jobs in urban areas, somewhere where we could have a reasonable transfer of water to protect fish and wildlife resources and wildlife refuges; but a balanced approach, one that had its priorities based in people and jobs first, and then do whatever we can to enhance our environment and fish and wildlife that is so important to all of us.

I said in that statement that that bill was the beginning of a responsible and equitable solution. And I also said that I was willing to consider any ideas on how to improve it, and we sure have. As that bill rests before us today, to be passed out of here later today, let me say that from my view it embodies plenty of compromise relative to the needs of fish and wildlife. One of the most contentious areas of disagreement between the proponents of H.R. 429 and myself is in this area of fish and wildlife.

When I introduced the bill back in November 1991, I said that it was important that:

> We restore the north coast and river fisheries, and that the bill include several provisions to try to address that, such as the rehabilitation of the Coleman National Fish Hatchery, the installation of a temperature control device at Shasta Dam, and a program for replenishing of river gravels for spawning.

I said:

> While these projects will help restore the fisheries, I realize that any restoration bill will not be complete without increased water supplies.

So I am not saying, as we take the first scoop of water out of that small bucket, that some of it should not go directly to fish and wildlife. In fact, let me go to the bottom line on that one. We will talk more about it later.

The question is, Mr. President, how much is in that first scoop, and who gets it? Well, for fish and wildlife, that first scoop, some might say—in fact, I know they will say—"Not enough, Seymour, not enough," but the first scoop is 246,000 acre feet of water. And then the bill provided that that would grow to 525,000 acre feet of water in 10 years, water that they could count on, water that they knew they could depend on. But that was not enough, not nearly enough.

So we introduced Senate bill 2016.

That bill went before the committee, and was passed out of the committee. As I said earlier, it was not a bill that was embraced, by any stretch of the imagination, by all. But the statement I made before the committee when that bill was passed out—and, as I said, it was not a bill that everybody was happy with.

As a matter of fact, Senator BRADLEY—again I commend him for his willingness to try to negotiate a fair compromise between the bill I have been talking about and his bill, Senate bill S. 484. When that bill passed, it was not embraced by all. It was sent over to the House of Representatives where it met up with H.R. 429.

Let me now turn, Mr. President, to what others think and have to say about this alternative to the bill that is before us now. I am speaking of the water conference bill that will pass tomorrow and go to the President.

Let me read, Mr. President, a letter signed by the Secretary of the Interior, Secretary Lujan, a long letter. I am not going to read it all, but I will read some important components, I think.

The letter was sent to every member of the committee. It had to do with the water conference committee bill that dealt with S. 2106 and H.R. 429. The letter is dated October 5 of this year, just a little more than 2 days ago.

It was sent to the chairman, directed to Senator BENNETT JOHNSTON, chairman of the Energy and Natural Resources Committee.

It says:

> DEAR MR. CHAIRMAN: On September 15, I sent you a letter expressing the administration's position on provisions in H.R. 429 which were then being considered by a House-Senate conference committee with the exception of the National Historic Preservation Act Amendments, title XI of the Senate-passed version.
>
> On September 25, 1992 Assistant Secretary Hayden communicated the administration's concern. In these letters, we expressed the administration's strong and fundamental opposition to both the House and Senate-passed versions of H.R. 429 because of objectionable provisions which should be deleted, or amended, in order that a modified bill at much less Federal expense could be sent to the President.
>
> Unfortunately, the conference report of H.R. 429 still includes many of the objectionable provisions of the earlier House and Senate passed versions.

Then he goes on to cite his concerns relative to various portions of the bill. But relating to the Central Valley project, he includes the following objections.

> The portion relating to the Central Valley project includes many objectionable provisions, including the following:
>
> It provides for a number of expensive measures many of which have not been subjected to feasibility analysis and would be largely financed at Federal expense.
>
> It affects the State of California's authority in matters of water allocation, distribution, and use. And,
>
> It conflicts with the equitable distribution of responsibilities embodied in the coordinated operations agreement, the management of the CVP.
>
> Contrary to one of its stated purposes, the title of the bill reduces the operational flexibility needed to achieve increased multiple uses of water including the ability to provide water for wildlife refuges.

I believe what he is referring to there is Project Purpose. We will talk about Project Purpose. It is an important portion of this bill, a portion of the bill that I say gets the priorities distorted. If your priorities are people and jobs first, and protection of fish and wildlife for animals and plants second, then that is what you ought to state in the bill. The bill does not state that.

Frankly, what the bill states is it is all equal. People and their jobs have no more rights than fish and wildlife, animals and plants—no more rights. They are all equal.

So what is left in that bucket we divvy up? Everybody gets an equal share. Some would say "I am an antienvironmentalist. Why don't you care more for plants and animals?" I do. In fact, the bill we have before us today has 22 different, separate provisions to improve fish, the resource, wildlife, wildlife refuges. So I do.

But let me make one thing clear. I do not take a step back for anybody on this. I think people and jobs are the most important thing. Suppose we double the fish resource. That is what I want to see done. I think that is what Senator BRADLEY wants to see done. How we get there are two different ways. But suppose we achieve our goal and double it. Great. I want it. But suppose you do not have a job. That is little solace for somebody who cannot feed their family.

So I do not apologize to anybody. But I put people and jobs first.

In addition to the letter of opposition from the Secretary of the Interior, I would like to share, Mr. President, with the Members, a letter from the Governor of the State of California. The Governor of the State of California has been opposed to this water conference committee report from day 1.

Quite honestly, although when he read my version, he said "yes, I think California can live with that, John." He did not even want that. The Governor of California said "John, it is not the answer. It is a good bill. But it is not the answer. The answer to California's water problems are found in California."

So what the Governor wanted from day 1—and I support him on this—he wants the State of California to either buy the Central Valley project from the Federal Government, except I am afraid, quite honestly, the price tag would be so high and the more California offered for the project, the higher the price would go, I am afraid, that Californians could not pay it.

So as an alternative to that, what the Governor wants and what I support him on is that California be permitted to manage, to run the Central Valley project. The bottom line of that is let California decide how to allocate their water between people and jobs, animals, and plants. Let them decide.

So the Governor on October 4 wrote every Member of Congress. He said about this bill that will come up tomorrow:

DEAR MEMBER OF CONGRESS: This letter is to state in no uncertain terms that the Western water package, H.R. 429, is completely unacceptable to the State of California.

Our objections are exclusively directed to the provisions affecting California and in no way relate to the projects proposed in other States.

Mr. President, you will recall that I said earlier that this bill has water projects for Western States that I believe have been held hostage, to pour the castor oil down the throat of Californians to reform the CVP. The Governor, like myself, says, "Let those hostages go, let those Western water projects stand on their own, and let the CVP stand on its own. Change it, amend it, but let us not tie the two together."

He says:

Our objections are exclusively directed to the provisions affecting California and in no way relate to the projects proposed in other States.

Indeed, the California provisions are unrelated to the other projects in the bill and should not be linked to them. The California provisions should be served from H.R. 429.

The bill before us today, that will pass at the conclusion of my allotted time and Senator BRADLEY's allotted time, is a stand-alone bill that deals only with the Central Valley project. It does not have any Western State projects in it. That is what I said earlier. We should have that bill over in the House. If they are going to act responsibly, they should vote it up or down. I think it would have a good change of passage. They should have the opportunity to vote it up or down.

The Governor says:

This 30-title measure includes a provision that would dramatically reallocate 20 percent of our State's water.

There is the bucket. We are going to take 20 percent right out of the bucket.

It would strike a vicious economic blow to California, and create a second century of California water wars, whose only winners—

When you get into a legal war, who wins? The attorneys? You got it. The Governor of California says:

a second century of California water wars, whose only winners will be the litigators—

And he goes on. Governor Wilson says:

Senator Seymour and other members of California's congressional delegation were excluded from the negotiations over the Central Valley reform proposal that was pushed upon the conferees. A back room deal, hastily negotiated in the final days of session, with no analysis to explain its impacts, is no substitute for the care and fairness needed to make the policy that will allocate California's critically important water supply.

Such political maneuvering is unconscionable given the grave harm this measure threatens to California. Anyone who has been even casually involved with this issue knows that lasting and beneficial reform of the Central Valley Project can be achieved only through solutions that take into consideration and effectively balance the needs of all the California water user groups, metropolitan, industrial, or, as I have called it, people in jobs, agricultural and environmental.

Sadly, the measure currently before you is so skewed that, far from solving the problem of water allocation, it instead will drive a wedge between environmental, agricultural, and urban water interests, making the needed and possible consensus for solution all the more difficult to achieve, despite all of our hard work in the State to do so.

The Governor goes on by saying:

As California struggles to deal with almost 10 percent unemployment and the loss of over 700,000 jobs during the current recession, it is simply inexcusable to cripple our agricultural sector, and threaten the loss of the hundred of thousands of jobs in the processing, packaging, distribution, and marketing of California product—

Remember, it is an $18 billion annual industry we are talking about.

by the cavalier passage of this measure.

The Governor goes on:

Water is California's life blood. There can be no justification for Members of Congress to exclude California's elected representatives and arrogate this decisionmaking process that will determine California's water future to those from other States. Doing so will set a dangerous and indefensible precedent. Decisions that should be taken up in the Statehouses will be made in the closed hearing room of the Congress, closed even to the representatives of the State whose future is being decided, closed even to that State's conferees.

That is what happened. He says:

There can be no justification for this result. Those who know better and who would object strenuously were they and their states subjected to this treatment should not succumb to extortion.

That is a strong word. I talked about hostages. He talks about extortion. He says:

They should instead insist upon the decoupling of the authorizations for needed water projects in other States from the provisions of H.R. 429 that threaten to inflict on California such grave harm and such great inequity. I cannot urge too strongly either to decouple and sever the California provisions, or do whatever is required to refuse passage to H.R. 429 as presently drafted.

Sincerely, Peter Wilson, Governor of the State of California.

As I said earlier, this conference report I have been talking about and that has in it the water projects and reform of the CVP will be voted on in this house tomorrow. It will go the President's desk, and although we have had some indications that he will veto it, there is no certainty in that. I say we have had indications he will veto it because, as I have shared with you the letter from the Secretary of the Interior, I am about to share with you a letter from the Secretary of Agriculture, Ed Madigan. He is recommending a veto as well. This is a short letter, sent to Congressman GEORGE MILLER, chairman of the Committee on Interior and Insular Affairs.

DEAR GEORGE: On May 20, 1992, I sent a letter outlining briefly my objections to provisions of legislation on the Central Valley Project. Then, on September 15, 1992, Secretary of the Interior Lujan expressed my continuing concerns in a letter concerning H.R. 429. Secretary Lujan has also sent a letter today stressing that the full conference report continues to warrant a veto by the President.

The conference report on H.R. 429 contains language that remains unnecessarily detrimental to agriculture. Title XXXIV severely reduces water availability for agriculture, causes substantial increases in water prices for agricultural users, restricts the renewal of contracts—

Remember, I talked about contracts, comparing them to the home mortgage, the mortgage on your home.

restricts the renewal of contracts to 2 or 3 years for the foreseeable future—until a new and extremely broad environmental impact statement is finally completed, assesses a $50 million surcharge on water and power users, taxes renewal of water contracts in a way that may well be prohibitive for agricultural contractors, and places unwarranted restrictions on water transfers.

I want to repeat that.

and places unwarranted restrictions on water transfers.

What we talked about at the outset and what we all want is to transfer water from the Central Valley to urban and industrial uses, people and jobs, and also transfer water to fish and wildlife, animals and plants.

Why do we want to restrict that? Why do we want to tie it up? That is why I have said if that conference committee report becomes law, the one we will pass out of here tomorrow, if that becomes law all it will ensure is that the scoop coming out for environmental purposes that will go on that will take place, but as far as transferring water to people and jobs that is going to be tied up in a decade of litigation. The only people who are going to get rich off that one are the attorneys on both sides.

Some might say, well, John Seymour, you are standing there all alone on the floor of the U.S. Senate. Obviously, there are not a great number of your colleagues that feel as strongly as you do.

And I can understand that. By the way, they do not represent California. I represent California in the U.S. Senate, and Senator ALAN CRANSTON who is on the other side of this issue is our other Senator.

But how about over in the House of Representatives? How does California's congressional delegation feel about this water conference committee report?

Let me share with you a letter signed by 18 Members of the California congressional delegation, and it was sent to their colleagues in the House of Representatives, to all 435. It says:

> DEAR COLLEAGUE: We urge you to support a motion to recommit the conference report for H.R. 429—

Recommit, and in referencing that as we all know is a way of saying we do not like it, send it back and do it over.

They said we want you to support this motion to recommit.

> If the recommittal fails, we urge you to vote No on the conference report.
>
> We are not opposed to reforming the CVP to make it more responsive to the needs of the environment, agriculture and California's growing cities, but the conference report doesn't do that. It seeks to solve environmental problems by severely and arbitrarily reducing CVP water deliveries to Central Valley farms and urban areas.
>
> The Department of the Interior states that if H.R. 429 were law, farms and cities in the southern part of the Central Valley would have received no water at all from the CVP during 1990, 1991, and 1992.
>
> No water at all. That's not "sharing." That's not compromise. That's not acceptable.
>
> H.R 429 also would drastically increase the price of water for both farmers and urban areas while removing the certainty of future supplies.
>
> In a letter to all members of Congress, California Governor Pete Wilson has said that the CVP provisions of H.R. 429 are "Completely unacceptable to the State of California" because they will "strike a vicious economic blow to California, and create a second century of California water wars whose only winners will be the litigators."
>
> The Secretaries of Interior and Agriculture have said that they will recommend a veto of H.R. 429 because of the CVP title.
>
> We don't oppose the other worthy projects in H.R. 429, and we regret that they have been held hostage to this misguided effort to "reform" the Central Valley Project. But we cannot sit back and allow the livelihoods of our constituents to be destroyed.
>
> If you support the other projects in H.R. 429 and want to bring about an equitable solution to California's water problems, vote yes on the recommittal motion to remove the CVP title from the conference report.
>
> If the CVP title isn't removed, vote No on the conference report.

You might add, well, that was the letter asking the Members to vote in a certain fashion. How did they vote? And particularly important, how did Californians vote? This project is not about New Jersey. Although I know the Senator from New Jersey has a very deep sincere and abiding interest relative to the reform of California's Central Valley project. This is not about the State of Louisiana, although I know the chairman of our committee, Senator BENNETT JOHNSTON has a very sincere and deep abiding interest in the Central Valley project. This is about California.

And the fact that this Senator who is a member not only of the committee not only participated in the process, not only was a member of the conference committee itself, this Senator from California when it came to California's interest, the Central Valley project, was totally excluded from the conference process.

We did have one meeting. We did have one meeting, and I was there. The chairman of the meeting we decided at that meeting would be Congressman GEORGE MILLER. That was action we took. Nobody opposed that. I did not oppose that.

And then in that meeting, that one meeting that I was permitted in, and the public was permitted in that one meeting, Congressman MILLER laid out his proposal. He said: "Here it is. I have talked to a lot of folks, talked to Senator JOHNSTON from Louisiana and Senator BRADLEY from New Jersey. I also talked with one or two Members from California of the House." I do not know who they were. They were not named. I suspect one of them was Congressman VIC FAZIO who has also tried very diligently to find a compromise. But they did not talk to any other Californians on the conference committee.

He never talked to me. I only had one conversation with Congressman MILLER in the 21 months I have been working on this. That occurred on an airplane flight from Washington, DC back to California. We were both going home and it occurred, as I best recall, it was either spring or summer of 1991.

Congressman MILLER said: "We really should work this out."

I said: "You are right. I want to work it out, GEORGE."

He said: "Well, you know agriculture has just got to give up some water."

I said: "You are right, they do. I want to work that out. But," I said, "you know your demands for water for fish and wildlife purposes, animals and plants, are too severe. You are going to hurt people. You are going to hurt jobs. We need to have a better balance."

He said: "Well, John, you just do not understand."

I said: "Maybe I do not." I said: "I will tell you what, let us have a bigger bucket of water. Let us develop some water resources in California. If we can develop some water resource in California, some new real water, so they have millions of acre feet runoff into the ocean and do not catch it, I will be happy to go along with the 2 million acre-feet of water you want scooped off the top for animals and plant, fish and wildlife. I will be happy to do that."

The fact is, as I said earlier today, I said to Senator BRADLEY who at that time he wanted 2 million acre-feet, I said you can have it all. You can have every drop of water, new water that we can put into the bucket.

That conversation I had with Congressman MILLER back on that flight to California was the only time that I was ever permitted an opportunity to be in the process.

I was plenty in the process with Senator BRADLEY and Senator JOHNSTON. I will just share with you that they had one public meeting that I was invited to and I attended. We selected Congressman MILLER as the chairman. Congressman MILLER then laid out this proposal and it was like a take it or leave it. I had not even seen it much less been a part of the process of developing it. I also know that members of the conference committee who represent the human beings and jobs in the Central Valley were excluded from this process.

They did not get to go to the meetings either. So why, then, wouldn't the members of the California delegation of the House of Representatives, or at least 18 of the Members, sign this letter that says send that conference committee report back and let them sever the other water projects away from the California Central Valley project?

Well, how did they vote? I mean that is what is important. We all do a lot of talking around here, but what really counts is how you vote. You can talk all day, but how do you vote?

I have done business here in the U.S. Senate with my colleagues, did it for 8 years in the California State Legislature as a State senator, and so many times I have had members say, "John, I'm with you," until the rollcall. Then they are not with you.

And so the important thing is how do you vote? Well, here is how the California delegation voted. Against the bill were 25 California Members of the House of Representatives. For the bill were 19 Members.

Well, I have been going on for some time now. My distinguished colleague, Senator BRADLEY, who represents the other side of this debate and argument, has asked that he might debate for an hour, and then I would be recognized to pick up on the remainder of my time according to the unanimous-consent agreement which afforded me a total of 4 hours.

And so at this particular time, Mr. President, I yield the floor to Senator BRADLEY, reserving my right to the remainder of my time.

The PRESIDING OFFICER. The Senator from New Jersey is recognized.

Mr. BRADLEY. Mr. President, let me begin by expressing to my colleague from California that I was very pleased with his agreement to the procedure that we would follow. I think this is an important debate for us to have. I think the issue is a very important one. I do think there is a difference of opinion. I think we have worked well together and I respect the way the junior Senator from California works.

I hope this issue will be resolved in such a way that, over time, he will agree with its resolution.

Let me begin by making an obvious point. California is a desert State, a fact that is often forgotten in the rush for development and for growth.

California is home to nearly 28 million people, with as many as 800,000 people arriving there each year. In other words, the State of California grows each year by a size the equivalent of the city of San Francisco. A new San Francisco arrives in California each year.

Water has shaped the growth and the culture of California in ways that are obvious to all. Water comes from two main sources: one is ground water, which is obtained by sticking a pipe or a well into the ground and pumping the water out.

The second source is surface water, mainly obtained from rivers that are frequently dammed to create reservoirs. These supplies allow for the availability of water to people who live in a desert. Without the dams and reservoirs, people would not be able to live in a desert.

In California, about one-third of the State's water supply comes from surface water: the reservoirs, lakes and dams. Twenty percent of all California water comes from the Central Valley project.

The Central Valley project is a massive public works project. Until you have flown over the Central Valley project, as I have, and had the opportunity to see it in its entirety, there is no ability to comprehend the size of this project.

As the distinguished Senator from California said, the valley is 500 miles long and 120 miles wide. This project spans the length of the valley from the Shasta Dam in the north, continuing all the way down to the southern end of the valley. It is a remarkable, remarkable public works project.

The Central Valley project is really a collection of numerous individual project units that Congress has authorized over a period of 50 years .

Generally, what the Central Valley project does is collect and distribute waters from north of the San Francisco Bay Sacramento-San Joaquin Delta, and transmit that water south through the tracey pumping station, into the valley. It supplies about 7 million acre-feet a year, about 20 percent of California's water. In dry years, the project supplies a little less.

Initial elements of the Bureau of Reclamation's Central Valley project were authorized in 1935. Shasta Dam on the Sacramento River and Friant Dam on the San Joaquin River are diverted to the Madera and Friant-Kern Canals; the Delta-Mendota Canal; the Contra Costa Canal. All of these features flowed from that initial decision.

In 1949, Congress authorized the American River Division of the CVP, and in 1950, the Sacramento Canal Unit; in 1960, the San Luis Unit; 1962, the New Melones Unit; 1965 the Auburn-Folsom South Unit; and 1967, the San Felipe Unit.

Mr. President, this is a public works project that was built with U.S. taxpayer dollars. The present value of the Central Valley project is about $3.7 billion in terms of construction costs alone. By the year 2030, a little over $200 million of that debt will have been repaid. This translates into a Federal subsidy in this project of 95 percent—A 95-percent Federal subsidy. As you can see it is clear why we have an interest in this project.

In California as a whole, the way water is used is also very important for us to understand—80 to 85 percent of the water is used in agriculture. If agriculture simply saved 10 percent of its water, you would double the amount of water available for the residential and commercial sectors of California. Water prices vary greatly in the State of California even for agriculture. If you are a farmer in San Diego County, you will pay as much as $400 an acre-foot. An acre-foot contains approximately 325,000 gallons. If you are a farmer in the area serviced by this project, however you pay in the neighborhood of $16 to $20 an acre-foot. The breakdown is from $400 an acre-foot if you are in San Diego to $16 to $20 an acre-foot if you are in the Central Valley.

There are, in fact, four crops—rice, cotton, irrigated pasture and hay—that represent 11 percent of the crop value in California but consume 50 percent of the water. In the Central Valley, it is the low value crop that is produced primarily in large part because the water is so cheap, $16 to $18 an acre-foot, versus $400 an acre-foot in San Diego. In San Diego, the farmers produce a higher value product. The farmers in the Central Valley, a low value product. Again, this disparity is best illustrated by the fact that rice, cotton, hay, and irrigated pasture, the major commodities in the Central Valley, use 50 percent of the water and produce 11 percent of the crop value.

What is also important to remember is that California is not simply an agricultural State. California has a gross State economic product of over $760 billion. Of that State product, agriculture respresents, as the distinguished Senator from California has stated on the floor today, about $18.5 billion. Therefore, out of a State economic product of $760 billion, agriculture accounts for $18.5 billion of that $760 billion while using 80 to 85 percent of all the water in California.

The price for water in the State, varies more dramatically from the $10 an acre-foot you pay as a preproject user of the CVP, that is someone who had a water right prior to the project being built and a price as high as $1,700 to $1,800 an acre-foot for those residents of Santa Barbara, for example, who have to contemplate desalination for their water supply.

California is now in the sixth year of a drought. There are first graders in California who have never seen a green lawn, and yet every year 800,000 more people move into the State; another San Francisco every year. If the drought continues and the people keep coming, the message is going to be clear; bring your own water because there will not be enough water in California. That implies water has to be used differently and more efficiently.

In addition to questions of what is the nature of the agricultural economy and what is the composition of the total economy, the question of what is the role of the environment is relevant when one thinks about water in California. The environment in California is diverse and rich and is directly related to water. It is in peril because of the shortage of water.

There were once 4 million acres of wetlands in the Central Valley—4 million. That now seems like a long time ago. There are now about 300,000 acres of wetland in the Central Valley; 100,000 acres have disappeared since 1950 due to the operations of the CVP alone. There were once 6,000 miles of spawning streams for salmon in California. Now there are 300 miles. Eighty million juvenile striped bass every year are sucked through the delta pumps. Salmon are headed toward the endangered species list in many places. Only 200 Chinook moved up the Sacramento River just a short time ago.

In addition to fish being a potentially endangered species, there is the Pacific flyway where waterfowl populations are affected by the loss of wetlands, where birds fly from South of Mexico to Alaska and rest and feed in the wetlands. Because of the operation of the CVP, the Pacific flyway now wasteland with selenium contamination of increasing toxicity.

The point to be made in this brief opening is that when you talk about water in California, you are talking about the lifeblood of the State.

(Mr. BINGAMAN assumed the chair.)

Mr. BRADLEY. It affects every citizen whose home is in California. It affects agriculture, an $18.5 billion industry. It affects consumers, industry, business, the environment—the economic well-being of the whole State. It affects the future in a very real way.

The key concept for California's future when it comes to water is balance—balance among the competing interests, balance in use, balance in efficiency. Balance is also important in the transfer and allocation of water among the competing needs of the State of California.

As the distinguished Senator from California has mentioned, this is an issue which the Water and Power Subcommittee, of which I am chairman, has studied carefully over the last 4 years. I held my first hearing in California in August of 1989, in Sacramento, sitting through 7 or 8 hours of hearing. Subsequently, we have had hearings in Los Angeles and San Francisco, back in Sacramento, and here in Washington.

I have visited farms in the valley and farms in San Diego County. I have talked with fishermen whose livelihoods have been endangered by the drought and the way water is allocated. I have talked to businesses that need the water desperately for their own industrial processes and now have difficulty getting it because 80 to 85 percent of the water is used for agriculture. I have talked to farmers concerned about their livelihood, worried about any change and how it might affect that livelihood. I have talked to community leaders in cities in the valley, who have concerns that need to be addressed. I have talked to environmentalists, friends of the environment, people who care about California's natural resources. I have talked to politicians, to local politicians, to State politicians, to Federal politicians. I have tried to listen.

In our hearings, we have had testimony from over 75 witnesses, but that total does not count the hundreds who have moved through my office in this meeting and that meeting, in California and in Washington, to talk about California water. It is after these many years of listening that I came forward with the bill that was modified by the chairman further modified by the bill we sent out of the Senate, and then still later modified by an initial conference agreement, and then finally brought together in the CVP title that we have in this omnibus water bill, H.R. 429.

There are really three elements in dealing with the problem of water in California. One is you are not going to solve the problems without using water more efficiently. You cannot have two farmers growing the same crops in the same water district 3 miles from each other with the same soils and yet one farmer is using two, three, four times more water than the other farmer. You have to use water more efficiently.

You need to solve the problems that come from the fact that California is a desert State and water is a scarce quantity. There are competing needs, and every competing need grows with another passing year, with another 800,000 people coming into the State, with a giant economy of which agriculture is only $18.5 billion although it continues to get 80 to 85 percent of all of California's water. What you need is water. You cannot solve endangered species problems with air. You need water. You cannot solve the problems of electronics firms that need water to create new jobs without water. You cannot solve the problem of fishermen who have lost their livelihood because the streams have been depleted without water. The first thing you need is water.

The second thing you need is money. There has been an incredible deterioration of the resources of the valley which needs to be mitigated. That takes money.

Finally you need flexibility, flexibility for the State of California to begin to address the competing demands of water in the State.

The Central Valley project represents 20 percent of all California water, 20 percent of all California water which is totally off limits for California. When Governor Wilson established the water bank a few years ago, he could only draw from the State water project, a little over 3 million acre-feet he could tell the farmers that use it, "Sell your water to the water bank and then we will reallocate it the way California would like to see it used." He could not touch 7 million, 8 million acre-feet of water that is the Central Valley project. It was not a flexible system. Flexibility is the third principle.

As you think about the principles, it is also important to think what happens if we do nothing, if business continues as usual. If this bill is not signed, what happens? You can probably count on the extinction of several species, not the least of which might be California fishermen. The demise of the fishing industry will be followed by the collapse of many northern California coastal towns. During the next drought, people, just average people, will end up paying hundreds of dollars for every acre-foot of water they use, and they will watch their lawns and their gardens die while just over the hill in the Central Valley hundreds of thousands of acres of subsidized cotton and rice will flourish in the desert.

They will see Federal courts and State courts which will soon be running the Central Valley project, and every other water project which takes its water from the rivers of the Central Valley. The courts will be running not just the Central Valley but also the State water project and maybe even the San Francisco system. The Delta smelt could become to California what the spotted owl has become to Oregon and Washington. Silicon Valley electronics firms and other businesses will begin to flee California, more jobs being lost in search of clean, reliable water supplies in other areas. The ports of San Francisco and Oakland will lose a significant part of their shipping business as thousands of jobs go to other ports without dredging restrictions, dredging restrictions due in large part to the absence of an adequate flow through the San Francisco Bay/Sacramento-San Joaquin Valley Delta.

The Bureau of Reclamation and Central Valley agribusiness will, however, under a world where nothing happens, still be sitting on 20 percent of the State's water and running it as they choose. Parched communities throughout the State will be left with no choice but to beg for water from irrigation districts under a system in which the growers and others will not be able to provide that much needed water.

The farmers—not the small farmers, but the big farmers—will continue to force small family farms out of business, and continue to take subsidized water originally intended for those small farms.

This bill does not deal with the issue of reclamation reform. But make no mistake; the Central Valley is not all small farmers. Some farms are over 20,000 acres, through interlocking ownerships, and they will continue to get the benefit of subsidized water as well as subsidized crops.

The California cities unable to get ready access to new water through voluntary transfer will be left with no obvious choice but to spend billions of dollars on polluting and expensive desalination plants, or lobbying for the construction of the Peripheral Canal or the Auburn Dam, or diversion of wild north coast rivers.

If nothing happens, Canada and Mexico and the Confederation of Independent States will confront the World Court, arguing that the Central Valley farmers and the Bureau of Reclamation have engaged in a calculated effort to exterminate the waterfowl on the Pacific flyway.

The Central Valley itself, if no action is taken, will be dotted with thousands of acres of agricultural drainage ponds, each one of which will be a mini-Kesterson, laden with toxic runoff and the carcasses of dead waterfowl.

Mr. President, what we are faced with is nothing less than the decision whether the next generation of Californians will see this State's water shared fairly, or whether the State's economy and environment will be sacrificed to the demands of a very few. It is a question of whether the water of the Central Valley should be for the many, or for the few. It is a very basic question.

So I would argue, as I have throughout, that to do nothing is to bring about the possibility, if not the reality, of all the things that I just talked about. That is unacceptable. It should be unacceptable to everyone. Yet, if this bill is not passed, or if it is vetoed, that is the prospect that is on the horizon.

So it is important to note, Mr. President, that the Central Valley project's importance is not just to California; it has an importance to the entire West. What do I mean by that? It seems, from an environmental perspective, the project has caused significant injury to the migratory fish and waterfowl California shares with Oregon, Washington, Idaho, Montana, Nevada, Alaska, and Canada.

Proper management of the CVP is essential if we are going to protect and expand the Pacific flyway and the west coast salmon and steelhead trout.

The proper management of the CVP is also vital to the protection of the other States' own water resources. What do I mean by that? To the extent California is unable to use its own water to meet its growing urban needs—800,000 people coming into the State every year—the State will be obliged to try to find water somwhere else.

I think—as Senators from Arizona, Colorado, Wyoming, Utah, New Mexico, and elsewhere are acutely aware—perhaps the single greatest threat to the stability of the water allocation agreements on the Colorado River is the prospect that Central Valley water will not be available for use by Californians outside the Central Valley.

You have already begun to see this. For a number of years, California benefited from Arizona's allocation under the Colorado River compact: 300,000 or 400,000 acre feet of water. Arizona now says that it needs that water. California faced the prospect of losing that water for its own consumers. What did it do? It went to the Colorado Basin States and petitioned to get more water. Of course, the answer was no.

Clearly, unless water is used more efficiently, unless it is allowed to be transferred flexibly out of the valley to the growing and diverse needs of a growing and diverse State, the pressure will increase on other Colorado Basin States.

Mr. President, my fundamental objective in sponsoring CVP reform legislation has been to eliminate or modify Federal policies and practices which have left the Central Valley project strikingly out of step with the California water law and policy. The result of these Federal policies and practices is that the Central Valley project functions as a State within a State. It has become like some sort of Federal preserve, insulated against State law and environmental accountability

It has been a long process to bring the bill this far. As I said, we started in 1989. There have been some ironies along the way. one of them is that, although in four to five hearings that we had, we heard strong support from municipal and State officials and from environmentalists, and from others inside and outside the CVP, we also heard some interesting criticism from some Central Valley agricultural interests.

We were told that in the bill that we originally introduced and even this bill were examples of imperial Washington trying to tell the State of California what to do—States rights were at risk; proper notions of federalism were offended.

The truth of the matter is that the clearest case of Federal interference in California affairs can be seen in the Department of the Interior's ongoing effort to renew CVP water contracts for another 40 years. The Department of the Interior wants to lock all of the CVP's flaws into place for another 40 years, into the middle of the next century.

Those water contracts parcel out 20 percent of California's water supply to several thousand lucky landholders, who are largely out of the reach of State regulators or policymakers. If the Governor wanted to create a water bank, as he did 2 years ago, he could not get access to this water.

It is controlled by the Federal Government and the Central Valley project. The Governor of California, under current law, cannot get access to it. The State of California did not get to set the terms of the original contracts and, according to the Department of the Interior, they will get no opportunity to set the terms for these new contracts.

States rights? The 40-year contract in the Central Valley project is the exact opposite of States rights. It is a Federal preserve operating in the State without the control of the State's elected authorities.

The original 40-year Central Valley water contracts began expiring in 1989. And most such contracts will expire before the turn of the century.

The Department of the Interior plans to renew the expiring contracts on the same terms as the originals: The same lucky beneficiaries—the same generous quantity of water, the same 40-year length, the same permissive conditions—as if California has not changed in the last 40 years; as if 800,000 people are not moving into the State every year; as if the $760 billion economy had not $18.5 billion of it in agriculture, but much, much more.

The Secretary of Interior wants to renew the contracts—same terms, same conditions. Which means no water conservation required; no voluntary transfers outside the valley to thirsty Californians in Los Angeles County or elsewhere. No water for fish and wildlife. No solution to agricultural drainage problems, no sense of responsibility to anything but the fondly remembered past.

Mr. President, it is really an inexplicable situation. California, as I made the point over and over, is strikingly different than it was 40 years ago: Millions more people, a rapidly changing economy. Under the terms of the CVP contracts, what made sense in 1949 apparently is carved in stone forever.

It is not only inexplicable, but absurd. Under the legislation in the bill, State law would be enforced and determine allocation of water in 1999. A 7-year transition. In my original bill, I was prepared to say that the water under the CVP should be allocated immediately according to State law. Who did not want water allocated right away, which is the ultimate States' rights position, the position I was prepared to take? The farmers, the growers. They wanted a time of transition. Senator SEYMOUR's bill has I think 1996 or 1997. I have 1999. So it is a 3-year difference, at which time the State of California will determine it.

So the States' rights argument just does not stand up to the facts. The opposite of States' rights is to do nothing, which you would be doing if you voted against this bill. You would be allowing the Secretary of the Interior to execute, once again, 40-year contracts, outside of the control of the government of California.

What about the contracts themselves? The Department of the Interior's policy on the Central Valley contract renewals threatens to put a Federal straitjacket on California's water system. CVP contracts have shielded a select group of irrigators for the past 40 years from any change in the State's water needs. In the process, the needs of the environment, of urban areas, and other agricultural areas have been hurt or denied. If contracts are renewed, unchanged for another 40 years, the damage would only be compounded.

Mr. President, Washington set the rules for the CVP. Washington is going to have to fix the rules for the CVP. Federal law has to change. With the contracts now up for renewal, it is the Congress' responsibility to act swiftly to make sure that the CVP is at long last integrated into the contemporary law and policy of California. California cannot adequately plan for its future until that is done. Nor can other Western States be sure that their fish, waterfowl, and water resources are out of jeopardy, out of the grasp and the reach of a California that does not have the benefit of Federal legislation reforming the Central Valley project.

So it is with that in mind that we came to this bill. Title XXXIV. It would open the project to voluntary water transfers, improved water usage and efficiency, and require the project to pay its environmental costs. I think these changes are essential if we are going to meet California's basic needs for clean and ample water supplies and a healthy environment.

It is perfectly reasonable for Congress in California to ask the CVP to take responsibility for its environmental problems. After all, the taxpayer has been unusually generous with all these vast dams, canals, and reservoirs. Central Valley farmland is an oasis; it is a miracle. It is some of the most productive in the world. Central Valley agribusiness is enormously profitable.

In 1989, alone, Central Valley project growers reaped over $3.5 billion in gross crop values. That is out of the $18.5 billion for the whole State of California. Why was it so low in relation to the total value of crops? Because they grow low value crops. Remember, 50 percent of the water goes to 11 percent of the crop values, embodied in four crops: cotton, rice, hay, and irrigated pasture.

Since the CVP began delivering water in the 1940's, the Central Valley project growers have produced crops worth over $47 billion. So business is pretty good. Yet, the Central Valley growers have yet to repay any of the taxpayers' money used to build the project, and routinely fail to pay even the annual cost of Central Valley operations and maintenance.

Mr. President, get this. The Federal taxpayer will spend about $3.8 billion, according to a conservative estimate, to build the Central Valley project, and in the year 2030, the growers may repay about $203 million—approximately 5 percent of the total Central Valley construction costs measured in 1989 dollars. In other words, about $3.6 billion of the construction costs will be a Federal subsidy, never repaid.

This expected repayment will return only about 13 percent of the cost normally repayable in other Bureau of Reclamation irrigation projects elsewhere in California or the West. What do I mean by that? Take another project, not the CVP, what a project in the State of New Mexico, has to repay, or Wyoming or Colorado, what those projects have to repay versus what the Central Valley will repay.

The Central Valley will repay only 13 to 16 percent of what the projects have to repay in the State of the distinguished Senator from New Mexico, and in most of the other Bureau of Reclamation States—all over the West.

We are talking about what it repays, but it is even worse than that. The story is even worse than that. In recent years, it has cost the Federal taxpayers somewhere between $30 and $40 million just to run the CVP every year. Forget about repaying what it cost to build. Just to run it.

Each year CVP growers pay the Federal taxpayers somewhere between $20 and $30 million for the water they received; what the farmers pay, that is how they get $16 water. And these revenues, what the farmers pay, rarely meet expenses. Indeed, between 1986 and 1990, payments from the Central Valley project growers fell $30 million short of covering the taxpayer's cost of the project over those 4 years. That is over 4 years, not 1 year, but over a 4-year period. In 1989, when the Central Valley growers enjoyed crop values of $3.5 billion, they paid the U.S. Government $29.3 million which is $2.2 million less than it cost to run the project that year.

So do we have a Federal interest? We are certainly paying the bill. I think we have a Federal interest. The public contributions to the CVP do not end with billions of dollars in construction and operation costs. Southern California and the Bay area cities draw their drinking water from the San Francisco Bay-Sacramento-San Joaquin Delta. That same waterway has been polluted by agricultural drainage. Irrigation water leaches toxic elements such as selenium, arsenic, and cadmium out of the Central Valley soils and into the rivers. Agrichemicals wash off fields and crops into the waters and flow into other communities.

This represents another cost, Mr. President, another cost.

Recent State investigations found toxic levels of diazinon, parathion, carbaryl, and carbofuran pesticides in runoff from the San Joaquin Valley orchard and row crops. Samples taken from a 35-mile stretch of the river exceeded EPA safety levels of diazinon and parathion by 141 and 177 times their permitted levels.

This is the brew that is then pumped south and west toward millions of California homes and faucets before it reaches the tap. Of course, the water has to be treated and rid of this agricultural waste.

The cost of treatment is reflected in Californians' water bills. If treatment fails, the cost of Central Valley agricultural drainage may be reflected in Californians' health.

This title, title 34, would require Central Valley project irrigation districts to take responsibility for meeting all applicable water quality standards, no longer allowing pesticides to wash off in the river, floating downstream as if it were the other guy's problem. No. Each district has to take responsibility for these water quality standards, which should help the environment in every downstream community.

Mr. President, once again just to make the point, it is not like we have the option of doing nothing here. The certainty of much of California's water supply is actually threatened by the way the CVP is operated today.

The Central Valley project is the largest source of salmon and bass. What is going to happen here is very clear. A court is going to take over and run the Central Valley project. There is going to be a lawsuit in court over the Delta smelt, the equivalent of the spotted owl in the Northwest. Who will benefit? Nobody will benefit.

Mr. President, I would argue now is the time to act on the substantive question.

I ask unanimous consent that a court document from a Bureau of Reclamation economist, Mr. David A. Kubichek, taken in a deposition in a court case in California, be printed in the RECORD at the appropriate point in my remarks in which I talked about subsidies.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DAVID F. LEVI,
U.S. Attorney.

DECLARATION OF DAVID F. SCHUY

I, David F. Schuy, declare as follows:

1. I am a Resource Economist currently employed as an Acreage Limitation Specialist by the U.S. Department of the Interior, Bureau of Reclamation. I have prepared an estimate of the federal subsidy to irrigation water users in the Central Valley Project (CVP) and the Westlands Water District (WWD) based upon data provided by the Mid-Pacific Regional Office in Sacramento. If called upon to testify, I will testify as set forth in this declaration. I hold the degree Doctor of Philosophy in Resource Economics from Washington State University and have over 25 years experience in water resources planning and research.

1. The irrigation subsidy is the difference between the cost of constructing, operating and maintaining an irrigation project including interest on investment and the share of these costs paid by the water user. The subsidy is calculated as a present value in 1987, which means that federal expenditures and water users' payment prior to the data are accumulated with interest, and subsequent payments are discounted.

The interest rates used in these computations are the long-term Federal borrowing rates in effect at the beginning of ten-year intervals over the period 1902 to 1978 as reported in the U.S. Department of Interior's Acreage Limitation Environmental Impact Statement. From 1979 to the present time the interest rates were calculated in an equivalent manner, but for shorter periods, by the Office of Program and Policy Analysis, U.S. Department of Interior. The current long term rate of 8.875 percent is used to discount future repayment revenues, and to amortize present values to average annual values. The data and procedures used in my calculations are attached as Tables 1 through 6.

CENTRAL VALLEY PROJECT

2. As of 1987, the Federal investment in the CVP including interest allocated to irrigation was $6,838 million (Table 1) Assuming the irrigation water users pay back the current net federal construction expenditures allocated to irrigation amounting to $1,667 million by 2030 in equal annual installments, the present value of future repayment is $428 million, leaving the present value of the subsidy in 1987 at $6,410 million. This amounts to $1684 per acre foot of water delivered in 1987. The present value of future repayment is actually less than shown in this estimate because payments will be lower than average in the near term future, and water users might not repay the project cost by 2030.

WESTLANDS WATER DISTRICT

3. The present value of the subsidy for the irrigation distribution and collector drainage system for the WWD in 1987 is $476 million or $373 acre foot of water delivered in 1987 (Table 2).

4. The total present value of the subsidy per acre foot of water delivered in 1987 is therefore $2057. The long term average annual CVP water delivery to WWD is 2.5 acre feet per acre, which results in a total present value of the subsidy in 1987 of $5,142 per acre. The annual value of this subsidy determined by amortizing it over 43 years to 2030 at 8.875 percent interest is $468 per acre. This is the subsidy in terms of cost to the United States for delivering water to each acre of land in the WWD in 1987.

BOSTON RANCH AND WESTHAVEN FARMING COMPANIES

5. Boston Ranch Company has 23,711 acres of excess land under recordable contract. Westhaven Farming Company has 5,044 acres of excess land under recordable contract. Based on the average subsidy per acre of $468 given in the preceding paragraph, the subsidy to Boston Ranch Company for the 1987 water year was $11.1 million. Similarly, the total subsidy to westhaven Farming Company was $2.4 million

6. Boston Ranch Company has had land under recordable contract since 1972. The annual subsidies per irrigated acre were calculated from 1972 through 1987 (Tables 3, 4, and 5). The total annual subsidy to land in the WWD from 1972 through 1987 is $3,189 per acre irrigated. Therefore, the total irrigation subsidy to Boston Ranch Company for its excess land under recordable contract since 1972 is estimated at $76 million (Table 6).

7. Part of the Westhaven Farming Company's excess lands were placed under recordable contract in 1973 and the balance in 1974. The total subsidy to the owners of these lands by 1987 estimated in the same way was $15 million (Table 6). The average value per acre is $3,025.

8. The estimated total irrigation subsidies to Boston Ranch and Westhaven Farming Companies are $91 million.

I declare under penalty of perjury that the foregoing is true and correct.

Executed this 26 day of April, 1988.

DAVID F. SCHUY.

ESTIMATED IRRIGATION SUBSIDY, CENTRAL VALLEY PROJECT

Mr. BRADLEY. Mr. President, it is in this court document that a Bureau of Reclamation economist asserts the subsidy is not $3.5 or $3.6 billion but closer to $6 billion.

Mr. President, this is where we are. A rough recap: total water in California is about 35- to 40-million acre-feet, of which 5 million is urban, and 30 million is agriculture. Total use in Central Valley is 22 million acre-feet.

Central Valley project water, remember, is groundwater and surface water. Central Valley project water is approximately 7 million acre-feet. What this bill does is require a million acre-feet in normal years, only 750,000 acre-feet in drier years, be allocated for fish and wildlife. That requirement represents about 2.1 to 2.8 percent of California's water, about 4 percent of Central Valley water, about 11 percent of the CVP water in a normal year, and only about 16 percent in even the driest year, 1992.

Mr. President, in attempt to get a bill we though was responsive to everyone, I literally reached out to thousands of people through requests and suggestions. We now have a bill that provides major contract reform, renews contracts automatically for 25 years and at the end of 25 years they may be renewed, provides water transfer language which will allow the transfer of water out of the Central Valley project to other places in California over which Central Valley users have right of first refusal, and says no more than 20 percent of the water can be removed out of that district without the district's approval. The bill says the transfer has to be consistent with State law. The bill speaks of water metering, and water conservation standards. The bill contains tiered pricing wherein the last bit of water is a little more expensive than the first part of the water, thereby encouraging conservation. The bill sets aside 800,000 acre-feet for fish which would be reduced along with other project purposes in dry years.

The bill takes no water from the Friant Unit on the eastern side of the valley. None. It asks only them to pay a small surcharge to help mitigate some of the environmental damage. The bill says we will reach Level II water, which is about 108,000 acre-feet more for wildlife refuges immediately, in 10 years 140,000 acre-feet, which is Level IV; and established a $50 million restoration fund. The money would come from water and power users, from Friant Unit and tiered pricing, from those who would pay instead of renewing their contracts under these terms, and from the difference in the repayment rate between agriculture and municipal and industrial.

The restoration fund is an attempt to get money to do many of the things the distinguished Senator from California had included in his original bill—fish ladders, fish screens, temperature control devices—all of which are meritorious and which will improve the environment but cost money. Without money, you cannot achieve it.

We made major efforts to accommodate the growers in this process.

Mr. President, I ask unanimous consent that I simply print in the RECORD all of the changes which were made in the legislation in response to the agricultural interests.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Subsection 3403(f), which defines the term "Central Valley Project water" has been amended to eliminate any uncertainty as to the application of this title to prior rights contractors:

Paragraph 3404(b)(1), which authorized auction of 100,000 acre-feet of CVP water, has been deleted, and the subsection has been amended to permit execution of certain water contracts with El Dorado County, the Tuolumne Regional Water District, the San Joaquine Valley Veterans Cemetery, as well as contracts for delivery of flood water and class II water in the Friant Unit:

Subsection 3404(c), which sets terms for renewal of CVP water contracts, has been amended to make it clear that the Secretary must, if asked, renew existing CVP water contracts for 25 years, and may issue subsequent renewals for up to 25 years each;

Paragraph 3404(c)(3) has been amended to clarify that water contracts renewed after January 1, 1988 and prior to enactment of this title are not subject to certain surcharges designed to encourage early renewal of existing contracts;

Subsection 3404(d), which required the Secretary to include terms in renewed contracts providing for involuntary reallocation of water, has been deleted;

Subsection 3405(a) has been amended to make it clear that water rights and exchange contractors, as well as project agricultural contractors, may engage in voluntary water transfers;

Subparagraph 3405(a)(1)(C), which provided for a surcharge on the net proceeds received by water contractors from water transfers outside the Central Valley Project service area has been deleted;

Subsection 3405(d) has been amended to eliminate a provision requiring inflation adjustment of tiered water prices, and the structure of the tiers has been changed from 60–20–20 to 80–10–10;

Paragraphs 3406(a)(1)–(3), which authorize the CVP to be operated for fish and wildlife purposes, match the project purpose language contained in the draft bill circulated by Congressman Dooley and Lehman last week, except that the language has been changed to place "enhancement" in a secondary priority among project purposes;

Paragraph 3406(b)(1) has been amended to provide that the Secretary will have met his responsibilities established by this bill to operate the project for fish and wildlife purposes when the restoration program and projects defined in section 3406 are completed;

Subparagraph 3406(b)(1)(B) has been amended to strike the reference to "resident" fish;

Subparagraph 3406(b)(1)(C) has been amended to strike language that defined how "credits" for CVP contributions to Bay/Delta standards would be assessed, while retaining in the bill the important concept of crediting;

Subparagraph 3406(b)(1)(C) has been amended to direct the Secretary to undertake the fish and wildlife restoration program and projects defined in the bill in a way that avoids imposition of inconsistent or duplicative requirements on project water and power contractors;

Paragraph 3406(b)(2) has been amended to cut the amount of project yield committed to fish and wildlife purposes under the bill from 1 million acre-feet to 800,000 acre-feet, a total that matches the level of upfront water identified in Congressman FAZIO's draft legislation and that, when combined with our changes to subsection 3404(b) and 3406(b)(24), reduces the amount of water reallocated under the bill by approximately 540,000 acre-feet per year. Additional language has been included to make it clear that water allocated to fish and wildlife purposes under this section may be used for other project purposes, including irrigation, if not needed for fish and wildlife;

Subparagraph 3406(b)(2)(C) and subsection 3406(d) have been amended to link dry year shortages for fish water and waterfowl refuge water to reductions imposed on agricultural service, not prior rights, contractors;

Paragraph 3406(b)(6) has been amended to clarify the Secretary's responsibility with respect to operation of the Shasta temperature control device for the upper Sacramento River;

Paragraph 3406(b)(24), which deals with the Trinity River, has been added as a replacement for title XXX of H.R. 429. This provision deletes language in title XXX that allocated more water to Trinity River flows than was dedicated under the Secretary of the Interior's 1991 decision on Trinity flows;

Paragraph 3406(c)(1) has been amended to include language barring the Secretary of the Interior from making releases from Friant Dam to implement this bill without specific subsequent congressional authorization. As now written, this section does not require restoration of upper San Joaquin flows, and would premise any fishery restoration activities in that area upon (1) a comprehensive study of the costs and benefits and, (2) congressional authorization;

Paragraph 3406(c)(1) has also been amended to reduce the "in-lieu" charge applied to Friant Unit contracts from the House's $4–$8–$12 formula to a more moderate $4–$5–$7 formula.

Section 3407 has been amended to reflect Congressman FAZIO's proposal for the Restoration Fund, and has been amended further to ensure that funds derived from water and power contractors will remain available to implement the bill, even if all funds are not expended in a given year. This section has been amended to add significant flexibility to the collection of funds from project contractors and to cap the amounts to be collected from current water contractors at reasonable levels;

Subsection 3408(j), which authorized citizen suits has been deleted;

A new subsection 3408(j) has been included. This subsection charges the Secretary of the Interior with development of a comprehensive plan to increase the yield of the CVP in order to restore to irrigators and other project users water supplies allocated to fish and wildlife purposes under this bill;

A new subsection 3408(k) has been included. This subsection is a broad savings clause applying to final judicial decrees involving CVP water rights;

Section 3409 has been amended to provide that the cost of preparing the programmatic environmental impact statement required by this title will be considered a capital expense; and

Section 3411 has been added to ensure that the Secretary of the Interior complies with California water law and the Coordinated Operating Agreement in implementing the bill.

Section 3412 has been added to provide for the extension of the Tehama-Colusa Canal service area.

Mr. BRADLEY. Mr. President, the question is who supports what we are doing?

It is true the distinguished Senator from California, Senator SEYMOUR, is opposed to this bill. It is true the distinguished Senator from California, Senator CRANSTON, supports this bill. It is also true 25 U.S. Representatives from California voted against this particular bill in the House and 18 voted for it.

It is true the Governor of California has written a letter opposing this bill although he made no specific suggestions throughout this whole negotiations process.

The distinguished Senator from California has been very forthcoming in terms of his original bill. It is true some political appointees in Washington have written letters urging the

President to veto it, namely the Secretary of Interior and the Secretary of Agriculture. But what about other people? What about people who live in California who are not politicians? What do they do?

I would like to list the following organizations that support H.R. 429: Bay Area Economic Forum, California Association of Family Farmers, Bay Area Council, Metropolitan Water District of Southern California, Western Urban Water Coalition, American Fishing Tackle Manufacturers Association, City of Oakland, City of San Francisco, Port of San Francisco, Port of Oakland, Sacramento Municipal Utility District, Mendocino County, Trinity County, Contra Costa County, Humboldt County, Ducks Unlimited, Grasslands Water District, Central Basin Water District, West Basin Municipal Water District, Three Valleys Municipal Water District, and this list goes on and on.

Mr. President, I ask unanimous consent the list be printed in the RECORD at this time.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

LETTERS OF SUPPORT FOR CONFERENCE REPORT ON H.R. 429

Bay Area Economic Forum.
California Association of Family Farmers.
Bay Area Council.
Metropolitan Water District of Southern California.
Western Urban Water Coalition.
American Fishing Tackle Manufacturers Association.
City of Oakland.
City of San Francisco.
Port of San Francisco.
Port of Oakland.
Sacramento Municipal Utility District.
Mendocino County.
Trinity County.
Contra Costa County.
Humboldt County.
Ducks Unlimited.
Grasslands Water District, Los Banos, CA.
Central Basin Municipal Water District, Carson, CA.
West Basin Municipal Water District.
Three Valleys Municipal Water District.
Las Virgenes Municipal Water District.
Calleguas Municipal Water District.
California Advisory Committee on Salmon and Steelhead Trout.
City of Eureka.
East Bay Regional Park District.
Las Vegas Valley Water District.
Citizens for a Better Environment.
Audubon Society.
Bay Institute of San Francisco.
California League of Conservation Voters.
California Striped Bass Association.
Golden Gate Fishermen's Association.
Trout Unlimited.
Environmental Defense Fund.
Natural Resources Defense Council.
Friends of the River.
Sacramento River Council.
Sierra Club.
Wilderness Society.
Pacific Coast Federation of Fishermens' Association.
National Wildlife Federation.
Committee for Water Policy Consensus.
Central Utah Water Conservancy District.
National Wildlife Refuge Association.
United Anglers of California.
California Waterfowl Association.
Clean Water Action.
Friends of the Earth.

Mr. BRADLEY. I would simply like to call attention to two or three very relevant endorsements to this bill.

First, the Metropolitan Water District represents 15 million Californians. They have issued a press release that says the following:

"H.R. 429, a Western water omnibus bill, is good for California in general and Southern California in particular," said Carl Boronkay, general manager of Metropolitan Water District of Southern California. "It is California's first major water policy advancement in decades and provides benefits for farmers, cities and the environment," he said.

It goes on to say:

"If managed properly, California has ample water supplies to take care of the reasonable needs of cities, farms and the environment for some time to come," Boronkay said. "Passage of this bill is a crucial element of good water supply management."

That is from the Metropolitan Water District of Southern California, serving 15 million Californians.

I ask unanimous consent that it be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

METROPOLITAN WATER DISTRICT
OF SOUTHERN CALIFORNIA,
Los Angeles, CA.

PENDING FEDERAL LEGISLATION COULD MEAN MORE WATER FOR SOUTHERN CALIFORNIA

LOS ANGELES.—Legislation nearing congressional vote could reform the massive Central Valley Project (CVP) irrigation system and allow for the voluntary transfer of water to help meet the needs of California's water-short urban economy.

"H.R. 429, a Western water omnibus bill, is good for California in general and Southern California in particular," said Carl Boronkay, general manager of Metropolitan Water District of Southern California. "It is California's first major water policy advancement in decades and provides benefits for farmers, cities and the environment," he said.

The CVP improvement provision of H.R. 429 would permit farmers in California to voluntarily sell their federal water on the open market. Most likely buyers include the state's cities that have struggled in recent years to meet the increasing water demands of growing urban centers.

The legislation also provides water for the rehabilitation of California's drought-stressed fisheries and wildlife.

"If managed properly, California has ample water supplies to take care of the reasonable needs of cities, farms, and the environment for some time to come," Boronkay said. "Passage of this bill is a crucial element of good water supply management," he said, supporting the adoption of H.R. 429 before Congress adjourns this week.

Through its 27-member public agencies, Metropolitan provides almost 60 percent of the water used by more than 15 million people in Los Angeles, Orange, San Diego, Riverside, San Bernardino and Ventura counties.

Mr. BRADLEY. Also, today, I received a letter from the California Business Roundtable. The argument has been made that H.R. 429 is bad for California jobs. This group speaks for the 100 largest companies in California, and they support it.

I will just quote from the chairman, Mr. James Harvey, of Transamerica, who says:

> I think the water compromise for California is great and supported by a majority of business in California.
>
> JIM.

Now who are the Business Roundtable Water Task Force members? James Harvey; John Bryson, Southern California Edison; Harry Conger, Homestake Mining; Lawrence Del Santo, Lucky Stores; San Gin, Pacific Telesis; Paul Hazen, Wells Fargo.

Mr. President, I ask unanimous consent that the remainder of this list—and it is a long list—be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CALIFORNIA BUSINESS ROUNDTABLE WATER TASK FORCE MEMBERS

James R. Harvey, Chairman, Transamerica Corp.
John E. Bryson, Chairman & CEO, Southern California Edison Company.
Harry M. Conger, Chairman & CEO, Homestake Mining Company.
Lawrence A. Del Santo, Chairman & CEO, Lucky Stores, Inc.
Sam Ginn, Chairman & CEO, Pacific Telesis Group.
Paul Hazen, President, Wells Fargo Bank.
Bruce Karatz, President & CEO, Kaufman & Broad Home Corp.
Thomas L. Lee, Chairman & CEO, The Newhall Land & Farming Company.
Richard M. Rosenberg, Chairman & CEO, Bank of America.
Alan Seelenfreund, Chairman & CEO, McKesson Corp.
Raymound L. Watson, Vice Chairman, The Irvine Company.
Phillip L. Williams, Vice Chairman, The Times Mirror Company.

Mr. BRADLEY. The point here is that support for this bill is broad and deep in the business community, in the environmental community, in the community outside of the Central Valley itself.

Mr. President, I know that we will continue this discussion, but there is no question in my mind that after months and months and months of discussion, we are now at a point of decision, and tomorrow will be that decision.

I will reserve the remainder of my comments for a little later in the debate and further discussion tomorrow.

Mr. SEYMOUR addressed the Chair.

The PRESIDING OFFICER. The Senator from California is recognized.

Mr. SEYMOUR. Mr. President, the distinguished Senator from New Jersey [Mr. BRADLEY] has made a number of points and arguments relative to the Central Valley project. I intend to address those as directly as I can.

Let me say, first, that I want to commend Senator BRADLEY. I want to commend his staff. There is no doubt in my mind that they were and have been totally committed to pursue legislation for the reform of the Central Valley project based upon what they believe is to be in the best interest of California. And for that I commend them. They have done it openly. They have done it fairly. And Senator BRADLEY has been more than forthcoming in his relationships and discussions with me over these last 21 months relative to what is the right answer for California.

Sadly, his priorities for the people of California are different from my priorities. I said it earlier. My priorities are simple. My priorities, first, are people and their jobs, and, second, the enhancement of fish and wildlife, restoration of refuges, and restoration of the value of environmental resources, of fish as well as wildlife.

Senator BRADLEY's priorities are reversed, and if not reversed, if that is an unfair characterization of his priorities, then let me go an extra step and say his priorities say that people in jobs ought to occupy a level playing field, as level a playing field as animals and plants, fish and wildlife.

That has really been one of the bones of contention, what should our priorities be. What is the most important.

I was talking about jobs and the economy earlier.

Mr. President, I want to refer to a memorandum dated October 3, 1992, from the U.S. Department of the Interior that addresses H.R. 429, the measure that we will take up and, unfortunately, pass in the U.S. Senate and send to the President tomorrow.

In this memorandum, they talk about jobs and people. They do not talk about them in exactly those terms, but they talk about them in terms of what if H.R. 429, the conference committee water bill, had been law during 1990 and 1991. And in their analysis, had H.R. 429 been law in 1991, then all of agriculture in the Central Valley would receive zero percent of water.

Then, of course, there are cities involved in the Central Valley project, the city of Redding, the city of Roseville, the city of Sacramento, Contra Costa County, the Sacramento Municipal Water District, Santa Clara Water District. Had H.R. 429 been law in 1990 and 1991, those cities would have received zero water.

Now, without H.R. 429, how would the Central Valley have done as far as the percentage of water? What water allocation would they receive compared to zero? Well, in 1990, compared to zero under H.R. 429, agriculture would receive 50 percent of the water allocation and cities, urban users, people in jobs, would receive 75 percent instead of, under H.R. 429, zero percent. And in 1991, a drought year, agriculture would receive 25 percent of the water allocation compared to zero.

And people and jobs in urban areas represented by the Central Valley project, those cities in 1991, would have received 75 percent of the water allocation as opposed to zero. Those are not my numbers. Those are numbers that come from the U.S. Department of Interior.

So if I make a statement and I say that if H.R. 429 were law in 1990 and 1991, many farms and cities that belonged to the Central Valley project would have received no water at all, as far as an allocation under 429, and that that would have cost in 1990 and 1991 thousands and thousands of jobs. I make that statement based on the Department of the Interior analysis.

I want to refer to an Associated Press story from Fresno, CA. The date is March 20, 1992. The story reads as follows, in fact, the headline in the story says, "San Joaquin Valley Farming Could Be Slowly Crushed." That is the headline in the article. So I put this in perspective when I talk about San Joaquin Valley. Let me talk about some real cities: city of Fresno, city of Visalia, city of Modesto, city of Bakersfield. Those are some of the major cities in the San Joaquin Valley.

This is what the article said on March 20, 1992:

> The San Joaquin Valley's farm economy suffered a $545 million blow last year because of the drought and will be slowly crushed unless irrigation water returns to normal, a study said. 9,000 jobs were lost and 253,000 acres—

That is a quarter of a million acres of land were left fallow because there was not enough water for all the vegetables, the cotton, the nuts, the fruits that were grown in the valley. If these shortages continue, the agricultural industry which provides 50 percent of the San Joaquin Valley's jobs—one-half of the jobs—will slowly be crushed. Economists are already beginning to see the symptoms of an economic death spiral in which the number of farmers remaining in business decreases as water supplies dry up. Lost farm revenue totaled $281.5 million in 1991, and that represents 2.5 percent of the $11.2 billion gross crop value for the eight-county region in 1990. Lost sales by businesses that supply valley farmers added another $264.3 million in lost revenue. So, total in that year because of a lack of water, they lost over a half a billion dollars, economic loss alone in the San Joaquin Valley.

Then the story ends by saying, "People driving on Interstate 5"—that is a major freeway that runs through California—

> "People driving on Interstate 5 may think farmers aren't hurting because they see so many crops," said Dwayne Paul, Vice President of the firm that made the survey. But what they don't see are the jobs that were lost and the suffering in all businesses in the valley community.

That is what we have been talking about, Mr. President, is people and jobs. I contend that should H.R. 429, the bill that Senator BRADLEY and Congressman MILLER support, become law, not only, as according to the Department of the Interior, will we see zero percent of water allocation going to the cities I referenced and to agriculture in the Central Valley, but we will see a total economic loss annually of $4.5 billion, and we will see tens of thousands—not of big farmers. Senator BRADLEY was talking about big farmers. Not of big farmers. They will always find a way to do business, either that or they will sell out and move on. It is not any big deal for them. Well, it is a big deal for them. I should not say that. It is a big deal for any large enterprise. But I am talking about the little guy. The small family farmer who is farming an average of 50 acres. If there are those who think those small family farmers are not worrying about this whole issue, they just do not know. I have been there, I talked with them, I met with them, I met their kids, their families. I heard about their hopes, their dreams, their troubles, their concerns. They are very real people.

Let me talk about another segment of our society in California that is going to be heard and they sure are not big. They are the farm workers, the people who work the farms. Farm laborers, many of them Hispanic, minorities, not getting rich, but at least feeding their families.

I remember in the spring of 1991, the valley having suffered billion dollar losses as a result of an Arctic freeze that hit the Central Valley, San Joaquin Valley, and I looked into the eyes of the farm workers and their kids. Not only were they out of work, they were out of money, they could not pay their rent. They did not have food to feed their families. They were sending their kids to school and the kids were falling asleep. The reason they were falling asleep is they had not been properly fed. I talked to mothers, the wives of some of the farm workers who had babies. And because they were out of work, because they had no other source of income, their babies were getting formula with double the amount of water, taking half of the sustenance of that baby formula that would feed that child. They were hurting. They were not big farmers. They were not even small farmers. They were farm workers.

In that instance, we were able to help them out, thank God. We were able to call on the Department of Agriculture and bring truck loads of food in there, formula for their babies, food for their kids. We helped them through that very tough time of suffering from the Arctic freeze, only to be followed, just when they get on their feet, by a drought.

So I am talking about little people. I am not talking about big farmers. I am not talking about the corporate enterprises. You cannot get much smaller than the farm workers. Tens of thousands of them will be out of a job if H.R. 429 becomes law.

Senator BRADLEY rightly pointed out that to do nothing would be absolutely wrong. I agree. To do nothing at this critical time in California's history would be a tragedy. We do need to do something.

Senator BRADLEY suggested that H.R. 429 is the answer. I have argued that that is a bad bill. But that does not mean I should not have the responsibility to come up with a better idea. You just cannot afford to go around here saying no, no, no, no. You cannot be against everything. You have to support some things. And I think every one of us has a responsibility that if we do not like something, then you come up with a better idea.

So when it comes to people and jobs first, and wanting to do everything possible, second, to enhance fish and wildlife, to restore that resource, I came up with a bill. The bill, S. 2016. It passed this House, went into the conference committee and then it was destroyed, thrown to the wayside, and H.R. 429, and Congressman MILLER and Senators BRADLEY and JOHNSTON took over.

So let us take a look at an alternative, because I agree we have to do something. And that is what I thought I was doing when I introduced S. 2016. So let me quickly, Mr. President, if I could, go through this bill and talk about some of the very important provisions in answering the needs of the people of California for water, answering the needs of the farmers in Central Valley, answering the needs of urban water users.

Let me say, this bill, Mr. President, is not my bill. This is not JOHN SEYMOUR's. My name is on it. I am the fellow who was to get this bill into law. It was not my bill. This bill was not written in Washington, DC. The wisdom and the thoughts that make up this bill are not from the banks of Potomac. This is a bill that was written in California, for Californians and by Californians.

This bill represents a historic compromise between farmers in the Central Valley and the metropolitan water district. I will have more to say about them later because they now support the other bill. But when we wrote this bill, they wrote this bill, and this historic accord was reached between farmers and the metropolitan water district representing over half the people of the State of California, the metropolitan water district thought that was a great idea. In fact, when it went before their board of directors to either have the board of directors say, it is a bad bill, we oppose it; it is a so-so bill, we like it but we do not like some of this; or it is a good bill, we support it—when their board of directors was asked that question, on a 49-to-2 vote, their board of directors said we want this. We want it.

So it is not my bill. I happen to be the fellow who was selected to be responsible, as a Senator from California, to carry forward this bill on behalf of Californians.

S. 2016, is very much a part of the bill that is currently pending on this floor and at the conclusion of this day will be passed over to the House of Representatives. Although there have been some major changes in this bill that I will also talk about, this is where we started.

So let me, if I can, Mr. President, go through what some of those ideas included.

First of all, let me talk about fish and wildlife and the environment. In fact, I want to commend Senator BRADLEY and Congressman MILLER for at least recognizing that this bill I introduced on behalf of California had some good ideas of what we should do about fish and wildlife refuges. As a matter of fact, this bill contains 22 specific improvement provisions for fish and wildlife restoration habitats. In fact, we did not even create those 22 provisions. We did not create them back here.

They went to the California Department of Fish and Game and said, "Give us a list of the projects that need to be improved so that we can restore this resource that is most valuable to us."

As I said, apparently Senator BRADLEY thought it was a pretty good idea and Congressman MILLER thought it was a pretty good idea because they listed them and put them in their bill. So at least we gave them a specific roadmap out of their efforts of what needs to be done to improve fish and wildlife habitat in California.

In the bill, we talk about doing such things as negotiating and executing an agreement with the California Department of Fish and Game by December 31, 1992. I guess we are not going to make that date, are we? Of course, the bill was introduced almost a year ago. But, anyhow, we gave them a definite time, by December 31, 1992, a given date, gave them a little more than 1 year is what we were giving them—California Department of Fish and Game will enter into an agreement, and that agreement will mitigate the direct fishery losses associated with the operation of the Tracy pumping plant.

We said you come up with an agreement that is satisfactory to the California Fish and Game, and we will give you 1 year to do it, and this agreement will mitigate the direct fishery losses associated with the operation of the Tracy pumping plant.

Then we said we also want another agreement that has to be satisfactory to the California Department of Fish and Game. This one we will give you 3 years, roughly, to get it together, but when you get it together, it has to be satisfactory to the California Department of Fish and Game. This will mitigate for direct fishery losses associated with the operation of the Contra Costa Canal pumping plant, the same kind of problem.

Then we said up at the Shasta Dam we need a temperature control device so that we can ensure colder water coming out of the Shasta Dam. So we said install and make operational a structural temperature control device at Shasta Dam and develop whatever modification you need and you do it all by December 1995. We will give you 4 years to get it done, for control of water temperatures in the Upper Sacramento River sufficient to protect salmon. We said the Coleman National Fish Hatchery will be rehabilitated and expanded by implementing the U.S. Fish and Wildlife Service's Coleman National Fish Hatchery development plan, and you want to get that one done again within 4 years. We said get another agreement that is satisfactory to the California Department of Fish and Game and we are going to give you 1 year to do this. What you are going to do there is eliminate, to the extent practical, losses of salmon and steelhead trout due to flow fluctuations occasioned by the operation of Keswick, Nimbus, and Lewiston regulating dams.

And then we said we want to have a gravel replenishment program. We want you to develop that, and we want you to implement it in 2 years for the purpose of restoring and replenishing on a continuous basis spawning gravel loss due to the construction and operation of Shasta, Folsom, and New Melones Dam bank protection programs and other actions that have reduced the availability of spawning gravel.

We said we want you to have a Delta Cross Channel monitoring and operational program, and we want you to do that in 1 year. You see, we set deadlines. We did not just throw some language in this bill and say do it if you can, do it maybe. We said you are going to do it, and here is the timeframe in which you are going to do it. So we said to the Delta Cross Channel issue, a program be developed in 1 year for the purpose of protecting striped bass eggs and larvae as they approach the Delta Cross Channel gates. The program includes, but is not limited to, closing the Delta Cross Channel gates during times when significant numbers of striped bass eggs and larvae approach the Sacramento River intake to the Delta Cross Channel.

We said the Secretary of the Interior shall—not maybe, not directly—shall, through an agreement with the State of California, provide dependable water supplies of suitable quality to the Central Valley refuges, in accordance with level 2 quantity and delivery schedules of the dependable water supply needs table for that refuge.

We said: We are going to make you give them water. You have to. Not if you want to; not if you think it is a good idea. We are telling you to do it.

Habitat restoration actions. We have plans in the bill for 13 different projects, specific projects. So for anybody to say we are doing nothing—it is either H.R. 429, or it is nothing—this is a lot more than nothing.

How about people and jobs? Well, we took care of people and jobs in this bill. Like creating an orderly, commonsense kind of approach to transfer water from farmers in the Central Valley to people and jobs in urban areas. We did it by saying that any CVP contractor can negotiate freely into the transfer of an allocation of their water to other users, whether it be municipal or urban, whether it be industrial or jobs, even whether it meet fish and wildlife purposes. They can sell that water, too. So we provided for a water transfer, as well.

Mr. President, the bill that is currently pending before this House is S. 2016, modified for about the fourth time, I guess. And it is a proposal that will transfer water; it is a proposal that will provide up-front water. That is a cliche that is used very often to describe the Central Valley project: We need up-front water.

This bill provides up-front water, an intial up-front commitment to 236,000 acre feet of water, and then requires growth of that up to 525,000 acre feet of water to fish and wildlife within the 10-year period.

So it does those things.

Now we need to do more. That is not enough. As I said, we had offered a number of compromises. But the compromise we have before us today in this bill, that will soon pass to the House of Representatives, I think, was a very generous compromise. It was reaching back to find the last drop of water, so to speak, wring it out of the sponge, so that I might be able to meet the objectives of those on the other side supporting H.R. 429.

What do we do? One issue, a very important issue—Senator BRADLEY talked about that—contract deals, no more 40-year contracts. That is bad. I hope the U.S. Senate, the House of Representatives, and the Federal Government do not decide one day that you cannot get a 40-year mortgage on your home. But farmers really do not need 40-year contracts. They can get by with less, as long as they are good enough, as I said earlier today, to get them to the bank to be able to get a loan.

So what is the compromise? It is that the compromise we have before us today, which is an alternative to H.R. 429, is 25 years.

Then, another very contentious issue: project purpose. We will talk about that as it pertains to H.R. 429. But, at the moment, let me just say that what we are doing in this compromise proposal currently pending is we say fish and wildlife shall be a project purpose.

Let me explain, Mr. President, for those who, like I 21 months ago, did not know what project purpose meant, certainly did not know it had anything to do with water, project purpose says in the law who gets the water. Who gets the water? People and jobs? Fish and wildlife?

So when we refer to project purpose for fish and wildlife, that means that fish and wildlife as a project purpose shall be equal to people and jobs. I have said my priorities are people and jobs first, and fish and wildlife second.

What I am offering in the bill before us says that for the purpose of those projects—I cited them, 22 different provisions—for the purpose of those projects and the restoration, that fish and wildlife will be a project purpose. It will be equal to people and jobs, in those specific projects.

Senator BRADLEY was referring to water pricing. Water pricing is the concept that we are trying to deal with to provide incentives, which is what I do. Or, on the other hand, use a stick. Set up a pricing schedule that will act as an incentive for farmers to conserve water, or just use a stick and take it away.

In our water pricing aspect of our bill, we provide financial incentives for those farmers to conserve. So we are using a carrot as opposed to a stick.

Water transfers: Absolutely critical. We have been talking a lot about water transfers. Here is the alternative to H.R. 429. We would provide that on every water transfer that takes place from a farmer, a contract user, to an urban user, people and jobs, that 20 percent—if they transfer 100,000 acre-feet, they negotiate, they come to a price on 100,000 acre-feet—20 percent of the water will come right off the top of 100,000 acre feet.

Obviously, that would be 20,000 acre-feet of the water right off the top of that transfer sale to be set aside for fish and wildlife purposes.

It also had a provision in the original bill that said: We will take some water off the top, but we will only take 10 percent.

So the compromise is an additional 10 percent. So it is a full 20 percent right off the top of any amount of water that is transferred, and it goes specifically and solely for the purposes of fish and wildlife.

Then Senator BRADLEY provides for a fish and wildlife restoration fund. We would collect money so we would have money in order to do those 22 different, specific provisions included in my bill. And then they were lifted and they were put in H.R. 429. We need money to complete all those projects.

In the original bill I introduced on behalf of the metropolitan water district and the Central Valley farmers, we had no provision for such a fund. We had formulas for getting them some money, but we had not created a fund.

The proposal that is currently pending before this House establishes a $20 million annual fund to restore fish and wildlife habitat.

So those are some of the additional compromises we made to the original bill, S. 2016. I think most who have listened to this description of S. 2016 would have to conclude: Does SEYMOUR have water transfer in this bill?

Is there another answer to water transfers, to ensure water transfers, other than H.R. 429? I think the answer to that question is absolutely, yes, there is water transfer. Well, is there improvement to fish and wildlife? Is there another way to go other than H.R. 429? Do we have any improvement for fish and wildlife in this bill? I think absolutely the answer is yes, unequivocally.

And so for anyone to say that there is no alternative, if we do not pass H.R. 429 we are going to do nothing, it is going to be business as usual, I think that is either misunderstood or patently untrue. This is a plausible, reasonable approach that is currently before us.

Mr. President, I want to talk for a moment about H.R. 429, and the differences between H.R. 429 and this bill that is currently before us that I introduced and will shortly be passed and sent to the House of Representatives. How do we differ? We are both after the same objectives—maybe with different priorities, but the same objectives—to move water around, to help protect fish and wildlife, get water and jobs to people in urban areas. We have some vast differences as to how we achieve those objectives. First of all, let us talk about water off the top.

Water off the top refers to—you have a bucket and there is only so much water in there. This year, it is 4½ million acre-feet for the entire valley. In wet years—although we have not seen one in six—but in wet years it could go as high as 8 million acre-feet. There have been some dryer years, but this year the bucket contains 4½ million acre-feet. So I will talk about that. What H.R. 429 would do is, out of that bucket of 4½ million acre-feet, it would scoop off of the top 1 million acre-feet—800,000 acres, plus 236,000, over 1 million acre-feet. What would be left for fish and wildlife purposes? What is left in the bucket? Common sense should tell us that it is not enough to support an agricultural economy in the State of California, much less get any water to people and jobs in urban areas. So we have a tremendous difference in that.

Let me read about that particular portion of the water off the top, from H.R. 429. It is pretty clear here. It says:

> Upon enactment of this title, dedicate and manage annually 800,000 acre feet of Central Valley Project yield for the primary purpose of implementing the fish, wildlife and habitat restoration purposes and measures authorized by this title to assist the State of California in its efforts to protect the waters of the San Francisco bay, Sacramento, San Joaquin delta estuary, and to help meet such obligations as may be legally imposed upon the Central Valley Project under State or Federal law following the date of enactment of this title, including but not limited to additional obligations under the Federal Endangered Species Act. For the purpose of this section, the term Central Valley Project yield means the delivery capability of the Central Valley Project during the 1928 to 1934 drought period, after fishery, water quality and other flow and operational requirements imposed by terms and conditions existing and licenses permits and other agreements pertaining to the Central Valley project under Federal, State or local law existing at the time of enactment of this bill.

The bottom line of what I read, in addition to the 236,000 acre-feet that my bill commits, right off the top, there is 800,000 acre-feet more off the top. And in dry years, is there any provision for letting up, a lessening of that tremendous burden, as you scoop off the top of the bucket 1 million acre-feet of water?

The answer to the question is, yes, there is some relief. I believe that relief is a reduction of the 1 million acre-feet of 25 percent. In other words, first off the bucket comes water for fish and wildlife, and then what is left, you can move to urban areas, people and jobs, or to the Central Valley agriculture, the No. 1 industry of our State.

But in a dry year, what do they do in H.R. 429? It says here on page 250 of the conference report:

> The Secretary may temporarily reduce deliveries of the quantity of water dedicated under this paragraph up to 25 percent of such total whenever reductions due to hydrologic circumstances are imposed upon agricultural deliveries of Central Valley project water, provided that such reductions shall not exceed in percentage terms and reductions imposed on agricultural service contractors.

In other words, in dry years, we know that the delivery of water is going to be reduced to urban areas and to farmers. What we are saying here, and what they are saying in H.R. 429, is you are not going to reduce fish and wildlife any more than you are farmers, than you are people and their jobs.

I was listening to Senator BRADLEY as he talked about the need to protect the delta smelt. I think he is right. I think we should protect the delta smelt. We have to do everything we can to enhance the resource of the delta smelt. But should we put people out of work for the delta smelt? Do you want to drive farmers out of business? Do you want farm workers who cannot feed their families? Do you want a $4.5 billion hit on the economy of California, putting tens of thousands of people in unemployment lines for the delta smelt?

Something is not right. I want to protect the delta smelt. We all want to protect the delta smelt, but if you do not have a job and you cannot feed your family, do you really care about the delta smelt?

So you see one of the problems with H.R. 429 is that it says the delta smelt is as important as the farm worker and his family, as the small farmer, as the person living in San Francisco, or living in Los Angeles.

The delta smelt is as important as your kids. That is wrong. That does not mean that we should not do everything we can to protect the delta smelt. I suggest that we do that in this bill. But we sure do not make it equal to people and jobs.

We get to the restoration fund. I cited that in the bill pending before us we provide 22 different provisions to improve fish and wildlife refuges, to restore the resources of salmon and steelhead trout, an important resource. We want to do that. That is a worthwhile goal.

How do the two bills go about it? How does H.R. 429 do it? How does the bill before us do it? H.R. 429, the measure this House will vote over my objections, vote it out of here tomorrow, sets up a $50 million fund. I guess I should be more direct—a $50 million tax, a tax on all CVP, Central Valley project, water and power users.

Do you think for a moment that this $50 million of tax is going to be paid for by farmers? Not unless they are crazy. I was a businessman for 17 years and when I had additional costs placed on the back of my business, I passed it on to the consumers if I could. If I could not, I ate it. And if it got too big, I just got out. But if I could, I passed it on.

So where does that $50 million come from? It will come from the price of apples, it will come from the price of oranges, it will come from the price of steaks, and it will come from the price of avocados, and so forth. That does not mean we do not need a restoration fund, but let us use a little common sense. Let us not hit them so hard. That is why in my bill I do not ask for $50 million. I ask for $20 million.

Let us get to another very important and critical and contentious issue—contracts, water contracts. No longer a 40-year contract. That went out the window in 1991 when we first began to discuss this bill. I never thought for a moment, quite honestly, that we would end up with a bill if we were going to get one that would still have a 40-year contract. I have already talked about the bill that is pending before us. It has a 25-year contract.

Here is what my bill, that is currently before us, says about contracts and renewal of existing long-term contracts. And understand, the only importance, by the way, the only importance other than directly to the landowner, the farmer, or the urban dweller that is also part of the CVP, the only importance of any water contracts is to the value of your land. If you have a contract and it is long-term, your land is obviously more valuable than if you did not have a contract.

But it is important in another way that it keeps people working and in business. It is important that you have a contract that you can take to the bank, a contract that you can take to the bank and say, Mr. Banker, water which is an essential commodity not only to the value of my land, but more importantly, water which is the essential commodity for growing my crops is going to be there and, therefore, I have a contract sufficient in length that you can count on the fact that I am going to get some water. I am not going to get a full allocation everywhere. I will get full allocations in wet years and a little less and maybe a lot less, but I will get some water even in dry years. So on the important issue of contracts here is what I say in the bill that is before us:

"Notwithstanding the provisions of the act of July 2, 1956, the Secretary shall upon request renew all existing long-term repayment contracts providing for the delivery of water or water service contracts from the Central Valley Project for a period of 25 years"—not 40, 25 years—"and for successive periods of 25 years each."

The renewals, they are renewals.

That is the approach that is before us today.

The one we will be voting on tomorrow, H.R. 429, they offer a 25-year contract but, like in most contracts, you have to read the small print. I will read the print.

For H.R. 429, renewal of existing long-term contracts.

> Notwithstanding the provisions of the act of July 2, 1956 the Secretary shall upon request renew any existing long-term payment or water service contract to the delivery of water from the Central Valley project for a period of 25 years and may renew such contracts for successive periods of up to 25 years each.

We agree. The bill before us and this bill is the same. No, because it goes on. There are conditions, a couple of conditions applied to getting this 25-year contract.

One, no such renewals shall be authorized until appropriate environmental review, including the preparation of the environmental impact statement. It is new, brand new—let me repeat it—requiring the preparation of the environmental impact statement required in section 3409 of this title has been completed.

Contracts which expire prior to completion of the environmental impact statement required by section 3409 may be renewed, they may be renewed, for an interim period not to exceed 3 years in length. And for successive interim periods after the first 3—and I am going to tell you about this these environmental impact statements, they can take a long time to be completed.

So if you do not get it done after your first 3-year contract you get renewals. For successive interim periods for not more than 2 years in length, until the environmental impact statement required by section 3409 has been finally completed at which time such interim renewal contracts shall be eligible for long-term renewal as provided above. Such interim renewal contract shall be modified to comply with the existing law, including provisions of this title.

With respect to all contracts renewed by the Secretary since January 1, 1988, the Secretary shall incorporate in such contracts a provision requiring payment of the charge mandated in subsection 3406(c), subsection 3407(b) of this title and all other modifications needed to comply with existing law, et cetera.

So, yes, both the bill before us and H.R. 429 have 25-year contracts. The big difference is do not try to take that 25-year contract in H.R. 429 to the bank unless you have completed an environmental impact statement. That does not sound bad, does it? An environmental impact statement.

So what? What you have to do and I know a little about that. I was a planning commissioner in the city of Anaheim for about 4 years. And anytime anybody wanted to come in to develop their land, whether it be one lot or 2,000 acres, we would typically require an EIS.

So what is an environmental impact statement? The environmental impact statement was intended by law to assess any potential damages to the environment prior to completion of the project—and that makes a lot of sense. You should do that.

What was well-intended in creating the law of environmental impact statements has been abused and abused and abused.

You see you can argue so much and so long over an environmental impact statement that you will need a battery of attorneys, and you can spend up to a decade in court.

So now let us apply this requirement of H.R. 429 on contract renewals. You can get a 25-year contract provided you have completed the environmental impact statement.

How about the relief? the relief is you will get a 2-year contract or a 3-year contract. First, you get a year contract, and then while you are combating it out on the environmental impact statement, you get 2-year contracts until you either do it, or you do not. If you do it, you get 25 years.

If you do not, then for perpetuity, forever, you will operate under a 3-year contract. Now, is that so bad? It is probably no worse, as I said earlier today, than somebody who wants to go out and buy a home and they cannot pay cash for it—and there are not too many people that can pay cash for houses—so they go to the bank and get a mortgage.

The bank says: I will give you a 2-year mortgage, and then come back in 2 years. We will see about it.

Would any of you—would any of you—buy a home under those conditions? The answer is no. And I think that would be the wise answer, by the way. Then how do we expect farmers to stay in business when all they get is a 2- or 3-year contract?

So yes, in the bold print, it says 25 years in H.R. 429. But read the fine print, that is not there.

Talking about water transfers, that is another important agreement and another objective in the bill. We want water transfers. We all want water transfers. Senator BRADLEY wants water transfers, Senator JOHNSTON, Congressman MILLER. I want water transfers. It is all how you go about doing it.

Well, H.R. 429, the one we will vote on tomorrow, imposes a $25 surcharge per acre-foot transferred. Is that heavy duty?

And what do you do with the money? First of all, I want to tell you, it is heavy duty. If you are a city, and you are paying $400 per acre-foot for your water right now, and many of them are, if you buy 1 acre-foot of water, you are going to pay another $25; your price is now $425. And what happens to that $25 per acre-foot?

Well, let us look at the bill, H.R. 429.

> *Provided further*, That the Secretary shall impose an additional annual charge of $25.00 per acre-foot (October 1992 price levels) for Central Valley Project water sold or transferred to any State or local agency or other entity which has not previously been a Central Valley Project customer and which contracts with the Secretary or any other individual or district receiving Central Valley Project water to purchase or otherwise transfer any such water for its own use for municipal and industrial purposes—

That is people and jobs; and what do you do with it—

> to be deposited in the Restoration Fund—

That is the restoration fund set up so that we have money and we can do the projects outlined in the bill—

> and provided further, that upon the completion of the fish, wildlife, an habitat mitigation and restoration actions mandated under section 3406 of this title—

Those are those 22 provisions I was talking about—

> the Secretary shall reduce the sums described in the paragraph (c)(2) of this section to $35 million per year—

Reduce it to $35 million a year; the projects are already completed, now so the Secretary is authorized to reduce it to $35 million per year in stead of the $50 million per year where it sets while we are doing the project—

> and shall reduce the annual mitigation and restoration payment ceiling established under this subsection to $15 million on a three-year rolling average basis.

Now, that is in comparison to an alternative. In my bill, the one that is before us now, we provide for water transfer of $15 per acre foot instead of $25.

Is that important? You bet it is. And so here is what it says in the bill that is currently before us, the bill that I say is an alternative.

> New Central Valley Project Customer Access Charge. The Secretary shall impose an additional annual charge of up to $15 per acre foot for Central Valley Project water sold by or transferred to any state or local agency which is not within the area watershed or county of origin as those terms are defined in California law and has not previously been a Central Valley Project customer, and which contracts with the Secretary or with any other individual or district receiving Central Valley Project water, to purchase or otherwise transfer any such water for its own use, to be deposited in the Restoration Fund.

A difference to one approach in H.R. 429, this approach in the bill that is before us. I say it is a dramatic, dramatic difference.

Well, Mr. President, those are the primary differences.

Well, perhaps I can expand a little more on one primary purpose—I have already talked about it—my priorities being people and jobs first, and animals and plants second. I talked about the delta smelt. And I talked about the fact that the bill we have before us, as changed, does provide for project purposes; that is putting animals and plants on the same level as people and jobs, as it pertains to those specific 22 provisions.

But there is a big difference between project purposes as defined in this bill that we have before us, and what is in H.R. 429.

This is H.R. 429:

> **FISH, WILDLIFE AND HABITAT RESTORATION.**
>
> (a) AMENDMENTS TO CENTRAL VALLEY PROJECT AUTHORIZATIONS.—Act of August 26, 1937.
>
> (1) in the second proviso of subsection (a), by inserting "and mitigation, protection, and restoration of fish and wildlife" after "Indian reservations,";
>
> (2) in the last proviso of subsection (a), by striking "domestic uses;" and inserting "domestic uses and fish and wildlife mitigation, protection and restoration purposes;"

That is it. It is that clause that sets the delta smelt on a level playing field with people and their jobs. As I have said, that is wrong.

And as hard as I have tried to accept this concept where we take plants and animals and we put them at the same level as human beings, people and their jobs—and I have done that on the specific 22 provisions enumerated in the bill—I just think it is wrong to say that is forever in the future how the Central Valley project water will be distributed; how we will determine who gets what out of the bucket of water.

So that is where we stand today, Mr. President.

Let me close my remarks by talking about a number of points that I have made, and Senator BRADLEY has made in his opening hour. And he has about another hour to go, once I wind down.

Senator BRADLEY said that to do nothing would be wrong. And he is right; I said he is right. We have to do something.

But I have also argued that it should not be H.R. 429. It should be the proposal that we have before us today.

Senator BRADLEY said, if we do not pass H.R. 429, ports might be threatened, might be closed because they need to dredge. Silt builds up in a port. As that silt builds up you cannot get the huge freighters in. They run aground so you need to dredge. And he is right about that. We want to keep the ports open.

But there is another way to do it than placing the delta smelt on par with people and jobs. In fact, I am reminded of the port of Oakland, an extraordinarily important economic force in the entire bay area of California, San Francisco, and Oakland, that entire bay area.

I was visiting that port in August of 1991, and they gave me a tour of the port. And they sure enough said, "Senator, we have a problem here."

I said, "What is your problem?"

They said, "Well, Senator, if we cannot get dredging permits"—that very dredging Senator Bradley was referring to—"we may have close the port."

I said, "What does it mean if you have to close the port?"

They said, "Senator, it means about 100,000 jobs to the bay area and about a $4.5 billion hit on the economy of the bay area when those jobs go."

I said, "Why can you not get dredging permits?"

And they said—as Senator BRADLEY was pointing out—"The reason we cannot get dredging permits is because if we dredge we will threaten an endangered species."

I said, "What endangered species?"

They said, "The winter run of Chinook salmon."

I said, "Gee whiz, 100,000 jobs, $4.5 billion out of the economy, that is pretty important. I am going to go back to Washington and I am going to find out if there is anything I can do about this."

So I did, I called into my office the Department of Commerce, the National Marine Fisheries, and the Corps of Engineers. Those are the folks that issue the permits. I told them about the story.

I said, "Is it true?"

They said, "Yes, Senator, it is true."

I said, "Well, tell me about this endangered species, the winter run of Chinook salmon. How many fish are there in a winter run?"

They said, "Senator, the winter run this year is estimated to be 191 to 200 Chinook salmon."

I said, "Wait a minute." Is aid, "On one hand we are talking about 100,000 jobs, $4.5 billion out of the economy, and on the other side of the scale is 191 to 200 salmon? There has to be a way. There has to be a way."

They said, "Look, Senator, we do not write the laws. We just enforce them and regulate them."

I said, "I do not want you to violate the law. But there has to be a way. Have you folks ever sat down and talked to one another, figured out a way you can protect the salmon, and by all means protect 100,000 jobs?"

They said, "Well, Senator, no, we have not."

I said, "Well, I have news for you. You and I are going to become very good friends. Because we are going to meet in this office every Tuesday morning until we find a way."

Sometimes you succeed in an approach like that. Sometimes you fail. And I have done both.

In that case, within 3 weeks we had found a way to protect 191 to 200 estimated winter run of Chinook salmon, but most important, to protect and save those jobs in the port of Oakland.

Mr. President, I will be very brief in winding up here. I think now is the time to try to draw together the various arguments made throughout the time that I have been afforded this afternoon for which I am thankful.

First of all, regarding the Central Valley project in California, what should be done with it?

Mr. President, I think what should be done and what is being accomplished, as we meet here today, is a transfer of the Central Valley project to the State of California. And, barring that, an agreement under which the State of California would manage and control the Central Valley project and could, in their own wisdom, determine how allocations of water will be made in that most important project.

I think the State of California, the contractors to the Central Valley project, owe the Federal Government full payment, whatever this Nation's taxpayers have invested into the Central Valley project on their behalf. On the other hand, the management and control, the ability to determine their own destiny, their own future, should be left in the hands of Californians, not Washington, DC, and not the Federal bureaucracy.

We are not there yet. The Governor of the State of California, Pete Wilson, has been in close negotiations with the Department of the Interior relative to that objective. He has not achieved it yet, but I believe they are getting close. I am hopeful for, one, that that process is completed in an expeditious fashion so that California and Californians can control their own destiny, as well as their future.

However, in the interim, we do have a responsibility to address a reallocation of water from the Central Valley project to urban areas, to people and jobs, as I refer to it, as well as to fish and wildlife and the improvement of it for California. We need to do it in a way that the water is moved from Central Valley contractors, farmers, to these two other areas, not in a way to destroy the rich economy of the No. 1 industry of the State.

The bill we have currently pending before this body and will soon now pass to the House of Representatives is our best attempt to reach an appropriate compromise, to reach an appropriate balance in the interest of people and their jobs, agriculture, and fish and wildlife purposes. All three are important. And each of those interests in water believe their particular interest is absolutely critical, not just important. So we need to address those three interests. The bill before us, I argue, does that, and H.R. 429 does not.

It is important to protect our environment. It is important to protect fish and wildlife, and it is particularly important to protect those small businesses that work in the fishing industry.

So we need an approach that, in fact, will address their needs, those small entrepreneurs who worked very hard to eke out a living in the fishing industry. We need to protect them and help them. We also need to do whatever we can to protect the environment. I think the measure before us does those things.

Alternatively, the bill we will vote on tomorrow, I argue—and will argue just a bit more tomorrow, but not long—that H.R. 429 will go a long way toward addressing the needs, the real needs, of fish and wildlife. There is no doubt about that. But I argue that it will do it at the expense of the other important parts of the equation—people and their jobs, and agriculture. That, in fact, if passed and if signed—and I will do what I can to ensure that the President does not sign the bill and vetoes it—but if passed and signed, it will lead us to a decade of litigation, a fight over water that the State of California has never seen.

If one is familiar with the history of California, one well realizes that we in California have been fighting many years. Water fights between northeastern California and southern California, between the various users of water, have been violent even at times. In fact, it was Mark Twain that once said: Whiskey is for drinking, and water is for fighting.

So it has been the history of California in its battles over water. I hope that this bill before us, as it makes its way over to the House, that the House would come back and pass that bill to the President of the United States for his signature, and he will sign it, because I think that will avert yet another water war, a decade of litigation, in California.

So, in closing, I want to thank our majority leader, Senator MITCHELL, our minority leader, Senator DOLE. I thank Senator BRADLEY, who has been more than generous, Senator WALLOP for his efforts on my behalf, Senator JOHNSTON, the chairman of our committee, who has also been very generous, and my colleagues who have worked so closely with me on this issue so critical to California, and the water projects part of the bill we will take up tomorrow in their interests in their States.

It has been a learning process for me. It has been a process in which, for my part, I hope that the people that I have worked with would say that he tried. He tried. That is about all we can ask of anyone, Mr. President, is that they try.

So, Mr. President, at this particular time, I will yield to the floor to Senator BRADLEY and yield all of my remaining time.

Mr. BRADLEY addressed the chair.

The PRESIDING OFFICER. The Senator from New Jersey is recognized.

Mr. BRADLEY. Mr. President, before the distinguished Senator from California leaves the floor, let me say to him that I cannot think of anything else that he could have done to represent and push his position than he has done.

So when he said he hopes he will be thought of as someone who tried, let me say as the subcommittee chairman who has worked with him, that I salute him. He, indeed, has tried and tried very hard.

Mr. President, if I could address some of the loose ends of this argument, so that the RECORD will reflect clearly the strong and broad support for H.R. 429.

I want simply to, once again, read into the RECORD all of those people who have written in support of H.R. 429.

As I said earlier, the Bay Area Council, composed of 250 of the largest employers in the San Francisco Bay area; board of directors, Robert D. Perry, Federal Reserve Bank of San Francisco; James Brown, treasurer, Building Construction Trades; Council of Alameda County; Robert Fisher, director of San Francisco Foundation; William Seton, Chairman and CEO for American President Companies; Michael McGill, Bay Area Economic Forum and various mayors. Quite a distinguished group.

I will ask unanimous consent that the list be printed in the RECORD in support of H.R. 429.

Mr. President, in addition to the Bay Area Council, there is the Bay Area Economic Forum which is a strong supporter of this bill.

I ask unanimous consent that the membership of this group be printed in the RECORD.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

THE BAY AREA ECONOMIC FORUM

The Bay Area Economic Forum is a public/private partnership of regional leaders concerned with economic issues facing the San Francisco Bay Area. Forum members are committed to fulfilling the economic potential of the area while maintaining its unique quality of life.

BOARD OF DIRECTORS

Chairman: Robert T. Parry, President & CEO, Federal Reserve Bank of San Francisco.

Hon. Mayor Frank Jordan, City and County of San Francisco.

James L. Brown, Secretary/Treasurer, Building & Construction Trades, Council of Alameda County.

Preston Butcher, President, Lincoln Property Company N.C., Inc.

Dr. Ronald E. Cape, Chairman & CEO, Cetus Corporation.

Hon. William J. Carroll, Supervisor, County of Solano.

Richard A. Clarke, Chairman & CEO, Pacific Gas & Electric Company.

Dr. Robert M. Fisher, Director, The San Francisco Foundation.

Hon. Mary Griffin, President, ABAG and Supervisor, County of San Mateo.

Ted W. Hall, Director, McKinsey & Company, Inc.

Hon. Susan Hammer, Mayor, City of San Jose.

Hon. Elihu M. Harris, Mayor, City of Oakland.

Hon. Tom Hsieh, Supervisor, City and County of San Francisco.

George M. Keller, Chairman of the Board, Retired, Chevron Corporation.

Dr. Donald Kennedy, President, Stanford University.

Dr. Julius R. Krevans, Chancellor, University of California, San Francisco.

Michael S. McGill, Executive Director; Bay Area Economic Forum.

Hon. Dianne McKenna, Supervisor, County of Santa Clara.

Hon. Sunne Wright McPeak, Supervisor, County of Contra Costa.

Hon. Tom Nolan, Supervisor, County of San Mateo.

W.B. Seaton, Chairman & CEO American President Companies, Ltd.

Angelo J. Siracusa, President Bay Area Council.

Hon. Richard L. Spees, Council Member, City of Oakland.

William E. Terry, Executive Vice President, Hewlett-Packard Company.

Chang-Lin Tien, Chancellor University of California, Berkeley.

RADM Robert L. Toney, USN (Ret.), President & CEO, Oakland Chamber of Commerce.

Revan A.F. Tranter, Executive Director Association of Bay Area Governments.

James A. Vohs, Chairman, Bay Area Council and Chairman of the Board Kaiser Foundation Health Plan, Inc.

Forum Staff

Michael S. McGill, Executive Director; Sally DiDomenico, Assistant Director.

"Using Water Better" has been produced by the Bay Area Economic Forum. For copies of this report, call or write the Forum at 200 Pine Street, Suite 300, San Francisco CA 94104, 415/981-7117.

Principal Authors

Ronald H. Schmidt, Senior Economist, Federal Reserve Bank of San Francisco.

Frederick Cannon, Vice President and Senior Economist, Bank of America.

Associates

Randall J. Pozdena, Vice President, Federal Reserve Bank of San Francisco.

Stephen Dean, Research Associate, Federal Reserve Bank of San Francisco.

Report Design

Steve Baxter, Federal Reserve Bank of San Francisco.

Report Task Force

Tom Berliner, Deputy City Attorney, City of San Francisco.

Chelsea Congdon, Environmental Defense Fund.

Lori Griggs, Committee for Water Policy Consensus.

Guy Phillips, Energy Resources International

Richard Roos—Collins, Friends of the River.

Larry Serituk, Sage Clearing.

Robert Skinkle, Regional Economist, Wells Fargo Bank.

Mr. BRADLEY. Then, of course, a very important endorsement comes from the California Business Roundtable. I have already read into the RECORD the note from Mr. James Harvey. I simply want to read into the RECORD the names of those in the California Business Roundtable Water Task Force members, representing the 100 largest corporations and banks in California.

The task force consists of Mr. James Harvey, chairman of Transamerica Corp.; John E. Bryson, chairman and CEO, Southern California Edison Co.; Harry M. Conger, chairman and CEO of Homestake Mining Co.; Lawrence A. Del Santo, chairman and CEO, Lucky Stores, Inc.; Sam Ginn, chairman and CEO of Pacific Telesis Group; Paul Hazen, president of Wells Fargo Bank; Bruce Karatz, president and CEO of Kaufman & Broad Home Corp.; Thomas L. Lee, chairman and CEO of the Newhall Land & Farming Co.; Richard M. Rosenberg, chairman and CEO of Bank of America.

Mr. BRADLEY. That list also includes Alan Seelenfreund, chairman and CEO of McKesson Corp.; Phillip L. Williams, vice chairman of the Times Mirror Co.

This is a distinguished list of people who have one objective, and that is to create jobs in California. They strongly support this bill, because they recognize that it will create jobs in California, and they recognize that water is needed in the commercial and industrial sector. Without that water, they cannot expand to create the number of jobs that they otherwise would create.

I want to address, if I could, the letter from the Secretary of the Interior, Mr. Lujan. I would like to quote certain segments of the letter and then offer my analysis of them.

He says, for example: "It provides for a number of expensive measures," referring to H.R. 429, "many of which have not been subjected to feasibility analyses and would be financed largely at Federal expense."

The structural measures in title XXXIV came from Senator SEYMOUR's bill and from Senator Wilson's bill in the 101st Congress. They were proposed by growers and by a State-based task force so the only measures in here have actually come from California Representatives.

Next Secretary of the Interior Lujan states: "It affects" meaning H.R. 429, "the State of California's authority in matters of water allocation, distribution and use; and conflicts with the equitable distribution of responsibilities embodied in the Coordinated Operating Agreement".

To the contrary the bill contains a detailed savings clause requiring the Secretary to comply with State water law and the Coordinated Operations Agreement in implementing the bill.

The bill contains a section—opposed by the growers—that preserves the State of California's authority to condition the CVP's water rights for any purpose. I would like to repeat that. The bill contains a section that preserves the State of California's authority to condition the CVP's water rights for any purpose.

Mr. President, the greatest threat to California's authority over CVP water is the Secretary's continuing efforts to renew CVP water contracts for another 40 years. That is the fact. The Secretary goes on to say:

> Contrary to one of its stated purposes, the title reduces the operational flexibility needed to achieve increased multiple uses of water, including the ability to provide water for wildlife refuges.

The only flexibility that this bill reduces is the Secretary's flexibility to dry up rivers and wildlife refuges. This bill authorizes voluntary water transfers, water conservation, conjunctive use facilities, new conveyance facilities, and requires the Secretary to develop a plan to increase the overall water supply of the CVP by as much as 1 million acre-feet.

Next, the Secretary says:

> It diverts repayment revenues to a special interest fund.

The bill does nothing of the kind. It diverts increased repayment revenues raised from water transfers, which would be impossible without this bill. It diverts—it actually raises it in places—to a fund to be used to mitigate for the project's environmental damage. The money is raised in the CVP and used in the CVP.

Next the Secretary says:

> It mandates operational changes which fail to consider the consequences on other statutory or current contractual obligations. The current delivery infrastructure and contractual water commitments are not designed to accommodate such a large mandatory allocation to fish and wildlife flows. In most years, reclamation would be unable to meet current contracts or provide stable water levels for reservoir recreation and power generation.

Just a couple points on that.

Current operations fail to consider the consequences on fish and wildlife. That's why the project is in so much trouble under State and Federal environmental laws.

The current delivery structure and contractual water commitments must be changed so that the project stops causing so much damage. That's why the bill authorizes changes in the project's delivery structure and contractual water commitments.

The Bureau's inability to meet—this is an important point—current contracts is simply a result of the fact that current contracts is the project's water.

And the Chair, the distinguished Senator from Colorado, I am sure would be interested in this point. The Bureau's inability to meet current contracts is simply the result of the fact that they have overcontracted the project's water. In other words, the CVP has about 9 million acre-feet under contract but in a normal year it delivers only about 6–7 million acre-feet.

This is one of the mind-boggling facts of this whole issue which I think the distinguished Senator from Colorado, who is in the Chair, has indeed an abiding interest in. I know he will look carefully at this whole area which is the overcontracting of water. The project has never produced 9 million acre-feet. So why did the Bureau of Reclamation contract for 9 million acre feet?

That is a mystery that we hope to get to the bottom of next year.

Further, reservoir recreation is not an authorized project purpose, and power generation is a subordinate purpose behind irrigation, municipal and industrial fish, and—under this bill—fish and wildlife mitigation.

Next, the Secretary of Interior in his letter goes on to state:

> The title's goal of "all reasonable efforts" to double the natural production of anadromous fish imposes unnecessary uncertainly on CVP users and makes it difficult to plan for either implementing the bill or mitigating its effects on agriculture.

The bill's doubling goal is taken directly from State law. It does nothing more than put the CVP under the same duty as the State Water Project.

The doubling goal, if enacted all by itself, might impose uncertainty on CVP users, but it is not by itself, it's accompanied by the explicit caps on the amount of water and money the CVP users can be called upon to contribute toward meeting the doubling goal.

Finally, Secretary Lujan states:

> The title also introduces a significant uncertainty in water contract provisions by reducing the length of renewed contracts, creating the ability to allocate water to fish and wildlife as contracts are renewed, and providing no requirement to renew contracts after an initial 25-year period.

I know the Chair, the distinguished Senator from Colorado, would like to hear this point. The Secretary of Interior has written in this letter that it is not enough to renew a contract guaranteed for 25 years. In my view that just reflects the Bureau's unbelievable determination to try to renew water contracts indefinitely. The Bureau wants to lock in 40-year-old patterns of water use for another 40 years and more 40 year periods after that.

I knew that this situation was very difficult to get compromised when, after we agreed that anyone holding a water contract will automatically get another 25 years and, at the end of that 25-year period, the Secretary may renew for another 25. I mean, 25 years from the time the contract expires—which would be in the middle of the 21st century—California might be a little different place than it is now. Those receiving the benefit said, "no," we want that benefit for the next 50 years. At that point I realized that ultimately we were not going to be able to get 100-percent agreement.

Now, there is one thing I would like to place also in the RECORD. One of the more disturbing features of whole debate on CVP reform has been the Bureau of Reclamation's steadfast opposition to even the most modest proposals to improve the CVP's environmental accountability. For example, just last week, the Bureau circulated a letter criticizing the offer House conferee's offered on CVP reform. In an ideal world, where good public policy reigned, the Bureau would have tried to help the conferees weigh the proposal. Instead, the Bureau did its best to mislead the conferees with dubious numbers, specious assumptions, and flawed conclusions.

To begin with, the Bureau's analysis completely ignores the future the project faces even in the absence of CVP reform legislation. The Bureau wants the reader to compare the House offer to some long-gone perfect world scenario, overlooking the inescapable fact that the easy days of CVP irrigation are gone for good—largely due to the Bureau's resistance to fixing environmental problems before they became emergencies. Some changes are coming soon; some have already happened. We know, what they are going to be. For example:

Winter-run chinook salmon will require, for the foreseeable future, at least 300,000 acre-feet per year of additional project yield. CVP bay-delta obligations will require at least 250,000 acre-feet per year of additional project yield. This sum amounts to only 5 to 10 percent of the additional bay/delta water needs identified by State and Federal fish and wildlife agencies in recent testimony before the State water resources control board. It would be significantly more than the 250,000.

Minimum releases to the Trinity River were increased to 340,000 acre-feet per year by secretarial decision in May 1991, thereby reallocating up to 117,000 acre-feet per year more than the Bureau's cited historic release levels.

Finally, there is a general agreement, reflected, among other places, in the Seymour and Dooley-Lehman-Condit proposals for CVP reform that the CVP should provide up to 424,000 acre-feet per year of level 2 refuge supplies during normal water years, up to 188,000 acre-feet per year more than the historic refuge supplies referenced by the Bureau.

Taken together, the above elements alone could result in a reallocation of CVP yield totaling almost 900,000 acre-feet per year, but, in the absence of legislation, this reallocation could happen by virtue of court decree, could happen by secretarial decision, could happen a number of ways up to 900,000 acre-feet. This reallocation would happen with no Federal support or authority for conservation, no off-project transfers, no conjunctive use or water banking. None of those factors was incorporated in the Bureau's retrospective analysis.

The Bureau's also focuses on a period of severe and unprecedented drought. In sum, they've put together a scare story. To merely superimpose on historic project operations the nominal requirements of the House offer completely ignores: First, the normal flux of wet and dry years in western surface water hydrology; and second, the demand side of the equation including price response—prices go up consumption down.

Moreover, the letter entirely ignores project supplies and deliveries in the Friant Division, which ranged from 540,000 AF/yr to 1.1 million AF/yr during the study period selected.

The Bureau asserts, without any documentation, that the House offer would severely restrict the CVP's ability to provide water to municipalities, farms, households and industries in most years. Yet the Bureau completely ignores the effects on water supply and demand resulting from improved water management, conservation, banking, transfers, and conjunctive use—all primary elements of the House offer. These techniques may not be how things were done during the Bureau's heyday, they may not like them, but they are certainly major features of the way everyone in California expects to manage water today and in the future.

The Bureau asserts that drought relief associated with water transfers under the House offer is highly questionable because otherwise available water supplies are irrevocably dedicated to fish and wildlife purposes. This ignores, at a minimum, the potential for normal-year/drought-year alternatives, such as options and exchanges with other sources of supply—alternatives that any creative water manager would pursue as an element of a CVP water-transfer portfolio. Finally, it also ignores the importance of water banking, and more generally the use of CVP conveyance capacity by all Project entities in the marketing of supplies "off Project."

In other words, Mr. President, the Bureau wants the reader of this document to leap to the conclusion that changes in CVP deliveries translate immediately and inescapably into economic ruin. Actual experience during this drought indicates that the CVP agricultural water users are far more resilient than the Bureau would have us believe. Consider, for example, the case of Westlands Water District. From data presented in a report entitled "Analysis of the Economic Impacts of the Central Valley Project Improvement Act" (Zilberman et al., March 1992), what can be observed for the period 1987–90 is as follows:

First, a 31-percent decline in available CVP supplies;

Second, a 17-percent decline in total water use—including groundwater;

Third, a 5-percent increase in irrigated acreage;

Fourth, an 8-percent increase in crop receipts; and fifth, a 30-percent increase in crop receipts per acre-foot of water.

Now what they did was shift to higher value crops and use water more efficiently.

According to the Congressional Research Service, actual experience during the present drought indicates that:

> The end result of a significant reduction in surface water deliveries or a significant increase in the cost of water to agriculture would probably include:
>
> Reductions in the acreage of farm program crops such as rice, cotton, and grain.

Remember, 50 percent of the water goes to 4 crops which produce 11 percent of all the crop value. People should stop investing water in those crops and go to higher value crops.

> Maintenance of tree and vine crop acreage, with perhaps some yield reductions, at least through their economic life.
>
> More specialization in high value crops, as dictated by current market conditions. At present these include vegetables, along with tree and vine crops.
>
> Retirement of marginal farmland. . . .

Do not grow if it is not producing.

> Lower agricultural land values leading to increased municipal and industrial development of farmland in some areas. However, declining land values may be more than offset by increases in land values in areas that either receive more water or have a more stable assurance of long-term supplies.
>
> Additional capital investment in technology that improves the conservation and efficiency of irrigation water.
>
> More rapid depletion of underground aquifers with reduced supplies and higher costs for all underground water users.

In other words, what happens in a drought is you use water more efficiently, you conserve, you move to a higher value crop. Pretty simple. A lot of farmers know it, and they are doing it. That is why even in drought circumstances farmers are able to increase the value of their crop.

The Bureau's letter complains about—and completely misstates—the House offer's "obligation to concurrently mitigate project operations." The third paragraph on page 1 of the Bureau's letter implies that "concurrent mitigation of operations, the achievement of as yet undetermined San Francisco Bay and Delta outflows, and the implementation of a program to fully mitigate fishery impacts associated with the operations of the Tracy Pumping Plant" are somehow additive obligations, one burden heaped upon another. Again, the contrary is true. These are concurrent and complementary obligations—not additive. They are, in fact, merely three ways of restating the same environmental obligation.

The Bureau is correct in asserting that meeting these obligations may require some pumping curtailments during the late winter and spring months. This will not, however, necessarily adversely affect the ability to deliver irrigation water south of the Delta, although it may, and should, entail some change in the timing of the pumping. As additional south-of-Delta storage becomes available—Kern water bank, Los Banos Grandes, or demand is reduced—dry-year land fallowing, retirement of drainage problem lands, improved conjunctive use of groundwater—supply impacts associated with this temporal displacement in pumping would become negligible.

The Bureau's letter objects to the House offer's requirement that the CVP meet or attempt to meet temperature requirements in the Sacramento River, suggesting that to do so may not be operationally feasible. In fact, the contrary is true: meeting temperature requirements would be one of the purposes of the block of water dedicated to fish and wildlife purposes under the bill. That new asset, combined with the ability to carry the water over from year to year, will greatly improve the ability of Shasta reservoir to meet Sacramento River temperature requirements.

Moreover, in making their case on this point, the Bureau suggests that it is currently bound to meet certain goals for storage in Shasta that, in fact, don't match the Bureau's actual practice in recent years. "Watch what we say, not what we do". Consider, for example, assumption No. 2 in the Bureau's analysis, which states that "storage of 8 million acre-feet as of September 30 each year is desirable to provide reasonable assurance of an adequate water supply to all beneficial uses * * *" including, presumably, temperature control for endangered salmon.

Why, then, did the Bureau sustain 100 percent deliveries—including the sale of surplus water—through 1989, in the midst of the current drought, thereby depleting carryover storage to 4.6 million acre-feet?

Why, in the same year, was the Bureau attempting to market and commit an additional 1.5 million acre-feet for consumptive uses?

Recognizing the potential tension between increased minimum flows to improve temperatures for fish and desired increases in carryover storage, the House offer provides not only for improved operations and revised carryover objectives, but for construction and funding of temperature control devices at Shasta, Trinity, and Lewiston Dams.

By the way, the House offer does not create new temperature standards for the Sacramento. They are in place today, under existing State law. If the Bureau had complied with State law, the winter run chinook very probably would not be in anything like the dire condition it is in today. Unfortunately, State law does not seem to be something the Bureau has shown much concern about in the past.

Mr. President, I will make one last point. Throughout this debate, the distinguished Senator from California has said if H.R. 429 passed, there would be a loss in farm income in the State of $4.5 billion. I would respectfully disagree with my colleague from California.

The reason I do not believe this bill would produce a loss of $4.5 billion in the sector is because the total agriculture sector of the State is $18.5 billion. The total agriculture value attributable to the Central Valley project is $3.5 billion. The Senator from California is asserting that if we reduce the amount of water going to Central Valley agriculture by 15 percent, the result will be a loss which is greater than the total value of all of the crops produced in the Central Valley project. It is on its face an unsupportable position, to say the least.

How could he have asserted that if you simply cut back on the amount of water going to Central Valley project agriculture by 15 percent, you will lose more agriculture product, economic product, than exists in the entire Central Valley project? One could have to say because he was using a bad economic model, to be generous.

He is probably using a bad economic model. I think I have discovered that model. It is called the California Department of Food and Agriculture. It is that model he has used to get his $4.5 billion figure, which on its face is nonsensical.

I then asked the most respected economic consulting group in the Central Valley of California, Law & Economics Consulting Group out of the University of California, Davis, to take a look at this and tell me what they thought. Their response was:

CDFA's prediction of lost farm income represent a very unlikely outcome of the proposed legislation. The CDFA analysis strongly overestimates the possible impact of the water supply reduction for the simple reason that growers will cease production of low-value crops before they will alter their production decisions concerning high-value crops. The experience of California's recent drought shows clearly that when farmers are denied water, they reduce irrigation to the lowest-value crops while continuing to irrigate high-value crops.

That is the point I made in my previous comments.

A more appropriate analysis of the impacts of the CVPIA must recognize that the reduction in water use will primarily affect lower-value crops and compute outcomes accordingly.

In other words the model is flawed.

I ask unanimous consent that this letter be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD as follows:

LAW & ECONOMICS
CONSULTING GROUP, INC.,
Berkeley, CA, May 14, 1992.

Hon. GEORGE MILLER,
Chairman, Committee on Interior and Insular Affairs, House of Representatives, Longworth Office Building, Washington, DC.

DEAR CHAIRMAN MILLER: The Law & Economics Consulting Group, Inc., has been requested to review two analyses of the economic impacts of the Central Valley Project Improvement Act (CVPIA); one prepared by the California Department of Food and Agriculture (CDFA) in March 1992 and one generated recently by the California Agricultural Resources Management (CARM) model developed by economists at the University of California. It is our opinion that the CDFA analysis is fundamentally flawed and grossly overstates the actual economic impacts of the proposed legislation. We conclude further that the CARM impact analysis is a far more accurate representation of the economic effects of the proposed legislation. This model predicts a reduction in gross farm income of $262 million and an elimination of 570,000 acres from production following a 1.5 million acre feet reduction in water supplied to farmers by the CVP.[1]

CDFA ANALYSIS

The CDFA analysis assumes extreme rigidity in the allocation of supply reductions and in the response on individual farmers. Specifically, the analysis assumes that there will be no water trading and that agricultural output will be reduced in proportion to water reductions.

CDFA's prediction of lost farm income represent a very unlikely outcome of the proposed legislation. The CDFA analysis strongly overestimates the possible impact of the water supply reduction for the simple reason that growers will cease production of low-value crops before they will alter their production decisions concerning high-value crops. The experience of California's recent drought shows clearly that when farmers are denied water, they reduce irrigation to the lowest-value crops while continuing to irrigate high-value crops. A more appropriate analysis of the impacts of the CVPIA must recognize that the reduction in water use will primarily affect lower-value crops and compute outcomes accordingly.

CARM ANALYSIS

A far more accurate and sophisticated analysis is that incorporated in the 1987 California Agricultural Resources Management (CARM) model developed at the University of California to conduct policy impact analyses. CARM is a quadratic programming model that gauges the response of farmers to policy and environmental changes in six subregions: the Sacramento Valley, the Northern San Joaquin Valley, the Central San Joaquin Valley, the Southern San Joaquin Valley, and remainder categories for counties north and south of the Bay area. The Table below summarizes the changes anticipated by the CARM model:

The Impact of a 1.5 MAF Reduction in CVP Water Supply on Gross Farm Income:

Change in Gross Farm Income

[In millions of dollars]

Region:	*Amount*
SACV	-27
NSJV	6
CSJV	-174
SSJV	-79
NR	1
SR	11
Total	-262

The model predicts that the loss in gross farm income associated with the reallocation of 1.5 million acre feet of water is only $262 million. The CARM model further suggests that the proposed legislation will result in the elimination of 570,000 acres of land from production; most of this removal will be in low- or medium-value crops, including cotton, alfalfa, hay, rice, and wheat. These estimates are significantly below the CDFA's predictions of between $1.6 and $2.2 billion in lost farm income and the elimination of over 800,000 acres of farmland.

The CARM model is not a perfect predictor of the impacts of the CVPIA for several reasons. Most importantly, the CARM model assumes a well-functioning market for water. To the extent that such a market will function imperfectly, at least the short-run, the model underestimates the actual impact on the farm sector. On the other hand, the CARM model understates the actual impacts of a reduction in supply in that it does not consider the possibility for adoption of water-saving irrigation technologies by farmers in the affected regions. While there has been some movement towards adoption of advanced drip irrigation in response to the recent drought, farmers have been far more likely to increase their attention to irrigation management by adjusting the quality of existing furrows. There is clearly room for adoption of more advanced technologies. With these considerations in minds, it is our opinion that the impact analysis generated by the CARM model represent the actual consequences of the CVPIA far more closely than do the estimates offered by the CDFA.

We hope that this brief analysis is helpful in your efforts to resolve this important matter and responsive to the requests we have received to address the economic impacts of the proposed legislation. If you have any questions regarding this letter, or wish to discuss our work further, please do not hesitate to write or call.

Sincerely,

DAVID ZILBERMAN,
Professor of Agricultural and Resource Economics, University of California at Berkeley.

DAVID SUNDING,
Assistant Professor of Economics and Law, Boston College.

---

[1] It is our understanding that the 1.5 MAF of fish and wildlife water in question will normally result in substantially less than 1.5 MAF reduction in water supplied to farmers. In above average years, available supplies tend to exceed total CVP demands and the "surplus" would be used to meet the CVPIA's fish and wildlife requirements; in drought years, the 1.5 MAF will itself be reduced by applicable deficiency criteria. To the extent that CVP supply reductions are minimized, the impacts stated herein will also be reduced.

Mr. BRADLEY. Mr. President, one should not need even that to realize that the estimate is wrong. How could 15 percent reduction of water produce a loss in crop value that exceeds the total crop value of the whole Central Valley Project?

I might say this consulting group goes on to say that, instead of $4.5 billion economic value loss from Agriculture, they conclude that, even with a reallocation of 1.5 million acre-feet, the total lost value in farm income would be $262 million. Since here we are only talking about 800,000 acre-feet, we are really talking about a half of that, $130 million, $140 million out of $3.5 billion.

One final comment points out that the State of California has a gross State economic product of close to $700 billion. In 1992, it is projected to be $752 billion, of which agriculture is projected to be about $16 billion, $18 billion manufacturing is $117 billion; finance, insurance, and real estate is $139 billion; services is $146 billion; transportation is $49 billion; wholesale trade is $46 billion.

So clearly it is a very diverse State, and yet a State in which out of $700 billion-plus, $760 billion gross State economic products, agriculture is $18 billion, and it uses 80 to 85 percent of the water. A 10-percent reduction in agriculture water use means you double the amount available in the commercial and residential sector.

The economic growth and diversity of California requires that we alter the way water is used in California. We simply cannot continue committing those amounts for agriculture.

In terms of employment, the State has 12.7 million people employed of which agriculture represents 400,000. Government services is 3.5 million; finance is 800,000; retail is 2.1 million; manufacturing is 1.9 million; transportation and utilities is 600,000; Government is 2 million; and construction is 521,000. All of these groups have more workers.

Mr. President, one final set of statistics so anyone reading this RECORD will be able to see we have tried to be fair. You have a gross economic product in the State of about $750 billion; $760 billion, with agriculture products of about $18 billion, and CVP agriculture products at $3.5 billion.

The CVP share of the economic product is 0.45 percent of the California economic product, and the CVP environmental water as a share of the California economic product is about .063. Basically, it is a little more than six one-hundredths of a percent. It is ludicrous to argue this would ultimately be the end of California agriculture. Or have a significant adverse impact on the state of the economy.

So, Mr. President, one last point. And this is, earlier in the debate the distinguished Senator from California made the argument that he is all against the project purpose section that we have in the bill. Let me just point out that the project purpose that we have in the bill is taken directly from the bill that was introduced by Congressman DOOLEY, by Congressman LEHMAN, and endorsed by the distinguished Senator from California himself. So the language in project purpose that he criticized earlier came directly from a bill he supported.

Mr. President, I am about ready to wrap up this phase of this debate and move on to tomorrow. Tomorrow, of course, we will be dealing with the whole of H.R. 429. At that time we will have an up-or-down vote. It is my hope there will be strong support for the legislation. But before we close this debate, I would like one last bit of information to be in the RECORD, because some people have asserted that 800,000 acre-feet of water for fish and wildlife is excessive; it will never be achieved; it will create an agricultural depression.

Let me suggest several ways that that 800,000 acre-feet could easily be obtained.

First, water conservation in areas tributary to the Delta;

Second, conjunctive use—ground water pumping in lieu of surface water diversions—in the Delta and Sacramento Valley, 200,000 to 300,000 acre-feet; $40 to $60 per acre-foot;

Third, dry year fallowing in areas tributary to the Delta—300,000 to 500,000 acre-feet; $125 to $200 per acre-foot;

Fourth, delta islands water storage and release—150,000 to 270,000 acre-feet; $150 per acre-foot;

Fifth, increased use of the four new State project pumps—66,000 acre-feet up to 344,000 acre-feet if Los Banos Grandes reservoir is built;

Sixth, rice field water storage—little new water, but much better timing of releases for fish and much improved wildlife habitat; $4 per acre-foot;

Seventh, purchase of stored water from the west slope of the northern Sierra, including Yuba and Placer counties—130,000 to 200,000 acre-feet; $5 to $125 per acre-foot; and

Eighth, Stanislaus River Basin and Calaveras River water use program—155,000 acre-feet.

That is all on the supply side. Those are all suggestions, how you could end up improving the supply side by a total of way over 800,000 acre-feet.

On the demand side of course, which none of the Bureau's analyses ever looked at, are the following options to reduce demands for pumping from the delta.

First, water conservation in urban and agricultural areas south and west of the delta—urban estimate 1 to 1.8 million acre-feet; $300 per acre-foot;

Second, conjunctive use of surface and ground water in the San Joaquin Valley—50,000 to 300,000 acre-feet;

Third, dry year fallowing in agricultural areas south of the delta—included in 300,000 to 500,000 acre-foot estimate in A(3) above;

Fourth, reduction of water use in the drainage problem area of the San Joaquin Valley—100,000 to 240,000 acre-feet by year 2000, additional 150,000 to 300,000 by 2020;

Fifth, water recycling in urban areas—250,000 to 400,000 acre-feet.

Then we finally get to water recycling and urban areas, some of the waste water recycling that we have in this bill for San Diego and a number of other places in California, could save about 250,000 to 400,000 acre-feet. Getting to 800,000 acre-feet is not a serious problem, or a serious burden on anyone.

So, Mr. President, I have done my best to accommodate the distinguished Senator from California. We held many hearings. We worked on things together for a long time. And the Senate tomorrow will vote on H.R. 429, that includes not only the Central Valley project that we have discussed here for nearly 6 hours today but also 20 other western water projects, many of which have landmark environmental provisions.

Mr. President, I would be prepared to yield back the remainder of my time with the understanding, when we are finished, the bill of the distinguished Senator from California will be read three times, passed, and go to the House. Where it will remain. I want to thank the distinguished Senator from California.

I would also like to say to the Chair I appreciate his forbearance here, and I look forward to tomorrow's debate.

The PRESIDING OFFICER. Under the previous order, S. 3365, a bill entitled the Central Valley Project Fish and Wildlife Act of 1992 is considered read three times, passed, and the motion to reconsider the vote is laid upon the table.

So the bill (S. 3365) was passed as follows:

S. 3365

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Central Valley Project Fish and Wildlife Act of 1992."

SEC. 2. STATEMENT OF PURPOSE.

The purposes of this Act are:

(a) to mitigate, protect and restore fish and wildlife habitat in the Central Valley of California as specifically provided for within this Act;

(b) to partially mitigate the impacts of the Central Valley Project on fish and wildlife habitat by requiring the implementation of specific habitat restoration actions;

(c) to provide for the continued orderly operation of the Central Valley Project;

(d) to encourage, through cost sharing and other related actions, the cooperation and contribution by the State of California and other non-Central Valley Project entities toward the mitigation, protection, and restoration of fish and wildlife habitat within the Central Valley of California;

(e) to increase the benefits provided by the Central Valley Project to California through the expanded use of water conservation and water transfers;

(f) to achieve the purposes of this Act through implementation of projects, procedures and programs which do not result in further degradation of resources, including, but not limited to, groundwater, of the area presently served by the Central Valley project; and

(g) to coordinate the efforts and actions authorized in this Act with other activities being undertaken within the State of California to insure that work is not unnecessarily duplicated and is coordinated to minimize inconsistent and counterproductive results and maximize the benefits to be obtained.

(h) to study transfer of the Central Valley Project to the State of California.

SEC. 3. DEFINITIONS.

As used in this Act:

(a) The term "anadromous fisheries" includes runs of salmon, striped bass, steelhead trout, sturgeon, and American shad that ascend the Sacramento and San Joaquin Rivers and their tributaries and the Sacramento-San Joaquin Delta to reproduce after maturing in the San Francisco Bay and/or the ocean.

(b) The terms "artificial propagation" and "artificial production" include spawning, hatching, incubating, and rearing fish in a hatchery or other facility constructed for fish production.

(c) The term "Central Valley" means the watershed of the Sacramento and San Joaquin Rivers and their tributaries including the Sacramento-San Joaquin Delta.

(d) The term "Central Valley Project" means the Central Valley Project, California, as authorized in the Act of August 26, 1937 (50 Stat. 850) and all acts amendatory thereto.

(e) The term "Central Valley Project Service Area" means that area where the Secretary is authorized by law to provide water service and other benefits of the Central Valley Project.

(f) The term "Central Valley Project water" means all water that is diverted, stored or delivered by the Bureau of Reclamation pursuant to water rights acquired pursuant to California law, including water made available under the so-called "exchange" and Sacramento River settlement contracts.

(g) The term "Central Valley Project Water Contractor" means any entity which contracts for Central Valley Project water.

(h) The term "Central Valley Project Water Contractors Fund" means the fund established in section 4(h) of this Act.

(i) The term "Central Valley Refuges" includes the Sacramento, Delevan, Colusa, Sutter, Kesterson, San Luis, Merced, Pixley, and Kern National Wildlife Refuges, the Grassland Resource Conservation District, the Gray Lodge, Los Banos, Volta, and Mendota State Wildlife Areas, and those National Wildlife Refuges and State Wildlife Areas identified in the Bureau of Reclamation's report entitled "San Joaquin Basin Action Plan/Kesterson Mitigation Plan" (1989).

(j) The term "critically overdrafted groundwater basin" means those areas defined by the California Department of Water Resources, in its Bulletin No. 118-80, to have a critical groundwater overdraft problem.

(k) The term "natural production" means fish produced to adulthood without the direct intervention of man in the spawning or rearing processes.

(l) The term "Refuge Water Supply Report" means the report entitled "Report on Refuge Water Supply Investigations" published in March 1989 by the Bureau of Reclamation, Department of the Interior.

(m) The term "Secretary" means the Secretary of the Interior or his designee, except as otherwise provided.

(n) The term "transfer" means:

(1) all conjunctive use programs that provide for the transfer of all or a portion of the surface water made available by the use of groundwater as a substitute supply to another water use,

(2) exchanges between water users,

(3) groundwater storage programs that provide for transfer of all or a portion of the stored water to another water user directly or through exchange,

(4) conservation programs that provide for all or a portion of the water conserved to be transferred to another water user, or

SEC. 4. LIMITATION ON CONTRACTING AND CONTRACT REFORM

(A) NEW CONTRACTS.—The Secretary shall not enter into any new short-term, temporary, or long-term contracts or agreements for water supply from the Central Valley Project, with terms in excess of three years, for any purpose other than fish and wildlife before:

(1) the provisions of subsections 6(c)(1) and 6(c)(2) of this Act are met;

(2) the California State Water Resources Control Board concludes the review ordered by the California Court of Appeal in the *United States* versus *State Water Resources Control Board*, 182 Cal. App. 3d 82(1986), of San Francisco Bay/Sacramento-San Joaquin Delta Estuary water quality standards and determines the means of implementing such standards, including any obligations of the Central Valley Project; and

(3) at least one hundred and twenty days shall have passed after the Secretary provides a report to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives explaining the obligations, if any, of the Central Valley Project system, including its component facilities and contracts, with regard to achieving San Francisco Bay/Sacramento-San Joaquin Delta Estuary water quality standards as finally established and approved relevant State and Federal authorities, and the impact of such obligations on Central Valley Project operations, supplies, and commitments.

(b) RENEWAL OF EXISTING LONG-TERM CONTRACTS.—

(1) Notwithstanding the provisions of the Act of July 2, 1956 (70 Stat. 483), the Secretary shall, upon request, renew all existing long-term repayment contracts providing for the delivery of water or water service contracts from the Central Valley Project for a period of 25 years; and for successive periods of 25 years each:

(2) Upon renewal of any long-term repayment contract providing for the delivery of water or water service contracts from the Central Valley Project, the Secretary shall insure that all pricing requirements of reclamation law which exist at the time of renewal are incorporated within such renewed contracts.

(c) WATER THROUGH COURT DECREE.—Notwithstanding any other provision of this act, the provisional water provisions in the Stipulation, and the Order and Judgment, dated December 30, 1986, by the United States District Court for the Eastern District of California in the consolidated cases entitled Barcellos and Wolfsen, Inc. et al v. Westlands Water District, et al. (No. CV 79-106 EDP) and Westlands Water District, et al v. United States, et al. (No. CV F-81-245 EDP) shall, for the purposes of this section, be deemed to be an existing long-term water service contract; subject to renewal;

(d) Exceptions to Limits on New Contracts; the prohibition on execution of new contracts under subsection (a) of this section shall not apply to contracts authorized pursuant to Public Law 101-514, Sec. 206; Stat. 2087; Public Law 102-250; section 203 of the flood control act of 1962, to enter into a long-term contract in accordance with the reclamation laws with the Tuolumne Regional Water District, California, for the delivery of water from the New Melones project to the county's water distribution system and a contact with the Secretary of Veteran Affairs to provide for the delivery in perpetuity of water from the project in quantities sufficient, but not to exceed 850 acre-feet per year, to meet the needs of San Joaquin Valley National Cemetery, California, and to enter into a water service contract authorized for the Watsonville subarea of the San Felipe Division of the Central Valley Project pursuant to Public Law 90-72 upon completion of the plan of study.

SEC. 5. WATER PRICING REFORM.

(a) All Central Valley Project repayment contracts providing for water service and water service contracts for agricultural, municipal, or industrial purposes that are renewed after the date of enactment of this Act shall provide that all project water subject to contract shall be made available to districts, agencies, and other contracting entities pursuant to a system of tiered water pricing. Such a system shall specify rates for each district, agency or entity based upon an inverted block rate structure with the following provisions:

(1) The first rate tier shall apply to a quantity of water up to 20 percent of the contract total and shall be set at one-half the applicable contract rate;

(2) The second rate tier shall apply to the quantity of water over 20 percent and under 80 percent of the contract total and shall be set applicable to contract rate;

(3) The third rate tier shall apply to that quantity of water over 80 percent of the contract total and shall be set at one and one-half times the applicable rate; and

(4) The Secretary shall charge contractors only for water actually delivered.

The tiered water pricing system established in this subsection shall apply only to class I water, and not to class II water, in the Friant Division of the project. It shall also apply only to firm, and not to interim, intermittent and provisional water in other divisions of the water project.

(b) All Central Valley Project repayment contracts providing for water service and water service contracts for agricultural, municipal, or industrial purposes that are entered into after the date of enactment of this Act, shall provide that all project water subject to contract shall be made available to districts, agencies, and other contracting entities pursuant to a system tiered water pricing. Such a system shall specify rates for each district, agency, or entity based on an inverted block rate structure with the following provisions:

(1) The first rate tier shall apply to a quantity of water up to 80 percent of the contract total and shall be the applicable contract rate;

(2) The second tier shall apply to the quantity of water over 80 percent of the contract total and shall be one and one-half times the applicable contract rate; and

(3) The Secretary shall charge contractors only for water actually delivered.

The tiered water pricing system established in this subsection shall apply only to firm, and not to interim, intermittent and provisional water.

SEC. 6. PROTECTION, RESTORATION, AND MITIGATION OF CENTRAL VALLEY FISH AND WILDLIFE HABITAT.

(a)(1) Amendments to Central Valley Project Authorizations.—Act of August 26, 1937. Section 2 of the Act of August 26, 1937 (Chapter 832, 50 Stat. 850), as amended, is amended—

(A) in the second proviso of subsection (a), by inserting "and mitigation, protection and restoration of fish and wildlife," after "Indian reservations,".

(B) in the last proviso of subsection (a), by striking "domestic uses;" and inserting "domestic uses and fish and wildlife mitigation, protection and restoration purposes;"

(2) Mitigation, Protection, and Restoration.—The Secretary's participation in the development and implementation of the programs, activities and facilities authorized in this section shall be deemed to meet the mitigation, protection and restoration purposes of subsection 6(a).

(b) General Authority.—The Secretary shall:

(1) Implement the actions established by sections 6(c)(1), 6(c)(2) and 6(c)(3) and 6(c)(4).

(2) Develop, select, and implement actions, using the criteria established in section 6(e), that address the fish and wildlife habitat issues listed in sections 6(c)(1), 6(c)(2), 6(c)(3) and 6(c)(4).

(c)(1) Actions and Facilities.—Subject to limitations contained in sections 6(f)(6) and 6(f)(7), the following fish and wildlife habitat protection, restoration, and enhancement actions shall be implemented by the Secretary.

(A) Negotiation and execution of an agreement with the California Department of Fish and Game by December 31, 1992 which, when implemented, will mitigate the direct fishery losses associated with the operation of the Tracy Pumping Plant. Direct losses are defined as fish lost after they enter the Tracy Pumping Plant intake channel, taking into account numbers of fish that survive and are returned to the Sacramento-San Joaquin Delta. The cost of this action shall be allocated under section 6(f)(1).

(B) Negotiation and execution of an agreement with the California Department of Fish and Game by December 31, 1994 which, when implemented, will mitigate for direct fishery losses associated with the operation of the Contra Costa Canal Pumping Plant No. 1. Direct fishery losses are defined as fish lost after they enter Rock Slough. The cost of this action shall be allocated in the same manner as costs associated with the Contra Costa Canal are currently paid.

(C) Installation and operation of a structural temperature control device at Shasta Dam and development and implementation of modifications in Central Valley Project operations, if needed, by December 31, 1995, to allow for control of water temperatures in the upper Sacramento River from Keswick Dam to Red Bluff Diversion Dam sufficient to protect salmon. The cost of this action shall be allocated under section 6(f)(1).

(D) Coleman National Fish Hatchery shall be rehabilitated and expanded by implementing the United States Fish and Wildlife Service's Coleman National Fish Hatchery Development Plan by December 31, 1995. The Secretary shall negotiate and execute a contract for the operation of the hatchery by the California Department of Fish and Game. The contract shall provide that its operation shall be coordinated with all other mitigation hatcheries in California. In addition, the Keswick Dam Fish Trap shall be modified to provide for its operation at all project flow release levels. The cost of this action shall be allocated under section 6(f)(1).

(E) The negotiation and execution of an agreement with the California Department of Fish and Game, within one year after the enactment of this Act, which, when implemented, will eliminate, to the extent practical, losses of salmon and steelhead trout due to flow fluctuations caused by the operation of Keswick, Nimbus, and Lewiston Regulating Dams. The agreement shall be patterned after the agreement between the California Department of Water Resources and the California Department of Fish and Game with respect to the operation of the California State Water Project Oroville Dam complex. Any costs associated with this Agreement shall be non-reimbursable.

(F) A gravel replenishment program shall be developed and implemented by December 31, 1993 for the purpose of restoring and replenishing, on a continuous basis, spawning gravel lost due to the construction and operation of Shasta, Folsom and New Melones Dams, bank protection programs, and other actions that have reduced the availability of spawning gravel in the upper Sacramento River from Keswick Dam to Red Bluff Diversion Dam, and in the American and Stanislaus Rivers downstream of Nimbus and Goodwin Dams, respectively. The cost of this action shall be allocated under section 6(f)(2).

(G) A Delta Cross Channel monitoring and operational program shall be develop and implemented, within one year after the enactment of this Act, for purpose of protecting striped bass eggs and larvae as they approach the Delta Cross Channel gates. This program includes, but is not limited to, closing the Delta Cross Channel gates during times when significant numbers of striped bass eggs and larvae approach the Sacramento River intake to the Delta Cross Channel. Since this action will, by its nature, also restrict pumping at the Tracy Pumping Plant, other restrictions on the operation of the Delta Tracy Pumping Plant, which may currently exist to protect striped bass eggs and larvae, shall be modified, relaxed or eliminated to comport with this action. The cost of this action shall be allocated under section 6(f)(1).

(H) The Secretary, in coordination with the California Department of Fish and Game, shall, within one year after the enactment of this Act, establish a comprehensive assessment program to monitor fish and wildlife resources in the Central Valley and to assess the biological results of actions implemented pursuant to sections 6(c)(1) and 6(c)(2). The cost of this action shall be allocated under section 6(f)(2).

(c)(2) Habitat Restoration Actions.—Subject to the limitations contained in sections 6(f)(6) and 6(f)(7), and utilizing the criteria in section 6(e), the Secretary shall develop, evaluate, select, and, unless otherwise specifically provided, by December 31, 2000, implement actions that will address the following fish and wildlife protection, restoration, and enhancement issues.

(A) The Secretary shall develop and implement a program to eliminate the need to reduce Keswick Dam releases every Spring to place the Anderson-Cottonwood irrigation District's Diversion Dam into operation, and every Fall to take the Dam out of operation. Additionally, the program will include structural measures need to address upstream migrating adult salmon passage problems at the Diversion Dam due to inadequate ladder attraction flows. The cost of this action shall be allocated under section 6(f)(3).

(B) The Secretary shall develop and implement a program to minimize fish passage problems for salmon at the Central Valley Project Red Bluff Diversion Dam. The cost of this action shall be allocated under section 6(f)(4).

(C) The Secretary shall develop and implement a program to augment natural production of salmon and steelhead trout population levels in the San Joaquin River system in above normal water years through means of artificial production. The cost of this action shall be allocated under section 6(f)(2).

(D) The Secretary shall construct and operate a new satellite hatchery to augment the single and dual purpose channels at the Tehama Colusa Fish Facility and to further mitigate the impact of Shasta Dam on fishery resources. The new satellite hatchery shall be located at a suitable location upstream of the Red Bluff Diversion Dam. This new hatchery shall be operated by the California Department of Fish and Game under contract with the Secretary. The cost of this action shall be allocated under section 6(f)(2).

(E) The Secretary shall construct a salmon and steelhead trout hatchery on the Yuba River. The Secretary shall negotiate and execute a contract with the California Department of Fish and Game to operate the hatchery. The objective of such hatchery is to assist in California's efforts to realize the full potential of salmon and steelhead trout natural production on that river and to assist in maintaining the existing runs of salmon and steelhead trout and create enhancement potential for natural production in above normal water years. The cost of this action shall be allocated under section 6(f)(3).

(F) The Secretary shall negotiate and execute an agreement with the California Department of Fish and Game by December 31, 1993 that requires the release of the minimum flows necessary to take full advantage of the spawning, incubation, rearing and outmigration potential of the upper Sacramento River and the Lower American River for salmon subject to the physical capabilities of the Central Valley Project facilities involved. The Agreement shall provide for less than these minimum flows in dry and critical water years if the Secretary determines that in so doing he can minimize the impacts of providing the fishery flows on other Central Valley Project authorized purposes, provided the fishery benefits lost in those years are offset by enhancing spawning, incubation, rearing and outmigration conditions in other water years. The cost of this action shall be allocated under section 6(f)(1). The Secretary is authorized to assist in the funding of biological studies, in cooperation with the California Department of Fish and Game and the California State Water Resources Control Board, focused on furthering the scientific understanding of the salmon fishery in these rivers and to provide the information needed to verify that the intended fishery benefits are being provided by the minimum fishery requirements in this agreement and to allow for adjustments to the flow requirements in the future, if needed. If the Secretary and the California Department of Fish and Game determine that the flow conditions in the upper Sacramento River and the lower American River provided by the Central Valley Project under this agreement are better than conditions that would have existed in the absence of the Central Valley Project facilities, the enhancement provided shall become credits to be provided Central Valley Project water and power contractors to offset future mitigation responsibilities identified pursuant to section 6(d).

(G) The Administrator of the Environmental Protection Agency is directed to expedite and by no later than December 31, 1995, complete efforts to clean up mines causing intermittent releases of lethal concentrations of dissolved metals from the Spring Creek Debris Dam. In the interim, the Secretary shall provide water from Keswick Dam sufficient to dilute the Spring Creek Debris Dam discharges to concentration levels that allow survival of fish life below Keswick Dam except when the United States Corps of Engineers' flood control criteria for Shasta Dam limit that capability. The cost of this action, not including the cost of EPA actions, shall be allocated under section 6(f)(3). If the Administrator of the Environmental Protection Agency fails to complete such efforts by December 31, 1995, all such costs shall be assumed by the Agency.

(H) The Secretary shall provide flows to allow sufficient spawning, incubation, rearing and outmigration conditions for salmon and steelhead trout from Whiskeytown Dam as determined by instream flow studies conducted by the California Department of Fish and Game after Clear Creek has been restored and a new fish ladder has been constructed at the McCormick-Saeltzer Dam. The cost of providing the required flows shall be allocated under section 6(f)(1). Any federal cost associated with the restoration of the Clear Creek or in the construction of a fish ladder at the McCormick-Saeltzer Dam shall be allocated under section 6(f)(3).

(I) The Secretary is authorized to construct, in partnership with the State of California, a barrier at the head of Old River in the Sacramento-San Joaquin Delta, by December 31, 1995 to partially mitigate the impact of the Central Valley Project and State Water Project pumping plants in the south Sacramento-San Joaquin Delta on the survival of young outmigrating salmon that are diverted from the San Joaquin River to the pumps. The Secretary shall consider the effect of this barrier on South Delta channels, and if determined appropriate, shall construct other necessary South Delta barriers. The cost of constructing, operating and maintaining the barrier shall be shared 50% by the State of California and 50% by the federal government. The federal share shall be allocated under section 6(f)(1).

(J) The Secretary shall participate with the State of California and other federal agencies in the implementation of the ongoing program to mitigate fully for the fishery impacts associated with the operations of the Glenn-Colusa Irrigation District's Hamilton City Pumping Plant. Such participation shall include replacement of the defective fish screens and fish recovery facilities associated with the Hamilton City Pumping Plant. This authorization shall not be deemed to supersede or alter existing authorizations for the participation of other federal agencies in the mitigation program. The cost of this action shall be allocated under section 6(f)(3).

(K) The Secretary shall assist in the funding, in coordination with the California Department of Fish and Game, of enforcement measures that will reduce the numbers of striped bass illegally taken from the San Francisco Bay Estuary and Sacramento-San Joaquin Delta. The cost of this action shall be allocated under section 6(f)(3).

(L) The Secretary shall provide such assistance as may be requested by the State of California to develop and implement fishing regulations that will protect the older more productive striped bass females in order to maintain a viable reproducing striped bass population.

(c)(3) SAN JOAQUIN RIVER PLAN.—With respect to mitigation or restoration of upper San Joaquin River fish, wildlife, and habitat, the Secretary is directed to participate in the San Joaquin River Management Program under development by the State of California. In support of the objectives of the San Joaquin River Management Program and the Stanislaus and Calaveras Basin Environmental Impact Statement, and in furtherance of the purposes of this Act, the Secretary, in consultation with the Fish and Wildlife Advisory Committee and affected counties and interests, shall evaluate inbasin needs in the Stanislaus River basin, and shall investigate alternative storage, release, and delivery regimes for satisfying both in-basin and out-of-basin needs. Alternatives to be investigated shall include, but shall not be limited to, conjunctive use operations, conservation strategies, exchange arrangements, and the use of base and channel maintenance flows to assist in efforts to restore fish and wildlife populations and riparian habitat values in the San Joaquin River. Nothing in this Act or the amendments to the Act of August 26, 1937 shall be construed as requiring a reestablishment of flows between Gravelly Ford and the Mendota Pool for mitigation or restoration of fish, wildlife and habitat.

(c)(4) WETLAND HABITAT AREAS.—In support of the objectives of the Central Valley Habitat Joint Venture and in furtherance of the goals and objectives of this Act, the Secretary, directly and/or in cooperation with other State, Federal and local agencies, is authorized and directed to provide firm water supplies of suitable quality to maintain and improve wetland habitat areas on units of the National Wildlife Refuge System in the Central Valley of California; in the Gray Lodge, Los Banos, Volta, North Grasslands, and Mendota state wildlife management areas; and in the Grassland Resources Conservation District in the Central Valley of California. The Secretary shall implement his obligation to provide such firm water supplies through long-term contracts where the primary source of supply is the Central Valley Project or other federal sources; shall enter into contracts or take other appropriate action to firm up supplies provided by state, local and private water suppliers; and shall provide supplemental or interim contracts where needed to supplement supplies from non-federal sources.

(A) Upon enactment of this Act, the quantity and delivery schedules of water for each wetland habitat area described in this paragraph shall be in accordance with Level 2 of the "Dependable Water Supply Needs" table for those habitat areas as set forth in the Refuge Water Supply Report, and two-thirds of the water supply needed for full habitat development for those habitat areas identified in the San Joaquin Basin Action Plan/Kesterson Mitigation Action Plan Report prepared by the Bureau of Reclamation. Such water shall be supplemented by the incremental water supply provided for in subparagraph (B) of this paragraph. Central Valley Project costs associated with the implementation of this subparagraph shall be treated as costs of main project features and shall be first allocated among Central Valley Project purposes, with reimbursable costs then allocated between Central Valley Project water and power contractors pursuant to applicable statutory and regulatory procedures; Provided, that costs for Level 1 water supplies identified on the "Dependable Water Supply Needs" table for those habitat areas set forth in the Refuge Water Supply Report shall not be allocated for reimbursement by the Central Valley Project to the extent such costs were not costs of the Central Valley Project or were non-reimbursable costs of the Central Valley Project prior to the date of enactment of this Act. The discharge of obligations by the Secretary under this subparagraph (A) provides full mitigation for wetland impacts of the Central Valley Project.

(B) Not later than ten years after enactment of this Act, the quantity and delivery schedules of water for each wetland habitat area described in this paragraph shall be in accordance with Level 4 of the "Dependable Water Supply Needs" table for that habitat area as set forth in the Refuge Water Supply Report, and the full water supply needed for full habitat development for those habitat areas identified in the San Joaquin Basin Action Plan/Kesterson Mitigation Action Plan Report prepared by the Bureau of Reclamation. The increment of water required to supplement the quantities provided under subparagraph (A) of this paragraph shall be acquired by the Secretary in cooperation with the State of California, the Central Valley Habitat Joint Venture, and other interests under the authority of section 7 of this Act. Fifty percent of the costs associated with implementation of this subparagraph shall be considered a nonreimbursable Federal expenditure, and 50 percent shall be paid by the State of California.

(C) The Secretary may temporarily reduce deliveries of Central Valley Project water provided under subparagraph (A) of this paragraph only when reductions are imposed upon agricultural deliveries of Central Valley Project water; Provided, that such temporary reductions shall be equal to reductions imposed on non-water rights Central Valley Project agricultural contractors; Provided further, that the Secretary shall be authorized and directed to utilize money available in the Restoration Fund created pursuant to section 6(h) of this Act, in order to acquire supplemental sources of water for the purposes of subparagraph (A) of this paragraph during all years when such shortages are imposed on agricultural deliveries. The Secretary may temporarily reduce deliveries of Central Valley Project water provided under subparagraph (B) of this paragraph only when reductions are imposed upon agricultural deliveries of Central Valley Project water; the delivery priority or priorities applicable to the increment of water provided under subparagraph (B) of this paragraph shall be the priority or priorities which applied to the water in question prior to its acquisition for the purpose of providing such increment.

(D) The Secretary is authorized and directed to construct and/or to acquire from non-federal entities such water conveyance facilities and conveyance capacity, and to construct or acquire such wells as are necessary to implement the requirements of this paragraph, including, but not limited to, conveyance needed to avoid an adverse effect on the Secretary's ability to deliver water pursuant the Secretary Central Valley Project contractual obligations because of limitations in conveyance capacities. Central Valley Project costs associated with the implementation of this subparagraph shall be treated as capital expenditures. To the extent new or supplemental conveyance is acquired or constructed to allow delivery of water to and through, but not exclusively within, the wildlife habitat areas described in subparagraph (A) of this paragraph, costs shall be allocated and recovered in accordance with subparagraph (A); to the extent such conveyance is acquired or constructed to allow delivery of the incremental water supply set forth in subparagraph (B) of this paragraph, costs shall be allocated in accordance with subparagraph (B).

(E) The Secretary, in consultation with the State of California, the Central Valley Habitat Joint Venture, and other interests, shall investigate and report on the following supplemental wetland habitat actions on or before September 30, 1997:

(i) alternative means of improving the reliability and quality of water supplies currently available to privately owned wetlands in the Central Valley and the need, if any, for additional supplies; and (ii) water supply and delivery requirements necessary to permit full habitat development for water dependent wildlife on 120,000 acres supplemental to the existing wetland habitat acreage identified in Table 8 of the Central Valley Habitat Joint Venture's "Implementation Plan" dated April 19, 1990, as well as feasible means of meeting associated water supply requirements.

(d) ADDITONAL HABITAT RESTORATION ACTIONS.—Subject to the criteria in section 6(e), the Secretary in consultation with the Governor of California shall identify additional actions that would provide mitigation of Central Valley Project impacts on Central Valley fish and wildlife habitat and would protect and restore Central Valley fish and wildlife habitat. The Secretary shall develop the information needed to evaluate these actions technically, determine the economic and biological feasibility using the criteria established in section 6(e), determine appropriate cost allocations specific to each action, and select actions to recommend to Congress for authorization to implement. The Secretary shall make its first report to Congress no later than December 31, 1996 and shall report every five years thereafter, at a minimum, until the year 2010. Fish and wildlife habitat issues to be evaluated by the Secretary shall include, but not be limited, to the following:

(1) Determination of the flows and habitat restoration measures needed to protect, restore and enhance salmon and steelhead trout in the San Joaquin River below the confluence with the Merced River, Mokelumne River, and Calaveras River and in the Butte, Deer, Mill, and Battle Creeks, which are tributary to the Sacramento River, and development of feasible means of maintaining those flows and implementing the habitat restoration measures identified.

(2) Investigation of actions allowing closure or screening of the Delta Cross Channel and Georgiana Slough to prevent the diversion of out-migrating salmon and steelhead trout through those facilities.

(3) As a means of increasing survival of migrating young fish, investigation of the feasibility of using short pulses of increased water flows to move salmon, steelhead trout, and striped bass into and through the Sacramento-San Joaquin Delta.

(4) Investigation of ways to maintain suitable temperatures for young salmon survival in the lower Sacramento River and in the Sacramento-San Joaquin Delta by controlling or relocating the discharge of irrigation return flows and sewage effluent.

(5) Investigation of the need for additional hatchery production to mitigate the impacts of water development on Central Valley fisheries where no other feasible means of mitigation is available or where hatchery production would enhance efforts to increase natural production of a particular species.

(6) Investigation of measures available to correct flow pattern problems in the Sacramento-San Joaquin Delta created by the operation of the Central Valley Project and the California State Water Project as well as San Francisco Bay inflow pattern changes caused by the operation of water development projects in the Central Valley.

(7) Evaluation of measures to avoid unquantified losses of juvenile anadromous fish due to unscreened or inadequately screened diversions on the Sacramento and San Joaquin Rivers, their tributaries, and in the Sacramento-San Joaquin Delta such as construction of screens on unscreened diversions, rehabilitation of existing screens, replacement of existing non-functioning screens, and relocation of diversions to less fishery-sensitive areas.

(8) Elimination of barriers to upstream migration of salmon and steelhead trout adults to spawning areas downstream of existing storage facilities in the Central Valley caused by agriculture diversions and other obstructions which reduce the natural production of these species as well as removal programs or programs for the construction of new fish ladders.

(e) SOCIAL, ECONOMIC AND BIOLOGICAL CONSIDERATIONS.—In fulfilling their responsibilities as specified in sections 6(c)(2) and 6(d), the Secretary shall consider the following criteria and factors, and issue findings thereon, when determining which alternate programs, policies or procedures should be implemented to protect and restore fish and wildlife conditions. The alternative programs available to implement specific actions in sections 6(c)(2) and 6(d) that best meets all of the following criteria shall be selected.

(1) Natural production alternatives shall be given priority over artificial production alternatives when possible;

(2) Alternatives that have the highest biological probability of achieving the desired objective shall be preferred.

(3) Alternatives that provide a greater magnitude of potential benefits shall be given priority over alternatives which have a lesser magnitude of potential benefits.

(4) Alternatives that are determined to be the most cost effective, measured in economic terms considering impacts within the Central Valley Project service area's water and power resources and related industries.

(f) COST ALLOCATIONS.—The fiscal cost of implementing actions listed in sections 6(c)(1) and selected pursuant to section 6(c)(2) shall be allocated as follows:

(1) Costs specified within sections 6(c)(1) and 6(c)(2) as allocated under this subsection shall be first allocated among Central Valley Project purposes, with reimbursable costs then allocated between Central Valley Project water and power contractors pursuant to applicable statutory and regulatory procedures and assessed pursuant to the provisions of section 6(h) of this Act.

(2) Costs specified within sections 6(c)(1) and 6(c)(2) as allocable under this subsection shall be allocated 37.5% to the Central Valley Project, 37.5% as a Federal non-reimbursable cost, and 25% payable by the State of California. Central Valley Project costs shall be first allocated among Central Valley Project purposes with reimbursable costs then allocated between Central Valley Project water and power contractors and assessed pursuant to the provisions of section 6(h) of this Act. Central Valley Project costs determined to be non-reimbursable shall be added to the Federal non-reimbursable costs.

(3) Costs specified within sections 6(c)(1) and 6(c)(2) as allocable under this subsection shall be allocated 50% as a Federal non-reimbursable cost and 50% to the State of California.

(4) Costs associated with actions that are determined to be a Central Valley Project responsibility under sections 6(f)(1) and 6(f)(2) that pay for the replacement of existing Central Valley Project facilities that have not properly mitigated the effects of the Central Valley Project on the environment because of design errors by Federal agencies, shall be allocated as a Federal non-reimbursable cost.

(5) Central Valley Project power shall be used to supply the capacity and energy needs of actions identified in sections 6(c)(1) and 6(c)(2) where the costs or a portion of the costs have been allocated to the Central Valley Project as a reimbursable cost pursuant to subsections (1) and (2) of this section. The value of the Central Valley Project power, calculated as the cost of obtaining dependable power from other available sources, shall be credited against the Central Valley Project power contractors' share of the cost of actions that are mitigating the effects of the Central Valley Project and the effects of others on Central Valley fish and wildlife habitat as determined pursuant to section 6(f)(2).

(6) Notwithstanding any other provisions of this Act, the Secretary shall not undertake any action authorized herein unless the State of California makes appropriate commitments to participate in the actions identified in this Act, provides relevant state approvals for identified actions, and agrees to participate in the cost sharing provisions of this Act. Where local agency action or approval is required within this Act, the Secretary shall not proceed unless that local agency approval or participation is secured: *Provided*, however, that nothing herein is intended to require Central Valley Project water or power contractors' approval or participation as a condition on the Secretary's ability to proceed with the mandated actions.

(7) Notwithstanding any other provisions of this Act, no actions authorized in this Act shall be implemented unless such actions are consistent with state water law and will not constitute an unreasonable use of water as that term is used within Article X, section 2, of the Constitution of the State of California.

(g) ADDITIONAL AUTHORITIES.—

(1) The Secretary is authorized to promulgate such regulations and enter into such agreements as may be necessary to implement the purposes and provisions of this Act.

(2) In order to carry out the purposes and provisions of this section, the Secretary is authorized, consistent with state law, to obtain water supplies from any source available to the Secretary: Provided, that such acquisition shall be pursuant to State law and any purchases shall be from willing sell-

ers only. The Secretary, however, except as specifically provided herein, shall not diminish water supplies available to Central Valley Project contractors without compensation.

(3) The Secretary is authorized to increase, on a permanent basis, the yield of the Central Valley Project.

(4) The Secretary shall determine and implement the actions mandated in this act in the most efficient and cost effective means available, and in a manner consistent with the transfer of the Central Valley Project to the State of California. Should the Secretary determine that the State of California or a local agency of the State of California is best able to implement an action authorized by this Act, the Secretary shall negotiate with the State of California or a local agency of the State of California an agreement which would allow the State of California or a local agency of the State of California to undertake the identified action. In the event no such agreement can be negotiated, the Secretary shall proceed to implement the action through means available to him.

(5) The Secretary is hereby authorized and directed as an integral part of this Act, to initiate studies of any and all facilities that would assist in fully meeting the fish and wildlife purposes of this Act. The Secretary shall, for each facility identified, also study the feasibility of these facilities for other purposes, including, but not limited to, water and power supplies. Cost allocations for identified multiple purpose facilities should be in accordance with the allocation of water developed or conveyed or otherwise made available by those facilities.

(h) FUNDING.—

(1) Authorization. There are authorized to be appropriated such sums as may be necessary to carry out the purposes and provisions of this Act. Funds appropriated under this section are authorized to remain available until expended.

(2) Central Valley Project Water Contractors Repayment. The amount to be repaid by water contractors under sections 6(f)(1) and 6(f)(2) of this Act shall be collected as follows:

(i) Notwithstanding the provisions of section 105 of P.L. 99-546, the amount to be repaid by the Central Valley Project water contractors under sections 6(f)(1) and 6(f)(2) shall be capitalized for a period necessary to insure repayment, consistent with the provisions of sub-section 6(h)(2)(ii).

(ii) Annual payment of the capitalized costs to be repaid by the Central Valley Project agricultural water contractors under sections - 6(f)(1) and 6(f)(2) shall not exceed an amount within the probable ability of water users to pay.

(iii) The annual payments set forth in subsection 6(h)(2)(ii), together with interest thereon, shall be placed into a Central Valley Project Water Contractors Fund to be established by the Secretary. The first assessment shall be collected as part of water charges during the first water year which commences at least ninety days after enactment. The Central Valley Project Water Contractors Fund shall be utilized exclusively to repay costs to Central Valley Project water contractors incurred under sections 6(f)(1) and 6(f)(2). The Secretary is authorized to use the funds within the Central Valley Project Water Contractors Fund, for these purposes, without further authorization, but subject to appropriation.

(iv) The provisions of this sub-section 6(h)(2)(i) shall apply only to Central Valley Project water delivered to Central Valley water contractors for water delivered under contract with the Bureau of Reclamation pursuant to which additional payments for such water are required.

(3) Central Valley Project Power Contractors Repayment. The amount to be repaid by Central Valley Project power contractors, pursuant to sections 6(f)(1) and 6(f)(2), shall be collected by the Secretary in accordance with existing law, policy, and practices for the repayment, by Central Valley Project power contractors, of operation and maintenance and capital costs allocated to those power contractors.

(4) Cost Sharing. The State of California and other parties identified in sections 6(f)(2) and 6(f)(3) shall pay an amount equal to the amount allocated within those sections each year. In addition to cost outlays or payments to the Treasury of the United States, the Secretary may consider as a financial contribution by the State of California, Central Valley Project contractors, or other parties identified in sections 6(f)(2) and 6(f)(3) the value of contributions of personal or real property or personnel which the Secretary determines is beneficial to the achievement of the objectives of this Act. Such contributions may include the provisions of water or water conveyance capacity to meet the requirements of this Act.

(5) Remaining Costs. The remaining costs shall be considered non-reimbursable costs as a federal contribution for preserving, protecting, restoring and enhancing fish and wildlife resources within the Central Valley of California.

(6)(A) RESTORATION FUND ESTABLISHED.—There is hereby established in the Treasury of the United States the "Central Valley Project Restoration Fund" (hereafter "Restoration Fund") which shall be available for deposit of charges and donations from any source provided under this Act. Amounts deposited shall be credited as offsetting collections.

(B) AUTHORIZATION OF APPROPRIATIONS.—Such sums as necessary, of at least $20,000,000 per year, are authorized to be appropriated to the Secretary to be derived from the Restoration Fund to carry out the programs and plans adopted pursuant to section 6(c), section 6(d), section 6(g)(2) and the habitat restoration, improvement, and acquisition (from willing sellers) provisions of this Act. Any funds paid in to the Restoration Fund by Central Valley Project water and power contractors and which are also utilized to pay for the projects and facilities set forth in section 6(c) and section 6(d) shall act as an offset against any water contractor cost share obligations that are otherwise provided for in this Act.

(C) ADDITIONAL CHARGE FOR WATER USERS.—

(i) General Authority. To the extent required in appropriation Acts, the Secretary shall assess and collect an additional annual charge consisting of charges of direct beneficiaries of the Central Valley Project under (D) of this subsection in order to recover a portion of all of the costs of fish, wildlife and habitat restoration programs and projects authorized under this Act.

(ii) Charges Contingent on Appropriation Authority. The charge described in (C)(i) of this subsection shall be established at amounts that will result in collection, during each fiscal year, of an amount that can reasonably be expected to equal the amount appropriated for such year to carry out activities authorized pursuant to (B) of this subsection.

(D) ADJUSTMENT AND ASSESSMENT OF CHARGES.—

(i) Adjustment Procedure. In assessing the charge to carry out (C) of this subsection, the Secretary shall, prior to each fiscal year, estimate the maximum amount that could be collected in each fiscal year under (D)(ii) of this subsection. The Secretary shall decrease all such charges on a proportionate basis from amounts contained in the estimate so that an aggregate amount is collected pursuant to the requirements of paragraph (c)(ii) of this subsection.

(ii) Assessment and Collection of charges. The Secretary shall assess and collect the following charges subject to the requirements of (D)(i) of this subsection:

(A) Additional Charges Allocated to CVP agricultural water users. The Secretary shall impose on Central Valley Project agricultural water contractors such additional annual charges as are necessary, up to $20,000,000, to be deposited in the Restoration Fund: *Provided*, that such charges shall be allocated so as to not exceed $4.00 per acre-foot for agricultural water sold and delivered by the Central Valley Project; $2.00 per acre-foot for municipal and industrial water sold and delivered by the Central Valley Project; *Provided further*, that the charge imposed on agricultural water shall be reduced, if necessary, to an amount within the probable ability of the water users to pay.

(B) New Central Valley Project Customer Access Charge. The Secretary shall impose an additional annual charge of up to $15.00 per acre foot for Central Valley Project water sold by or transferred to any state or local agency which is not within the area watershed or county of origin as those terms are defined in California law and has not previously been a Central Valley Project customer, and which contracts with the Secretary or with any other individual or district receiving Central Valley Project water, to purchase or otherwise transfer any such water for its own use, to be deposited in the Restoration Fund.

(E) FUNDING TO NON-FEDERAL ENTITIES.—If the Secretary determines that the State of California or an agency thereof, or other non-profit entity concerned with water management, restoration, protection or enhancement of fish, wildlife, habitat, or environmental values is best able to implement an action authorized by this Act in an efficient, timely and cost effective manner, the Secretary is authorized to provide funding to such entity to implement the identified section.

(F) RESTORATION FUND FINANCIAL REPORTS.—The Secretary shall, not later than the first full fiscal year after enactment of this Act, and annually thereafter, submit a detailed report to the Committee on Energy and Natural Resources and the Committee on Appropriations of the Senate and the Committee on Interior and Insular Affairs and the Committee on Appropriations of the House of Representatives. Such report shall describe all uses made of moneys within the Restoration Fund during the prior fiscal year and include the Secretary's projection with respect to the uses to be made of the funds during the next upcoming fiscal year.

SEC. 7. PROVISIONS FOR TRANSFER OF CENTRAL VALLEY PROJECT WATER.

(a) TRANSFERS WITHIN THE CENTRAL VALLEY PROJECT SERVICE AREA.—Subject to the provisions of section 7(f), the Secretary is authorized to approve all transfer agreements among Central Valley Project contractors and between Central Valley Project contractors and non-contractors involving Central Valley Project water within the authorized Central Valley Project service area.

(b) Transfers Which Result in No Net Export of Water Outside the Central Valley Project Service Area.—Subject to the provisions of section 7(f), the Secretary is authorized to approve all transfer agreements between Central Valley Project contractors and parties outside of the Central Valley Project service area upon the determination that as a result of the proposed transaction over the term of the transfer agreement there is no net export of water out of the Central Valley Project service area of the transferor.

(c) Transfers Which Result in a Net Export of Water Outside the Central Valley Project Service Area.—Except for transactions authorized under sections 7(d) and 7(e) and subject to the provisions of section 7(f), the Secretary is authorized to approve all transfers between Central Valley Project water contractors and parties outside of the Central Valley Project service area where the Secretary determines that as a result of the proposed transaction over the term of transfer agreement there will be a net export of water out of the service area of the transferor, provided that the transfer meets the following conditions:

(1) The water being transferred would not otherwise be available to other consumptive beneficial uses absent implementation of the program; and

(2) Over the term of the agreement in question, the transfer will have no significant, long-term, adverse impact on groundwater conditions in the transferor's service area.

(d) Transfers of Water Developed Through Temporary Fallowing or Permanent Land Fallowing.—Subject to the provisions of section 7(f), the Secretary is authorized and directed to approve transfers of Central Valley Project water within or outside of the authorized Central Valley Project service area where the water to be transferred is available for transfer because of the implementation, by the transferor or landowner, of a temporary fallowing or permanent land fallowing program, including land retirement, provided that the involved Central Valley Project water contractor determines that the following conditions are satisfied:

(1) The program will have no significant long-term adverse impact on groundwater conditions.

(2) The water developed under the program shall be that water that would have been consumptively used on crops had those crops been produced during the year(s) of the transfer or water that would have otherwise been lost for beneficial use.

(3) No more than 70% of the water developed under such transfer shall be made available for export out of the Central Valley Project service area with 10% distributed within the transferor's service area to assist in the protection of groundwater resources and 20% applied to fish and wildlife purposes within the Central Valley Project service area pursuant to a program approved by the Secretary.

(4) In order to avoid adverse third party impacts the total quantity of water exported under all such transfers by the transferor or landowner shall not exceed 20% of the total annual water supply delivered by the Central Valley Project that otherwise would have been available in any particular year for use within the service area of the transferor or 3,000 acre-feet, whichever is greater.

(5) The program will have no unreasonable impacts on water supply, operations or financial condition of the water contractor or its water users.

(f) General Provisions.—The following provisions shall also apply to any transfer:

(1) No program and/or agreements authorized under this Act shall be approved unless the action is between a willing buyer and a willing seller under such terms and conditions as may be mutually agreed upon;

(2) No program and/or agreements authorized under this Act shall be approved unless the proposed action is consistent with State law including, but not limited to, the provisions of the California Environmental Quality.

(3) All programs and/or agreements authorized under this Act must include a Central Valley Project water contractor as a transferor and as a contracting party. The criteria established within section 7(d) are intended to govern the exercise of a Central Valley Project water contractor's approval of a transfer proposed by a landowner within the service area of the Central Valley Project water contractor. The provisions of this Act are only intended to govern the transfer of Central Valley Project water.

(4) Notwithstanding any contrary provisions contained within Central Valley Project water contracts, in implementing programs and/or agreements authorized under this Act, there shall be no limitations on the use of agricultural water for municipal and industrial purposes or municipal and industrial water for agricultural purposes. All transferees of Central Valley Project water shall strictly comply with acreage and pricing requirements of reclamation law applicable to the actual use of Central Valley Project water by the transferee, rates for the applicable uses of water by the transferee shall apply to the transferee during the year or years of actual transfer and shall not be applied to the transferor.

(5) All agreements entered into pursuant to this Act between Central Valley Project water contractors and entities outside of the Central Valley Project service area shall be subject to a right of first refusal on the same terms and conditions by entities within the Central Valley Project service area. The right of first refusal must be exercised within ninety days from the date that notice is provided of the proposed transfer. Should an entity exercise the right of first refusal, it must compensate the transferee who had negotiated the agreement upon which the right of first refusal is being exercised for that entity's full costs associated with the development and negotiation of the agreement.

(6) Agreements entered into pursuant to this Act shall not be considered as conferring new, supplemental or additional benefits, nor shall they be otherwise subject to the provisions of section 203 of P.L. 97-293 [43 U.S.C. §390(cc)].

(7) No programs and/or agreements authorized under this Act shall be approved unless the Secretary has determined that the action will have no adverse effect on the Secretary's ability to deliver water pursuant to the Secretary's Central Valley Project contractual obligations because of limitations in conveyance or pumping capacity.

(8) Notwithstanding any other provisions of this Act, after September 30, 1996 or upon enactment of California State Law, whichever is first, all Central Valley Project water transfers shall be governed by the provisions of section 7(f) of this Act and State law.

(g) The Establishment of Central Valley Project Water Contract Transfer Security and Certainty.—

(1) All existing and future contracts for Central Valley Project water shall be deemed to allow for the transfers and exchanges provided for within this section.

(2) All agreements entered into under sections 7(b), 7(c), 7(d) and 7(e) of this Act shall provide that, during the year(s) of actual transfer, Central Valley Project water subject to transfer shall be repaid at "full cost" as that term is defined at 43 U.S.C. Sec. 390(bb).

SEC. 8. AGRICULTURAL WATER CONSERVATION FEASIBILITY STUDIES.

(a) General.—The objective of this section is to encourage implementation of financially feasible water conservation practices. Water conservation practices include those practices which make water available that would not otherwise have been available to Central Valley streams or which do not worsen groundwater conditions. Water conservation, for the purposes of this Act, does not include land following.

(b) Water Conservation Feasibility Studies.—All existing Central Valley Project agricultural contractors shall submit a report to the Secretary which identifies water conservation practices within two years after enactment of this Act. For such practices identified, the report shall analyze the cost and benefits to that entity and its customers of implementing each of the water conservation practices listed in this section, to the extent they apply to that entity, and any additional practices the Secretary determines should be analyzed.

(1) Water management:

(i) monitoring water supplies, deliveries and accounting;

(ii) providing farmers with crop evapotranspiration information; and providing scheduling procedures for ordering water which correspond with demand for irrigation water to the extent practical;

(iii) monitoring of surface water qualities and quantities;

(iv) monitoring of groundwater elevations and quality; and,

(v) monitoring of quantity and quality of drainage waters within facilities the district owns or controls.

(2) District Facility Improvements:

(i) improving the maintenance or upgrading of water measuring devices;

(ii) automating canal structures;

(iii) lining or piping ditches and canals;

(iv) modifying distribution facilities to increase water delivery flexibility;

(v) constructing or lining regulatory reservoirs;

(vi) developing recharge basins, implementing in lieu recharge programs or other means of recharging groundwater basins when adequate supplies are available; and

(vii) evaluating and improving pump efficiencies of district pumping facilities.

(3) District Institutional Adjustments:

(i) improving communications and cooperation among districts, farmers and other agencies;

(ii) adjusting the water fee structure to provide incentives for efficient use of water and to reduce drainage discharges;

(iii) increasing flexibility in the ordering and timing of deliveries to meet crop demands; and

(iv) increasing conjunctive use of groundwater and surface water.

(4) District Water User Water Management Programs:

(i) assisting the facilitation of the financing of physical improvements for district and on-farm irrigation systems;

(ii) providing educational seminars for staff and farmers; and conducting public information programs, which seminars and programs shall address the following subjects, to the extent applicable to the area; and

(A) improving existing on-farm and district-wide irrigation efficiency;

(B) monitoring of soil moisture and salinity;

(C) promoting of efficient per-irrigation techniques;

(D) promoting of on-farm irrigation system evaluations;

(E) constructing tail-water deliveries;

(F) improving on-farm irrigation and drainage systems; and

(G) evaluating and improving water user pump efficiencies.

(iii) providing water users with crop evapotranspiration data and information.

(c) BENEFITS AND COSTS.—The benefits and costs of implementation of specific water conservation practices shall be evaluated through analysis of, but not limited to, the impact on the following:

(1) water usage;

(2) electrical energy usage;

(3) labor and equipment required, including costs of training personnel;

(4) crop yields;

(5) reduction or increase in drainage related problems;

(6) fish and wildlife habitat conditions;

(7) costs of construction;

(8) costs of operation and maintenance;

(9) costs of water information programs; and

(10) costs of computer equipment and software.

SEC. 9. IMPLEMENTATION.

(a) AGRICULTURAL CONTRACT WATER CONSERVATION REQUIREMENTS.—All Central Valley Project agricultural contractors shall develop a plan for implementation of water conservation practices determined by the entity within the water conservation report required under section 8 of this Act to be financially and otherwise feasible for the specific entity. The entity shall complete the plan for implementation within one year after completion of the report required in section 8. Financially feasible conservation practices which will cause environmental harm, including, but not limited to, adversely affecting groundwater conditions, or are inconsistent with other requirements of law, shall not be required to be implemented.

(b) ON-FARM WATER CONSERVATION INCENTIVE PROGRAM.—There is hereby established a Water Conservation Incentive Program, which shall be administered by the Secretary to encourage and assist with the on-farm implementation of the water conservation practices set forth in section 8(b)(4). Said program shall be a Guarantee Loan Program, and the Secretary may enter into a Memorandum of Understanding with the Secretary of Agriculture to administer such program in conjunction with other programs offered through the Department of Agriculture.

(c) MUNICIPAL AND INDUSTRIAL CONTRACT WATER CONSERVATION REQUIREMENTS.—The Secretary shall require all Central Valley Project municipal and industrial water users, to the extent they provide retail, municipal and industrial water service, to comply with the provisions of the September 19, 1991, "Memorandum of Understanding regarding Urban Water Conservation in California".

(d) SECRETARIAL REVIEW.—The Secretary shall evaluate the benefits and cost analysis for each of the water conservation practices found by the specific water user preparing the water conservation reports required by section 8 of this Act to be not feasible and determined the following:

(1) Which water conservation practices, if implemented, would make additional water available to Central Valley streams or to a usable groundwater basin that would not otherwise be available in the absence of implementation of the water conservation practice.

(2) For each water conservation practice identified in section 9(d)(1), the benefit/cost ratio of implementing that water conservation practice if that water were used to fulfill wildlife supply obligations established by this Act; or made available to other water agencies through the transfer provisions established by this Act.

(e) WATER CONSERVATION PRACTICES.—The Secretary may implement those water conservation practices identified which conserve water, are economically feasible, and which the Secretary determined are prudent, through implementation of the identified water conservation practice with the entity holding the contractual right to the water conserved and then making that water available to use by Central Valley refuges as required by provisions of this Act, provided that an agreement is entered into between the entity and Secretary that insures the entity and its water users are not damaged by such measures, including, but not limited to, increasing cost to the entity of its water users or interferes with the ability of the entity water users to produce crops. The Secretary shall fund the implementation of a specific water conservation practice in exchange for the use of the saved water. If the Secretary determines that purchasing water for the Central Valley refuges by implementing specific water conservation practices found to meet the requirements of section 9(d)(1) is not feasible, he shall make that water available to other California water agencies by negotiating and executing agreements between the United States, the entity holding the Central Valley Project contractual right to the saved water and entities interested in obtaining the conserved water in exchange for funding the implementation of the water conservation practice.

SEC. 10. CENTRAL VALLEY PROJECT TRANSFER.

(a) The Secretary shall cooperate with the Governor of the State of California to explore and negotiate provisions for the transfer of the Central Valley Project to the State of California. The Secretary shall report to the Congress on or before February 1 of each year on the Status of efforts to negotiate a transfer, the progress on steps necessary to comply with the requirements of the National Environmental Policy Act, the Development of any interim measures designed to achieve closer cooperation and operational efficiency between the Central Valley Project and the State Water Project, and the steps being taken to assure that any time deadlines agreed to between the Secretary and the Governor for completion of the NEPA process and the negotiations are being met.

(b) the Secretary shall credit any expenditures by the State of California in this act for fish and wildlife mitigation, protection and restoration to the purchase price negotiated by the Secretary and the State of California for the sale of the Central Valley Project.

The PRESIDING OFFICER. Under the same order the Finance Committee is discharged from further consideration of H.R. 3837, the Federal Program Improvement Act, all after the enacting clause is stricken and the text of that amendment 3408 is substituted in lieu thereof, the bill is considered read a third time and passed and the motion to reconsider that vote is laid upon the table.

So the bill (H.R. 3837) was passed, as follows:

Strike all after the enacting clause and insert:

The following text is added as subsection 781(c) of the Tariff Act of 1930 (19 U.S.C. 1677j(a)) and subsections (c)–(e) are renumbered subsections (d)–(f) respectively.

"(c) SPECIAL MERCHANDISE COMPLETED OR ASSEMBLED IN THE UNITED STATES OR IN OTHER FOREIGN COUNTRIES.—

"(1) SPECIAL PROVISION.—If—

"(A) merchandise sold in the United States is the same class or kind as any merchandise that is the subject of an antidumping duty order issued under section 736 on May 9, 1980 or August 28, 1991,

"(B)(i) such merchandise sold in the United States is completed or assembled in the United States from parts or components produced in the foreign country with respect to which the relevant order applies or supplied directly or indirectly by an exporter or producer covered by the order, or from parts or components from suppliers that have historically supplied the producer or to any other exporter or producer covered by the order, or from any party related to the exporter, producer, or historical supplier, whether such parts or components are supplied from the foreign country or any third country(ies), or

"(ii) before importation into the United States, such imported merchandise is completed or assembled in another foreign country from merchandise which—

(I) is subject to the relevant order.

(II) is produced in the foreign country with respect to which such order applies, or

(III) is supplied by an exporter or producer covered by the order, or by suppliers that have historically supplied that merchandise to that exporter or producer or to any other exporter or producer covered by the order, or by any party related to the exporter, producer, or historical supplier, whether such merchandise is supplied from the foreign country or any third country(ies), and

"(C) with respect to merchandise under paragraph (B)(ii), the administering authority determines that action is appropriate under such paragraph to prevent evasion of such order, and

"(D) the difference between the value of such merchandise sold in the United States and the value of the imported parts or components referred to in subparagraph (B)(1), or the merchandise referred to in subparagraph (B)(ii), is small, the administering authority, after taking into account any advice provided by the Commission under subsection (f), may include within the scope of the relevant order the imported parts or components referred to in subparagraph (B)(i) that are used in the completion or assembly of the merchandise in the United States, or such imported merchandise referred to in subparagraph (B)(ii), at any time such order is in effect. Parts or components not identified in subsection (c)(1)(B)(i) and merchandise not identified in subsection (c)(1)(B)(ii) shall not be included within the scope of the outstanding order if a finding of circumvention is made under this section.

"(2) FACTORS TO CONSIDER.—In determining whether to include parts or components, or merchandise assembled or completed in a foreign country, in the relevant antidumping duty order under paragraph (1), the administering authority shall take into account such factors as—

"(A) the pattern of trade,

"(B) (i) whether the manufacturer or exporter of the parts or components described in (1)(B)(i) is related to the person who assembles or completes the merchandise sold in the United States from the parts or components produced in the foreign country with respect to which the order described in subparagraph (1)(A) applies, or

"(ii) whether the manufacturer or exporter of the merchandise described in paragraph (1)(B)(ii) is related to the person who uses the merchandise described in paragraph (1)(B)(ii) to assemble or complete in the foreign country the merchandise that is subsequently imported into the United States, and

"(iii) whether imports into the United States of the parts or components described in subparagraph (1)(B)(i), or imports into the foreign country of the merchandise described in paragraph (1)(B)(ii)(I), (II) and (III), have increased after the filing of the petition, issuance of such order or, if the allegation of circumstance has been raised more than one year after the issuance of such order, have increased since the time circumvention is alleged to have commenced.

"(C) FORCE AND EFFECT.—This section shall have no force or effect if the petitioner in the investigations referenced in paragraph (a)(1) ceases production or final assembly if such products in the U.S. or shifts the sourcing of major components to a foreign country.".

The Chair recognizes the Senator from Colorado.

Mr. BROWN. Mr. President, I ask unanimous consent to proceed for 30 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

CENTRAL VALLEY PROJECT

Mr. BROWN. Mr. President, I want to address briefly and concisely four subjects this evening. The first relates to the Central Valley project that was just discussed in depth by both the Senator from California and the distinguished Senator from New Jersey. I might say, as having spent my productive lifetime earning a living in agriculture, I wanted to share one viewpoint that I think may be somewhat foreign, or seem somewhat unusual to people who have not worked in agriculture.

The enormous impact indicated by the Senator from California, if, indeed, the Central Valley project measure goes through as was debated, is indeed significantly larger than simply the impact on the agriculture in the Central Valley.

How in the world can that be, some ask? Let me simply give, in answer, an analogy. Many people do not realize the enormous impact agriculture has, because it is not a final product. It is a raw material. Some agricultural production generates an enormous amount of spinoff economic activity.

In Colorado, for example, 200 to 300 workers in a feed lot finish enough cattle to generate many, many times their number of jobs. Those 200 to 300 workers in the feed lot will supply enough cattle to keep a packing plant busy. For those 200 to 300 feed lot workers the packing plant needs 1,100 workers.

The total number of workers is far more than simply those in the feed lot—in some cases, 5 to 6 times as many.

Those 1,100 packing plant workers are not the only impact. Other jobs are created from the byproducts. For instance, more workers are needed to cure hides, process the inedible meat products, and process the tallow. The fact is, there are another 1,000 jobs in addition to the packing plant jobs simply from the necessary processing of byproducts. But the impact does not stop yet.

A portion food plant that cuts those packing plant products into individual steaks could well employ another 4,500 more employees. A meat processing plant that would take a product and cook it, prepare it for the consumer and for grocery stores, might employ 200, 300, 400, 500, or even 1,000 more employees, depending upon how extensive the processing was. So, you see when you talk about economic impact of agricultural products as raw materials you barely scratch the surface.

A multiple such as the distinguished Senator from California used is very feasible and quite reasonable when you look at the total complete economic impact. I would assume the figure being quoted by the Senator from California in this debate related to this number. Whether you favor or oppose the project in California, the simple fact is, it is going to have an enormous impact on the economy of the State.

SENATOR WIRTH

Mr. BROWN. Mr. President, the second item I wanted to discuss are some remarks about the distinguished senior Senator from Colorado. Senator WIRTH'S announcement earlier this year that he would not seek reelection came as a surprise and a shock to many in Colorado. For Republicans it was an announcement greeted with great relief. Senator WIRTH is the toughest competitor we have had to face in the last two decades. He has been elected six times to the House of Representatives, one time to the U.S. Senate, and has never been beaten.

As senior Senator from Colorado he has compiled a distinguished record. He is as bright, as competitive and as aggressive as any Member we have had from Colorado.

He is bright, far more than his competitors would have wished. A bachelor's degree from Harvard, a masters in education from Harvard graduate school, a Ph.D. from Stanford University merely started him on his way.

That early ability was recognized when he was named as a White House Fellow in 1967 and 1968—a rare honor. I choose to think that he received that honor partly because he was bright enough to be a Republican in his early years, but there are those who would dispute that fact.

Education clearly is one of his fondest interests and one of his greatest dedications. It is not simply the field in which he holds a masters and a Ph.D.

He served in the old Department of Health, Education and Welfare in 1969 and 1970 as a special assistant to the Secretary and later as a deputy assistant to the Secretary of Education.

He has further demonstrated his commitment to education while serving in the House of Representatives and the U.S. Senate, and in his spare time working with young men and women, whether pages in the U.S. Senate or talking to classes throughout the State of Colorado.
